This is the First Annual Publication of the District Statistical Hand Book pertaining to Mon District. Efforts have been made to present the Statistical data collected from official records of different Govt. Departments, and other Agencies, on various sectors of Economy as precise and accurate as possible. However, if any mistake is detected/found it may be brought to the notice of the Department for taking corrective measures in future publication.

It is hoped that the publication would be helpful to students, Administrators and planners interested to study Socio-Economic condition of the District.

The continued co-operation given by various Government Departments and agencies, in making available the required data for this book is gratefully acknowledged.

Suggestions for further improvement of the Statistical Hand Book are welcome.

Dated Kohima,
the 3rd April, 1992
