Strategies :

3.01 As indicated in the revised plan of 1978-83 the strategies to be adopted for achieving the 90% enrolment target in age group 6-11 and 45% in age group 11-14 by the end of 1983; are (1) to provide effective administrative machinery for ensuring optimum benefits from the existing facilities and that will be developed in future, (2) to make provision of new facilities of primary and middle schools with in easy walkable distance (3) to establish special type of schools in tribal areas (4) restriction of all new entrants to class I at the age of 6, (5) to eliminate stagnation upto class VIII (6) to make provision of non formal education for those who can not

efforts for the enrolment of girls by appointing women teachers on an increasing scale and by providing incentives to the girls (8) to make special efforts for the enrolment of scheduled castes and scheduled tribes by creating better and more favourable condition for their enrolment and by providing liberal incentives to them and (9) to make efforts for improving quality of education by introducing various educational reforms and by providing adequate equipment and suitable buildings to the institutions.

3.02 The same strategy is being adopted for the annual plan of 1979-80. In the light of the strategies mentioned above it is proposed to implement the following programmes for the year 1979-80.

4. Proposals for the year 1979-80 :

4.01 The plan for 1979-80 is composed of 3 categories of programmes :

- a. Centrally sponsored schemes
- b. Continuing schemes which may be transferred to Non-plan and
- c. New Schemes

Three Centrally sponsored schemes operating in the state, they are (1) scheme of national fitness corps (2) Educational technology cell and (3) Educational survey. An amount of Rs. 32.86 lakhs is proposed for these schemes. For the schemes started during the fifth plan period an amount of Rs. 1292.56 lakhs will be required during the year 1979-80. This entire amount may be treated as non plan expenditure. Details are given in the annexure.

4.02 State planning department has communicated a plan ceiling of Rs. 1174.80 lakhs for the new schemes of 1979-80, but looking to the needs of development of school education,

continue to learn on full time basis (7) to make special efforts for the enrolment of girls by appointing women teachers on an increasing scale and by providing incentives to the girls (8) to make special efforts for the enrolment of scheduled castes and scheduled tribes by creating better and more favourable condition for their enrolment and by providing liberal incentives to them and (9) to make efforts for improving qality of education by introducing varicus educational reformes and by providing adequate equipment and suitable buildings to the institutions.

3.02 The some strategy is being adopted for the annual plan of 1979-80. In the light of the strategies mentioned above it is prpcosed to implement the following programmes for the year 1979-80.

4. Proposals for the year 1979-80 :

4.01 The plan for 1979-80 is composed of 3 categories of programmes :

- a. Centrally sponsored schemes
- b. Continuing schemes which may be transferred to Non-plan and
- c. New Schemes

Three Centrally sponsored sehemes operating in the state, they are (1) scheme of national fitness corps (2) Educational technology cell and (3) Educational survey. An amount of Rs. 32.86 lakhs is proposed for these schemes. For the schemes started during the fifth plan period an amount of Rs. 1292.56 lakhs will be required during the year 1979-80. This entire amount may be treated as non plan expen-diture Details are given in the annexture.

4.02 State planning department has communicated a plan ceiling of Rs. 1174.5 lakhs for the new schemes of 1979-80, but looking to the needs of development of school education,

schemes worth Rs. 1490.28 lakhs are proposed for the year 1979-80. The details of the schemes are as given below :

Elementary Education :

Primary Schools

4.03 The first step in the direction of universalisation of primary education is to make provision of primary schools within easy and accessible distance of 1 km. from the house of the child. The schools should be located in village having population 200 or more. During the sixth plan period it is proposed to open 9000 new primary schools. It is proposed to open 2000 new primary schools during the year 1979-80. This will help to enrol about 82,500 additional children in primary classes. During the year 1979-80, One fourth of these institutions will be opened in tribal sub-plan area. Total amount required for this programme during 1979-80 will be Rs. 65.60 lakhs.

Additional teachers for incomplete primary schools and additional sections.

4.04 During the last 6 years 7075 primary schools have been opened and only one teacher is provided in each school for starting classes I to III. These schools are to be upgraded upto class V and this upgradation will require appointment of 7075 teachers during the sixth plan period. It is proposed to upgrade 2000 such schools during 1979-80. This will require 2000 additional teachers during 1979-80. Total amount of Rs. 55.60 lakhs will be required for this scheme. In addition to this there is necessity of opening additional sections in primary schools where the enrolment is high and where it is likely to increase during the sixth plan period. It is estimated that during the sixth plan 2000 additional teachers will be needed to meet this situation. During 1979-80 600 additional teachers are proposed for this which will require an amount of Rs. 16.68 lakhs.

Husband-wife team to improve girls enrolment:

4.05 The enrolment of girls in the state is very poor, there are various reasons for this. One of the main reasons is that the girls have to look after their younger brothers and sisters at home. The second reason is that the parents do not want to send the girls to schools because there is no lady teacher in the school. In the light of the above problems it is proposed to post husband-wife team in primary school in the area where enrolment of girls is very poor. Out of 2000 new primary schools proposed during 1979-80 it is proposed that 500 of them should be opened with this arrangement of husband-wife team. As the enrolment of girls is poorer in tribal areas half of them are proposed in tribal areas. The wife of the teacher will be paid an honorarium of Rs. 100/- per month for looking after the younger children and giving them some education through play way methods. These schools will also be provided funds at the rate of 500/- per school for purchasing playing equipments. A sum of Rs. 6.50 lakhs will be needed during 1979-80 for this scheme.

Non Formal Education Centres :

4.06 For the children of age group 9-14 who are dropouts or non-entrants, non-formal education system has been in operation since Feb. 1975 in this State. To achieve the goal of universalisation of Elementary Education i.e. 90% enrolment in the age group 6-11 and 45% in the age group 11-14, during sixth plan period about 62300 centres will be required to be opened, out of which 16000 centres have been proposed during 1979-80. At the rate of Rs. 1100/- per annum per centre a sum of Rs. 176.00 lakhs will be needed for this programme.

Middle Schools :

4.07 In order to achieve the enrolment target of 45% in age group 11-14 by the end of sixth plan it has been proposed to open 3500 middle schools during the Sixth Plan period. These

schools will be opened in habitations having a population of 500 or more and having no middle school facility with-in a distance of 3 km. It is proposed that 800 new middle schools should be opened during 1979-80. One fourth of these schools will be opened in tribal areas. This will help to bring about 28,000 additional students of age group 11-14 to school. In addition to this 930 additional teachers will also be required for starting sequential classes in the schools opened during the fifth plan period. This will require an amount of Rs. 69.85 Lakhs during 1979-80.

Incentives :

4.08 In order to encourage more children of socio-economically weaker sections, to come for education, special incentives programme will be necessary; Following are the incentives proposed for the plan of 1979-80.

- (i) To provide free text books to the children of SC/ST, the amount has already been included in committed and continuing item and hence not newly proposed.
- (ii) To provide free uniforms to poor girls a sum of Rs. 100.00 lacs has been proposed for about 3 lacs girls @ Rs. 30/- per uniform.
- (iii) Free mid-day meal is of great help for increasing enrolment and retention in schools. The scheme is in operation in Tribal Welfare Department of the State. In order to extend it in the primary schools of Education Department, an amount of Rs. 50.00 lakhs has been proposed.
- (iv) To attract lady teachers to work in village schools it is proposed to provide a lady teacher quarter for at least 50% of the new primary schools at the cost of Rs. 10,000/- per quarter. This will need a sum of Rs. 100.00 lakhs during 1979-80.

- (v) In order to improve attendance and enrolment in primary schools of rural areas, the teachers will be given some monetary incentives, for which a sum of Rs. 20.00 lacs has been proposed.
- (vi) For universalisation of elementary education, apart from those mentioned above, some more incentives should be provided which should include incentives to parents also. The parents who are from weaker sections of the society, should be provided with some monetary incentives so that they send their children to schools. For this purpose a sum of Rs. 10 lacs has been proposed.

Science Education in Elementary Schools :

4.09 To provide science kits in primary and middle schools for science teaching and to provide inservice training in science for Elementary Teachers an amount of Rs. 60.00 lacs has been proposed.

School Buildings :

4.10 For providing pucca building a huge amount of approximately Rs. 50.00 crores would be required. However, it is proposed that thatchedhuts or kuchcha buildings should atleast be provided so that students may not have to sit under the sky. If accepted, a primary school will be provided Rs. 500/- and a middle school Rs. 1000/- with maintenance cost of Rs. 100/- per year. For 2000 primary schools and 800 Middle schools a sum of Rs. 27.30 lacs has been proposed.

Revision and preparation of text books :

4.11 Common books for all children is a hindrance in the universalisation of education. There should be separate text books for rural areas, Tribal areas and for women. For revision and re-writing of these books an amount of Rs. 15.00 lacs is proposed.

Strengthening of Administrative machinery :

4.12 As a result of considerable expansion of Educational facilities Administrative machinery will have to be strengthened. For this purpose Rs. 80.00 lacs have been proposed.

Survey, Research & Planning for universalisation of Education :

4.13 For Micro Planning, Research & innovations in elementary education an amount of Rs. 10.00 lacs has been proposed.

Organisation of S.C.E.R.T.

4.14 State Council of Education Research & Training is responsible for Educational Research and innovation in school education. For its reorganisation a sum of Rs. 30.00 lacs is proposed.

Re-orientation of Teachers in the light of Universalisation :

4.15 In the light of universalisation of Elementary Education, Reorientation of teachers is quite essential and for this Rs. 15.00 lacs have been proposed.

Qualitative improvement in Elementary Education :

4.16 For this purpose a sum of Rs. 15.00 lacs has been proposed.

Special Schemes in Tribal (Sub-Plan) area :

4.17 At present 14814 Primary schools and 2105 Middle schools are being run by different agencies in the tribal areas. In addition, tribal welfare department is also running quite large number of hostels and ashrams. This however, could bring to schools as 48.20% ^{and 10.40%} /scheduled tribes children of age 6-11 and group/11-14 against the State average of 62.66 and 28.24% respectively.

In order to bring the enrolment in these areas to the general level, it is necessary besides establishing ordinary educational institutions as proposed earlier, certain innovative institutions have to be created, in these areas. The following special schemes in these areas are proposed :

Ashram Schools :

4.18 For catering to the educational needs of the sparsely populated areas, Ashram schools have proved very effective. 125 Ashrams are being run by T.W.D. It is proposed that 100 Ashrams (25 seated) should be established during the Sixth Plan. Hence 25 such ashrams should be opened during 1979-80 with financial implication of Rs. 10.00 lacs.

Sub-Schools :

4.19 In order to provide educational facility in smaller habitations where 10-15 students may be available, sub-schools will be established with local educated persons paid Rs. 100/- per month as honorarium. A teacher will be appointed for 3-4 such schools who will look after them. 200 such sub-schools with 2.94 lacs cost have been proposed during 1979-80.

Additional teachers for school circles :

4.20 To meet the contingency such as making arrangements of teaching if any teacher, in the school complex, goes on leave about 1400 such school complexes will need 1400 additional teachers during the sixth plan period. Thus in 1979-80 for 350 addl. teachers a sum of Rs. 9.24 lacs will be needed. These school complexes will have 5 days teaching work and one day for 'Milan' (Social Gathering). On the Milan Day various educational activities will be organised and the teachers will be given a nominal refreshment. These school complexes will be given sufficient equipments. For this a sum of Rs. 3.00 lacs will be needed.

Block setting institutions :

4.21 It is proposed that in each block at least one middle school, having facilities of a good hostel, should be established as model school, in which admission shall be given on merit. These schools shall be equipped properly and good teachers shall be provided. There are 170 blocks in sub-area. In 1979-80 only for 45 blocks, 45 such Institutions have been proposed.

* * *

Education in Local tribal Dialect :

4.22 Where literacy level is 1% education may be imparted in local dialect in classes I & II. This will be tried in restricted areas during the Sixth Plan. For the first year of the plan a sum of Rs. 50,000/- has been proposed.

Popularisation of Science :

4.23 In order to popularise Science among the tribals, it is proposed that science museum may be established in Tribal areas where Fauna and Flora of tribal areas may also be exhibited. A provision of Rs. 1.00 lac has been made for it.

Arts and Culture :

4.24 Activities of music, Art, paintings and dramatics should be made as the central point of education in the tribal areas. Artistic talent of the teachers should be utilised. A token provision of Rs. 5000/- is proposed for this purpose in 1979-80.

Physical Education :

4.25 It is proposed that in tribal sub-plan area one middle school, in each block, should be equipped with games & sports equipments. At least 10 school boys of one block will be trained and given free boarding and lodging facilities. This will require Rs. 6.25 lacs in 1979-80 and 25 lacs for Sixth Plan.

Scouts & Guides :

4.26 For inculcating the habits of co-operation, self confidence, discipline and self-dependence among the students of tribal areas, it is proposed that 100 troops of 32 students each should be organised every year. During the Sixth Plan 400 troops will be trained. During 1979-80 a sum of Rs. 3.60 lacs will be required.

Training :

4.27 Availability of women teachers in Tribal areas is a problem. It is proposed that an institute on the pattern of

vanasthali vidhyapeeths should be opened in Tribal area to prepare ladies for teaching job. Some trained staff should be provided for Government, Colleges of Education Raipur & Bilaspur for preparation of syllabus and text books, reading material, teachers guide to tribal schools, etc. An amount of Rs. 25 lacs during Sixth Plan will be needed out of which 10.65 lacs will be needed during 1979-80 for both of these schemes.

Libraries :

4.28 For equipping Primary schools and Middle schools with suitable libraries an amount of Rs. 20 lacs will be needed during Sixth Plan, out of which Rs. 5 lacs will be required during 1979-80.

Organisation of Summer Camps :

4.29 It is proposed that summer camps for teachers and students should be organised so that they may discuss the Educational problems and find out greater utility of education. Such type of get-together will be of great help for educational practices and innovations. A lump-sum of Rs. 2.00 lacs is proposed for this purpose.

Teachers Quarters :

4.30 Teachers often do not find place to reside in villages. It is therefore proposed that new primary schools should be opened with a teacher quarter for which a sum of Rs. 500/- with an annual maintenance cost of Rs. 100/- has been provided. Fifty percent of the new primary schools with lady teacher quarters have been proposed. Rest of the schools proposed to be opened in Tribal areas would require an amount of Rs. 1.88 lacs in 1979-80.

Establishment of Directorate of Tribal Education :

4.31 For effective supervision, administration and improvement of Education in Tribal areas, the need of a Directorate

has been felt. For establishing a separate Directorate a sum of Rs. 10.00 lacs will be required during 1979-80.

SECONDARY EDUCATION

5.01 There is no scheme of universalisation at the secondary level of education, at the moment. But the increased enrolment of 6-14 age group would necessarily increase the number of students coming to the higher secondary schools. Hence considerable expansion of Higher Secondary facilities will be inevitable.

Introduction of 10+2

5.02 State is committed to switch over to the suggested national pattern of 10+2. Like other states, in the country, it is proposed to introduce this pattern in this State also from July 1979. If it is introduced during 1979-80 all existing higher secondary schools will have IX classes of new pattern. In this pattern as suggested, science, English and Socially useful productive work/work experience will be necessary subjects in the syllabus. The implementation cost of first year i.e. 1979-80 is as follows :

- (i) 500 Higher Secondary Schools (400 Govt.+100 Non Govt.) are not having adequate Science equipments. For giving Science equipment to these Rs. 25 lacs will be needed.
- (ii) Similarly these 500 H.S.S. would require a sum of Rs. 25 lacs for furniture of Lab. etc.
- (iii) More than 100 Multipurpose schools (Govt.+Non Govt.) are having workshops. For the remaining 1900 H.S.S. (1360+550 Non Govt.) a sum of Rs. 95.00 lacs would be needed for tools and equipments for workshop.
- (iv) Similarly these 1900 H.S.S. will need a Rolling fund for workshops. An amount of Rs. 37.20 lacs will be needed.

(v) For creation of post of English and Games

Teachers a sum of Rs. 63.78 lacs will be required.

(vi) For training of teachers in work experience a provision of Rs. 12.30 lacs is necessary.

(vii) 400 Govt. schools which are not having Science labs, should be provided with it. This will require Rs. 120 lacs.

New Higher Secondary Schools :

5.03 To meet the requirement of increased enrolment, 50 new High/Higher Secondary schools will be necessary. For their staffing, Science lab, workshops etc. Rs. 46.45 lacs will be needed.

Additional staff for Higher Secondary School opened during 1978-88 and for taken over schools :

5.04 In order to start sequential classes in 50 Higher Secondary schools opened during 1978-79 additional staff will be required during 1979-80. In addition to this additional staff will also be required for the schools taken over by the Government during the last few years. This is an inevitable scheme and this will require about 54.00 lacs during 1979-80.

Developmental activities :

5.05 For these activities, a huge amount will be required. But keeping in view the financial limitations only Rs. 14.41 lacs have been proposed. This amount will be utilised for the Development of libraries and improvement of Model Schools.

Summary of the plan items of school Education for the year 1979-80 is given in the enclosed appendices.

DRAFT ANNUAL PLAN - 1979-80 - Heads of Development - State/U.T.
