#### APPROACH AND POLICY

The year 1987-88 marks the reaching of mid way point in the Seventh Five Year-Plan. The Annual Plan has been formulated on the lines set out in the VII Plan, though the need for an appraisal on the allocations for certain sectors has arisen. The triple objectives of "food, work and productivity" continue to be the guiding principles for the inclusion of new activities.

- 2. Though the south west monsoon brought more rains than normal, the untimeliness of the rain and poor storage in the Mettur reservoir system resulted in the reduction of acreage under paddy. Yet, the extension activities bore fruits in the yield of rice recording new heights. Current year too, the poor storage in Mettur reservoir has caused a large shortfall in area. The emphasis of the Government is placed on increasing the productivity. Programmes for the Annual Plan 1987-88 contemplate additional investments in the production and distribution of quality seeds to ensure achievement of targets for production. Rs. 49.36 crores have been-earmarked for crop husbandry programme in addition to Rs. 4.51 Crores for the research and education programme. Programmes aiming at soil and water conservation continue to receive due importance with Rs. 8.04 Crores for Soil and Water Conservation Scheme and Rs. 10.45 Crores for the Command Area Development Programme.
- 3. In the allied sectors like Animal Husbandry and Dairy, new programmes to bring about increased number of cross bred cows and increased production of milk have been included. Integrated Dairy Development Programme at an investment of Rs. 5.54 Crores will be commenced in 1987-88. Rs. 4.30 Crores for Animal Husbandry activities and Rs. 76 lakhs for Dairy Development have been allocated.
- 4. Extension of irrigation facilities will cover an additional area of 10,981 hectares taking the total area during this plan period to 53,221 hectares. Rs. 49.26 Crores have been earmarked for Irrigation and Flood Control works with Rs. 14.44 crores for the Periyar Vaigai Modernisation Programme. Minor Irrigation Programmes have also been taken up with increased outlay of Rs. 23.46 Crores. EEC Assisted Programme of modernisation of old tank system to ensure better utilisation of the existing potential is continued with an increased investment of Rs. 7.23 Crores.
- 5. Programmes aiming at restoring the ecological balance have been given prominence in the Forestry sector. Schemes to develop the shola forests in the Nilgiris and Western Ghats area have been formulated. Social Forestry Programmes are continued with additional investments following transfer of rural fuel wood programme to the State sector. A proposal to intensify the production in pulp wood plantation will be taken up. Allocation for Forestry programmes amount to Rs. 24 47 Crores. Even while continuing the tempo

in the development of inland fisheries, new programmes to step up catch in marine fisheries have also been formulated. Distribution of mechanised boats and modernisation of the country craft are important activities in this endeavour. Creation of infrastructure facilities to increase the production of fingerlings suitable for inland fisheries is another area of focus in the Fisheries Sector. The outlay for this sector is Rs. 5.92 Crores.

- 6. Employment generation is one of the major objectives of the programmes of this Five-Year Plan. Activities under Community Development have been identified to achieve the goal while creating durable assets for the community. Rs. 36.22 Crores under National Rural Employment Programme and Rs. 39 Crores under Rural Landless Employment Generation Programme have been allocated. Development of Town Panchayats and municipal areas has also been taken note of. Rs. 76 lakhs for town panchayats and Rs. 230 lakhs for municipal areas have been earmarked. Programmes to develop Madras Corporation and surrounding areas are being continued with an allocation of Rs. 18.28 Crores. A special Water Supply and Sewerage Programme for Madras with external assistance will be implemented. Rs. 12 Crores have been set apart for this programme in 1987-88.
- 7. Major emphasis of the Annual Plan continues to be in the Power sector. The installed capacity for generation of power will be considerably stepped to 5,014 MW by 1987-88. This marks an achievement of 66 per cent of the five-year target. North Madras Thermal Programme will be implemented with the assistance from Asian Development Bank. In the current year itself, the target for electrification of villages for the VII Plan will be achieved in full. No village will remain without electricity from next year onwards.
- 8. Massive Rural Housing Programme commenced in the current year will be continued with an investment of Rs. 20 Crores. Allocations for the Water Supply Schemes have been stepped to Rs. 169.81 Crores for 1987-88. Rs. 25 Crores for the World Bank assisted Small Town Water Supply Programme and Rs. 12 Crores for the World Bank assisted Madras Water Supply Programme have been earmarked. For the Social Welfare and Nutrition sectors Rs. 105.30 Crores have been allocated.
- 9. Annual Plan 1987-88 has been drafted keeping in mind the objectives of the Seventh Plan. Programmes identified in the draft plan to achieve the objectives have been chosen for inclusion. Inspite of the vagaries of monsoon as felt in the current year too, suitable programmes to improve agricultural production have been carefully considered. These initiatives would enable the State to achieve the goals of the Five-Year Plan.

T. V. ANTONY,

Chairman,

State Planning Commission,

Madras-600 005.
