FOREWORD

The current issue of the "Statistical Hand Book, Assam, 1984" is the twentieth in the series. It seeks to present a concise factual account of social and economic trends in Assam. In addition, for facilitating comparison with other States and the country as a whole, a statistical table incorporating a few key indicators has also been included.

Data presented in this publication have been collected from various Government departments as well as non-Government agencies.

The co-operation extended by various Government departments and non-Government agencies is gratefully acknowledged. Suggestions for improvement of the quality and coverage of the future issues will be most welcome.
