## FOREWORD

I am very glad to bring out this publication "Educational Statistics 1987" for the use of Planners, Administrators and Researchers in the field of Education as well as the general public.

This publication presents information on Educational Institutions, enrolment of pupils and teachers. The tables given in this publication were collected and processed by the Statistical Unit of this Department.

I trust that this publication will be of use to all concerned as a reference book.

K. J. MATHEW,  
*Director of Public Instruction.*

## GENERAL FEATURES OF SCHOOL EDUCATION FACILITIES IN KERALA

### Population and Literacy

1981 Census figures show that Kerala has a total population of 254.54 lakhs. This forms 3.7 per cent of the total population of India. But for a state with an area of only 1.27 per cent of the total area of India, this population contributed to high rate of density of population. Compared to a density of 216 persons per sq. km in India as a whole, there are 655 persons per Sq. km. in Kerala. The population estimate of Kerala during 1986-87 stood at 278 lakh. Percentage of total number of pupils enrolment to total population comes to 20.57. Percentage of pupils in primary stage (from Std. I to VII) to total population of the age group (5-11) is 94.70. The total enrolment percentage to total population of the School going age (5-14) works out to 89.54.

The percentage of literates in Kerala is 70.42 as per 1981 Census data. The all India figure is 36.17% for 1981. The state also holds a high rate of Female literacy of 65.73 percentage. The rate of literacy for all persons was 49% in 1961 and 60 per cent in 1971 against the all India percentage of 24 and 29 respectively.

### Educational Institutions

The educational facilities available in the state have had a significant role in the educational advancement of the State. The number of Schools in the State during the academic year 1986:87 is 12142. Out of this 2430 are High Schools, 2884 U P. Schools and 6828 L P. Schools. The number of Schools works out to about one for 3 Sq. k.m. The number of Schools per lakh population is 44 when we consider each type of School separately viz. High, U. P. and L. P. the rates will be as follows :-

TABLE I  
Number of Schools per 10 Sq. k. m. and per lakh  
Population—1986-87

<i>Type of School</i>	<i>Rate per 10 Sq. km.</i>	<i>Rate per lakh population</i>	<i>Population served by one School</i>
High School	0.63	8.74	11440
U. P. School	0.74	10.37	9640
L. P. School	1.76	24.56	4071
ALL	3.12	43.68	2290

The above rates show the comparatively higher rate of availability of School facilities in the state. The fact that there are 3 Schools on an average in 10 Sq. km. show that the maximum distance to be travelled by a student to reach the School is less than 2 km. A School is available for 2290 population or a School for 400 families on an average.

The number of educational institutions shows an increasing trend every year thereby providing more facilities to the people. The following table gives the details of the growth of Schools for the period 1960-61 to 1986-87.

1987-88	4473	7660	12133			

During the 26 years from 1960-61 to 1986-87 the number of Schools has increased by 27% the Government Schools have increased by 28% and Private Schools by 27%. The percentage of Government Schools is 36.8% during 1986-87 against 36.6% during 1960-61. The proportion of Government Schools remained more or less same during the years though there was slight increase in the percentage of Government Schools in the intervening years.

The increase in the number of schools in Lower Primary, Upper Primary and High School stages is given below :—

TABLE III  
Increase in the number of schools by stage

Type of school	Number in 1960-61	Number in 1986-87	Percentage increase
Lower Primary	6706	6828	2
Upper Primary	1932	2884	49
High School	895	2430	172
Total	9533	12142	27

The figures in Table H indicate that the increase in the number of Lower Primary Schools is only marginal and that the increase is mainly in the case of High Schools and Upper Primary Schools which may be due to the upgrading of the existing Lower Primary Schools.

### Enrolment in Schools

During the year 1986-87, 57.18 lakhs student were enrolled in standards I to X in the different schools under the Department. Of this 29.18 lakhs were boys and 28.00 lakh were Girls. With the increase in population the number of children enrolled in schools naturally increases. The stage-wise distribution is given in table IV.

TABLE IV  
Enrolment of students in different stages—1986-87

Stage	Number in lakhs		
	Boys	Girls	Total
Lower Primary	13.29	12.58	25.87
Upper Primary	9.17	8.73	17.90
High School	6.72	6.69	13.41
Total	29.18	28.00	57.18

The enrolment is 20.57 of the estimated population of Kerala. The progress of enrolment in the different stages of education from 1960-61 to 1986-87 is given in the following tables.

1985-86	25.95	17.77	13.43	57.15	126	202	406	175
1986-87	25.87	17.90	13.41	57.18	126	203	405	175

It can be seen from Table V that the enrolment has increased substantially during the period 1960-61 to 1986-87. The total enrolment has increased by 75% which is mainly due to the rise in enrolment in the Upper Primary and High School Sections, which are 103% and 305% respectively.

This implies that in the recent years a larger percentage of the students continue their studies to higher stages of education and comparatively fewer students drop out in the lower standards.

During the period 1961 to 1981 the population of Kerala has increased by 51%. The increase in school enrolment during the same period is about 41%. This indicates that the enrolment has increased more than the increase in population and in the number of children of school going age. When the increase in enrolment is considered by the stage of Lower Primary and High School it can be seen that the increase is less than the population increase in Lower Primary but more in the higher stages of education. This can be due to the higher percentage of students continuing their education to higher standards.

The average enrolment in schools has increased from 343 to 471, an increase of 37%. The increase of enrolment when examined in relation to the increase in number of schools shows (1960-61 to 1986-87) that the rate of increase in number of schools is only about 1/3rd of the rate of increase in enrolment. While the enrolment has increase by 75% the number of schools has increased only by 27% during the period 1960-61 to 1986-87.

### Number of Teachers

With the increase in number of schools and the number of students the number of teachers also will increase proportionately. During the year 1986-87 the number of teachers in the schools of Kerala was 191584. Their distribution according to sex and type of school is given below :—

TABLE VI  
Number of teachers in 1986-87

L. P. School	19810	30717	50527
Total	77460	114124	191584

The number of female teachers per 1000 male teachers works out of 473 i.e. 59.57% of the teachers are females. As in the case of schools and enrolment, there was an increase in the case of teachers also. The following table given the number of teachers during the years 1960-61 to 1986-87.

The number of teachers have increased from 1.09 lakhs in 1960-61 to 1.91 lakhs in 1986-87. The percentage of increase was 75%. It may be noted that the increase in enrolment during the same period was 75%. Hence it can be seen that the increase in number of teachers is more or less in proportion to the rise in enrolment. The teacher pupil ratio in 1960-61 and 1986-87 works out to 1:30.

The increase of teachers in the Lower Primary section was 18% during 1960-61 to 1986-87 against 26% increase in enrolment. In the U.P. Section teachers increased by 88% while students increased by 103%. In the High School section the corresponding rates were 300% and 305% respectively. In all these cases the increase in the number of teachers was less than that in enrolment. The number of pupils per teacher in 1960-61 and 1986-87 for different sections are given below :—

TABLE VIII

**Number of Pupils per teacher, section-wise**

<i>Section</i>	<i>1960-61</i>	<i>1986-87</i>
Lower Primary	33	35
Upper Primary	27	29
High School	24	24
All	30	30

There is a marginal increase in the number of pupils per teacher for the L.P. and U.P. Section considered during 1960-61 to 1986-87. There is no change in the case of High School section.

Detailed Statistical tables are presented in the continuing pages.
