PREFACE

Constitutional Mandate 1950 states, "The state shall endeavour to provide, within a period of ten years from the commencement of this constitution for free and compulsory education to all children until they complete the age of 14 years."

Article 45 of Indian constitution envisages for free & Compulsory education to all children upto age 14.

National Policy of Education, 1986 reads . It shall be ensured that free and compulsory education of satisfactory quality in provided to all children upto 14 years of age before we enter the twenty first century.

Unnikrishnan Judgement 1993 provides "Every child/citizen of this country has a right to free education until he completes the age of fourteen years. Real changes in Indian education have occurred after the Jomtien Meet. After Jomtien conference in 1990 India committed seriously towards realization of Education for all EFA by the year 2000. Our country India initiated special efforts towards reaching the EFA goals by 2010.

A bill to amend the constitution and to make education a fundamental right was introduced in the Rajya Sabha (upper house of Parliament) in 1997.

The Sarva Shiksha Abhiyan is an historic stride towards achieving the long cherished goal of Universalisation of Elementary Education UEE through a time bound integrated approach in partnership with state. SSA which provides to change the colour of the elementary education sector of the country, aims to provide useful and quality elementary education to all children in the 6-14 age group by 2010.

The SSA is an effort to recognize the need for improving the performance of the school system by overhauling and to provide community involved, owned quality elementary education in mission mode. It also envisages bridging of gender & social gaps.

SSA aims at :

- All children in school, Education guarantee centre, Alternative school, Back to school camp by 2003.
- All children complete eight years of primary schooling by 2007.
- All children complete eight years of schooling by 2010.
- Focus on elementary education of satisfactory quality with emphasis on education for life.
- Bridge all gender and social category gaps at primary stage by 2007 and at elementary level by 2010.
- Universal retention by 2010.

SSA is based on Institutional Reform, Sustainable Financing, Community ownership, Institutional Capacity Building, Improving Mainstream Educational Administration, Community based Monitoring, Accountability to community, Education of Girls, Focus on special groups, Thrust on Quality etc.

The components of Sarva Sikshya Abhiyan includes appointment of teachers, teacher training, qualitative improvement of elementary education, provision of teaching learning materials, establishment of Block & Cluster Resource centres for academic support, construction of class rooms & school buildings, establishment of Education Guarantee centres, integrated education of the disabled and distance education.

The District plan aims at ameliorating bottlenecks in the existing system & to achieve universalisation of elementary education with quality improvement by 2010.

PLAN OVERVIEW

Targets on Key Performance Indicators of UEE

-  Access
-  Enrolment
-  Retention
-  Quality

SSA – BALASORE

Plan Overview

Basic Strategies

- ☆ Active community involvement to change the existing system.
- ☆ School as a place to protect child's right.
- ☆ Planning for special Focus Groups S.C, S.T., Child labours & disabled, Children of slums & migrating children.
- ☆ Emphasis on teacher empowerment and capacity building.
- ☆ Importance on 100% retention and 100% transition from primary to Upper Primary stage.

1. The district plan of SSA is based on following aspects :

A) Access

- ☆ Improving access by way of opening 83 new Primary Schools
- ☆ Improving access by way of upgradation of 27 No. of existing Primary Schools to Upper Primary Schools.
- ☆ Enhancing access by gradation of EGS Centres to primary schools.
- ☆ Increasing access for Providing IED in selected existing Primary and UP Schools
- ☆ Opening of No.s of 989 EGS and AIE centres for out of school and unenrolled children.

B) Enrolment

- ☆ Community mobilization and awareness campaigns
- ☆ Enrolment drive and ensuring cent percent admission of 5+ students by 2006.
- ☆ Hamlet and slumwise programme for child tracking and conduct of residential and Non-residential bridge courses for the out of school children.
- ☆ Special attention towards ECCE i.e., AWC and NCLP etc and mainstreaming the out of school children

C) Retention

- ☆ 100% retention of 5 – 14 years children by 2006.
- ☆ Target of achieving 90% by 2002, 93% by 2003, 95% by 2004, 97% by 2005 and 100% by 2006
- ☆ Active and continuous monitoring by community.
- ☆ Continuous monitoring by the department

- ☆ Discouraging and checking repetitions.
- ☆ Monitoring of regular attendance by BRPs
- ☆ Regular follow-up of mainstreamed child labour.

D) Quality

- ☆ Orientation of Teachers on active involvement and motivation.
- ☆ Organisation of professional exchange programmes.
- ☆ Development of Strong State and District Region groups in Pedagogy and orientation to existing, newly recruited and untrained teachers.
- ☆ Regular on job support to the teachers of Primary and Upper Primary schools through BRC, DRG and CRC's.
- ☆ Appointment of required no. of teachers in accordance with T.P ratio to 1:40, Providing extensive teachers Training, capacity building of BRC, BRPs DRG and Head masters and teachers.
- ☆ Establishment of 12 BRC's, 204 no. of CRC's and one DRC.
- ☆ TLM grants to ~~16~~ 1560 primary schools, 871 Upper Primary Schools, 5010 of Primary teachers and 3003 of Upper Primary teachers and 204 nos. of CRC's.
- ☆ Review of curriculum and Text books and Preparation of group specific curriculum i.e., teaching through regional language – Alchiki.
- ☆ Conduct of student attainment study to assess their status at Primary and Upper Primary level.
- ☆ Special training Program on subject specific areas i.e., Language, Science and math, Evs etc.
- ☆ Provision of library books to Primary and Upper Primary schools.
- ☆ Special attention to Non – scholastic areas such as SUPW, art edn., Physical, Health edn and Moral education.
- ☆ Introduction of Computer Education in 10 Upper Primary schools of each block.

2. Other aspects covered in the plan

A) Infrastructural facilities.

- ☆ Construction of 83 no.s of new school buildings.
- ☆ Construction of 145 no.s of building to building less school.
- ☆ Construction of 1505 nos. of additional classrooms of Primary schools & 838 no.s of additional classroom of Upper Primary schools.
- ☆ Construction of 12 BRC buildings and 204 nos of CRC's buildings.
- ☆ Construction of MIS room in DRC.
- ☆ Repairs of 142 No.s of school.

- ☆ Construction of 1891 no. of Toilets.
- ☆ Electricity connection 1027 nos. of schools, 12 Nos. of BRC buildings, 204 Nos. of CRC building & one MIS room
- ☆ Providing drinking water facilities to 772 nos. of schools.
- ☆ Providing furniture & other equipments to 12 BRC, 204 CRC

B) Teachers

- ☆ Appointment of 1565 No.s of Primary teachers.
- ☆ Appointment of 989 Nos. of E.V. to EGS Centres.
- ☆ Appointment of 99 Nos. of EGS supervisors.

C) Teacher's Training

- ☆ Constitution of DRG, and BRG in various content areas with capacity building on regular basis.
- ☆ 20 days training to 6477 No.s of existing teachers of Primary schools & UP Schools.
- ☆ 30 days training to 641 No.s of newly appointed Upper Primary teachers & P.T. Teachers.
- ☆ 30 days training Programmes for EGS/AIE volunteers.
- ☆ Training to child labour schools, Bridge course camps.
- * 60 days training to Untrained 227 No. of Teachers.

- ❖ The District Plan aims at strengthening Professional resource centres at BRC and CRC level – it also insists Capacity building of DIET.
- ❖ It Provides networking with teachers, groups, NGOs and other professional organisations.

6. Emphasis on Focussed Group

- ❖ Girls Education, Education for SC and ST, Disabled, Early Childhood Education, Child labour, migrant children are vital Focussed groups for which special care and strategies are incorporated in the plan.

BUDGET SUMMARY

Summary Statement

-  **Management Cost**
-  **Civil Work**
-  **Quality Improvement**

BUDGET SUMMARY

A Budget and Estimate on Sarva Sikshya Abhiyan of Balasore district is prepared to which reflects expenditure on three interventions :

- 1) Management Cost
- 2) Civil Work
- 3) Quality Improvement

1) Management Cost

Management cost is estimated in two phases

- a) One Year Budget in Lakh from
September 2002 to March 2003 - Rs. 30.52
- b) 2003-1010 - Rs. 665.613
- c) Total Mange cost from 2002-2010 - Rs. 696.133

2) Civil Work

- It is estimated from 2002-2003 - Rs. 253.3 lakhs
 2002 – 2010 - Rs. 552.3 lakhs
 and Total 2001 – 2010 - Rs. 5805.6 lakhs

3) Quality Improvement Cost

For expenditure in quality improvement it costs

- For September 2002 to March 2003 - 468.5216 lakhs
 2003 to 2010 - 10273.3335 lakhs
 Total 2002 – 2010 - 10741.8551 lakhs

Which is shown in the following table

Summary Statement showing the expenditure of major interventions from 2002-2010 in lakhs.

Table No- A

Name of Intervention	Expenditure Sept'02 to March '03	Expenditure 2003 – 2010	Total Expenditure 2002-2010

CHAPTER- I

DISTRICT PROFILE

INTRODUCTION :

Balasore is a magnificent coastal district in the north end of Orissa. It is a renowned district famous for its ancient glory and pioneer in the field of art, culture, education and literature.

The name Balasore has been derived from 'Bal Iswar'. As stated by the people Balasore, it was named after "Bali Sahar" where British took over its administration during first part of eighteenth century. The Britishers used Balasore as the Gate way of Orissa through Pipili port on the Bay of Bengal during seventeenth century A.D.

History and Geography of Balasore district have made it unique from ancient to modern age. The district stands on 21°E - 22°E east longitude and 87°N - 88°N North latitude covering 3806 square Km area. The district touches West Bengal in North, Mayurbhanj and keonjhar in the west, Bhadrak in the south and Bay of Bengal in the east.

GEOGRAPHICAL FEATURES :

Geography of Balasore District has made it beautiful, outstanding and enchanting. The east side of the district is enriched with long sea coast which extends from Dhamara to Chandaneswar. Rivers like Subarnarekha, Budhabalanga and Kansa Bansa etc. flow through the district to Bay of Bengal. Most part of the district are plane lands while some hilly areas are found in the Blocks of Nilgiri, Oupada, Soro and Khaira. Soil of most parts of the district are muddy and fertile.

FOREST :

The district has total forest area covering 10779 sqkm. Major forest areas are in Nilgiri, Oupada and Khaira blocks. Sal and Piasal are the major forest plants. The forests are adorned with their flora and fauna.

MINERALS :

Sources of minerals of the district includes granite stone of Nilgiri and lateral stone of Kupari.

AGRICULTURE :

Above 80% of the people of the district depend upon agriculture. The major agricultural products are paddy, betel, and fish. The district is famous for "Dhana", "Pana" and "Mina". Other agricultural products are cocoanut, Cashewnut, ground nut, mat, vegetables and prawn etc.

INDUSTRY :

The district is enriched with a number of industries. Birla Tyres, Indane gas, Ispat Alloys, Polar Latex, Oriplast, Oricape, Emami Paper Mills are the major industries. Coir, mat, snail, cereculture etc. are among cottage industries.

TRANSPORTATION AND COMMUNICATION :

N.H.5 -Passes across the district. The railway (South eastern) links from Howrah to Chennai, also passes through the district. Most of the villages, GP Headquarters, and towns are linked with G.P. , RD & PWD roads respectively. A number of villages are yet to be linked with rural connectivity. Most of the villages have telecommunication facility.

N.H. 60 passes from Balasore to Kharagpur through Jaleswar.

RAIN FALL & CLIMATE :

Heavy rainfall is marked in the district from the month of June to Sept. Total rainfall through out the year amounts to 2,232.3mm (as per 1997 report).

Max. Temperature in the month of may goes upto 43% C & minimum marked in the month of Jan. i.e. 10.6c (as per 1997 report)

LANGUAGE :

Oriya is the major spoken language in the district. Urdu and Bengali are also spoken by Muslims & Bengalis. Santali is spoken by tribals of Nilgiri, Oupada and Kupari region.

TOURIST SPOTS :

The sea shore of Chandipur near Balasore and the seashore of Udaypur near Digha attracts thousands of tourists from different parts of the country.

Bhusandeswar, the greatest Siva Linga in Asia, of about 13' high and 37' circumference under Bhograi Block amazes the visitors.

Chandaneswar, the famous Siva Temple attracts thousands of devotees during chadak mela in the month of April, every year.

Khirachora Gopinath at Remuna where Lord Krishna had stolen milk (khira) (the legend says thus) attracts the visitors from all parts of India. This temple was built as a mark of victory by Narasingdev., king of Orissa who defeated Tughril Khan of Bengal in 1245 AD the battle of Katasin.

"Pancha Lingeswar" of Nilgiri Block, a visiting spot where five Siva Lingas are under stream water flowing from the hill. Legend says it was the southern most gate

of king Jarasandha, the famous king of Magadha & the father-in-law of Kansa, where Siva stood as watchman at the gate.

Ambika temple of Kupari is famous for goddess Durga.

Interim Test Range at Chandipur has occupied an important place in International Defence field. Missiles like Agni, Pruthi, & Nag are tested successfully which brings glory to our National defence. Raibania fort under Jaleswar Block where King Birat was ruling in the past and it is known as "BIRAT GADA"

LIVELIHOOD :

About 80% people of the district live on agriculture. Fishing in the sea is also another means of livelihood. Cottage Industries help a lot to the people of this district. Each family of Makidia, a village under Jaleswar block weaves beautiful "MATHAS" and sale it in National markets.

Sizable number of people work at brick factories on the bank of river Subarnarekha, Budhabalanga, and in the area of Amarda, Laxmannath, Remuna and Balasore.

Breaking of stone is a way of livelihood for people of Nilgiri.

RELIGION :

Hindus, Muslims, and Christians live side by side in the district. 90% of population belongs to Hinduism. Muslims live in some patches of the district. Christians are in notable number in urban areas of Balasore. "Satyapira" (God of Muslims) is also worshipped by Hindus.

FESTIVALS :

Dasahara, Diwali, Makar Sankranti, Sivaratri, Holi Chandan yatra, Raja Sankranti Moharrum, ID and X-Mas are observed with much pomp and ceremony

LITERATURE :

The district is pioneer in the field of literature, art, and culture. Dinakrushna, Fakirmohan, Radhanath are laurels of the soil who contributed a lot to the Oriya literature. Fakirmohan, the father of oriya short story, made the oriya language alive by his writings.

Sri Manmath Das, Manoj Das, Braja Rath and Jadunath Das Mohapatra are also notable writers while Baghajatin is remembered for noted freedom fighter. Nanda Kishor Das, the first speaker of Orissa Assembly was from this district.

ADMINISTRATIVE SET UP/ STRUCTURE :

The district of Balasore is divided into two subdivisions, eight Tahasils, Twelve CD Blocks, one Municipality & three NAC. It has 289 Gram panchayats i.e villages out of which are habitated. The details are shown in Table - 1 1

DEMOGRAPHY :

The district is thickly populated . The comparative figures of total population, SC, ST, population by sex and their percentage to total population of the district from 1981 to 2001 census are stated below in Table -1.2(A) and 1.2(B)

LITERACY :

Literacy rate of the district is 70.94%. It differs from Block to Block and in urban areas it is comparatively higher. In tribal areas of Nilgiri, Oupada, and Bastá the education of the people is lower. Literacy rate is highest in Bahanaga and lowest in

Nilgiri Block. ST Literacy is highest in Baliapal and lowest in Soro Block. In Urban areas Balasore Municipality is highest & the Nilgiri NAC is the lowest.

In the Muslim habited villages of Bhograi, Basta, Balasore, Jaleswar, Soro rate of education of the people is low. However to make the people literate (age group 15-35) Total Literacy campaign was launched in the year 1990 in all blocks of the district by Vyasakabi.

Sakharata samiti, Balasore and a tremendous success has been achieved. Now Post literacy programme is going on in the district since April -2001. The detailed break-up are stated below in Table 1.2(A)

WOMEN EDUCATION :

The education of woman affects the socio economic status of a particular area. The society having higher literate woman is more developed.

The woman population of Balasore district is 9,85,118 out of total population .

The woman literacy in the district is 59.57 as per 2001 census. The uneducated woman of poor families most of the times remain engaged in various works to earn their livelihood. Tribal woman in Oupada, Nilgiri, Basta & Khaira blocks collect forest products and maintain their livelihood. The percentage of educated women in Bhograi, Baliapal, Sadar Balasore, & Jaleswar Block is comparatively higher than the other blocks of the district . The veil system is prevalent in Muslim family in coastal area the woman of poor family engage themselves in collecting eggs of prawn from sea and river with their children. In urban areas the socio economic status of the women is better. They are educated and some of them serve in public and private sectors.

Highest Population i.e., 2,68,011 lies in Bhogarai Block , Lowest Population i.e., 71,964 lies in Oupada Block.
 Highest SC Population i.e., 53,235 lies in Sadar Block, Lowest SC Population i.e., 12,642 lies in Nilgiri Block
 Highest ST Population i.e., 60,591 lies in Nilgiri Block, Lowest ST Population i.e., 4,438 lies in Simulia Block.

TABLE - 1.2 c

SEX RATIO (BALASORE DISTRICT)

Sl. No.	State/ District	1901	1911	1921	1931	1941	1951	1961	1971	1981	1991	2001
1.	ORISSA	1037	1056	1086	1067	1053	1024	1004	988	981	971	972
2.	Balasore	1065	1087	1098	1058	1024	952	956	965	965	955	949

Source :- Census - 2001 (Part I)

→ Sex Ratio : The number female for 1000 male is called Sex ratio. The sex ratio of Balasore district is highest i.e., 1098 in the year 1927 and lowest i.e., 949 in the year 2001. The trend represents decreasing sex ratio in the district.

TABLE - 1
POPULATION DENSITY

Sl. No.	State/Dist.	Population Density		
		1991	2001	In Density 1991-01
1.	Orissa	203	236	33
2.	Balasore	446	532	86

Source:- Census 2001 (Part-I)

→ The density of Population(Per Sq. Kms) of Balasore Dist was 446 in the Year 1991 which increased to 532 in the year 2001. The increasing rate is 19.73% comparing to 1991 & 2001 Census.

PERCENTAGE OF DECADAL VARIATION

Table - 1.2

Sl. No.	State/ District	1901- 11	1911-21	1921-31	1931-41	1941-51	1951-61	1961-71	1971-81	1981-91	1991-2001
1	ORISSA	+ 10.44	-1.94	+11.94	+10.22	+6.38	+19.82	+25.5	+20.17	+20.06	+15.94
2.	Balasore	-1.39	-6.99	+1.29	+4.68	-0.25	+27.38	+30.05	+24.42	+24.96	+19.24

Source - 1) Survey Hand Book - 1997

2) Census - 2001 (Part - I)

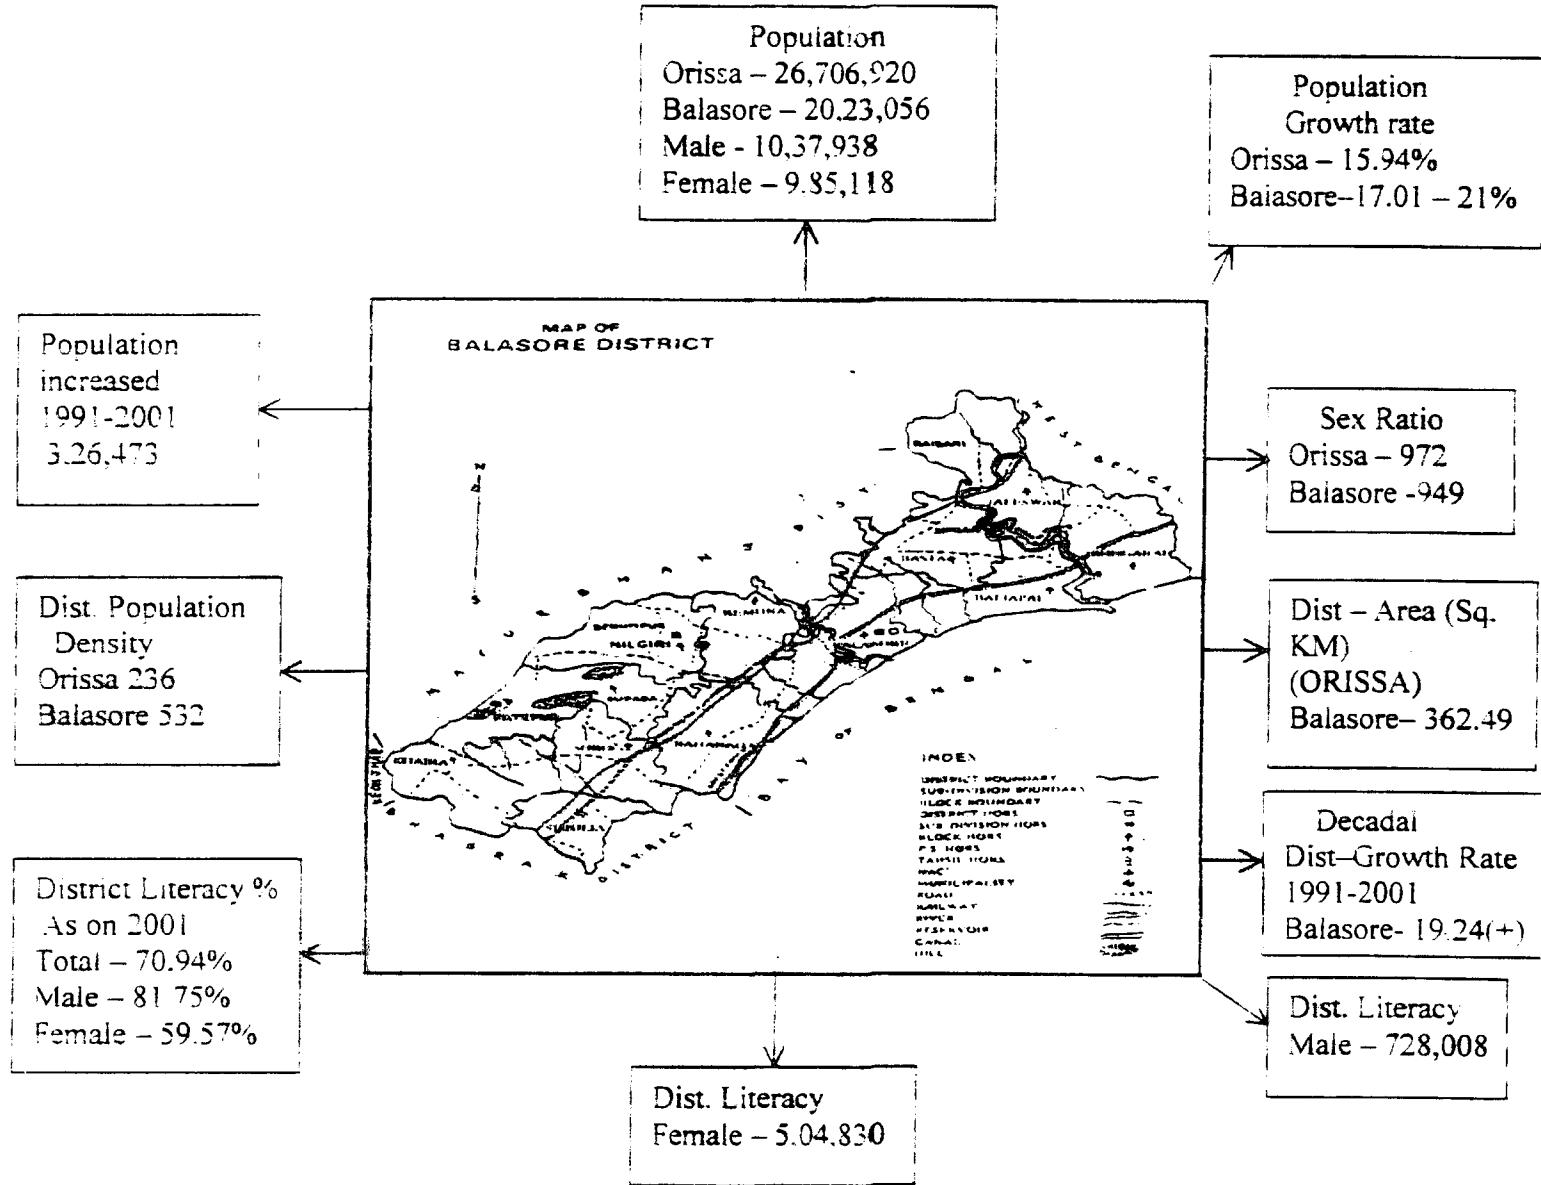

→ The above table reflects that Balasore district faces a decrease in trend in decadal growth rate of population growth rate from 1901 to 1921. Subsequent two decades i.e., 1921 to 1941 shows an increasing trend. Again the district population decadal growth rate decreased by 0.25% for the decade 1941 to 1951. It is noticed that from the year 1951 onwards an increasing trend till the year 2001. All these five decades represents variation in growth rate.

- The Male Literacy rate is highest i.e., 88.78 in Bahanaga Block and lowest i.e., 65.28 in Nilgiri Block.
- Female Literacy rate is highest i.e., 65.55 in Bahanaga Block and lowest i.e., 41.73 in Nilgiri Block.
- Male Literacy rate of SC Community is highest i.e., 72.18 in Bahanaga Block and lowest i.e., 55.50 in Balasore Sadar Block.
- Female Literacy rate of SC Community is highest i.e., 37.01 in Bahanaga Block and lowest i.e., 27.74 in Balasore Sadar Block.
- The Male Literacy rate of ST Community is highest i.e., 44.58 in Bahapai Block and Lowest i.e., 21.79 in Remuna Block.
- The Female Literacy rate of ST Community is highest i.e., 13.09 in Nilgiri Block and Lowest i.e., 3.82 in Soro Block.

TABLE - 1.3.c Graphical Expression of Caste and Sex wise literacy rate of Balasore District (Block / ULB wise)

In rural areas the literacy rate is highest in Bahanaga Block i.e., 77.22 and Lowest in Nilgiri Block i.e., 53.98.
 In Urban areas the Literacy rate is highest in Balasore Municipality i.e., 89.64 and Lowest in Nilgiri NAC i.e., 73.17

(52)

INTER BLOCK DISPARITIES :

Balasore District consists of 12 Blocks, Balasore being the Head quarters of the district. Northern six blocks like Balasore Sadar, Remuna, Basta, Baliapal, Jaleswar and Bhogarai are well developed than southern six blocks like Nilgiri, Oupada, Bahanaga, Soro, Simulia and Khaira

Bhograi Block, the thickly populated and biggest block has its own peculiarity. More than 50% of its population reside on sandy areas with sand hills and rest on muddy with flood devastated areas. The population of Simulia Block is lowest and the population of Bhogarai Block is highest. The Block wise details on population has been shown in the **Table – 1.4**

The socio economic status of Northern Balasore blocks are comparatively better than southern blocks.

The impact of missionaries like Christians have spread their arms in the areas like Hatigarh under Jaleswar Block and Balasore Municipality

In the field of agriculture, sadar Balasore, Basta, Baliapal, Jaleswar are highly productive for betel, cocoanut, paddy and fishery

Nilgiri, Oupada and Khaira Blocks being the tribal and hilly area and Simulia the highly flood affected area their production is not adequate which brings the hindrance in socioeconomic status of the people. The percent of literacy in Bhogarai block is highest and Nilgiri is lowest

FAMILIES UNDER BPL :

The district has 289 GPs and 3669 habitations with 340367 house holds in Rural areas and %of BPL families inRural areas is highest in Khaira Block and lowest in Bahanaga Block.

In Urban areas %of BPL families is highest in Nilgiri NAC and lowest in Soro NAC.

The Details of BPL Families are shown Table 1.4

CONSTRAINTS :

The major constraints for development of the district are -

1. Poverty of people.
2. Lack of awareness among people.
3. Lack of proper Communication facility to extreme rural areas.
4. Inadequate investment in the field of education , agriculture, Health, irrigation communication and afforestation etc.
5. Language stands as barrier in tribal area like Nilgiri/Oupada Block.

14.	Jaleswar NAC	--	--	--	--	--	--	4,136	2,526	61 %
15.	Nilgiri NAC	--	--	--	--	--	--	3,443	2,488	72 %
16.	Soro NAC	--	--	--	--	--	--	3,713	1,860	50.9 %
	Total	--	--	--	--	--	--	27,552	16,572	60.14 %
	Grand Total	260	29	289	3037	632	3679	3,67,919	2,39,681	65.14 %

The percentage of BPL families in Rural areas is Highest i.e., 90% in Khaira Block and Lowest i.e., 42.59% in Bhanaga Block. In Urban areas the percentage of BPL families is Highest i.e., 72% in Nilgiri NAC and Lowest i.e., 50.9% in Soro NAC.

CHAPTER - II

DISTRICT EDUCATIONAL PROFILE

CHAPTER – II

2.1 District Educational Profile

Education and society are two sides of a coin. The relationship of the two is so closed and deep that the existence of one can not be felt without the other. With the advancement of time the Education of the district has been developed to a mark. A number of factors are influencing in the field of education like poor socio-economic status of the district.

Long years ago primary education to the students was imparted under the tree or in the veranda of headman (Mukhia) of the village. They were known as “CHATASALAS”. “ABADHAN” the master of chatasala was all in all and administering in the field of education. Guardians were sharing the remuneration of ABADHAN.

Before the advent of Britishers, primary education was not well organised. Balasore came under the control of Britishers in 1803 to 1836, there were skirmishes between the people of Balasore and British administration. After 1836 vernacular schools were established at Soro, Anantpur, Balasore, Jaleswar and Balikhand under Simulia Block. Those schools were under the control of Deputy Inspector of schools. Time passed on, some vernacular schools were upgraded to Middle English School. For development of Secondary Education, Balasore Zilla School was established and in 19th century, number of High Schools were increased.

After Independence during 1955 to 1960 special finance allocation for primary school gave birth to present set up of primary schools. Till 1961 the Primary Education of the district was under the control of District Board and from 20.01.1961 till date. The District Inspector of Schools became the sole authority of Primary Education Primary and U.P. Schools were established by the wealthy and worthy persons of the locality and by the Govt. took interest and steps for development of the locality.

For education of out of school children and adults Total Literacy Campaign (TLC) has been launched from 1990 under Vyasakabi Saksharata Samiti, Balasore. It brought a spectacular achievement in literacy of the district. After completion of TLC, Post Literacy Program (PLP) has been launched and continuing through out the district since April 2001.

Other schemes like Operation of Black Board (OBB), Special Orientation for Primary Teachers (SOPT) have been conducted in the district for pedagogical development of primary education.

In the field of Secondary Education, a number of High Schools both (boys and girls) have been established in the district. In case of Higher Education large number of colleges (men and women) as well as coeducation colleges have been established. Law colleges, Engineering Schools & Colleges and Vocational Colleges, ITIs are functioning in this district. Fakir Mohan University is established in the district in the year 1998.

The detailed programme of the District, the habitation, the school, the teachers, the students and the subsequent development of education in the shore of time have been reflected in the table given below

The District has 1560 Govt. Primary schools 57 Private managed Primary schools 761 Govt UP schools 342 private managed UP schools in the Elementary Wing. In Secondary Wing 256 Govt. High schools 253 Unaided Unrecognised in private sector. 42 colleges 7 Sanskrit colleges 1 law college 5 Teachers Training Institute (TTI) and 3 Technical Institute, 1 Agriculture Research Centre and 1 University are reflected in the **table 2.1**.

2.2 Access

92.98% of the Child population in the age group 6 to 11 in the District possess access to primary schooling facility within a walking distance of 3 KM. About 83.03% of Child population of age group (11-14) have an Upper primary school or Upper Primary section in High Schools within a distance of 4 KM.

Child Population of the District below 14 Years

a) General Category

Child Population of age group 0-3 years is highest i.e., 12,998 in Bhogarai Block and lowest i.e., 2,804 in Nilagiri Block.

In the age group 3-5 Years and 6-11 Years and 11-14 Years the child population in Bhogarai Block is highest and in Nilagiri Block is the Lowest. Shown in the Table 2.2 (A)

Source = Inspector of Schools Balasore .

Balasore Dist. has 12 Govt. HS 221 T.O. H.S. 3 TRW. HS 33 Private Colleges 6

Sanskrit Colleges 1 Trg College 4. Law College - 1, KV - 1, University - 1, whose Block wise distribution has been shown in Table 2.1(B)

GRAPHICAL EXPRESSION OF PRIMARY AND UPPER PRIMARY SCHOOLS OF BALASORE DISTRICT

Bhograi is the Highest and Oupada is the lowest Block both in Primary and Upper Primary Schools.

b) SC category

In SC category the child population of age group 0-3 Years and 3-5 Years is highest in Baliapal Block and lowest in Oupada Block.

The child population of age group 6-11 and 11-14 is highest in Balasore Sadar and lowest in Nilagiri Block is shown in the Table 2.2 (B)

c) ST Category

The Child Population of ST Group in the Dist. of age group 0-3 Year is 16,788, 3-5 Years is 14,528 and 6-11 Years of age is 29693 and 11-14 Years is 16,472. The details of which is reflected in Table 2.2 (c).

d) Disabled Category

The total child population of the disables of age group 0-3 is 1874, 3-5 is 2106, 6-11 Years is 2434, and 11-14 Years is 2025. The Block wise and Sex wise Distribution of Disables has been reflected in the Table 2.2 (D).

2.3 Enrolment

Child Population of the District between age group 6-14 is 4,25,144 and among them 79,266 are out of school by 2001. The target is that the overall literacy in the Dist. must be 90% and there will be no child labour by 2005. 88,659 children of age group 3-5 have been enrolled in the AW Centres, 2,27,249 of age group 6-11 in Primary schools 1,18,529 of age group 11-14 years in Upper primary Schools. The Block wise details is shown in Table 2.3. The Enrolment of General, SC & ST category is given separately.

a) General category

In the District 14,808 Boys 12,625 Girls of General category have been enrolled in different types of schools. The details has been given in Table 2.3 A).

b) SC Category

Out of total child population of SC Group children 40176 Boys and 37,194 Girls have been enrolled in different schools. The Table 2.3 (B) Reflects the Details

(H)81

c) ST Category

19,548 Girls and 21,697 Boys of ST Category have been enrolled in schools. Table 2.3 (C) Reflects the Details.

2.4 Out of School Children

A number of Children , who are not getting schooling facilities, or not enrolled in schools of General, SC & ST categories are reflected in the Table 2.4 (A), 2.4 (B) and 2.4 (C).

2.5 The Projection of Child population upto 2010

As the population of the district is growing day to day the approximate child population from 2001-2010 is projected in the Table 2.5(A), 2.5(B) and 2.5(C) which reflects the detailed picture of General, SC & ST Child population.

2.6 A) Teachers Profile

The central goal of our education policy is to enable all children to complete primary education of good quality. So to supply side intervention like providing primary school in unserved habitation and appointment of teachers is to be given due importance. The position & distribution of teachers in block is given below to focus on teaching community.

4939 primary school teachers and 2327 Upper Primary school teachers and 668 High School Teachers are now working in the District. The details are shown in table 2.6 (A),

B) Pupil Teacher Ratio

As the total enrolment of students in Primary school is 2,48,807 and the Teachers in position is 5010, the PTR is 1:49 for excess enrolled children 1294 additional teachers are required for the purpose. The details is given in Table 2.6 (B). In Upper Primary school, the PTR is 1:38. Keeping in view, minimum 2 teaches for UP schools 271 additional teachers are required. It shown in Table 2.6 (C)

19(5)

2.7 Facilities available

The school is kept safely by its boundary walls. Drinking water, toilet, Science Kit, sports materials and furnitures are necessary for children, the details of which is reflected in Table 2.7

2.8 Gross Enrolment Ratio and Net Enrolment Ratio (GER & NER)

The GER & NER are calculated taking into account of all the children 6-11 and 11-14 of age group. The details of which is finished in the Table 2.8 (A) and 2.8 (B).

GER and NER is calculated as per following principle.

$$\text{GER} = \frac{\text{Total enrolment from class I - V (all ages)}}{\text{Total No. of Children of age group 5-11}}$$

$$\text{NER} = \frac{\text{Total enrolment of class I - V (5-11 years)}}{\text{Total No. of Children of age group 5-11}}$$

From the Table it is observed that there is a wide gap between the GER & NER in Nilagiri Block which shows that the block is very low in NER.

2.9 Drop out and Never enrolled children

Out of total child population 16761 drop out and 39,300 never enrolled children of age group 6-11 and 9519 drop out 23,782 never enrolled children of age group 11-14 has been reflected in table 2.9 (A) and 2.9 (B)

2.10 Unserved habitations

Due to various constraints like river, railway, Highway and lack of communication 2452 habitations are covered with Primary school out of 3798 habitations. 1346 habitations are without schooling facilities. The details has been reflected in Table 2.10

2.11 Projection of NER

With a target to give schooling facilities to the children of 6-14 Years of age within 2000 a projection of 100% enrolment has been shown in Table 2.11.

**Facilities Available in the Primary, UP Schools / UGUP and High Schools
Balasore - District**

2.12 Existing scheme for improvement of Elementary education in the District

a) Free distribution of Text Books :

Govt. of Orissa Provide free textbooks to SC, ST and Girl students from Class I – VII. It is an incentive to promote enrolment retention of the children in the school. *Table - 2.12*

b). Mid Day Meal Scheme

MDM programme is being launched by the Govt. of Orissa throughout the State. In Tribal Blocks cooked rice is given to the students of Class I - V, while in rest of the Blocks dry rice is distributed among the said age group students. The quantum of rice is 3Kg per month per child subject to minimum of 80% attendance.

c). Early Childhood care & Education

Anganwadi centre are running throughout the state under the ICDS by women and child welfare department. The centres cater to the needs of 3-5 Years children along with health need & prepare them for the primary schooling.

d) Operation Black Board Scheme.

Operation Black Board scheme is a centrally sponsored scheme taken up in the district since 1990 which acts as a major support for improvement of schools.

The following components are covered under the scheme :

1. Construction of School Building / Classroom.
2. Provision of teachers to primary schools.
3. Provision of teaching learning materials to all primary schools.
4. Provision to supply furniture's, games, sports and other equipments.

CHAPTER - III

PLANNING PROCESS

CHAPTER - III

PLANNING PROCESS :

Planning is indispensable in all spheres of life. Any exercise without proper planning is like a ship without rudder. It is a systematic and continuous process through which the objectives are achieved, Though planning process, needs are identified and necessary strategies are suggested for achieving the goals within the resources available. A better plan brings a better result. As the aims of "SARVA SHIKSHA ABHIYAN " is to achieve specific goal in respect of both qualitative and quantitative development of elementary education in the District, the planning should be made accordingly. It should be area specific, need based and realistic For achieving the goal a decentralised mode of planning should be done allowing the people to participate from grass root level Hence necessary steps have been taken while planning for implementation of SSA in Balasore District. As regards involvement of villagers, PRI members, school teachers, NGO, Block level as well as district level functionaries both from Govt. and private sectors associated with education process like community awareness, organisation of meetings discussions, work shop and microplanning has been taken up.

The perspective plan for the district has been done as per following steps

Formation of District. Advisory Board :

At the District Level an Advisory Board has been constituted under the chairmanship of the collector and District. Magistrate of Balasore The other members of District. Advisory board are as follows

1	Inspector of Schools, Balasore Circle, Balasore	Member
2	Principal of DFT Remuna, Balasore	Do-

3.	CDMO Balasore	-do-
4.	DSWO, Balasore	-do-
5.	DWO, Balasore	Member
6.	P.D. DRDA , Balasore	- do -
7.	P.D. NCLP, Balasore	- do -
8.	D.D.O., Balasore	- do -
9.	D.I s of Schools,Balasore –1, Rasta, Soro, Nilgiri and Jaleswar	- do -
10	Executive Engineer RWSS	Member
11	District. Inspector of Schools,	-do-
12	District. Project Co-ordinator DEEP, Balasore	Member Convener
13.	Project Director NGO	-do-
14.	Project Director , IED	-do-

This body is formed to aid and advise to support and suggest the Dist. Core Planning team at the time of planning implementation and monitoring. The body also will sit once in 3 months to provide convergence and help removing the bottle necks in connection of information.

Dist. Planning Core team :

In order to develop the Dist Elementary Education Plan (DEEP) as per the procedure laid down in the SSA frame work. A core planning team has been constituted with the following members

1	Kartikeswar Lenka	- D.I(s) Soro
2.	Aditya Prasad Ghose	- DIET, Remuna
3.	Aswini Kr. Pattanayak	- Teacher STS Tudigadia
4	Prafulla Kr. Giri	- Head Master, Odangi Amara IIP

5.	Benudhar Mandal	-Head Master, Madhupura, UG, UP
6.	Manmath Kr Panda	-Head Master Baitpur, UG, UP
7.	Purnachandra Das Mohapatra	-Head Master, Mukundapur UG, UP
8.	Banshidhar Sahoo	- S I.(s) Bhogarai
9.	Gajendra Pr. Nayak	-Head Master Saud, UG, UP
10.	Kartik Ch. Das	- Head Master Sajapur UG, UP
11.	Gayadhar Mahallik	- Head Master Dhobasila UG, UP
12.	Sitikantha Panda	- S I.(s) Simulia
13.	Maheswar Das	- S I (s) Jaleswar
14.	Ramakanta Mohapatra	-S.I (s) Oupada

This team will meet once in a month and function on the advice of the Dist. Advisory Board (DAB). The DPC of DEEP, Balasore shall be the executive head of the team. The team shall formulate the plans, gathering information collected by the Blocks/ UIBs level planning team and interacting with leading PRI members, educationist VECs, teachers and parents.

BLOCK / ULB LEVEL PLANNING TEAM

1. Block level Planning team :

The Block level planning team shall function under the supervision of the BDO of the concerned Block & will meet once in a month to undertake Block level planning activities. The team shall gather informations from G.P s/ Clusters.

The block level planning team has been constituted with representation of following categories of people

1. All Sub- Inspector of Schools
2. Block resource co-ordinator/ Resource persons

3. Hms of U.P. Schools
- 4 CNPO 5. WEO 6 S.E.O.
7. Local NGO 8 PRI members
- 9 Community leader
10. Self Help Group
- 11 G.P.E.O
- 12 One active VEC members
- 13 One active PTA member
- 14 One Active MTA Member
15. One active Teacher Representative

2. Urban Local Bodies Planning teams :

The Urban level planning team has been constituted with the following representative.

- 1) All S.I.'s of Schools
- 2) All Head Masters of U.P. Schools
- 3) One active teacher of Secondary Education
- 4) One Head Master of Primary Schools
- 5) One active Teacher Representative
- 6) Ward Councillor
- 7) NGO
- 8) Educationist
- 9) One active representative from women organisation.

10) One active community representative from slum area

11) One active member from VEC

12) One active member from PTA

The team shall sit once in a month with executive officer of its head.

3. Cluster/ G.P./ Ward level Planning Team :

There shall be a planning team at the cluster/ G P./ ward level. The team has been constituted with the following representatives.

1. All Head Masters of Primary/ U.P. Schools
2. PRI, Members
3. One active member of SHG (Self Help Group)
4. One active member of a V.E C
5. One active member of Local NGO
6. V.L.W / L.V.L.W
7. I.C.D. S, Supervisor
8. Cluster Resource Co-ordinator

The team shall meet once in a month for the G P./ Cluster once in a month. The C.R.C co-ordinator shall act as the team co-ordinator – cum – Convenor

4. Village/ Slum level planning team :

The aim of constituting this team is to involve the parents and the community leaders in the education of children. The team shall provide wider representation to grass roots levels structures, such as PRIs, V.E.Cs, PTAs, MTAs community leaders, workers of A.W centres , Head Master of Local Pry/ U.P School shall be the member of the team. They shall meet once in a month and follow the norms for providing facilities to the School. The team shall further

collect latest informations - from the grass roots level & prepare village level/ plan. They also undertake activities like microplanning & school mapping, survey programmes like "Ninad", "Annwesan" and formulate village plan accordingly

5. Capacity Building of Planning teams :

Imparting Training to Planning team is of paramount importance. The team should be acquainted with the norms for planning prior to preparation of 1st draft plan. The planning team should be oriented with aims and objectives of SSA. The team shall also be acquainted with the collection of informations, norms & strategies of the programme for plan formulation. The second round of training will be conducted after preparation of 1st draft plan to , provide an opportunity to the planning team to improve plans by having discussion with Dist- team.

The Dist, Core planning team has already been oriented at State level by the SRG (State Research Group). In turn they imparted training to Block/ ULB Planning team. The Block / ULB team took the responsibilities of imparting training to Cluster/ G P. / village/ward Planning team.

The dedicated members from the District, Block/ ULB's/ cluster level planning team personally visited villages along with the village level planning team for " on the spot" interaction between the community and target groups to identify the needs, issues at the grass root levels, Accordingly they formulated strategies to address the identified needs and issues and reflected them in the plan. Selected members form the planning team are also to be exposed to different work shops, orientation programmes and training conducted at state and national level.

A number of pre-project activities have been under taken in the District to make real involvement of the community and to generate demand for quality Elementary Education in the locality

HOUSE HOLD SURVEY :

For preparation of the plan, necessary data on school going children, out of school children, disables etc were collected in the format developed and supplied by OPEPA. The survey work was conducted by the Primary Teachers, Anganwadi, workers and NGOs which was completed at village level, panchayat level, Block level and district level All the relevant data have been incorporated in the plan under Chapter II.

SCHOOL SURVEY :

The informations on Primary, upper Primary Schools relating to teachers, building, enrolment, drop outs, teacher pupil ratio etc was collected in a Format supplied by OPEPA and the work was completed by Nov. 2001.

COMMUNITY SENSITIZATION :

To create awareness among the people workshop, meetings, discussions were held at G.P. and Block level for the focus groups such as woman, PRI members, Teachers and NGO Besides this, the posters, pumplets etc. were circulated and suggestions were invited from public The teacher mobilization camp and student rallies were organised from dt 14/01/2002 to dt. 30/01/2002

DISCUSSION ON FOCUSSED GROUP :

Discussion on focus group with Woman Organisation, Anganawadi workers, Pry School teachers, VEC, Leaders in Tribal group in tribal areas was conducted at GP, Block District levels from dt.14/01/2002 to dt 30/01/2002

CONVERGENCE MEETING :

Convergence meeting at Block level was conducted comprising of WEO, SFO, CDPO, S.I of Schools, Marketing Inspector, Medical Officers, JF, BDO, Members of NGO and PRI

members. Similarly a district level convergence meeting was organised with all Govt. and Non-Govt agency of District Head quarters on dt. Discussion on different project activities was made in the meeting

REPORT AND RESEARCH FINDING :

i) Report and Research Findings available at the College of Teacher Education, Balasore & DIET, Remuna have been consulted and views from several Magazine Journals, on educational prospects of the district have been taken into account.

ii) District Specific books like District Statistical Hand book, Educational Survey- 1997. Action Plan for TLC etc. have been referred.

Problems, needs, expectations of people came out of through various meetings group discussion and interaction with community members helped a lot for planning.

Two important activities under taken for preparing plan documents we have:

a) House to House survey.

b) Decentralising participating process like discussion, convention and interaction with different people of the community

It is to mention here that the Planning process has touched the grass root level. Discussions have been made at the village level, G.P., Block and District level to bring with issues and strategies. The issues have been categorised. Hence it is need based and bottom up Planning.

FOCUSSED GROUP DISCUSSION

Duration	Sept- Oct, 01
Level	Villages - Block Level
Groups Present	S.C., S.T., Woman

No. of Participants —

35

Issues Identified	Solutions to	Accepted / Not accepted
1. Poverty of Parents	TIM should be provided	Accepted
2. Lack of consciousness of Parents	Awareness to be created	Accepted
3. Lack of facilities in schools	Development of infrastructure facilities	-do-
4. Nature & artificial barrier	opening of new school	Accepted
5. Engagement of Children in domestic & outside work (to earn)	provide incentive to children/ parents	Not-accepted
6. Unconducive study atmosphere	Orientation of teachers and beautification of school campus	Accepted
7. Non-functioning of VEC	Capacity of V.F.C to be built	Accepted
8. Lack of residence of teachers	Construction of teacher's quarters	Accepted.

SPECIFIC ISSUES :

1. Shortage of teachers	Appointment of additional/para teachers	Accepted
-------------------------	---	----------

2 Problems of girls of minority community and S.C./ S.T. group	Opening of hostel special residential schools.	Accepted
3. Shortage of Class rooms	Construction of Additional rooms	Accepted
4 Lack of required no. of schools	Opening of new schools.	Accepted

DISTRICT LEVEL CONVENTION

Date	3/01/02
Nature of process	Convention
Level	District
Duration	Oneday, residential
Groups	P.R.I., Z P. members officers of District
No. of participants.	42
Issues Identified	Solution to the issues.
1. Water & Sanitation	— Provisions for drinking water is to be made — Toilets are to be constructed for the students.
2. Poverty	— Reading , writing materials are to be provided — Mid -day meals are to be provided
3. Lack of proper supervision	— S.I. (s) should supervise the schools regularly and he be made free from other than educational works
4. Engagement of Teachers in other works.	— Teachers to be exempted from other works.
5. lack of content Knowledge of Teachers	— Orientation of teachers to be given

- 6 Defective syllabus — to be changed.
- 7 Defective Evaluation — Evaluation system to be changed
- 8. No Scope for games and sports — Provisions to be made for sports / games
- 9 Health — Regular health check up at least once in a month necessary.
- 10. Lack of School building — Each village has to be provided with schooling facility according to norm.
— School building, additional class rooms are to be constructed, immediate repair works are to be taken up in case of delapidated buildings
- 11. Dearth of Teaching — Teaching staff should be provided according to no. of classes and roll strength.
- 12. Lack of M.T.A. — M T A. & P.T A are to be formed in the school
- 13. Absentism of Teachers — Absentism of teachers to be checked Proper action against erring teacher should be taken.

DISTRICT LEVEL TEACHERS CONVENTION

Findings of group discussion :-

Date	-	20/02/02
Nature of process	-	Group discussion
Level	-	District
Duration	-	One day
Group present	-	Teachers Representatives of Primary Schools
No. of Participants	-	31

POINTS EMERGED ON GROUP DISCUSSION

Issues Identified

1. Lack of awareness among parents. They are different towards education.

2. Dearth of teacher and school building

3. Language of Teacher and pupil differs

4. Lack of communication facility to school

5. Lack of teaching Aids & TLM

6. Lack of Schooling habits.

Resolving the issues

Awareness campaign should be made by folk songs at village level.

Regular meeting of V.E.C. should be organised

— Teachers should be provided to schools

— Repair of school building should be done every year

— Additional class rooms should be constructed.

— Preparation of primer on local dialect.

— Local teacher should be appointed

— Teacher should be oriented.

— School should be established in a well communicated place of village.

— Roads may be made.

— All types of teaching aids & TLM should be provided. Teachers will be oriented

— Children of age group +3 should be enrolled in pre-school, so that schooling habit will develop.

- Anganwari Centres and Primary schools will be available in same campus
- 7. Undue Interference of Public in school — Public will be aware of fact of interference in School
- 8 Students suffering from skin-diseases — Health check up should be done regularly and free treatment of disease should be done.
- 9. Lack of proper supervision of school — S.I.(S) should supervise the school regularly
- 10. Lack of sufficient school contingency — School contingency should be provided to the school.

DISTRICT LEVEL DISCUSSION WITH FOCUSSED GROUP

DATE	-- 25/02/02
Nature of Process	—Group discussion
Level	—District
Duration	—One day.
Groups Present	—Anganwadi Supervisors, C.D.P.O., DWCRA Supervisors

ISSUES IDENTIFIED

RESOLVING THE ISSUES.

- 1. Most of Anganwadi workers are not acquainted with present education —Orientation to Angawadi workers on Pre- school.
- 2. Play materials are not Supplied to AWC Old Play materials have been destroyed -- New play materials should be supplied.

- | | | |
|----|---|--|
| 3 | Songs are not attracting the children | —Anganwadi workers should be well trained in songs |
| 4. | Angawadi workers are paid with low honorarium. | —Honorarium to Anganwadi workers should be increased. |
| 5. | Parents are reluctant to sent children to Anganwadi centres | —Balamela' Should be organised and Community should be involved. |
| 6 | Food is not palatable to the Children. | —Care should be taken by Anganwadi Workers for preparation of food to make it taste. |
| 7. | Lack of Care and attention to the children, | —A. workers should be Oriented on taking care of the children, Accountability should be given on them. |
| 8. | Irregular Timing of AWC | —To develop the habit of going to school timing should be maintained. |
| 9. | At mosphere of AWC is not conducive. | —Angenwadi Centres should be constructed where there is no facilities. |

CHAPTER - IV

PROBLEMS, ISSUES AND STRATEGIES

CHAPTER - IV

PROBLEMS , ISSUES AND STRATEGIES.

PROBLEMS AND ISSUES :

A number of attempts and steps have been taken up to achieve the target to
Universalization of Elementary Education (U.E.E.) , Despite of several imputes, the outputs
are not satisfactory. Out of Focus Group Discussions, Convergence, some problems still
exist, despite various approaches to strengthen primary education. The major issues
identified are

1. Access.
2. Retention.
3. Quality Improvement
4. Coverage of Special Focus Group.
5. Monitoring, supervision, Research and evaluation.
6. Infrastructural development & Capacity building.

ISSUES RELATED TO ACCESS.

Primary Education cannot be universalized until and unless access is enhanced . It is
observed that universal access has not yet been achieved due to unawareness, negligence of
parents, poverty, unconducive school atmosphere apathy of teachers etc. The issue of
access has been emphasised particularly to all children between the age of 6 to 11. The
problems and strategies for universal Access are culminated here under.

Issues/ Problems.	Possible Strategies.	Intervention
1 Lack of Primary schools or alternative schooling facility within walkable distance.	1. The exercise of microplanning and school mapping has been taken up to ascertain the needs of primary schools.	Planning.

	1:2. Opening of new primary schools / E.G.S or A.I.E. Centres unserved habitations.	Access
	1:3. Opening of hostels and residential school.	Access
	1:4. Posting of additional teachers.	S & M.E Dept.
2. Physical Barriers Like hills, forests, rivers and artificial barrier like railway & High way etc	2 1Opening of alternative school where state norm for Pry School is restricted.	Access
3. Buildingless Primary School.	3 1. Construction of School additional class rooms	Convergence with D.R.D.A.
4. Poor and dilapidated School building never attract children	3 2Major and minor repairs of School building.	Minor repair by community and Major repair by G P or Panchayat Samitis
5. Disabled children neglected	5.1 Disabled Children are to be encouraged to attend school	I E.D. Convergence with N.G.O's
	5 2 Parents of disabled children are to be motivated	I E.D.
	5 3. Incentive should be provided to the disabled children	I E.D

5.4 Free supply of aids for I.E.D
hearing impaired etc.

5.5 Special enrolment
drive for disabled children.

5.6 Where the number of I.E.D.
disabled are more, one
teacher should be trained
in I.E.D

6. Poor road
Communication

6.1 Provision for
construction of road

Convergence
with PRI.

Issues related to Enrolment & Retention

Universal access follows universal retention. Retention aims at completion of class V education at the age of 10 years. The district specific problems relating to retention are discussed below along with suggested strategies

<u>Problems/Issues</u>	<u>Possible Strategies</u>	<u>Intervention.</u>
1. Poor awareness among parents & their indifference towards education.	1.1 Awareness campaign among parents and the public to be accelerated.	
	1.2. Special awareness Campaign in hilly areas of Nilgiri, Oupada & Kupari.	I.T.D.A. & N.G.O
	1.3 Campaign for motivating girl children in specific areas where members of S.C, S.T. & minority are more.	N.G.O.
	1.4. Organisation of meetings and cultural programmes on essence utility & importance of education.	

	1.5 Organisation of rallies, campaign and Padyatras, street dramas etc. by students & teachers.	N.G.O.
2. Irregular attendance	2.1 Organisation of P.T.A. & M.T.A. 2.2 Meeting of P.T.A. , M.T.A. & P.R.I. members. 2.3 Door to door visit by teachers. 2.4 Monitoring regular attendance by teachers and headmasters etc.	Capacity building of P.T.A & M.T.A. - do - do - - do -
3. V.E.C. is not active.	3.1 Orientation of V.E.C. members. 3.2 Women representation in V.E.C. should to be emphasized 3.3 Insisting member's active participation, Inviting & involving community members to school. 3.4 Inviting Anganwadi workers to V.E.C. meeting.	C.R.C & capacity building of V.E.C.
4. Unattractive, Teaching learning process	4.1 Massive orientation to teachers up to date teaching learning process , activity based M.L.L. or joyful learning.	D.I.E.T/ S.T.S.
5. Want of need base	5.1 Preparation of supplementary	SC/ST

Curriculum	reading materials work book etc.	
	5.2 Introduction of area specific topics.	
	5.3 Introduction of teaching s c. Learning materials on tribal dialect.	S.C. ST ITDA Edn.
6. Lack of Interest among Parents to send their Children to School	6.1 Motivation of parents.	
	6.2 Incentive for regular attendance like M D.M. Rice etc	P.R.I
	6.3 Opening of special Schools for working children.	
	6.4 Flexible school timing is selected areas.	
7. Engagement of girls in house hold works	7.1 Special motivation to girls by teacher.	
	7.2 Motivation by Anganwadi workers.	
	7.3 Door to Door visit by teacher	
	7.4 Organization of cultural programmes for development of girls education.	
	7.5 Opening of hostels for girls is selected areas.	Welfare deptt.
	7.6 Display of Posters on girls education.	UNICEF.
8. Problem of language.	8.1 Appointment of tribal teachers in tribal areas	
	8.2 Development & Supply of	

text book in tribal language particularly is Nilgiri Block.

<p>9. Poor Co-curricular activities including physical Education games and sports</p>	<p>9.1 Supply of Games and sports articles to school</p>	<p>S T.S.</p>
	<p>9.2 Organization of Sishumela's, Mini sports and science</p>	
	<p>9.3 Drawing , Painting, Competitions.</p>	<p>S T.S.</p>
	<p>9.4 S.U.P.W. activities</p>	<p>S T.S.</p>
	<p>9.5 Development of physical education mass drill Help of local High Schools, P.E.T. to the taken.</p>	<p>High School</p> <p>P.E.T.</p>
<p>10. Poor Health of Children</p>	<p>10.1 Regular health check up of children by local health workers and doctors.</p>	<p>Health & F.W. UNICEF.</p>
<p>11. Poor economic conditions of S.C. & S.T. and B.P.L People</p>	<p>11.1 Free supply of Text books to S.C., S.T and B.P.L Students in time.</p>	<p>P R.I T R.W I.T.D.A</p>
	<p>11.2 Free supply of reading writing materials to the above category of Students</p>	<p>- do -</p>
	<p>11.3 Free supply of uniform to girl students.</p>	<p>- do -</p>
<p>12. Need of additional class room</p>	<p>12.1 Additional classrooms should be constructed as per need.</p>	<p>Civil work P R.I D R.D.A</p>

13. Toilets.	13.1 Construction of toilets in every school is barely required.	Civil work UNICEF. D R D.A.
14. Drinking water	14.1 Tubewells should be installed in every school	R W S.S.

ISSUES RELATED TO QUALITY IMPROVEMENT OF EDUCATION.

Quality of primary education has been strengthened with introduction of minimum Level Learn (M.L.L.) A good retention will Certainly lead to spectacular quality achievement . universalisation of primary education not only emphasizes on access and retention but also focuses on improvement of quality of education and out standing achievement It aims at enhancing standard of knowledge of students. 25% (minimum) in numerical competencies. Despite several attempts, target has not been achieved and some problems still exist in the district, the paracea for which are reflected below.

<u>Problems/Issues</u>	<u>Strategies</u>	<u>Interventions</u>
1. Problem of Multigrade Teaching.	1.1 Appointment of additional teachers.	S.M.E
	1.2 Orientation on handling multigrade teaching.	S.C.E.R.T. D.I.E.T.
2. Poor Content Knowledge of teacher.	2.1 Orientation of Teachers on on content of subjects.	
	2.2 Conducting Refresher course.	
	2.3 Providing Teachers guide.	
	2.4 Opening of library at school C.R.C., B.R.C.	
	2.5 Supplementary reading materials to be provided to teachers.	
3. Lack of knowledge on tribal dialect.	3.1 Teachers in tribal areas should have knowledge on tribal language.	
	3.2 S.T. teachers should be	

posted in tribal area.

3.3. Teachers are to be oriented
by CRC & B.R.C. & D.I.E.T.

4. Unattractive Class
room process

4.1 Due stress on attractive teaching
learning system.

4.2. Training an activity based learning,
joyful teaching or play way method

4.3 Emphasis on art of teaching aids,
action song, story telling and
dramatization, etc

5. Improper Evaluation
system

5.1 Continuous and comprehensive
education should be followed.

5.2 Unit test should be introduced.

5.3 Evaluation should be followed by
follow up action.

5.4 Progress Card of Students
should be maintained.

5.5 Parents of students should
be contacted about their
programmes

6. Lack of institutional
Planning

6.1 The headmasters should be
oriented on institutional Planning
and management.

7. Weak Supervision

7.1 Each school should be
visited at least once by
S.I. of schools

7.2 The S.I.S. should be exempted
from non- academic works of
Block

7.3 CRC & B.R.C. Co-ordination
also should take part in supervision
& monitoring.

7.4 Inspection Report should be
complied immediately.

8 Slow progress of girls
student

8.1 Special attention and special care
towards backward girls.

8.2 Supply of supplementary Readers /
Work books etc

9. Non- availability of
supplementary leaders/ work
Book

9.1 Preparing and providing books
to school and CRC, BRC.

10 Insufficient award and
recognition.

10.1 No. of Scholarships should be
increased.

10.2 Quiz Competition for academic
progress should be taken up

ISSUES RELATED TO CAPACITY BUILDING

Instructional development along with sound management and supervision personals from bottom to top can only change the existing scenario of primary education. Existing system needs overhauling. Due to poor functioning of V.E.C., poor supervision and monitoring, the targets are not achieved. To achieve the goal community participation is to be strengthened CRC, BRC & the DIET are also to be enriched through EMIS and PMIS. The details of issues and proposals are stated below :

Problems/ Issues

Strategies

Interventions

1. Non involvement of

V.E.C. members and

P.R.I's in school

management system and

1.1 Orientation training to

V.E.C. members

1.2 Orientation of P.T.A

M.T.A. and NGO's to

D.E.E.P

D.E.E.P

QUALITY ISSUES IN EDUCATION

-  Quality Improvement in Pedagogy
-  Community Mobilization
-  Civil Work
-  Procurement

CHAPTER-V

Quality Issues on Elementary Education

Quality issues in elementary Education

Problem and issues:

The quality of a school or educational system should, in the real sense, be defined in terms of performance capabilities of its students and teachers. The class room process, i.e. curriculum transaction and pupil achievement refer to quality in elementary education. So quality education in term of pupil achievement and teacher performance is an important issue in SSA. To achieve this target group discussion in various; teacher forums, a convention, convergence meetings have been made and it is realised that through SSA this effort can only be successful.

The claims at substantial improvement in quality in elementary education to enable all children to achieve minimum levels of learning in 80% competencies in language, mathematics and Environmental studies. Some existing problems in Balasore district to achieve the quality in primary and upper primary education is discussed here under:

5.1 Pedagogy and Teacher Training

The learning experiences help the children for their better learning and all round development . The top priority will be given to basic skill of language, arithmetician and environmental studies in lower classes with providing science and social science in higher classes. The friendly environment, joyful and activity centred approaches be introduced in class room transaction^s the following guideline are to be taken under pedagogy and teacher training.

5.2 Parents and community perception on Quality Education:

The planning teams at various levels, i.e. district, block interacted with parents, teachers and community members on the aspect of quality education and pupil achievement

during planning process. The parents expect their children to learn English, Arithmetic and EVS ;through songs and play way method. They also expect their children to look like students with uniform and discipline. The planning teams observed, the difference of learning outcome in urban and rural school. They observed that the learning outcome of urban school is so higher than that of rural schools. The achievement level differ from SC & ST students, boys and girls and hilly area and coastal area also.

The following possible strategies will be taken into consideration for the improvement of quality education in Elementary stage to eradicate the disparities in achievement level.

5.3 Strategies

(a) Teachers training

- ☞ All the Headmasters of Primary and Upper Primary schools are to be trained in institutional planning and management.
- ☞ Orientation of untrained Educational Volunteers and Educational Volunteers supervision and EGGS and AIE Centres.
- ☞ In service teachers training orientation refresher course, training on bridge course for AIE students.
- ☞ On job support through DRG, IBRC and DIET.

- ☞ Capacity building of DIET, BRCs fork providing academic support to schools and teachers.
- ☞ Teaching Learning Materials
- ☞ Development of TLM and other interactive materials.
- ☞ Preparation of training modules for language training of ST children.
- ☞ Evolving Pedagogy as child centres and activity based with students participation.
- ☞ Supplementary reading and writing materials be made available with library at CRCs level.
- ☞ Action song, story telling approaches sh ould be given due emphasis.
- ☞ Use of local dialect in language teaching in Cl.I to Cl.II, for ST students.
- ☞ Introduction of Cultural activities arts physical and health education.
- ☞ Provision of preparation of community based projects for work experience.

Community Involvement

Organisation of cluster level meeting with exchange of professional personnel and teachers like Doctors for health Education forester for plantation, Horticulturist and Poets.

- ☞ Teachers forum and networking for motivation and commitment.
- ☞ Organisation of PTA & MTA in school level on pedagogical improvement.
- ☞ Teachers on personal contact shall appraise guardians about the progress of their words
- ☞ Involvement of NGOs with experience in pedagogical development.

TEACHERS EMPOWERMENT

- ☞ Provision of recruitment of trained teachers.
- ☞ Constitution of academic group with DRG, BRC's, for pedagogical training and field interaction.
- ☞ Steps to be taken for the improvement of science, health and physical education and Aft Education
- ☞ Provision of study tour for teachers.
- ☞ Provision of teachers training of Ashram School Teachers.

RESEARCH & EVALUATION

- ☞ Revision of curriculum and text books from Class-I to Class-VIII from time to time.
- ☞ Continuous and comprehensive evaluation should be followed.
- ☞ Provision of Question Bank at DRG preparation of Unit test.
- ☞ Student progress card and cumulative record card to be maintained.
- ☞ Pupil assessment procedure on pedagogical renewal.
- ☞ Attendance of ;students to be analyzed once in a month by the class teachers and Headmasters.

SUPERVISION, MONITORING AND OTHERS

- ◆ S.I. of schools will be free from Block Works.
- ◆ S.I. Circles is to be reorganised with reasonable number of schools.
- ◆ S.I. of schools should be solely engaged in supervision and monitoring.
- ◆ Timely supply of text books at the beginning of each academic session
- ◆ Supply of supplementary reader/work books to students.

Some of the concerns in contemporary field practice, which need to be addressed is as follows:

5.4 (a) Pedagogy of affection:-

Affection is the vital emotion of human beings and it plays a great role in teaching learning process. It is observed that students learn better through affectionate condition than strict discipline. Songs and games are better learning facilitator than that of using of cane, practice of more home work and assignment. It is also observed that students can learn better through play way method, joyful learning, participatory approach and activity based teaching. So affection and love are basis of pedagogy. Such healthy learning atmosphere can only be the basis for motivating the children for their learning process and their continuation in the school. Therefore necessary orientation will be planned to the teachers comprising these aspects along with the exposure visits for additional charges.

5.5 Pedagogy of Retention :

It is a burning; problem in the elementary education. It is observed that most of the students of socially, economically and educationally back ward classes are rarely retained in elementary education. They are the 1st generation learners. In this aspect teachers are often ignorant of cause of low retention. In order to overcome this problem the teachers are to be oriented thoroughly. The following points may be taken into consideration. The teachers must know the family background of such children.

The teachers are to keep regular context with the parents and try to create interest among the children for their regular attendance. Andh provision may be taken attendance analysis of students by the class teacher and Headmaster once in a month.

The teachers are to be oriented to avoid ;low retention in the school through community involvement.

5.6 Curricular Approach

The existing system of education creates hindrance for the developing of child's innate potentialities like thinking, reasoning, imagination, observation, estimation, comprehension questioning, synthesis, analysis; and evaluation due to over burdened textual material, home assignment and unscientific teaching methods. In order to overcome these problems the teachers should be oriented. For the development of divergent thinking and to reduce textual over burden of the learners should be modified through teachers orientation.

5.7.1 Quality Concern : Upper Primary Education.

The primary education can only be successful through joyful learning, friendly atmosphere in the class room situation. Stress should be given on the basic learning of reading, writing and arithmetic. A teacher can cover a class dealing with Scholastic and non-scholastic areas. But in U.P.level the educational pattern is subject oriented. Generally the teachers of U.P. level are not trained on specific subject. Most of the teachers are teaching different subjects in different classes. In some cases the Primary Schools and U.P. Primary Schools have been merged within one campus. The following steps may be ;taken for quality concerns U.P. Education in order to overcome the following difficulties.

Additional building facilities to be provided to the merged schools.-Additional classroom to be provided to the Primary schools.

It is proposed that allocation of funds to be placed for science equipment in order to inculcate scientific attitude and scientific interest among the learners.

Provision of Games and sports / Males etc.

5.8 Education Volunteers in EGS and AIE

Centres – Their Training

Pedagogical Training to the Education volunteers on EGS and AIE should be provided in summer vacation, Durga puja and harvesting holidays for 30 days per annum.

5.9 Academic Conventions – Net working and

Linkages primary – Upper primary schools.

Some teachers who have interest in educational field will establish a good report in other schools with exchange their views, by discussions, deliberations, and field visit. The following are the initiative proposed to be taken up by inter cluster competition.

- ◆ Language improvement programme with debate competition and essay competition.
- ◆ Mathematics improvement programme through mathematical Quiz.
- ◆ Science improvement programme through science clubs and in the school, Seminars and exhibition etc.
- ◆ Programme for sensitising the community on child labour and educational issues.
- ◆ Sports and cultural competitions of the students of formal schools vrs student of EGS and A.I.E centres.
- ◆ Provision of school complex is to be organised with the help of High School, U.P schools and Primary schools.

5.10 Quality teaching and learning – Teachers

Training (Primary / U.P. school Teacher)

It is proposed to orient all the teachers of Primary and Upper Primary schools. The in service trained teachers of Primary and Upper primary schools will get 20 days Training where as In - service fresh recruited teachers/ para trs / untrained teachers of both primary and Upper primary will get 30 days training with financial norms of SSA. The training programme will be conducted in cascade mode.

5.11 Upper Primary

The upper primary stage in Orissa covers Class – V and Class – VII. But according to SSA norms, the Class VIII is to be included into upper primary level. The numbers of teachers upto Class VIII are being provided at the rate of 1:40, irrespective of tribal and Non-tribal area. As regards to academic qualification of U.P. teachers one headmaster having BEd qualification and qualification of Asst. teacher upto Class VII is Matric C.T. having 1:40 ratio, but above 81, there are three teachers. Moreover we have no subjects specific teachers in U.P section. The following section are taught in the U.P level, i.e., (Oriya, Urdu) Math, Science, Social Science – History, Geography, English, Hindi and Sanskrit.

However, there is no provision for subject specific teachers like Math, Science and Art and Physical Edn. Most of the Non -- Science teacher are teaching Science and Maths in these schools. It is also observed that there is provision for teaching physical Health and Art Edn. in non solastic aspect in our curriculum.

Therefore the following strategies are to be taken up for the capacity building of the teachers especially in science, mathematics, physical and Art Education.

Strategies

- ◆ Training of teachers in teaching Maths, Science, English, Social Science.
- ◆ Recruitment of Science teacher having qualification BSc. Bed. / BSc. CT.
- ◆ Provision of Special training in Physical and health Edn. and Art Edn to one of the existing teachers.

Training for Upper Primary Schools

Implications of SCERT and DIET

SSA gives importance in teachers Training. The trainees will be in a cascade mode. The SCERT in the state level, has to plan for teachers training as per the needs assessment at primary & Upper primary stage with the help DIET. SCERT will provide academic support to develop training module for the District Resource Group (DRG) and the Training will be provided at state level. Further the DIET will conduct the programme for the Block Resource Group (BRG) so that BRG can intera conduct Training to teachers & other field functionaries.

5.12 Constitution of DRG & BRG

Dist. Resource Groups – Primary & Upper Primary Stages.

As the training is in cascade mode it is proposed to constitute DRG with the persons representing from DIETS, Govt. ST. schools, Headmasters, Experience teachers Block resource persons etc. covering all subject areas of primary and Upper primary schools. The DRG will be exposed various types of Innovative training procedure for the professional Development in the classroom practices of the teachers and other educational functionaries within our state. DRG will orient the Block Resource Group and visit the school for monitoring, supervising and assessing the implementation aspects on SSA.

For the Upper Primary stage DRG will organise content enrichment programme in different scholastic & non scholastic subjects to strengthen teaching proficiencies of the teachers.

5.13 Block Resource Group (BRG)

The BRG, will be constituted with the active headmasters & experience teachers of Primary & Upper primary schools covering with various school subjects, will be trained up by the BRG to provide training and orientation to the regular teachers, freshly recruited teachers. The centre class meeting will be supervised and monitored by the BRG,. The Planning team propose that U.P school teachers will attend the centre class meeting once in a month.

5.14 School support – Professional

Support Structure :

The National policy of education (1986) and POA 1990 have recommended to establish DIET (District Institute of Education and Training) to provide professional support to elementary education in the district level for quality improvement.

The DIET has seven faculties i.e., Pre service, IFIC, D.R.U, C.M.D, E.T., P & M and W.E out of seven faculties the Pre Service, IFIC, CMD, E.T. DRU & P&M we working. The IFIC department is organising in service Trg. Programme & P&M is working in dish.

Planning team of DEEP Balasore. DIET is proposed to take up various quality initiatives for the improvement of Elementary Edn. as follows :-

- ◆ Academic monitoring of schools.
- ◆ Take up action research and evaluation activities.
- ◆ Develop T.L.M., Collection of local song, story.
- ◆ Participate in the Planning Processes i.e., Perspective as well as annual work, Plan tend gets etc.

Therefore it is proposed for strengthening of DIET by way of providing following support.

- ◆ Provision of Equipment,
- ◆ Provision of furniture,
- ◆ Assistance to take up academic monitoring of school.
- ◆ Provision of computer
- ◆ Contingencies grants, Stationeries Travel Allowance, Computer peripherals

5.15 Block Resource Centes (BRC)

BRC's are the resource centres proposed to be established at Block level under SSA programme in inculcate the professional requirement of Primary school teachers. Each BRC will be constitute with 20 BRPs (Block Resource persons) from experienced High School Teachers, S.I. of schools, efficient H.M. from up and primary schools, providing continuous Training to the primary and upper primary teachers at block level. BPCs (Block Project Co-ordinator) and Block Resource persons will be working as a team for the improvement of quality classroom transaction. The pucca building will be constructed in all BRC's for conducting in service Training Programme as well as for the functionary of Block project Co-ordinator of BPC's. These offices will be equipped with computer and T.I. M facilities.

INPUTS.

- ◆ Provision of salaries to the Co-ordinator
- ◆ Provision of Equipments
- ◆ Provision of furniture.

- ◆ Provision of Video and TLE.
- ◆ Provision of Contingency grant.
- ◆ Provision of TLM grant.
- ◆ Provision of capacity building to BRC's staff through orientation & exposures visits.

Functional Aspects of BRCs / BRPs

(Block Resource persons).

- ◆ All the schools in the Block will be divided '3' BRPs for effective monitoring and supervision.
- ◆ Each BRP will visit all the schools in his cluster once in a fort night and monitor the attendance of the teachers. He will observe classroom transaction and provide necessary guidance and also record his impressions in the academic guidance Register.
- ◆ Each BRC will maintain the information on various aspects on primary Edn. pertaining to all the villages in the form of register and records viz. Block profiles, school Profile, stock file, school monitoring returns, enrolment and retentions school wise particulars, school wise furniture, equipment and accommodation details. Block census Registers, village Education plan Register, Block Education Office and Block Resource person hand Book etc.
- ◆ The BRPs will monitor the school, visit Early Child Care Education Centre (E.C.C.E) and will meet the school committee members. Numbers of Orientation programme to be planned for BRPs in the fields of Pedagogy, Girl's education, E.C.C.E, community mobilisation etc. for their professional growth and enable them to take up monitoring and supervision effectively for U.E.E.

BRCs -- Professional support mechanisms to Upper Pry. Schools -- Block Resource group.

In addition to monitoring and supervision and job support to primary school teachers BRCs will collect statistical information from Pry. And Upper Primary Schools. For the professional growth of Upper primary school teachers subject specific resource persons (Maths, Science, Social Science, Language, etc) will provide training to upper primary teachers. Necessary T.A. and D.A. and honorarium will be paid whenever their services will be used.

5.16 CLUSTER RESOURCE CENTRE – Centre School (C.R.C)

Each Block Resource centre is divided into same cluster Resource centres consisting of 1 to 15 Primary, Upper Primary and EGS Centres where in the elementary teachers will meet once in a month for their professional exchange and deliver the new innovations, ideas, T.L.M, and other issues. Each CRC will be provided with Rs. 2000/- as annual grant for procuring necessary stationery and other T.L.M the furniture and room for CRC is planned. An experienced teacher from level III will be CRC Co-ordinator.

Functional Aspects

- ◆ The Block Resource Centre Co-ordinator and BRPs will be attending the Cluster Resource Centre meetings once in a month and take part in deliberations.
- ◆ In the cluster Resource Centres DRG & BRG meetings, School specific, Block specific, thing specific work shop etc will be discussed.
- ◆ For the development of Innovative T.L.M on various Curricular & Non – Curricular activities the CRC will be given importance.
- ◆ Subject wise teaching for exchange of views and for improved practice at BRC and will be discussed at CRC.

Inputs

- ◆ Annual grants of TLM @Rs – 2000/- per CRC per annum
- ◆ Training to CRC, Co-ordinators / CRC guide manual preparation.
- ◆ Monthly teachers meeting at CRC for professional exchange
- ◆ CRC Co-ordinators will be nominated among the teachers of Primary Upper Primary schools under the Concerned CRC.

5.16 Quality Teaching – School Teacher and CRC (Primary & Upper Primary stage)

It is planned to provide annual grants to the school at the rate of Rs. 2000/- per year per school to improve school infrastructure facilities & annual teacher grant (u) Rs. 500/- per year per teacher for his/her required TLM. It is also proposed to provide annual grants to the CRC @ Rs. 2000/- per CRC per year for stationery & TLM to be used in the CRC meeting.

5.18 Development of TLM for Pry & U.P. Schools

To facilitate the learning TLM to be developed for Pry. And Upper Primary Schools. Teachers should be provided with necessary Training for developing T.L.M which will be need based & useful to them. Teachers hand book to be provided for the immediate guidance of the teachers.

Following are the major type of TLM required in each school

Sl. No.	Type of TLM	Responsible persons
1.	ECE Kit	SRC / ECE / NGO
2.	Joyful learning kit	DRGs / NGO
3.	Maths Kits	DRGs / BRGs / NGO / Trs.
4.	Science Kits	DRGs / BRGs / NGO / Trs.
5.	Recurring models	Teachers
6.	Indigenous materials	Teachers
7.	Subject wise TLM for U.P.	BRGs & Teachers
8.	Pupil interactive Materials	DRGs / BRGs / NGO / Trs.
9.	TLE (Black Board)	D.P.O
10.	- do - T V / VCP/ VCR	D.P.O
11.	TLM on Bridge Course	SRC

The Upper Primary School in our state are not covered with any short of assistance towards TLM & other support, services. Therefore it is proposed to provide assistance of Rs. 50,000/- to each uncovered Upper Primary School towards TLM grant. The Procurement will be based on items selected, based on the requirement to be determined by the Teachers and School Committee.

5.19 Gradation of Schools in to A,B,C – Primary and Upper Primary.

It is planned to prepare a gradation list of schools according to the category of A,B,C based on the following criteria to develop some motivation and internal competition.

- ◆ Community Participation
- ◆ Enrolment
- ◆ High level Retention.
- ◆ High level of attainment (Performance)
- ◆ Regular pupil Teacher attendance.
- ◆ Teacher preparation, Development of TLM & display of teachers & pupil work
- ◆ Utilisation of OBB equipment, Library Books, A.V. aids, Organisation of Co-Curricular activities.
- ◆ Innovative activities taken up by teachers school premises cleanliness & Green

The definition of 'A' grade school which fulfils the above criteria comes under 'A' grade. The 'B' grade school must have possessed 75% of above Criteria and the school which possess below 75% of above Criteria will be treated as 'C' Grade.

It is planned that 'A' grade school will get little amount of financial assistance that that of 'B' category & 'C' category school will get maximum assistance than that of 'B' Category and it will be decided by DRG by the help of BRGs.

5.20 Improved School Management – Training to Headmaster (Primary & Upper Primary)

The Headmaster is the captain of the School. The Curricular & Co-Curricular activities, guardian meetings etc are to be organised by his dynamic guidance. The entire performance of the school depends upon the Co-ordination, Co-operation managerial administration, better report to the society & sustainable management. In our existing pattern some of the schools having CI – VI & CL – VII are under High Schools the Headmaster which is the Controlling authority. Besides most of the schools having CI VI & VII in the Upper primary are working under a Headmaster – Controlled by D I. of schools.

There are some schools which are merged having classes from I to VII in one Campus are functioning under a Headmaster & Controlled by D I. of Schools. Moreover the Schools having CI-I to CI-V are working under one Headmaster & Controlled by D I. of schools.

On the focus of these type of schools it is proposed to provide Training to the Headmasters of the Schools for better management of schools, institutional planning,

Innovative practices, Community mobilisation and home school links, schooling out of school children.

The following strategies are proposed for school improvement (Primary and Upper Primary)

1. Enrolment of all out of school children by awareness campaigns .
2. Fencing around the campus with community involvement.
3. Raising flower / Fruit garden.
4. Exhibition of Teachers / Pupil work.
5. Proper usage of TLM Supplied / manufactured.
6. Improving the curriculum transactions.
7. Improving the school infrastructural facilities.
8. Providing on site support to teachers.
9. Strengthening teacher networking – teacher motivation.
10. Involvement of Community participation for utilisation of locally available resources.
11. Organisation of Science Club, Science Exhibition, and Science seminar etc.

5.21 Academic Monitoring of Schools by DIET :

The DIET Plays a vital role for the development of elementary education by conducting Pre-service and In-service training programmes time to time in the district level to the Primary and Upper Primary school teachers. Besides its normal works the teachers Educators are visiting the schools, attending the centre classes to provide academic inputs, participating Dist. Planning team, co-operating VEC, administering achievement test prepared by NCERT & SCERT, Reviewing text book, developing TLM etc.

It is Proposed to involve the DIET's faculties to strengthen the 'B' and 'C' Category school(with adequate resource inputs) into 'A' category school.

It is planned in a nut shell that the DIET shall provide all sorts of inputs i.e., monitoring and supervision, TLM – development, Innovative activities and Research and Evaluation by the Teacher Educators. The DIET shall keep constant contract with the D.E.O,

BRC, & CRC. Necessary supports in terms of Travel Allowance and other allowances (vehicle), Stationary support will be provided to the DIET.

5.22 Curriculum & Text Book Review :

The curriculum Review of elementary education is done by curriculum review committee in state level from time to time, under the guidance of SCERT and OPEPA.

No separate exercise is proposed for this purpose because the curriculum will be reviewed in the state level for proposed SSA district.

5.23. Curriculum for Child Labour

SSA has given importance to provide elementary education in terms of equity. Therefore it is proposed No. of Child labours in age group 9 - 14 yrs. To be enrolled in AIF centres. One residential bridge course camp to be organised for them. Further variety of TLM & other pupil interactive materials will be developed reflecting various subject areas. Activity centre approach with joyful learning activities to be followed for the transaction of learning experiences.

5.24 Pupil assessment procedure (Primary / Upper Primary)

The existing procedure of assessment is not reflecting the entire development upon learners. The present examination system has given emphasis on cognitive abilities of the learners. The effective & psychomotor aspects are not measured by the traditional systems of assessments. Therefore it is to be planned the continuous & Comprehensive evaluation to be followed from the beginning of the session. It is also proposed that students cognitive, effective on psychomotor aspect to be covered to measure the creative, aesthetic psychomotor attitudinal behaviour rather than the information acquisition through memorisation and they will free from fear, anxiety & tension

Therefore it is proposed to conduct oral test, written test, performance test etc to be followed. According to the nature of the test periodically & areas of assessment management & administering etc will be reviewed accordingly.

Inputs

- ◆ Workshops for the development of strategies on assessment procedure in elementary stage.
- ◆ Orientations of teachers & other field staff on continuous & comprehensive evaluation.
- ◆ Workshop for the elementary teachers for the development of test items.
- ◆ Provision of Question Bank at CRC and BRC level.
- ◆ Discussion of pupil assessment procedure in CRC level meeting.
- ◆ Assessment of pupil performance for all classes as internal basis one time per year.

5.25 Planning of teachers training

With the collaboration of DIET faculty (IFIC) and (P&M) Planning & Management (*In-service & Field Interaction, Innovation & Co-ordination*)

Dish. Project office will develop the need assessment tools to find out the Training needs of the In-service elementary teachers, the need assessment tools will be administered among the teachers as diagnosis basis to find out the hard spot of specific subject area for the capacity building of them.

It is proposed that workshop to be organised for the teachers training in BRG. The District Project office will prepare a comprehensive list of training programme that are to be conducted.

5.26 Target Group

The target will be Primary Upper Primary School teachers, Headmasters of Primary & Upper Primary, ECE instruction E.V. instructors & Supervisors, VEC members, NGOs members and child labour instructors.

5.27 Duration – Frequency - Venue

Duration of the Training Programme depends on the nature of the training frequency of the Training depends on the number of the Trainees. The venue will be nearer to the trainees, such as the DIET, DRC, BRC & centre schools

5.28 Infrastructure facilities

Creating congenial atmosphere and facilitating the Joyful & easy learning to the child necessitates provision of facilities like Additional class room, Additional enrolment, new buildings to schools without building etc. Peoples estimation and actual expenditure must be displayed on each new construction.

5.29 Civil Engineers

One civil Engineer will be appointed on consolidated pay for quality construction of civil works with SSA Norms.

5.30 Training to V.E.C / PTA / MTA / P/R Menu

For the de-centralisation of power the village Education committee plays a crucial role for the effective functioning of Pry/Upper Primary /BGS / A.I.E

The VEC should prepare their village plan in grass root level keeping of their needs. They will evaluate their plans periodically for implementation of this strategies perfectly. Therefore regular orientation is proposed on following aspects.

- ◆ Goal & Objectives and norms of SSA
- ◆ Execution of Civil works.
- ◆ Academic issues & school monitoring.
- ◆ Out of school children, enrolment and retention.
- ◆ School beautification and other infrastructure facilities
- ◆ Maintenance of School building.
- ◆ Creation of school fund.

Pedagogy and Teachers Training

To improve the skill of the teachers, training is a must. For the purpose 8013 teachers of this district are to be trained phase wise in projected manner.

The details of which is reflected in Table V(A), V(B), V(C)

Additional Teachers

As per pupil teacher ratio 1:40, the additional teachers are required in Primary school 1294 in Upper Primary School and for new Primary School 166 and new Upper Primary School 54.

The details are shown in table - V(D)

School less Habitation

To cover the unserved habitation 292 no. of EGS center have been opened in the district and 697 EGS centres are proposed for opening Table V(E) reveals the fact. In Table - V (F) it is reflected that 6761 children in AIE Primary and 9519 children in AIF Upper Primary are targeted for getting education.

The EGS primary will be upgraded to Primary Schools from 2004 to 2007 as detailed in table V (G).

In our district out 1317 school less habitation 177 habitation for formal Primary and 1045 habitation for EGS Primary will cover 1222 habitations. Rest 95 unserved scattered habitation will be left which will be covered by opening of AIE centers. The details is reflected in Table V (H).

79362 out of school children ($11010 + 2055 = 13065$) will be benefited by opening of new primary school and ($30,360 + 27,669 = 58129$) children be benefited by proposed EGS centers and ($4591 + 3577 = 8168$) children will be benefited by opening of AIE Centres which is reflected in Table V - (I).

Computer education for Upper Primary level

To develop the knowledge of computer education in Upper Primary level 90 schools will be supplied with computer by which 389 feeder schools 39773 students and 1742 teachers will be benefited. Reflected in Table 5 (J).

COMMUNITY MOBILIZATION

Community mobilization and participation is considered as one of the major interventions to achieve the goal of SSA. The stronger the linkage between the school and neighbouring community, the greater is the effectiveness with which the school functions. It is observed that unless the people were mobilized or made aware of different objections of SSA, their role in sending a child to school, ownership of school, the success of the programme cannot be achieved. The environment for acceptance of the programme is to be created through mobilization of community. To achieve the target of enrolment, retention and quality of education, people participation is highly necessary. It is therefore proposed to strengthen VES / SC at grass root level through various activities.

The following strategies are suggested for community mobilization and participation in order to make UFE a success in the district

- ❖ Campaigns, awareness building for the mobilization and participation of community in the management of schools and to take up citizen initiatives for improvement of schools.
- ❖ Making Parent – Teacher Associations functional and improving home school links.
- ❖ Frequent visit of community / parents to the schools and enquiring about the quality of children education and school facilities.
- ❖ Capacity building of community management structure i.e. school committee / VFC / PTA / MTA, Youth organization NGO etc. for their participation in school matters by way of orientations, exposure visit sharing sessions etc.
- ❖ Convergence between various self help group for the education of all the children.

- ❖ Awareness building and sensitization of community on child labour and their educational issues.
- ❖ The Block level monitoring staff along with the district level community mobilization co-ordinator shall monitor all the programmes of community mobilization and participation. It is proposed to impart training 24968 community leaders - Table-V enclosed herewith.

The following activities are proposed to be under taken during the plan period.

- ❖ News letter and materials development.
- ❖ Wall printings in all CRC schools
- ❖ Posters
- ❖ Hoarding
- ❖ Enrolment Drive
- ❖ Orientation to school committee / VEC
- ❖ Exposure visits to school committees and other groups.
- ❖ Training to school committee on civil work.
- ❖ Bala Melas at Basti level
- ❖ Mobilisation of opinion makers and cultural groups.
- ❖ Convergence of services
- ❖ Organisation of Mela at Basti level from VEC / Teachers / Parents / BRP
- ❖ Block level meetings and motivation camp for child labour.
- ❖ Production of print Audio Video and multi media materials.
- ❖ Press meet.

CIVIL WORKS

Main aim of Sarba Sikshya Avijan is to provide a study atmosphere to all the children under age group of 6-14. All the children will continue there learning process under the roof of the building. Necessary steps are being taken up to provide a building to all building less Primary schools. No child will prosecute there study under the shade of the tree. After care full observation and survey efforts are being made to supply at least two roomed building to every primary school. More over additional class rooms are required for crowded schools. The district planning aims at providing infrastructure facilities like compound walls, toilets, drinking water facilities & storage facilities. The district planning has a proposai of involvement of community in the civil work.

Role of community. :-

The community (School committee or VEC) will provide land for construction of building and additional class rooms.

The school committee will be given the responsibility of under taking construction work.

Community will participate in case of repair of school building and its maintenance with the district planning.

Planning for civil works

- ❖ Construction of Building for Building less primary schools.
- ❖ Construction of additional class rooms
- ❖ construction of CRC & VRC buildings
- ❖ Repair of school buildings
- ❖ Construction of tube wells, Toilets, Boundary walls etc..
- ❖ Construction of building for newly opened primary schools.

Construction of BRC Buildings

Each block should have a BRC Building to be constructed at the Block Head quarter with the unit cost of Rs. 6,00,000 each. Balasore district needs 12 BRC building for 12 Blocks.

Construction of CRC building . Taking 14 to 15 primary, upper primary, EGS Centres, A.I.E. centres and other category of schools, a cluster has been constituted which needs a building of its own for its functions. Blockwise cluster centres has been shown in the table. ✓(1). Total CRC - 203

Building for Buildingless Primary Schools

Blockwise buildingless primary schools has been calculated which no building at all or have dilapidated building. Buildingless P.S. - 96 and U.P.S. - 41 shown in table - V(2)

Construction of additional class room

Construction of additional class rooms has been taken up considering the single room buildings and rooms required according to the numbers of teachers in the school and also separate room for the Headmaster in upper primary schools. Total 2343 shown in Table V(4)

Opening of new primary schools : & U.P.S.

Some crowded habitations have been selected as unserved habitations which need opening of new primary schools ^{& U.P.S.} as per term and conditions of SSA. by upgrading EGS which is reflected in Table - V(4)A

Repair of School buildings.

Some existing school buildings shown in the table have dilapidated buildings which need either minor or major repair. 470 schools Table V(5)

Construction of school boundary walls :

Most of the schools have no boundary wall for beautification of school campus and protection of school children from the outside. 2272 schools Table V(5)

Construction of Toilets and sinking of tubewells :

On sanitation programme all the school should be supplied with toilets and tubewells. Toilets 1891 Table V(5) Tubewells - 752

Procurement

Planning for procurement is an essential component of project management. A committee is to be constituted for procurement. The committee shall comprise of following members :

- | | | |
|--|---|-----------------|
| 1. Collector & Dist Magistrate Balasore | - | Chairman |
| 2. ADM Balasore | - | Member |
| 3. Dist. Treasury Officer | - | Member |
| 4. Dist Project Coordinator | - | Member Convener |
| 5. Inspector of Schools, Balasore | - | Member |
| 6. District Inspector of Schools, Balasore | - | Member |
| 7. General Manager DIC, Balasore | - | Member |

Four members including chairman, shall form the quorum. For effective management of expenditure the Project Coordinator shall prepare a month wise detail procurement plan.

PROCUREMENT

CHAPTER - VI

FOCUSSED GROUP

- ❑ Disabled Children
- ❑ Girls Education
- ❑ Education for SC & ST
- ❑ Early Child Care & Education
- ❑ Education for urban Deprived Group

CHAPTER – VI

Coverage of Special Focussed Group

There are some special focused group in the district whose development in the sphere of education is of vital importance and any plan for the development of education will not be successful without their upliftment. The groups as mentioned below are considered as special groups.

- i. Disabled Children
- ii. Girls Child
- iii. SC & ST Children
- iv. Urban Deprived Children in slum areas.

I. Education for Disabled Children

The most important group who need special care are disabled children. They are to be covered under I.E.D. On the basis of family survey conducted as a part of the pre-project activities 2834 disabled children have been identified between the age group of 6 – 11 and some 2025 have been identified between the age group of 11 to 14 in the district. The disabled have been classified such as V.I., H.I. M.R. & O.H. etc.

The table NO. VI (2) and VI (2) show the child population and out of school children of disables respectively.

For the upliftment of disabled children the following strategies should be adopted.

- i) Identification of the children with special education needs.
- ii) Yearly medical check up of the children
- iii) Supply of equipments as per need
- iv) Main streaming the children through IED
- v) Free supply of TLM & Text Books
- vi) Development of Teachers
- vii) Involvement of NGOs

II) Girls Education

The most neglected focused group in education are girls. Without their development the progress of the society will be a dream. So education of the girls should be the primary focus in "SARVA SIKSHIYA ABHIYAN". In all the activities of S.S.A efforts should be made to bring them to main stream.

The total girls child population between the age group of 6 – 14 is 206961 out of which 176321 have been enrolled similarly the number of dropouts of the girls between the above age group is 8892.

The most important aspect in the girls education which focus our attention are the girls children who are never enrolled.

The girls children between the age group of 6 – 14 comprising 351153 are never enrolled.

The net enrolment ratio between the age group 11 – 14 (adolescent girls) is less than that of the boys.

Problems of Girls Children Education

- 1) Due to poverty of the parents, girls are engaged in house-hold works, field works etc.
- 2) Rural people are reluctant to send their adolescent girls to schools
- 3) Gender bias / disparities in society for girls education
- 4) Poor status of woman in society

Strategies to be Adopted

- 1) Formation of MTA with regular meetings and other activities for regular attendance of girls student.
- 2) Supply of free text book to girls.
- 3) Creating awareness in the community for girls education.
- 4) Opening of AIE centers for girls
- 5) Special bridge course for adolescent girls
- 6) Setting up of special residential schools for girls of SC/ST community
- 7) Convergence with A.W.C. & Mahila Samity.

III) Education of SC & ST Groups

The SC & ST children are also the most important focused group whose development in education is of vital importance. The S.S.A. will not be a successful one if they are neglected. The SC children in the District between the age group of 5 to 14 comprises a considerable portion of the child population.

Similar is the case of ST children. The western parts of Balasore district like Nilgiri, Oupada and Khaira Blocks are mostly inhabited by ST population. Their development in education is a basic need of the society.

TABLE - 6A

The child population in respect of ST between the age group of 6 – 14.

Child Population	Boys	Girls	Total
SC	43,679	42,139	85,818
ST	23,442	22,723	46,165
Total	67,121	64,862	13,983

The enrolment of SC & ST between the age group of 6 – 14

Child Population	Boys	Girls	Total
SC	36,357	32,999	69,356
ST	19,016	16,888	35,904
Total	55,373	49,887	1,05,260

Problems of SC / ST Children

- 1) Lack of awareness and interest of the SC / ST people
- 2) Apathy towards education
- 3) Poverty of the People / Parents
- 4) In adequate ST Teachers
- 5) Language Gap

To overcome the above problems the following remedies are suggested.

- 1) In tribal area more ST teachers are to be engaged.
- 2) Tribal people and SC people should be enlightened on education.
- 3) Residential bridge course center preferably in ST areas are to be opened.
- 4) Training to teachers on local dialect in tribal areas.
- 5) Opening of additional EGS / AIP centers for SC / ST Children.
- 6) Taking help of NGO for mobilization among SC / ST communities.

Early Child Care and Education

(ECCE)

ECCE is an important initiative for achieving UEE by reducing the gaps in enrolment, drop out and learning achievement between gender and social groups.

ECC is an effort for the school readiness of the children in the age group of 3 – 5 and a support service for working women of the disadvantaged sections of the society. The Table below shows the Block wise child population of 3 – 5 and enrolment in existing Anganwadies.

TABLE 6.B Child Population (3 – 5 Years of Age Group) and Enrolment in AWC.

Sl.	Name of Blocks / ULB	Total No. of Child Population (3 – 5 Years)	Total No. of AWC	Total No. Children Enrolled	No. of out of School Children.
1.	Bahanaga	6529	104	5121	1408
2.	Balasore Sadar	12165	180	8683	3482
3.	Baliapal	11662	146	9783	1879
4.	Basta	13248	137	11363	1885
5.	Bhograi	17741	225	8387	9354
6.	Jaleswar	10936	149	7849	3087
7.	Khaira	7858	134	5995	1863
8.	Nilgiri	7215	141	5086	2129
9.	Oupada	4189	60	3422	767
10.	Remuna	9634	115	8696	938
11.	Simulia	8517	87	7535	982
12.	Soro	7269	101	5151	2118
	Total	1,16,963	1578	87,071	29892

The table reveals that 29892 no. of children of age group 3 – 5 are yet to be enrolled to provide pre schooling facilities it is proposed to make necessary convergence with concerned department and NGO for opening of some more number of AWC/ECCE

Inputs under ECCE

- Extending the hours of Anganwadies
- Strengthening of Pre-school components of ICDS by way of convergence and provide a stimulating environment for the children through strengthening of training & TLM component.

- ☉ Running the Anganwadies in school premises during school hours under the supervision of Head Masters.

Convergence

Convergence with the Anganwadi centers of ICDS, along with the centers run by NGOs. Conduct of quarterly reviews at divisional level with the functionaries of ICDS, NGOs and SSA programme officers to review the functional aspects of the Anganwadis.

Education for Out of School Children (EGS / AIE)

Govt. of Orissa seeks to universality access to schooling facilities based on community demand to reach the deprived areas / sections in a time bound and cost effective manner.

Efforts are being taken through Education Guarantee Scheme (EGS) and AIE to ensure primary Education facility to the children in a habitation where there is no such facility within 1 Km. Within a period of 100 days on receiving a demand for such facility by the local community.

The district has 1317 no of habitation without schooling facility and there are 79362 no. of out of school children (dropout and never enrolled) who are to be provided the above facility.

Basing on the density of population in a unserved habitation and no. of learners 83 no. of Primary School, 27 no. of U.P. Schools 697 nos. of EGS Centres and 161 nos. of AIE (U P.) centers are proposed in the plan.

To ensure cent percent access and retention of the out of school children the following strategies are to be taken up.

- ☉ Conducting Annual Survey
- ☉ Awareness Campaign among the Communities
- ☉ Enrolment Drive
- ☉ Monitoring Regular attendance by the teachers and school committees.
- ☉ Promoting conducive environment in the school for retention of students.
- ☉ Providing incentive like free Text Book and other Reading Writing materials.
- ☉ Extending MDM facility to EGS centers.

Education for Urban Deprived Children

In Balasore District there are four urban areas ;

1. Balasore Municipality
2. Jaleswar NAC
3. Nilgiri NAC
4. Soro NAC

In these urban areas a number of out of school children are found in doing different works to earn their livelihood and to support the family. The present situation needs to focus on the educational need of these deprived children. Survey exhibits the growing problems of schooling of poor children in urban area. Due to different management, schools in urban areas are still far away for achieving UFE. Wards, Urban slums are taken as Unit of planning in urban areas.

TABLE-6(c)

The details of wards, slums and schools are given below :

Sl.No.	Name of the Urban Areas	No of Wards	No. of Slums	No. of Schools	
				Primary	Upper Primary
1.	Balasore Municipality	28	9	40	21
2.	Jaleswar NAC	16	3	10	08
3.	Nilagiri NAC	14	4	14	05
4.	Soro NAC	26	4	22	09
Total		84	20	86	43

The following activities are proposed to be under taken in Urban area of the district for the education of deprived group.

- Education for street children / plat form children
- Education of children whose parents are engaged in busy professions.
- Education of children working in Slums.
- Education for children working in industries, household, hotel, garages, dhabas, shops etc.

Efforts have been made for UEE of children in urban areas through convergence with associated Department of Govt. of Orissa, Urban local bodies and NGOs.

Education for Street Children / Platform Children etc.

During survey it was found that a good no o children are restoring to street begging and cleaning the train compartment and begging for money some are working as rag pickers. They are detached from their home and families and almost pass their life in street and platform.

It has been proposed to bring such children to schools and give them a new meaning to life. In Balasore district it is proposed to set up 14 no. of residential camp for education of such children as detailed in the following table.

Table-6(D)

Sl.No.	Name of Urban Areas	Total No. of Children Identified for enrolment	Target Camp proposed	Duration
1.	Balasore Municipality	226	5	2 years
2.	Jaleswar NAC	92	3	2 years
3.	Nilagiri NAC	98	3	2 years
4.	Soro NAC	102	3	2 years
Total		518	14	-

Activities to be umler taken for the education of above children. Table 6 (1)

- Mobilisation of parents
- Opening of Residential Camp
- Providing work experience activities
- Convergence meeting with Railway and other Departments.

TABLE 6.1

Urban Area Development Programme of Balasore District

Name of the NAC/Municipality	Name of the Block	No. of Slum Areas	No. of other Units	Out of School Children		Programmes or activities			
				6-11	11-14	Type	No.	Type	No.
Balasore Municipality		10	4	1731		A/E	3	A/E	5

78(A)

ECCE in Urban Areas

In urban areas due to the engagement of parents of poor families in different professional work their children in the age group of 0 – 6 are regulated. In some cases girls children in the age group 11 – 14 are engaged in sibling case. In both ways it is hurdle in achieving UEE. The following tables shows the number of children deprived of pre-primary education in the urban areas of the district.

Sl.No.	Name of Urban Areas	Child Population (3-5 years)	No. of children enrolled in pre-primary private managed education center	No. of children required pre-primary education facility.
01.	Balasore Municipality	4,071	3234	837
02.	Jaleswar NAC	923	552	371
03.	Nilagiri NAC	320	212	108
04.	Soro NAC	1027	729	298
	Total	6341	4727	1614

1614 no. of children are deprived of pre primary education in urban area of the district.

Necessary convergence is proposed to be made with the NGOs working in urban area to open some more ECCE Centre for enrolment of the out of pre-school children of 3 – 5 years with a financial support to the tune of Rs. 300/- (Rupees five hundred) only per year child out of SSA budget.

Convergence to be made with ICDS Department for nutritional support.

Education for Children of Slum Area :

Due to rapid urbanization in Balasore new slums are rising fast. As the parents belong to working class they seldom care for schooling of their children.

The following activities are proposed to be undertaken for the education of slum children.

- Identification of such slums and children deprived of schooling facilities.
- Mobilisation for enrolment in formal schools.
- Setting up of special camp schools for these who are out of formal schools.
- Checking up of health of the children.
- Convergence with associated department of govt., urban local bodies and NGOs.

Civil Work in Urban Areas :

It has been observed that no building has been constructed in urban areas for years together.

The urban departments has not been able to provide funds for additional constructions while the schools are gradually swelling with children due to rapid urbanization.

The present scenario as regards position of building in the urban area of the district as given below :

Sl.No.	Name of the Urban Areas	No. of Schools	No. of Less Building	Additional Class Room Required
1.	Balasore Municipality	61	-	46
2.	Jaleswar NAC	18	-	18
3.	Nilagiri NAC	19	-	17
4.	Soro NAC	31	-	27

CHAPTER - VII

RESEARCH, EVALUATION, SUPERVISION AND MONITORING

 Management Information System

 Computer Education

CHAPTER-VII

Research, Evaluation, Supervision and Monitoring

Research:

All the academical programmes are to be brought together under the umbrella of research for its quality improvement. The focus of the research will be centralized on the time based and society based education which reflect the aims and objectives of SSA for UEE. The problems from every corner, i.e. from school to the District level should be examined in the research laboratory of CRC, BRC, DRC and DIET to reach at the effective conclusion for successful implementation.

Scope of Research :-

The scope of research on education is unlimited. All the programmes of educational system such as follows are under the sphere of research.

- ◆ Environment of teaching and learning process
- ◆ Teachers problem in imparting teaching
- ◆ Involvement of society in the school management to ensure achieving the target of enrolment retention and drop out.
- ◆ System of Evaluation
- ◆ Supervision and monitoring
- ◆ Special problems of SC/ST/Girl/disabled community minor students.
- ◆ Refresher and short course training for teachers
- ◆ Supply of free text books
- ◆ Supply of furniture to the schools
- ◆ Civil work.
- ◆ Management information system
- ◆ Survey of SSA for UFE

Aims and objectives:

Aim and objective of research is to present a fruitful educational system to the society. The community wants a free, fair and filtered education which is the product of research as follows:

- ❖ To create a healthy study atmosphere
- ❖ To bring all the children from all quarters in the age group of 5-14 to the school for UFE.
- ❖ To provide a building to each institution for this purpose.
- ❖ To eradicate the problems of children and teachers
- ❖ To subside the problems of ;management and community involvement.
- ❖ To make all teachers well equipped with orientation and refresher training.
- ❖ To strengthen the district planning.
- ❖ To develop efficiency in Supervision and Monitoring.
- ❖ To establish good co-operation among CRC,BRC,DRC and DIET.
- ❖ To provide guideline for updated evaluation.

Agency :

The research centres are CRC, BRC, DRC and DIET. The problems traced out shall be examined in that level first and be rotted upto district level. After careful observation the guideline will come upto CRC level and fmallly to the school. All teachers are to be sensitised over the issue.

Duration:-

The research centres will work round the year with some problems and programmes. The main output of the programme is for UEE.

Evaluation

Is the principal limb of the whole education system. The progress in implementation and achievement of the objectives laid down under SSa is to be evaluated in ;regular intervals. Every plan and programme of the project will be considered worthy and functional after proper evaluation.

Aspects:

All the functional aspects of various initiatives and their impact come under the programme of evaluation.

- ❖ Achievement of plans and programmes of the objectives of SSA.
- ❖ Evaluation of community participation.
- ❖ Achievement of pupil and teachers in the learning and teaching process.
- ❖ Internal and external evaluation of different intervention programme of impact study.
- ❖ Evaluation of training programmes.
- ❖ Evaluation of District planning and research.

Achievement:-

- ❖ It enhances the efficiency of teachers
- ❖ Creates competition situation among the teachers.
- ❖ Children feel self-sufficiency.
- ❖ Goal of the education is preserved
- ❖ Makes all the system alert.
- ❖ SSA and UEE are accelerated.
- ❖ The micro planning in Elementary Education proves its genuinity.

Supervision and Monitoring

Supervision and monitoring the most important ingredient of the system. Supervision and monitoring acts as the flesh and wood to the skeleton of the SSA and UEE.

Aspects:-

The aspect of supervision and monitoring is broad as follows:

- ❖ Whole learning process
- ❖ Whole teaching process.
- ❖ Planning system.
- ❖ Management of the institutions.
- ❖ Training and Orientation programme.
- ❖ Community involvement in the field of supervision and monitoring

- ❖ Concepts of supervision:-
- ❖ It creates positive aspects of children.
- ❖ Teachers become alert and resume filtered duties.
- ❖ CRC,BRC and DIET become vigilant of their own works
- ❖ Everybody shoulders responsibility.
- ❖ System runs in the disciplined way

Steps of Supervision:

- ❖ The teacher should not be used as the handbook of all departments.
- ❖ Efficiency of the supervising authority be judged.
- ❖ Supervising would not be tault finding but sugestive.
- ❖ -Proper guideline be given after all supervision.
- ❖ It will be done in regular intervals
- ❖ Respective job charts will be supplied.
- ❖ DIET will monitor the training and orientation programme.
- ❖ DRG will monitor the function of BRC and BRC to CRC.
- ❖ Adequate initiatives will be taken up for the capacity building of community level structure i.e. school committee, VEC, centre meeting and monitor the schools for its effectiveness in community based management structure.
- ❖ All sorts of steps be given for precise supervision and monitoring of DIET, DRG and BRC.
- ❖ Each supervising authority will feed back for competencies and abilities of their subordinate officials.
- ❖ All the strategies will be reviewed at the end of each academic hear.

Strategies of Research, Evaluation, Supervision and Monitoring.

Some new strategies have been projected in the district planning on Research, Evaluation, Supervision and Monitoring to modernise the traditional methods and to bring qualitative improvement in Elementary education comparison has been made and planned system has been traced out in each case. SSA needs the upto-date and modern pattern of education for the successful participation of children, teachers and the whole machinery to give birth to an en lighted society.

STRATEGIES OF RESEARCH

NO.	FACTORS	EXISTING SYSTEM	SYSTEMS PLANNED
1	EXISTENCE OF RESEARCH CENTRE	There is no block or district level research centre only SEERT is there at the state level.	Main role will be played by CRC, BRC, DRG and DIET for cluster, Block and district level respectively.
2.	AGENCY	Only DIET is imparting training to the teachers which is quite insufficient	Cluster research centre, Block resources centre and District resource group with the leadership of District project officer are there. All the problems and issues will be vividly examined in differentiable and finally at District level universal guide line will be issued to be accepted by all.
3.	DURATION.	DIET provides orientation training to the teachers only for a week during a session which does not	CRC, BRC, DRG, and DIET will function round the year. It will impart 20 days of Orientation training to each teacher in a year cover all numbers compulsory.
4.	METHODS	The art, method and the processor training is the outcome of SCERT which arm down to DIET.	It is the reverse of the existing system All decisions will be taken up from CRC level and come up to District level.
5.	PERSONNELS	All decisions and executions are done by the DIET. There is no role of S.I of Schools or D.I. inspecting Officers.	All the machinery will be engaged S.I. of Schools and D.I. of School Will be directly involved.
6.	Subjects	Only orientation and refreshers training are being imparted, Other issues are not given wastage only it looks the teaching capacity No importance is being given on the civil work. S.I. of schools and the D.I. of Schools are away from the action of DIET self directory inspection and supervision is going on. Not much emphasis is being given	It will take up all the issues like scheme, syllabus, enrolment, reiteration, dropout, SC & ST children, girl students, disabled Children along with the methods of teaching. Proper alternative will be centralised on the civil work for all round development and beautification of each institution. S.I.S and D.I.S. Will be completely involved in the complain Universal rules on supervision and inspection will be accepted. All the inspecting and supervising officers will remain

on supervision.

Responsible at the district machinery for their duties.

7.

FUNDS

Limited and unplanned amount of funds are placed to the DIET for its function.

Adequate funds are placed in the district planning for its perfect function.

8.

COMMUNITY INVOLVEMENT

involvement through P.T.A. & VEC are taken up which are not encouraging

Community participation in case of Civil work and management will be highly encouraged motivation will be shouldered by the community.

EVALUATION :

TERMS AND KINDS.

Only internal evaluation of the students is being done twice in a year. No external evaluation is being done. Progressive report of all students is not compulsory and all the teachers are not following the method. No fo... action is being taken.

Both internal & external evaluation of the children will be done . The appropriate record will be maintained and concerned parents will be intimated accordingly Responsibility will be fixed up on poor performance.

SYSTEMS

Present system is not adequate. There is no role of inspecting officers system. Unit test is not being given importance.

Monthly it will be reviewed & unit test is compulsory. Much scope will be given through cultural activities to build up personality

PARTICIPANTS

Only the students are considered for evaluation No inspecting or supervising officers or any educational institution are being evaluated. The duties and the function of all cadre in the department are away from evaluation.

All the students, all the inspecting and supervising officers, CRC, BRC, DRC aw DIET will be evaluated for their function time to time. Orientation programme will be organised for inspecting officers to develop their ability.

SUPERVISION & MONITORING

AUTHORITY

Only S.I. of schools for primary schools and D.I. of Schools for upper primary schools are functioning as the supervising authority.

All the S.I. of Schools all the D.I. of Schools and the member of DRG and the instructor of DIET are empowered for inspection & Both Primary and upper primary Schools

PERIOD

The job chart of the inspecting officers says for inspection of each

The inspection of each school will be done more than twice a year when DIET and DRG will be

school twice in a year and to visit as many as times. The S.I. of Schools are over burden with non-educational works, Hence the work of inspecting and supervising suffers. They donot get sufficient time to cover the term.

engaged alongwith the S.I. of Schools and D.I. of Schools. The Inspecting and Supervising officers will be free from non-educational works. The Inspection will be free, fair and frequently due to the increase of inspecting personnels.

3. RESULT

Only the Inspection report of S.I. of schools and D.I. of schools are reflected in the visit book No followeeep actions are being taken up on the problems and issues found All educational offices in different level are not level are not supervised by the higher authority

All the findings are to be reflected and reviewed by the next higher authority and finally at the District level. SSA gives more importance on inspection and supervision CRC, BRC, DiET are the agent of Supervision for their sub-ordinate offices. They will co-ordinate to the job of S.I.S and D.I.S., The function of CRC, BRC will be to supervised regularly.

4. MONITORING.

Community is not manitoring the school management Sincerely P.T.A. & School committee are not functioning properly.

Steps are being taken for fomation of PTA, MTA, & school committee. They are empowered to monitor the School management.

Management Information System (MIS)

The project management system plays a key role in DI:EP. MIS help the Project Co-ordinator to collect data, analyze it and use effectively in time. It has two components.

- Educational Management Information System (EMIS)
- Project Management Information System (PMIS)

The EMIS provide information about the education related problems and management of educational institutions. The EMIS Data are collected in 30th September of each year to know the enrolment position, retention of the learner, in state level for better planning in education. It is proposed that EMIS should be developed in BRC level as per strategies and activities stated below :

The PMIS provides information about project and its management.

Management Information System (MIS)

Sl.	Activity	Objective	Strategy
01.	Training for collection of EMIS and PMIS data	To create an update and reliable data base.	The data are to be collected jointly by the teachers and computer personnel's.
02.	Monitoring and supervision of data collection	To ensure accuracy in the process of data collection	A team of experts / squad of experts to make field visit for supervision.
03.	EMIS and PMIS	To store the data in computer	Data entry is to be uniformly done by the trained data entry operator
04.	Availability of the school level data at BRC and CRC	To use the data for selection of teachers training / planning / distribution of different provision.	The report is to be prepared and made available at the BRC & CRC level

Intervention : Management Information System (MIS)

Computer Education

The role of computer in teaching and learning is very vital. The computer education takes place in lower classes in the developed countries and student can learn better through this with full of enjoyment. Therefore it is proposed to introduce computer education from Class – VI in the Upper Primary School for students and teachers.

The details strategy, activity are discussed as below :

Sl.	Activity	Objective	Strategy
01.	Training for teachings of upper primary on computer education.	To develop capacity building of the teachers.	The training programmes are to organized at DEG level.
02.	Development of TLM on Computer	To ensure capacity of Training for preparing TLM	-do-
03.	Availability of Computer at BRC & BRC and CRC level	To use the computer by the student under the guidance of teacher	Training to Teachers

It is proposed that out of 12 blocks and one municipality of Balasore District the Computer Education facility are to be provided to selected schools. The electrification of the schools and separate computer room to be provided. 90 Computers have been planned to provide for the selected schools of the district.

Activities under the intervention that are to be taken during the first year of the period are as follows :

- i. Training for collection of data at BRC / CRC level.
- ii. Monitoring for collection of data at CRC level.
- iii. Updating the so collected data in time.
- v. Supply of equipments for MIS – 1 Phase.

CHAPTER - VIII

PROJECT MANAGEMENT STRUCTURE AND INSTITUTIONAL CAPACITY BUILDING

CHAPTER - VIII

IMPLEMENTATION ARRANGEMENTS

OBJECTIVE & TARGETS :

The situational analysis in previous chapter indicates that the States of Elementary Education in this district is very poor in the hilly areas, SC/ ST areas, flood attached areas and some parts of coastal belt. To ensure universalisation of Elementary Education for all target population (within age group of (10,11,14) Which is a mandatory constitutional provision, different intervention relating to accuse enrolment and rotation, pedagogical improvement, capacity building and quality improvement need to be planned. The plan should be divided into three categories

- i) Project Management ii) Civil Work iii) Quality Improvement

1. ORGANISATION RESPONSIBLE FOR THE IMPLEMENTATION OF THE PROGRAMME :

The actives under S.S.A is implemented by an autonomous organisation like OPEPA, an implementation agency for DEEP programme in the state. The OPEPA in functioning for planning, implementing and monitoring the project formulated for achieving the objects of DEE programme as out lined in the project document. The School and Mass Education Department of Orissa has difference branches with defined powers, functions and responsibilities for qualitative education. There is a well structured state level office (DEEP) for implementation of UEE in different districts. For decentralisation of powers, supervision, monitoring and evaluation, there should be district, Block and Cluster level offices.

In view of proposed programme for UEE through SSA in this district organisation structure in proposed as follows-

2. EXECUTING AGENCIES AT VARIOUS LEVELS :

(Project Management Structure)

The OPEPA will execute project components through the following agencies in SSA for the district. The proposed project shall be managed in a decentralised manner. Four levels

of management system shall be introduced for effective implementation of programme.

A) Village level Structure

B) Cluster Level Structure

C) Block Level Structure

D) District Level Structure

A) VILLAGE LEVEL STRUCTURE :

To manage the programme at grass root level in Village level/ Hamlet level, a village Education Committee is to be constructed through community participation as per school and Mass Education department circular EYS- 2570 of 19.01.1991 taking the following members

MEMBERS OF VCE :

- i) Parents of students - 6months
 - a) Three male members out of which one must be SC/ ST category.
 - b) Three Female members out of which one must be SC/ ST category opposite to "a".
- ii) Sarpanch/ Ward Members/ Councillor (in case of NAC/ Municipality) =1 member
- iii) One member from voluntary organisation/ Mahila Samiti / Youth Sangh= 1 member
- iv) Headmaster of concerned Pry/ U.P. School - 1 member secretary

N.B. : Out of six guardian members one should be elected as president of the committee.

This committee shall be the real grass root level structure to manage the Pry/U.P. Schools. The committee should be associated with Parent, Teacher, Association and Mother Association. Hence this committee shall be strengthened with due training and orientation on its role and responsibilities. They should be realistic need based in their work and responsibilities. The VEC will be empowered to execute all type of civil works at school. They shall identify and provide the free load and drinking water facilities for opening of

new schools and EGS , A&E and ECCE centres and invite other contribution in cash from the community. The important functions of the VEC and other village level agencies-

- participate in the preparation of village education plan.
- Conduct a educational survey work and prepare village social map.
- Record list of children who are in school and out school, unenrolled and dropout children and other resources.
- Chalk out plan for mobilising community and parents to sensitise them on the issue of child labour and their educational supports for improperness the infrastructure facilities.
- Manage the school education fund for school development.
- Ensure 100% enrolment and retention of all children (age group 5 to 14) in the village and take steps for better attendance.
- Ensure over all performance of the school.
- Recruitment of alternative school instructor.
- Mobilise the PTA/ MTA.
- Mother Association can monitor the ECCE centres in the village for main streaming the out of school children.
- Mother Association indentifies location for ECE centres.

The VEC members/ S.C./ NGO members will be trained and oriented for the same.

A villlage planning team will be formed taking 5-7 members among the teacher, VEC, present, MTA, PTA, PRI members and NGO.

B) CLUSTER LEVEL STRUCTURAL :

There will be a cluster centre taking 14-15 Prv/ U.P. Schools in a locality where there will be building for training of teachers, VEC/ MTA:/ P.T.A./ P.R.I. members

etc. and meetings efficient and experienced level - III of elementary cadre will act as CRCC (Cluster Resource Centre Co-ordinator) for implementing the programmes of SSA in grass root level and co-ordinating with BRC. The person acting as CRCC will be deployed from among the teachers by CRCC will be basically responsible for providing academic input to the teachers and act as a liaison person between school and community. CRCC is expected to form a team of resource person for his cluster taking members from VEC/MTA/PTA/NGO/Teachers leader of the village villages who will supervised monitor the academic progress of the programme. This team will act as a catalytic for 100% enrolment and retention by sensitisation of community.

Block Level Structure :

At the Block level, a Block Resource centre will be set up which will be headed by a Block Resource centre Co-ordinators. Who will be selected from one of the S.I.S> or Sr. most efficient teachers of level - II cadre of elementary Education to provide academic support to the teachers and to ensure active participation of the local community for effective functioning of the school system and achieving the National goal of UFE in its true spirit. He is to co-ordinate with C.R.C. BRP, BRG, Block planning team and DRC. A Block Project centre (BPL) will be functioned. An infrastructure will be developed at the BRCC with residential training facility. 20Nos of Block Resource Persons (BRPs) will be selected and deployed from among the S.I. of schools and IIMs of U.P. Schools, and High Schools and attached to BRC for imparting training, supervision, monitoring and evaluation of the programme. A Block Resource Group (BRG) of 2(two) RPs will attached to BRC. The BRPs and BRGs will supervise and monitor the functioning of schools and C.R.C. and UFE interventions. It will under take annual evaluation on performance. A Block level Executive committee planning team will be constituted to prepare annual plan for the Block. The Block team will prepare target charts for CRS.

Members of Block Planning Team.

1. Block Development Officer - Chairman.
2. Chairman of Panchayat Samiti - Vice-Chairman.
3. BRC Co-ordinator- Member Secretary.
4. All S.I. of Schools- member
5. Headmasters of Pry/up - 15 do-

6. P.R.I. members - 3 - do -
7. Leading NGOs - 2 - do -
8. C.D.P.O ICDS Project - 1 do -
9. Social Education offer - 1 - do -
10. Welfare extension officer - 1 - do -

One BRC will be constructed nearest to the block office within a school campus. The office will run by the following staff .

Staffing Pattern of BPO

1. Block Project Centre Co-ordinator-1- Deployed for level - III .
2. Block Resource Groups - 2 (BRC)

DISTRICT LEVEL STRUCTURE

The District level programme shall be implemented through District Project Co-ordinator or D.P.O. The District Project Co-ordinator shall remain in charge of the programme at district level. A District executive Committee will be formed under the Chairmanship of Collector, and District Magistrate Balasore to over see the DPO in programme planning and implementation of the programme in UEE.

The members of District Executive Committee

One :

<u>Members of District Executive</u>	<u>Committee</u>
1. Collector and District Magistrate, Balasore -	Chairman
2. Additional District Magistrate Balasore.	- Vice- Chairman
3. Inspector of Schools, Balasore Circles.	- Members
4. Principal DIET, Remuna	- -do-
5. Project Director, DRDA	- -do-

6.	D.W.O., Balasore	- -do-
7.	D.S W.O., Balasore	- -do-
8.	C.D.M.O., Balasore	- -do-
9.	District Information - NIC Bls.	- -do-
10.	District Planning Officer, Bls.	- -do-
11.	District Development Officer	- -do-
12.	District Inspector of Schools Balasore-I, Balasore-II Soro Balasore- III, Basta, Jaleswara and Nilgiri	- -do-
13.	Project Director NCLP	- -do-
14.	District Project- co-ordinator- DEET	- -do-

The above committee shall be the decision making authority at the Dist level for successful implementation at the Dist level for successful implementation of the Programme.

A core planning consisting of 7 members team has been formed at District level headed by one District Education Officer/ D.I. of Schools Soro and entrusted with the task of preparation of Annual Plan for the Dert....

At the District level for recruitment, procurement, monitoring & supervision and evaluation. Besides several intervention- specific District resources Group (DEG) will be formed with experts in the line to guide the project activities & turning programme.

STAFF PATTERN FOR THE DISTRICT PROJECT OFFICER:

	<u>No of Posh</u>	<u>Cadre</u>
1. Dist Project Co-ordinator	One	In the cadre of OE S-II Cadre
2. Dist.- Co-ordinator MIS & Planning	One	
3 Dist-co-ordinator Civil Work	One	
4 Dist. Coordinator Training SC/ST	One	

5.	Dist Coordinator for Girls & E.C.C.E. & Community Mobilisation	One One
6.	Dist. Co-ordinator IFD & EGS	One
7.	Asst. Engineer	One
8.	Junior Engineer	Twelve
9.	Programme Assistant Sr.	One
10.	Programme Assistant Jr.	Two
11.	Data Entry operator	One
12.	Steno- Cum-Typist	One
13.	Peon (Contingent)	One
14.	Sweeper Cum Watchman	

The table is shown in Annexure-I

District Project office will be set up at the District Head Quarters. The District Project Co-ordinator (in the rank of OEB- II) will be the head of the office. He will be appointed by the Education Department with the knowledge of chairman District Executive Committee, D.P.O. Shall have the powers and responsibility to carry out various initiatives for UEE in Consultation with the all D.I. of Schools in the District under the chairman ship of Dist. Collector who is the chairman of S.S.A. committee subject to entitlement jurisdictional competence Co and delegation of financialisation and administrative power as decided by the District Executive Committee. At the District level there will be a group of resource person (DRG) consisting of 10 (Ten) members for training monitoring & evaluation of the programme. They will be selected from the teacher from DIFT, STS and efficient, retired teachers and leading NGO's

CONSULTANT SERVICE :

For the smooth running of S.S.A the project will need guidance from OpEPA, SITE, SPO, Office, state project co-ordinator, state resource persons and experts in from line-to-line therefore it is proposed that the consultant service will be provided to co-ordinate different sectors of the project. So the financial provision may be made for consultant service. will be provided to co-ordinate different sectors of the project. So the financial provisions may be made consultant service deligation of finaltial and administrative powers as decided by the District Executive Committee.

PLANNING AND MANAGEMENT :

Implementation of proposal project depends upon careful planning and continues monitoring. This requires several review meetings or supervision strategies. So it is proposed that annual work plan shall be prepared in each scheduled year. The annual work plan will show monitoring supervision and feed back strategies and this should be reviewed in the end of each year. Before preparing the annual work plan for the forth coming year, the defects, major gaps in planning process, target fixed in the previous year and its achievements, intervention progress should be chalked out success and failure of the programme shall be reviewed and feed back can be obtained. Basing on the feed back, consultation with educational administrators in all levels and advisor bodies may be required.

For the purpose, half yearly review meetings/ Workshops, of two/ three days duration shall be organised at Block levelled district level. Accountability may be fixed for better performance.

PUBLICATION OF DRC/ BRC JOURNAL AND DRC/ BRC REVIEW BOOK :

At BRC level half yearly bulletin containing information on enrolment, retention, VEC/ MTA/ P.T.A. meeting, process of civilisation supervision of officers to school, utility of all financial grant, problems of teachers, students, community and all types of achievements and draw back should be reflected. This shall help for reviewing at DRC/ BRC/ DRC Level and following up action can be suggested accordingly to avoid the obstacles in the system and follow up activities shall be suggested by all levels.

REVIEW MEETING :

In order to access day to day programmes of programme monthly BRC/ CRC meeting shall be held. In addition to this quarterly review meeting of two days duration at Block level shall be held in each year. The review meetings workshop at district level / Block level CRC level shall be held with all types of agencies and remedial measures will thought of for yearly micro planning. Monthly review meeting of Executive Committee and Block Executive committee shall be held.

MICRO PLANNING :

Micro- Planning is to be prepared from base level to district level (village, G.P..... Block District) planning successful of the programmes. Need based plan should be prepared.

DISTRICT INSTITUTES OF EDUCATION AND TRAININGS (DIET)

DIET and STS are the premier academic institute at district level which provide all types of professional support to the teachers, supervisors and resource persons at Block level and District level and play a vital role for the enhancement of quality of elementary education.

The role of DIET & STS in the light of UEE (SSA) interventions is as follows :

- Academic resources centre in the field elementary Education, alternative education pre-primary ECE etc.
- Training of BRPs in the key areas of pedagogy, community mobilisation, planning multitrade teaching, child- centred pedagogy.
- Development of district specification training strategies.
- Conduct process as well as impact evaluation of VEE (SSA) interventions.
- Taking academic monitoring of schools.
- Take up the process of research, supervision and evaluation.

The faculty members of DIET/ STS will be the some of the core team members of District Resource ..~~Group~~ They should provided contingencies and other facilities.

TRAINING INSTITUTE AT STATE LEVEL :

The State level institution like SCERT and SIET pay a vital role in the capacity building actives of various personnel associated with UEE (SSA) interventions.

A) FUNCTION OF SCERT :

The function of SCERT is as follows :

- ❑ Conduct workshops, seminars, training programmes for district level resource personal, DIET faculty BRPs and building their capacities in the areas of gender, problems of focus groups community mobilisation, teacher mobilisation and school effectiveness.
- ❑ Innovation for quality improvement designing of TLM, developing training packages.
- ❑ Carrying out surveys and other assessment studies.
- ❑ Taking up research projects based on the requirement of UEE.
- ❑ Documenting the progress made in Primary education as a result of UEE and other interventions.

FUNCTION OF SIET :

The SIET is presently playing a vital role in the implementation of Education Television Programme in the state for bringing qualitative improvements in the class room process. In the context of UEE, SIET plays a keyrole at three stages (i) School ii) Teacher Centre iii) Diet at district level as follows :

- ◆ Supply of software both transmission and cassette mode.
- ◆ Designing and supplying of support material for maximum utilisation of Educational Technology.
- ◆ Training of user teachers in operation, maintenace and utilisation of both hardware & software.

C) OTHER AGENCIES :

The project management will also collaborate with outside academic institution like NGO with good track record

The state project officer and District project officer with its cadre and committed professional, will undertake some of the activities with the support from National State level Academic/ institution, NGOs etc.

3. **PARTICIPATION ARGUMENTS :**

To ensure participation of Stake holders including parents, teachers & community at large the project has carefully designed arrangements for implementation . Many of the interventions should be implementation through organisations headed & managed by the parents of the school going children. A number of training and contact programme have been planed to ensure regular community participation. The Headmaster would be involved in almost all crucial interventions.

As mentioned earlier the village Education Committee, Mother Association, School committee etc. play a lead role in the playing, mention in and various school improvement programmes.

The project management will operate and facilitate at state / District level at village / hamlet level, the project will be solely run by the parents & members of community. This ensure the commitment of Management to the goal of VEE and DEEP objectives. At state & district levels project management will consist of persons with prove and expertise, education to the organisation goals and willingness to work hard for the organisation.

Functional groups will interact with each other for common objectives & goals will be step with scope to contribute to spares which may not be directly with them. Main areas will be teacher Education M/s. Civil Works, gender focus groups and general managements. All should work with a missionary zeal

Accountability will be the motto of all the functionaries. They will be held accountable themselves to the assigned work. Accountability includes efficiency in use of financial resources also.

For achieving the project goals, the management will co- operate with other convergent department, NGO and other resource institutes. This will ensure sustainability of many components of the project.

FUNETRICAL ASPECTS OF DPO :

The functional aspects of DPO is as follows :—

- ◆ Development of annual work plan and budget in de-centralised participatory method.
- ◆ DPO is responsible for the implementation of all the activities as per guide lines of SSA programme through District Executive Committee and student monthly progress reports as desired by the SPO/ Director DEEP/ Govt of Orissa.
- ◆ Publication of Journals and booklets-

INPUT

The DPO office will be supported with required furnitures , equipment, salaries vehicles and other MIS equipment along with stationary and contingencies.

PROVISION OF FUNDS :

- ◆ Funds flow from S.P.O. to District Collector, en-official Chairman of SSA committee by accounts payee cheque or accounts payee D.D. as per Govt. norms.
- ◆ All funds from DPO to executing agencies like S.C., Diet, BRC, CRC through Account pay cheque or Account payee DD.
- ◆ Accounts will be maintained as per requirements.
- ◆ Reports will be sent to the SPO.

AUDIT :

- ◆ Preaudit will be done by AAO for all expenditure
- ◆ Statutory audit will be done in every year by the auditor appointed by the executive committee.

BANK TRANSACTION :

- ◆ Authorised signatory / signatories
- ◆ With Delegated competence
- ◆ Based on competent sanction.

CHAPTER - IX

BUDGET AND COSTING

CHAPTER – IX

BUDGET AND COSTING

1. Project Management

Major Strategies

- Establishment of District Project Office at District Head Quarter with the District Collector and Magistrate as Chairman of SSA programme and District Project Co-ordinator and SSA co-ordinator as the programme member.
- Provision of Equipment and other contingencies to state project office and salaries (6% of total project cost)
- DPC is responsible for implementation for all activities as per Annual Work Plan and budget and follow up the activities and furnish progress report on the performance indications of the project both in Primary and Upper Primary level to the State Project Office.

The proposed staff pattern in District Project Office is as follows :

1.	District Project Co-ordinator	1
2.	District Co-ordinator MIS and Planning	1
3.	District Co-ordinator Civil Work	1
4.	District Co-ordinator Pedagogy SC & ST	1
5.	District Co-ordinator Girls Education ECCE community mobilization	1
6.	District Co-ordinator IFD and media	1
7.	Junior Engineer	12
8.	Programme Assistant (Senior)	1
9.	Programme Assistant (Junior)	2
10.	Stenographer –cum-DTP operator	1
11.	Data Entry Operator	2
12.	Sweeper – cum- Watchman	1
13.	Peon	1

Activities :

- Salary of DPC and Staff
- TA & DA of staff
- Furniture for DP Office
- Equipment for DP Office
- Hire charges for vehicles
- Contingency
- Maintenance, documentation, printing etc.
- Consumables
- Installation of phones
- Hiring of building for DPO
- Consultancy charges
- POL and Hiring of vehicles
- Exposure visit
- Hospitality charges
- Honorarium to MIS persons at Block level.

Monitoring and follow up Action.

The sectoral officers of DPO in-charge of various intervention will monitor the implementation of the plan programme of all blocks with field visit and review meeting. The District Inspector of Schools along with Block Resource persons will implement and monitor the programme at Block level. The progress of the project will be reviewed at the district level with DRG and BRPs and district administration on monthly basis. In the review meeting special care should be given on the education of focused group with necessary follow up action

The monthly progress report will be compiled at District level reflecting block-wise target and achievement along with progress on project performance indicator and same will be furnished to the state project office.

Convergence

Necessary convergence may be established with different departments such as social welfare, welfare of disables, woman and child development, NGO etc. for better implementation of programme.

The details of expenditure for various activities shown above for the year 2002-03 is furnished herewith in Table 10.1

CIVIL WORK

Major Strategies :

For improvement of school infrastructure the following steps are to be taken :

1. A room for every teacher in Primary and Upper Primary School with a room for Headmaster in Upper Primary School.

Improvement of School Facilities

Construction of BRCs and CRC's and D.P. Office.

1. Maintenance and repair of school building.
2. Involvement of VEC in construction of school building in respect of cash, kind and service.
3. Capacity building of school committee for their participation in construction of school building in terms of cost effectiveness and using of local materials.

Activities

1. Building for new primary schools (2 rooms)
2. Building for new UP schools (2 rooms+ 1 Office)
3. Construction of building for building less Primary and UP Schools.
4. Additional class room for existing Primary School.
5. Additional class room for existing Upper Primary School.
6. Construction of BRCs and CRCs building
7. Construction of Additional Class room for existing High School.
8. Boundary wall for Primary and UP School.
9. Drinking water facility
10. MIS Building
11. Electrification of rural and urban schools for computer education.

Monitoring and Follow Up

Fortnightly progress report will be obtained from field staff indicating physical and financial status.

Convergence :

The construction of class room for supplying adequate space to children through SSA and other state level aids like MP LAD ,MLA LAD, FAS, JRY, OBB etc.

Budget Table :

The details of year-wise expenditure for the year 2002-2003 are furnished herewith in the table. 10.2.

PLANNING AND MANAGEMENT

Major Strategies

- Capacity building of local community and teacher for participating planning and development of habitation education plan.
- Capacity building of DRG, BRG, NGO and Teachers for school mapping and micro-planning.
- Development of data base on the major performance indicator of the project and analysis, target setting, plan for implementation, participatory evaluation etc.

Activities

- Development of annual work plan etc.
- Training of BRPs and NGOs in school mapping, micro planning and school implement plan etc.
- Orientation to BRPs and community organization on planning.
- Exposure visit.

Monitoring and Follow-up :

Necessary network will be planned among planning team at state, district, block and village / habitation levels.

The district level plan will be prepared consolidating the plans of habitations and block levels. Necessary review by DP Office DRG and BRG will be taken at district level to share the field level implementation of project alongwith problems. The implementation of activity will be monitored and reviewed.

Convergence :

Convergence will be established between Department of Urban Development NCI.P welfare of the handicapped social welfare of the locality.

Budget Table

Details of year-wise expenditure for various activities are shown in the Table for the years 2002-2010. *Table - 10.3*

RESEARCH EVALUATION, MONITORING AND SUPERVISION

Major Strategies

- Development of suitable strategies for achieving the objectives of UEE
- Capacity building of teachers, NGOs and other field staff for taking up of small scale class room based teaching and other action research programmes.
- Evaluating the performance of the project in terms of input, implementation and monitoring on major indicators of the project.
- Developing suitable monitoring and supervision techniques and making the field staff more accountable.
- Taking up surveys, studies on emerging issues.

Activities

- Conduct of Action Research by the teachers and field staff along with community organization (NGO)
- Conduct of class room based research
- Orientation on research and evaluation to field staff.
- Conduct of pupil achievement test (Primary)
- Conduct of public achievement test (UP)
- Baseline and Mid term assessment (Primary and UP)
- Academic monitoring of schools by DIET staff and education consultants.
- Academic supervision by BRPs and BRGs.
- Schools visits by DRGs, BRG, SIS and reporting.

Convergence

It is proposed to work with SCERT and Department of Education of various Universities / CFT / DIET and share the findings of various field studies. It is further proposed to support these institutions to conduct various studies on emerging issues, social groups, demographic changes etc.. So that necessary strategies will be planned to achieve the objectives of SSA.

Budget Table

The details of year wise expenditure on various activities shown above for the year 2002-2010 are furnished herewith. *10.4 Table*

AUB(A)

COMMUNITY MOBILISATION AND PARTICIPATION

Major Strategies

- Campaigns, Awareness building for the mobilization and participation of community in the management of schools and to take up citizen initiatives for improvement of schools.
- Making Parent – Teacher Association (PTA) functional and improving home school links.
- Frequent visit of community / parents to the school and enquiring about the quality of the children education and school facilities.
- Capacity building of community management structure for their participation in school matters by way of orientation, exposure visit, sharing sessions etc.
- Convergence between various self help groups for education of children (5 – 14 years) simultaneously.
- Awareness building and sensitization of community on child labour and their educational issues.

Activities

- 2 days training programme to VEC members at cluster level.
- 2 days training programme to DRGs/BRGs at district level.
- Orientation to NGOs/Youth organization / Opinion Makers / Cluster Group at Block level.
- Enrolment drives in all revenue villages.
- Convergence services once in a year.
- Community mobilization programme through “Ninad”
- Observation of School Welcome day.
- Organization of community fair at Block level.
- Exposure visit of BRGs and DRGs / SI
- Exposure visit of VEC / PTA / MIA

(10/11)

MANAGEMENT INFORMATION SYSTEM (MIS)

Major Strategies

- Establishing MIS unit in each DPO
- Development of exact database from the children in the age group of 5 – 14 years along with school facilities and updation from time to time.
- Capacity building of field staff for getting suitable information on DISI.
- Computerisation, analysis of DISE information and using it in the planning process and dissemination.

Activities

- Air Conditioner for MIS room.
- Computer Hardware
- Computer Software
- Computer Consumables
- Printing of Data collection format collection / compilation / reporting DISE data.
- Data communication (Telephone, Internet connection charges)
- Sharing workshop on MIS and PMIS
- Geographical information system.
- Training on data caption format / data collection
- Maintenance contingencies for MIS.

Monitoring and Follow Up

The net working of information – flow from habitation to Block, Block to District and District to State will be developed. The MIS in-charge at district and state level will monitor the entire net working for flow of information from School to Block, Block to District and District to State.

Convergence

Convergence with NIEPA etc. will be worked out for effective use of MIS net work.

Budget

The details of year-wise expenditure for various activities shown above for the year 2002-2010 are furnished herewith. *Table 10.6*

ACCESS AND ALTERNATIVE SCHOOLING (EGS / AIE)

EDUCATION FOR OUT OF SCHOOL CHILDREN

Major Strategies

- Improving access to all children of age group of 6 - 14 years by way of opening new primary, alternative schools with up gradation of existing Primary to UP schools.
- Mainstreaming of out of school children (child labour) through conduct of residential and non-residential Bridge Courses.
- Improving school infrastructure both Primary and U.P. Schools
- Mainstreaming of street children and domestic child labour.

Activities

- Remuneration of EVs , EGS (Education Guarantee Scheme) centers (Primary and UP).
- Remuneration to EVs of AIE centre.
- Remuneration to Special Schools for Girls, street child.
- Remuneration to Supervisor of EGS and AIE centers.
- Remuneration to Co-ordinator of EGS / AIE (one for each Block)
- Salary of new primary school teachers / U.P School teachers.
- Materials and equipment to new FGS (Primary and UP)
- Contingencies to EGS (Primary and UP)
- Teaching learning materials.
- Training to EVs / Supervisors.

Monitoring and Follow Up

- Access will be ensured upto U.P. stage for all children of age group of 5 – 14 years.
- Monitoring 100% access for all children and support the families of first generation literates for the schooling of their children.
- Community mobilization and participation in the matters of access and improvement of such facilities.

Convergence

Convergence with the departments of NCLP back to School programme, social welfare women and child welfare, urban community development département etc.

Budget

The details of year-wise expenditure for various activities shown above for the year 2002-2010 are furnished herewith. *Table 10.2*

EDUCATION OF FOCUSSED GROUP

Girl Child Education

Major Strategies

- Awareness campaign and sensitization of community employers on girl child labour and relieving them from work.
- Main streaming of girl child labour through residential and non residential bridge course.
- Conduct of Mela in the habitation with more girl out of school children and motivating the children and parents for schooling.
- Sensitization of teachers, parents and community on gender issues.

Activities

- Orientation to MTA / Mahila Samiti at cluster level.
- 2 days women convention at Block level.
- Observation of girls child week at selected CRC
- Awards to schools for highest girls enrolment and retention at BRC level.
- Supply of free text books to the girls.
- Awareness campaign and sensitization of the community employer on girl child labour and relieving them from work.
- Review meeting at cluster level.
- Module cluster approach
- Special remedial coaching camp for low achievement girls at Block level.

Monitoring and Follow Up

The activities relating to education of girl children will be monitored through concerned officers and consultants at district level and through BRPs and BRCC at Block level. Enrolment of all girl children (5 – 14 years) and their regular attendance will be monitored on regular basis.

Convergence

It is proposed to converge with the department of child development department, social welfare and tribal welfare.

Budget :

The details of year-wise expenditure for various activities shown above for 2002-2010 are furnished herewith. *Table 10-8*

113(B)

EARLY CHILD CARE AND EDUCATION

Major Strategies

- A programme for children in the age group of 3 – 5 years for providing school – readiness programme and relieving girl children from sibling care.
- Support to existing Anganwadi Centres to make them run in school premises during school hours.
- Capacity building of Mother Association to own and run the ECCE centers.

Activities

- Training of MTA / AWW at cluster level.
- Orientation to CDPO staff and supervisors and selected NOG.
- Training to DRGs / BRGs on pre-education.
- Convergence and review meeting at District level.
- Convergence and review meeting at Block level.
- TLM grant to Anganwadi Workers.
- Conveyance allowance to AWW for extra work.
- Training to lady teachers for pre-schooling children

Monitoring and Follow Up

The girl child co-ordinator at District level and BRPs / BRCC at Block level shall monitor the ECCE programmes. Monthly review meeting will be conducted with the instructors of ECCE Centre at Block level.

Convergence

Convergence with AWC of ICDs, along with the functionaries of ICDs, and SSA programme officers to review the functional aspects of ECCE.

114(A)

EDUCATION FOR SC AND ST CHILDREN

Equalization of educational opportunity to all is mandatory. Therefore, education of children of disadvantaged groups like SC & ST needs more focus. They still live in with their primitive idea, dogmas and their poverty restrict them to send their children to school. Social environment also does not permit the girls of these groups for education. Keeping all these aspects in view it is proposed to provide additional support for the education of the children of this group in convergence with TRW department and NGOs.

Activities :

- Training and engagement of self help group for education of SC / ST children in back ward pocket.
- One day orientation of opinion makers, community leaders at cluster level.
- Work shop on Tribal Education at Block level.
- Exposure visit of SC/ ST children to nearby city.
- Training on tribal language to teachers of ST pocket.
- Supply of Free Text Books to SC and ST students.
- Convergence meeting with Welfare Department, DRG, BRG and S.I. of Schools at district level.
- Residential Girls hostel at tribal pockets.

Budget

The details of year wise expenditure for various activities shown above for the year 2002-2010 are furnished herewith. *Table 10.10*

COMPUTER EDUCATION

Now a days computer has become very essential in every sphere of life. Hence computer education in schools is considered to be indispensable. With a view to popularize and acquaint the children its function and utility, it is decided to introduce computer education in some selected schools of the district. It has been proposed to provide 90 nos. of computers to the schools during the entire budget period i.e. from 2002 to 2010.

Activities :

- Supply of computers to schools
- Maintenance of computer
- Training to the teachers for operation.
- Furniture to computer classes
- Consumables to computer.

Budget

Details of year wise expenditure for various activities shown above for the year 2002-2010 are furnished herewith. *Table - 10.11*

EDUCATION FOR DISABLED CHILDREN

Major Strategies :

- Improving access for disabled children (Physically and Mentally)
- Assessment of disability and providing suitable initiative for their schooling.
- Support to school and teachers and TIM etc.

Activities

- 3 days Medical Assessment Camp for children.
- Convergence meeting at Block level and review
- Special training to DRG & BRG
- Supply of Aids and appliances
- 3 days training to teacher on IFD
- Supply of instructional materials to schools.

Monitoring and Follow Up

Monthly review meeting will be conducted at District level with resource persons and BRC staff on various functional aspects of IFD schools.

Convergence

Convergence with the department of handicapped welfare and Red Cross Programmes for providing all possible support to the children.

Budget

The details of year wise expenditure for various activities shown above for the year 2002-2010 are furnished herewith. *Table 10.12-*

112 (A)

PEDAGOGICAL IMPROVEMENT

Major Strategies

- Pedagogical renewal at Primary and UP level through following initiatives.
 - * Teachers Training.
- Development of Teaching Learning materials and other pupil interactive materials.
- Pupil assessment procedure to be reflected in pedagogical renewal.
- Involving pedagogy as child centered and activity based with pupil participation.
- Organisation of cluster level meeting of teachers for professional exchange.
- Capacity building of DIETs BRCs for providing academic support to schools and teachers.
- Language improvement, science improvement and math improvement programmes – diagnostic and follow up.

Activities

- Visioning workshop
- Training to BRPs in methodology
- Orientation training to GRCs
- Training to BRGs (subject wise)
- Capacity building of BRGs
- Teachers Training on activity based teaching.
- Training to newly recruited teachers.
- Capacity building of DRG.
- TIM grant for teachers of Primary Schools.
- TIM grants for UP Schools.
- School Improvement grants (Primary and UP)
- TLE grants to uncovered Primary and UP Schools. (one time)
- Furniture to CRC
- Furniture to BRC

- Exposure visit to DRG and BRG
- Academic Review meeting.
- Training to CRCC
- Free Text Books to SC / ST and Girls children.
- Review meeting with DRG and BRG
- Workshop on Pedagogic issues
- Child Friendly Elements\
- Training to VEC / Community leaders.
- Contingencies to CRC
- TLM grant to CRC
- TA to CRC
- Contingency to BRC
- TLM to BRC
- TA to BRC
- Remuneration to the Additional Teachers
- School Improvement Plan (Management for Head Master and S.I. of Schools)
- Required and maintenance grants to Primary and UP Schools.

Monitoring and Follow Up Action

School monitoring through BRCs and DIET and BRGs.

- Conduct of review with DRGs , BRPs, BEO, DIET staff on the functional aspects school and pupil achievement.
- Conduct of class room observation , pupil achievement at regular intervals and to take necessary steps for improvements.

Budget

The details of year wise expenditure for various activities for the year 2002-2010 is annexed herewith. *Table 10/13*

ANNUAL ACTION PLAN (2002-2003)

FOR MAJOR INTERVENTIONS

The Annual Action Plan for 2002-2003 is developed basing on the set objectives and activities are prepared and targets are pre-designed and fixed accordingly to achieve the goal.

Intervention wise Activities

I. Project Management

The proposed project shall be managed in a decentralized manner. Levels of managerial system shall be introduced for effective implementation of the programme.

They are as follows :

- 1) Village level structures (VEC, PTA & MTA)
- 2) Cluster level structure (CRC)
- 3) Block level structure (BRC)
- 4) District level structure (DPO or DPC)

To manage the programme at grass root level, a Village Education Committee for EGS and school committee for elementary schools consisting of 9 members have been formed. The said committee shall be strengthened with due training and proper orientation on its role, function and responsibilities towards the implementation of Elementary Education.

School clusters consisting of 12 to 16 schools have been set up keeping in view the geographical situation of schools. The cluster will be headed by a Cluster Resource Co-ordinator who shall be basically held responsible for providing academic input to teachers and community and shall act as a liaison person between school, community BRC and District Office. A permanent building will be constructed to conduct training programmes, meetings etc.

At Block level, a Block Resource Centre (BRC) shall be setup which will be headed by a Block Resource Co-ordinator to provide academic support to CRCs, Teachers

and other Block level functionaries. An infrastructure will be developed at BRC with residential training facilities to teachers, VEC, NGOs, PRI members, Block resource group will be formed to impart training and capacity building, monitoring and evaluation. A Block planning team will be formed for planning at Block level and a Block Executive Committee may be formed to act as a nodal agency in order to implement DEEP, programme in the concerned Block.

At the district level, DEEP shall be implemented through the District Project Co-ordinator. The District Project Co-ordinator shall remain in charge of the programmed. An executive committee has been formed under the Chairmanship of Collector, Balasore and the District Magistrate. A core planning team has been formed and entrusted with the task of preparation of perspective and annual plan. A sub-committee will be formed at district level for recruitment, monitoring, supervision and procurement along with evaluation. Besides for several interventions specific District Resource Group will be formed with experts to guide the project activities. 6% of the total project cost is the ceiling for this intervention. The Budget details are annexed separately.

The expenditures under the project management are as follows : *Table X01*

- Salary to DPO Staff
- Equipment for DPO
- Furniture for DPO
- Hire Charges and POI for vehicles for DPO and other staff.
- DPO consumables
- Water, Electricity, Telephone etc.
- Rent for DPO
- TA & DA
- Equipment maintenance and operation at DPO
- Consultants
- Hospitality charges
- Exposure Visit
- Contingency

II. Civil Work

Civil work needs priority to develop infrastructure for attaining basic objectives of Sarva Siksha Abhiyan (SSA). The aspect cost for this intervention is 33% of the total project cost, which includes, *Table x.2*

- Construction of MIS building
- Building for building less schools
- Construction of additional class rooms
- Construction of BRC buildings

III.(A) Planning and Management

It is one of the major interventions which includes all activities pertaining qualitative improvement in education, it includes 61% expenditure of total project cost under which the following items are included : *Table - x.3*

- Training to planning team
- Orientation to Project staff
- Training BRPs in school managing and micro planning
- Training to Headmasters, CRCs and BRCs
- Time to time household survey
- Convergence meeting at district level
- Exposure visit

III.(B) Research, Evaluation, Monitoring and Supervision

Under this head the following steps are follows : *Table x.4*

- Action Research
- Conduct of class room based research
- Orientation on research and evaluation to field staff.
- Conduct of Pupil achievement list
- Baseline and mid term assessment
- Academic support and monitoring of schools by DIT
- Academic supervision by BRPs and BRGs
- School visit by DRGs, BRGs and SIS and reporting.

III.(C) Community, Mobilisation and Participation

The community participation is very much essential for the success of SSA for the purpose the following steps are taken up, : *Table - X.5*

- Orientation to VEC/SC members
- Training to BRGs and DRGs at district level
- Orientation to NGO / Youth / Opinion makers / Cluster group at Block level.
- Enrolment Drive in all revenue villages
- Convergence services
- Community mobilization through NGOs
- Observation of School welfare day
- Organisation of community fair
- Exposure visit of DRG, BRG
- Exposure visit of VEC, PTA, MTA

III(D) Management and Information System

Collection of upto date data, analysis of collected data, effective use of data is a time bound activity. Information flows in two ways 1) Educational Management Information System (EMIS) provides information about Educational Issues and Management of Schools . 2) Project Management Information System (PMIS) provides information on project management. The analysis can be done from different angles. MIS unit at the district level shall be equipped with 10 manpower in hard wire software and other related infrastructure. *Table - X.6*

Activities of the Year 2002-2003 on MIS System

- Establishment of MIS unit
- Printing of data collection format
- Collection and compilation of DISF data
- Data Communication.
- Sharing workshop on MIS and PMIS.

- Provision of geographical information System.
- Training to MIS staff at District level and Block level.
- Website maintenance and telephonic.

III.(E) Access and Alternative Schooling.

Table - X,7

Expenditure in this stage relates to

- Remuneration to Education volunteers.
- Remuneration to EGS/AIE co-ordinator.
- Training to Evs/Supervisors.

III(F) Education of Focused Groups

Equity and social justice always demand free compulsory and gap free education providing equal educational opportunity to all is mandatory. So education to the children belonging to dis-advantages groups like SC/ST girls, early child, need more focus. To provide additional support to the focused groups the following activities are undertaken.

1. Girl's Education

Table X,8

For this purpose following steps are to be taken.

- ◆ Gender issues workshops at different levels.
- ◆ Observation of girls child week
- ◆ Supply of free text books.
- ◆ Award of attendance scholarship.
- ◆ Awareness campaign for sensitization to the community.
- ◆ Printing of modules.
- ◆ Remedial/Bridge courses.
- ◆ Review, monitoring and convergence meeting.

2. Early Childcare Education.

Table X,9

- ◆ Training of mother association/A.W. Workers/MTA at cluster level.
- ◆ Orientation to Girl child officers. BRP, BRG, DRG,

- ◆ Convergence workshop and review meeting at Block level and district level
- ◆ Convergence allowance for AW Workers.
- ◆ TLM grant for AW Workers.
- ◆ Training to lady teachers.

3. **Education for SC & ST Children** *Table - X.10*

To provide education for SC & ST children the following steps are taken.

- ◆ Training and Engagement of self help group
- ◆ Orientation to opinion makers and community at cluster level and block level.
- ◆ Training to teachers to change the attitude towards tribal children.
- ◆ Workshop on SC & ST education.
- ◆ Training on tribal language to the tribal teachers.
- ◆ Convergence meeting with welfare department
- ◆ Supply of Free Text Books
- ◆ Training to BRG and DRG wings
- ◆ Establishment of residential hostels
- ◆ Exposure visits to SC & ST children.

III(G) Computer Education *Table X.11*

With view to popularize and acquaint to computer education among the children for the district the plan is prepared fro expenditure under computer education in UP schools. The items of proposed expenditure is given hereunder.

- Supply of computers to schools
- Maintenance of computer
- Training to teachers on computer education and operation
- Consumable expenditure for computer

III(H) Disabled Children *Table X.12*

To checkup dropout and progress of the disabled children the following proposal have been taken.

- Medical assessment camp for children
- Special training to BRGs and DRGs.
- Review and Convergence meeting at Block level and District level.
- Supply of aids and appliances to the IED children.
- Supply of instructional materials to CRC Schools.

III (1) Pedagogy and School Management Table X.13

Pedagogical improvement is one of the most important and critical intervention of the DEEP for its direct impact on both qualitative and quantitative expansion of Elementary Education. Keeping a view for pedagogical improvement a participated method and mobilization technique for teachers, different training programme is planned. The following activities are undertaken for the first year of the plan.

- Visioning workshop
- Training to BRPs on methodology
- Orientation training to DRGs
- Training to BRGs (subject-wise)
- Teachers training on activity based teaching.
