Q

PREFACE

In the present day world "Education" is a rational concern as it has become a vital instrument for social, cultural and political transformation of society. Educational planning has, herefore, assumed great importance so as to ensure optimum use of limited resources of Man, Money and Material to achieve national priorities in the field of education. This helps to relate education to life, needs and aspirations of the people. Proper educational planning and its effective implementation pre-supposes a sound Statistical base. In fact, it is no exaggeration to say that modern culture has tended to become a Statistical Culture.

The present publication of Educational Statistics is tenth in the series. The book contains significant Statistical Tables in the sphere of Education in the Union Territory of Delhi. It is hoped that the contents of the book will prove beneficial to the officers and staff of the Directorate of Education in their day today official work and be a source of material information to others.

The direction of Shri R.S. Shakir, Survey Officer, and keen co-operation and participation of Sh. V.K. Gupta, Research Officer, the staff of Statistical Branch alongwith officers and staff of various branches of the Directorate in making the venture a success deserves special appreciation.

Joint Director of Edu. (Plg.)
