Elementary Education

(Minimum needs programme)

Scheme No.1.

2. Objective for Sixth Five Year Plan (1978-83).

The Government of India have stressed that every effort should be made to realise the goal of Universal Elementary Education in the age group of 6 to 14 years by the end of 1982-83. By the end of March, 1978, there will be 159 Primary Schools having enrolment of 21,285 students and 35 Middle Schools having enrolment of 6104 students. By the end of new Five Year Plan i.e. the end of March, 1983 there will be 44,000 children in the age group of 6 to 14 years as per the projection of population supplied by the Government of India. But the actual number may be about 49,700 due to the rehabilitation of settlers from mainland and ex-servicemen. Thus we are expected to provide additional schooling facilities to about 20,311 children during the plan period 1978-83. In addition to this, facilities of education through the medium of mother tongue of the children will have to be extended. There are already eight media of instructions at the Elementary and six at the Secondary level. Apart from this, there is a huge shortage of school buildings/class rooms and teachers' quarters in our territory. Back log from fourth plan has not yet been covered.

The main objectives of the Scheme are:

- i) To strengthen the pre-primary classes already opened. Balwadies are now being opened by the blocks and the State Social Welfare Board.
- ii) To expand the existing facilities by opening new schools.
- iii) To open evening schools under Non-formal Education for the age group 6 to 14 years.
- iv) To provide incentive for the retention of students such as:-
 - a) Free books to poor students whose parents income is upto Rs.6,000/- per annum, subject to approval by Govt. of India.
 - b) Free uniform to poor students whose parents income is upto Rs.4,000/- per annum subject to approval by Govt. of India.
 - c) Mid-day Meals to all the children from Class I to VIII.
 - d) Free travel concession to the students whose residence is beyond a radius of 4 Km from the school.
 - e) Hostel stipend to the middle school students residing in the hostels due to non-availability of transport facilities.
- v) To construct class rooms, school buildings, hostels and teachers' quarters.
- vi) To achieve qualitative improvement by strengthening teaching of Science and Maths and by providing adequate facilities for socially useful productive work.

- vii) Provision of teaching and visual aids to all the schools.
- viii) Setting up good libraries in all schools.
- ix) Preparation and publication of suitable textbooks specially translation of books from English/Hindi to various other languages.
- x) Provision of remedial teaching and supervised study centres.
- xi) Strengthening the supervisory staff by appointment of Assistant Education Officers.

3. Main targets for the Sixth Five Year Plan.

Primary Education:

1. To achieve 100% enrolment in the age group 6-¹¹ years by enrolling 14,000 children.
2. To open 35 primary schools in such pockets and villages where there is no primary school within a radius of 1.5 Km and 120 sections for bringing all the children of such areas to schools. This would cover 13,715 children.

Middle Stage:

1. To achieve 100% enrolment in the age group of 11-14 years by enrolling 6596 children.
2. To open 10 Middle Schools in various part of this territory and to open 100 additional sections for various media.

1. Tamil	- 40
2. Telegu	- 20
3. Hindi	- 20
4. Bengali	- 20
Total:	<u>-100</u>

4. Approved/proposed outlay for the Sixth Five Year Plan
(1978-83)

Rs. 808.480

Lakhs.

5(A) (Physical)	Targets viz. Achievements during 1978-79 with the remarks for short-fall/ excess if any.	Target	Achievements
i)	Opening of Primary Schools	10	10
ii)	Enrolment of children covered in Class I-V	3000	
iii)	To open 30 additional sections in existing primary schools ✓	30	30
iv)	To upgrade existing primary schools to middle schools ✓	2	2

EDUCATION DEPARTMENT

ANDAMAN AND NICOBAR ADMINISTRATION

Sector: Education

Scheme No.2

1. Name of the Scheme: Secondary Education

To provide facilities to the students of the secondary stage within a radius of 10-20 Kms it is considered essential to upgrade 10 middle schools into secondary schools. But due to paucity of funds it had not been possible to upgrade the required number of schools into Secondary Schools and only 3 were upgraded during the last four years, one each at Kadamtala, Middle Point and Haddo for Tamil Medium. Since the number of students is increasing, it is proposed to upgrade 11 middle schools into High Schools at the following places during the New Five Year Plan.

1. Oralkatcha
2. Hut Bay
3. Garacharma
4. Sawai
5. Kalighat
6. Pahalgaoon
7. Shabnam Nagar
8. Havelock
9. Ranghat
10. Mayabunder - Tamil Medium
11. Haddo - Telugu Medium

2. Objectives of the Sixth Five Year Plan 1978-83:

- i) Expansion of facilities by upgrading middle schools into High Schools and High Schools into Higher Secondary Schools i.e. + 2 stage.
- ii) To provide grant-in-aid to Non-Govt Schools.
- iii) To strengthen the schools brought under 10 + 2 pattern of education.
- iv) To organise inservice training programme for teachers.

- v) To strengthen teaching of Science & Mathematics.
- vi) To construct school buildings, class rooms, workshops, laboratories, hostels & teachers quarters.
- vii) To introduce vocational courses at the + 2 stage.
- viii) To give the following incentives:-
 - a) Free text books through Book Banks to poor students whose parents income is upto Rs.6000/- per annum subject to approval of Govt. of India. The present limit is Rs.4000/- per annum.
 - b) Free travel concession to students whose residence is more than 4 Kms from the school.
 - c) Free uniform to poor students whose parents income is upto Rs.2,500/- per annum
 - d) Hostel stipend @ Rs.60/- per head per month till it
- ix. Improvement Programmes: is increased by the G.O.I.

- a) Strengthening of teaching of Science & Mathematics.
- b) Work experience programmes, atleast two in each High School(one for girls and one for boys).

3. Main Targets for Sixth Five Year Plan: 1978-83.

i) Expansion of facilities -

Institutional - To upgrade eleven Middle Schools into High Schools and other 7 High Schools into Hr.Sec.Schools including one Tamil and one of Telegu Medium.

ii) Providing Grant-in-aid/assistance to Non-Govt. Schools:

- a) To continue to give grant-in-aid to Nirnala Higher Secondary School.
- b) To provide grant-in-aid to other private schools coming up in the territory as and when they request for it.

iii) Implementation of the 10 + 2 pattern:

a) Appointment of teachers & staff:

Headmaster High School - 11 (0+4+3+2+2) = 11
Post Graduate Teachers - 40 (0+20+10+10+0)=40
Science Supervisors - 5 (0+5+0+0+0) = 5
Trained Graduate Teachers-60 (10+15+15+10+10)=60

:--: :-21=

Higher Grade Clerks	: 11 (0+4+3+2+2)=11
Librarians	: 11 (- do -)
Physical Education Teachers	:11(-do-)
Work Experience Teachers	:11(- do-)
Lab Assistants	:15(0+8+3+2+2)=15
Band Master	: 3(2+1+0+0+0)= 3
Class IV	:11(0+4+3 2+2)=11
<u>Vocational Courses:</u>	
Post Graduate Teachers	:11(3+5+2+1+0)=11
Technical Assistant	:16(7+5+2+2+0)=16
Attendant	: 8(0+4+2+2+0)= 8

b) Inservice training of teachers -

The Higher Secondary School teachers will be deputed for training in various courses conducted by Central Board of Secondary Education/NCERT and other agencies. They will also come to Port Blair at the State Institute of Education for various courses/workshops etc.

c) Science teaching will be strengthened and improved through the Science Wing of the State Institute of Education.

vi) Vocationalisation of the + 2 stage:

The following vocations are proposed to be introduced for the present;-

a) Marine Fisheries

b) Agriculture

c) Furniture design and manufacture

- d) Nutrition and food preparation
- e) Dress making and designing
- f) Stenography and office management and secretarial practice.
- g) Basic Electrical Technology

v) Incentives:

- a) Free travel concession will be given approximately to 1000 students (400, 600, 800, 900, 1000)
- b) Free books will be supplied to students whose parent's income is upto Rs.6000/- per annum to approximately 3000 beneficiaries (1000, 1500, 2000, 2500, 3000).
- c) Free uniform will be supplied to poor students whose parents income is upto Rs .4000/- per annum to about 300 beneficiaries (100, 150, 200, 250, 300)
- d) Hostel stipend will be given to 100 students @ Rs.60/- per head per month(60, 70, 80, 90, 100)

vi) Construction of buildings:

- a) Full school building at Campbell Bay and at Middle Point in South Andaman.
- b) Additional class rooms in the existing buildings - 50 Nos.
- c) Extension to 11 Middle school buildings into High School buildings - 55 rooms
- d) Construction of science laboratories - 24 Nos - one for newly raised schools and to clear the old backlog.
- e) Construction of Workshops/sheds-cum-store rooms for vocational courses - ~~80 Nos.~~ 8 Nos.
- f) Construction of teachers' quarters - 50 type II, 40 type III and 10 Type-I.
- g) Construction of Girls Hostel at Diglipur.

vii) Improvement programme:

- a) Additional equipment for science laboratories and vocational courses will be provided.
- b) Science fairs/exhibitions will be organised
- c) Raw material and equipment for work experience programme and vocational courses shall be provided.

4. Proposed outlay for Sixth Five Year Plan: Rs.294.070

5. Targets viz achievements during 1978-79

A) Physical

	<u>Target</u>	<u>Achievements</u>
i) Upgradation of Middle Schools to High Schools	-	2 Nos

for vocational courses

(i) Post Graduate Teachers	Rs. 550-900	- 7
(ii) Technical Assistant	Rs. 330-560	- 7
(iii) Attendants	Rs. 196-232	- 4

Grant-in-aid to Nirmala High school will be continued.

(D) Implementation of 10+2 pattern of Education

- (i) Science Laboratories will be strengthened by providing equipment & appliances
- (ii) Inservice training will be given to 250 teachers.

(E) Vocationalisation at Plus Two stage.

Tools and equipments for the following vocations will be procured:

- (a) Marine Fisheries/Inland Fisheries.
- (b) Agriculture
- (c) Furniture making and designing.
- (d) Nutrition and food preparation.
- (e) Dress making and designing.
- (f) Basic Electrical Technology.
- (g) Stenography (English & Hindi)

¹Incentives.

- (F)
- 1. Free Travel concession to 600 students.
 - 2. Free Books to 1500 poor students.
 - 3. Free Uniform to 150 students.
 - 4. Hostel stipend to 70 students.

(G) Improvement Programme

- (a) Libraries of the schools will be strengthened, by providing more books as per requirements of the central Board of Secondary Education.
- (b) Raw material and implements will be provided for work-experience and vocational courses.
- (c) Strengthening of Science teaching by providing equipment and furniture to laboratories.

(H) Construction of Buildings

- (i) Construction of Hr. Secondary school building first phase - 14 class rooms.
- (ii) Middle point, Model school - 10 CRs
- (iii) Extension to Hr. Secondary school buildings 12 CRs (Diglipur - 2 CRs, Rangat HSS - 2, Wimberlygunj - 2, Carnicobar - 2, Haddo - 2, Haddo (Ta) - 2)

(i) Extension to Middle school Buildings upgraded/
likely to be upgraded to High Schools

(20 class rooms)

Kalighat - 5 Class rooms

Ramakrishnapuram - 5 CR

Kadamtala - 5 CR

Oralkatcha - 2

Haddo (H) - 3

(ii) Construction of 6 Science Laboratories.

2 at Kadamtala.,

2 at Ramakrishnapuram,

2 at Kalighat.

EDUCATION DEPARTMENT

ANDAMAN AND NICOBAR ADMINISTRATION

Sector: Education

Scheme No.3.

1. Name of the scheme: Teacher Education (Teachers' Training Institute)
2. Objectives for the Sixth Five Year Plan 1978-83.

A sound programme of professional education of teachers is essential for the qualitative improvement of education. Generally it is found that a teacher tries to teach in the way in which he himself was taught by his favourite teachers and thus tends to perpetuate the traditional methods of teaching. Today when new dynamic methods of instruction are needed such an attitude becomes an obstacle to progress. This can be changed only by effective professional education which can initiate the teachers to the needed revolution in teaching and lay the foundations for their future professional growth. A good teacher training institution is therefore absolutely necessary and it alone can play a crucial role in the development of education. Unfortunately, the professional education of teachers has been comparatively neglected in the past years, though its significance has been stressed by various commissions and committees throughout the years.

In this territory we have a Teacher Training Institute which had been imparting pre-service

training to the teachers and has been preparing them for teaching in the primary classes. Since the territory has a large number of primary schools we have to see that proper training is imparted to the students of this territory giving due regard to the relevance and need of this area. We now aim at improving the quality of training programmes in this institution. We also intend to make adequate provision for the continuing professional education of all the teachers and for creating a proper agency at the State level for the maintenance of standards in teacher education.

One of the objectives of this training institute will be to remove the isolation of teacher education at the primary level from schools and current developments in school education. The other objective would be to allow this institute to keep in touch with the other training institutions on the mainland so that it could make improvements in its own programmes.

This training institute shall by and large adapt the curricula and syllabi recommended by the NCERT for the training of pre-primary and primary teachers.

As already stated above the essence of any programme of teacher education is quality, we attach the highest importance to this programme of

qualitative improvement of teacher education in this institute. We want ^{to} do away with the age old programmes which are traditional, rigid and divorced from the realities of schools and existing or proposed programmes of educational reconstruction.

The other objectives of the scheme are given below:

1. To impart pre-service training to eligible/selected candidates as primary school teachers on payment of stipend @ Rs.50/- p.m.
2. To help in conducting inservice training courses for the working primary school teachers to be run by the State Institute of Education.
3. To improve/strengthen the existing teachers training institute by appointing qualified teaching staff etc.
4. To organise summer courses/correspondence courses etc. for primary school teachers along with State Institute of Education.
5. To publish magazines and news letters for the benefit of teachers/trainees and bring out teachers' guide in various subjects along with State Institute of Education.
6. To extend the building of the Teachers' Training Institute.
7. To establish elementary curriculum development cell for the improvement of primary school curriculum.

D 65 44
16/12/91

3. Main Targets for Sixth Five Year Plan - 1978-83.

- a) To impart pre-service training to 50 trainees each year.
- b) To conduct inservice training for 900 inservice teachers to improve their content knowledge in Maths, Science and languages.
- c) To publish quarterly magazine for the benefit of inservice teachers.
- d) To revise the syllabus and curriculum of elementary education according to local conditions and modern trends in education.

4. Proposed outlay for Sixth Five Year Plan 1978-83:

(Rs. 11.200 Lakhs)

5. Target vis-a-vis achievement during 1978-79.

A. Physical

	<u>Target</u>	<u>Achievement</u>
1. Pre-service training	50	50
2. To conduct inservice training course for 240 teachers to improve their content knowledge in Maths, Social Studies, Science and languages at primary stage.	240	40 teachers have attend the inservice course and programme has been chalked out for the remaining 200 working teachers.
3. To revise the syllabus and curriculum of elementary education.	-	syllabus for class I & II has been received. Syllabus for class III, IV & V will also be received and made up-to date.

B. Financial

Outlay	
Rs.2.700 Lakhs	Likely achievement
	Rs.2.700 Lakhs

6. Targets proposed for 1979-80:

1. To impart pre-service training to 50 trainees and pay stipend at the rate of Rs.50/- p.m.
 - (c) To publish magazine and news letters for the benefit of teachers/trainees and bring out Teachers' Guide in various subjects along with State Institute of Education.
 - (d) To extend the building of Teachers Training Institute.
 - (e) To strength the existing Teachers' Training Institute by appointing qualified teaching staff.

7. Proposed outlay for 1979-80 Rs.2.110 Lakhs

8. Details of expenditure

1. Recurring Estt.

Graduate Trained Teachers - 4 Rs.0.250
(Rs.440-750)

Travelling Expenses Rs.0.100

Total: Rs.0.350

DEPARTMENT: EDUCATION

ANDAMAN AND NICOBAR ADMINISTRATION

Sector: General Education Scheme No.4

Name of Scheme: State Institute of Education

It is of paramount importance that the teachers who are working in the elementary, Secondary & Hr Secondary schools should be properly oriented and should be provided further training and special courses of study on a continuing basis after their initial professional preparation. The need is most urgent for teachers of this backward island because they are cut off from the mainland and are not aware of the rapid advances in the field of knowledge and continuing evolution of pedagogical theory and practices. Besides what the school, Education Department, Training Colleges and Teachers' Organisations can do, there is a need for the organisation of a systematic and co-ordinated programme of inservice education, refresher courses, orientation programmes and workshops so that every teacher would be able to receive atleast two to three months of inservice education after every five years of service.

It is, therefore, proposed that the programme of inservice education, curriculum development, bringing out of good text books and journals, setting up of an evaluation unit and of organising refresher courses, Seminars, Workshops and Summer Institutes should be organised by establishing a State Institute of Education in these islands at Port Blair. This State Insitute ' also take

.....2/-

care of orienting and providing inservice courses for the science teachers and would also work for the improvement and development of teaching of science and Mathematics.

As a fact Institutions that prepare teachers for the Primary & Secondary schools should be closely associated with the State Institute of Education and, therefore it is proposed that the State Institute of Education shall work as the main wing of the existing Teachers' Training Institute at Port Blair which prepare teachers for the Primary Schools. Since there is no pre-service Training Institute for imparting Bachelors' degree in Education, the State Institute and the Teachers' Training Institute shall work together. Additional staff shall be provided for the State Institute of Education so that the whole work could be undertaken in a cordinated and integrated manner.

2. OBJECTIVES FOR THE SIXTH FIVE YEAR PLAN (1978-83)

1. To organise and conduct inservice training to the existing primary and secondary school teachers.
2. To organise summer courses/correspondence courses for various training programmes.
3. To organise refresher courses, seminars and workshops for the existing teachers in various subjects.
4. To establish a unit for examination reform and another unit for evaluation of various educational programmes.
5. To develop curriculum and syllabi for (i) teachers training at the Primary level and (ii) for various subjects from class I to VIII.

6. To provide on-the-spot guidance to the practising teachers at their institutions through the staff and field workers of the S.I.E.
7. To establish atleast one Science Centre-cum-Workshop at the initial stage in Port Blair and then to extend it in other educational district headquarters.
8. To work for the improvement of teaching of science and maths in the schools.
9. To bring out a monthly news letter and a quarterly magazine for dissemination of recent trends, techniques and advances in the field of education for the benefit of our teachers.
10. To run centre for continuing education as sponsored by the NCERT.

3. Main targets for Sixth Five Year Plan (1978-83)

1. To provide inservice training to 180 PGTs and 520 TGTs in 12 subjects.
2. Each Inservice training programme will be of 7-10 days duration which will be attended by 20 TGTs/15 PGTs in each subject.
3. Six Seminars/Workshops for the PGTs and 13 for the TGTs will be organised during each year.
4. Each subject teacher will be attending two seminars on the same subject on alternate years.
5. To organise atleast two workshops in each educational district one in science course and one in humanities each year.
6. Preparation and printing of syllabi for classes I to VIII and its dissemination to schools.
7. To bring out a monthly news letter and a quarterly magazine.
8. To set up science workshops at Port Blair, Car Nicobar & Rangat.
9. To organise science, arts & crafts exhibition showing the development and advancement done in various fields.

.....

4. Proposed outlay for Sixth Five Year Plan Rs.44.700

5.(A) Targets viz achievements 1978-79.

	<u>Target</u>	<u>Achievement</u>
i) To organise Seminars for 90 Post Graduate Teachers	Seminars 6	Shall be organised.
ii) To organise 13 seminars for 260 teachers	Seminars 13	-do-
iii) To set up two workshops one in Science & other in Humanities at Port Blair.	Workshops 2	Shall be set up
iv) Revision & printing of syllabus	ClassI-VIII	"
v) Developing of Curriculum	Class I-V	"
vi) Development of Science Kits for primary classes with local resources.	-	-
vii) To bring out monthly news letter and quarterly magazines for disseminating recent developments.		

(B) Financial.

(Rs. in lakhs)

	<u>Outlay</u>	<u>Expenditure</u>
(i) Outlay	1.000	1.000

6. Targets proposed for 1979-80.

- i) To organise Seminars for Post Graduate Teachers.
- ii) To organise seminars for Trained Graduate Teachers.
- iii) To strengthen the workshop

- iv) Printing of syllabus.
- v) Development of curriculum for Class I-VIII
- vi) To continue bringing out of monthly and quarterly news letters
- viii) To continue development of Science Kits with local resources.

7. Proposed outlay for 1979-80 (Rs. in Lakhs)

Rs. 10.170

8(1) Details of expenditure:

(a) Recurring Posts created & filled in 1978-79.

i) Principal, State Institute of Education (1200-1600)	- 1	Rs. 0.260 Lakhs
ii) Lecturer (Rs. 1100-1600)	- 2	Rs. 0.480 "
iii) Higher Grade Clerk (Rs. 330-560)	- 1	Rs. 0.070 "
iv) Stenographer (330-560)	- 1	Rs. 0.070 "
Total:		<u>Rs. 0.880</u>

(b) Posts to be created during 1979-80:

i) Lecturer (Rs. 1100-1600)	- 10	Rs. 1.220
ii) Field Adviser (Rs. 650-1200) - (3 for Humanities + 3 for Science)	- 6	Rs. 0.480
iii) Superintendent (Rs. 550-750)	- 1	Rs. 0.080
iv) Head Clerk (Rs. 425-700)	- 1	Rs. 0.050
v) Lower Grade Clerk (Rs. 260-400)	- 1	Rs. 0.030
vi) Gestetner Operator (Rs. 210-270)	- 1	Rs. 0.030

vii) Attendant(Rs.196-232) - 2	Rs.0.080
viii) Sweeper(Rs.196-232) - 1	Rs.0.030
ix) Workshop Incharge (Rs.550-900) - 1	Rs.0.080
x) Technical staff for A.V. Aids & workshop (Rs.380-680) - 1	Rs.050
xi) Laboratory Assistant (Rs.290-500) - 1	Rs.0.040
xii) Travelling Expenses	Rs.0.200
Sub-total(b)	<hr/> Rs.2.370
Total:	<hr/> Rs.3.250 <hr/>

(C) Other Expenses:

i) Publications of news letter & magazine	Rs.0.120
ii) Inservice Training Courses and Seminars	Rs.0.130
iii) Cost of raw material for workshop (Science, museum and workshop)	Rs.0.100
iv) Purchase of Lab.equipment and tools & machines	Rs.0.500
v) Library books	Rs.0.200
vi) Preparation & printing of text books	Rs.0.300
vii) Furniture for Administrative Block, Auditorium & Library	Rs.0.400
viii) Contingencies	Rs.0.100
ix) Arts, Science & Craft exhibition	Rs.0.070
Total:	<hr/> Rs.1.920
Total Recurring	<hr/> Rs.5.170 <hr/>

8(II) Non Recurring Expenditure:

1. Construction of 9 rooms, 1 additiorium, 1 staff room, laboratory & 1 library room, store & WC block	Rs. 3.000
2. Construction of Administrative block and workshop	Rs. 2.000
Total Non-recurring:	Rs. 5.000

9. Summary of Expenditure Rs.in Lakhs

DEPARTMENT: EDUCATION

ANDAMAN AND NICOBAR ADMINISTRATION

SECTOR: GENERAL EDUCATION

Scheme No.5.

1. Name of the Scheme: University Education-Govt. College.
2. Objectives for the new Five Year Plan(1978-83)

Introduction: During its existence for the last 10 years serving the cause of higher education in the Andaman & Nicobar group of Islands, the Govt.college has developed the necessary infrastructures for running a graduation course in the faculties of Arts, Science and Commerce including Biological sciences. This has helped in bringing together young men and women belonging to widely varying sociological and economic backgrounds to come on one platform and identify themselves with the new sociological structure that is building up in these islands. Higher Education has been serving the twin objectives of fulfilling the trained manpower requirements of these islands within its limited resources and at the same time improving the employment potential of the young men and women who receive higher education here. Apart from finding due place in the different development departments of these islands students have been prepared for admission on the mainland in various courses like Medicine, Engineering, Law, Education etc.

The new plan (1978-83) has the following objectives:

To raise the academic level of the institution, to enable products of the college to stand for competition with their counterparts anywhere else and prepare them for various competitive examinations held by the U.P.S.C. as well as prepare them for participating in the technical advancements in the fields of Fisheries, Marine Biology, Oceanography, Forestry, Anthropology, Geology etc.

The college is affiliated to the Punjab University, Chandigarh and at a meeting specially convened by the U.G.C. for considering the special problems of higher education of this territory the U.G.C. has made some recommendations the implemen-

tation of which have been incorporated in the plan. The recommendations of the U.G.C. committee are contained in Annexure 'A'.

The integrated plan of development of the college as required in para 13 of the recommendations of the U.G.C. envisages the better fulfilment of the objectives towards the development of the college into an autonomous institution in the near future as soon as feasible. This is particularly required in the light of recommendation No.1 which seeks to provide the college sufficient flexibility in curriculum development to make the courses and curricula more relevant to the conditions obtaining in these islands as also the immense scope of research that subjects like Marine Biology, Marine Geology, Marine engineering, Anthropology and Oceanography that these islands offer.

Further, the Rajya Sabha Committee on Subordinate Legislation, an extract of whose recommendations regarding the future development of the college appear at Annexure 'B', have envisaged the granting of an Independent campus status to the college within the existing frame work. An autonomous college as envisaged by the U.G.C. situated at such a distance from the seat of the University would in effect be the Independent campus as envisaged by the Rajya Sabha Committee on Subordinate Legislation.

The committee has also recommended the establishment of a Poly-technic in these islands. However, it is felt that instead of a Poly-technic which in the long run is likely to generate a problem of trained unemployed it is proposed here to conduct specific short term tailor made courses after assessing the requirements of the different departments as also the avenues of self-employment. The courses envisaged are:

- a) Wood Seasoning
- b) Timber Engineering
- c) Diploma in Translation
- d) Diploma in Marketing & Management
- e) A short-term course in Journalism
- f) Course for tourist guides
- g) Wireless Operators.

It is also proposed to run specific courses to orient the students of the Biological Sciences to fulfil the special manpower requirements in the departments of Agriculture, Animal Husbandry etc.

Some essential basic amenities for the students like the provision of hostel for boys, adequate play-grounds, recreation room including indoor games etc. were not made and plan provisions during the fifth plan were very inadequate. The lack of these amenities have been resulted in some unrest on the part of the students apart from the real handicap of not giving the students coming from a large number of other islands the minimum basic amenities has necessitated the diversion of funds from the sector of school Education for meeting the needs of the college. In order to be more realistic, the outlay for 1978-79 is taken on the average total of plan and non-plan expenditure over the last 4 years. The works programme of the plan includes,

- a) Construction of an additional wing to the girls hostel.
- b) Construction of a boys hostel.
- c) Construction of non-resident student centre.
- d) Addition & Alteration to existing buildings to cope up with the requirements of Laboratory and Lecture rooms.
- e) Administrative block
- f) Construction of water tank
- g) Development of play-fields
- h) Construction of teachers apartments etc. to meet the growing needs of the college in the years to come.

The Government of India, Ministry of Education had also envisaged the starting of post-graduate classes in the college

with effect from the academic session 1978-79. The summary record of the proceedings can be seen at Annexure 'C'. Keeping this in view provision for post-graduate classes is being made in successive years of the plan.

3. Main targets for the Sixth Five Year Plan:

I. Capital Works.

- i) Construction of Boys hostel with 100 seats.
- ii) Construction of non-resident student centre.
- iii) Completion of remaining two phases of Girls hostel with the addition of two blocks of 20 seats each.
- iv) Construction of 24 single room apartments for staff with 8 apartments on each floor.
- v) Alteration & Addition to existing building to cope up with the requirement of laboratories & lecture rooms.
- vi) Construction of an administrative block and a committee room.
- vii) Construction of a Composite Museum.
- viii) Development of play-fields and games facilities including fencing.
- ix) Construction of Guest house.
- x) Construction of additional buildings for laboratories and Anthropology, Geology and Marine Biology.

II.

- (a) Introduction of post-graduate courses (vide summary record of proceedings conveyed decision of Ministry of Education dated 23.7.1977 (Annexure 'C')).

III. Introduction of the following subjects at undergraduate level:

- i) Anthropology
- ii) Geology
- iii) Marine Biology

IV. Introduction of short-term courses in the following fields to meet the manpower requirements of these islands.

- i) Tourism
- ii) Business Management
- iii) Diploma in Translation
- iv) Wood Seasoning
- v) Marketing & Management

V. Establishing a Guidance Bureau for student Guidance and

Counselling.

- VI. Strengthening of library.
- VII. Strengthening of office by appointing additional staff including an Accounts Officer, in the scale of Rs.840-1200.
- VIII. Support for research programmes to be undertaken locally in.

- i) Anthropology
- ii) Linguistics
- iii) Sociology
- iv) Marine Ecology
- v) Terrestrial Ecology
- vi) Insular Biology
- vii) Mangrove studies
- viii) Wild Life Ecology

IX. Setting up a centralised instrumentation room for sophisticated instruments.

X. Establishment of a workshop

XI. Field trip by students.

4. Approved/proposed outlay for the Sixth Five Year Plan:

Rs. 113.600 lakhs.

5. Targets vis-a-vis achievements during 1978-79 with the remarks for shortfall/excess, if any.

A. Physical

Targets

Achievements.

Extract copy of D.O.No.F.5-5/77*U.II dated 5th September, 1977 from Shri Triyogi Narayan, Dy. Secretary, Government of India, Ministry of Education and S.W., Deptt. of Education, Shastri Bhawan, New Delhi addressed to Shri R.L.Pradeep, Director, Ministry of Home affairs, New Delhi.

.....

3. The University Grants Commission, at its meeting held on August, 4.5.77 considered the recommendations of above mentioned committee. The Commission generally agreed with these recommendations. In this connection the Commission desired that the teachers of the Govt. College, Port Blair may be enabled to participate in the academic conferences, refresher courses, summer institute etc. and the Universities could also help in the proper development of the College. It has also been agreed to provide five teacher fellowships per annum for the Faculty Improvement Programme. A copy of the note placed before the Commission is also enclosed.

.....

Extract of University Grants Commission meeting held item No.49 dated 18th July, 1977 to consider the recommendation of the meeting of the committee appointed by the Commission to look into the needs of higher Education in the Union Territory of Andaman and Nicobar Islands.

The main recommendations of the commission are as under:

- (i) To provide sufficient flexibility for adopting their own courses to meet the local ~~enironments~~ and requirements of the islands the under-graduate programme in the College may be strengthened by arranging special courses particularly in the fields of Biosciences, Forestry & Fisheries, Anthropology and Social Work for which extra funds may be provided by the University Grants Commission and the Central Government.
- (ii) For the present admission of the students of the territory to the post-graduate programme in various discipline may be arranged in the Universities in the mainland. If possible, some seats could be reserved for students from the islands for admission to these courses in Central Govt. Universities.
- (iii) While post-graduate courses may be started in the College after the courses at Under-graduate level have been sufficiently strengthened say within five years, their planning and development may be done keeping in view the long term objectives of developing of Biosciences, Anthropoloty and social work. For this the Govt. of India and University Grants Commission may have to provide special assistance.

- iv) With a view to raising the standard of Education, it is essential that the teachers and students in the College are exposed to the experiments being conducted in the mainland. It may also be necessary to appoint teachers from the mainland in the College on deputation as a temporary measure for short duration. Necessary provision may be made by the Govt. in the appointment procedure for obtaining teachers from the mainland on deputation.
 - v) Special efforts may be made to depute teachers to improve their qualification under the Faculty Improvement Programme Provision should also be made by the Govt. for the grant of study leave to the teachers to improve, ~~ex~~ their competence.
 - vi) Additional funds be provided for arranging refresher courses by the Panjab University in various subjects in which facilities are provided by the college.
 - vii) Special grants may also be provided to enable the College to take up small research programme in the area pertaining to their local needs in Biosciences, Anthropology and Social Work, even alongwith under-graduate students.
 - viii) Adequate scholarships /fellowships to provided to students for undertaking post-graduate studies and research programme in the Universities on the mainland.
 - ix) Adequate financial assistance may be provided for the construction of hostel for Boys and Girls.
 - x) Separate funds may also be provided for strengthening the library and laboratory facilities in the College.
 - xi) Some amount may be provided to the college for arranging field trips by the students.
 - xii) In view of the strategic important of the Andaman and Nicobar islands, the committee recommends that additional funds may be provided to this college for its development.
 - xiii) In the light of future requirements and local needs, the college may prepare a comprehensive integrated plan over a period of next 10 to 15 years in consultation with the education and Development Secretaries of the Government and sent the same to the U.G.C. for examination and assessment by a committee of experts. If necessary this committee of the U.G.C. might have on the spot discussion with the local authorities for proper assessment.
-

EXTRACT OF THE OBSERVATION MADE BY COMMITTEE ON
SUBORDINATE LEGISLATION OF THE RAJYA SABHA DURING
THEIR VISIT TO A & N ISLANDS IN JANUARY, 1978.

The College is at present affiliated with Panjab University, Chandigarh which is Central University. We recommend that there should be a campus of the University at Port Blair with facilities for post-graduate studies. The College can also be made centre for various examinations conducted by U.P.S.C. As the College is the only seat of learning in the islands and situated far off from the mainland scholars and teachers from the mainland may be deputed there for short-term period. Whatever proposals come from the college and the other educational institutions from these islands should be given priority as these institutions do a good service in the backward region of ours.

.....

.....

ANNEXURE 'C'

Copy of the summary record of the proceedings of the meeting held at 11.00 a.m. on 23-7-77 in Ministry of Education & Social Welfare (Department of Education)....

.....

A meeting was held today at 11.00 a.m. in Room No.107, 'C' Wing, Shastri Bhawan, the following were present.

1. Smti. J. Anjani Dayanand, J.S. (E) - in chair
2. Shri R.K.Chhabra, Secretary,UGC
3. Shri Krishnatry, C.C., A&N ISLANDS
4. Shri R.L.Pradeep, Director, Min.of Home Affairs
5. Dr. G.L.Bakshi, Chairman, C.B.S.E.
6. Smti. S.Rao, D.E.A. (UT)
7. Shri. C.P.Pillai, U.S. (U)
8. Shri. C.Balakrishnan, U.S.(UT)

The following points were discussed.

- (i) xx xx xx xx
- (ii) Introduction of post-graduate courses in Govt. College

It was felt that the matter may be taken up in the next plan (Annual) of the Union Territory. A case is to be prepared by the administration and the ministry of Education would support it.

ANDAMAN AND NICOBAR ADMINISTRATION
DEPARTMENT : EDUCATION

Sector : General Education Scheme No. 6

1. Name of the scheme : Adult Education/Non-Formal Education.

Education is a life long process and does not end with schooling. The adult today needs and understanding of the rapidly changing and the growing complexities of society. Even the educated ones do need learning through out.

If we have to achieve the economic development, social transformation and effective social security we must train and educate our citizens to enable them to participate in various development programmes of the nation. This is important in a society like ours in which most of the people have missed schooling and the education given has been irrelevant to the developmental needs of the society. We have to provide an opportunity to those who have never attended a school or have left the school at one stage or the other or who are altogether illiterate for receiving an education of the type which they wish to have for the professional advancement and effective participation in the social and political life of the country.

In view of the above situation, we have to provide programmes of adult education not only for eradication of illiteracy but also for providing functional literacy and continuing education to those who wish to pursue their studies further.

requirements of adult education are different from the school system, therefore, resort has to be made to non-formal system of education for such persons. It may not be out of place to say that effectiveness of the programme of adult education through non-formal system shall depend upon a competent administrative machinery.

2. Objectives of the Sixth Five Year Plan (1978-83)

1. It is proposed to provide adult education for -

i) Liquidation of illiteracy

ii) Continuing Education to those who have left schooling at one stage or the other.

iii) Functional literacy to those workers who want to improve their professional competence.

2. To achieve 100% literacy within a period of 10 years

3. To open atleast 100 centres for providing non-formal education.

4. To involve voluntary organisations and associations in this task.

5. To give assistance financial and otherwise to the voluntary organisations for undertaking the programme of adult literacy.

3. Main Targets for Sixth Five Year Plan (1978-83)

There are about 9400 persons according to a rough survey made in this territory who are illiterate between the ages of 15-35 years, and therefore, our target would be to achieve 100% literacy within next ten years through a phased programme.

2. To start atleast 20 centres in this territory every year.

4. Proposed outlay for Sixth Five Year Plan: Rs. 8.770 lakhs
5. Targets vis-a-vis achievements during 1978-79 with the remarks for shortfall/excess if any.

<u>(A) Physical.</u>	<u>Targets.</u>	<u>Achievements.</u>
(i) Opening of adult literacy centres.	20 Centres.	20 Centres.
(ii) To appoint one part time teacher for each centre.	20	20
(iii) To provide Tat-patti, Dari, Table, Chair, Black Board & one patro max for each centre.		• Provided.
(iv) To provide reading and writing material to 20 adults in each centre.	400 Adults.	400 Adults.
(v) Production/Purchase of literature for 20 centres.	--	Purchased.
<u>5(B) Financial.</u>		
Approved outlay for 1978-79	0.700	0.700 (Anticipated)

6. Targets proposed for 1979-80:

- (a) To open atleast 20 centres in industrial & rural areas where there is a concentration of backward classes and farmers in South Andaman-including 10 in Car Nicobar areas.
- (b) To provide one part-time teacher for each centre and 3 supervisors.
- (c) To provide Tat patties, Larries for the students, a table, chair, Black Board and petromax for each centres.
- (d) Provision of books, slate, pencil, exercise books for each adult.
- (e) Production/Purchase of literature and follow-up material.
- (f) To provide assistance to voluntary organisations involved in this work.

EDUCATION DEPARTMENT

SECTOR : GENERAL EDUCATION

SCHEME No. 1

1. Name of scheme : Other Programme-Physical Education Games and Sports.

2. Objective of the Sixth Five Year Plan:

It is needless to emphasize the importance of Physical Education- Games and Sports for a fuller development of a child's personality. Games and sports play an equally important role in the life of a student as acquiring of knowledge or gaining academic excellence. Generally the physical fitness value of physical education is emphasised rather than its educational value. Games and sports should lead not only to Physical efficiency but also mental alertness and develop certain qualities like perservance team spirit leadership, obedience, to rules moderation in victory and balance in defeat.

1. To achieve these objectives it is proposed to organise and develop in a methodical and systematic manner programmes of physical education-games and sports in these Islands.
2. To provide and develop play grounds as far as possible with each school even if it is not of the standard size.
3. To provide sports gear and equipment to each school.
4. Wherever facilities of play ground do not exist a provision of gymnastic apparatus and equipment has to be made.
5. Games and sports material has also to be provided to each school according to its strength.
6. Special emphasis has to be given to rural sports.
7. Sports talent among the students will have to be explored and suitable scholarships atleast for a period 4 years shall be given to those outstanding sportsmen and athletes who can make a mark in the State or the country.

8. Assistance to voluntary organisations who are engaged in promotion of games and sports will also be provided by the administration.
9. Strengthening of the Administrative and Supervisory staff at the headquarters and at the district level for better organisation and efficient running of the programmes of Physical Education.
10. To construct swimming pool stadia and gymnasia at Port Blair, Car Nicobar, Mayabunder and Diglipur.

3. Main targets for the Sixth Five Year Plan

- i) Provision of games and sports material to each school in a phased manner.
- ii) Provision of gymnastic material to those schools where facilities of play ground do not exist.
- iii) Development of playground at Port Blair, Diglipur, Mayabunder, Rangat, Car Nicobar and Campbell Bay.
- iv) Provision for participation of the school teams in the national tournaments at the mainland (Subroto Football & Nehru Hockey Tournaments)
- v) Organisation of annual sports and games tournaments at the zonal and state level and distribution of prizes.
- vi) Providing scholarships to the best three students in games and sports in the following items:
 1. Football
 2. Hockey
 3. Volleyball
 4. Basketball
 5. Field and track events.
- vii) Organisation of rural sports at the block, zonal and state level and sending of teams for participation on the mainland in the national events.
- viii) National physical efficiency drive, organisation of various items thereof.
- ix) Organisation of coaching camps in five or six places for different games and sports.
- x) Construction of stadium one each at Port Blair, Car Nicobar, Mayabunder and Diglipur.

- xi) Construction of Swimming Pool, one each at Port Blair, Car Nicobar, Mayabunder and Diglipur.
- xii) Construction of gymnasium one each at Port Blair, Car Nicobar, Mayabunder and Diglipur.
- xiii) Grant-in-aid to State Sports Council and to the Regional Sports Council.
- xiv) Strengthening of Sports Unit by appointment of one Assistant Director, 1 Senior Supervisor, Supervisor-4, Coaches- 4, Head Clerk-1, HGC-1, Stenographer -1 and class IV - 2.

4. Proposed Outlay for the Sixth Five Year Plan

- i) Proposed Outlay for 1978-83 - Rs. 110.470 lakhs.

5. Targets vis-a-vis achievements during 1978-79 with the reasons for shortfall/excess if any:

A. PHYSICAL

<u>TARGETS</u>	<u>ACHIEVEMENT</u>
1. Participation of the school team in the National Tournaments on the mainland.	1. Govt. Higher Secondary school, Car Nicobar 17 member football team will participate in the Subroto Mukerjee Cup Football tournament from 10th to 25th December, 1978 and an amount of Rs. 7790/- has been sanctioned by the administration.

ANDAMAN AND NICOBAR ADMINISTRATION

DEPARTMENT : EDUCATION Sector: GENERAL EDUCATION

Scheme No. 8

1. Name of the scheme : Youth Services - Scouting & Guiding

2. Objectives for the Sixth Five Year Plan (1978-83)

The Scout and Guide movement was revived in these Islands during the year 1967. A craft teacher has been looking after the scheme since its inception and working as Secretary of scouting. The scouts and Guide troops have been raised in 51 Primary schools, 28 Middle schools and 12 Higher Secondary schools. Some of the teachers have been trained in different courses by deputing them on the mainland. It is proposed to have scouting and guiding in all the schools specially in tribal areas.

3. Main targets for Sixth Five Year Plan 1978-83:

- i) To introduce scouting and guiding in all the Primary, Middle and Higher Secondary schools.
- ii) To introduce sea scouting among the senior scouts of this territory which has a vast sea coast.
- iii) To raise Rover troops in different Islands.
- iv) To start Junior Red Cross movement in Primary schools.
- v) To organise National Integration camps.
- vi) To send scouts and guides to the mainland for various camps, Jamboories etc.
- vii) To strengthen the Scouts and Guides Organisation.
- viii) To organise Social Service Camps.

Scheme No. 9

1. Name of Scheme:- Youth Services, National Service Scheme and Planning Forum.

2. Objectives for the Sixth Five Year Plan:

National Service Scheme has been in operation in Government College, Port Blair from the year 1974-75. This scheme has been attracting a large number of students and its objectives have made an impact on the minds of the students and community.

Planning Forum also is in existence in this college and it is working under the overall umbrella of the National Service Scheme.

Both of these schemes are handicapped for the want of proper transport facilities. Most of the students covered under these schemes come to the college from the farflung islands and remote and inaccessible localities where transport facilities work to a tight schedule. This has been one of the major handicaps coming in the way of any project taken outside college hours. It is proposed that in order to provide them adequate transport facilities the college should have its own transport to enable the unfettered participation of the students in programmes of the National Service Scheme.

3. Main targets for the Sixth Five Year Plan:

1. Organisation of National Service Scheme camps.
2. Purchase of Mini buses - 2 Nos and appointment of staff for running the scheme.

4. Approved/proposed outlay for the Sixth Five Year Plan:

Rs. 1.720 lakhs.

EDUCATION DEPARTMENT

ANIAMAN & NICOBAR ADMINISTRATION

SECTOR: EDUCATION

SCHEME NO: 10.

1. Name of the Scheme : Direction, Administration and Supervision.
2. Objectives for the Sixth Five Year Plan(1978-83).

There has been a great quantitative and qualitative expansion of education during the last ten years. The number of primary schools which was 76, at the commencement of the second plan has gone upto 158 at the end of the Fifth Plan. The number of middle schools has also gone upto 35 as against two at the time of the commencement of the Second Plan. The number of high/higher Secondary schools has also gone upto 18 whereas it was only one at the commencement of the second plan. In addition to opening of Primary Schools and upgradation of Primary Schools into middle schools and middle schools into higher secondary schools, the department has launched new schemes such as supply of free text books, supply of free uniforms to weaker sections of the society, grant of stipends to students of tribal and rural areas studying in middle and higher secondary schools and grant of free travel concessions etc. There has, however, been no increase in the administrative and supervisory machinery to have effective supervision. As the activities of the Education Department have increased manifold it has not been possible to cope up with the increased work with the existing staff. Moreover the islands in this territory are scattered which have made the effective supervision impossible with the present staff. It is, therefore, very essential to strengthen the planning, inspection, survey, statistical and monitoring cells without which none of the plan schemes can be implemented successfully nor can the department function effectively.

3. Main targets for Sixth Five Year Plan, 1978-83:

- a) To construct the office building of the Directorate of Education.

- b) To construct the Office buildings of District Offices.
- c) To strengthen the planning, administrative and inspection machinery in the Directorate and District Offices by appointment of the following staff.

<u>Sl.No.</u>	<u>Category.</u>	<u>No.of posts.</u>

ANDAMAN AND NICOBAR ADMINISTRATION
DEPARTMENT : EDUCATION

Sector : General Education. Scheme No. /)

1. Name of the scheme : Other programmes - Bureau of
Text Books.

Andaman and Nicobar Islands are inhabited by persons belonging to most of the States on the mainland . They present a panorama of a miniature India. People who have come from different States and have settled down in these Islands claim that Education should be imparted to their children through their own mother tongue and therefore, arrangements have been made to impart education through the media of 8 languages at present at the primary and six at the secondary and Higher secondary level. The administration follows the syllabi and courses laid down either by the NCERT by the Delhi Administration from class I to VIII for those students whose mother tongue is Hindi or English. But for other language groups the curriculum and the syllabus as well as text books of the concerned states are followed from class I to VIII. But when the student reach the secondary and higher secondary stage they have to follow the syllabi and courses and text books as prescribed or recommended by the Central Board of Secondary Education, New Delhi because all the schools are affiliated to the Central Board at Delhi.

The greatest difficulty which these islands face is regarding the preparation, procurement and distribution of text books for the students studying here and specially for those whose media of instruction is a language other than Hindi or English because neither the Central Board nor the NCERT publish any book in any media other than Hindi or English. Even the examination papers are set in English and Hindi only but the students are allowed to answer in their own mother tongue. This has put our students to a very great disadvantage because there is no uniformity of standard upto VIII and they are put to a serious handicap in higher secondary sections when they do not get the books in their own language. It is, therefore, proposed that the Directorate of Education should set up a cell for preparation, translation and printing and publication of text books. It is also necessary that our territory should nationalise all the text books and bring them out at its own level so that the text books and their contents have relevance to the special situation and conditions of these Islands.

It is proposed to establish a printing press for undertaking the work of printing and publication of text books, school magazine, examination papers, answer books, various other matter like teachers diaries, registers, forms etc. The present small press does not have the capacity nor the equipments for undertaking this work.

2. Objectives for the Sixth Five Year Plan: 1978-83.

- i) To set up a unit or a text Book Committee at the headquarter with highly qualified and suitable staff.
- ii) To get the text books prepared in different subjects from class I to VIII.
- iii) To get the translations done in different languages which are media of instruction in these islands from Hindi/English.
- iv) To get the books printed and published either through government press or from the mainland till such time a press is set up.
- v) To set up a press which could take up printing of text books, magazine, examination papers and various other matter for printing.
- vi) To give suitable remuneration to the readers and translation of text books as per yardstick laid down by the NCERT

3. Main targets for the Sixth Five Year Plan 78-83:

- i) Nationalisation of textbooks.
- ii) Preparation of textbooks from class I to VIII
- iii) Translation of text books from class I to XII in different languages in a phased manner.
- iv) Establishment of a Press.
- v) Printing and publication of text books.
- vi) Payment of suitable remuneration, as per yardstick of the NCERT to the writers, readers and translators of text books.

4. Proposed outlay for the Sixth Five Year Plan:
Rs. 10.620 lakhs.

5. Targets vis-a-vis achievements during 1978-79 with the remarks of shortfall/excess, if any.

A . PHYSICAL . Target Achievement

1. Appointment of staff

- (a) Dy. Director of Education (Text Book) (1300-1700)-1 One post of Asstt. Director has been created in the scale of Rs. 1200-1600. The post is likely to be filled in.
- (b) Artist - 1 (550-900) One post has been created. The post is yet to be filled in.
- (c) Technical Assistant (550-900) -1 -do-

EDUCATION DEPARTMENT ANDAMAN AND NICOBAR ADMINISTRATION

SECTOR: GENERAL EDUCATION Scheme No. 12 12

1. Name of the Scheme : Other Programmes - Remedial Teaching for weak students.

It is necessary for the successful implementation of the 10 + 2 pattern of education that we should lay greater stress on the quality of education. By and large we find that our students do not fair well in English, Maths and Science subjects. This happens especially in the school run by the Government because admission is denied to none. Individual attention is not generally possible in the schools in regular hours of teaching. The students who are weak in different areas do require special help and remedial teaching for bringing them at par with other in those subjects in which they are actually weak. For this purpose, it is proposed to start a scheme of remedial teaching for such weak students of the final classes i.e. class VIII, X and XII who have secured less than 40% marks at the previous final examination at the school. Such remedial teaching shall take place atleast for 1½ to 2 hours a day either before or after the school hours and also on Sundays and other holidays, especially in breaks and summer vacations. For this purpose it would be necessary either to engage the most sincere and

and devoted teachers of the same school or even from other schools or outsiders or retired teachers who are active and who would work with devotion. The scheme shall run atleast for 10 months in a year.

It is proposed to engage six teachers for English, Maths, Physics, Chemistry and Biology and if necessary one for subjects in Humanities and give him a remuneration of Rs.150/- per month for taking two periods per day one for class X and the other for Class XII or VIII till such time class XII comes. These remedial classes shall be held in the 14 Higher Secondary/Secondary schools in different parts of the Islands. The Principal who shall supervise these classes shall be given an honorarium of Rs.200/- p.m. This remuneration shall serve as an incentive for the teachers and the Principals to stay beyond the school hours and to cover their expenses on conveyance on Sundays and holidays.

2. Objectives for the Sixth Five Year Plan 1978-83:

- 1) To provide individual attention and remedial teaching to those weak students of class VIII, X and XII who obtained less than 40% marks at the last final examination.
- 2) To remove their deficiency in those areas in which they are weak and to bring them at par with others.

- 3) To provide special coaching atleast for 45 minutes per day in two subjects.
- 4) To put about 10 to 15 students and in no case more than 20 in one group in one subject. This would facilitate proper and individual attention in removing the weakness of these students.
- 5) To provide one class IV staff at each centre for staying beyond the school hours and on holidays and sundays when the classes would be run for making arrangements of water, light and sanitation etc. He shall be given an allowance/remuneration of Rs. 50/- per month.

3. Main targets for the Sixth Five Year Plan(1978-83)

- i) To provide remedial teaching in all the high and higher secondary schools in five or 6 subjects in which the students are found to be weak.
- ii) To appoint approximately six teachers in each school for 10 months and to pay them remuneration at Rs.150/- per month and one class IV staff at each centre who would also be given an allowance of Rs. 50/- per month.

4. Proposed Outlay for the Sixth Five Year Plan:

Rs. 6.320 lakhs

5. Targets vis-a-vis achievements during 78-79 with the remarks for shortfall/excess if any:

EDUCATION DEPARTMENT

ANDAMAN AND NICOBAR ADMINISTRATION

Sector: General Education Scheme No. 13

1. Name of the Scheme: Other programmes - Running of Supervised Study Centres

It has been noted that majority of students studying in our schools belong to the weaker sections of our society and do not have adequate accommodation or arrangement ^{of} light or study at their homes. They live in small huts with their families and are handicapped because of inadequacy of arrangements of study at home. Their parents are also not able to help and guide them. This is one of the major causes of the weakness in our students as they cannot do their home work nor can they study properly at home.

If we have to improve the situation there is no other way but to provide facilities of study for them at the school. They have to come over to the school in the evening and study there; at least for two hours a day under supervision of teachers and the head of the institution. If such study centres are opened, it is expected that no less than 20% to 30% students would be coming over and would avail the facility thus provided to them for studying regularly under supervised system.

It is proposed to open study centres at the middle class well as at the high and higher secondary schools which are nearer to the residence of the students. Arrangements for light and water will also have to be made at each centre where they do not exist.

...

It is proposed to provide two teachers; one post graduate and one trained graduate (by rotation if necessary) one for science and one for humanities for supervision at the study centres. The head of the institution shall also work as one of the supervisors of these study centres and one class IV staff shall be kept as attendant for making arrangements of sanitation, light and water etc. It is proposed to give an allowance of Rs.150/-p.m. to the head of the institution, Rs.125/- to the post graduate teacher, Rs.100/- to the trained graduate teacher and Rs.50/- to the class IV staff per month. Such study centres shall run atleast for eight months in a year.

2. Objectives for the Sixth Five Year Plan: 1978-83

- i) To provide facility of supervised study at the middle, high and higher secondary schools for those students who belong to the weaker sections of our society and who do not have adequate accommodation or light at their residence for study.
- ii) To enable them to come to the school where the facility of study under supervision of teachers would be available.
- iii) To enable them to do their home work properly and efficiently.
- iv) To enable them to remove their deficiency by seeking help of the teachers who would be available to supervise their study.

3. Main targets for the Sixth Five Year Plan: 1978-83

It is proposed to open atleast 50 or more centres in educational districts i.e. South Andaman, Middle Andaman, Little Andaman, North Andaman, Nicobar, Nancowrie and Campbell Bay. The number of centres shall be in middle, high and higher secondary schools. It would depend upon the number of schools in each area.

.....

DEPARTMENT: EDUCATION

ANDAMAN AND NICOBAR ADMINISTRATION

Sector: General Education

Scheme: 14

1. Name of Scheme:

Other programme - programme of Educational tours and excursions by teachers and students

This territory is a far flung and forlorn place about thousands of miles away from the mainland. It is also a backward area where our students or teachers remain cut off from the mainland and generally remain ignorant about the development which takes place there. National integration also requires that the students and teachers should have an opportunity of visiting various places of importance on the mainland and should know what progress has our country made ever since independence. Educationally also it is important that the students and teachers should go on excursions and tours to various places of historical importance and other places of importance i.e. various projects which have been undertaken since India became free.

2. Objectives for the Sixth Five Year Plan:

1) With this end in view it is proposed to provide for Educational tours and excursions of the students and teachers of these islands to various places/States on the mainland. The students can go only during autumn and winter breaks to nearby States and to other far off places during the summer vacations.

2) It is proposed to provide 50% of the fare by ship and train to the destination from Port Blair and also

50% expenditure on various modes of travel at various places. It is also proposed to give Rs.10/- per head towards the expenditure on board and lodging to our students and teachers who would be going to such excursions:

3) It is proposed to send about 100 students including 5 teachers (20:1) every year during the breaks and vacations to the mainland.

3. Main targets for the Sixth Five Year Plan: 1978-83:

- i) To send 100 students including teachers to the mainland during breaks and vacations.
- ii) To provide full concession for the teachers and 5% of the concessional fare to the children, besides 50% share on Board and lodging.

4. Proposed outlay for 6th Five Year Plan: Rs.1.500 lakhs during 78-79

5. Targets viz-a-viz achievements/with the remarks for shortfall/excess, if any

DEPARTMENT: EDUCATION ANDAMAN AND NICOBAR ADMINISTRATION

Sector: General Education.

Scheme No.15

1. Name of the scheme: Other Programme - establishment of a holiday home at Port Blair.

Every state has provided for a holiday home as a Welfare measure for the teachers wherein they can go and enjoy their holidays as well as go and stay at a cheap cost whenever they go for attending various training courses or seminars etc. It is, therefore, felt that a place like Andaman and Nicobar Islands where there are no hostels or hostels, we should provide a home for the teachers wherein they can come and stay whenever they come to Port Blair either for training courses or seminars or when they have to stay forcibly for catching a ship or a plane for the mainland. They can also come for a holiday at Port Blair and stay.

2. Objectives for the Sixth Five Year Plan:

In this territory about 80% of the teachers come from the mainland and are working in various far flung places in these Islands. These teachers have to come to Port Blair for various courses, inservice training seminars, workshops and other programmes. They also come every year during summer vacations for catching a ship or plane to the mainland. They also come to Port Blair for various functions and whenever they

have to go on leave or for some other urgent work or training courses at the mainland, they have to stay sometimes for two to three days or sometimes much more when they come for various courses i.e. for a week or two weeks. But there is no place at Port Blair where they can stay or can be accommodated.

It is, therefore, essential that a home should be provided for such teachers at Port Blair with at least 25 double bedded rooms and two to three big dormitories which could accommodate about 100 teachers at a time. This home can also be utilised during the year by various students who come to Port Blair for excursions or educational tour or for playing different matches held at Port Blair. The tourist who come from outside can also stay in this home, thus this home shall serve not only the teachers but also the students and other tourists and would provide cheap and comfortable accommodation to them and save them from lot of botheration which they suffer at present.

It is, therefore, proposed that such a home for teachers should be constructed in Port Blair.

3. Main target for the Sixth Five Year Plan - 1978-83.

Construction of a holiday home for teachers and provision of a minimum staff for its maintenance and kitchen.

4. Proposed outlay for the Sixth Five Year Plan

Rs.11.170 Lakhs
during 78-79

5. Targets vis-a-vis achievements with the reasons for short-fall/excess, if any:

A. Physical - NIL

B. Financial - NIL

6. Programme for 1979-80:

1. Construction of Holiday home for teachers and provisions of minimum staff for its maintenance & kitchen.

7. Proposed outlay for 1979-80: Rs.5.000 Lakhs

8. Details of Expenditure:

SCHEME NO 16

Name of Scheme: Bureau of Educational and Vocational Guidance.

2. Objectives for the Sixth Five Year Plan(1978-83).

It is proposed to establish a Bureau of Education and Vocational Guidance in this territory. The Bureau will aid, advise and assist the students in proper selection of various educational and vocational courses. At present there is no such facilities in this territory for giving proper directions and guidance to the students in selecting their career and location as well for improvement their performance at the school. The scheme also envisages training of existing teachers to work as career masters.

3. Main targets for Sixth Five Year Plan: 1978-83.

- i) Establishment of a Bureau of Educational and Vocational Guidance at Port Blair.
- ii) Training of teachers to work as career master.
- iii) Appointment of one Vocational Guidance Officer(1100-1600) One Asstt. Vocational Guidance Officer(650-1200), One Upper Division Clerk(330-560), One Lower Grade Clerk-cum-Typist(260-400) and one Peon(196-232).
- iv) Appointment of 4 Counsellors(550-900) for 4 districts.
- v) Appointment of 20 Career Masters on honorarium basis at Rs.50/- per month in various schools.

Proposed outlay for the Sixth Five Year Plan. Rs.4.480 lakhs.

Targets vis-a-vis achievements during 1978-79 with the remarks for shortfall/excess, if any.

DEPARTMENT: EDUCATION.

ANDAMAN AND NICOBAR ADMINISTRATION.

SECTOR: GENERAL EDUCATION-

SCHEME NO: 17

1. Name of Scheme: Setting up of a small Press for Printing and Publication of Text Books.
2. Objectives for the sixth Five Year Plan, 1978-83.

The Administration aims to achieve not only universalisation of elementary education but also qualitative improvement of education and raising of standards. One of the greatest problem in these far flung islands is the non-availability of Text Books. It is a multilingual territory and instructions at primary level are being provided through the media of 8 languages while at the secondary level there are 6 media of instructions. The High and Higher Secondary Schools of these islands are affiliated to the Central Board of Secondary Education, New Delhi. Due to instructions through various media the curricula and syllabi of different States are being followed from class I to VIII. This causes variations in standards and consequent difficulties of following different syllabi and text books. It has therefore been decided to set up a Bureau of Text Books which will not only translate the books of the N.C.E.R.T. in different languages but also prepare its own books for the children of class I to VIII. The present Government Press at Port Blair is not in a position to take up the work of printing and publication of various text books to be prepared by the Bureau of Text Books. It is, therefore, proposed to set up a press for printing and publication of various Text Books.

3. Main targets for the 6th Five Year Plan: 1978-83.

- i) Construction of a building for the Press.
- ii) Installation of the following Plants and machineries.

Lino Machine	-	-	1.
Mono Key Board	-	-	1.
Mono Casting Key Board	-	-	1.
Auto Cylinder Printing Machine.			1.

ANDAMAN AND NICOBAR ADMINISTRATION

EDUCATION DEPARTMENT

Sector : General Education

Scheme No. ~~xxx~~ 18

1. Name of the scheme : Art & Culture - Promotion of Art & Culture & Fine Arts Education.

Andaman and Nicobar Islands present a spectacle of a miniature India where people belonging to diverse races, cultures and groups have come and settled down. All of them have an intermix with one another, yet maintain an identity of their own. The tribals who are about 17% of the population are still in the primitive stage and belong to the neo-lithic culture. The other groups of people who have come from different states also want to preserve their own language and culture. The Islands have an intermix of population and it can be safely said that they have acquired a culture of their own. If due encouragement has to be given for the preservation of art and culture of various linguistic groups and give due encouragement to the development of the composite and unique culture of these Islands, it is felt that a State Academy of Arts and letters should be established in these Islands which can give due encouragement to the talents in Art, Music, Dance, Drama and development of the language of the people residing in these Islands. It is, therefore, proposed that a body known as 'Andaman and Nicobar Sahitya Kala Parishad'

should be established under the administration for preserving the unified culture and bringing about an integration of different communities, Castes and religions.

2. Objectives for the Sixth Five Year Plan.

- (i) To encourage literary and cultural activities of the linguistic & racial groups in hailing in these Islands.
- (ii) To give encouragement to Music, Dance, Painting and other fine arts in the territory.
- (iii) To encourage the talented persons in various literary and cultural activities to pursue their art further and acquire excellence in it.
- (iv) To provide scholarship to the talented artists, musicians, dramatists, dancers etc. for further studies.
- (v) Setting up a gallery of Art.
- (vi) Exploration of old records and manuscripts if any giving the historic culture of these Islands and to preserve them.
- (vii) To set-up a library containing books on music, dance, drama art and painting etc. for the scholars/research workers.
- (viii) To honour eminent local men of letters, artists, musicians etc & to give them suitable awards in cash and kind.
- (ix) To organise cultural activities in the educational institutions and to organise annual competitions in dance, drama, music and art for this purpose and give suitable prizes for the winners.
- (x) To establish a centre for training of music, dance and drama in these Islands at Port Blair and at other islands specially Carnicobar.

- xi) Construction of an auditorium for cultural performance by various groups and institutions.
- Xii) Preservation and conservation of cultural heritage.
- (xiii) Fostering cultural developments.
- (xiv) Dissemination of culture inviting cultural interaction between different regions and levels of society within India.

3. Main targets for the Sixth Five Year Plan 1978-83

A. Archaeology

- (i) To protect and preserve the monuments.

B. Archives

- (i) To institute a regular record management programme.
- (ii) To prepare suitable reference media for the records.
- (iii) To set-up adequate repair and reprography facilities not only for the official records but also to take care of archival material, old manuscripts and rare books in custody of institutions and private individuals.
- (iv) Construction of building.

C. Manuscripts

- (i) To give assistance to voluntary organisations for:
 - Survey and acquiring of rare manuscripts.
- (ii) Cataloguing and documentations of manuscripts.
- (iii) Providing adequate facilities for the physical preservation of manuscripts, repairs, reprography and microfilming etc.

D. Museums

To establish museums at district headquarters viz at Port Blair and Carnicobar of multi-disciplinary

nature. The museum will contain objects of local cultural heritage in various disciplines, local artists/craftsmen will be associated in the activities of the museums with a view to keep the traditions. steps will also be taken for documentation of catalogue and conservation of collection.

- E. (i) Establishment of a State Academy of Arts and letters known as 'Andaman and Nicobar Sahitya Kala Parishad'.
- (ii) Setting up of a centre under the parishad for music, dance and drama.
- (iii) organisation of annual competitions in painting, dance, drama and music etc.
- (iv) Giving away prizes to best winners.
- (v) Honouring of eminent artists and musicians etc by giving them awards.
- (vi) Construction of an auditorium.
- (vii) Establishment of a library and art gallery.

4. Proposed Outlay for Sixth Five Year Plan 1978-83-
Rs. 16.760 lakhs.

ANDAMAN AND NICOBAR ADMINISTRATION

DEPARTMENT : EDUCATION

SECTOR : GENERAL EDUCATION

Scheme No. ~~18~~ 19

1. Name of the scheme: Establishment of Rural and Public Libraries.

2. Objectives for the Sixth Five Year Plan- 1978-83

The Andaman and Nicobar Islands have a diverse population coming from various parts of India belonging to different language groups and cultures. They remain cut off and ignorant about the day to day advancement of knowledge or the happenings in the mainland or the world around. It is essential to provide good books and encourage reading habits and a love for language, literature art and culture in them. With this end in view it has been decided to set up a net work of good libraries in various parts of these islands. Modern up-to-date-libraries in the islands will be the only store house of latest information and knowledge acquired on different subjects for students, scholars and public at large as the people of this territory cannot benefit by modern libraries on the mainland due to vast distance. In a democratic set up it is essential that people should not only be literate but also know the developments taking place in various parts of the world. For this purpose it is essential that they should have an access to various news papers, magazines and other

Literary journals and books on various subjects.

It is needless to emphasise the importance of public libraries in our present day world. It is therefore necessary to strengthen the existing state library at Port Blair and to set up Regional and village libraries in different parts of these Islands.

The main objectives of the scheme are:-

1. To open good libraries in different Islands and create an interest in reading amongst people.
2. To acquaint the masses with day to day information and to promote reading habits in them.
3. To increase their professional efficiency by making available latest books and journals to them.
4. To provide reference books for scholars.
5. To provide such literature and reading material for the masses so that they do not lapse into illiteracy.

3. Main targets for the Sixth Five Year Plan (1978-83)

(A) State Library Port Blair.

i) Extension of State Library Building

ii) Strengthening of State Library by:

(a) Providing additional books & periodicals, furniture & equipments.

(b) Providing following additional staff:-

State Librarian (650-1200) - 1.

Librarian (440-750) - 2

Typist (260-400) - 1

Attendent (196-232) - 1

Sweeper (196-232) - 1

(B) Zonal Libraries

i) Establishment of zonal libraries at :-

1. Diglipur
2. Mayabunder
3. Rangat.
4. Little Andaman
5. Car Nicobar
6. Nancowrie
7. Campbell Bay.

Zonal libraries already opened at Diglipur, Mayabunder and Car Nicobar will be strengthened.

ii) Construction of Building for 7 libraries.

iii) Appointment of one Librarian (440-750), one attendant and one Sweeper (part-time) for each zonal library (total 7 librarians and 14 class IV)

iv) Providing Books, Newspapers, periodicals, furniture & equipments etc.

(C) Village libraries.

(i) To set up 33 Libraries in the following areas:

<u>Area</u>	<u>No.of village libraries</u>	
Diglipur - 5	Little Andaman- 1	
Mayabunder -3	Car Nicobar - 3	
Rangat - 4	Nancowrie - 2	
Port Blair	Campbell Bay - 2	
Sub.Div- 9		-----
Farrargunj- 4		33

(ii) To appoint one part-time librarian, one part-time attendant for each village library on payment of Rs. 150 to 200 pm and Rs. 75 pm respectively

(iii) To provide books, newspapers, periodicals, Almirahs, tables, chairs etc.

(iv) Construction of library buildings by providing one room for each village library (33 rooms)

D. To give grant-in-aid to Raja Ram Mohan Roy Library and other voluntary organisations.

E. To develop archives.

4. Proposed Outlay for Sixth Five Year Plan: 33.790 lakhs

5 (A) Targets and achievements during 1978-79

<u>(a) State Library</u>	<u>Target</u>	<u>Achievement</u>

ANDAMAN AND NICOBAR ADMINISTRATION

Sector :- Education SCHEME NO. 20

1. Name of Scheme :- Development and propagation of Hindi.
2. Objectives for the Sixth Five Year Plan (1978-83)

Under this Scheme, following Programmes are included for the Development and propagation of Hindi :-

- (1) Preparation of Hindi Nicobari and Nicobari-Hindi Dictionaries and a pedagogical grammar of Nicobari Language :-

Out of six scheduled tribes existing in the Islands, one tribe namely Nicobari is more advanced than its other counterparts. So is the case with their dialects. Nicobari dialect has now developed to an extent to name it a language where as dialects spoken by other tribes are still passing through their initial stage. Nicobari Language was so far being written in Roman script and the Administration has introduced Dev Nagari script by way of introducing first two primors, of the language in Dev Nagari Script. Now it is proposed to bring out in collaboration with the Central Institute of Hindi, Hindi-Nicobari, and Nicobari-Hindi dictionaries on the pattern, a practical Hindi-English dictionary was brought out by the Central Hindi - Directorate at the instance of the then Prime Minister Pt. Jawahar Lal Nehru.

Preparation of Hindi-Nicobari and Nicobari Hindi dictionaries, involving about thirty thousand entries, is meant for students and translators and it is proposed to collect vocabulary relating to their usages during the plan period. This scheme will promote mutual exchange at the literary and cultural level between Nicobaries and their other country fellows. A pedagogical grammar of this language will also be prepared after the above dictionaries have been brought out.

METHODOLOGY

Three scholars of Hindi and three scholars from Nicobaries will be involved in the scheme and they will visit the regions of each other, with a view to select, classify and arrange entries in both the languages and to prepare a format for the layout of the proposed dictionaries. Nicobari team will complete work on some alphabates on mainland preferably in Hindi speaking region. Similarly the team of Hindi scholars will visit Nicobar group of Islands for selection of entries and helping Nicobari scholars in preparation of the dictionaries

in accordance with the format jointly agreed to. Both the teams during their visits will help each other in ~~xxxxxx~~ scrutinising, correcting and systemising the entries.

(2) Linguistic Survey of Lingua Franca as spoken in the Islands :-

The Union Territory of Andaman & Nicobar Islands seems to be a living language laboratory, where Hindi is widely spoken and understood as lingua franca by a small, multilingual population condensed in a small ~~prce~~ piece of territory. There are peculiar linguistic characteristics of this common language which can provide basic material for evolving all India Link Language. It is therefore proposed to make linguistic Survey of the local dialect of Hindi as spoken in the ~~xxx~~ Islands. Side by side we propose to prepare a pedagogical grammar of Hindi based on contrastive and an error analysis of locals and intonation lessons for class room drillings. The scheme will be implemented in colobaration with the Central Institute of Hindi.

(3) Teaching Hindi to Government Employees :-

There are about 6,000 Government employees to be trained in Hindi so as to enable them to acquire working knowledge of Hindi. Though a unit of Hindi Teaching Scheme, of the Ministry of Home Affairs has so far trained about 300 employees during the last 8 years or so, about 5,500 employees are yet to be trained in Hindi, since there are about 200 employees who already possess working knowledge of Hindi. Since it is considered necessary to complete the training of remaining employees in a stipulated period the Administration wants to fix a target date.

(4) Training Centre for Hindi Typing and Hindi Shorthand:-

Every member of the Amalgamated Clerical Cadre consisting of about four thousand ministerial employees is required to possess minimum speed of 30 words in typing. All ~~xxxxxx~~ Stenographers are also the members of the Amalgamated Clerical Cadre and ~~and~~ they are required to be trained in Hindi Stenography. There are at present no arrangements for such training.

To start with one such Centre is proposed to be established at Port Blair to cover about one hundred employees during the plan period.

(5) Competition for acquiring proficiency in Hindi:-

With a view to encourage the Hindi learners and the persons studying through Hindi Medium, to express their ideas in Hindi effectively it is proposed to organise every year a competition for proficiency in Hindi.

(6) Publication of a Quarterly Magazine in Hindi:-

For providing an opportunity to publish articles, a quarterly magazine will be brought out in Hindi. In this Magazine articles of other Indian languages in Nagari Script will also be published if considered necessary.

(7) Grant-in-aid to the voluntary Organisation:-

Organisations undertaking activities voluntarily for the propagation of Hindi will be assisted financially.

(8) Strengthen of the Hindi Cell:-

Due to the implementation of the Schemes drawn up for the plan and on account of translation Office manuals, Andaman and Nicobar code consisting of Rules and regulations, and other standing administrative instructions, the department will have to bear a greater responsibility than that of the existing one. The translation of procedural literature has to be completed by a target date. It is therefore proposed to strengthen the Hindi Cell by way of creating additional posts.

3 MAIN TARGETS TO BE ACHIEVED FOR THE SIXTH FIVE YEAR PLAN.

- | Programme No. | Targets. |
|---------------|---|
| (1) | The work of selection of entries and preparation of format will be finalised as per methodology given therein. |
| (2) | A language laboratory will be established. List of linguistic specimen of errors will be finalised and fonetic study of the local Hindi completed as per prescribed methodology. |
| (3) | Three centres for teaching Hindi to Government employees will be established and maintained in order to finalise the training of at least two thousand employees by the end of new plan period. |
| (4) | Two centres for imparting training in Hindi typing and Hindi stenography to the existing staff will be established and run to cover up at least one thousand employees. |
| (5) | Such competition will be organised every year. |
| (6) | The magazine once brought out will continue to be published every quarter. |
| (7) | To encourage voluntary Hindi Organisation for the propagation of Hindi, they will be extended grant-in-aid every year. Number of such Organisations in the Islands is three at present. |
| (8) | It is proposed to convert the existing Hindi Cell of the Am. into a fullfledged Directorate of Hindi work by the end of new plan period. At present, Hindi Cell is functioning as a part and parcel of the Secretariat. One |

building will be got constructed.

4 Proposed Outlay for the Sixth plan period: :- Rs. 23.460 Lakhs

5. Targets Vis-avis achievements during 1978-79 with remarks for shortfall/excess, if any :-

Programme No. 1

A. Physical

Targets

A Cell consisting of One Research Assistant & one Higher Grade Clerk & one Peon was to be set up material purchased.

Achievements

Posts of one Research Assistant, and one H.G.C. have been created and the post of H.G.C. filled up.
