FOREWORD

48% of the total population of India is female and the 'inclusive development' often talked about needs to cover this important segment of the population. To this end, hard statistics are needed to assess the current status of female population and the pace of their march towards development and empowerment.

The population census and socio economic surveys on various topics generate a large amount of statistical data by gender. Important aspects of this data need to be looked at in relation to one another to ascertain and understand the status of women.

In this direction, I am happy to note that the Statistics Division of Ministry of Women and Child Development has prepared the first issue of "A Handbook of Statistical Indicators on Indian Women". The Handbook provides the current statistical profile of Indian Women and will be useful for planners, administrators, decision makers and all of us concerned with women's development in India.

PREFACE

The Statistics Division of the Ministry of Women and Child Development has compiled "A Handbook of Statistical Indicators on Indian Women, 2007".

The Handbook is intended to provide a bird's eye view of the present status of Indian women. The various tables indicate the primary data sources and the key facts are presented in bullet points at the bottom of the table.

The major data sources are Office of the Registrar General and Census Commissioner, the National Sample Survey Organization, Ministry of Statistics and Programme Implementation, Ministry of Human Resource Development, Ministry of Health & Family Welfare, Ministry of Labour and Employment, National Crime Records Bureau, National AIDS Control Organization, Ministry of Panchayati Raj, Election Commission of India, Lok Sabha, Rajya Sabha Secretariats and their websites. We are grateful to the various source agencies for providing us their publications and other information sought in this regard.

I wish to place on record my appreciation for the dedicated efforts of the team of officers particularly Smt. S. Jeyalakshmi, Statistical Adviser and Smt. Sunitha Bhaskar, Deputy Director in bringing out this publication.
