FOREWORD

An imposing system of education has evolved over a period of time in Karnataka State as is evident from the data of schools, teachers and students.

In order to provide infrastructure facilities and teachers for schools of the State, organize capacity building programmes for teachers, provide stimulating incentives such as free textbooks, uniforms and mid-day meals to students in comprehensive and efficient ways, there is a need for basic data about the school system. It would not be possible to provide a meaningful school support system, for all the schools within the jurisdiction of 34 educational districts, 202 educational blocks and 2708 cluster resource centers without the availability of such basic data. It is the responsibility of the 'Educational Management Information System' unit of the Department of Education, the EMIS unit, to collect, process, consolidate and publish educational data which are of foundational value for the system of education in the State.

The EMIS unit has been functional since 2004-05. It has been publishing educational data every year which have been useful to the government for educational planning, implementation of programmes, monitoring, supervision and evaluation of efforts. These data are invaluable in appraisal of status and direction of education in the State and for realization of goals of universalisation of elementary education. Educational data for the year 2010-11 are currently available. It is proposed to publish them in a series of volumes : a hand book of complete data on the totality of the educational system on our web-site ; an analytical report of significant parameters and concerns of the system of education in the State ; an update on status of education in the districts; and a detailed district-wise update on the status of education in the blocks. The current volume being published is the analytical report on significant parameters and concerns of education in the state.

The need for a valid and reliable data base has assumed unprecedented significance due to the location of elementary education as a fundamental right under article 21A, in the Constitution of India, as well as the consequent rights-based approach to planning, implementation and performance-reviews.

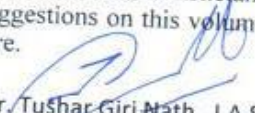

The analytical report, the district / block level reports are being extensively used in preparation of Annual District Plans for Sarva Shiksha Abhiyan, submission of reports to Joint Review Missions, preparation of regional plans, sampling design for research studies and reviews of progress in the State. They are also useful for review exercises in regard to RTE implementation.

'Progress of education' section on the status of progress of education in the State is updated from 2006-07 to 2011-12.

Analytical Report of 2010-11 included a section on analysis of 2011 Census Literacy data. They are not repeated in this volume.

Analytical Report of 2011-12 has included a brief comparative analysis of data on drop-out rates as maintained in DISE, NUEPA and Selected Education Statistics of MHRD. It is observed that on either of these calculus, drop-out rates will be zero by 2013-14 at both lower and higher primary levels of education.

The current EMIS volume for 2009-10 is being sent to all those persons who are concerned and interested about the system of education in the State as well as the Department of Education of the State government. It would also be of value to educational policy-makers, planners, administrations, researchers, statisticians and enlightened public. We eagerly look forward to feedback and constructive suggestions on this volume so that the EMIS unit may function in a more efficient and meaningful way in future.

Even though the proportion of rural schools run by the Department of Education in the State is 87.26 (All level schools) percent, it goes up to 92.19 percent in case of rural lower primary schools. The participation of private players both in regard to aided and unaided managements is quite low in rural areas. It is marginally visible only in case of high schools which are normally located in big villages. **It is clear that commercial designs overweigh concerns of rural development among private players.**

Schools by Medium of Instruction:-

Majority of students are pursuing their studies in schools which have adopted Kannada, English, Urdu, Marathi, Telugu, and Tamil as Medium of Instruction. Information about number of schools by the Medium of Instruction adopted by them is given in the following tables.

Table 12 - Distribution of Schools by Medium of Instructions

Note : Medium wise Schools are more than the total number of schools because one school may be having multiple mediums

Note:-

- Sum of all schools by Medium will not tally with Total Schools in the State at LPS / HPS / HS, as one school will get counted under different Medium. For instance, A school with Kannada and Marathi medium sections will get counted under two columns, one for Kannada and the other for Marathi.
- English Medium schools (sections) are increasing. The figure was 4467 in 2007-08 and 9874 in 2011-12.
- Tamil and Telugu sections / schools are decreasing. Perhaps, they have shifted to English medium. This is true of Hindi medium sections / schools also.

96.89 percent of schools in the State practice co-education. Single sex schools are hardly 3.11 percent in proportion of which 2.17 percent are girls only schools. This practice of co-education is popular in both rural and urban areas.

ENROLMENTS IN THE STATE

Total Enrolments, Gross Enrolment Ratios, Net Enrolment Ratios, Number and proportion of children who leave the school mid-way, Repetition Rate, and Enrolments by sex, Social category, School grades, Transition Rates, Completion Rates are the prominent indexes of Enrolments. Some of them are measured against school-age population. **It is noted that total enrolments in 1 to 10 standards in the State, during 2011-12, continues to be above the 10 million mark.**

- 2) Except in case of Muslims, OBCs and other Minorities proportion of boys in 1 to 10 classes out of total boys in 1 to 10 classes is higher than that of girls.

There are 100.97 lakhs children in 1st to 10th standards in the State. Of this total, 54.15 lakhs children are in 1st to 5th standards, 20.75 lakhs children are in 6th to 7th standards and 26.07 lakhs children are in 8th, 9th and 10th standards of the high school section.

Graph 8 (for TABLE 15)
Standard Wise Percentage of Enrolment, 2011-12

It may be observed from Graph 8 that the heights of the individual bars in the bar graph are comparable from 1st to 5th standards. There is a marginal fall at 6th standard and 8th standards. The fall is clearly perceptible from 9th to 10th standards. Perhaps the complete success at LPS stage up-gradation of a large number of 1 to 7 HPS to 1 to 8 HPS has arrested the fall at 6th and 8th standards. The fall at the secondary stage needs better attention. Perhaps the Rashtriya Madhyamika Shiksha Abhiyan may address this problem.

Table 16A reveals that in 12.72 percent of schools 18.08 percent of children are studying through the English Medium. As per population census, proportion of people whose mother tongue is English is far below this percentage. Hence it is understood that either children whose mother-tongue is not Kannada and at the same time facility for schooling in their mother-tongue is not available at their place of stay or others who do not prefer to pursue their studies in their mother tongue may opt for English as Medium of Instruction.

Graph 9 (for TABLE 16A Level wise)

There is an insignificant decline of children from other media of Instruction also in favour of English Medium Schools. English medium schools have gone up from 12.61 percent in 2010-11 to 12.72 percent in 2011-12. At the same time, there is no notable decrease in Kannada medium schools. Proportion of Kannada

medium schools has decreased from 78.56 percent in 2010-11 to 78.37 in 2011-12. While proportion of children in kannada medium schools has gone up from 74.10 percent in 2010-11 to 74.67 percent in 2011-12.

Notes:-

- 1) There are 08 out of 34 educational districts in the State which belong to North Eastern Karnataka and identified as backward districts. 31.96 percent of enrolments in the State are in these 08 districts.
- 2) Percentage share of districts is comparable across districts for 1 to 5 and 1 to 7 enrolments. When 1 to 8 enrolments and 1 to 10 enrolments are considered, the relative positions of districts receive a juggling. Enrolments at 8th standard and beyond that stage make a difference.

Table 18A - Drop-out Rates in STATE 2011-12

Category	Lower Primary	Higher Primary (In %ages)
All Children	1.19	4.35
Boys (All)	1.21	4.08
Girls (All)	1.17	4.64
SC (All)	0.55	4.56
SC (Boys)	0.38	4.21
SC (Girls)	0.74	4.94
ST (All)	0.36	6.13
ST (Boys)	0.30	5.57
ST (Girls)	0.43	6.75

Drop-out rates in the State have nose-dived to 1.19 percent at LPS stage. Drop-out rates at LPS of ST children is very much lower than State average while that of SCs is slightly higher. STs are focused social groups in terms of their location while SCs are part of general population. Highest drop-out rate in the system is among SC girls, which is also marginal in magnitude. This should be brought down to zero, in a year or two, which is possible.

Drop-out rate at HPS stage is considerable, at 4.35 percent. Compared to previous years it is low and falling. Trend is positive while concern is deep. Drop-out rates only among boys in general and SC boys are lower than state average. In all other cases dropout rate values are higher than state average.

Note: For drop-out calculation of a drop-out rates, the state following Average annual Drop-out method, alternatively MHRD follows simple cohort method (Primary Cycle and upper primary cycle). Methodology adopted in both the methods are given below:

1. **Average annual Drop-out:** Drop outs are estimated / calculated across two consecutive years. That is for example numbers of children in 1 to 7 standards in 2010-11 minus number of children in 2-8 standards in 2011-12 divided by number of children in 1 to 7 standards in 2010-11. One hundred minus of this figure is drop-out Rate. Drop-out rates in state using this method are given in the table.
2. **Simple cohort method:** drop-out rate at elementary stage, 1 to 8 standards, is calculated by dividing number of children who completed 8th in 2010-11 minus number of children who joined I

standard in 2003-04 and divided by number of children who joined I standard in 203-04. One hundred minus of this figure is Drop-out rate. This method is adopted by the SES/ MHRD as a residue of grade completion.

Year	SES/MHRD	Annual Diff.	DISE/SSA	
			Primary	Upper Primary
2002-03	48.46	-	-	-
2005-06	44.83	-	-	-
2006-07	38.79	3.96	-	-
2007-08	33.89	5.10	-	-
2008-09	30.20	6.31	10.10	14.60
2009-10	25.86	5.66	5.80	9.30
2010-11	-	-	2.96	7.08
2011-12	-	-	1.19	4.35

Assumption : With the given trends, by beginning of 2012-13 drop-out rate as per MHRD method and estimate, is placed at around 8 percent.

Prediction:- Target for 2017 will, in all definiteness [not probability] be zero., either by MHRD of by state/SSA/DISE method. It will be Zero for both boys and girls.

Notes:-

- 1) Transition rates that cross the three digits figure (More than 100) from 5th to 6th standards may be possible because of inter-district exchange of population (school-going), especially in border areas.
- 2) Transition Rate in the state appreciated from 96.15 percent in 2010-11 to 96.88 in 2011-12.

- Note: - 1. Transition loss in state 7th to 8th has decreased from a figure of 4.23 percent in 2010-11 to 2.68 percent in 2011-12. In case of girls the decrease is from 5.18 to 2.96 percent.
2. Negative signs are due to marginal volume of inter-district migration of children.

Note:

1. When the enrolment of boys in 1st to 5th standards is compared with that of girls to examine Gender Parity, a ratio of 0.93 gets on surface. Likewise, this ratio, again, works out to be 0.93 for 6th to 8th standards. It is clear that the index of gender parity is more than 0.90. This is a welcome development, as compared with national level update. The Department is on the right path in reducing sex-wise disparities in enrolments, though there is a need for intensifying the efforts in future and arriving at a figure of unity after netting out sex-ratio effects in 6-14 age population.
2. A comparison of values of gender parity in enrolments in Govt. sector schools as against private unaided schools at both LPS and HPS state clearly reveals the phenomenon of son-preference for the household investments in choice of schooling in the state. It is uniformly observed across all the districts of the state, both LPS and HPS, that the differentials In gender parity between enrolments

in Govt. sector and private unaided sector varies across all the districts. Disparity is considerable in Yadgiri, Bidar, Raichur, Belgaum, Bijapur and Bellary Districts.

❖ Enrolments of SC/ST at Elementary Stage :-

- There are 54.15 lakh children who are studying in the lower primary stage of 1st to 5th standards. This stage included enrolments in 1st to 5th standards in 1st to 5th lower primary and 1st to 7th or 1st to 8th higher primary schools as well as 1st to 10th high schools or 1st to 12th higher primary schools. Like-wise, there are 20.75 lakh children in 6th & 7th standards, in the State. They may be distributed in HPS / HS or HSc schools.

It may be observed from Table 21 that there are 20.64 lakh children from the SC / ST categories among 74.90 lakh children in 1st to 7th standards in the State. Of them, 14.53 lakh are SC while 6.11 lakh are ST students. That is, the proportion of SC / ST children in 1st to 10th standards in the State is 27.56 percent.

- 20.64 lakh children from SC / ST categories are in 1st to 7th standards in the system of schooling in the State. An analysis of location of these 20.64 lakh children in the schools of the State by management reveals that 72.23 percent of SCs and 74.62 percent of STs in 1st to 7th standards are in schools run by the Department of Public Instruction. Proportion of SC / ST students in State and State supported schools that are schools run by Education Dept, by Department of Social Welfare, Local Self Government Institutions and Private Aided Institutions is 83.53 percent. SC / ST proportion in un-aided schools of the State at 1st to 7th standards is quite low as they cannot afford to pay fees charged by such institutions. Their total proportion is just 16.56 percent.

❖ Enrolments of SC / ST at High Schools Stage :-

- There are 26.07 lakh children (Table 21) in 8th, 9th & 10th standards in the State. 4.56 lakh SCs and 1.85 lakh STs are out of this total constituting 6.41 lakh children or 24.59 percent.
- Analysis of distribution of SCs and STs in high school stage by management reveals that 45.69 percent of SCs and 50.53 percent of STs are in high schools belonging to the Department of Education.

- All others include SC / ST / OBC / Muslims / Other Minority; that is except General Category students.
- 'Others' in Management includes Social Welfare + Local Bodies+ Others.
- Nearly 4 out of every 5 students in school education in the State, at the lower and higher primary stages who belong to SC/ST/OBC and Minorities Categories, are in schools across all managements. Out of them nearly 17 percent are in un-aided schools, while rest of the 83 percent is in Govt. and Govt. supported schools. However this proportion is reduced at the High School stage.

INFRASTRUCTURE FACILITIES

The Sarva Shiksha Abhiyan accorded special significance and weightage for the provision of infrastructure facilities to schools. School buildings, additional classrooms, maintenance and repairs of school buildings are included herein. 8 facilities are recognized as Basic Facilities for schools comprising of Common Toilets, Girls' Toilets, Electricity, Play Ground, Ramps, Library, Compound and Drinking water. A review of progress of schooling in the light of provision of infrastructure facilities to schools reveals that there has been notable improvements in enrolments of children, enrolment ratios, retention rates, student – classroom ratios, teacher-pupil ratios, transition rates and gender parity in enrolments. An update on provision of infrastructure facilities in the State is provided in this section.

❖ School Buildings

45200 out of a total of 59555 elementary schools in the State belong to the Department of Education. 98.05 percent of schools of the Department possess / own the buildings. Rent need not be paid to 0.83 percent of schools owned by the Department. Another 0.65 percent of schools are run in rented buildings. 0.06 percent of schools are run without any building facility. In 0.19 percent schools, the buildings are in dilapidated condition. Buildings are under construction in 0.05 percent cases (23 schools) while in 0.16 percent cases the schools are running in private buildings.

**Graph 12 (for Table 24)
Classification of Secondary Schools by type of ownership of buildings.**

The Department of Education runs 4437 high schools. 113 (2.55%) schools in this set do not have a building of their own. 3742 (84.34%) of schools possess the building while 12 (0.27%) percent of high schools are run in rented buildings. 442 (9.96%) percent of schools do not need to pay rent for the buildings in which they are functioning. They are rent-free. There are 2 (0.05%) schools whose buildings are under construction. They are run under transitory arrangements.

119 schools have reported that their buildings are not fit for use. There are 7 government schools which are run in private buildings.

The number of buildingless schools (own building) decreased from 121 in 2010-11 to 113 during 2011-12.

❖ **Classrooms :-**

There are 198914 classrooms in 45200 elementary schools of the Department of Education 69.73 percent of classrooms are in good condition. 18.86 percent of classrooms need minor repairs, while 11.41 percent of classrooms are waiting for major repairs. It is to be noted that the position regarding to classrooms which are in good condition has marginally improved from 68.04 percent in 2010-11 and that require minor repairs has slightly decreased from 20.78 percent in 2010-11. However the

percentage of classrooms which require major repairs has marginally increased from 11.18 percent during 2010-11 to 11.41 percent during 2011-12.

There are 20892 classrooms in 4437 high schools of the Department of Education. 67.47 percent of classrooms are in good state. 23.48 percent of classrooms need minor repairs while 9.06 percent of classrooms need major repairs.

Number of classrooms at the elementary stage of schools has increased from 198415 in 2010-11 to 198914 during 2011-12, an increase of 499 classrooms. This is good. However, number of classrooms in 4437 high schools of the State has increased from 20624 classrooms during 2010-11 to 20892 classrooms during 2011-12, an increase of 268 classrooms, 1.3 percent increase only. There were 1904 classrooms in high schools which needed major repairs during 2010-11 while this figure decreased 1892 classrooms during 2011-12.

❖ **8 Basic Facilities (as per MHRD specifications) :-**

Even though increasing attention is being given over the years to provision of basic facilities in schools, database on availability of basic facilities leaves much to be desired. The DISE data of 2011-12 informs us that there is no separate toilet for girls in 1.19 percent of elementary schools while 6.99 percent elementary schools do not have drinking water facility. Provision of Ramps in High Schools needs serious attention as the current provision is hardly in 38.18 percent of schools.

The 8 Basic facilities identified by MHRD are

- Common Toilet ; Girls Toilet ; Electricity ; Play Ground ; Ramps ; Compound ; Drinking Water ; Library

Pancha Soulabhya :-

The government of Karnataka identified 5 facilities, on top priorities as most essential for schools. Some of them are common to the 8 basic facilities identified by the MHRD. The five facilities are 1) Drinking Water 2) Common Toilets 3) Play Grounds and 4) Compound wall. The fifth one is school buildings. An update across all these facilities follows.

Notes:-

- 1) Sl. Nos. 1, 4, 7 and 8 are also included under the State Programme of Pancha Soulabhya.
- 2) There is an increase of facilities at both elementary and high school stages on all 08 components..
- 3) The fifth item in Pancha Soulabhya Programme of the State Government is provision of School Buildings. This has been discussed under the section on School Buildings.

Provision of Infrastructure facilities was given increased attention during 2011-12 both at the Elementary and High School stages. The overall provision went up from 79.69 percent in 2010-11 to 86.53 percent during 2011-12 at the Elementary stage while it went up from 63.26 percent during 2010-11 to 78.96 percent at the High School stage. There was a gain of 6.84 and 15.70 percentage points respectively at the

Elementary and High School stages, at the State level while 9 districts got hike of over 10 percent and beyond at the Elementary stage, 13 districts got a hike of over 10 percent at the High School stage (see tables 33 and 34). Considerable attention was received by the following facilities; construction of Girls Toilet, Ramps and Compound Wall at the Elementary stage: Electricity, Ramps and Drinking Water at the High School stage..

Note:

It is observed that SCR at the Lower Primary stage in elementary schools of the DOE are quite lower than that in other management schools. At Upper primary stage SCR is 24.51, which is also lower than the RTE norms. Aided Schools need attention in respect of RTE norm of 1:30 SCR. SCR in secondary schools is quite high in Government schools.

Method of Calculation and Interpretation of Indexes of Basic Facilities in Schools of the State in Tables 33 and 34

- 8 Basic Facilities (as identified by the MHRD) that need to be located in Elementary and High Schools are : Common Toilets, Girls' Toilets, Electricity, Playground, Drinking Water, Ramps,

Library and Compound Wall. One score is earmarked for each one of these facilities. A school having all the eight facilities shall get 8 scores. Otherwise, the school shall get as many scores as the number of facilities located in it.

- In this way, total scores obtained by each one of the schools of a district are summated and divided by the total number of schools in that district. The product of the division is the index of current availability of 8 basic facilities of the district.
- Assuming that all schools of the District have all the 8 Basic Facilities, the number of schools is multiplied by the digit 8. The product is an index of total availability.
- Index of current availability is divided by the (assumed) index of total availability and multiplied by 100. The product is an index of percentage of availability of 8 basic facilities.
- Tables **33 and 34** provide indicative information about the provision of 8 Basic Facilities across the schools of the state in the various districts. They are enabling in identification of districts which are lagging behind in availability of infrastructure facilities. This type of information would be quite useful in prioritization of resource allocations across districts under plan schemes as well as projects in cases of provision of infrastructure facilities. However, one has to go beyond statistics in taking district specific decisions in regard to the provision of specific types of infrastructure facilities and prioritize them within the districts.
- Performance of the State in regard to provision of 8 basic facilities at elementary and high school levels is recorded as 86.53 and 78.96 percent respectively.
- When the position in regard to provision of 8 basic facilities in the elementary schools is compared with that in the high schools, it is observed that districts which are quite good or quite low in provision of facilities at the elementary level need not also figure as such at the high school stage. There are exceptions of districts to the foregoing generalization. Exceptional districts are identified here.
- When the top 10 districts in provision of 8 basic facilities in the State at the elementary stage are juxtaposed with top 10 districts on the same counts at the high school stage, it is observed that only 04 districts appear in both the lists. These districts are Belgaum, Davanagere, Kodagu and Uttarakannada.
- District which are common in the lists of bottom ten districts in provision of infrastructure facilities at the elementary and high school stages are Chikkaballapura, Koppal, Raichur and Yadgiri.
- There are 04 districts in top 10 lists of elementary and high school stages as well as 4 districts in bottom 10 districts of similar lists in regard to provision of infrastructure facilities. The 4 districts which appear in bottom 10 tally of both the lists **need immediate special attention**.

Graph 16 (for Table 36)

Percentage of Teachers working at LPS/HPS/HS stages of schools of various Managements

Note: 52.23 percent of teachers working in the State therein including all levels of schooling belong to the Department of Education. If a tally is taken of only Elementary School level teachers this percentage goes up to 78.67. If a tally of proportion of teachers whose salary is paid by the government, that is Department of Education plus schools run by the Department of Social Welfare and Local Bodies along with private schools getting grant in aid are considered then, the proportion of teachers maintained by it is nearly 72 percent at the elementary level, and 57 percent at the High School level.

Teacher Pupil ratios for working teacher are in a satisfactory state in Government schools. This ratio is 23.09 at the elementary schools. Still variations in this ratio are observed across districts of the state, blocks within districts and schools within blocks. For instance, this ratio is 1: **35.96** in Yadgir district while it is 1 : 14.40 in Chikmagalur district. A process of rational deployment of teachers is in progress so as to set right such imbalances in teacher pupil ratios.

Notes:-

- Government needs to improve the position in regard to proportion of female teachers.
- Private Aided high schools, located mostly in urban areas, big villages and block head quarters appear to be friendly to male teachers. However, they appoint trained and qualified teachers, as per government stipulations.
- Private unaided schools located by and large in urban areas apart from big villages and block head quarters are quite friendly to women teachers. There is no update on the qualifications and training status of teachers of unaided schools. The RTE specifies appointment of qualified and trained teachers at elementary level and across all managements.

PROGRESS OF SCHOOL EDUCATION IN THE STATE

(From 2008 – 09 to 2011 – 12)

Following facts are revealed in a comparison of data of DISE 2009-10 with that of DISE 2011-12.

* Management wise enrolment in schools.

- Overall enrolments in the State and in the Department of Education have marginally decreased during the period 2006-07 to 2011-12 at 1st standard, at LPS 1 to 5 HPS 1 to 7/8 and 1 to 10 standards.
- Enrolments at 1st standard have marginally declined – overall in all management except in private unaided schools; the overall decline being a phenomenon of population declaration. There is a decrease of 70000 students during the reference period. The enrolment at 1st standard in the State is 11.20 lakhs and it is 5.94 lakhs in the Department of Education. Proportion of enrolments at 1st standard in the Department of Education is 55.50 percent of the total enrolments in the State.
- Enrolments in 1 to 5 lower primary schools have marginally decreased from 57.24 lakhs in 2006-07 to 54.18 lakhs in 2011-12.
- Enrolments in 1 to 7 higher primary schools have marginally decreased from 78.26 lakhs to 74.94 lakhs.
- Enrolments at the 8 to 10 high school stage have marginally decreased from 102.37 lakhs to 100.37 lakhs.
- Enrolments have declined at all stages in schools of the Department of Education.
- Enrolments at 6 to 8 standards have marginally appreciated at the Higher Primary Stage under all managements except at the Department of Education. There appears to be a marginal lateral shift from the schools of the Department of Education towards private unaided and aided schools.
- Proportion of children in 1 to 5 , 6 to 8, 1 to 7/8 and 1 to 10 stages in the schools of the Department of Education are 30.41,16.10,42.60,46.51 and 52.83 percent respectively. As a proportion of total enrolments at these stages in the State. The respective percentages are 56.12, 53.54, 56.85, 55.20 and 52.30.
- It is observed that there is an increase from 20010-11 to 2011-12. However much insignificant of enrolment in the stage of I. 1 to 5, 1 to 7, 6 to 8, 1 to 8 and 1 to 10 stages. The increase is uniformly observed in private unaided schools while there is a uniform decrease in schools of the DOE.

Notes :-

- There is a net decrease of 2 lakh students during the period 2006-07 to 2011-12, a Six year count. Decrease in Department of Education is 10.48 lakhs of which 1.5 lakh may be discounted due to demographic changes. In case of rest of the 8.9 lakh children, there may be a lateral shift to the private sector schools. In effect, there is an overall shift of over 8 percent in six years, from Government schools, at an average rate of 1.33 percent per year.
- Looking at the overall trend across the country and in neighbouring States like Kerala and Andhra Pradesh, the lateral shift from Government schools in Karnataka State, is an insignificant phenomenon. Schools of the Department of Education have been improving over the years. They have, by and large, held on to their holding potential.

GENDER PARITY IN ENROLMENTS IN SCHOOLS OF THE STATE

- When Gender Parity differentials between 2006-07 and 2011 -12 across all levels / stages of schooling in the State are compared, it is observed that the Gender Parity indicator has increased in DOE between the four years 2008-09 and 2011-12 as the parity figures are 49.61 and 50.18 for the two reference years respectively.
- Gender Parity has increased in the private unaided schools at all stages and marginally in private aided schools.

Notes :-

- Gender-parity has crossed 50 percent within the Department of Education as reflected in enrolments at I, 1 to 5, 6 to 8, 1 to 7, 1 to 8 and 1 to 10 standards. It is uniformly impressive.
- Gender-Parity is lowest in private unaided schools on all counts.
- Minus sign indicates decrease across the two reference years 2010-11 and 2011-12 while positive sign indicates Increase.

Notes:-

1. There is a decline everywhere. Hence, Minus sign is not used for the values.
2. There have been steady decline in enrolments in the State over the years 2006-07 to 2011-12, a six year count. This is true at 1 to 10, 1 to 7/8, 1to 5 stages and at 1st Standard. However it is at 1st slandered that the proportion of decline is quite high for girls than for boys. Decrease for girls as 1 to 10 stage is lower than that for boys, while it is not so as other stage. This is because of a low base of girls enrolment in 2006-07

Note: - Number of schools have increased in the State steadily over the years from 2006-07 to 2011-12. As of 2011-12 there are 73419 schools across LPS / HPS / High Schools of all managements. 55539 schools are under management of Department of Education as well as private aided managements. It is only at the LPS stage that there is a virtual decrease in number of schools. This may be because the LPS get upgraded into HPS. In exceptional cases LPS schools have been merged with large size schools because of less than 10 students in 1 to 5 standards due to demographic changes in certain remote habitations. This is a miniscule phenomenon.

- The private unaided schools have experienced a increase at the HPS & high school stage, while quite a number of HS private unaided schools were brought under grant-in-aid during 2009-10.
- Overall the gain in number of schools inclusive of all schools is 3.83 percent 15.00 percent and 28.33 percent respectively across DoE, Aided and Unaided managements.

Notes:- There is an increase of 499 classrooms at the elementary level and 340 classrooms at the high school level in the State. In spite of this increase, there are a few districts where the number of classrooms has reduced during the year 2011-12 as compared to that in 2009-10. This is because of carried over classrooms in dilapidated condition which were ultimately declared unfit for use and decrease in enrolment.
