## FOREWORD

The release of the Report "Results of High School and Higher Secondary Examinations" for the year 2010 will bring about a better understanding of the present scenario in the School Education System in respect of number of students passing out from schools in the country. An extensive database of statistics plays a critical role in providing decision makers as well as the stakeholders in this sector with an opportunity to make informed decisions and plan for the future. I am confident that the present Report would be able to strengthen the future planning process for education. I extend my gratitude to all respondents especially Boards of Secondary and Senior Secondary Education, which have played key roles in providing the data. I would also like to appreciate the work put in by the Bureau of Planning, Monitoring & Statistics of the Ministry of Human Resource Development led by Dr. Vijay P. Goel, DDG, in preparing the publication. My special thanks to Sanjay, Director and all other members of the project staff.

**RESULTS OF  
HIGH SCHOOL &  
HIGHER SECONDARY EXAMINATIONS  
(An Overview)**

# **AN OVERVIEW**

## **(a) INTRODUCTION**

**E**xamination means the test of a student's knowledge in prescribed subjects. Various Examination Boards have been established in the country for holding and conducting an examination at the end of Class X, the Secondary School stage and Class XII, the Senior Secondary School stage. These boards also prescribe conditions of examinations including course of studies for such examination.

Normally every year these Boards conduct Annual Examination in the month of February/March. Some of the Boards also conduct Supplementary Examination in the month of August/September on the basis of course/syllabus as prescribed by the Government.

The Examination results have assumed high importance for enabling students to enter job markets as well as for pursuing higher education. The result at the end of class XII is all the more significant as this leads students to enter tertiary level of education, including academic and professional courses of the university level.

It is of vital importance to compile the results of Secondary and Senior Secondary examinations conducted by various boards. Properly and systematically analyzed data on Examination results not only measure the efficacy of the educational system, it also indicates the flow of students from school level to higher education and job market.

The Results of Secondary and Higher Secondary/Intermediate Examinations conducted by Boards across the country have been analyzed in this publication. The data contained in this publication have been collected from the Boards in the country.

### **Open School Examination Boards**

There were 15 open Boards across the country in the year 2010 and out of them only 6 conducted Class X and Class XII examinations. Rest of the Boards did not conduct separate examination and their students appeared through the respective State Boards. In the table the name of the Open Boards with details are listed.

Unlike regular Boards, examination is conducted twice in a year during the month of March-May and September-November in Open Boards. In Open Schools, system of examination is different from other State and Central Boards. They provide a flexible scheme of examination by giving an opportunity to appear in one, two or more subjects and credits are accumulated till the certification criteria is fulfilled. A candidate can

avail number of chances as prescribed by the board to appear in public examinations spread over a period of more than one year unlike a time span of one year for other boards. There is no bifurcation of regular and private students and also no system of supplementary examination in Open Boards. It is, not reasonable to compare the pass-percentage of Open Board system with that of other State/Central Boards as the number of appearing students includes all the students appearing in the examination whether appearing for one or more subjects, while number of passed students includes only those students who get certification i.e. passed in all the subjects. Keeping this in view, pass percentages have not been calculated for Open Boards.

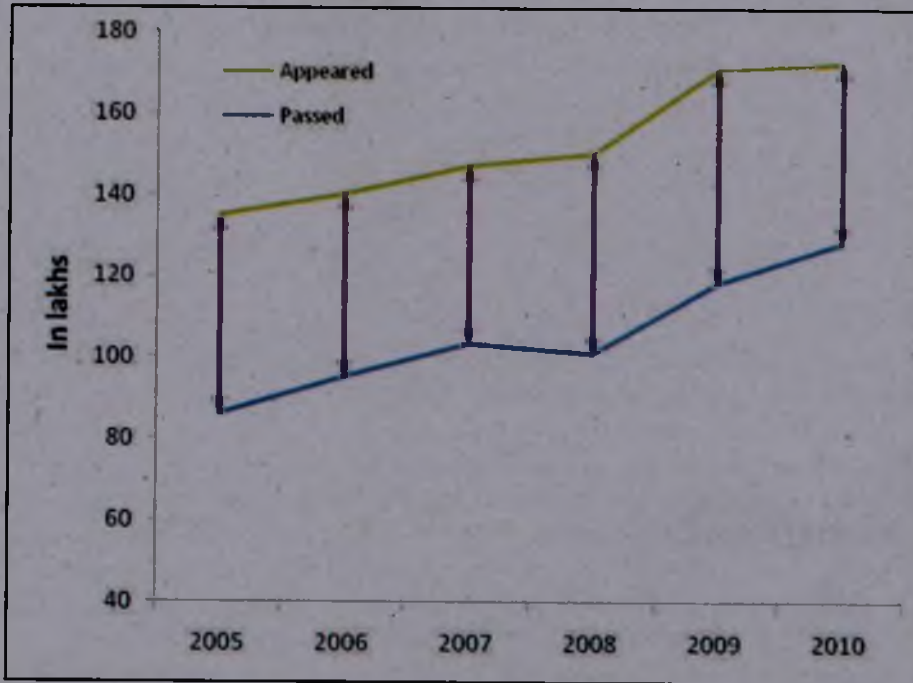

**Chart 2 - Pass percentages among Boys and Girls in 2010**

### ***Trends during 2005-2010***

Total number of students appeared and passed during last 6 years has grown gradually. However, the pass percentages for different categories have increased only marginally. These are shown in various charts drawn below:

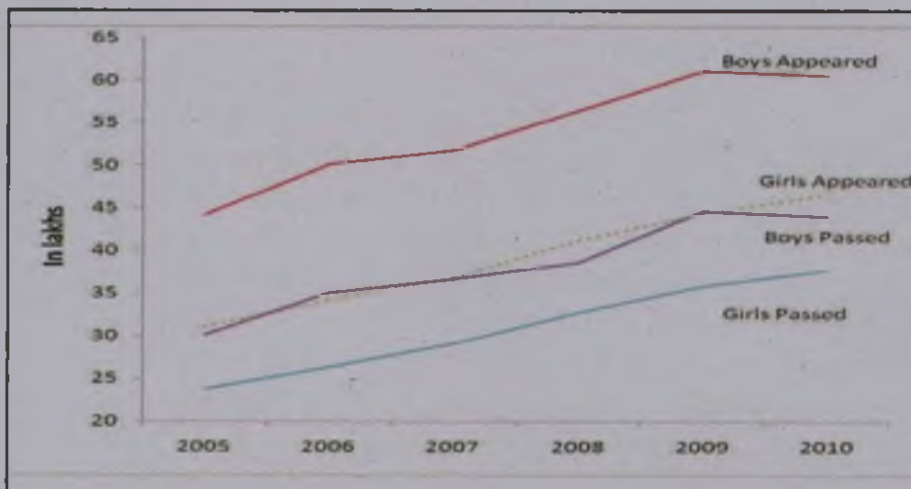

**Chart 3 - Number of Students appeared and passed during 2005-2010**

**Chart 4 - Category-wise number of Students appeared and passed during 2005-2010**

**Chart 5 - Sex-wise number of Students appeared and passed during 2005-2010**

**Chart 6 - Category-wise pass percentage during 2005-2010**

**Chart 7 - Sex-wise pass percentage during 2005-2010**

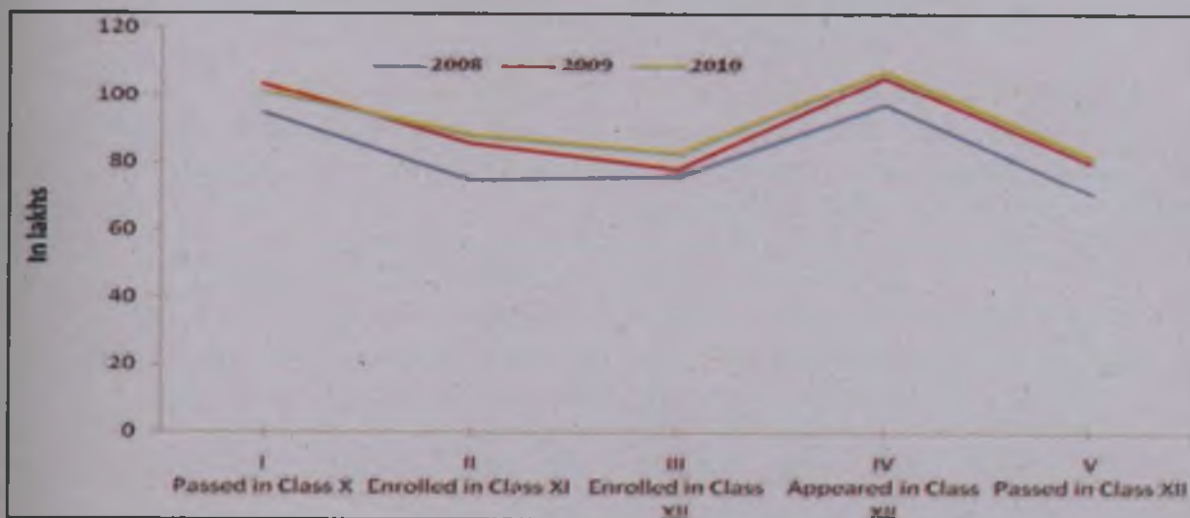

***Students' Flow***

Students' flow has been described here as its movement from Class X to passing out of Class XII. In the year 2010, the students, which have appeared and passed out from Class XII, were from among those students who were enrolled in Class XII in the year 2009. The students' enrolment has been taken from the publication, "Statistics on School Education". The students on roll as on 30<sup>th</sup> September of the year are taken as Students' enrolment during the year. The students, who have taken admission in Class XI in 2008, were from among the students who passed Class X examination in the year 2008. Excluding the drop-out, these students might have continued study in Class XII in the year 2009 and have been counted in enrolment in Class XII in the year 2009. Thus the chart depicts the rate of decline in movement of students towards higher education. The five stages, Number of students

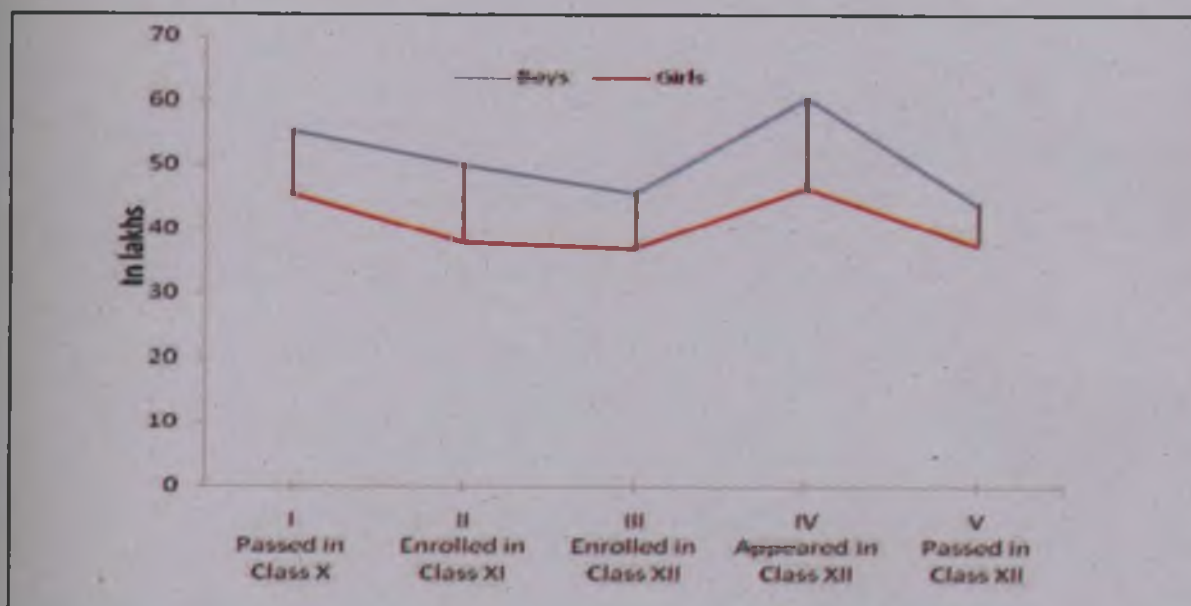

Passed in High School Examination, Enrolled in Class XI, Enrolled in Class XII, Appeared in Higher Secondary Examination and Passed in Higher Secondary Examination are shown in the chart given below. In Chart 8, three lines depict the movement during years 2006-2008, 2007-2009 and 2008-2010. In Chart 9, two lines depict the movement of boys and girls during 2008-2010.

There are significant numbers of students, who do not go to formal schooling, but attempt to qualify by appearing in Class XII examination as is evident from the fact that the number of students appearing in Class XII in 2010 was more than the number of students passing out from Class X in 2008. Please see Statement -3.

## Board-wise Analysis

**Pass percentage** among regular students varies from 53.5% to 100% among students appearing in examination through various boards. These have been shown in Chart - 10. In 16 boards the pass percentages are above All India average pass percentage of 79.1.

**Chart 10 - Board-wise pass percentage in 2010**

## **Structure of the Tables**

For two Central Boards and 31 State Boards, number of students appeared, number of students passed and the pass percentage are given in the Table - 1 and 2 for Regular and Private Students respectively. For Scheduled Caste these details are given in Table 4 and 5 and for Scheduled Tribe Students in Table 7 and 8. In Tables 3, 6 and 9, number of students appeared, number of students passed and the pass percentage for total of Regular and Private Students for All Categories, SC and ST students respectively are given. These figures are given for boys and girls separately. For Annual and Supplementary Examinations, number of students passed and the pass percentage are given separately.

Percentage-wise examination results has also been compiled and shown in Table 10, 11 and 12. Number of students have been categorised into three classes on the basis of percentages of marks scored in the examination. The classes are "60% & above", "50% to below 60%" and "Below 50%". For some Examination Boards, distribution of students in these classes is not available as mentioned in the table. In case of Assam Higher Secondary Education Council and Tripura Board of Secondary Education these classes corresponds to "60% & above", "45% to below 60%" and "Below 45%". It may be seen that percentages of students scoring more than 60% of marks of the total students passed varies from about 3.9% to 87.3% in different boards.

Data for Open School Examination Boards have been tabulated separately in Table 13, 14, 15 and 16, where number of students appeared, number of students passed, pass percentages and Percentage-wise examination results are given for open boards.

## **Performance of SC and ST students**

Out of total students appeared through regular boards, 13.9 % (Boys-14.2% and Girls-13.4%) of students were from SC category, whereas out of total students passed only 12.8 % (Boys-13.1% and Girls-12.5%) of students were from SC category. Out of total students appeared, 5.6 % (Boys-5.9% and Girls-5.3%) of students were from ST category, whereas out of total students passed only 4.9 % (Boys-5.3% and Girls-4.6%) of students were from ST category. Bihar State Madarsa Education Board, J.K State Board of School Education and Board of Madarsa Education, West Bengal, does not maintain data separately for SC & ST categories for Higher Secondary Examination.

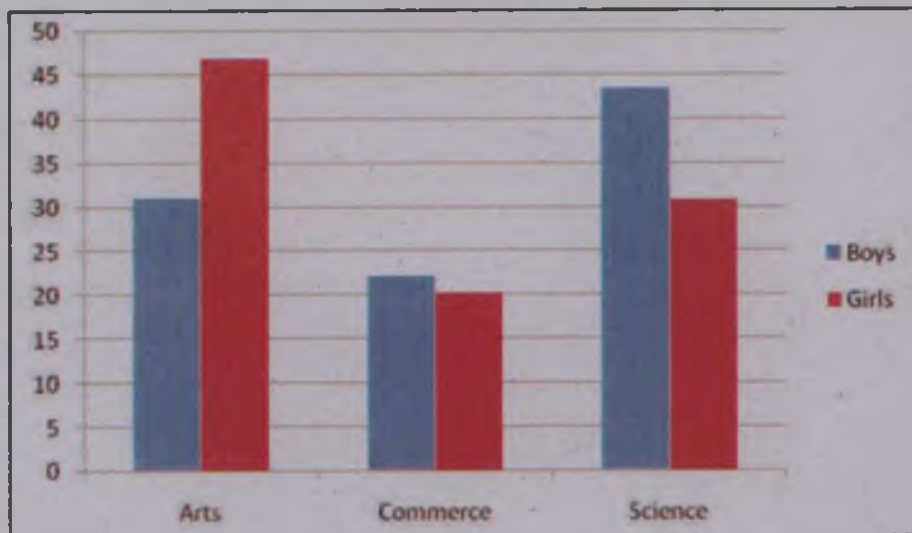

## **Share of Passed Out Students in Different Streams**

Number of students passing out from different streams is an important indicator, which has been compiled for the first time. A few Boards either do not maintain such data or did not provide the figures. For some of the Boards sum of students passing from different streams are slightly lower than the total number of students passed. It may be that all the students could not be classified in different streams.

Categorisation has been made mainly in three streams Arts, Commerce and Science. 3 Boards have also provided the data in Vocational streams. In Gujarat Secondary & Higher Secondary Education Board small number of students have opted Post Basic Streams, which has been included under Arts. Similarly, students opting Home Science in Banasthali Vidyapith, Rajasthan have been included under Vocational. All the students passing from Madarsa/Sanskrit Boards have been included under Arts. Among those which have provided the data, 38.3, 21.2, 37.5 and 0.1 % of students passed from Arts, Commerce, Science and Vocational streams. Girls' preference is more towards Arts than Commerce and Science.
