ACKNOWLEDGEMENT

Ministry of Human Resource Development (MHRD) is vested with the responsibility of setting up standards for collection, compilation and dissemination of educational statistics. Educational Standard Classification is required for the collection, presentation and analysis of educational data and for international comparisons.

Indian Standard Classification on Education (InSCED) has been developed for the first time as part of a national framework for the storage, exchange and dissemination of statistical and administrative data on educational activities in India and will be known as InSCED 2014. I would like to place on record my appreciation for the efforts made by all the Committee Members and Shri Shailendra Sigdel, UIS, Ms. Ruchika Gupta, Joint Director and Shri Manoj Kumar Verma, Assistant Director for going into the details of draft and preparing the concordance between InSCED and the International Classification ISCED.

Improvement of classification and their updation is an ongoing task and I would like the users to follow InSCED 2014 extensively and send their comments/observations based on the experience of use, which should go a long way to improve the future classification.

GLOSSARY

Academic year: The annual teaching or examination period, during which students attend courses or take final examinations; not taking minor breaks into account. It may be shorter than 12 months but would typically not be shorter than 9 months. It may vary for different levels of education or types of educational institutions. This is also referred to as the 'school year', mainly for the pre-tertiary level.

Academic Education: At higher education levels the term academic is used in place of general education.

Adult education: Adult Education aims at extending educational options to those adults, who have lost the opportunity and have crossed the age of formal education, but now feel a need for learning of any type, including, basic education and skill development.

Alternative & Innovative Education: Through Alternative & Innovative Education Non- Government Organisation (NGO) is supported for implementing experimental and innovative steps for Universalisation of Primary Education.

Arts: Arts is defined as imaginative, creative and nonscientific branches of knowledge considered collectively with main contents of Economics, Geography, History, Indian & Foreign Language, Philosophy, Psychology, Political Science, Sociology.

Certificate: Programmes at Certificate Level provide a knowledge and skills ranging from an understanding of basic concepts and the ability to perform a defined range of routine and predictable activities, to a breadth, depth and complexity of knowledge incorporating some theoretical concepts and the ability to apply knowledge and skills to a variety of contexts most of which are complex and non-routine.

Commerce: Commerce includes a range of subjects, which give the student general understanding of the various elements of running a business.

Completion of an education programme: Participation in all components of an education programme (including final examinations if any), irrespective of the result of any potential assessment of achievement of learning objectives.

Completion of an ISCED level: Successful completion of an education programme sufficient for level completion. At ISCED levels 1 and 4-8, the successful completion of a programme meeting the content and minimum duration criteria for the given level is considered as level completion. At ISCED levels 2 and 3 the successful completion of any programme granting access to programmes at higher ISCED levels (i.e. ISCED level 3 in the case of ISCED level 2 programmes and ISCED level 5, 6 or 7 in the case of ISCED level

3 programmes) is counted as level completion as is the completion of any terminal programme meeting the content, minimum duration (2 years) and cumulative duration criteria for the respective ISCED level (i.e. 8 years since the start of ISCED level 1 in the case of ISCED level 2 programmes and 11 years in the case of ISCED level 3 programmes).

Course: A unit of instruction comprising a sequence of educational activities in a particular field or range of related fields of education. This can also be referred to as a 'module', 'unit' or 'subject'.

Credit: Unit in which the successful completion of courses or modules is earned and documented during and at the end of an education programme. Credits express the volume of learning based on a typical workload needed to achieve the expected learning objectives.

Degree: Educational qualification awarded upon successful completion of specific education programmes in tertiary education (traditionally by universities or equivalent institutions).

Diploma: Programmes at Diploma Level provide a broad knowledge and skills, incorporating theoretical concepts, with substantial depth in some areas. The focus is on the application of theoretical concepts and technical or creative skills to a range of situations and the evaluation of information.

Distance mode of education: Distance mode is the system of imparting education through broadcasting, telecasting, internet, correspondence courses, seminars, contact programmes or the combination of any two or more such means of communication.

Early childhood education: Early childhood education provides learning and educational activities with a holistic approach to support children's early cognitive, physical, social and emotional development and introduce young children to organized instruction outside of the family context to develop some of the skills needed for academic readiness and to prepare them for entry into primary education.

Education: The processes by which societies deliberately transmit their accumulated information, knowledge, understanding, attitudes, values, skills, competencies and behaviours across generations. It involves communication designed to bring about learning.

Education programme: A coherent set or sequence of educational activities designed and organised to achieve pre-determined learning objectives or accomplish a specific set of educational tasks over a sustained period. Within an education programme, educational activities may also be grouped into sub-components variously described in

national contexts as ‘courses’, ‘modules’, ‘units’ and/or ‘subjects’. A programme may have major components not normally characterised as courses, units or modules – for example, play-based activities, periods of work experience, research projects and the preparation of dissertations.

Education provider: An organisation that provides education, either as a main or ancillary objective. This can be a public educational institution, as well as a private enterprise, non-governmental organisation or non-educational public body.

Educational activity: Deliberate activity involving some form of communication intended to bring about learning.

Educational attainment: The highest InSCED level of education an individual has successfully completed. This is usually measured with respect to the highest education programme successfully completed which is typically certified by a recognised qualification. Recognised intermediate qualifications are classified at a lower level than the programme itself.

Education Guarantee Scheme: Education Guarantee Scheme is meant for universalisation of Primary Education by providing primary schooling facility on a demand from a community lacking it.

Educational institution: Established institution that provides education as its main purpose, such as a school, college, university or training centre. Such institutions are normally accredited or sanctioned by the relevant national/state education authorities or equivalent authorities. Educational institutions may also be operated by private organisations.

Enrolment: Total number of students on roll in a programme as on reference date, regardless of age.

Field of education: Broad domain, branch or area of content covered by an education programme, course or module, often referred to as a ‘subject’ or ‘discipline’. This may also be referred to as ‘field of study’.

First degree: A degree awarded on the successful completion of an education programme at ISCED level 6 or 7 that does not require prior successful completion of any degree at ISCED level 6 for entry into the respective education programme.

Formal education: On the other hand, Formal Education generally refers to the hierarchically structured and chronologically organised education system.

Further degree: See Second or further degree.

General education: General Education is defined as educational programmes that are designed to develop learners' general knowledge, skills and competencies and numeracy skills, often to prepare participants for more advanced educational programmes at a higher Educational Level.

Grade: A specific stage of instruction in initial education usually covered during an academic year. Students in the same grade are usually of similar age. This is also referred to as a 'class', 'cohort' or 'year'.

Graduate of an education programme: An individual who has successfully completed an education programme.

Graduation: The successful completion of an education programme.

Higher Education: Higher Education is defined as the education, which is obtained after completing 12 years of schooling or equivalent and is of the duration of at least nine months (full time) or after completing 10 years of schooling and is of the duration of at least 3 years. The education may be of the nature of General, Vocational, Professional or Technical education.

In-service Training: The In-Service Training Program is a series of short courses and programs designed for employees, which gives an opportunity to them to improve and develop practical teaching, coaching, counseling and/or management skills.

Integrated: Integrated Programmes are generally amalgamation of two programmes. Dual Degree Programmes are also included at this level. The combination may be of Bachelor's and Bachelor's Degree, Bachelor's and Master's Degree, Master's and Doctorate Degree.

Learning: The individual acquisition or modification of information, knowledge, understanding, attitudes, values, skills, competencies or behaviours through experience, practice, study or instruction.

Learning activity: Deliberate activity in which an individual participates with the intention to learn.

Levels of education: An ordered set grouping education programmes in relation to gradations of learning experiences, as well as the knowledge, skills and competencies, which each programme is designed to impart. The InSCED level reflects the degree of complexity and specialisation of the content of an education programme, from foundational to complex.

M.Phil.: Programmes at M.Phil. (Master of Philosophy) Level are often designed to provide participants with advanced post graduate research degree. An M.Phil. is in most cases thesis-only, and is regarded as a senior or second Master's degree, standing between a taught Master's and a Ph.D.

Non-formal education: Non-formal Education is any organised, systematic, generally intentional and planned educational activity carried outside the framework of the Formal system.

Partial completion of ISCED level 2: Successful completion of a programme representing at least two years at ISCED level 2 and a cumulative duration of at least eight years since the beginning of ISCED level 1, and which is part of a sequence of programmes at ISCED level 2 but is not the last programme in the sequence at this level. Such programmes do not give direct access to ISCED level 3.

Partial completion of ISCED level 3: Successful completion of a programme representing at least 2 years at ISCED level 3 and a cumulative duration of at least 11 years since the beginning of ISCED level 1, and which is part of a sequence of programmes at ISCED level 3 but is not the last programme in the sequence at this level. Such programmes do not give direct access to any higher ISCED level.

Participant: Individuals who attend or take part in an education programme, or stage or module thereof.

Participation: Attendance in or undertaking an education programme, or stage or module thereof.

Person with Disability: Person with Disability (PWD) is a person suffering from a disability as defined in the “Persons with Disabilities (Equal Opportunities, Protection of Right and Full Participation) Act, 1995”.

Ph.D.: Programmes at Ph. D. Level are designed primarily to lead to an advanced research qualification. Programmes at this level are devoted to advanced study and original research and typically offered only by research-oriented higher educational institutions.

Post Graduate: Programmes at Post Graduate Level are often designed to provide participants with advanced academic and/or professional knowledge, skills and competencies, leading to a second degree or equivalent qualification in Higher education. Entry to these programmes normally requires the successful completion of Under Graduate Level and may depend on subject choice and/or grades achieved.

Post Graduate Diploma: Programmes at Post Graduate Diploma Level provide a highly specialised knowledge and skills, incorporating theoretical, technical, creative or conceptual skills with substantial depth in some areas. The focus is on applying a significant range of fundamental principles and complex techniques across a wide and often unpredictable variety of contexts in relation to either varied or highly specific functions.

Pre-Primary education: Education at Pre-Primary Level is an early Childhood education for young children before commencing Primary Education, primarily designed to introduce young children to the ideas, attitudes and behaviour required in a school environment.

Primary education: Primary Education means the education from first class to fifth class, typically designed to provide students with fundamental skills in reading, writing and mathematics and to prepare them for Upper Primary Education.

Programme duration: The time, expressed in academic years, it takes to deliver an education programme, assuming regular participation on a full-time basis.

Professional Education: At higher education levels the term professional is used in place of vocational education.

Qualification: The official confirmation, usually in the form of a document, certifying the successful completion of an education programme or a stage of a programme. Qualifications can be obtained through: i) successful completion of a full education programme; ii) successful completion of a stage of an education programme (intermediate qualifications); or iii) validation of acquired knowledge, skills and competencies, independent of participation in an education programme.

Science: Science is defined as the systematic study of the nature and behaviour of the material and physical universe, based on observation, experiment & measurement and the formulation of laws to describe these facts in general terms with main contents of Physics, Chemistry, Biology, Mathematics and Computer Science.

Second or further degree: A degree awarded on the successful completion of an education programme at ISCED level 6 or 7 that requires prior successful completion of a programme at ISCED level 6 or 7 for entry into the respective education programme.

Secondary: Secondary Education means the education from ninth class to tenth class, which provides a foundation for lifelong learning by preparing students for further study and enabling them to acquire work-related skills necessary for entry to the workforce.

Senior Secondary: Senior Secondary Education means the education from eleventh class to twelfth class, typically designed for preparation for higher education or for providing skills relevant to employment, or both.

Successful completion of an education programme: Achievement of the learning objectives of an education programme typically validated through the assessment of acquired knowledge, skills and competencies. Successful completion of an education programme is usually documented by the award of an educational qualification.

Tertiary education: Tertiary education builds on senior secondary education, providing learning activities in specialised fields of education. It aims at learning at a high level of complexity and specialisation. Tertiary education includes what is commonly understood as academic education but also includes advanced vocational or professional education.

Under Graduate: Programmes at Under Graduate Level are often designed to provide participants with intermediate academic and/or professional knowledge, skills and competencies, leading to a first degree or equivalent qualification in Higher education. Entry to these programmes normally requires the successful completion of Class XII and may depend on subject choice and/or grades achieved at Class XII.

Unsuccessful completion of an education programme: Failure to achieve the learning objectives of an education programme despite having attended or taken part in all components of the education programme (including final examinations, if any). Unsuccessful completion implies that some assessment of the achievement of the learning objectives has been undertaken but the demonstrated acquired knowledge, skills or competencies were judged insufficient.

Upper Primary: Upper Primary Education means the education from sixth class to eighth class, typically designed to build upon the learning outcomes from Primary Education and to prepare them for Secondary Education.

Vocational education: Vocational Education is defined as educational programmes that are designed for learners to acquire the knowledge, skills and competencies specific for a particular occupation or trade or class of occupations or trades. Such programmes prepare students for identified occupations spanning several areas of activities, successful completion of which leads to labour-market.

Indian Standard Classification of Education (InSCED) has been developed for the first time to harmonize different types of education statistical activities to improve national and international comparability. InSCED is a statistical framework for the collection, compilation, dissemination and analysis of education statistics in India. The primary consideration in developing InSCED is to document all types of education programmes running in Indian Educational System. An additional consideration is to align it with the International Standard Classification of Education. InSCED covers two cross-classification variables, Levels and Fields of Education.

The basic unit of classification in InSCED is the educational programme currently running in the Country. An Educational Programme is defined as a coherent set or sequence of educational activities or communication designed and organised to achieve pre-determined learning objectives or accomplish a specific set of educational tasks over a sustained period. The objectives encompass improving knowledge, skills and competencies within any personal, civic, social and/or employment related context. A common characteristic of an educational programme is that, upon fulfillment of learning objectives or educational tasks, successful completion is certified. Educational activities are deliberate activities, involving some form of communication intended to bring about learning.

Information compiled according to InSCED can be used for assembling statistics on different aspects of education of interest to policy-makers and other users of national and international education statistics. These aspects include enrolment, human or financial resources invested in education and the educational attainment of the population. Data collections of education statistics assembled according to InSCED will be used for both types of surveys; administrative and household.

International Scenario

The International Standard Classification of Education (ISCED) belonging to the United Nations International Family of Economic and Social Classifications, are applied in statistics world-wide with the purpose of assembling, compiling and analysing cross-nationally comparable data. ISCED is the reference classification for organising educational programmes and related qualifications by education levels and fields. ISCED is a product of international agreement and adopted formally by the General Conference of UNESCO Member States.

ISCED is designed to serve as a framework to classify educational activities as defined in programmes and the resulting qualifications into internationally agreed categories. The basic concepts and definitions of ISCED are therefore intended to be internationally valid and comprehensive of the full range of education systems irrespective of the situation in a particular system.

ISCED classifies educational programmes by their content using two main cross- classification variables: Levels of education and Fields of education. The latest version of ISCED (ISCED 2011) is a revision of the ISCED 1997 levels of education classification. It also introduces a related classification of educational attainment levels based on recognised educational qualifications. For education fields of education, the revised International Standard Classification of ISCED-F 2013 has been referred.

STRUCTURE

InSCED has been designed to classify education according to the Level of education and Field of education. Levels of education are an ordered set of categories, with an intention to group educational programmes in relation to gradations of learning experiences and the knowledge, skills and competencies which each programme is designed to impart. Generally the Levels represent broad steps of educational progression in terms of complexity of educational content. Field of Education is the subject matter of an educational activity.

InSCED is a classification of educational programme/activity and is not an attempt to classify the Educational Institutions.

All the educational activities are grouped into several “activity groups” or “tabulation categories” in a hierarchical manner. Educational Activities are first grouped into 16 ‘Broad Level’ alphabetically coded from A through O and X, which is further divided into 64 ‘Narrow Level’ with 2-digit numeric code. The levels are further divided into 23 ‘Detailed Level’ in case of Level A to E with 3-digit numeric code. Senior Secondary Education (Level E) has further been divided into Arts, Science, Commerce, Vocational and Other ‘Streams’ with 4-digit numeric code and Vocational School Education (4-digit numeric code – 0911, 1021, 1311 & 1414) has further been divided into 52 ‘Fields’ with 6-digit numeric code in 7 broad groups with 5-digit numeric code.

The Levels A to E pertains to School Education. The Level F to L pertains to Higher Education and Level M, N and O pertains to Certificate courses, In-service Training and Adult Education respectively.

Special Education for Persons with Disability imparted through formal mode of education will also be covered at appropriate level and no separate classification is made for such education. Person with Disability (PWD) is a person suffering from a disability as defined in the “Persons with Disabilities (Equal Opportunities, Protection of Right and Full Participation) Act, 1995”.

Higher Education is defined as the education, which is obtained after completing 12 years of schooling or equivalent and is of the duration of at least nine months (full time) or after completing 10 years of schooling and is of the duration of at least 3 years. The education may be of the nature of General, Vocational, Professional or Technical education.

Detailed Structure

A Pre-Primary

Education at Pre-Primary Level is an early Childhood education for young children before commencing Primary Education, primarily designed to introduce young children to the ideas, attitudes and behaviour required in a school environment.

00 School Education at Pre-Primary Level

- 001 General School Education (Class Nursery to Kindergarten)
- 002 Education at Aanganwadi and Balwadi Centres
- 003 Education in Play School

B Primary

Primary Education means the education from first class to fifth class, typically designed to provide students with fundamental skills in reading, writing and mathematics and to prepare them for Upper Primary Education.

01 General School Education at Primary level (Class I to V)

- 011 General School Education at Primary level for class I
- 012 General School Education at Primary level for class II
- 013 General School Education at Primary level for class III
- 014 General School Education at Primary level for class IV
- 015 General School Education at Primary level for class V

02 Education Guarantee Scheme/Alternative & Innovative Education

Education Guarantee Scheme is meant for universalisation of Primary Education by providing primary schooling facility on a demand from a community lacking it. Through Alternative & Innovative Education Non- Government Organisation (NGO) is supported for implementing experimental and innovative steps for Universalisation of Primary Education. These are for making education available to the children from disadvantaged groups and weaker sections, especially children in un-served habitations.

- 021 Education Guarantee Scheme/Alternative & Innovative Education

03 Non-formal Education at Primary Level

Non-formal Education is any organised, systematic, generally intentional and planned educational activity carried outside the framework of the Formal system. On the other hand, Formal Education generally refers to the hierarchically structured and chronologically organised education system. This excludes Education Guarantee Scheme/Alternative & Innovative Education, which is covered in Level 02 and also excludes Adult Education, which is covered in Level 0.

- 031 Non-formal Education at Primary Level

C Upper Primary

Upper Primary Education means the education from sixth class to eighth class, typically designed to build upon the learning outcomes from Primary Education and to prepare them for Secondary Education.

05 General School Education at Upper Primary level (Class VI to VIII)

051 General School Education at Upper Primary level for class VI

052 General School Education at Upper Primary level for class VII

053 General School Education at Upper Primary level for class VIII

06 Non-formal Education at Upper Primary Level

061 Non-formal Education at Upper Primary Level

D Secondary

Secondary Education means the education from ninth class to tenth class, which provides a foundation for lifelong learning by preparing students for further study and enabling them to acquire work-related skills necessary for entry to the workforce.

08 General School Education at Secondary level (Class IX to X)

General Education is defined as educational programmes that are designed to develop learners' general knowledge, skills and competencies and numeracy skills, often to prepare participants for more advanced educational programmes at a higher Educational Level.

081 General School Education at Secondary level for Class IX

082 General School Education at Secondary level for Class X

09 Vocational School Education at Secondary level with entry qualification of Class VIII

Vocational Education is defined as educational programmes that are designed for learners to acquire the knowledge, skills and competencies specific for a particular occupation or trade or class of occupations or trades. Such programmes prepare students for identified occupations spanning several areas of activities, successful completion of which leads to labour-market.

F Under Graduate

Programmes at Under Graduate Level are often designed to provide participants with intermediate academic and/or professional knowledge, skills and competencies, leading to a first degree or equivalent qualification in Higher education. Programmes at this level are typically theoretically based but may include practical components and do not necessarily involve the completion of a research project or thesis. They are traditionally offered by Universities and Colleges. Entry to these programmes normally requires the successful completion of Class XII and may depend on subject choice and/or grades achieved at Class XII. Additionally, it may be required to take and succeed in entry examinations. Upon completion of Under Graduate Level programmes, individuals may continue their education at Post Graduate Level. Under Graduate Level programmes do not usually give direct access to programmes at M.Phil./ Ph.D. Level. Programmes to be classified at Under Graduate Level are also referred as Bachelor programme and are generally having the duration of 3/4/5 years.

- 21** Education at Under Graduate level through Regular Mode with programme duration of less than 3 years
- 22** Education at Under Graduate level through Regular Mode with programme duration of 3 years
- 23** Education at Under Graduate level through Regular Mode with programme duration of 4 years
Programmes such as B.Tech., which are conducted through regular mode will be classified here.
- 24** Education at Under Graduate level through Regular Mode with programme duration of more than 4 years

- Programmes such as M.B.B.S. , which are conducted through regular mode will be classified here.
- 25 Second level Under Graduate Education through Regular Mode
Programmes such as B.Ed., L.L.B. conducted through regular mode will be classified here. It will not be classified in 21 or 22.
 - 26 Education at Under Graduate level through Distance Mode with programme duration of less than 3 years
 - 27 Education at Under Graduate level through Distance Mode with programme duration of 3 years
 - 28 Education at Under Graduate level through Distance Mode with programme duration of 4 years
 - 29 Education at Under Graduate level through Distance Mode with programme duration of more than 4 years
 - 30 Second level Under Graduate Education through Distance Mode

G Post Graduate

Programmes at Post Graduate Level are often designed to provide participants with advanced academic and/or professional knowledge, skills and competencies, leading to a second degree or equivalent qualification in Higher education. Programmes at this level are theoretically based, but may have a substantial research component, but do not yet lead to the award of a doctoral qualification. They are traditionally offered by Universities. Entry to these programmes normally requires the successful completion of Under Graduate Level and may depend on subject choice and/or grades achieved. Post Graduate Level programmes give direct access to programmes at M.Phil./ Ph.D. Level. Programmes to be classified at Post Graduate Level are also referred as Master programme and are generally having the duration of 2/3 years.

- 35 Education at Post Graduate level through Regular Mode with programme duration of 2 years or less
- 36 Education at Post Graduate level through Regular Mode with programme duration of more than 2 years
- 37 Education at Post Graduate level through Distance Mode with programme duration of 2 years or less
- 38 Education at Post Graduate level through Distance Mode with programme duration of more than 2 years

H M.Phil.

Programmes at M.Phil. (Master of Philosophy) Level are often designed to provide participants with advanced post graduate research degree. An M.Phil. is in most cases thesis-only, and is regarded as a senior or second Master's degree, standing between a taught Master's and a Ph.D. An M.Phil. may be awarded after completing several years of original research but before the defence of a dissertation, and can serve as a provisional enrollment for a Ph.D. designed for those who would like to acquire a certain level of analytical and applied skills but may not be keen on pursuing a Ph.D. degree. M.Phil. Programmes are generally having the duration of 1/2 years.

- 42 Education at M.Phil. level with entry qualification of Post Graduate Level with Distance Mode

I Ph.D.

Programmes at Ph. D. Level are designed primarily to lead to an advanced research qualification. Programmes at this level are devoted to advanced study and original research and typically offered only by research-oriented higher educational institutions such as Universities and usually concludes with the submission and defence of a thesis, dissertation or equivalent written work of publishable quality representing a significant contribution to knowledge in the respective field of study. These programmes therefore are typically based on research and not only on course-work. Programmes to be classified at Ph.D. Level are also referred as Doctoral programme and are generally having the duration of upto 5 years. Post Doctoral programmes are also included at this level.

- 45 Education at Ph.D. level with entry qualification of Post Graduate Level with Regular Mode
- 46 Education at Ph.D. level with entry qualification of Pd.D. Level with Regular Mode
- 47 Education at Ph.D. level with entry qualification of Post Graduate Level with Distance Mode

J Diploma

Programmes at Diploma Level provide a broad knowledge and skills, incorporating theoretical concepts, with substantial depth in some areas. The focus is on the application of theoretical concepts and technical or creative skills to a range of situations and the evaluation of information. Education at this level may also develop basic management and administrative skills. Entry to Diploma programmes is generally after completion of Class XII or Graduation. The duration of Diploma programmes is generally of 1/2/3 years

- 51 Education at Diploma Level with entry qualification of Class X with duration of at least 3 years with Regular Mode
- 52 Education at Diploma Level with entry qualification of Class XII with duration of at least 9 months but less than 2 years with Regular Mode
- 53 Education at Diploma Level with entry qualification of Class XII with duration of 2 years or more with Regular Mode
- 54 Education at Diploma Level with entry qualification of Under Graduate or higher Level with duration of at least 9 months but less than 2 years with Regular Mode
- 55 Education at Diploma Level with entry qualification of Under Graduate or higher Level with duration of 2 years or more with Regular Mode
- 56 Education at Diploma Level with entry qualification of Class X with duration of at least 3 years with Distance Mode
- 57 Education at Diploma Level with entry qualification of Class XII with duration of at least 9 months but less than 2 years with Distance Mode
- 58 Education at Diploma Level with entry qualification of Class XII with duration of 2 years or more with Distance Mode

- 59 Education at Diploma Level with entry qualification of Under Graduate or higher Level with duration of at least 9 months but less than 2 years with Distance Mode

K Post Graduate Diploma including Advanced Diploma

Programmes at Post Graduate Diploma Level provide a highly specialised knowledge and skills, incorporating theoretical, technical, creative or conceptual skills with substantial depth in some areas. The focus is on applying a significant range of fundamental principles and complex techniques across a wide and often unpredictable variety of contexts in relation to either varied or highly specific functions. Education at this level includes analysing information and concepts at an abstract level and executing judgments across a range of technical and management functions. Entry to Post Graduate Diploma programmes is generally after completion of Graduation. The duration of Post Graduate Diploma programmes is generally of 1/2/3 years.

- 65 Education at Post Graduate Diploma Level with entry qualification of Under Graduate Level with Regular Mode
- 66 Education at Post Graduate Diploma Level with entry qualification of Diploma Level or any other Level with Regular Mode
- 67 Education at Post Graduate Diploma Level with entry qualification of Under Graduate Level with Distance Mode
- 68 Education at Post Graduate Diploma Level with entry qualification of Diploma Level or any other Level with Distance Mode

L Integrated

Integrated Programmes are generally amalgamation of two programmes. Dual Degree Programmes are also included at this level. The combination may be of Bachelor's and Bachelor's Degree, Bachelor's and Master's Degree, Master's and Doctorate Degree. When education at this level will be further classified into field of educations, the field will be decided on the basis of the degree awarded at higher level or on the basis of the degree awarded later, if the fields are at the same level. These programmes are generally of very long duration, generally for 5 years or more.

- 71 Education at Integrated Level leading to Bachelor's Degree with Regular Mode
- 72 Education at Integrated Level leading to Master's Degree with Regular Mode
- 73 Education at Integrated Level leading to Doctorate with Regular Mode
- 74 Education at Integrated Level leading to Bachelor's Degree with Distance Mode
- 74 Education at Integrated Level leading to Master's Degree with Distance Mode
- 76 Education at Integrated Level leading to Doctorate with Distance Mode

M Certificate

Programmes at Certificate Level provide a knowledge and skills ranging from an understanding of basic concepts and the ability to perform a defined range of routine and predictable activities, to a breadth, depth and complexity of knowledge incorporating some theoretical concepts and the ability to apply knowledge and skills to a variety of contexts most of which are complex and non-routine. If it is a Programme similar to Diploma, but is awarded a Certificate by the Institution, it should be included at Level J. Here only those programmes which are of duration of less than 9 months are covered.

- 81 Short term Certificate Courses of duration of less than 9 months with entry qualification of Class X with Regular Mode
- 82 Short term Certificate Courses of duration of less than 9 months with entry qualification of Class XII with Regular Mode
- 83 Short term Certificate Courses of duration of less than 9 months with entry qualification of Under Graduate or higher Level with Regular Mode
- 84 Short term Certificate Courses of duration of less than 9 months without any entry qualification with Regular Mode
- 85 Short term Certificate Courses of duration of less than 9 months with entry qualification of Class X with Distance Mode
- 86 Short term Certificate Courses of duration of less than 9 months with entry qualification of Class XII with Distance Mode
- 87 Short term Certificate Courses of duration of less than 9 months with entry qualification of Under Graduate or higher Level with Distance Mode
- 88 Short term Certificate Courses of duration of less than 9 months without any entry qualification with Distance Mode

N In-service Training

The In-Service Training Program is a series of short courses and programs designed for employees, which gives an opportunity to them to improve and develop practical teaching, coaching, counseling and/or management skills. It is generally given to employees during the course of employment.

- 91 In-Service Training courses for Teachers
- 92 In-Service Training courses for Executives
- 93 In-Service Training courses for Others

O Adult Education

Adult Education aims at extending educational options to those adults, who have lost the opportunity and have crossed the age of formal education, but now feel a need for learning of any type, including, basic education and skill development.

BROAD GROUPS AND FIELDS OF EDUCATION

A field is the broad domain, branch or area of content covered by an educational programme, course or module, often referred to as a “subject” or “discipline”. This may also be referred to as ‘field of study’. Educational programmes are cross-classified by levels and fields of education, each variable being independent. Thus, every educational programme can be classified into one and only one cell in the level-field matrix. Obviously, not every combination of level and field exists, or can exist. This classification has been designed to describe and categorise field of education at higher education as a two-level hierarchy between broad groups and detailed field and uses a 4-digit coding scheme. There are 35 broad fields and 188 detailed fields. The rationale for the classification of fields of education is the subject content. Inter- or multi-disciplinary programmes should be classified according to a majority rule, i.e. in the field of education in which the students spend most of their time whereas in case of integrated programme, field will be decided on the basis of the degree awarded at higher level or on the basis of the degree awarded later, if the fields are at the same level. In case of Choice-based credit system (CBCS), the field will be decided on the basis of the maximum value of core credits.

There are two categories of orientation; at school level, it is general and vocational education. At higher education levels the terms academic and professional will be used in place of general and vocational respectively. Vocational education is defined as educational programmes that are designed for learners to acquire the knowledge, skills and competencies specific for a particular occupation or trade or class of occupations or trades. Such programmes may have work-based components (e.g. apprenticeships). General education is defined as educational programmes that are designed to develop learners’ general knowledge, skills and competencies and literacy and numeracy skills, often to prepare participants for more advanced educational programmes at the same or a higher level and to lay the foundation for lifelong learning. These programmes are typically school or college-based.

Orientation and fields of education are two different dimensions in classification. The fields of education with codes from 01 to 16 are of Academic orientation and fields of education with codes from 51 to 68 are of Professional orientation at Under Graduate and Post Graduate Levels, whereas all the fields of education will be of Academic orientation at M.Phil. and Ph.D. Levels. At Integrated level, if the education is leading to Doctorate, all the fields of education will be of Academic orientation and if the education is leading to Under Graduate and Post Graduate Levels, the orientation will be decided on the basis of the codes of the fields. At Diploma, Post Graduate Diploma and Certificate levels, all the fields of education will be of Vocational/ Professional orientation.

MINUTES OF THE FIRST MEETING OF THE COMMITTEE FOR NATIONAL STANDARD CLASSIFICATION OF EDUCATION

The first meeting of the Committee for National Standard Classification of Education was held under the Chairmanship of Shri Amit Khare, Joint Secretary, Department of Higher Education on 20th December, 2012 at Shastri Bhawan, New Delhi. The list of participants is annexed.

It was brought to the notice of the committee that Indian Standard Classification of Education (INSCED) is being developed for the first time as part of a national framework for the storage, exchange and dissemination of statistical and administrative data on educational activity in India. INSCED will be a statistical classification for use in the collection and analysis of data on educational activity and attainment. The primary consideration in designing INSCED will be to cater the requirements of all sectors of Indian Educational System. An additional consideration will be to make it comparable with the International Standard. INSCED will cover two cross-classification variables, Levels and Fields of Education. The basic unit of classification in INSCED is the educational programme.

After detailed deliberations and considering various Existing Classifications of different Countries, particularly Australian Standard Classification of Education and International Standard Classification of Education (ISCED), the following decisions were taken:

1. In the first phase, Classification pertaining to School Education Sector will be finalised. The draft write up on proposed Classification may be sent to D/o School Education & Literacy for their views/comments. After incorporating the same in the proposal, it may be circulated among the members of the committee and other stake holders for their comments and suggestions. This will also be sent to all the states for their comments and suggestions. Views of National Sample Survey Office (NSSO), Ministry of Statistics & Programme Implementation, being the premier data collection agency in India, will also be sought.
2. Classification pertaining to Higher Education Sector and the suggestions received on School sector will be discussed in the next meeting.

Meeting ended with thanks to the chair.

MINUTES OF THE SECOND MEETING OF THE COMMITTEE FOR NATIONAL STANDARD CLASSIFICATION ON EDUCATION

The second meeting of the Committee for National Standard Classification of Education was held under the Chairmanship of Shri Amit Khare, Joint Secretary, Department of Higher Education on 14th October, 2013 at Shastri Bhawan, New Delhi. The list of participants is given at Annex.

As per the decisions taken in the first meeting, the draft classification pertaining to school education sector was sent to D/o School Education & Literacy (DoSE&L), National Sample Survey Office, the members of Committee and to School Departments of all the States. The comments and suggestions received from them were discussed in detail. The concordance between National Classification and ISCED was also discussed up to school level. The classification pertaining to higher education was also discussed in detail, which was prepared after incorporating suggestions received from UIS. After detailed deliberations, the following decisions were taken:

1. At present vocational education has been separately classified at secondary and senior secondary level. The Department of School Education and Literacy (DoSE&L) may be requested to suggest whether vocational education should be classified at Upper Primary level also.
2. Under vocational education, wherever “word processing” is mentioned, it should be expanded to cover spread sheet, internet etc. without mentioning the name of any proprietary related item.
3. The Committee was of the view that Special Education for Persons with Disability at Upper Primary level may be classified separately. However, views of DoSE&L may be sought to know that it is not against the principle of inclusiveness of education.
4. While explaining the concepts, educational attainment may be described at appropriate places so that data collected through household surveys can be mapped for comparability.
5. Disability studies may be added as a separate subject while classifying higher education.
6. There was general agreement on the standards of classification of higher education at six digit level.
7. It was decided that the concordance between InSCED & ISCED may be prepared by the Statistics Division in consultation with UIS.
8. Final document after carrying out necessary modification may be circulated among all members for their comments.

Meeting ended with thanks to the chair.

MINUTES OF THE THIRD MEETING OF THE COMMITTEE ON NATIONAL STANDARD CLASSIFICATION ON EDUCATION

The third meeting of the Committee on National Standard Classification of Education was held under the Chairmanship of Shri Amit Khare, Joint Secretary, Department of Higher Education on 28th February, 2014 at Shastri Bhawan, New Delhi. The list of participants is given at Annexure.

After detailed deliberations the following decisions were taken:

1. Accepting the suggestions received from the Department of School Education and Literacy, it was decided not to classify special education for persons with disability separately. Special education will be classified at appropriate level under formal education.
2. The number of Broad groups was increased from six to seven, under vocational education at secondary and senior secondary levels by including a separate classification for other streams.
3. The concordance between InSCED & ISCED including the comparison of fields of education, prepared by the Statistics Division and UIS, was discussed in detail and was approved by the Committee with minor modifications.
4. The document prepared on Indian Standard Classification was approved with the above mentioned modifications.

Meeting ended with thanks to the chair.
