STATISTICAL HANDBOOK

**DISTRICT SRINAGAR
UP-DATED FOR**

1992—93

Issued by :

Directorate of Economics and Statistics
Planning and Development Department

DISTRICT STATISTICAL AND EVALUATION OFFICE SRINAGAR

I N T R O D U C T I O N

The District Statistical Handbook is oriented to the felt needs of data for scientific planning for development of the district. The publication is issued regularly for which data is processed by the District Statistics and Evaluation Office. Efforts have been made in this publication to incorporate district level data on all essential sectors of economy of the district.

I hope the publication will be found more useful by all users. Suggestions to improve the publication for its coverage, quality, etc will be welcome.

CHAPTER - II

1. Vital Statistics

Birth and Deaths accounting in the state are recorded through the village chowkidars in rural areas and through sanitary supervisors in the urban areas. The police station and the local body office function as registration offices. The field staff and officers of Directorate of Health and Directorate of Economics and Statistics conduct inspection of field work. Data are mechanically tabulated in the central tabulation unit of Directorate of Economics and Statistics. However, as in rest of the country, registration is far from complete and would take some time to improve.

The data on Births and Deaths registered under the normal registration system in the district are given in this chapter.

C H A P T E R - III

CLIMATE

Data on rainfall are recorded at rain gauge stations located of various places. The amount of rainfall received during the past 24 hours is recorded at 8.30 hours (IST) every day. A day recording rainfall of at least 1/10 of an inch is taken as rainy day. The data recorded on the rain-gauge stations in the district and mean maximum and mean-minimum temperature are given in this chapter.

CHAPTER IV
AGRICULTURE

Agriculture is main source of livelihood in the district though not as much as in other districts of the state. The data flowing on Agriculture relate to land use, cropping pattern, land holdings, off-take of fertilizer, pesticides and other inputs etc. Some of the data are based on annual enumeration conducted by the village patwari data relating to Agricultural census the figures emanating from the day to,day activities of Agriculture Department are given in the table that follows.

C H A P T E R - V I I

Livestock and veterinary

Livestock rearing is an important occupation of the village folks in general and the migratory population in particular. The district accounts for 2.50 lakh livestock heads out of a total of 74.14 lakh heads in the state. Information on livestock population and breeding programme, number of animals health and breeding institutions existing, preventive measures taken, treatment and operation of ailing animals performed etc. are contained in this chapter.

CHAPTER - VIII
FORESTS

Forest data are maintained by divisions which do not in many cases, coincide with the district jurisdiction. However, an attempt has been made to obtain some data on the basic items of area and out-turn from the forest department. The data which have become available from this source are given in this chapter.

....

C H A P T E R - I X

C. D. and N.E.S

The CD and NES Programme has been going on since fifteen. The strategy of development through the programme has changed from time to time. Presently the programme centres round IRDP and NREP. Data on number of panchayats and community centres existing, number of families identified below poverty line, income generating schemes setup training imparted under TRYSEM, work done under NERP etc. are contained in this chapter.

CHAPTER - X

Co-operative

Cooperative is an old movement in the State. The programme has made good progress in the District as in the state and has brought within its fold activities like agricultural credit, sale services, marketing, transport, handloom, handicrafts units etc. The number of various types of societies membership therein, capital structure of the societies etc. are given in this chapter.

CHAPTER - XI
ELECTRICITY

Considerable progress has been made in development of power resources in the state. Most of the villages have been electrified and provided with power for several purposes in addition to domestic use. The data on power generating, consumption, installations, villages electrified etc. are given in this chapter.

C H A P T E R- XIII
BANKING INSURANCE AND SAVINGS

The number of banking institutions has multiplied very fast during the past decade. The financial institutions have been playing great role in mopping up savings and advancing loans for development. The role of banks has become more important as a result of their association with the IRDP. The small saving securities and life insurance business has also helped to mop up considerable savings. This chapter gives information on the number of bank offices, deposits, advances, sale of small savings securities and life insurance activity in the district.

Industries and Labour

There are only a small number of medium industries in the state. Bulk of the industrial activity is in the small scale and un-organised sectors. Data on the number of registered factories, small scale units registered with the DIC, production of cocoons, handicraft and handloom training and loans advanced to small scale are given in this chapter.
