LOCATION

Kathua district is the southern most district of the state of Jammu and Kashmir. It forms a part of the Jammu division and has boundaries common with;

- i. District Gurdaspur of Punjab on south;
- ii. District Chamba of Himachal Pradesh towards east.
- iii. District Doda of J&K to north;
- iv. Districts of Udhampur and Jammu to north west.
- v. Pakistan towards south west.

It is situated roughly between $32^{\circ} 17'$ and $32^{\circ} 55'$ to north of equator and between $75^{\circ} 6'$ and $75^{\circ} 56'$ east of Greenwich. The total area of district is 659850 acres (2710.85 sq km i.e 271085 hectares).

PHYSICAL FEATURES

The district is traversed by two mountain ranges belonging to the Himalayan System. The taller of the two ranges is the Dhauladhar range of the outer Himalayas. The highest point in the district is at Sunbain in Sarthal and is 4341 metres above the mean sea-level. The range occupies all of Bani Block and the northern portions of Basohli and Billawar Blocks. The less tall is the Siwalik range representing Himalayan foot hills. This range occupies the central portion of district and runs along the northern parts of Kathua and Hiranagar Blocks and the southern parts of Kathua and Hiranagar Blocks, forms part of the Indo-Gangetic plain. The two mountain ranges and the plains divide the district into three natural regions. The lowest point in the district is less than 300 meters above the mean sea-level.

CLIMATE

The different parts of the district experience widely different climates. The plains have climate similar to that of the Punjab and have summer temperatures rising up to 47°C . and the winter temperatures rarely go down to 0°C . The same holds true more or less of the Siwalik range. In the case of the Dhauladhar range, however, the summer temperatures rarely exceed 35°C . Most areas in the regions have snow for the greater part of the year. Rainfall is subject to wide variation from year to year, but a rough average may be taken between 120 and 200 cm for different regions. Basohli block usually receives more rainfall than the other blocks.

DRAINAGE SYSTEM

The River Ravi provides the district with a natural boundary on the eastern and the south eastern sides. This river, typical of the ~~major~~ rivers of the Himalayas, flood twice a

year - during the rainy season and also during summers from melting of snow. There are a few perennial and numerous seasonal rivers and streams which contribute to flow of the Ravi. All the streams have rendered the entire topography very undulating of the south-Easterly flow of the Ravi, other rivers flow in a general southerly direction. The more prominent of these tributaries are the Ujh, itself formed of Bhini, Naz, Sutar, Banadh etc., the Tarnah, Biani, Maghar, etc. Irrigation canals have been drawn out from the Ravi and the Ujh which serve Kathua and Hiranagar blocks respectively through scores of Kulhs. The Ravi Canal has an average flow of 20 cusses of water and that of Ujh Canal is about 10 to 15 cusses of water. There is also Ravi Tawi irrigation project in progress.

SOILS
The district displays wide variation in Soils. The lower plains have alluvial soil. The fringe zone between the plains and the hills-Kandi-has submountain gravelly soil. The hills have brown and pedolised soils.

IRRIGATION.

The major benefit of systematic irrigation in the district accrues only to Kathua and, to lesser degree, to Hiranagar block. Kathua block receives its irrigation from an irrigation Canal called Kathua Canal drawn from the right bank of the Ravi near Lakhampur. The canal irrigates the portion of the Kathua block south of National Highway through numerous Kulhs. From the right bank of the Ujh river, also, a canal has been drawn called the Ujh canal. This canal is much smaller in size as the Ujh river itself is a much smaller river than the Ravi. The water level in the canal is to be very low when water is needed most. About 40000 acres of agricultural land is provided irrigation facilities through canals, Kulhs, Tube well and lift irrigation. About 1/5 of the cultivated land has an assured source of irrigation and the rest is at the mercy of the rains. In Biliwar and Sasohli blocks there are numerous perennial mountain streams. Although most of these are very small in their volume, they help in irrigation of the individual farms by which they pass.

AGRICULTURE:-

27.2% of land of the District is utilized for agricultural purposes and 11% of the land has been brought under cultivation more than once. The following are various crops grown:-

CEREALS :- Paddy, wheat, Maize, Jowar, Bajara, Barley.

PULSES :- Gram, Other pulses.

COMMERCIAL :- Potato, vegetables, Tobacco, Mustard, Alsi, Til.

The district ^{has} now become surplus in food grains and is supply Rice to other deficit areas of the State.

FORESTS

Out of the total area of 654360 acres of the district, the area under forest is 171699 acres (roughly one fourth of the Geographical area is under forests). The main forests of the district are confined to two Tehsils Basohli and Billawar and rest of the two tehsils virtually without forests. The forest department is contemplating replacement of the uneconomic forests with such trees as will bring it economic benefits.

A/ HIGHER REACHES:- Cedars like Deodar (Cedrus Deodara).

B/ LESSER HIGHTS:- Chir (pinus longifolia).

C/ LOWER SIWALIKS:- Fih (Butanomonosperma) Khair (Acacia Catechu)

<u>TEHSIL.</u>	<u>AREA UNDER FOREST.</u>	<u>MA IN PRODUCTS</u>

BASOHLI.	89758	Deodar, Kail, Chir, Fir, Bamboo.
HIRANAGAR.	13700	Bamboo, Khair, Chir.
KATHUA.	21047	Bamboo, Khair, Chir.

LIVE STOCK

The peculiarity of cattle wealth in this area is its migratory nature. The milch cattle is mostly owned by persons of Cujjars tribe who move to the plains during winters and to the hills during summers. Similarly most of the shepherds and Goat herds are from a tribe Bakarwal and Gaddies.

MINERALS.

The Directorate of Geology and Mining of the State Government have conducted a reconnaissance survey of the district for minerals. Finding good prospects for minerals in the district the survey stressed the need for further investigation. The following is the potential minerals of the district:-

- 1/ A/ BENICONITE
- B/ FULLER'S EARTH.
- C/ COAL
- D/ CLAYS.
- E/ LIME STONE.

ROADS

The district has a great strategic importance. It is gate-way of Jammu and Kashmir State. It is actually from Madhopur Bridge near Lakhampur that our National Highway starts.

There are two National Highways passing through the district. One is the National Highway-NH-1.A which goes from Jullundur to Srinagar via Jammu. This road passes through the plain areas in the two block of Kathua and Hiranagar. It is generally of fairly good quality. The other National Highway is the Dhar-Udhampur Road. This enters the district at Thein in Kathua block and goes Westward via Basohli and Billawar blocks, along the Siwalik foothills. This road is fairly good in patches and the job of widening the road is in progress. An another important road of the district is the old Kathua Samba road which passes through the most fertile area of the district. As offshoots of these roads there are a number of smaller roads joining different ~~roads~~ villages. The road network is good in the plains but leaves much to be desired in the hilly areas. The Harthen area of Basohli and Billawar blocks and the entire Sani block has no dependable approach road. Though a fair weather road from Basohli to Bhoond 45 Km is constructed towards Sani, which suffers frequent set backs because of parts of the road getting washed away due to heavy rains.

RAILWAYS.

The line was spread in 1964. This very line is brought gauge line going to Jammu and is passing through the district. The total length of Railways in the district is 46 Km. having ~~xxxx~~ Govindsar, Budhi, Dayala Chak, Hiranagar and Ghagwal Stations. About 300 workers are engaged in the loading and unloading of material from and to the train.

ELECTRICITY

The district draws its electricity from Joginder Nanagar Power project in Himachal Pradesh and from Kalakote Thermal Project and Chennani project of J&K. Out of the total available power of 7.5 megawatts the district is said to consume only about 3.5 megawatts, and getting new connection for industrial or other purposes is usually no problem.

INDUSTRY.

In the industry backward state of J&K, Kathua ranks as the third most important industrial centre, next to Srinagar and to Jammu while the district has excellent industrial potential this remains largely untapped. Of the three large scale industries of the state only Chenco Text Tile Mills and National Small Arms Co. are operating while J&K Ceramics factory is in operative for a long time. Kathua block is the most developed block industrial, and has an industrial Estate offering a number of facilities for industrial enterprises. There is also one

Kathua block is the most developed block industrial, and has an industrial Estate offering a number of facilities for industrial enterprises. There is also one

Industrial Estate at Hiranagar. In addition to the units mentioned there are a number of other units located at various places in the district. The more important groups of these are as under:-

1. PADDY DEHUSKERS AND WHEAT GRAINDERS.
2. BRICK KILNS.
3. SAW MILLS.
4. CHARCOAL KILNS.

There is fair scope in the district for promotion of village industries such as black smithy, carpentry, Basket making, silery, handloom weaving. The department is also affords loans to the successful trainees for setting up their village industries.

BANKS.

There are 6 Banks operating in the district.

- (i) Punjab National Bank.
- (ii) Jammu and Kashmir Bank Ltd.
- (iii) State Bank of India.
- (iv) Jammu Central Co-operative Bank.
- (v) Co-operative land development Bank.
- (vi) United Commercial Bank.

POPULATION.

The district is made up of four constituent tehsils, namely Kathua, Hiranagar, Basohli and Billawar. Billawar which was carved out from the former Basohli Tehsil, is the smallest tehsil of the district. For the purpose of educational work, the district has been divided into 8 blocks by bifurcating each tehsil into two blocks:-

<u>TEHSIL.</u>	<u>NAME OF THE BLOCK.</u>	
1. KATHUA.	1. KATHUA	2. SUDHI.
2. HIRANAGAR.	1. HIRANAGAR.	2. CHAGVAL.
3. BASOHLI.	1. BASOHLI.	2. BANI.
4. BILLAWAR.	1. BILLAWAR	2. BHADU.

There is no block in female wing. The Tehsil Education Officer, Girls represents the whole tehsil. The district contain 585 villages and 1179 habitations. The villagewise distribution is as under:-

APPROACH & STRATEGY:

The strategy for Educational Development of this district on the following lines:-

1. To provide Primary schooling facilities within walking distance of 1 Km. to all such habitations which have 100 or more population;
2. To increased the enrolment at elementary stage through :-
 - a. Enrolment drive
 - b. Incentive to children
 - c. Special incentive to children belonging to Gujjar & Bakerwals and specially backward areas i.e Bani Niabat, Malhar Macheedi
 - d. Non-formal education.
3. Construction of school buildings especially through local initiative.
4. General improvement of schools

UNIVERSALIZATION OF ELEMENTARY EDUCATION:

a. Universal Provision of Schools:

Recently a comprehensive micro plan has been prepared for Educational Development of District Kathua by the planning, statistic and survey unit of the Education Department. As per this plan, there are two priorities for opening of new mixed Pny. Schools:-

1st Priority:-

a. Distance from the nearest Primary School/section not to be less than 2 Km. and,

b. The population of the habitation not to be less than 200.

Second Priority:-

a. Distance from the nearest Primary School/section not to be less than 1 Km. and,

b. The population of the habitation not to be less than 100.

Accordingly, the number of schools required under these two categories in various Tehsils of this district are as under:-

<u>Tehsil</u>	<u>Total No:</u>	<u>1st Priority</u>	<u>2nd Priority</u>
Kathua	19	5	14
Hiranagar	21	2	19
Basohli	27	22	5
Billawar	7	7	-
Total:-	74	36	38

74 habitations were identified for provision of schooling facilities through 3rd All India Education Survey so that all the habitations with 100 or more population could be provided Primary facilities within walking distance of 1 Km. By providing 43+4 schools during 1978-79, we shall be achieving this target. The number of schools opened during 1st four years of 5th five year plan is as under:-

<u>Year</u>	<u>Total</u>	<u>Boys Wing</u>	<u>Girls Wing</u>	<u>Seasonal School</u>	<u>Mobile School</u>
1974-75	10	7	3	1	
1975-76	18	3	15	1	
1976-77	15	6	9		3
1977-78	16	8	8		2
1978-79 (proposed)	47	39	8	-	-

b. Universal Enrolment:

Whereas the population in the District is increasing as per trend, the enrolment is not keeping pace with it. The enrolment figures from 1973-74 to 76-77 are either decreasing or remaining constant as is clear from the following table. However an

increase trend in enrolment is vivid in 1977-78 owing to enrolment drive:-

<u>Year</u>	<u>I-V</u>	<u>V-VIII</u>	<u>IX-XII</u>	<u>Total</u>
1973-74	31107	10590	4712	45409
1974-75	31228	11215	4942	47385
1975-76	30597	11112	4784	46483
1976-77	31027	11445	5188	47660
1977-78	32278	11858	5429	49685

Along with universal provision of schools, steps have been taken to organize 'Enrolment Drive' on massive scale so as to achieve the goal of universalization of elementary education. The enrolment ratio in various schools age groups in this district is as under:-

<u>Age Group</u>	<u>1973-74</u>	<u>1974-75</u>	<u>1975-76</u>	<u>1976-77</u>	<u>1977-78</u>
<u>2-11 Yrs.</u>					
Boys:	100	101	93	92	88
Girls:	55	56	52	56	52
Total:	79	79	75	75	75
<u>11-14 Yrs.</u>					
Boys:	75	77	72	72	73
Girls	27	29	30	31	27
Total	52	53	52	52	51
<u>14-17 Yrs.</u>					
Boys	38	38	28	29	30
Girls:	11	12	9	10	11
Total:	25	26	19	20	20

In order to identify, the areas where enrolment ratio is poor, the door to door survey has been undertaken which is going to be completed shortly. From Tehsil wise and six wise enrolment figure as shown it can be seen that,

a. The Problem of low enrolment is in Hiranagar, Baschli especially in Backward area Bani.

The above situation is prevailing inspite of the fact that the number of schools and teachers is increasing in this district as under:-

<u>Year</u>	<u>No: of Schools</u>				<u>No: of teachers</u>			
	<u>P</u>	<u>M</u>	<u>S</u>	<u>Total</u>	<u>P</u>	<u>M</u>	<u>S</u>	<u>Total</u>

UNIVERSAL RETENTION

After the children are brought to school, it becomes more essential that steps should be taken to retain them until they become functionally literate or reach the age of 14 years. To achieve the same and to reduce the incident of wastage and stagnation various type of incentives for children have been introduced. The detail is as under:-

<u>Incentives</u>	<u>Amount</u>	<u>No of beneficiaries</u>
a/ Free Uniform	Rs. 7000/-	175
b/ Free supply of Text Books & Stationary	7000/-	1050
c/ Text Book Bank	Rs.10,000/-	10 Schools
d/ Merit Cum Poverty	Rs.40,000/-	425
e/ Awards to Teacher	Rs. 2000/-	4 teachers

Note:- The grant for award to Schools have not been utilized i.e Rs. 1000/- during 1977-78.

QUALITY IMPROVEMENT PROGRAMME

A child will not continue in the school unless it finds the school interesting and useful. The atmosphere of the school should be conducive to the interest of the child that he should prefer school to his home. The qualitative improvement involves the improvement of:-

- A. CURRICULUM
- B. TEACHER
- C. ACCOMODATION

The apathy, indifference and ignorance about the modern science on the part of the teacher can prove to be a major hurdle in any programme of Educational Development. Keeping in view the facts the following number of teachers under various teachers training programme is trained:-

NON FORMAL EDUCATION (6-11 years)

The important aspect of the existing Primary Schools is that they only provide full time institutional instructions. The course does not create any problem for those who are economically in a position to feed, clothe and equip their children to attend full time schools. But the system extremely antagonistic to the interest of those children who have to work at home or outside so as to add to the meagre family budget. Economically it would not be a sound proposition to put the children in a full time school by providing sufficient financial assistance. So the only practicable solution is to organise a large scale programme of part time Education (6-14 years) for these children. The hours of part time instructions should be adjusted in a manner that would suit the working condition of the children and enable them to educate themselves without interfering with the essential work.

In the very beginning, the progress of the centres was very deplorable but from the last year, these centres have been flourishing and the enrolment has increased. The number of centres during the first 4 years of 5th five year Plan is as under:-

Year	<u>No of part time centres</u>			<u>Continuation centres</u>

SCIENCE EDUCATION PROGRAMME

We are passing through age of Science. So its knowledge is most essential for the improvement of Social and economic standard of the ^{people} ~~people~~. The country having better Scientific facilities and technical ~~we~~ know-how ~~xxxxxx~~ at present has a place on the map of the advanced countries of the world. ~~UN~~ UNICEF has classified a country as advanced, " which is advanced in Scientific technology." The UNICEF started the ' PILOT PROJECT SCHEME' in science and supplied the necessary aids to developing countries for the improvement of science. The very organisation started its work in 1968 through the National agency of NCERT in India with the following programme:-

1. Improvement of Text books in science
2. Improvement in Methodology.
3. Provision of Science Kits
4. Compulsory science teaching from first to 10th class
3. Unified syllabi in science throughout the country
6. Provision of training programmes for teacher

Our state has introduced the aforesaid programme in a phased manner from 1970. Science kits have been provided to the primary and Middle Schools. In the state of J&K a number of key institutions were selected and equipped with the latest scientific apparatus and science kits. These institutions have been selected for imparting training to the teachers of Elementary schools. In kathua T.T. School Hiranagar has been selected and equipped with the requisite scientific equipments. The detail is as under:-

- | | |
|---|-------|
| a. Primary science kits for 3rd, 4th & 5th Classes | 5 Nos |
| b. Biology kits xxx part I for 6th Class | 5 Nos |
| c. Physics Kits Part I for 6th Class | 5 Nos |
| d. Physics Kits part II for 7th Class | 2 Nos |
| e. Physics kits part III for 8th Class | 2 Nos |
| f. Chemistry kits for 7th & 8th Class | 2 Nos |
| g. Biology composite kits for 7th & 8th Class | 2 Nos |

In addition to it, the training school laboratory has also been equipped with apparatus etc. needed for teaching science to the teacher of elementary schools. The science kits under

Pilot programme have been supplied to the following schools:-

<u>BOYS</u>	<u>GIRLS</u>
1. MS Pathwal	1. HS Hiranagar
2. MS Gura Mundian	2. PS Gura Mundian
3. MS Bheya	3. PS Hiranagar 2
4. MS Gara Satoora	4. PS Bheya
5. CPS Pheru Chak	
6. Model PS Hiranagar	
7.	

To make the science teaching effective and to develop the competence in proper use of all the apparatus, chemicals, tools etc. science kits have been provided to various elementary schools (see page No ___) of Kathua District. The number is under:-

Kits	<u>No of Schools Covered</u>			Total
	<u>Boys</u>	<u>Girls</u>	<u>TTS</u>

b. Primary under Pilot project	7	4	6	17
c. Middle	-	-	18	18
Total:-	<u>65</u>	<u>33</u>	<u>24</u>	<u>122</u>

In all High Schools except to which have been upgraded during the current year, the facilities for teaching of subject of science are available. In the remaining two schools i.e HS Dewal and HS Sobar, the subject of science will be introduced during 1978-79. The science grant to the tune of Rs. 5000/- per school has been given to the following 4 schools for improvement of laboratory:-

1. HS Parole (Boys)
2. HS MahanPar (Boys)
3. HS RamKote (Boys)
4. HS Basohli (Girls)

In order to improve the standard of science teaching, the training programme for teachers under crash programme for 15 days was started in this District in 1976-77. A summary of the programme is given below:-

The training programme started in this District in the 4th session at 9 centres namely Bhaddu, Kathua Budli, Ghagwal A&B, Hiranagar A&B, Basohli and Billawar. The training was imparted at the centres from August 16 to August 30, 1976 and

and during this period 545 teachers (354 male and 191 female) were trained. Training at one centre namely Dani which could not be conducted during this session due to certain unavoidable circumstances, was organised at the centre during the 6th session from October 4 to October 18, 1976 and 45 teacher (32 male and 13 female) received training at the centre. This completed the training programme in this District. In all 590 teachers(386 male and 204 female) were trained out of an anticipated number of 602 (372 male and 230 female). In this way 98% schools were covered in this District. The block wise enrôlment of trainees was as under:-

WORK WORK EXPERIENCE

One of the means of achieving National Goal is to link Education ^{with} productivity and this link can be forged by introducing work experience as an integral part of the general education and vocationalization of education at + 2 stage. It was also emphasized ⁱⁿ the Round table conference that work experience should be integral part of general education and approach should be ^a pragmatic so that work experience is :-

1. Real
2. Socially Useful
3. Productive
4. Modern and Science oriented
5. Psychologically satisfying

The work experience in Ist to VIII should be introduced in two forms:-

1. As a craft
2. As a hobby

This programme was started on massive scale in the District in 1976-77. Some schools had shown extro-ordinary progress which was Vivid in the Exhibition held at Jammu from 20.12.76 to 24.12.76. This year 1977-78 Rs. 0.22 Lacs were allotted to the following number of schools for starting work experience programme:-

b/ High School	7	1	8
c/ Middle Schools	11	4	15
d/ Primary Schools	-	1	1
Total:-	<u>19</u>	<u>6</u>	<u>25</u>

In addition to these schools, the work experience programme has been introduced in the following schools from the previous year by getting the grant direct from state level officers:-

1. HS Koctan (Boys)
2. MS Bhardu (Boys)
3. Model MS Basohli (Boys)
4. HS Ghagwal (Girls)

The rented ~~xxx~~ or rent free buildings are generally the residential houses and are inadequate, insufficient and provide poor accommodation. So the first preference should be given to the construction buildings specially in case of elementary schools through local participation in terms of men, material and money. The present system of construction of schools buildings through local initiative has following defects:-

1. It is mostly Government initiative and the local initiative is only lip-sympathy;
2. There are also no set standard, designs and the buildings are constructed without plan;
3. The buildings constructed also lack technical supervision and guidance;
4. The buildings once constructed are not after-wards maintained properly.

SUGGESTIONS

1. Construction grant through local initiative should only be given when the local population of the area also contributes minimum of 25% of the total cost of construction in shape of land, construction material and money;
2. The grants at a time to a particular ~~work~~ school should not exceed Rs. 10,000/- when to be constructed by local committee;
3. When the total cost of construction exceeds Rs. 10,000/ the work should be undertaken by the P.W.D ;
4. The owner-ship of the land should also be settled before undertaking the construction programme;
5. There should be approved standard designs with necessary detail regarding specifications and requirements of construction materials etc;
6. There should also be standing instructions to the local Assistant Engineer of the P.W.D to extend full co-operation to the local construction committee and to provide technical guidance^a and supervision to all such works under taken within area of his jurisdiction.
7. Maintenance of such buildings should be the entire responsibility of the department. In addition to the funds collected through building funds special grants should also be given to the institutions when-ever required.

Some number of school buildings have also been constructed through local initiative. The detail is as under:-

GENERAL IMPROVEMENT OF SCHOOLS

For general improvement of schools, 21 elementary schools and 4 secondary schools were given special grants at the rate of Rs. 500/- and Rs.5000/- per school respectively. The detail is as under:-

CONSTRUCTION PROGRAMME

The problem of providing building to Educational Institutions especially at the elementary stage is a colossal one not only in Kathua District but also in whole of the state. This massive problem can be tackled only if local resources are harnessed to the maximum possible extent. If left to be tackled by the Govt. alone, it would require millions of Rs. Rupees which the state ex-~~ch~~ exchequer would never be able to bear. So there are two alternatives:-

1. To open schools in rented buildings or rent free buildings;
2. To construct buildings through local initiative

B. P.W.D

Keeping in view high cost of construction, it is suggested that the programme of construction and renovation of buildings for schools through P.W.D may be planned in the following order of priorities:-

1. Building of those school where classes are held in the open;
2. Where existing school buildings have been declared unsafe;
3. Repair, maintenance and improvement in existing schools;
4. Schools having rented buildings.

27 buildings (18 Boys and 9 Girls) of Education Department were taken up by the P.W.D during 1976-77. The said buildings remained incomplete and this year Rs. 10.50 Lacs were provided to complete the incomplete buildings only and no new work was taken up. The year wise funds put at the disposal of Superintendent Engineer K&B were as under:-

<u>Year</u>	<u>Amount</u>
1975-76	Rs. 7.74 Lacs
1976-77	Rs. 9.72 Lacs

URBAN AREA DISTRICT KATHUA .

At the 1971 census the following criteria were laid down for a place being treated or recongnized as urban :-

- (a) All places with a municipality, corporation or contonment Board or a notified area irrespective of their population and other characterertics.
- (b) All other places satisfying the following tests:-
 - (I) An area / village whose population is not below 5,000.
 - (II) An area / village whose $\frac{1}{4}$ th of Male working population consists of non- agriculturists and
 - (III) An area which has a density of not less than 1000, persons per square ~~mile~~ mile (390 persons per sq.K.M.)

As per this defination the following 5 places qualify to be treated as Urban in the case of Kathua District :-

1. Kathua
2. Hiranagar.
3. Basohli.
4. Lakhanpur.
5. Parole.

The chronological history of towns shows that 3 out of 5 ~~are~~ of the district viz, Basohli, Hiranagar and Kathua came into being in 1911. While Basohli and Kathua have been able to maintain their urban status un-interruptedly for all the decades ending 1971. Hiranagar had lost its urban status in 1921. It was notified again in 1961 and since then continues in the urban list. The Lakhanpur and Parole were elevated to the status of town in 1961 and 1973 and continue as urban till to-date. The decennial growth rate of urban area is registered 61.67 % according to 1971 census which is well above the urban growth of 44.55% returned to the state as a whole. The rainfall is general adequate. Jammu is the nearest city for all the towns of the district. All towns are well ~~are~~ linked with ~~by~~ route facilities and electric facilities are provided too. Till recen ly Patharkote was the nearest Railway station for all the towns of the district, but with the extension of the railway ~~line~~ right upto Jammu, Kathua has become nearest railway head for all towns of the district.

EDUCATIONAL FACILITIES/ Kathua is the only town in the district which is provided with a college. In other 4 out of 5 urban areas, there are 10+2 pattern functioning. At Parole & Lakhanpur there are High Schools(Boys)

DISTRICT KATHUA

The lower sawalik range occupies the central portion of the District and runs along the northern part of Kathua and Hiranagar Tehsils and Southern Part of Basohli and Billawar Tehsils. This whole area on the north of National High way A from Lakhanpur Teh. Kathua to Sohanda Teh. Hiranagar and south of National High way B, from Thein Bridge to Khoulian Talaiian (Ramkote) Teh. Billawar is called 'Kandi Belt' which means un-irrigated area with submontane gravel soil. This area has summer Temperature rising up to 47°C. There are numerous Nallas/streams like Sehar, Magar, Nora, Sokhal, Ternah, Bailee, Jakh. All these streams have rendered the entire topography very undulating. The whole area is sparingly populated and forests are full of thorny bushes. Agriculture and Military service are the main occupations of the people. Mango trees are in abundance. Farming has been more on the traditional lines. The main crops are:-

1. Wheat
2. Bajara/bareloy
3. Maize
4. Till
5. Grams & Pulses.

This area has semi-zerophytic trees like Plah, Khair, Bamboo, Kiker and Berries. The links from the Highway A have been given the main ~~XXXXXXXXXX~~ villages of the Kandi and electric facilities are provided too. The area is composed of 157 villages out of which 149 are inhabited. The detail is as under:-

EDUCATION REPORT OF BANI BLOCK 1977-78 . TEHSIL BASOHLI.

Bani is middest of the Himalaya Range. The whole area is surrounded by Mountains having four passes to enter there i.e. BANJAL, DEHARI, CHHATAR, AND CHINGGALI . The highest elevation points are Sundbain and Mandi top. It forms a part of Basohli Tehsil and has boundaris common with :-

1. DISTRICT CHAMBA TOWARDS EAST .
2. DISTRICT DODA TO NORTH?
3. Tehsil BILLAWAR TOWARDS SOUTH .

In the case of climate, the summer temperatures rarely exceed 36degree C. Most areas in the region have snow for the greatest part of the year. There are some perennial streams which contributes to the flow of the Ravi. The most prominent of these streams are SEWA, KHAD, PLAK, NALLA LOWANG , and BAFMOTA , The area is full of forests and its products i.e. Decdar, Kail, Chir, Fir, Dhooop , Kooth, Bala etc are used locally.

Educationally Basohli Tehsil ranks 4th in the district with literacy percentage of 13.67 as compared to State level percentage of 19. The literacy percentage of Bani Block is 9. As per 3rd All India Educational Survey, there are 27 villages and 125 Habitations. Before 1987 there were 7 schools at the following places:-

1. C.S. PANYEAG 9 Then designated as lower Middle School)
2. P.S. Bani.
3. P.S. Lowang
4. P.S. Bhandar .

In the preceding year Rs. 850/- were allotted for enrolment drive and it is hoped that the steps taken so-far shall have encouraging results. This year 78-79 a good amount is proposed for the block for this purpose. The roll of boys is favourable to that of the girls, where the prejudice and orthodoxy in the minds of the people hamper their admission, in the schools. To tackle with, it is desired that all agencies Revenue, panchayat Block, Medical, and social workers of the illaga try to persuade the inhabitants in this behalf.
