This Report deals with the provision of educational facilities available for children belonging to Scheduled Castes and Scheduled Tribes in the country during 1966-67. The information contained in this publication is mostly based on the educational data collected annually from all the States and Union Territories in a prescribed Form entitled 'Form A-1'. Besides depicting the progress of educational facilities provided to students belonging to Scheduled Castes and Scheduled Tribes during the year 1966-67, it gives inter-alia a comparative picture with the previous year.

2. The coverage of this publication is mainly restricted to the enrolment of children belonging to Scheduled Castes and Scheduled Tribes at different levels of education beginning from pre-primary education up to the highest stage of education with all the possible bifurcation into different standards of education. It also gives sex-wise and State-wise comparison of the progress of education among the children belonging to these castes. An attempt has also been made to work out the extent of coverage at different stages and levels of education in respect of these communities.

3. The population statistics included in this Report relate to 1971 Census Data and no attempt has been made to estimate the population of these communities for the year under report. Further, the publication gives mainly the statistical progress based on the factual data collected from various primary sources and no attempt has been made to draw any conclusion or insinuation, although some analysis of the data has been done wherever desirable with a view to give at a glance the progress of education among the children of various age-groups of these communities.

4. Appendices 'A' and 'B' give respectively the State-wise details of progress made in providing educational facilities to the Scheduled Caste and Scheduled Tribe communities.

5. Opportunity is taken to convey the thanks of the Ministry of Education & Social Welfare to all the State Governments and Administrations of Union Territories who supplied the basic statistics for the preparation of this publication.

S U M M A R Y

Educational facilities have expanded substantially in the country since Independence. This is reflected by the phenomenal increase in the number of institutions of different types, enrolment therein, number of teachers employed and the educational expenditure incurred thereon. Table I below, which gives the percentage of coverage of the population of different school-going age-groups, indicates at a glance the significant developments that have taken place in the field of education during the post-Independence period:

Table 1 : Enrolment as Percentage of the population of relevant age-groups by stages of general school education

Sl. No.	Stage/Classes	1947-48	1960-61	1965-66	1966-67	1970-71
1	2	3	4	5	6	7
1.	Primary (Classes I-V)	26.0	62.4	76.7	77.3	80.5
2.	Middle (Classes VI-VIII)	7.0	22.5	30.8	31.7	34.2
3.	High/Higher Secondary (Classes IX-XI)	3.0	11.4	16.2	17.1	20.7

2. Although all-round expansion of education has been witnessed in the post-Independence era, it has not spread over uniformly in the country. There still remain certain areas and social communities as well as some groups of population which lag far behind others in the development of education. Some special efforts are, therefore, required to accelerate the pace of educational development in such backward areas, social groups of population, like; girls, Scheduled Castes, scheduled Tribes, backward classes and other communities living in hill areas.

3. The percentage of enrolment of Scheduled Castes to the total enrolment in the country increased from 10.9 in 1965-66 to 11.1 in 1966-67. The corresponding percentage increase for Scheduled Tribes remained the same at 4.2 in both the years. In terms of extent of coverage, the overall position improved slightly from 74.7 in 1965-66 to 76.00 in 1966-67 in the case of Scheduled Castes, while it remained the same at 60.9 for both the years in case of Scheduled Tribes. The extent of coverage remaining constant in case of Scheduled Tribes may not be considered as alarming feature for it implies that the enrolment of this community at least kept pace with the increase in the population of this community. However, there is a case for making efforts to improve the coverage of population of this community.

Table 2 below indicates the comparative position of enrolment of Scheduled Castes and Scheduled Tribes in various types of institutions in India for the years 1965-66 and 1966-67 and also gives the extent of coverage. (*)

(*) Foot-note: The extent of coverage is defined as:-

$$\frac{\% \text{ enrolment of S/Castes/Scheduled Tribes to total population of students}}{\% \text{ population of Scheduled Castes \& Scheduled Tribes to total population}} \times 100$$

The details of enrolment of children belonging respectively to the Scheduled Castes and Scheduled Tribes, studying in various educational institutions in different States and Union Territories are given in the statements included in Appendices 'A' and 'B' of the Report.

4. If a fair deal had been given to Scheduled Castes and Scheduled Tribes, the extent of coverage should have been 100 or in other words, the percentage enrolment of Scheduled Castes/Scheduled Tribes to total enrolment should have been equal to the percentage population of Scheduled Castes/Scheduled Tribes to total population. An index of greater than 100, implies that the educational advance of Scheduled Castes/Tribes is more than that of the total population and thereby shows that there are some other social groups whose condition is even worse than that of the general population. If this index is less than 100 it may be concluded that the Scheduled Castes/Tribes have still some lee-way to make. In such cases, special efforts are needed to be made to improve their enrolment. The smaller the extent of coverage, the greater the need for making such efforts.

5. For analysis of this subject in detail as well as because of the different position obtaining amongst Scheduled Castes and Scheduled Tribes so far as educational facilities are concerned, it has been felt desirable to divide this report into two parts. Part I deals with educational development of Scheduled Castes and Part II gives out the educational development of Scheduled Tribes.

* The total population of each State/Union Territory taken as per 1971 Census.

** Includes Meghalaya and Union Territory of Mizoram.

+ Himachal Pradesh is a State from the year 1971.

(contd.....6)

It will be seen that ^{the} largest population of Scheduled Castes (24.7%) was found in Punjab followed by Himachal Pradesh (22.2%) and West Bengal (19.9%). The smallest proportion of Scheduled Caste population (0.1%) was reported by Arunachal Pradesh.

7. The population of Scheduled Caste for the year 1967 is not available, but for the purpose of this Report it has been assumed that the percentage of Scheduled Caste population to the total population of each State as recorded in 1971 Census holds good for 1967 as well.

Enrolment of Scheduled Castes

8. Table 4 below depicts the all-India picture of the total enrolment of Scheduled Castes in various types of institutions during the years 1965-66 and 1966-67:-

Grand Total		76,86,114	21,16,185	81,46,871	22,90,675

It is observed that the total enrolment increased from 76.8 lakhs in 1965-66 to 81.5 lakhs in 1966-67, giving an increase rate of 6.1% during this period. The girls' enrolment included in the total, however, increased from 21.16 lakhs in 1965-66 to 22.91 lakhs in 1966-67. Additional enrolment during the one year period was of the order of 4.61 lakhs and the major increase of 2.37 lakhs in Primary Schools alone was noteworthy.

9. The percentage of enrolment of Scheduled Castes to the total enrolment and the extent of coverage in various types of educational institutions is given in Table 5 as under:

Table 5 - Percentage Enrolment of Scheduled Castes by Type of Institutions and the Extent of coverage in 1965-66 and 1966-67

Sl. No.	Type of Institution	Percentage Enrolment of Scheduled Castes to Total Enrolment		Extent of Coverage

6	Colleges and Schools for Professional and Other Education	10.3	10.6	70.5	72.6
Total		10.9	11.1	74.7	76.0

The overall extent of coverage of Scheduled Caste candidates increased from 74.7 in 1965-66 to 76.0 in 1966-67. The extent of coverage in respect of universities and colleges for general education is shown to have gone down from 31.5 in 1965-66 to 30.8 in 1966-67, but this fall was due to the reclassification of various categories of educational institutions as higher educational institutions and institutions of school standard. Some of the institutions shown as colleges in 1965-66 have been categorised as institutions of school standard in 1966-67.

Progress of Educational Facilities

12. A review of the progress of educational facilities available to Scheduled Caste students during the years 1965-66 and 1966-67 indicated an overall improvement in their enrolment. The position varied from State to State and also over various types of institutions. Statements II to IX in the Appendix 'A' indicate State-wise progress of enrolment of Scheduled Castes in various types of educational institutions.

13. A brief comparative review of the progress of enrolment of Scheduled Castes as percentage to the total enrolment and the extent of coverage for the years 1965-66 and 1966-67 in various types of educational institutions is given in the following paragraphs:

(i) Pre-Primary Schools

While the total enrolment in pre-Primary Schools in the country increased from 2.15 lakhs in 1965-66 to 2.30 lakhs in 1966-67, thus, registering an increase of 7% during this period, the enrolment of Scheduled Castes increased from 11,530 (5.4% of the total) in 1965-66 to 14,909 (6.5% of the total) in 1966-67. ENROLMENT OF SCHEDULED CASTES BY STAGES OF EDUCATION

15. So far, the progress in enrolment of Scheduled Caste students by type of institutions only has been discussed. Comparative picture of enrolment and extent of coverage for the years 1965-66 and 1966-67 has been shown in respect of different categories of institutions. However, the correct idea about the progress of enrolment of Scheduled Caste students can be had only from the stage-wise position of enrolment as discussed in the following paragraphs.

Table 20 indicates the enrolment of all communities as well as of Scheduled Caste students alone by stages of education for the year 1966-67. Enrolment of scheduled castes as percentage to the total enrolment for different stages of education has also been indicated.

Total enrolment of Scheduled Castes in Classes I-V increased from 59,38,390 in 1965-66 to 62,59,325 in 1966-67. The number of girl students during 1965-66 and 1966-67 was 17,58,690 and 18,93,907 respectively. Percentage enrolment of Scheduled Caste students to total enrolment was 11.8 in 1965-66 and 12.0 in 1966-67. The extent of coverage of Scheduled Caste students in these classes was 82.2 in 1966-67. Enrolment of Scheduled Caste students at primary stage, percentages to the total enrolment and extent of coverage figures for 1966-67 in respect of each State of India have been indicated in Table 21. Enrolment by classes at primary stage and by States are included in Statement X of Appendix 'A'.

(ii) Middle Stage

Number of classes constituting middle stage too are not the same in all the States and Union Territories. But in most of the States and Union Territories classes VI, VII and VIII are treated as the middle stage of school education. Hence for the sake of uniformity classes VI-VIII (3 classes) are taken under middle stage for all the States and Union Territories. In 1965-66 Scheduled Caste Students enrolled at middle stage were 9,78,855 of whom 1,98,004 were girls. Scheduled Caste students formed 9.3 percent of the total enrolment in 1965-66. Corresponding Scheduled Caste enrolment was 10,60,234 (including 2,19,382 girls) in 1966-67. The students of Scheduled Caste Community formed 9.5 percent of the total enrolment at this stage during this year. The extent of coverage of Scheduled Castes under this stage of education was 65.1 in 1966-67.

Table 22 depicts the position of the numbers enrolled, enrolment percentages and extent of coverage at middle stage in various States and Union Territories. Class-wise enrolment at middle stage is given in Statement XI of Appendix A.

It will be seen that the percentage of population of Scheduled Tribes was highest in Nagaland (88.6%) and lowest in Uttar Pradesh (0.2%) among States. Among Union Territories, the highest percentage of Scheduled Tribe population (92.9%) was reported by L.M. & A. Islands and the least (0.9%) was reported by Goa, Daman and Diu. The Union Territory of Delhi and Pondicherry had no population of Scheduled Tribes in their respective Territories.

17. The population of Scheduled Tribes for the year 1967 is not available, but for the purpose of this Report it has been assumed that the percentage of Scheduled Tribe population to the total population of each State as recorded in 1971 Census holds good for 1967 as well.

Enrolment of Scheduled Tribes

18. Table 32 below depicts the all-India picture of the total enrolment of Scheduled Tribes in various types of educational institutions during the years 1965-66 and 1966-67.

Girls enrolment included in the total, however, increased from 8.07 lakhs (27.1%) in 1965-66 to 8.43 lakhs (27.5%) in 1966-67. A percentage of Scheduled Tribes enrolment to total enrolment was 4.2 during both the years under review.

Progress of Educational Facilities

22. A review of the progress of the educational facilities available to Scheduled Tribe students during the years 1965-66 and 1966-67 indicated almost constant position of the enrolment in various types of educational institutions, it being varied from State to State. Statements I to XVI in Appendix 'B' indicate State-wise position of the enrolment of Scheduled Tribes in various types of educational institutions.

23 A comparative review of the progress of enrolment of Scheduled tribes as percentage to the total enrolment and the extent of coverage for the years 1965-66 and 1966-67 in various types of educational institutions is given in the following paragraphs:

(i) Pre-Primary Schools

Enrolment of Scheduled Tribe students in Pre-Primary schools decreased from 7,260 (3.4% of the total) in 1965-66 to 7,195 (3.1% of the total) in 1966-67. However, enrolment of Scheduled Tribe girls increased from 3,354 in 1965-66 to 3,452 in 1966-67. Corresponding percentage of the extent of coverage of Scheduled Tribes students was 49.3 and 44.9 in 1965-66 and 1966-67 respectively. The State-wise data is delineated in Table 36 as hereunder:
