CHIEF MINISTER
Jammu and Kashmir

MESSAGE

I am glad to know that the Directorate of Economics and Statistics under the Planning and Development Department is bringing out the 23rd issue of the Digest of Statistics for 1997-98. The publication presents a statistical profile of trends in different sectors of the J&K economy. It provides comprehensive data and copious information about the socio-economic scenario of Jammu and Kashmir.

I appreciate the efforts of the Planning and Development Department and Directorate of Economics and Statistics who are now bringing out this annual publication regularly with updated statistical information. I hope that it will be useful for all data users particularly planners and research workers.

(Farooq Abdullah).

Jammu,
15 March 1999

FOREWORD

The Directorate of Economics and Statistics is vested with the responsibility of setting up standards for collection, compilation and dissemination of statistical data of the State. The official data are required to be collected and presented according to classification designed to facilitate their use by policy makers, planners, scholars and also for national level comparisons. Comparability of statistics available from various sources of different aspects of economy and usability of such data for economic analysis are prerequisites for such standardised system of classification.

2. The Directorate of Economics and Statistics which is responsible for coordination of statistical activities of the State has brought out 23rd issue of the "Digest of Statistics" which pertains to the year 1997-98. I am glad that this issue which presents statistical profile and socio-economic scenario of the State has been brought out within the specified time frame for which the Director, Economics and Statistics and the statistical staff in his various offices deserve appreciation.

3. I am sure that this publication, like its previous issues, will be useful to the planners, policy makers and research workers in understanding the fast changing scenario of the State. As there is always scope for improvement, suggestions from the readers on coverage and quality of the publication will be wel come.

(J.A.Khan)

Principal Secretary to Government
Planning and Dev. Department

Dated: 12 -03.1999

PREFACE

The Digest of Statistics (DOS) which previously was a biennial publication is now an annual publication of the Directorate of Economics and Statistics and presents data on socio-economic indicators of development. The present issue is the 23rd issue of the series and has been prepared as per the scheduled time frame to meet the requirement of latest data and relates to the year 1997-98. Attempt has also been made for improvement in its coverage, scope, quality and contents. Graphics have also been provided to make it more comprehensive. I do hope that the users will find the publication quite useful.

I have also pleasure in recording my appreciation for the staff of the Directorate of Economics and Statistics for its publication in record time. I thankfully acknowledge the help and cooperation extended by the concerned departments/offices in making available necessary information covered under the publication.

Any suggestion for improvement of this publication are welcome.

(G.R. Malik)

Director

Economics and Statistics

| 30.14 | Number of persons working in establishment | 1980 | 386 |
| 30.15 | Jammu & Kashmir in Indian Economy | ----- | 388-391 |

CHAPTER-I

AREA AND POPULATION

The first attempt to take a census in Jammu and Kashmir was made in 1873. The results however, were not much satisfactory. In 1891 and 1901 regular census operation was conducted. However, the operations were in complete conformity with principles and instructions emanating from the Government of India in 1911 to 1941. In 1951, the conditions in the state were not conducive to conduct the census. In 1961, 1971 and 1981 the census was taken as part of the census of India. No census was conducted during 1991 due to administrative difficulties.

The chapter contains a set of twenty tables indicating area, total population, growth of population, age structure, working force, scheduled caste population, number of villages etc.

I- AREA AND POPULATION

Table No. 1.00

Important demographic features of
J & K (1991)

| Description | Magnitude | |
|---|------------------|---------------------|
| | 1981 (Actual) | 1991 (Estimated) |
| 1 | 2 | 3 |
| i) Total Population | 5987389 | 7718700 |
| a) Male | 3164860 | 4014100 |
| b) Female | 2822729 | 3704600 |
| c) Rural | 4728988 | 5879300 |
| d) Urban | 1260403 | 1839400 |
| ii) Urban Population as percentage of total Population | 21.05 | 23.83 |
| iii) State Population as percentage of total Population of India | 0.91 | 0.88 |
| iv) Total area in Sq.kms.(including area illegally held by Pakistan and China) | 222238 | 222238 |
| v) Density of Popula- tion per sq.km.of comparable area | 59 | 76 |
| vi) Decadal percentage growth rate of Population | 29.69 | 28.92 |
| vii) Change in growth rate vi (3)-vi(2) | - | -0.77 |
| viii) Rate of change in growth rate. | - | -2.59 |

Note: The 1991 Census has not been conducted in J&K. Population figures are as projected by the Standing Committee of Experts set up by G.O.I. on Population Projections, October, 1989.

I- AREA AND POPULATION

Table No. 1.01

Estimated population of J&K State by Districts - 1991

| S.No. | District | Estimated population @ | Density per Sq. km. |
|-------|-----------|------------------------|---------------------|
| 1. | 2. | 3. | 4 |
| 1. | Anantnag | 826291 | 207 |
| 2. | Pulwama | 516441 | 369 |
| 3. | Srinagar | 892506 | 401 |
| 4. | Budgam | 497346 | 363 |
| 5. | Baramulla | 861214 | 186 |
| 6. | Kupwara | 416404 | 175 |
| 7. | Leh | 69474 | 2 # |
| 8. | Kargil | 81067 | 6 |
| 9. | Jammu | 1207996 | 390 |
| 10. | Udhampur | 602807 | 132 |
| 11. | Doda | 625326 | 46 |
| 12. | Kathua | 492288 | 186 |
| 13. | Rajouri | 417333 | 159 |
| 14. | Poonch | 292207 | 175 |
| | State | 7718700 | 76 # |

Density has been worked out on comparable area.

@ District wise estimation are based on the total estimated population of the State as published by the Census Deptt.

CHAPTER-III

CLIMATE

Statistics relating to temperature and rainfall are collected by the meteorological and the Irrigation & Flood control departments. This chapter indicates mean maximum/minimum temperature at Srinagar and Jammu stations and rainfall recorded at various stations in the state.

Rainfall received during the previous 24 hours is recorded at 8:30 hours (IST) at the rain gauge each day. A day recording rainfall of at least one tenth of an inch is taken as a rainy day.

The maximum and minimum temperature is recorded at the observatories at 8.30 and 17.30 hours (IST).

CHAPTER-IV

AGRICULTURE

This chapter presents data on area as per village papers with its nine-fold classification, pattern of operational holdings, crops, production and yield rate of crops, agricultural index numbers, distribution of fertilizer, fungicides and fruit plants. Data are also given on number of tractors and other agricultural implements available. The primary sources of agricultural statistics are the Agriculture Statistics returns and the crop forecasts prepared by the Revenue Department. The concepts and definitions used are those prescribed by the Union, Ministry of Agriculture. Some specific terms/items appearing in this section are briefly defined below:

1. Area according to village papers.

Area according to village papers is the reporting area for which data on land use classification are available i.e. the area as per papers prepared by the village patwari. It does not correspond to the total geographical area of the state as the Revenue Department does not maintain the records of those areas which are not fit for habitation. The area maintained by the Forest Department is also not included in it.

2. Forests.

This covers the berun-line forests viz, forests outside the demarcation line of the forest area maintained by Forest Department.

3. Land put to non -agricultural uses.

This includes entire land occupied by buildings, rivers, canals and other lands put to uses other than agricultural.

4. Barren and Un-culturable land

This includes all barren and un-culturable land like mountains, deserts etc. Land which can not be brought under cultivation except at an exorbitant cost is also included under this item.

5. Permanent pastures and other grazing lands

This includes all grazing lands whether they are permanent pastures and meadows or not. Villages common grazing land is also included in the column.

6. Land under miscellaneous tree crops etc.

This includes cultivable land which is not included in net area sown but is put to some agricultural uses. Land under thatching grasses, bamboo bushes and other groves for fuel etc which is not included under orchards is classed under this category.

7. Culturable waste.

This includes lands available for cultivation whether or not taken up for cultivation or taken up for cultivation once but not cultivated during the current year and the last five years or more in succession for one reason or the other. Such lands may be either fallow or covered with shrubs and jungles which are not put to any use. They may be assessed or unassessed and may be in isolated blocks or within cultivated holdings. Land once cultivated but not cultivated for five years in succession should also be included in this category at the end of five years.

8. Fallow lands other than current fallows.

This includes all lands which were taken up for cultivation but are temporarily out of cultivation for a period of not less than one year and not more than five years. The reason for keeping such lands fallow may be one or more of the following:

1. Poverty of cultivator.
2. Inadequate supply of water.
3. Silting of canals and rivers, and
4. unremunerative nature of farming.

9. Current fallows.

This represents cropped areas which are kept fallow during the current year. For example, if any seedling area is not cropped again the same year, it is treated as current fallows.

10. Net area sown.

This area includes total area sown with crops and orchards counting area sown more than once in the same year only once.

11. Total cropped area

Total cropped area represents the total area covered with crops i.e. the sum total of area covered by all the individual crops, areas sown with crops more than once during the year, being counted as separate areas for each crop.

12. Area sown more than once.

It includes the area on which crops are cultivated more than once during the agricultural year and is obtained by deducting net area sown from total cropped area.

CHAPTER - V

IRRIGATION

Statistics on source-wise area irrigated with crops receiving irrigation are given in this chapter. The major source of irrigation in the state continues to be "canals" which accounted for about 93% of the total area irrigated during 1996-97. Net area irrigated is given in table 5.00 while table 5.01 depicts area irrigated under various crops viz., gross area irrigated.

CHAPTER -VI

FOREST

Forest has assumed great importance in our economy as a substantial revenue yielding industry. This chapter presents data on area under forests by district and by categories viz. coniferous, non-coniferous un-commercial reserve and rakhs/wild life reserves. Data are also given on major and minor products, out-turn of timber, export outside the state and revenue realized. The definitions adopted in the tables are indicated below:

- a) Coniferous forests:** Coniferous forest is one in which 80% or more area falls under coniferous species of trees.

- b) Non-coniferous forests:** Non-coniferous forest is one in which 80% or more area is covered by non-coniferous species of trees.

- c) Reserve forests:** Reserve forest is one which is permanently dedicated either to the production of timber or to other specified purposes and in which right of grazing and cultivation is seldom allowed.

CHAPTER-VII

FISHERIES

The State of Jammu and Kashmir abounds in natural streams, lakes and hilly torrents which on one hand are source of attraction for the tourists and on the other, offer scope for development of fish production. The Kashmir "Trout" is famous throughout the country.

Data on specie-wise fish caught, year-wise number of licence holders together with fishermen population, labour force engaged in the pursuit and number of fishing implements are given in this chapter.

CHAPTER -VIII

LIVE STOCK, SHEEP AND ANIMAL HUSBANDRY

Livestock rearing is an important economic pursuit with our rural and the nomadic Gujjar and bakerwal population. Most of the stock, however, is local and inferior in quality. Various steps are being taken to improve the quality as well as quantity of livestock. The source of livestock data is the live stock census which gives figures by district as also by tehsil. It may however, be pointed out that bulk of our livestock population is migratory and is recorded in the district and its stay at the time of enumeration. The district and tehsilwise breakup, therefore, is not of much significance but academic importance only.

This chapter gives data on the number of livestock, poultry, functioning of livestock/sheep breeding centres/farms, health coverage provided to the livestock etc.

CHAPTER -X

CO-OPERATION

The growth of co-operative movement in the state has registered significant progress during the last few years. Its scope too has significantly enlarged by extending its coverage not only to multipurpose co-operative societies but also to co-operative unions of farmers, labourers, fishermen, milkmen, transport etc. Year-wise data on number of societies with membership, loans advanced, amounts overdue together with paid up share capital etc. of Central cooperative bank, and credit societies are covered in this chapter.

CHAPTER -XI

FOOD AND SUPPLIES

Though food production in the State has gone up quite high from 58.31 lakh quintals in 1965-66 to 142.07 lakh quintals in 1997-98, the State is yet to achieve self-sufficiency and imports from outside the State continue. This chapter gives data on year-wise import of food-grains from outside the State with the amount of subsidy given on the rationed supplies. Year-wise rationed population in various towns, cities and muffasils and off take of food-grains from government depots are also given

Import of food grains (lakh tonnes)

CHAPTER-XII

ELECTRICITY

Jammu and Kashmir has immense potential for development of hydraulic power resources. For the past four decades considerable work has been done in this behalf of course within the limitations imposed by the resource constraint. From a negligible base of 3 to 4 megawatts in 1950-51, the installed capacity has risen to about 397 megawatts . Excluding a few diesel sets and the Kalakote thermal unit the entire power is produced by the hydropower projects and Gasturbine. Most important projects are the Lower Jehlum with 105 megawatts Gasturbine Pampore with 175 megawatts. Chenani with 23.30 megawatts. Upper sindh with 22.60 megawatts and Kalakote (Thermal) with 22.50 megawatts. Power production in the state would get a boost when the central project of Salal is fully completed . Work is going on some other projects also. The important future projects are the Dulhasti project, Uri project and Baghliar project etc.

The chapter presents data on installed capacity, Power generation, purchase, sales, rural electrification, energising of pumpsets, number of electrical installation in the State and revenue realised by the electrical department.

CHAPTER-XIII

INDUSTRIES AND MINERALS

Jammu and Kashmir State which had not seen much of industrial growth due to lack of infrastructural facilities such as easy transport, electricity and other factors, has shown signs of industrialisation during the past few years. The setting up of more power generating stations, wide spread road network and coming up of the state on the railway map of the country have greatly helped in creating an atmosphere conducive to growth of industries in the state. Arrangements of easy credit raw material, technical know-how, subsidies etc., are some of the important motivating steps which the Government has been taking. A number of large and medium scale units have come up. The number of registered factories has gone up to 899 ending 1997 and number of small scale units registered with the Director of industries has been over 0.39 lakhs with employment of 1.72 lakhs ending 1997-98.

The tables in this chapter give the data on the number of units, employment therein, incentives offered and production reported. Information is given with regard to handicrafts, handlooms and khadi and village industries units too. A few tables on mining activity in the state are also given.

CHAPTER-XIV

EMPLOYMENT

Employment exchanges were established at Srinagar and Jammu for the registration of un-employed persons in 1958-59. Since then the number of exchanges has gone up to 17. This chapter gives data on number of employment exchanges, registrations, placements made and qualification-wise number of persons on live register. However, the statistics of employment exchanges have two main defects. Firstly, all the unemployed do not get themselves registered with the employment exchanges. Secondly, some of the registered may not be actually unemployed but only in search of better jobs. The data have to be used keeping in view these limitations.

CHAPTER-XV

BANKS, INSURANCE AND SAVINGS

This chapter presents data on district-wise number of bank branches, deposits and advances made by scheduled commercial banks, number of insurance policies with sum assured and net/gross value of small saving securities. There has been great dispersal of financial facilities during last few years and the number of bank branches has gone up to 795 in 1996 as against 106 in 1971. The deposits and advances of these banks have also registered considerable growth.

CHAPTER-XVI

ROADS AND BUILDINGS

Lack of Railways and very limited scope for water transport leave the state with roads as the only means of transport. The development of road net work in the state, is therefore, receiving attention of the government on priority basis in our developmental plans . Road length maintained by the P.W.D has shown considerable growth over the past three decades. While reliable data for the earlier years are not available, the figures indicate that the road length has increased by about three thousand kilometers during the period 1985-86 to 1997-98. This is apart from the length transferred from the R&B department to the other departments such as the Border roads Organisation. Departments other than the R&B maintain roads for their departmental purposes. But almost all of these roads are open to the general public also. These departments include the Forest, Irrigation, Flood Control Department and the B.R.O. The road length maintained by these departments is quite substantial.

The tables in this chapter indicate total road length maintained by the State P.W.D. and by other departments. Rates of building material in the public sector, wage rates of construction workers and the number of permissions granted for construction of houses are also given.

XVI ROADS AND BUILDING

Table 16.00

Road Length Maintained by State P.W.D.

| S.No | Year Ending | Road Length (Kms.) | | |
|------|-------------|--------------------|-------------|-------|

CHAPTER-XVII

ROAD TRANSPORT

As we have said in the earlier chapter, roads are the only mode of transport available to us. Therefore, side by side with the road length, the number of vehicles has also shown great increase. The annual addition over the latest years has been in the neighbourhood of 22000.

This chapter gives data on public/private transport fleet and operational details of Road Transport Corporation. Besides, the transport facilities available in major cities of the State provided by the State Road Transport Corporation also are indicated.

CHAPTER-XVIII

WATER TRANSPORT

Three kinds of boats float on river Jehlum/lakes of the valley. Firstly, there are house boats, which provide residential accomodation to tourists. Secondly, there are shikaras used for carrying passengers/tourists over the lakes and rivers. Thirdly, there are doongas used for transport of goods from place to place. The data on number of boats and persons engaged there-in are shown in this chapter.

CHAPTER-XIX

POST AND TELECOMMUNICATION

This chapter gives data on post and telecommunication facilities available in the State. There are two types of post offices in our State viz.-post offices located at central places/areas equipped with telegraph facilities and those in other places which do not have this facility. Year-wise number of head post offices, sub-offices, branch offices and telegraph offices appears in tables 19.00 and 19.01 of this chapter.

CHAPTER-XX

TOURISM

Tourism trade plays a very vital role in the state economy. The number of tourists visiting the valley has witnessed phenomenal increase since 1973-74. Data in respect of the number of tourists coming to Kashmir Valley, pilgrims visiting Vaishno Devi Ji Katra and Shri Amar Nath Ji Holy Cave in Kashmir are given in this chapter.

CHAPTER-XXI

TRADE AND COMMERCE

This chapter presents data on trade and commerce especially about goods exported from and imported into the state, number of excise shops, octroi posts, vehicles coming to and going from the state/valley etc. However, the data with regard to exports and imports are not in terms of value but indicate quantity only and not the real magnitude of the trade in case of many items for which kind/quality is primarily important. The information with regard to the weight of goods imported/exported is collected by the Excise Department at various toll posts. Attempts are, however, under way to collect the data on value also.

CHAPTER-XXII

EDUCATION

Spread of education in the state has made great strides during the past decades of planned development and considerable educational facilities, are being made available even in remote, hilly and backward areas. Besides, mobile educational institutions have been provided for nomadic population of Gujjars and Bakerwals.

This chapter presents data on number of educational institutions by categories, students on roll etc. Data are also given on trained/ un-trained, teacher-pupil and institution pupil ratios, stage-wise enrolment, input/out-turn of professional/ technical institutions and board/ university examination results too are covered in this chapter.

CHAPTER-XXIII

VITAL STATISTICS

The primary reporter of birth and death events in rural areas is the village chowkidar while in cities and towns the municipal workers attend to this job. Registration of births and deaths, however, is far from complete and efforts are being made to get registered larger number of vital events occurring in the state. Year-wise data relating to births and deaths and on birth rates by district and sex are given in this chapter.

Birth and death rates as thrown out by the Sample Registration Scheme are also given as the rates based on normal registration system are not much reliable.

CHAPTER-XXIV

HEALTH AND FAMILY WELFARE

This chapter gives basic data on health cover provided in the shape of hospitals, dispensaries, bed strength available and medical personnel in the state. Number of patients treated, number of operations performed, vaccinations made against small pox, malaria and typhus are also shown. The tables throw light on family planning programmes and the achievements made there-under.

CHAPTER-XXV

PUBLIC HEALTH ENGINEERING

Supply of potable drinking water is one of the basic programmes of our developmental plans. Most of our villages have been identified as disadvantageous in respect of availability of drinking water supply and efforts are underway to cover these villages in a phased manner. This chapter presents data on coverage of villages and rural population, number of installations and year-wise growth of tube-wells and dug-wells etc.

Table No. 25.00 (Contd.)

Number of villages covered under potable water supply and population benefitted

CHAPTER-XXVII

FIRE STATISTICS

Fires cause lot of damage to house property in the State and numerous fire control measures especially the setting up of fire stations with better management and modern equipment are provided. This chapter presents data on number of fires attended, property involved/damaged and property salvaged in Kashmir and Jammu Ranges.

XXVII - FIRE STATISTICS

Table No. 27.00 (Contd.)

Fires Attended and Property Damaged/Salvaged

KASHMIR RANGE

| S.No. | Year | No. of fire stations | No. of fires attended | Property involved (in Lakhs) | Property damaged (in Lakhs) | Property salvaged (in Lakhs) | % age of damages |
|-------|------|----------------------------|-----------------------------|------------------------------------|-----------------------------------|------------------------------------|---------------------|
| 1 | 2 | 3 | 4 | 5 | 6 | 7 | 8 |
| 1. | 1955 | NA | 17 | 64.90 | 3.96 | 60.94 | 6.10 |
