STATISTICAL HAND BOOK

DISTRICT POONCH

1981-82

Issued by :

**Directorate of Economics and Statistics
Planning and Development Department**

DISTRICT STATISTICAL AGENCY-----

Govt. Press, Srinagar

FOREWORD

With the establishment of District Development Boards and the Annual Cabinet Review of Development Plans at District level, an important first step has been taken in decentralising the Planning process in Jammu and Kashmir. There is, of course, a great deal more to be done in terms of giving content to District Plans, preparation of long term perspective plans and the strengthening of the district level Planning Machinery. In order to take the process of decentralised planning further, District plans would necessarily have to become more specific and based on greater statistical analysis. The District Hand-book, which is a regular annual publication of the Directorate of Economics and Statistics, should serve as a useful ready rechner for planners and administrators. The present issue is the fifth in the series containing data upto 1981-82. The data incorporated in the Hand-Book have been updated and widened in scope. It is hoped that the District Development Boards and the District administration would find the publication of utility. We would be happy to receive comments and suggestions for making improvement in the Hand-Book.

I N T R O D U C T I O N

District Statistical Hand-book has become a regular feature now. It has been well received and the earlier issues viz. for 1980-81 and prior to that have all gone out of stock. The Directorate of Economics and Statistics has been facing great demand from the various users. We have come up with the 1981-82 issue of the publication which is the 5th in the Series. Besides updating, the data have been upgraded and improved wherever possible. It is hoped that the District level planners as also all other users will find the Hand-book more useful now.

A new experiment was made to issue the publication from District Headquarters after it was vetted by the Directorate. The experiment has been successful and the 1980-81 publication was issued from the District Statistical Agencies. An attempt is now under way to prepare an Economic Review also at the District level. We hope the review will be a reality before long.

P R E F A C E

The objectives of publishing this Book stand already explained in the FORWARD and INTRODUCTORY NOTE. This precious Volume embodying the basic important, reliable and comprehensive data will provide a base for District Officers and Members of the District Development Board in reviewing the plan performances and formulation of future development plans upto the block level in respect of various economic spheres. Necessity is being felt that effective steps should be taken to shorten the time gap in publishing this Statistical Hand Book. I am hopeful that the next issue for the year 1982-83 will follow by the end of July 1983.

Despite heavy work load, the Development Section is publishing this Statistical Hand Book regularly. I place on record appreciation for the concerted efforts put in by Sh. C.R. Basora, Dy. Director, Planning and Statistics and his staff members, Shri Dhiraj Sharma, Statistical Assistant, Shri Marlochan Singh, Assistant Superintendent ICS, Miss Vipin Kumari, Stenographer and Miss Taranjeet Kour, Junior Assistant in preparation of material for this Hand Book and release out the publication quickly.

My thanks are due to the District Officers who have extended full cooperation and help in bringing out this Hand Book. Suggestions to improve the quality and coverage would be highly appreciated and most welcomed.

POPULATION

Poonch is one of the small districts of our state, As per census of 1981 the population of the District stands at 2.23 lacs which represents 3.74% of the total population of the state. Majority of the people live in rural areas which account for about 94% of the total population. Muslims constitute about 88.84% against 7.57% Hindus. All other communities constitute 3.57 lacs only. About 80% workers are engaged in agriculture as cultivators and agricultural labourers. This chapter gives data on population structure of the District, economic pursuits, working force, Number of villages and other etc.

III-AGRICULTURE

AGRICULTURE is the primary occupation in the District. About 80% of the total working force is engaged in this pursuit. According to village papers the total area of the District is 1.14 lac hectares, Out of which 0.34 lac hectares is cropped. The total irrigated area of the district is over 0.05 lac hectares to which irrigation is mostly provided by canals. Other sources also irrigate small acreages. Detailed information on the various facets of agriculture such as land utilization, irrigation, agricultural extension services etc. are given in this chapter.
