## FOREWORD

The present publication entitled "Basic Statistics of the North Eastern Region 1989" is the Eighth of its kind brought out by the North Eastern Council Secretariat in the series of Statistical Hand-Books. The aim of this publication is precisely to present information in respect of various aspects of economy of the region in proper perspective as also in simple and specific form besides bringing into focus relevant data on various sectors of socio-cultural and socio-economic life of the people of the North Eastern Region.

Since no population census in Assam could be held in 1981, the data relating to population and related characteristics have been incorporated in the publication on the basis of the estimates worked out by the office of the Census Commissioner and the Registrar General of India, to ensure an overall picture of the North Eastern Region and its various socio-economic dimensions.

I express my sincere thanks and sense of gratitude to various Central and State organisations and other agencies for their valuable help and co-operation in making available the required information for preparation of this issue of the publication. In the present volume efforts have been made to make it more useful and comprehensive in regard to quality contents and coverage.

I appreciate the efforts put in by S/Shri J. Dutta, Research Officer, H. Kotoky, Sr. Investigator under the guidance and supervision of Dr. A.K. Yogi, Director (Evaluation and Monitoring), North Eastern Council in the preparation of this publication.

I hope this publication will be useful in general and in particular to those who are concerned with Planning and Development activities in the North Eastern Region. Suggestions for improving the publication further are welcome.

\*\* Net availability = Col. (3 + 4 - 5).

- Notes:—1. Population figures from 1971 to 1980 are based on the latest projections made by the Office of the Registrar General of India. Estimates from 1981 onwards are based on the Expert Committee's population projections as approved by the Planning Commission.
2. Production figures relate to agricultural year July-June; 1951 figures correspond to the production of 1950-51 and so on for subsequent years.
3. Net production has been taken as 87.5% of the gross production, 12.5% being provided for feed, seed requirements and wastage.
4. Figures in respect of change in stocks with traders and producers are not known. The estimates of net availability above should not, therefore, be taken to be strictly equivalent to consumption.
5. Per capita net availability for 1988 has been calculated taking into consideration the figures of the net imports and change in stocks as on 1.12.1988.
6. The figures of net imports from 1981 onwards are based on imports and exports on Government of India account only.

- (ii) taking over certain non-scheduled Banks by the State Bank of India and other scheduled banks.

Note.— The increase in the number of offices in Rural Centres represents the difference between the number of offices at such centres as on 30th June, 1969 (classified on the basis of 1961 Census) and the number of offices at Rural Centres as on 30th June, 1988 (classified on the basis of 1981 Census).
