This Report gives an account of the development of educational facilities for children belonging to Scheduled Castes and Scheduled Tribes in India during 1975-76. This report is based mainly on the statistical data supplied by the State Governments and Administrations of Union Territories in a prescribed form.

The proposed publication covers mainly the enrolment of children belonging to Scheduled Castes and Scheduled Tribes at different levels of education beginning from pre-primary education upto the highest stage of education with all the possible bifurcations into different standards of education. Sex-wise and State-wise comparisons of progress of education among the children belonging to these communities have also been made. The coefficient of equality at different levels of education in respect of these communities has also been worked out.

The population statistics included in this Report are estimated on the basis of 1971 Census figures. No attempt has been made to draw any inference or insinuation based on the factual data depicted in the report, although some analysis of the data has been given wherever desirable in order to highlight the progress of education among the children of various age-groups belonging to these communities.

The State-wise details of progress made in providing educational facilities to the Scheduled Caste and Scheduled Tribe communities are presented in Appendices 'A' and 'B' respectively.

The Ministry of Education & Social welfare highly appreciates the assistance of all the State Governments and Administrations of Union Territories who supplied the basic statistics for the preparation of this report. Suggestions for making the report more useful in future may please be addressed to the Deputy Secretary(Planning) in this Ministry.

SUMMARY

There has been a tremendous expansion in the provision of educational facilities in India. Remarkable increase has been noticed in the number of institutions of different types enrolment therein, number of teachers employed and the educational expenditure incurred thereon. Table I below, giving the percentage of coverage of the population of all communities of different school-going age-groups, indicates at a glance the significant developments that have taken place in the field of elementary education since 1960-61 :

Table 1 - Enrolment as percentage of the population of relevant age-groups at Primary and Middle School Stages.

*likely achievement.

2. Although all-round expansion of education has been witnessed yet it has not spread over uniformly in the country. There still remain certain areas and social communities as well as some groups of population which lag far behind others in the development of education. Special efforts are, therefore, required to be made to accelerate the pace of educational development in such backward areas, special groups of population like girls, Scheduled Castes, Scheduled tribes, backward classes and other communities living in hill areas.

3. The percentage of enrolment of Scheduled castes and Scheduled Tribes to the enrolment of all communities increased from 11.1 and 4.6 in 1974-75 to 11.5 and 4.7 in 1975-76 respectively. In terms of coefficient of equality, the overall position improved slightly from 76.0% to 78.8%, in the case of Scheduled Castes and it decreased from 66.7% to 62.8% in the case of Scheduled Tribes during this period. The decrease in coefficient of equality of Scheduled Tribes is mainly on account of taking revised population figures of Scheduled Tribe population by which the Scheduled Tribe population has increased from 6.9% to 7.49%. The decrease is, therefore, more apparent than real.

Table 2 below gives a comparative position of enrolment of Scheduled Castes and Scheduled Tribes in various types of institutions in India for the years 1974-75 and 1975-76 and also brings out the improvements in the coefficient of equality* in different types of institutions in 1975-76 as compared to 1974-75.

*Co-efficient of Equality :-

Percentage enrolment of Scheduled Castes/Scheduled Tribes to total enrolment of all Communities _____ X 100

State-wise details of enrolment of children belonging to the Scheduled Castes and Scheduled Tribes studying in various types of educational institutions are given in the statements included in Appendices(A) and (B) respectively of the report.

4. Accepting equality of opportunities for children belonging to all communities the coefficient of equality for Scheduled Castes/Scheduled Tribes children should be 100. In other words the proportion of the enrolment of SC/ST to total enrolment should equal to the proportion of population of Scheduled Castes/Scheduled Tribes to total population and its percentage equal to 100.

An index greater than 100 implies that the educational advance of Scheduled Castes/Tribes is more than that of the total population and thereby shows that there are some other social groups in the general population whose condition is even worse than that of the Scheduled Castes/Scheduled Tribes. If this index is less than 100 it indicates that the Scheduled Caste/Tribes have still some lee-way to make. In such cases, special efforts are needed to be made to improve their enrolment. The smaller the coefficient of equality, the greater the need for making such efforts. The Coefficient of equality of 78.8% in case of Scheduled Castes and only 62.8% in case of Scheduled Tribes indicates the extent to which educational facilities were availed of by these communities in 1975-76. This index also highlights the effort that is required to improve conditions which may attract children of these communities to educational institutions.

5. For analysis of this subject, in details separately for Scheduled Castes and Scheduled Tribes, this report has been divided into two parts. Part I relates to the educational development of Scheduled Castes and Part II deals with the educational development of Scheduled Tribes.

EDUCATIONAL FACILITIES FOR SCHEDULED CASTES :

6. The population of Scheduled Castes as per the 1971 Census was about 82.48 million which formed 15.05% of the total population of India. This is the revised population for 1971 based on the Scheduled Castes and Scheduled Tribes Orders (Amendment) Act, 1976. The State-wise break-up of the population of this community as well as its percentage to total population are given in Table 3 on the next page.

It will be seen that the highest percentage of population of Scheduled Castes (24.71 per cent) was found in Punjab followed by Himachal Pradesh (23.35%) and Uttar Pradesh (21.62%). The smallest proportion of Scheduled Caste population (0.38%) was reported in Meghalaya. The States/U.T.'s of Nagaland, A & N Islands, Arunachal Pradesh and Lakshadweep had no/negligible Scheduled Caste Population.

7. The population of Scheduled Castes for the year 1976 is not available but for the purpose of this report it has been assumed that the proportion of Scheduled Caste population to the total population of each State and Union Territory as recorded in 1971 Census holds good for 1976 as well.

B. Enrolment

Table 4 below depicts the all-India picture of the total enrolment of Scheduled Castes in various types of institutions during the years 1974-75 and 1975-76 :-

The girls enrolment included in the total, however, increased from 30.56 lakhs in 1974-75 to 32.56 lakhs in 1975-76 at a growth rate of 6.5%. Additional enrolment during this period was of the order of 5.60 lakhs and a major part of it, namely 2.62 lakhs was in Primary/Junior basic schools.

9. The percentage of Scheduled Caste enrolment to the total enrolment and the coefficient of equality for various types of educational institutions is given in Table 5 below :

The co-efficient of equality of Scheduled Castes in 1974-75 was more than 100% in case of Assam, Gujarat, Kerala, Maharashtra, Manipur, Meghalaya, Tripura and Dadra & Nagar Haveli. This continued to be so in 1975-76 also, except in case of Kerala where it came down to 97%. Tamil Nadu reached a coefficient of equality of nearly 100% (99.4%) in 1975-76 for 93.8% in 1974-75. This indicator works out more than 200% in case of Meghalaya and Dadra, Nagar Haveli on account of negligible Scheduled Caste population. In 1975-76 the Co-efficient of equality was less than the national average of 76.4% in case of Bihar, Haryana, Himachal Pradesh, Karnataka, Rajasthan, Uttar Pradesh, West Bengal, Chandigarh and Delhi.

E. Progress of Enrolment by types of institutions

12. A general review of the progress of enrolment of Scheduled Castes during the years 1974-75 and 1975-76 indicates an overall improvement. However, the position varied from State to State and also over various types of institutions. Statements II to XVI in Appendix 'A' indicate State-wise progress of enrolment of Scheduled Castes in various types of educational institutions.

13. A brief comparative review of the progress of enrolment of Scheduled Castes as percentage to the enrolment of all communities for each category of schools and the corresponding co-efficient of equality for the years 1974-75 and 1975-76 is given in the following paragraphs :

(i) Pre-Primary Schools

The total enrolment in Pre-Primary Schools in the country increased from 3.66 lakhs in 1974-75 to 3.88 lakhs in 1975-76 thus registering an increase of 6.0% during this period. The corresponding enrolment of Scheduled Castes increased from 26,902 (7.4% of the total) in 1974-75 to 28,529 (7.4% of the total) in 1975-76. The State-wise percentage of enrolment and co-efficient of equality are indicated in Table 8 below. The details of enrolment figures are given in Statement II of Appendix 'A'.

(xii) Institutions for Professional, Special and Other Education(Colleges and Schools)

A composite picture of State-wise enrolment, percentages and co-efficient of equality of Scheduled Caste Students in institutions for Professional, Special and Other Education (both Colleges and Schools) during the years 1974-75 and 1975-76 has been shown in Table 18 below. Total number of students enrolled in these colleges and schools was 19.25 lakhs in 1974-75 and it increased to 19.86 lakhs in 1975-76. Of the total, the number of Scheduled Caste students were 1.40 lakhs in 1974-75 and 1.64 lakhs in 1975-76. Percentage enrolment of Scheduled Caste students to the total enrolment was 7.3 and 8.3 during the years 1974-75 and 1975-76 respectively. Consequently, co-efficient of equality of Scheduled Caste students increased from 50.0% in 1974-75 to 55.1% in 1975-76.

G. Enrolment of Scheduled Castes by Stages of Education

15. So far, the progress in enrolment of Scheduled Caste students by type of institutions only has been discussed. Comparative picture of enrolment and co-efficient of equality for the year 1974-75 and 1975-76 has been shown in respect of different categories of institutions. However, the correct idea about the progress of enrolment of scheduled caste students can be had only from the stage-wise position of enrolment as discussed in the following paragraphs:

Table 20 indicates the enrolment of all communities as well as of scheduled caste students alone by stages of education for the year 1975-76. Enrolment of Scheduled Castes as percentage to the total enrolment for different stages of education is a good indicator of position of enrolment of Scheduled Caste in comparison of other communities. The Scheduled Castes form about 15 per cent of the total population and the difference between this percentage and the percentage of scheduled caste enrolment to total enrolment indicates the lee-way which needs to be made up to bring the Scheduled Castes at par with other communities.

(i) Primary Stage

The number of classes constituting the primary stage of education varied from State to State. For the sake of uniformity the first five classes of schools have been taken to constitute the primary stage in all States/Union Territories of India. Total enrolment of Scheduled Castes in Classes I-V increased from 79,00,821 in 1974-75 to 82,44,638 in 1975-76. The number of Girl students during 1974-75 and 1975-76 was 25,23,295 and 26,58,531 respectively. Percentage enrolment of Scheduled Castes to total enrolment showed an increase from 12.2 in 1974-75 and 12.6 in 1975-76 and consequently the coefficient of equality also increased from 83.6% in 1974-75 to 83.7% in 1975-76. Educational wastage among Scheduled Caste students at Primary Stage was 67.8 per cent in 1975-76, as compared to 60.6 percent in 1974-75. Maximum wastage in Education at Primary Stage was in Manipur (87.6%) and minimum in Jammu & Kashmir (17.7%). Figures relating to enrolment of Scheduled Castes' percentage to the total enrolment, coefficient of equality and percentage of wastage at Primary stage for the year 1975-76 in respect of each State/Union Territory of India have been indicated in Table 21 below. Enrolment by classes at Primary stage and by States is given in Statement X of Appendix 'A'.

(ii) Middle Stage :

Number of classes constituting Middle stage too is not the same in all the States and Union Territories. But in most of the States and Union Territories Classes VI, VII and VIII are treated as the Middle stage of school education. Hence, for the sake of uniformity, Classes VI-VIII (3 classes) are taken under Middle stage for all the States and Union Territories. In 1974-75 Scheduled Caste students enrolled at Middle stage were 14,13,348 of whom 3,39,322 were girls. Scheduled Caste students formed 9.2 percent of the total enrolment in 1974-75. Corresponding Scheduled Caste enrolment was 15,30,260 (including 3,76,889 Girls) in 1975-76. The students of Scheduled Caste community formed 9.2 per cent of the total enrolment at this stage during this year. The Co-efficient of equality of scheduled castes under this stage of education was 63.9% in 1975-76. Table 22 depicts the position of the number enrolled, enrolment percentage and coefficient of equality at Middle stage in various States and Union Territories. G. Enrolment of Scheduled Tribes by Stage of Education

24. So far the progress in enrolment of scheduled tribes students by type of institutions only has been discussed. Comparative picture of enrolment and co-efficient of equality for the years 1974-75 and 1975-76 has been shown in respect of different categories of institutions. However, the better picture of the progress of enrolment of scheduled tribe students can be had only from the stage-wise position of enrolment as discussed in the following paragraphs.

Table 48 below indicates the enrolment of all communities as well as of scheduled tribe students by stages of education for the year 1974-75. Enrolment of scheduled tribes as percentage to the total enrolment for different stages of education has also been indicated.

(i) Primary Stage

As already stated, the number of classes constituting the Primary stage varies from State to State. But for the sake of uniformity, classes I-V has been taken to form Primary stage in all States/Union Territories for the purpose of this report. Total enrolment of scheduled tribes at the Primary stage in the country as a whole increased from 34.67 lakhs in 1974-75 to 35.72 lakhs in 1975-76. Correspondingly, the girls enrolment of these communities increased from 10.79 lakhs to 11.24 lakhs. Percentage enrolment of scheduled tribes to the total enrolment at this stage was 5.4 both in 1974-75 and 1975-76. The coefficient of equality decreased from 78.3% to 72.1% during this period. Educational wastage among Scheduled tribes at Primary Stage was 78.1 per cent. Among States, educational wastage in Orissa (85.9%), Manipur (82.1%), Madhya Pradesh (82.1%), Assam (80.9%), Tripura (80.8%) and Rajasthan (79.2%) was more than that of the national average. Among Union Territories, maximum wastage at Primary stage was in Dadra & Nagar Haveli (87.9%). Figures relating to enrolment of scheduled tribes, percentage to the total enrolment, coefficient of equality and percentage of wastage at primary stage in respect of each State/Union Territory of India have been delineated in Table 49 below. State-wise enrolment at Primary stage in respect of each class is given in Statement X in Appendix 'B'.

(ii) Middle Stage

Here also in order to maintain uniformity, Classes VI-VIII have been taken to constitute the Middle stage in all the States and Union Territories of the country irrespective of the State-wise variation in this regard. Scheduled tribe students enrolled at this stage were of the order of 4.62 lakhs in 1974-75. Of this, 1.22 lakh were Girls. The corresponding figures of 1975-76 were 4.91 lakhs and 1.33 lakh respectively. Percentage enrolment of Scheduled Tribes to the total enrolment improved from 3.0 in 1974-75 to 3.1 in 1975-76. However, the coefficient of Equality however, decreased from 43.5 to 41.4 during this period. For Class-wise enrolment a reference may be made to Statement XI in Appendix 'B'.

State-wise enrolment and its percentage to total enrolment as well as coefficient of equality are given in Table 50 below:-
