INTRODUCTION

The present publication "Statistical Abstract 1979" is the twenty second in the series being brought out annually by this Directorate. The data presented in the publication relate to the Calendar year 1979 or the financial/agriculture/cooperative year 1978-79 except where otherwise indicated.

It covers all important aspects of socio-economic activities of the state and provides time series for the last 5 years ranging from 1974-75 to 1978-79 along with the districtwise/monthwise breakups for the year under reference. Each section starts with brief notes describing the concepts, definitions used and scope and coverage of the data contained in that particular section. The source of information has also been mentioned at the bottom of each table.

It is hoped that this publication will provide reference material to the research workers and administrators in studying the level of development, pace of economic progress and the changes in the pattern of economic structure in the state and the districts.

The Directorate is grateful to the various organisations, Government Offices and institutions for their cooperation in supplying the information contained in this publication.

(R. N. SHARMA)
DIRECTOR OF ECONOMICS & STATISTICS,
RAJASTHAN, JAIPUR.

Introduction	...
THE METRIC SYSTEM	
A. Weights and Measures	(i)
B. Units for Wholesale Transaction of Commodities	(ii)
C. Units for Retail Transaction of Commodities	(ii)
1. GENERAL INFORMATION	
1.1 Rajasthan at a Glance	1
1.2 Rajasthan in Indian Economy	2
1.3 Rajasthan in Indian Economy (Percentages)	6
1.4 Selected Indicators of Economic Activities	10
1.5 Population	12
1.6 Panchayat Samitiwise population	13
1.7 Classification of Villages according to Population	20
1.8 Classification of Cities and Towns according to Population	21
1.9 Projected Population	22
1.10 Population Estimates	23
1.11 Districtwise Population Estimates as on 1st March	24
2. CLIMATE NOTES	
2.1 Temperature and Humidity	26
2.2 Annual Rainfall	27
2.3 Seasonal Rainfall	28
3. AGRICULTURE NOTES	
3.1 Operational Holdings	31
3.2 Holdings, reporting Irrigation and Area Irrigated by size class of operational Holdings	32
3.3 Land Utilisation	33
3.4 Index Numbers of Area under Crops	35
3.5 Index Numbers of Agricultural Production	37
3.6 Index Numbers of Productivity	39
3.7 Average Yield of Principal Crops	41
3.8 Area and Production of Cereals	42
3.9 Area and Production of Pulses	45
3.10 Area and Production of Commercial Crops	47
3.11 Area under High Yielding Varieties of some Important Crops	52
3.12 Agricultural Implements and Machinery	53
IRRIGATION NOTES	
4.1 Irrigation Works under Plan	55
4.2 Irrigation by Sources	57
4.3 Irrigation by Crops	58

LIVESTOCK AND POULTRY**NOTES**

5.1 Livestock	---	---	---	60
5.2 Poultry	---	---	---	63
5.3 Growth of Livestock and Poultry	---	---	---	64
5.4 Animal Husbandry facilities	---	---	---	65

MINING**NOTES**

6.1 Progress of Mining	---	---	---	67
6.2 Mineral Production	---	---	---	68

INDUSTRIES**NOTES**

7.1 Registered Factories	---	---	---	72
7.2 Key Aggregates of Industrial Statistics by Districts	---	---	---	83
7.3 Annual Survey of Industries	---	---	---	85
7.4 Industrial Production	---	---	---	110
7.5 Khadi Industry	---	---	---	111
7.6 Village Industry	---	---	---	111
7.7 Jail Industries	---	---	---	112
7.8 Textile Industry—Growth of Mills	---	---	---	112
7.9 Textile Industry—Consumption of Cotton by Cotton Mills	---	---	---	112
7.10 Textile Industry—Production and Deliveries of Yarn	---	---	---	113
7.11 Textile Industry—Production of Cloth	---	---	---	113
7.12 Textile Industry—Packings of Cloth	---	---	---	114

THE METRIC SYSTEM
A. WEIGHTS AND MEASURES

WEIGHTS

1 Grain	0.065 Grams (g)
1 Ounce	28.350 Grams (g)
1 Pound	0.4535924 Kilograms (kg.)
1 Stone	6.350 Kilograms (kg.)
1 Cwt	50.802 Kilograms (kg.)
1 Ton	1016.05 Kilograms or 1.016 Metric tonne
1 Tola	11.664 Grams (g)
1 Chattank	58.32 Grams (g)
1 Seer	0.93310 Kilogram (kg.)
1 Maund	37.3242 Kilograms (kg.)
100 Kilograms	1 Quintal (q)
10 Quintals	1 Tonne (t)

LENGTH AND CAPACITY

1 Inch	0.0254 Metre (m)
1 Foot	0.3043 Metre (m)
1 Yard	0.9144 Metre (m)
1 Mile	1.609344 Kilometres (km.)
1 Imperial gallon	4.54596 Litres (l)

AREA

1 Acre	0.404686 Hectare (ha.)
1 Sq. mile	2.58999 Square Kilometres (sq-km)

THE METRIC SYSTEM

B. UNITS FOR WHOLESALE TRANSACTION OF COMMODITIES

Commodity		Metric Unit	
1.	Gold	Gram (g)	
2.	(i) Grocery (Cardamoms pickles and Jams & dry mangoes)		
	(ii) Confectionery (Biscuits & Sweetmeats)		
	(iii) Textiles and textile Fibre (Cotton yarn damaged and second cloth feats, rags, Chindies etc, raw silk rayon, silk yarn, raw wool & wool manufactures (when sold by weight)		
	(iv) Paints and Chemicals (Paint if sold by weight indigo & liquid chlorine)		
	(v) Hides, Skin and Leather (Raw hides and skins)		
	(vi) Metals (Silver, aluminium sheet, scrips and circles copper and brass wires andutensils)		
	(vii) Miscellaneous (Tea, meat camphor tablets, senra, leaves and mica)		
3.	(i) Grains and Pulses (Rice, wheat, Bajra, jowar, arhar, moong, masur & gram)		Kilogram (kg)
	(ii) Spices (Black pepper, mustard, chillies cloves, dhania, dalchini, methi, turmeric, betel, nuts & dry ginger)		
	(iii) Plantation Products (Coffee, rubber, cashewnuts, cashew, kerneis, tobacco) raw and manufactured		
	(iv) Forest Products (Lac and lac Products, gum benjamin and gum arabic, myrobalans)		
	(v) Textile and textile Fibres. (Raw cotton, raw jute, raw hemp & coir year)		
	(vi) Oil, Oilseeds and Oilcakes (Vegetable Oils like groundnut, linseed, castor, gingelly, mustard, coconut etc, oilseeds like groundnut, gingelly, rapeseed, copra etc. groundnut cake, castor cake, sesamum cake & coconut cake)		
	(vii) Miscellaneous (Sugarcane, vegetable, tamarind & garlic)		
	(viii) Non-Ferrous Metals (Aluminium-Ingots, bars, blocks, slabs & billets)		
	(ix) Lead (Ingots, sheets and strips)		
	(x) Copper (Ingots blooms, slabs, cakes, tiles, bricks billets blisterbars and wirebars rods, sections and pipes sheets and strip & circles)		
	(xi) Brass (Ingots, rods, sections, pipes, sheets & strips & circles)		
	(xii) Zinc (Ingots, sheets & strips)	Quintal (q) (100 Kg.)	
	(xiii) Tin (Blocks)		
	(xiv) Chemicals (Caustic soda, bleaching powder, glycerine, soaps, paper and salt)		
	(xv) Other (Sugar, gur, ice & fish etc.)		
4.	(i) Minerals (Iron ore, manganese ore bauxite & coal)		Metric tonne (100 Kg.)
	(ii) Iron and Steel (Pig-iron and steel manufactures) semi (billets for re-rolling etc.)		
5.	Cotton cloth (Mill and handloom) silk and rayon manufactures woollen cloth	Meter (m)	
6.	Jutecarpets, coir mats and mattings and sheet glass etc.	Square metre (m ²)	
7.	Timber	Cubic metre (m ³)	
8.	Paints (when sold by measure) spirits	Litre (l)	

C. UNITS FOR RETAIL TRANSACTION OF COMMODITIES

Commodity	Metric Units
(i) Foodgrains, Pulses and Spices, Vanaspati Oils, Ghee, Fruits, Vegetables, Meat, Fish and Sweets, Tea, Coffee, Sugar, Salt & Bread etc.	Kilogram (kg)
(ii) Vanaspati Oil, Milk (when sold by measure) etc.	Litre (l)
(iii) Cotton cloth, Woollen Cloth etc.	Metre (m)
(iv) Packed Materials	Preferably size corresponding to commercial Weights & Measures prescribed

1.1 RAJASTHAN AT A GLANCE

Item	Year	Unit	Particulars
1	2	3	4
Population (Census)	1971	No. in Lakh	258
Cities and Towns	1971	Number	157
Villages (inhabited)	1971	Number	33305
Villages (uninhabited)	1971	Number	2490
Gross irrigated area	1978-79	'000 Hectares	3451
Production of foodgrains	1978-79	'000 Tonnes	7782
Index number of agricultural production (Base 1967-68 to 1969-70=100)	1978-79	Number	180.17
Live stock and poultry	1977	No. in Lakhs	429.50
Sale value of minerals produced+	1979	Rs. in Lakhs	5779.49
Registered factories	1977	Number	4596
Electricity generated (including purchases)	1978-79	Million Kwh	3604.749
Electricity consumed	1978-79	"	2600.719
Wholesale prices general index number (Base year 1952-53=100)	1979	Index Number	480
Cooperative societies@	1978-79	Number	18530
Membership of co-operative societies@	1978-79	'000 No.	3942
Revenue receipts (Budget estimates)	1980-81	Rs. in Lakhs	71658.93
Revenue expenditure (Budget estimates)	1980-81	"	66940.63
Surplus (+)/Deficit(-)	1980-81	"	(+)4718.30
State income (at current prices)*	1978-79	"	319943
State income (at constant—1960-61—Prices)*	1978-79	"	100346
Rajasthan Government employees	31-3-78	Number	278051
Estimated monthly emoluments of Rajasthan Government employees	31-3-78	Rs. in Lakhs	1364.51
Roads	1978-79	Kilometers	39747
Motor vehicles on roads	1979	Number	265705
Educational institutions	1978-79	Number	28457
Scholars in educational institutions	1978-79	'000 No.	3786
Government medical institutions (Modern medicine)	1978	Number	1501
Government medical institutions (Ayurvedic and Unani)	1978-79	Number	2354
Annual Plan Provision	1978-79	Rs. in lakhs	23597.07
Annual Plan expenditure	1978-79	"	25675.12
Rural population served by Community Development Blocks	1971	'000 No.	21222
Village Panchayats	1977-78	Number	7292

+Sale value of major minerals only.

@As on 30th June 1977

1. General Information

1.4 SELECTED INDICATORS OF ECONOMIC ACTIVITIES

Item	Year	Unit	Particulars
1	2	3	4

A. Index Numbers

(a) Agricultural Production (Base 1967-68 to 69-70)	1978-79	Index	180.17
(b) Wholesale Prices (General) (Base -1952-53=100)	1979	Index	480
(c) Consumer Prices Indices— Working Class at—			
AJMER (Base 1960=100)	1979	Index	355
JAIPUR (Base 1960=100)	372
BEAWAR (Base 1962=100)	412

B. Per Capita Indicators

(a) State Income			
(i) at Constant prices (1970-71)	1978-79	Rs.	591
(ii) at Current Prices	1025
(b) Tax revenue (Revised estimates)			
(i) Share in Central Taxes	1979-80	Rs.	59.24
(ii) State Tax Revenue			
(1) Land Revenue	2.34
(2) State Excise	7.16
(3) Sales Tax	53.17
(4) Stamps & Registration	5.43
(5) Tax on Vehicles	4.36
(6) Taxes on Goods & Passengers	8.69
(7) Taxes & Duties on Electricity	2.43
(8) Entertainment Tax	2.27
(9) Other Taxes and Duties	0.35
(c) Expenditure (Revised estimates)			
(i) Economic Development Services	83.96
(ii) Social Services	96.82

1. General Information

1.4 SELECTED INDICATORS OF ECONOMIC ACTIVITIES

Item	Year	Unit	Particulars
1	2	3	4
(iii) Non Development Services	1979-80	Rs.	70.31
(iv) Per Capita consumption of Electricity	1978-79	K.W.H.	82.51
(v) Number of Villages Served-per dispensary (Including Ayurvedic)	..	Number	8.64
(vi) Number of Villages Per Primary School	1.60

C. Others

a. Percentage of Gross area sown to total geographical area	..	Percent	51.12
b. Percentage of gross area irrigated to total cropped area	19.72
c. Length of Roads	..	Per 000sq. K.M. of area	116.20
d. Literacy (Excluding 0-4 age group)	1971	Percentage	22.57
e. Educational Institutions	1978-79	Per 000' of population	1.10
f. Govt. Medical Institutions (Modern Medicine)	1978	Per Lakh of population	5.82
g. No. of Hospital beds (Including Ayurvedic)	1978-79	..	77.69
h. No. of Post offices	1978-79	Number	8556

CLIMATE

Temperature—Observations of temperature of air in shed are recorded at most of the observatories twice a day, at 08.30 and 17.30 hours IST. For this purpose thermometers are installed at a height of 4 feet above the ground in Stevenson screens which provide free access to the air but at the same time protect the thermometers from direct rays of the sun.

Humidity—Relative humidity is the measure of water vapours present in the atmosphere relative to the corresponding amount for saturation. It is recorded at the principal observatories by standard record at 08.30 and 17.30 hours IST.

The temperature and humidity data has been compiled from the daily bulletin issued by the Meteorological Department, Government of India.

Rainfall—Actual rainfall is recorded at the stations at 08.30 hour IST every day. The amount measured gives the rainfall of the previous 24 hours and the data is tabulated by the Board of Revenue (Land Records), Rajasthan.

Normal annual rainfall is the average of rainfall data for the fifty years ending in 1950.

AGRICULTURE

Operational Holdings:—This information of operational holdings by size of holdings and irrigation facilities was collected from all the villages at the time of Agriculture census in the year 1971.

Land Utilisation:—The main purpose of the table of the Land Utilisation is to indicate broadly the ways in which the land of the state is utilised. The classification of area was formerly available under five classes, which have been amplified to fall in line with standard classification as laid down by the Ministry of Food and Agriculture, Government of India.

Geographical Area:—Total area is calculated in the Office of the Surveyor General of India and reported area for land utilisation purpose is based on the returns of area estimates prepared by the Revenue staff of the state. There is a slight difference between these two sets of figures as pointed out in the note on area and production above, because of the different methods by which they are collected and also because some areas are unsurveyed.

Forests:—The area shown under forest in the table on Land Utilisation may not tally with that given by the Forest Department because (i) the Forest Department reports forests worked out by the Forest Department while the table on Agricultural Statistics includes in addition, forest area administered by district officers and (ii) certain villages and other lands not covered by forest but worked out by Forest Department as forests are not treated as forests in the returns of Agricultural Statistics.

Area not available for Cultivation:—This stands for all land which is absolutely barren or uncultivable covered by buildings, water or roads or otherwise appropriated for non-agricultural purposes. Under sub-head "Land put to non-agricultural use" is included land occupied by buildings, roads, railways or under water and other lands put to uses other than agriculture while under the sub-head "Barren and unculturable land" come mountains, deserts etc.

Other Uncultivated Land excluding Fallow Lands:—This denotes land available for cultivation but not taken up and includes culturable waste, permanent pastures and other grazing land and land under miscellaneous trees, crops and groves. The last one is that type of culturable land which is not included under net area sown but is put to some agricultural use.

Fallow Land—It includes current fallows i. e. land which is left fallow during the current year only and other fallow lands i.e. lands which were taken up for cultivation but are temporarily out of cultivation for a period of not less than one year and not more than 5 years.

Net area Sown, Area Sown more than once and Total Cropped Area:—In computing the net area sown, areas sown more than once have been counted only once. Under the head "Area sown more than once" area sown with two and more than two crops in the same year is counted as many times as the crop is sown. The total cropped area is the total of net area sown and area sown more than once.

INDEX NUMBER—

Coverage:—The present series of Index Numbers of Agricultural Production in Rajasthan covers 24 principal crops for which forecasts are issued by the Board of Revenue from time to time. These crops occupy major portion of the gross area sown in the State. These 24 crops are further sub-divided into two main groups, namely, food-crops and non-food-crops and seven sub-groups, namely, cereals, pulses, oil-seeds, fibres, spices & condiments, vegetables and others.

The data about the crops included for the preparation of the Index cover about 84 percent of the cropped area and as such the trends in their production are fairly representative of the trend of the entire agricultural production in the State.

Base period—The Base period for these indices has been changed from the triennium 1959-60 to 1961-62 to the triennium 1967-68 to 1969-70 considering the recommendation of the Economic & Statistical Advisor, Ministry of Agriculture & Irrigation, Govt of India, Technical Committee on Index Numbers related to Agriculture economy and of the Technical Committee on prices & Cost of living. This is also a reasonable period from the point of view of weather, Agriculture production and prices in Rajasthan.

Weights—Weights have been assigned to the different commodities in the same proportion, which the average value of its production bears to the total average value of production of all commodities during the base period. The production has been valued at the annual harvest prices of the commodities prevailing each year during the base period.

Method of Construction of Index Numbers:—The percentage production relative for each crop for the current year has been calculated with the corresponding estimated production in the base period. To obtain group-level indices these production relatives have been multiplied with the weights of the respective crops. The aggregative of the products has been divided by the total weights.

The concept of production utilised in the construction of index numbers is that of gross production of crops. Revised estimates of yield for each year have further been processed as indicated above to get the estimated yield for which figures have been used for construction of the index numbers.

Average yield of principal crops—It has been calculated by dividing production figures by area.

Area and production of Crops—The figures of area and production are given for principal cereals, pulses and commercial crops. The area figures are compiled by the Board of Revenue (Land Records) Rajasthan from the Agricultural Statistical returns prepared by the revenue staff. While the production figures for the State as a whole are estimated on the basis of crop cutting experiment results for Bajra, Maize, Wheat, Barley, Gram, Linseed, Sesamum, Rape and Mustard and cotton. For other crops, it is calculated on the basis of average normal yield of past 10 years. For estimating the production at the district level, yield is worked out separately for each of the major districts, depending upon different crops and for the remaining districts the estimates are only tentative. The total of the district tallies with the production for the state as a whole.

The figures as given are those based on final forecasts, as well as those based on revised estimates as issued from time to time along with the final forecast for the following year. The data relates to the agriculture year ending June.

Agricultural Implement and Machinery—The figures relating to the agricultural implements and machinery in actual use for 1961, 1966, 1972 and 1977 are based on Quinquennial Livestock Census. The data in compiled form is supplied to the directorate by the Board of Revenue (Land Records), Rajasthan.

IRRIGATION

Net Irrigated Area:—The area irrigated from different sources represents the net irrigated area. If two more crops are irrigated in the same year from the same source, the area is counted only once.

Gross Irrigated Area:--Total area irrigated under different crops represents the gross irrigated area and includes area irrigated under more than one crop during the same year. Area irrigated more than once in a single harvest is counted only once.

The data on irrigation by sources and crops is compiled by the Board of Revenue (Land Records), Rajasthan from the data contained in the Annual Agricultural Statistics Returns prepared by the Revenue staff. The information on Irrigation works is supplied by the Irrigation Department, Rajasthan. The data contained in Table No. 4.1 relates only to plan works in progress.

LIVESTOCK AND POULTRY

The data given in this section on Livestock and Poultry are based on Quinquennial Livestock Census 1972 and 1977.

The data on Animal Husbandry facilities is supplied by the Animal Husbandry Department, Rajasthan. There it is collected as an administrative by-product.

MINING

The mineral statistics are collected and compiled by the Directorate of Mines and Geology, Rajasthan. To supply the data in case of major and minor minerals is a statutory obligation on the part of the lessees but in case of certain minor minerals and specially building materials, where rent-cum-royalty leases are granted, the production, sale value and average number of persons employed per day are estimated on the basis of royalty collected through royalty collection contractors.

INDUSTRIES

Annual Survey of Industries—Till the year 1960, the data with regard to industrial statistics was collected under the Census of Manufacturing Industries. Since 1961, it has been started to be collected under the Annual Survey of Industries under Collection of Statistic Act, 1953. The coverage of this survey extends to all the factories registered under section 2(m)(i) and 2(m)(ii) of the Indian Factories Act, 1948. Undersized factories have been excluded. Undersized factory is that factory which did not employ at least 10 workers with the aid of power, or at least 20 workers without the aid of power, throughout the reference year. The data so collected relates to the accounting year of the factories ending on any day during 1st April and 31st March of the reference year. The following are the important definitions and concepts used for this survey:—

Productive Capital—It includes both fixed and working capital. Fixed capital comprises of land, buildings including those under construction, improvement to land and other construction; plant, machinery, tool (including uninstalled), transport equipment, other fixed assets such as furniture, fixture etc. and excludes intangible assets. Working capital consists of stock of materials, stores, fuels, semi-finished goods including works in progress, finished products and by-products, cash in hand and at the bank and the algebraic sum of sundry creditors as represented by (a) outstanding factory payments e.g. rent, wages, interest and dividend, (b) purchase of goods and services, (c) short term service loans and advances and sundry debtors comprising amount due to the factory on account of sale of goods and services and advances towards purchase and tax-payment.

Worker—As defined under section 2(1) of the Indian Factories Act, 1948, a worker means a person employed directly or through any agency, whether for wages or not, in any manufacturing process or in cleaning any part of the machinery or premises used for a manufacturing process, or any other kind of work incidental to, or connected with the manufacturing process or the subject of the manufacturing process.

Persons other than workers—The head includes persons employed in administrative and clerical jobs within factory area and all those engaged in effecting delivery of the output.

Number of persons employed—The average number of persons employed by each factory has been computed by taking the total attendance of persons in all the shifts on all working days and dividing it by the ~~number of days worked~~. These averages are aggregated for all factories in the State or industry, as the case may be and the aggregate is taken as the number of persons employed in the State or industry respectively. It includes persons attending and on leave with pay such as sick leave, casual leave or paid vacation and also those engaged in welfare activities.

Wages—The term wages is used in the same sense as defined in section 2(iv) of the Payment of Wages Act, 1956 and denotes all remuneration capable of being expressed in terms of money which would, if the terms of contract of employment expressed or implied were fulfilled, be payable more or less regularly for each pay period whether conditional upon regular attendance, good work, conduct or behaviour of the persons

employed or otherwise, to a person in respect of his employment or of work done in such employment and includes any bonus or other additional remuneration of the nature aforesaid which would be so payable, and any sum payable to such person by reason of the termination of his employment but does not include—

- (a) the value of any house, accommodation, supply of light, water, medical attendance or other amenity for any services specifically excluded by general or special order of the State Government.
- (b) any contribution paid by the employer to any pension fund or provident fund.
- (c) any travelling allowance or the value of any travelling concession.
- (d) any sum paid to person employed to defray special expenses entailed on him by the nature of his employment.
- (e) any gratuity payable on discharge.

Other benefits—These include various benefits over and above wages such as free or subsidised housing, food grains at concessional rates etc.

Purchase value of fuels and raw materials consumed—This is the purchase value of fuels and raw materials (inclusive of transport charges and other incidental costs) actually consumed in the factory and includes the purchase value of goods sold in the same condition as purchased and value of products reported for sale in the previous year but consumed during the current year for further manufacture. The value of fuel or materials manufactured within the factory and consumed for further processing has not been accounted.

Other expense—Under this head are included transportation charges, directors and managing agents fees and interest paid etc.

Depreciation—Depreciation on fixed assets is calculated at the rates allowed by the Income Tax authorities for assessing taxable income.

Ex-factory selling value of products and by products—This represents the value of products and by-products of the factory and is exclusive of transport charge from the factory, commission to selling agents etc. This term includes all products made during the year for sale (whether actually sold during the year or not).

Value of work done for others—This means value of work done by the factory for others on payment when the materials are supplied by them.

Output—It is the aggregate of products and by products manufactured for sale and of work done for customers and adjusted for the difference in value of stocks of semi-finished goods at the beginning and at the end of the survey year.

Value added by manufacture—This represents that part of the value of product which is created in the factory and is computed by deducting the value of input comprising cost of material, fuels, amount paid for work done by other concerns, other expenses (which includes cost of transport, fee of directors and managing agents, interest charges etc., and depreciation of fixed assets.)

POWER

The data on generation and consumption of electricity relates to both private and public undertakings in the State and excludes Military, Factory and Railway power stations. Electricity generated covers the total power generation in the state through steam/gas and diesel. Electricity purchased covers both from non-electric utilities and hydel power from adjoining States. The statistics are compiled in the Directorate of Economics and Statistics, Rajasthan. The data is obtained from Rajasthan State Electricity Board.

TRADE

The trade statistics gives quantity (generally net weight i.e. exclusive of packing) of certain commodities exported from the state of Rajasthan to other states and imported from other States to Rajasthan. Data relates to river and rail borne trade only and are presented for the financial year (April to March). The figures are compiled by the Director General of Commercial Intelligence and Statistics, Ministry of Commerce and Industry, Government of India, Calcutta and are published in the 'Accounts Relating to the Inland (Rail and River borne) Trade of India'.

These statistics are recorded on 'Import basis'. According to the arrangements in force, each of Railways register such traffic en-route to a destination on a different railway station on the same or to a station on the same system but located outside the trade blocks. The imports into the station on the minor railway are recorded by the major railway connecting them. The traffic carried partly by rail and partly by river, when booked through and carried by steamers running in connection with railways, is to be recorded generally by the railway administration concerned.

Government of India, Calcutta.

PRICES

New Series of Consumer Price Index Numbers of Jaipur and Ajmer centres—Jaipur and Ajmer were among the 50 centres selected for conducting Family Living Surveys among industrial workers under the Government of India's scheme during the Second Five Year Plan. Accordingly Family Living Surveys were conducted by the Labour Bureau, Government of India, Simla, at these two centres during the period September, 1958 to August, 1959 in the course of which data were collected from 359 families for Ajmer centre and 239 families for Jaipur centre. Both single member families and multi-members family were covered in the course of survey and an average budget giving a combined expenditure pattern of both types of families was tabulated.

Weighting Diagram—On the basis of expenditure of above families, an average budget for each centre was prepared, the weights to various commodities/sub-group/group being their respective share of expenditure in an average budget. The following items of non-consumption expenditure and non-priceable expenditure were excluded from the average budget:—

- (a) All items under the sub-group "Subscription etc".
- (b) All items under the sub-group "Taxes".
- (c) All items under the sub-group "Interest, Litigation and Remittances".
- (d) All items under the sub-group "Savings and Investments", and
- (e) Debts Repaid.

The rest of the items in the average budget have been classified in the various sub-groups and groups. Suitable imputations were also done for the unpriced items and those having insignificant expenditure. The weighting diagram for both the centres is given below:—

Group	Weights	
	Jaipur	Ajmer
Food	55.42	53.73
I. B. Tobacco, Pan, Supari and intoxicants	3.88	4.19
II. Fuel and light	6.26	5.48
III. House rent	6.32	4.94
IV. Clothing, Bedding and Footwear	12.66	12.17
V. Miscellaneous	15.46	19.49
Total	100.00	100.00

The special feature of the series is the varying monthly weights for the components of sub-group "Fruits and vegetables" which has a highly seasonal character and introduction of half-yearly varying index for House rent.

Base Year—Calender year 1960 has been taken as the base period. For each month a pooled average of all the quotations from all the four markets in each centre has been taken as the average monthly price. A simple average of the monthly average prices for 1960 has been taken as the base price for each item.

Collection of Prices—Price collection work at each centre is being done by four price collectors under the supervision of the District Statistical Officer at the respective centres. The localities selected for price collection work at the two centres are as follows:—

Jaipur centre	Ajmer centre
1. Chandpole	1. Kaisarganj
2. Johri Bazar	2. Nagra
3. Ramganj	3. Ramganj
4. Station Road	4. Srinager Road

Price of each item for which detailed specification etc. have been given are collected weekly on every Sunday at Ajmer and on every Friday at Jaipur from selected shops. The price returns are subjected to a close scrutiny at both Labour Bureau, Simla and Directorate of Economics and Statistics, Rajasthan, Jaipur before the price quotations are utilised for preparation of Consumer Price Index Numbers.

Method of computation—The Index for each centre has been calculated by Laspeyer's formula as a weighted average of price relatives, the weights being proportion of expenditure as determined from the Family Living Survey. Price relatives for the items for a current month are obtained by expressing the average monthly price of an item for the current month as a percentage of the corresponding base price. In case where more than one variety is being priced for an item the price relative is calculated separately for each variety and then a simple average of these price relatives is taken to be the price relative of this item.

The price relative of each item is multiplied by its weight in the sub-group/group and the sum of these products for all items in a sub-group/group is divided by the sum of the weights of the item, i. e. 100 and the resultant figure is the sub-group/group index. The sub-group index numbers in the Food and Miscellaneous groups are multiplied by their respective sub-group weights and the sum of the products when divided by the sum of the weights, i. e. 100 yields the Food and Miscellaneous Group Index respectively. For determining the general consumer price index numbers for a month, the group index numbers are again multiplied by the total weight of the different groups and the total product is divided by the sum of the group weights.

The group wise and general indices from 1973 to 1978 and monthly indices for 1978 both for Ajmer and Jaipur centres have been given in Tables 10.4 and 10.5 respectively.

Consumer Price Index Numbers for Working Classes (Beawar)—These indices relate only to working class families of Beawar. These represent change in the cost of a given basket of goods and services consumed by an average working class household. The items in the list of articles are grouped under five heads viz, food; fuel and lighting; clothing, bedding and footwear; house rent and miscellaneous and separate indices are worked out for individual groups. These indices are worked out and supplied by the Director, Labour Bureau, Government of India, Simla. The prices of certain prescribed commodities for this purpose are collected by the Labour Bureau, Simla for this centre of Rajasthan through the agency of this directorate.

Consumer Price Index Numbers for Agricultural Labourers (Base July, 1960-June, 1961=100)—The all India index is a weighted average compiled by Labour Bureau, Simla in respect of 15 constituent States or group of states.

These indices measure the extent to which the overall level of retail prices of goods and services consumed by agricultural labourers in different states (or groups of states) has changed when compared with the base period viz, July, 1960-June 1961=100.

The state index is worked out by Laspeyers formula as a weighted average for the price relatives, the weights being proportions of expenditure as determined by the second Agricultural Labour Enquiry Commission.

Consumer Price Index Numbers for Urban Non-Manual Employees (Base 1960=100)—Consumer Price Index Numbers for urban Non-Manual Employees (Base 1960=100) for all India and for 45 selected centres are compiled and published by Central Statistical Organisation, Government of India, New Delhi.

Index Number of Building Construction Cost for Jaipur Centre (Base 1971=100)—This directorate has compiled building construction cost Index Numbers for residential buildings for Jaipur centre with year 1971 as base year. The cost of building material and labour have only been considered in the computerisation of these indices.

The weighted arithmetic average method is used for the computation of the Index. For each variety of material/labour the price relative is computed by dividing the current rate by the corresponding base rate. The weighted arithmetic average of the price relative of the varieties is taken as the material/labour index. The weighted arithmetic average of these materials and labour indices is the General Building Cost Index.

The weighting diagram is based on the proportion of expenditure incurred on each item in relation to the total construction cost in building construction during 1971. The cost of construction on building material/labour relates to the residential building of plot size 25'×50' (Two rooms house-low income group house constructed by the Rajasthan Housing Board, Jaipur.

Index Number of Wholesale Prices in Rajasthan—The Directorate of Economics and Statistics compiles index numbers of wholesale prices for measuring the variations in the price level in the State. It is a general purpose index with year 1952-53 as the base. The index is divided into four major groups viz, food articles; fuel, power, light and lubricants; Industrial raw materials and manufactured articles. In all, it covers 59 items for which 98 quotations are collected from 22 centres in the state on every Friday.

Wholesale Prices of Livestock products in Rajasthan—Wholesale prices of selected items are collected on weekly basis on every Wednesday from selected shops/reserve shops. Consolidated week wise prices alongwith their simple arithmetic average are supplied to Directorate where these prices have been used for estimation of state income.

Farm Harvest Prices—The farm harvest price is the average wholesale price at which the commodity is sold by the producer to the trader at the village site during the harvest period. The average farm price of a commodity for the state as a whole is arrived at by the method of weighted average, with the district production figures for the current year as weights.

CO-OPERATION

Co-operative Society—The co-operative society means the society which has been registered under the Rajasthan Co-operative Societies Act, 1953.

Share Capital—It denotes the paid up amount.

Working Capital—It includes share capital, deposits, borrowings of land mortgage banks and societies and reserves.

Loans Advanced—These are loans issued to members.

Recoveries—These are amounts recovered against the loans advanced.

The data relates to the co-operative year ending 30th June of every year and has been supplied by the Registrar, Co-operative societies, Rajasthan.

PUBLIC FINANCE

Receipt and expenditure of the State Government have been shown in this section. The data for these tables have been culled from the annual budget volumes published by the Finance Department, Government of Rajasthan. The figures represent actuals for the past years, revised estimates for the preceding year and budget estimates for the current financial year. All figures relate to financial year from April to March. The tables have been classified on the basis of economically significant categories. For instance, the receipts have been classified into tax revenue, non-tax revenue and the like. Similarly, the expenditure have been classified into revenue, capital, development and non-development. Development expenditure includes expenditure for Economic Development and on Social Services.

The tax revenue of the State has been classified into two important heads viz. the State Tax Revenue and the Receipts from Centrally levied taxes. Total revenue has also been represented under Direct and Indirect taxes in a separate table. The important sources of State Tax Revenue are Land Revenue, State Excise Duties, Sales Tax, Tax on Motor Vehicles and Stamps and Registration. The receipts from Centrally levied taxes represent the share of Rajasthan Government from the divisible pool of Income Tax, Union Excise Duties, Estate Duty and grant in lieu of tax on Railway passenger fares on the basis of the recommendations of the Sixth Finance Commission amounting to 4.50, 5.00, 4.76 and 6.59 percent respectively on the basis of recommendations of Fifth Finance Commission, of the total divisible pool allotted to the States. The share in lieu of Railway Passenger Fares has been abolished on the basis of recommendations of the Fifth Finance Commission (Final report). The non-tax Revenue largely consists of receipts from Forests, Irrigation, Multi-purpose river valley projects, Civil Works and receipts from Civil Administration etc. The total revenue expenditure has been broadly classified into development and non-development expenditure. The development expenditure has been further classified into expenditure on economic development and expenditure on social services with a view to present in a concise and consolidated form the progress of development expenditure on revenue account into the broad categories which represent the basic objective of the plans.

Under the head expenditure on non-development services, the items included under direct demands on revenue comprises establishment charges for the collection of Land Revenue, State Excise Duties, Sales Tax and other important source of revenue. Debt services include the amount of interest paid on public debt.

The total capital expenditure has also been classified into development and non-development categories. The items included in Government trading under capital expenditure relate to the charges incurred for grain supply schemes, distribution of seeds, fertilizers and implements, Salt Trading Schemes, Jaipur Milk Supply Scheme, State woollen Mills, Bikaner and Wool Trading Scheme etc.

The public account transactions have been given in a consolidated form showing the total of receipts and disbursements in table 13.14 under the head 'Debt, Desposit and Remittance transactions'.

Index numbers have also been given in most of the tables under this section with year 1970-71 as the base to facilitate a ready comparison of the financial transactions of the State Government. The indices are simple arithmetic averages.

Income Tax:—Income tax statistics relate to the assessment on account of income-tax, super-tax and surcharge made by the Income-tax Department, Government of India. The figures refer to assessment made under the Income tax Act and do not include demands raised for advance payment, provisional assessment and miscellaneous demands like penalties, warrant of fees etc. Figures of taxes represent the demand raised and not the collection actually made against these demands. These tables analyse the demand for income tax, super tax and surcharge, according to the classes of assesses viz. (1) Individuals, (2) Hindu Undivided families, (3) Registered firms, (4) Un-registered firms and other associations of person and (5) Companies and other concerns assessable at company rates. The statements are designed to show the total tax demand payable by assesseees and net income in their hands after the payment of tax. The number of assesseees shown are in respect of each source of income and an assessee having more than one source is included under each of the source from which he derived his income. The data is also given on Trade classification of business and professional income assessed to Income Tax and Super Tax including surcharge. The data has been supplied by the Directorate of Inspection (Research, Statistics & Publication) Govt. of India.

LABOUR

Trade Unions—The data in table 14.1 relates to trade unions registered and cancelled under the Indian Trade Unions Act, 1926. The statistics in table 14.1 relate to only those trade unions which have submitted returns.

Industrial Complaints—Only the number of complaints, by causes, received in the office of the Labour Commissioner have been reported.

Industrial disputes—Industrial disputes relate to strikes and lock-outs resulting in stoppage of work involving ten or more workers in all sectors of employment including factories, transport, municipal services etc. Sympathetic strikes and certain other types of stoppages which do not strictly come under the definition of industrial disputes as laid down in the Industrial Disputes Act, 1947, are not covered.

Factory accidents—Under this head are covered only the accidents occurring in factories (enquired into) which result into either death or injury to a worker necessitating his absence from work for 48 hours or more. This information is collected under the Indian Factories Act, 1948. The data has been compiled in this Directorate from the monthly reports on labour situation issued by the Labour commissioner, Rajasthan and its Annual Administration Reports.

Mandays worked—Number of mandays worked during the month are obtained by adding together the number of workers who worked on each shift on each day of the month i. e. the total presence of all the workers in the month.

Mandays lost—Number of mandays lost during the month on account of absence is obtained by adding together the number of workers absent on each day during the month. Mandays lost by absence due to strikes, lock-out or employer ordering lay off are excluded.

Mandays scheduled to work—This is the total of mandays worked and lost.

Absenteeism in factories—It is the percentage of mandays lost to mandays scheduled to work and has been worked out as under:—

$$\frac{\text{Mandays lost}}{\text{Total mandays worked + lost}} \times 100$$

This data has been collected on annual basis with monthly and quarterly breakdowns in the Annual Survey of Industries, by the Directorate of Economics and Statistics, Rajasthan.

EMPLOYMENT

Employment in Industries—This section deals with mandays worked by industrial workers and their earnings. Statistics relating to mandays worked by industries and average daily cash earnings of industrial workers have been compiled in the Directorate of Economics & Statistics, Rajasthan on the basis of returns collected under Annual Survey of Industries from the factories Registered under section 2(m) of the Indian factories Act, 1948. The returns from individual factories are treated as confidential and no figures for any individual factory are presented unless there are atleast three units in the same industry or the concerned industry has so consented. The average daily cash earnings have been obtained by dividing the gross earnings of the workers by the mandays paid for.

Employment in Mining—The supply of such data to the Directorate of Mines and Geology, Rajasthan is a statutory obligation on the part of the lessee, but in case of certain minor minerals and specially building materials where rent-cum-royalty leases are granted, average number of persons employed per day are just estimated on the basis of royalty collected through royalty collection centres. In case of certain minerals where data for any particular year was not available, this has been estimated on the basis of production during the last year. The figures given in this table represent the daily labour employment both above-ground and under-ground.

Rajasthan Government Employment—The Directorate of Economics and Statistics, Rajasthan is conducting a regular census of Rajasthan Government Employees on half-yearly basis. The first census was conducted for the employees as on 31-12-56. The data are collected separately for gazetted and non-gazetted staff under various pay ranges. The non-gazetted staff has been further sub-divided into permanent, temporary, part-time, piece rate etc., while the gazetted staff has been sub-divided into permanent and temporary. The data in the prescribed form are supplied by the Drawing and Disbursing Officers to the respective Heads of the Departments and they in turn compile the data for their departments and pass on to the Directorate of Economics and statistics, Rajasthan for compilation at State level. Employment represents the actuals as on the data of census while the monthly emoluments are estimated by multiplying the total employees with the mid values of the respective pay ranges.

Employment Exchange—Statistics under this section shows the working of the employment exchanges in Rajasthan. The nature of work undertaken by the employment exchanges consists of registering people who are seeking employment and securing employment for them. The data is supplied regularly by the Directorate of Employment, Rajasthan.

TRANSPORT AND COMMUNICATIONS

Roads—The data contained in the tables relates to the roads maintained by Public Works Department only and does not include roads maintained by Local Bodies and others. This however includes national highways, though they are under the direct control of the C.P.W.D., Government of India.

Transport—Data on motor vehicles and road accidents are collected directly by the Directorate of Economics and Statistics, Rajasthan from the offices of the Director of Transport and Superintendent of Police, C.I.D., Rajasthan respectively. The information on road transport routes nationalised has been given by the Rajasthan State Road Transport Corporation.

Posts and Telegraphs—This section presents data relating to the different branches of the Posts and Telegraph Department and has been supplied by the Postmaster General, Posts and Telegraphs, Rajasthan Circle.

EDUCATION

This section presents data on education statistics supplied by the Director of Primary and Secondary Education, Rajasthan, who in turn, collects it from the educational institutions of all standards for submission to the Ministry of Education, Government of India.

Literate and Educated Persons—A literate person has been defined as one who can both read and write while an educated person can, not only read and write but has also passed a written examination or examinations as proof of educational standard attained.

Schools/Colleges of Agriculture, Commerce, Engineering, Law, Medicine, Physical Education, Teacher's Training, Veterinary Science etc. come under professional Education while those for Music, Dancing, Fine Arts, Oriental Studies, Social Education etc. come under special education. All other types of studies come under General Education. Co—educational institutions are covered under institutions for boys.

Scholar means a student admitted and getting education in any of the above referred institutions as regular student on roll as on 31st March of the reporting year.

Teacher means a whole time person appointed by the management for teaching as on 31st March of the reporting year.

Expenditure means the amount actually spent on education including recurring and non-recurring charges up to 31st March of the reporting year. Indirect expenditure represents the amount incurred on direction, building, furniture, scholarships and other miscellaneous items. Its nature is such that it cannot be apportioned to each type of institution.

Examination results relate to those students who were educated in any of the above referred institutions during the reporting year as well as those appeared as private candidates. The data in respect of candidates passed are inclusive of supplementary examination results.

Note— Co-educational institutions are covered under boys.

@Distribution between boys and girls is not available.

MEDICAL AND PUBLIC HEALTH

1. **Government Medical Institutions**—The distinction between a hospital and a dispensary has been made on the basis of provision of in-patient beds. A hospital has beds whereas a dispensary has none. Accordingly T.B. clinics without beds have been grouped under dispensaries. The term general hospital here signifies those hospitals where patients of all maladies may find treatment and as such the Zenana Hospitals have been grouped under general hospital.

The Primary Health Centre is a composite institution providing facilities of in-door and out-door treatment, maternity and preventive health work. The information contained relates to those primary health centres which are actually functioning at the end of the year.

2. **In-patient beds**—The classification of in-patient beds is made according to diseases. As such the general beds here signify all those beds which are not meant for any particular disease and therefore include the beds available in primary health centres as well. The beds shown under maternity head include beds available in maternity and child welfare centres also.

3. **Medical and Health Personnel**—The number of medical personnel is based on the sanctioned strength of State public hospitals, dispensaries, primary health centres, family planning centres, maternity and child welfare centres, clinics, health workers etc.

4. **Patients treated**—The number of patients treated is the number of patients who came to Government medical institutions for treatment. Patients classified by diseases may not tally with the total patients due to administrative difficulties in registration system at different stages.

5. **Registered deaths by causes**—The data are based on the reports received from the District Statistical officers of the Directorate of Economics & Statistics, Rajasthan. Cent percent cases of deaths occurring in urban areas are not reported to the municipalities of the State. Consequently there is under-registration to this extent.

6. **Registered birth and death rates and infant and maternal mortality rates**—The birth and death rates relate to towns having population of 30,000 and above. The rates have been worked out per 1000 of population. In case of infant and maternal mortality rates the registration area is changing from year to year and as such the actual number of towns under registration area for each year has been given. The infant mortality and maternal mortality rates were calculated on 1000 live births and 1000 total births (including still births) respectively. There has been under-registration to a certain extent in these rates.

The statistics in respect of modern medicine has been made available by the Director of Medical and Health Services, Rajasthan. Birth and death rates and infant and maternal mortality rates have been compiled in the Directorate of Economics and Statistics, Rajasthan. In respect of Ayurvedic and Unani system the data has been supplied by the Director of Ayurved, Rajasthan.

HOUSING

In Rajasthan, four main types of Housing schemes viz, (i) Low Income Group Housing, (ii) Middle Income Group Housing, (iii) Subsidised Industrial Housing and (iv) Urban Housing are in operation. Of these, information relating to first three categories are presented in Table No. 19.1.

Low Income Group Housing—This is a plan scheme and is controlled by the Local Self-Government Department (now known as Town planning Department), Government of Rajasthan. Under this scheme, loans up to Rs. 10,000/- are disbursed by the District Collectors to the persons having an annual income up to Rs. 6,000/- for the construction of residential buildings. The loanee has to contribute at least 20 percent of the cost of construction. The scheme is in operation at all the district head-quarters.

Middle Income Group Housing—This is also a plan scheme and is also controlled by the Local Self-Government Department (now known as Town Planning Department), Government of Rajasthan. Under this scheme, loans up to Rs. 25,000/- are disbursed by the District Collectors to the persons having an annual income between Rs. 6,000/- to Rs. 15,000/- for the construction of residential buildings.

Subsidised Industrial Housing—This is a plan scheme for the benefit of industrial workers and is being controlled by the Labour Commissioner, Rajasthan and executed by the Public Works Department (Buildings & Roads), Rajasthan.

PLANNING AND DEVELOPMENT

The data for the year 1978-79 has been collected from the various Plan executing authorities on monthly, quarterly and annual basis and processed in the Directorate of Economics and Statistics. The expenditure reported in this table is only that spent against State plan ceiling. The figures of expenditure presented here are for the year 1978-79.

During the years 1978-79 and 1979-80 Rs. 23597.07 lakhs and Rs. 27500 00 lakhs were earmarked for the execution of various development schemes respectively.

The schemewise details of allotment for the years 1978-79, 1979-80 and expenditure for the year 1978-79 are given in table 20.2 while the physical targets for the years 1978-79, 1979-80 and achievements for the year 1978-79 are given in table 20.3.

LAW AND ORDER

This section presents data relating to crime cases, police, prisons and administration of Civil and Criminal Justice. The data has been compiled from the returns furnished by the departments concerned. The series presented the information from 1974-75 onwards. In Table No. 21.9 and 21.10 the year has been shifted from financial year to calendar year since 1975. The balance shown in these tables may not tally with the previous balance in the next year, since in some years information has not been received from all the Districts.

An attempt has also been made to depict districtwise picture of Judicial set-up in the State.

21.1 POLICE AND ARMED CONSTABULARY

GENERAL ELECTION

There are 200 assembly seats in Rajasthan in the Seventh general election held in 1980 and 25 Parliamentary seats. Ten members are sent to Rajya Sabha as elected representative of the Vidhan Sabha of the State.

First table incorporated in this chapter contains information on total electorate in each Parliamentary constituency and votes secured by the various parties contesting the general elections held in 1980. Second table contains the constituency-wise name of the elected member, party to which he belongs and the percentage of votes secured by the member. The third table contains party-wise name of the members of Rajya Sabha from the State.
