PREFACE

The issue of the **Statistical Handbook of Chandel District 1998-99** is the **Second** of its kind brought out by the **District Statistical Office** of this Directorate.

The Brochure is a compendium of all essential Statistics relating to the several faces of the economy of Chandel District in a handy form. Every efforts are made to cover almost all the sectors of the economy of the District. Inspite of our best efforts to incorporate the latest data, it has not been possible to do so in a few cases. The sources of data are indicated at the foot note of each table.

It is hoped that this publication will serve as a useful guide to the administrator, planners and other data users.

The continued co-operation extended by various District Authorities/Head of the Offices and Statutory Bodies in making available up-to date data with which they are concerned is gratefully acknowledged. I would like to thank the Officer and staff of the District Statistical Office, Chandel who are directly or indirectly responsible for timely publication of this District Hand Book inspite of various limitations.

Suggestions for improvement in quality and coverage of the Publication in its next issue are welcome.
