

**Govt. of Jammu & Kashmir
Planning & Development Department**

**BLOCK STATISTICAL HANDBOOK
2012-13**

Issued By:-

District Statistics & Evaluation Office

Doda.

FOREWORD

Reliable and accurate data is essential for proper planning, implementation, monitoring and evaluation of developmental programmes and socio-economic policies. The **District Statistics and Evaluation Office** is entrusted with the responsibility of collection, compilation, analysis and dissemination of data on diverse facets of the economy at the district level.

. The “**Block Statistical Handbook**” is an annual publication of the District Statistical Agency for addressing the data requirements for vast spectrum of users and bringing about transparency and accountability in the functioning of the government. I hope the information contained in the publication will enhance the knowledge of users in ascertaining the present socio economic scenario of the various blocks of the district.

I place on record my appreciation for the sincere efforts put in by the **Deputy Director, Evaluation and Statistics and the team of officers and officials** associated in bringing out this publication.

Suggestions for improvement of future issues of this publication are most welcome.

Sd/-
Mubarak Singh (KAS)
District Development Commissioner,
Doda.

PREFACE

As a nodal agency at District level for collection, compilation, analysis and dissemination of official statistics, the **District Statistics and Evaluation office Doda (J & K)** endeavours to publish credible and timely data to facilitate planning for sustainable and equitable development of the District in general and blocks in particular.

The publication “**Block Statistical Handbook**” for the year 2012-13 is an annual publication of the office of District Statistical and Evaluation Officer. The issue has been prepared with a view to provide important indicators/data to the users about the various blocks of the district.

The District Statistical & Evaluation Office, Doda is grateful to the various central and state departments/Agencies/corporations for making data available for this publication. I also trust that they will continue their support in future and provide data on all newly emerging issues.

I place on record my deep appreciation of all the **officials and staff of District Statistics and Evaluation Office Doda** who have put in sustained efforts in completing this publication.

Suggestions for improvement will be most welcome.

Sd/-

(Dr. Yasir L. A. Balwan)

District Statistical & Evaluation Officer

Doda

CONTENTS

Table No.	Description of Table	Period covered	Page No.
I) POPULATION			
1.1	Total Population of District	2011	2
1.2	Blockwise population	2011	3
1.3	Blockwise SC/ST Population	2011	4
II) AGRICULTURE			
2.1	Total area sown under different crops by blocks & tehsils	2012-13	6
2.2	Area not available for Cultivation (Block & Tehsil)	2012-13	6
2.3	Fertilizer off-take	2012-13	7

2.4	Area under food crops	2012-13	8
2.5	Production of food grain	2012-13	8
III) Rajiv Gandhi Grameen Vidyutikaran yojana.			
3.1	Progress of Village & habitation under RGGVY	2012-13	12
3.2	Progress of HT/LT & DTS under RGGVY		13
III) FISHERIES			
4.1	Licence holders & Quantity of fish caught in Doda District	2012-13	15
iv) HORTICULTURE			
5.1	Area under major horticulture crops	2012-13	17
5.2	Production of food crops (MT)	2012-13	18
5.3	Kindwise grafting Report of Departmental nurseries	2012-13	19

5.4	Kindwise Production/distribution statement of Fruits plants.	2012-13	19
5.5	Information regarding departmental nurseries.	2012-13	20
v) SERICULTURE			
6.1	Plantation & number of crops	2012-13	22
6.2	Production distribution & sale of cocoons	2012-13	22
vi) IRRIGATION			
7.1	Cropped area irrigated in Doda District	2012-13	24
vii) PUBLIC HEALTH ENGINEERING			
8.1	Water tank installation by purpose in Doda District	2012-13	26
8.2	Number of drinking water schemes in Doda District	2012-13	26
8.3	Village covered Under portable water supply	2012-13	26
viii) LIVESTOCK & VETERINARY			

9.1	Number of veterinary personals (sheep husbandary)	2012-13	28
9.2	Breeding programe/Artificial insemination (sheep husbandary)	2012-13	28
9.3	Sheep farm/center with sheep/goat population	2012-13	29
9.4	Preventive measures taken, patients treated and animals dosed/vaccinated.(sheep husbandary)	2012-13	29
9.5	Animals slaughtered.(sheep husbandary)	2012-13	30
9.6	Number of veterinary personals. (animal husbandary)	2012-13	30
9.7	Breeding programe/Artificial insemination (animal husbandary)	2012-13	31
9.8	Live Stoke	2012-13	31
9.9	Preventive measures taken, (animal husbandary)	2012-13	32

Ix) FOREST

10.1	Block wise forest area.	2012-13	34
10.2	Species-wise forest area by composition.	2012-13	34
10.3	Out turn of forest products	2012-13	35
10.4	Are exploited out turn and value of timber.	2012-13	35
10.5	Revenue realized from forests.	2012-13	36
10.6	Export of timber.	2012-13	36
10.7	Out turn of important minor forest produce.	2012-13	37

X) TOURISM

11.1	Huts,PG houses, tourist bungalows etc.	2012-13	39
11.2	Hotels & rest house.	2012-13	39
11.3	General/pilgrim tourists.	2012-13	40

XI) Rural Development Schemes

12.1	Villages and their Panchayats.	2012-13	43
12.2	Halqa- wise number of work under MGNREGA unified.	2012-13	44
12.3	Number of houses constructed under IAY/RHS/Panchayat halqa.	2012-13	44
12.4	Total sanitation campaign.	2012-13	45
12.5	Employment Generated under NREGA MPR	2012-13	46-47
12.6	Financial performance.	2012-13	48-49

XII) CONSUMER PUBLIC DISTRIBUTION SYSTEM

13.1	Ration card holder under APL, BPL & AAY.	2012-13	52
------	--	---------	----

XIII) HANDLOOM

14.1	Number of handloom crop societies.	2012-13	54
14.2	Trainees & centers.	2012-13	54
14.3	Block wise number of units & employment.	2012-13	55

XIV) CO-OPERATIVE

15.1	Co-operative society.	2012-13	57
XV) ELECTRICITY			
16.1	Year wise/ category wise number of electric installed.	2012-13	59
XVI) ROAD & BUILDING			
17.1	Rates of building material in jammu division(public sector)	2012-13	62
17.2	Wage Rate of public sector building construction workers in doda district.	2012-13	62
17.3	Category wiser road length by R&B department excluding national highways in district doda.	2012-13	63
17.4	Villages' connected / unconnected through roads.	2012-13	63
17.5	Road length maintained by district PWD (excluding national highway)	2012-13	64

XVII) BANKING INSURANCE & SAVING

18.1	Number of bank branches, deposits & advances.	2012-13	67
18.2	Bankwise position of implementation of Govt. sponsored schemes	2012-13	68

XVIII) INDUSTRIES & LOBOURS

19.1	Statement showing number of SSI units registered with DIC Doda.	2012-13	71
19.2	PMEGP cases sponsored, sanctioned and disbursement.	2012-13	71
19.3	Bank-Wise cases sponsored, sanctioned, amount of margin money sanctioned and employment generated.	2012-13	72
19.4	Registered khadi and village units(under PMEGP)(services & textiles)	2012-13	73
19.5	Registered khadi and village units(under PMEGP)(Agro-based & REBT industries)	2012-13	74
19.6	Registered khadi and village units(under PMEGP)	2012-13	75

19.7	Block wise training centers & trainees trained.	2012-13	76
19.8	Craft wise consumption of raw – material in handicrafts training centers.	2012-13	76

XIX) EMPLOYMENT & COUNCILLING CENTER

20.1	Registrations and placements made by the employment exchange.	2012-13	79
20.2	Qualification-wise number of persons on live register as on last day of the year.	2012-13	79
20.3	Employment in state government offices in the district.	2012-13	80

XX) TRADE & COMMERCE

21.1	Number of shops and commercial establishments and employment.	2012-13	82
------	---	---------	----

21.2	Ownership of shops and employment therein Doda District.	2012-13	83
21.3	Ward wise population.	2012-13	84
21.4	Activity wise revenue generated.	2012-13	85-87
21.5	Activity wise expenditure.	2012-13	88-90

XXI) EDUCATION

22.1	Institutions, teachers & students in primary schools.	2012-13	92
22.2	Institutions, teachers & students in middle schools.	2012-13	93
22.3	Institutions, teachers & students in high schools.	2012-13	94
22.4	Institutions, teachers & students in high secondary schools.	2012-13	95

22.5	Stage wise enrollment in general up to higher secondary level.	2012-13	96
22.6	Examination result.(8 th class)	2012-13	97
22.7	Examination result.(10 th class)	2012-13	98
22.8	Examination result.(12 th class)	2012-13	99
22.9	Qualification wise number of teachers in all schools	2012-13	100
22.10.	Qualification wise number of RET's in all schools.	2012-13	101
22.11	Teachers & students on roll in Bhaderwah campus jammu university.	2012-13	102
22.12	Teachers & students on roll in colleges.	2012-13	103
22.13	Students on roll in colleges according to faculties.	2012-13	104
22.14	Literacy rate by sex and area	2012-13	105

XXII) INDUSTRIAL TRAINING INSTITUTE

23.1	Training institute and trainees trained.	2012-13	107
XXIII) HEALTH & FAMILY WELFARE			
24.1	Medical institutions in District Doda.	2012-13	109
24.2	Clinics, Hospitals etc.	2012-13	109
24.3	Sectioned strength of medical personnel.(1)	2012-13	110
24.4	Sectioned strength of medical personnel.(2)	2012-13	110

Block Statistical Handbook 2012-13

POPULATION

Doda district is the **13th largest** district by population of the state of Jammu & Kashmir. After trifurcation of erstwhile District Doda, the District comprises of 402 revenue villages. As per census 2011, Doda has population of **409,936** of which male and female are 213,641 and 196,295 respectively. The population is mostly rural and only 7.97% of it resides in the towns. The population of Doda District constituted **3.27 %** of total population of J&K state. Working force accounts for **37.06%** of population. The main occupations of the working force are cultivators, agricultural labourers, livestock rearing, building construction, trade and commerce.

This chapter contains set of 4 tables presenting population statistics of the District Doda.

AGRICULTURE

Agriculture is the main source of livelihood in this District as in the rest of the state. Due to variation in climate there is variation in crop production too. The places with temperate climate (Bhaderwah and Gandoh) is characterized by relatively mild but dry summer with little monsoon and fairly cold-wet winter due to the “Western Disturbances”. It is mostly a monocropped zone with low production & productivity. However, other agriculture enterprises like apiculture & animal/sheep husbandry are very common and rather supplement the modest agriculture income obtained through arable farming. The area is also suitable for seed production of temperate vegetable crops. This area is also well known for Rice production. The places with Subtropical climate (Doda and Thatthri), which are drought prone, having mild summer, fair monsoon during summer and relatively wet winter. Soil is spodosolic, undulating and prone to erosion. Due to fair degree of monsoon and relatively wet & cool winter this area has a fairly good level of productivity of Maize and Vegetable crop.

This chapter consists of tables containing data on area sown under different crops, area under food crops, area not available for cultivation, Number of area and holding, off take of fertilizer, pesticides and other inputs etc. Detailed information appears in the tables that follow.

AGRICULTURE

RAJIV GANDHI GRAMEEN VIDYUTIKARAN YOJANA

Ministry of Power launched Rajiv Gandhi Grameen Vidyutikaran Yojana (RGGVY) as one of its flagship programme in March 2005 with the objective of electrifying over one lakh un-electrified villages and to provide free electricity connections to 2.34 Crore rural BPL households. This programme has been brought under the ambit of Bharat Nirman. Under RGGVY, electricity distribution infrastructure is envisaged to establish Rural Electricity Distribution Backbone (REDB) with at least one 33/11KV sub-station in a block, Village Electrification Infrastructure (VEI) with at least a Distribution Transformer in a village or hamlet, and standalone grids with generation where grid supply is not feasible.

Infrastructure under RGGVY:

- Rural Electricity Distribution Backbone (REDB) with 33/11 KV (or 66/11 KV) sub-station of adequate capacity in blocks where these do not exist.
- Village Electrification Infrastructure (VEI) with provision of distribution transformer of appropriate capacity in villages/habitations.

- Decentralized Distributed Generation (DDG) Systems based on conventional & non conventional energy sources where grid supply is not feasible or cost-effective.

Implementation Methodology and conditions under RGGVY:

- Preparation of District based detailed project reports for execution on turnkey basis.
- Involvement of central public sector undertakings of power ministry in implementation of some projects.
- Certification of electrified village by the concerned Gram Panchayat.
- Deployment of franchisee for the management of rural distribution for better consumer service and reduction in losses.
- Undertaking by States for supply of electricity with minimum daily supply of 6- 8 hours of electricity in the RGGVY network.
- Making provision of requisite revenue subsidy by the state.
- Determination of Bulk Supply Tariff (BST) for franchisee in a manner that ensures commercial viability.
- Three tier quality monitoring Mechanism for XI Plan Schemes made mandatory.
- Web based monitoring of progress.
- Release of funds linked to achievement of pre-determined milestones.
- Electronic transfer of funds right up to the contractor level.
- Notification of Rural Electrification Plans by the state governments.

Financial Progress of Doda District:-

Under RGGVY, total amount sanctioned for District Doda is 3107.53 lacs. Out of which amount released for Doda district is 2769.683 lacs. Total expenditure of District Doda is 2091.062 lacs (75%).

This chapter consists of two tables providing information about progress of villages, habitations, HT/LT line and DTS under RGGVY in District Doda.

FISHERIES

District Doda has rich number of water resources which are boon for the development of Fisheries sector in the region. Due to its diverse agro climatic features and abundance of streams, Lakes and hilly torrents, it is blessed with tremendous potential for the development of fisheries. The “**Trout**” of river Chenab and Neeru is famous all over the state. Block wise data on fish caught, year wise number of license holders, seed stocks, number of fish farms and number of ponds constructed are contained in this chapter.

HORTICULTURE

Horticulture has assumed importance in the District and makes a handsome contribution to the District domestic product. The favourable agro climatic conditions, fertile soil, sub tropical climate are ideally suited for cultivation of fruit and vegetables in the district and offer immense scope for development of horticulture. In view of the potential available, fruit growing has become a major industry and contributes largely to the export trade of the state. Looking to the importance of horticulture crops, considerable emphasis is placed on the development of horticulture crops i.e, fruit, vegetables, floriculture etc.

The major fresh fruit grown in the district are apple, apricot, peach, plum, cherry, olive, kiwi, citrus etc. Various dry fruits like walnut, peanut, almonds are also grown.

This chapter consists of five tables providing the block/ tehsil wise information about area under Major Horticulture crops, Production of fruit crops, Kind wise Production/Distribution Statement of Fruits Plants, Kind wise Grafting Report of Departmental Nurseries and information regarding Departmental Nurseries.

SERICULTURE

Sericulture is the cultivation of silk through rearing of silkworm. It is an agro-based industry. It involves the raising of food plants for silkworm, rearing of silkworm for production of cocoons, reeling and spinning of cocoon for production of yarn etc. for value added benefits such as processing and weaving.

Sericulture also includes the practical aspects such as increasing productivity of land as well as labour, stabilization of cocoon production, Improvement of silkyarn, fabric and generating profitable income for rural poor, SC, ST and OBC people. Silk is an animal protein fibre secreted (produced) by the silkworm larva for spinning of the cocoon. This cocoon provides a protective shell (shelter) for the soft and delicate caterpillar to pass the pupal stage inside it and metamorphose into animago (moth). Silkyarn is obtained from the silk cocoons. It also has gained a great importance in the District. Every year a large scale of cocoons are produced and sold.

This chapter gives the Block wise information about the plantation and number of trees for sericulture and production distribution and sales of cocoons in the district.

IRRIGATION

District Doda is blessed with rivers like Chenab and Neeru. Irrigation is a crucial input for the development of agriculture in the district and the importance of irrigation statistics in the modernization and revolutionisation of agriculture cannot be under estimated.

Our District doesnot receive rain throughout the year and sometimes it is quite insufficient and it is neither uniform nor certain. This problem had since been solved by irrigation. In the district, 3792 hectares area under crop was irrigated during 2012-13. The bulk of irrigation is provided by canals and other sources also irrigate small areas.

This chapter provides information about blockwise cropped area irrigated respectively in the District.

PUBLIC HEALTH ENGINEERING

Water is the basic need of every one. Water is made available to all individual both through Public stand post as well as Private pipe connections. Supply of portable drinking water is one of the basic programmes of our developmental plans. Achievements of the Public Health Department indicate almost cent percent coverage of inhabited villages as per 2011 census. However, some villages/habitations once covered become problematic areas due to qualitative deficiencies. Less service level, source depletion, outdated design period of water supply schemes and extension of newly developed areas are also experienced in some cases and efforts are underway to cover all the habitations.

This chapter contains village and population benefited, Public stand post as well as Private pipe connections available, and number of schemes covered in District Doda.

LIVESTOCK AND VETERINARY

The rearing of livestock is a very critical and core activity in the economic profile of the district. Although it is adopted as a subsidiary occupation by majority of the rural population, yet it constitutes a vital activity from the stand point of the economic welfare of the farmers. Moreover, the nomadic, gujjar and bakerwal population depends exclusively on sheep rearing for its livelihood. Most of the livestock population, particularly sheep have been transformed into high quality by using latest insemination techniques. Still a good portion of livestock is local and of inferior quality which needs improvement in both quality and quantity. Various steps are being taken to improve the quality and quantity of livestock.

Information on livestock population, health and breeding Programmed/artificial insemination, breeding institutions/preventive measure taken are contained in this chapter.

F O R E S T

Forests are one of the most important components of the terrestrial environmental system and a complete resource base. They form an ecological system consisting of tree dominated vegetative cover. Forests have multi- dimensional role to play. They provide not only timber, fuel wood, Pulpwood, fodder and fiber grass and non-wood forest produce and support industrial and commercial activities but also maintain the ecological balance and life support systems essential for food production, health and all round development of mankind. As per the National Forest Policy **1988** one- third of total geographical area (**20 percent for plains and 66 percent for hilly areas**) should be under tree cover.

Doda District is a hilly area encircled by dense forests. The District is endowed with vast wealth of natural beauty and is extensively rich in forests.

This chapter contains tables on area under forest by Blocks and by category viz, coniferous, non-coniferous, un-commercial reserves. Data are also given on major and minor forest produce, out turn of timber, revenue realized from forest and export & value of timber.

TOURISM

We all are familiar with this saying “ATITHI DEVO BHAWA”. Tourists are our “Atithi” i.e., guests. They add to the funds of Government, so they are our “Dev”. Doda district is famous for its scenic beauty. There are lots of scenic/picnic spots which attract huge number of tourists every year from different parts of the country and abroad. The places like Jai valley, Chinta valley, Bhal Padri, Khanitop, Guldanda, Nalthi, Khellani Top, Lake View Resort Gatha, Seoz meadow, Lal Dhraman, Dal Dhraman, Dedni, 36 Dhars (meadows) of Dessa area, Dehra Top, Chanderani, Margan Top, Pul Doda- Ramban Water body (22 Km), etc. attract thousands of tourists every year. The district has vast potential of pilgrimage tourism being a place of annual yatras like Kailash Kund Yatra, Roushera Mata yatra, Nagni Mata yatra, Subar Naag Yatra etc. Pilgrims also visit Chandi mata temple, Gupat Ganga Temple and Vasuki Naag ji temple in Bhaderwah every year.

Tourism has a multiplier effect on income, employment generation and gives tremendous fillip to the economy. Looking towards the importance of tourism the Govt. is bringing tourism on rails by making all the tourists resorts more attractive to the tourists.

The tables in this chapter present the data on the number of both domestic and foreign tourists visiting various tourists' resorts and number of tourists Bungalows, guest house, and paying guest present in the District Doda.

Rural Development Schemes

Rural development in general is used to denote the actions and initiatives taken to improve the standard of living of the people who live in villages. The government takes the required initiatives to improve this by various employment programs, by providing schools and colleges, by the development of infrastructure, health centres and other schemes exclusively for rural India.

The Rural Development and Panchayati Raj in Doda District thus in the present context emerges to be the sole movement destined to change the face of the rural society. Rural Development Department in Doda District infact has come of age through the Panchayati Raj route and has, for last more than two decades, been involved in the implementation of the various Centrally sponsored schemes and the schemes having been carved out by the State government for upliftment of the rural society.

In Doda District, Mahatma Gandhi National Rural Employment Guarantee Act (MGNREGA), Indira Awas Yojna (IAY), etc. are presently being looked after through Rural Development Department by which rural infrastructure has been greatly strengthened and wage employment to poor and down-trodden strata of the society afforded at their doorstep. Efforts on sustained basis have been made to eradicate poverty from rural life and provide means of livelihood to the rural poor masses.

Total Sanitation Campaign has also been launched by Rural Development Department in the pursuit to bring about a real revolution in village life providing unpolluted living environment. Provision of individual household latrines, community latrines, institutional latrines, women complexes and Rural Sanitation Marts are being attempted through this programme, which is being implemented in a mission mode manner and aims at to lift the society to the new heights of the glory.

CONSUMER PUBLIC DISTRIBUTION SYSTEM

The Consumer Affairs and Public Distribution Department previously known as Food and Civil Supplies Department is one of the oldest Department in the State entrusted with the responsibility of implementing one of the prime social sector programme of providing “ Food Security” to one and all in general and to the vulnerable sections of the Society in particular by way of providing foodgrains like rice, wheat, and Atta and other essential commodities like Sugar, K.oil and Petroleum Products besides, protecting the consumer rights.

The Department of Consumer Affairs and Public Distribution has been performing the following prime functions:

- Public Distribution System
- Regulation of Supplies, LPG and other Petroleum Projects etc.

- Price/Market Control
- Redressal of Consumer Grievances and Protection of Consumer Rights
- Consumer Awareness Programme

The public Distribution System envisages the system of management of food economy and distribution of foodgrains at affordable prices. It includes Raion card holder under different caregories i.e APL, BPL and AAY.

BELOW POVERTY LINE (BPL)

While identifying the BPL families the thrust is to include the really poor and vulnerable sections of the society such as landless agriculture labours, marginal farmers, rural artisans/craftsman such as porters, tappers, weavers, blacksmiths, carpenters etc. in the rural arrears and slum dwellers and persons earning their livelihood on daily basis in the informal sector like potters, rickshaw-pullers, cart-pullers, fruit and flower sellers on the pavement etc in urban areas. The Gram -Panchayats and Gram -Sabah's are also involved in the identification of eligible families.

ANTYODAYA ANNA YOJNA (AAY)

Like other parts of the State, Department of Consumer Affairs and Public Distribution in District Doda is implementing AAY Scheme with effect from April, 2001 in order to ameliorate the plight of the poor/weaker sections of this State.

ANNAPURNA SCHEME

Further, the CAPD Department is also implementing Annapurna Scheme in the District with effect from 1.4.2001 to give coverage to such senior citizens, who are destitute having no source of income, above the age of 65 years and not covered under National Old Age Pension Scheme. Under the Scheme 10 Kgs of foodgrains per head per month is provided to 10220 Souls free of cost.

HANDLOOM

In the Doda District, Handloom holds enormous potential to create self employment opportunities and bring distinctive improvement in the quality of life. The unique selling point of the Handloom sector is that it is highly labour intensive industry with low capital investment. It is also a low energy sector with no adverse impact on the environment as weaving is a totally pollution free activity. The department of Handlooms is implementing various developmental schemes in the district. Many centrally sponsored schemes are also being implemented with the objective of bringing more and more people in this fold. Besides providing these weavers a platform for marketing their products, the events like Expos and fairs are also aimed at popularizing Handlooms as one of the best choices for profession or enterprise. Various woollen items like export tweed, blazers, blankets, shawls, dhussas and kani shawls are also produced. To create awareness among the weavers and cooperative handloom societies in District Doda, many awareness programmes are also organized by the Director Handlooms Department J and K Government .

This chapter includes information about number of Handloom Coop Societies, blockwise number of units & employment, production of handloom goods and their sale.

CO-OPERATIVE

Development is essentially a process of change from autonomous status to organized optional change. The people trapped in illiteracy, poverty and suffering from extremes of material and social deprivation tend to loose impulses of awareness and motivation and this deprivation makes them weak, isolated, vulnerable and powerless. The co-operative play an important role in influencing the people towards social and economic changes and offer unlimited possibility of participation in economic insurgence.

Co-operative is an old movement in the state. The Programme has made good progress in the District as in the state and has brought within it many old activities like agriculture credit, sale service, marketing transport, handicrafts units etc. The number of various types of societies, membership therein capital structure of the societies etc are given in this chapter.

ELECTRICITY

Power holds a key to any developmental effort. It is an essential component for sustained economic growth and commensurate growth in power supply is required to ensure that economy keeps growing at 8-9 percent. The gradual increase in the demand of power means the economy is growing and is leading to modernization, industrialization and improvement in basic amenities culminating into quality of life.

Considerable progress has been made in development of power resources in the state. Most of the villages have been electrified and provided power for several purposes in addition to domestic use. Data on category wise number of electric installations, villages /hamlets electrified etc. in the district are given in this chapter.

ROADS AND BUILDINGS

Public Works Department (Roads and Buildings) is a premier agency of the District for construction, up gradation and maintenance of roads, buildings and bridges in the District. The department also acts as the technical advisor in all aspects of construction activity.

Public Works Department (Roads and Buildings) has been endeavoring to provide technical lead to other departments of the District by introducing latest construction techniques and materials, so as to achieve higher standards.

Public Works department has been maintaining material database and has standardized the Specifications, Common Schedule of Rates, Confidential analysis etc. for adoption by all other departments and Corporations of the District.

The PWD (R&B) has been entrusted to undertake primarily the following tasks:

- Construction & Maintenance of New Roads & Bridges;

- Design, Construction & Maintenance of Govt. buildings;
- Undertaking Deposit Contribution works relating to different Departments of Govt. of Punjab as well as of other Local Bodies;
- Fixation of rent of Private premises requisitioned for housing Govt. offices;
- Designs, construction, maintenance and repairs of runway relating to the Aviation Department;
- Development of Parks and Gardens in the vicinity of important Public Buildings and landscaping of grounds;
- Reservation of Govt. Rest Houses and Circuit Houses;
- To permit construction of approaches on both sides of roads to private individuals, institutions, factories, petrol pumps etc;
- To evacuate the encroachments coming along the road sides; and
- All aspects of tendering process right from the pre-qualification stage to the opening of bids and its evaluation.

Wage Rate of Public Sector Building Construction Workers, Rates of Building materials, Category wise road length maintained by the public works department is given in this chapter.

BANKING

Banks are just one part of the world of financial institutions, standing alongside investment banks, insurance companies, finance companies, investment managers and other companies that profit from the creation and flow of money. As financial intermediaries, banks stand between depositors who supply capital and borrowers who demand capital. Given how much commerce and individual wealth rests on healthy banks, banks are also among the most heavily regulated businesses in the world.

Banks perform following functions:-

Accept Deposits / Make Loans

At the most basic level, what banks do is fairly simple. Banks accept deposits from customers, raise capital from investors or lenders, and then use that money to make loans, buy securities and provide other financial services to customers. These loans

are then used by people and businesses to buy goods or expand business operations, which in turn leads to more deposited funds that make their way to banks.

Provide Safety

Banks also provide security and convenience to their customers. With banks, consumers no longer need to keep large amounts of currency on hand; transactions can be handled with checks, debit cards or credit cards, instead.

While banks do not keep gold or silver bullion as currency on hand anymore, many, if not most, banks still maintain vaults and will rent out space to customers, in the form of safe deposit boxes. This allows customers to keep precious or irreplaceable items in a secure setting and gives the bank an opportunity to earn a little extra money, without risk to its capital.

Act as Payment Agents

Banks also serve often under-appreciated roles as payment agents within a country and between nations. Not only does banks issue debit cards that allow account holders to pay for goods with the swipe of a card, they can also arrange wire transfers with other institutions. Banks essentially underwrite financial transactions by lending their reputation and credibility to the transaction; a check is basically just a promissory note between two people, but without a bank's name and information on that note, no merchant would accept it. As payment agents, banks make commercial transactions much more convenient; it is not necessary to carry around large amounts of physical currency when merchants will accept the checks, debit cards or credit cards that banks provide.

The number of banking institutions has multiplied very fast during the past decades. The financial institutions have been playing great role in mopping up savings and advancing loans for development. The role of banks has become more important as a result of their association with the SGSY, small saving securities and life insurance business have also helped to mop up considerable savings.

INDUSTRIES AND LABOUR

The erstwhile District Doda is one of the most backward Districts in J&K state. The people of the District are dependent on Agriculture. The land is hilly and rain fed as such prone to drought. The per capita income of the District is the lowest in J&K. There is no Industrial development in District Doda in view of hilly terrain, poor road infrastructure, inadequate power supply, non centralized market, lack of entrepreneurship among educated youths of District Doda. However, in spite of above impediments some of the entrepreneurs have come forward and established units with active assistance of DIC Doda .The following units have good scope in Distric Doda.

1. Stone crusher and hot mixing plant.

In view of widening of national highway from Batote to Kishtwar and Bhadarwah pul Doda as also availability of raw material in the District the scope for the activity is in abundance.

2. Plaster of Paris:

Due to availability of Gypsum at Assar, the sope for the said activity is sufficient.

3. Fruit processing unit:

Most of the area of District Doda is fruit growing. As such there is good scope for frut processing unit i.e. Jam, juice, etc.

4. Dhoop Industry:

Major portion of District Doda is covered with forest wherein production of Dhoop is in abundance. As such if Govt. allows the scope for the said activity is in abundance.

5. Herbal processing.

Due to availability of herbs of different species in the forest of District Doda, the scope for herbal processing is abundance subject to permission from the forests department.

6. Walnut processing:

Due to production of walnuts in District Doda, the scope for walnut processing is good in District Doda.

7. Brick kiln:

Due to huge construction in District Doda, the scope of Brick kiln is enough.

8. Honey processing unit:

The scope for the unit is good in the District in view of favorable environment for Bee keeping in the District.

9. Auto workshop /service station unit:

Due to increased vehicles in the District, the scope for the above activity is good.

10. Steel fabrication:

The scope for manufacture of Gates, Grills, steel furniture, steel door and windows is good In view of restriction of forest wood.

11. Cattle/Poultry feed.

Due to increased cattle/poultry farming in the District the demand for cattle /poultry feed is good.

12. Wooden furniture:

The scope for wooden furniture is good in view of availability of raw material.

15. Ice /Ice candy.

The scope for the said activity is enough in the District .However; the unit is seasonal in nature.

16. Computerized Data processing:

In view of computerization in all public/private offices the scope for the activity is good.

Data on the number of handicraft industrial societies with membership, estimated craft wise production and employment of handicraft industry, craft wise number of handicrafts training centers and trainees trained are tabulated in the tables of the chapter.

EMPLOYMENT AND COUNCILING CENTRE

One of the basic objectives of the National Employment Service is to promote placement activity by acting as a match making agency between the Job seekers as well as the employers. For the purpose Employment and counciling center registers the names of the potential job- seekers and also sponsor their names to different employers against the notified vacancies. This activity is being regulated by enforcement of the compulsory Notification of Vacancies Act, 1959 and the (C.N.V Rules - 1960) framed there under.

Objective of Employment and counciling center: -

- Helping Employers and unemployed to contact each other, so that employers can get suitable employees and persons needing employment. This work is done by the Registration/vacancy section of the employment and counseling center.
- To provide vocational guidance to the school/college students to the unemployed persons and to motivate and guide unemployed persons for self employment, this work is done by the vocational guidance section of the employment and counseling center.
- To collect the information of employers (both private and public sector) of district and about the number of employees working under them in accordance with the employment and counseling center compulsory notification of vacancies act 1959.
- To provide unemployment allowance to educated unemployment persons (Matric and above) registered with Employment and counseling center continuously for more than three years.
- To help the persons to get employment abroad through overseas employment web site.

The number of Employment and counseling center and number of job seekers on the registers, number of registration made and number of placements made are shown in this chapter.

EDUCATION

In 1970, the state government of Jammu and Kashmir established its own education board and university. Jammu and Kashmir follows the 10+2 pattern for education of children. This is handled by Jammu and Kashmir State Board of School Education (abbreviated as JKBOSE).

District Doda too follows same pattern (i.e JKBOSE) of Education. Education in the district too is divided into primary, middle, high secondary, college and university level. Private and public schools are recognised by the board to impart education to students. Board examinations are conducted for students in class VIII, X and XII. In addition, there are Kendriya Vidyalayas (run by the Government of India) and Indian Army schools that impart secondary school education. These schools follow the Central Board of Secondary Education (CBSE) pattern.

Considerable progress has been made in establishment of primary educational institutions throughout the District especially in the rural areas. Besides, mobile education institutions have been provided for nomadic population of Gujjars and Bakerwals. The enrolment has gone up considerably. Information on the number of institutions, students and teachers is given in this chapter.

INDUSTRIAL TRAINING INSTITUTE

The Department of Technical Education besides its other activities in the sphere of Vocational Education has been implementing Craftsmen Training Scheme sponsored by the Govt. of India in the State of Jammu and Kashmir for more than half a century now. It has been playing a proactive role in cultivating and nurturing the industrial work culture in the State and in Doda district as well, by equipping the unemployed educated youth with gainful training in the Trades emerging in the market both in the industrial and services sectors from time to time.

The Trades are need based and job oriented. The Department continually made its sincere efforts to extend the scope and growth of ITIs even in the arduous and painstaking situations.

HEALTH AND FAMILY WELFARE

First wealth is health. Hence health & welfare are of prime concerns for our District. Over the years the Government has introduced various health programmes and policies to better the standard of life of its citizens. This has improved the life expectancy of males & females at birth every year and there has been a good decline in infant mortality rate as well. The government has also been able to control and cure illnesses such as tuberculosis, malaria, pneumonia & water borne diseases to a certain extent.

Family welfare is responsible for aspects relating to family welfare, especially in reproductive health, maternal health, pediatrics, information; cooperation with NGO's & international aids groups and rural health services.

The department of Health & family welfare is working towards providing health care "to the last household & to the last person of the State".

This chapter consists of 9 tables providing information about number of medical institutions, technical personnel and sanctioned strength, Prosecution launched & Cases Decided by the court etc.

HEALTH AND FAMILY WELFARE

SOCIAL WELFARE

Social welfare department has been constituted as an independent department under Govt. order no. 602 dated 20-03-2007. After its reorganization, three separate directorates came to exist under it. These are: - a) Social welfare Directorate b) Integrated Child Development Services (ICDS) c) social security & disability Directorate. In addition to this women development corporation has also been functioning as an autonomous institution under this department itself.

In District Doda, Social welfare department runs a number of training centers for training of scheduled castes and other backward classes. They also gave aid to weaker families on various accounts. Integrated Child Development Services (ICDS) is primary social welfare scheme to tackle malnutrition and health problems in children below 6 years of age and their mothers. The main beneficiaries of the programme were aimed to be the girl child up to her adolescence, all children below 6 years of age, pregnant and lactating mothers. The gender promotion of the girl child by trying to bring her at par with the male child is a key component of the scheme.

The number of social welfare training centers, number of persons trained, and students benefited under various schemes are identified in this chapter. In addition social welfare department provided supplementary nutrition through ICDS scheme among the needy people like pregnant women, nursing mothers and young children under age group 0-6 years through network of Aanganwari centers established in almost every village/hamlet in district Doda.

JUDICIAL STATISTICS

The **District Courts of India** are presided over by a judge. They administer justice in India at a district level. These courts are under administrative and judicial control of the High Court of the State to which the district concerned belongs.

The highest court in each district is that of the District and Sessions Judge. This is the principal court of civil jurisdiction. This is also a court of Sessions. Sessions-triable cases are tried by the Sessions Court. It has the power to impose any sentence including capital punishment.

There are many other courts subordinate to the court of District and Sessions Judge. There is a three tier system of courts. On the civil side, at the lowest level is the court of Civil Judge (Junior Division). On criminal side the lowest court is that of the Judicial Magistrate. Civil Judge (Junior Division) decides civil cases of small pecuniary stake. Judicial Magistrates decide criminal cases which are punishable with imprisonment of up to five years.

At the middle of the hierarchy there is the Court of Civil Judge (Senior Division) on the civil side and the Court of the Chief Judicial Magistrate on the Criminal side. Civil Judge (senior division) can decide civil cases of any valuation. There are many additional courts of Additional Civil Judge (senior division). The Jurisdiction of these addition courts is the same as that of the principal court of Civil Judge (Senior Division). The Chief Judicial Magistrate can try cases which are punishable with imprisonment for a term up to seven years. Usually there are many additional courts of Additional Chief Judicial Magistrates. At the top level there may be one or more courts of additional district and session's judge with the same judicial power as that of the District and Sessions judge.

Judicial independence of each court is the characteristic feature of the district judiciary. In each district there is a strong bar which ensures that courts decide cases according to law and without fear or favour. The greatest problem of district courts is that of huge backlog of cases leading to undue delay in deciding cases.

The chapter gives the data on the number of Judicial Divisions, courts, police posts, institutions disposal of civil and criminal cases, cognizable cases reported etc.

MOTOR VEHICLE DEPARTMENT

The roads are the main mode of transport available to us. Therefore, side by side with the road length, the number of vehicles has also shown great increase. Road transport is primarily the responsibility of state government. The government regulates road transport under the provisions of motor vehicles Act.

This chapter presents the information on number of Vehicles Registered for the Year 2012-13 in the district Doda.

P L A N N I N G

The Planning and Development Department is interdisciplinary in nature and acts as a nodal agency to look after the implementation of planning process. The main objective of the Planning Department is to redress all inter-regional and inter-district imbalances in developmental process and ensure equitable share of all regions/districts in speedy implementation of various developmental programs. The decentralized planning introduced in the state as a part of 'Single Line Administration' ultimately aims at providing an opportunity to the people of the state to decide their destiny for economic development. The department is entrusted with very important assignments which mostly comprise of the formulation of annual plans, five year plans, mid term appraisals, project appraisals, conduct of evaluation studies, preparation of monitoring reports on monthly, quarterly and yearly basis, conduct of district developmental board meetings and maintaining active liaison with the Government of India.

The district plans have been claiming respectable share in total plan of the state. Sector wise information of outlay/expenditure under the district plan 2012-13 and export of different types of Fruits & Vegetables from Societies is reflected in this chapter.

Climate

Doda is located at **33.13°N 75.57°E**. Due to its varying physical features, the district does not have a uniform climate. The climate is **temperate** in the places like Bhaderwah and Gandoh and **sub-tropic** in the areas like Doda and Thathri. Doda experience a cool and pleasant climate throughout the year. The best time to visit here is between March to November because of favourable climate conditions. Snowfall during winter is common here.

In this chapter, the statistics related to temperature and rainfall is collected by Meteorological Department, Bhaderwah. This chapter contains a set of two tables presenting information Block/Tehsil-wise on number of rainy days and month-wise maximum and minimum rainfall recorded. It also provides the information on the mean- maximum and mean- minimum temperature (°C) for all the Blocks/Tehsils.

CLIMATE
Table No: 29.1

SCIENCE AND TECHNOLOGY

Science is the search for truth and the history reveals that the Science and Technology is the back bone for the development of any Nation. Its impact is visible around us, and its influence is in every facet of life. The blessings of Science and Technology are enormous and the research in Science and Technology is exponentially increasing with passage of time. From centuries the different fields of Science and Technology are growing fastly and research in old and never fields had never stopped. Knowledge and wisdom of humans had given birth to large number of discoveries, inventions and innovations for the benefit of human creation. The human creation has always shown a thrust for knowledge and the Department of Science and Technology has been playing a key role in Nation Development.

In District Doda, various schemes have been introduced by the Science and Technology department like Solar Home lights under RVE programme, SHL Under general category, Solar Lantern under GB and Gobar gas plant.

The information on target issued by different blocks under these schemes is given in this chapter.

Table No: 30.1(2012-13)

S.No.	Name of the scheme	Name of the block	Target issued(Nos)
1	Solar Home lights underRVE programme	Bhagwah	1787
		Gundna	507
		Ghat	133
		Assar	900
		Thathri	1985
		Bhalessa	692
		Marmat	450
2	SHL Under general category	District Doda	1500
3	Solar Lantern under GB	Gundna	87
		Gandoh	
		Bhagwah	
		Ghat	
		Thathri	
4	Gobar gas plant	District Doda	38

Youth Services & Sports

Department of Youth Services & Sports has over a period of time brought under its cover a wide spectrum of activities like organizing Domestic & National level competitions in various games and sports for school children, conducting Physical Education activities like Mass Physical Display in various schools, promoting adventure sports, promoting talented school children in extra curricular activities like dance & drama, organizing Youth and Cultural Festivals across the District and outside, promoting Scouts & Guides activities besides providing opportunities to school children for participation and excellence in various sports activities. The Department caters to the personality development aspect of school children through Physical Education Teachers and Masters lecturers posted in different schools which are being supervised by District Officers at District Level , besides encouraging the youth in various social activities at the State and National level. The Department is headed by the District Youth Services & Sports Officers in the District, Physical Education Lecturers in Higher Secondary Schools, Masters and Teachers in various schools.

This chapter provides the information about no. of Players participating in different games and Sports Competitions of Doda District (zonal as well as Div./State level) for the Year 2012-13.
