Issued by :

**The Economic Adviser to Government
Punjab, Chandigarh**

PREFACE

The present issue of the Statistical Hand Book is seventeenth in the series. It is intended to be a handy substitute and a supplement to this Organisation's main publication, 'The Statistical Abstract of Punjab-1986'. It contains information relating to the important sectors of the State's economy and includes charts depicting the trends in important aspects of the economy for enabling better understanding of the time series data. Derivatives have also been given, wherever possible, so as to enhance the utility of the book. For the first time, two chapters depicting important 'Economic Indicators' and 'Punjab Leads other States' have been added. It is expected that the new edition of the Statistical Hand Book containing up-to-date information will prove useful to administrators, planners, scholars and all those who are interested in the socio-economic welfare of the State.

Acknowledgement is made of the useful work done by the compilation section of the organisation in preparing this booklet.
