INTRODUCTION.

India our country also known as Bharat is the second populous and seventh largest country in the world. Its present population is about 63 crores. Lying entirely in northern hemisphere, the main land extends between latitudes 18° to 37° north and longitudes 68° to 97° east and measures about 3,214 kilometres from north to south between extreme latitudes and about 2,930 kilometres from east to west between extreme longitudes. It has a land portion of 15,200 kilometres and coast line of 6,083 kilometres India's density of population is approximately 218 per square kilometres.

This sub-continent of ours was under the rule of Hindus, Muslims and later on under the British. The British ruled the country for nearly two centuries and ours is the only country in the world to have attained independence through non-violent means under the guidance of Mahatma Gandhi, Pandit Jawaharlal Nehru, Rajaji and others.

Tamil Nadu as one of the biggest States in our country having an area of 1,30,069 square kilometres and a population of nearly 4.66 crores. It is situated in the southern most part of India with the Indian ocean in the south, Bay of Bengal in the East, Kerala on the west and Karnataka and Andhra Pradesh in the North. It is rich in its ancient artistic and architectural masterpieces and exquisite handicrafts.

It lies between the longitudes of 76°E to 80°E and latitudes of 8° North to 14° North. Kanyakumari, the famous well known tourist spot and holy place is the southern most tip of the State. Topographically the State can be divided into two zones, namely the Deccan plateau lying between the Eastern and western Ghats and the Coastal plain (known as Coromandal Coast, lying between the Eastern Ghats and the Bay of Bengal.

The holy Cauvery, Pennaiyar, Palar, Vaigai and Thamiraparani are the chief rivers of this State. Rainfall in the State is chiefly determined by the South-west Monsoon (June to September) and the North-east Monsoon (October to December). The soil is mainly of three types: red, black and alluvial. Red is the predominant soil. It has a variety of mineral wealth like salt, limestone, magnesite, gypsum, mica, bauxite, aluminite, monosite, fire clay, lignite and iron ore.

Communications.

This State has a net work of roads which facilitates easy communications and access to all parts of the State. which include nearly 2,000 kilometres of national highways, 2,000 kilometres of State high ways, 14,000 kilometres of major district roads, 11,000 kilometres of district roads, 43,000 kilometres of panchayat roads. Roads maintained by the Municipalities aggregate to 8,000 kilometres. The State is served by the Southern Railway. Major Broad gauge line connects the national and State capitals. Now Cape Comorin has also been linked with the rest of India by Railway. There are more than 11,000 post offices in the State, out of which nearly 1,550 have telegraphic facilities. Total telephone connections exceed 2,27,000.

Tamil Nadu has attained a notable position in the industrial map of India, with a number of major industries giving opportunities for employment to the people. Important industries are Sugar, Salt, Cement, Paints and Enamels, Tyres, Tubes and Cotton Yarn.

There are a number of newspapers and periodicals published in the State. Newspapers like "The Hindu" are known throughout the world.

FOURTH ALL INDIA EDUCATIONAL SURVEY STATE REPORT FOR TAMIL NADU.

Our Country became Independent in August, 1947 and it is enshrined in the Indian constitution that illiteracy should be eradicated from the country within 15 years of the approval of the constitution. But though 28 years have elapsed since the constitution was launched, not only have we not achieved our target but we have to go a long way to achieve this goal of Universalisation of Education. In spite of efforts made to provide universal Elementary Education through Plan Programmes in the previous five year plans, there are still 45.2 million children in the age group 6—14 who are out of school in our country. The Education Ministers of the State and Union territories held a conference on 10—11 August 1977 and recommended that every effort should be made to realise the goal of Universal Elementary Education by the end of 6th plan period.

To carry out the recommendation of the State Education Ministers and the recommendations contained in the Interim Report of the working group of universalisation of Elementary Education, it was considered necessary to have upto-date-base-line-data for the preparation of practicable and realistic plans and also to prepare the ground for conducting periodical monitoring by State Governments as well as by the Central Government.

For achieving the noble goal we should have a very comprehensive and workable Educational Plan. Moreover the education should serve the social purpose and also help the citizen to earn his living without depending on others and also to make him an a useful, responsible and patriotic citizen of this great country.

It is obvious that the task to be faced in respect of elementary education during the 6th plan is tremendous, difficult and complicated and that it will call for carefully prepared plans, prepared with sustained effort. The massive programme of Non-formal Education launched should strengthen the regular schools.

We should have a clear and over-all picture of the various aspects of the present educational system, the facilities available and also the handicaps that stand in the way of achieving the goal enshrined in our constitution. For getting this clear picture the Government of India with the help of the NCERT three all India Educational Surveys have been conducted. The Fourth All India Educational Survey was launched in 1978, four years after the third All India Educational Survey which was conducted in 1974. The purpose of these surveys is to get the basic data so that educational planning may be practical and effective.

In the Third All India Educational Survey conducted with 31st December 1973 as the reference date, it was found that 97 per cent of the rural population had educational facilities at primary stage within a walking distance of 1—5 kilometres. At the middle stage about 72 per cent of the rural population were served by schools facilities and enrolment proportions are comparatively lower. The comprehensive data collected in the Third All India Educational Survey would no doubt of great use in the formulation of Plan Programme. However, the data need to be up-dated, particularly for preparing realistic operational plans for universalisation of Elementary Education. The updated data will be necessary for preparing habitationwise, village-wise block-wise plans. Hence the Fourth All India Educational Survey, is found absolutely necessary, since, otherwise, we would have no other basis to know of the progress that have taken place during the intervening period from 1973 to-date.

The main objectives of the Fourth Survey may, therefore be enunciated as follows :—

- (i) To assess the present position of the provision of Educational facilities at various stages of school education in respect of coverage of school going population, the distance to be covered by a child to have access to the school, enrolment of children belonging to weaker sections of the society and enrolment of girls, etc.
- (ii) To have a picture of the availability of minimum basic facilities such as building, furniture, library, equipment, health and sanitation and incentives ;
- (iii) To prepare block maps with existing schooling facilities and identify clusters of habitations where schools ought to be opened or existing schools ought to be upgraded ;
- (iv) To prepare the ground for conducting quarterly monitoring of information, relating to school attendance and systematic updating of the data relating to enrolment and other educational facilities provided in institutions at block level annually.

To achieve the above said main objectives of the Survey it is essential that information on the following main items are to be collected.

- (a) Enumeration of each and every district habitation.
- (b) Enumeration of every primary, middle, secondary and higher secondary and junior colleges.
- (c) Enumeration of habitations with and without educational facilities at Primary, Middle Secondary and Higher Secondary stages.
- (d) In cases of habitations without schooling facilities at these stages, the distance at which these facilities are available and also habitations under various population slabs.
- (e) Schooling facilities at various stages in habitations predominantly populated by Scheduled Castes.
- (f) Schooling facilities at various school stages in habitations predominantly populated by Scheduled Tribes.
- (g) Proportion of Scheduled Caste population in village and schooling facilities in them;
- (h) Proportion of Scheduled Tribes population in villages and schooling facilities in them;
- (i) Agewise enrolment of pupils at various school stages (classwise);
- (j) Agewise enrolment of pupils belonging to Scheduled Castes and Scheduled Tribes;
- (k) Distance pupils have to cover in order to have access to schools at Primary and Middle stages.
- (l) Qualifications of teacher (stagewise) working in schools.
- (m) Proportion of girls in schools.

In the Third All India Educational Survey, statistics regarding all schools and colleges, pre-primary schools and special schools were collected and more than 23 blanks were canvassed for the various types of schools. Separate blanks were canvassed for headmasters and individual teachers and the figures were consolidated first at block level, then at revenue district level and finally at State and National Level.

In the Fourth All India Educational Survey only two blanks are canvassed, i.e., one for the village and another for each school. The Survey is restricted only to recognised Primary, Secondary and Higher Secondary Schools. The Pre Primary Schools, Colleges and Special Schools are not included in the purview of this Survey.

Availability of Educational facilities in the State in general and rural areas in particular.

There are 45,188 habitations in the State of which only 101 habitations have a population above 5,000. 1,998 habitations have population between 2,000 to 4,999. 6,484 habitations have population between 1,300 to 1,999 and 11,187 habitations have population between 500—999 while the rest of 25,418 habitations have population of below 500. While 10,727 habitations upto a population of 500 have a primary school either in the habitation itself or within a distance of 1 kilometre. 19,276 habitations of below 500 population slab, have primary school facility at a distance of 1 kilometre. 6,124 habitations of population slabs 500 have facility of primary education only as at a distance ranging from 1.1 kilometre to 2 kilometres. The facility of primary education for these habitations within it comprising of a population of over 11 lakhs has to be provided [at the earliest. While it is in Tirunelveli that only 5 per cent of the population have primary school facility at a distance of more than 2 kilometres, it is highest in the Nilgiris district where 7.2 per cent of the population has the same facility at a distance of more than 2 kilometres. 23.4 per cent of the population in the slab 200—299 (being in 1,317 habitations) have primary school facility at a distance from 1.1 kilometre to 2 kilometres.

There are 5,747 habitations in the whole State which are predominantly populated by Schedule Caste. There are only eight habitations (4 being in Madurai, two in Chengalpattu and one each in Ramanathapuram and South Arcot Districts) which have a population above 5,000 while there are 127 habitations spread throughout the entire State predominantly populated by Scheduled Caste, having a population between, 2,000—4,999. 703 habitations of the population below 500 slab (predominantly populated by Scheduled Caste) have primary school facility at a distance of 1.1 to 2 kilometres serving a population of nearly 1.12 lakhs.

Of the 953 habitations predominantly populated by Scheduled Tribe in the whole state there is only one habitation in the population slab 2,000—4,999 in North Arcot District. Incidentally North Arcot District ranks second in the State in having 218 habitations predominantly populated by Scheduled Tribe, the first rank going to Salem District which has 415 habitations. It is noteworthy that Kanyakumari and Pudukkottai and Thanjavur Districts do not have any habitation predominantly occupied by Scheduled Tribes. Regarding Primary School facilities, 498 habitations predominantly populated Scheduled Tribes have the facility within a distance of 1 kilometre. But more than 300 habitations with a population of 50,444 are having the facility at a distance of more than 2 kilometres. It is imperative that these habitations are given greater facilities at the earliest.

PRIMARY STAGE.

Of the 45,188 habitations in the whole State 28,626 are habitations with population of 300 and above. Among these 22,791 habitations i.e. 79.6 per cent have primary school facility within the habitation itself while 4,197 habitations, i.e. 14.7 per cent have primary school facility within 1 kilometre distance. Only 1,638 habitations i.e. 5.7 per cent have primary school facility at a distance more than 1 kilometre. Among the 3,341 habitations predominantly occupied by Scheduled Caste, 2,473 habitations i.e. 74 per cent primary school facility within the habitations while 617 habitations i.e. 20.6 per cent have the same facility within a distance of 1 kilometre. Only 181 habitations, i.e. 5.4 per cent have primary school facility at a distance greater than 1 kilometre.

There are 229 habitations in the entire State predominantly occupied by Scheduled Tribe with a population of 300 and above. Of these 136, i.e. 59.4 have primary school facility in the habitation itself while 11 habitations i.e. 4.8 per cent have the facility within a distance of 1 kilometre. 82 habitations i.e. 35.8 per cent have to go more than 1 kilometre to have the facility of primary education.

In our State consisting of 45,188 habitations, 25,348 have schooling facilities and among these 25,258 have primary school facilities the rest having only middle or secondary education facilities. It is to be noted that 16,562 habitations have a population of 299 and below. Only 3,278 habitations do not have educational facilities at all.

Of the 3,341 habitations predominantly occupied by Scheduled Caste, 2,787 habitations, i.e. 70.7 per cent have primary school facilities, while 15 habitations have facilities exclusively for Middle, Secondary and Higher Secondary education. While there are 615 habitations on the population slab below 199, only 554 habitations do not have schooling facilities at all.

Among the 229 habitations predominantly occupied by Scheduled Tribe, 227 habitations have primary school facilities and two habitations have facilities for secondary Education. There is no Scheduled Tribe habitation without schooling facilities.

There are 14,747 villages in the State. Of these 747 have population above 5,000 and 731 villages have facilities for primary education. 3,975 villages among 4,235 in the population slab 2,000—4,999 have primary school facilities. 4,184 villages out of 4,651 villages in the population slab 1,000—1,999 have primary school facilities. It is only in the population slab below 300, 268 villages out of 1,052 have facilities for primary education.

Middle Stage.—87 habitations having a population of 5,22,254, i.e. 85.3 per cent in the slab 5,000 and above have middle school facility in the habitation itself while 12 habitations in the same slab have the facility within a distance of 3 kilometres serving 75,864, i.e. 12.4 per cent of the population. Only two habitations under this category have the facility at a distance of more than four kilometers. There are 1,998 habitations in the population slab 2,000—4,999. Of these 1,355 habitations with a population of 39,15,163 (70.1 per cent) have middle school facility in the habitations itself. 513 habitations under this slab have the facility within a distance of 3 km. catering to a population of 13,39,090. Another 130 habitations comprising a population of 3,31,309 have the facility at a distance greater than four kilometres. In the population slab 1,000—1,999, 2,181 habitations (population 31,37,894) have middle school facility in the habitation itself while 3,210 habitations (population 42,86,688) have the facility for middle school within a distance of 3 kilometre 1,093 habitations this slab with a population of 14,33,253 have to walk a distance of more than four kilometre to go to a middle school. 1,231 habitations under the population slab 500—999 have middle school facility in the habitations itself (population) 9,33,279—11.8 per cent) while 50,16,184 people (per cent) residing in 7,113 habitations have the facility within a distance of 3 km. 19,80,677 people living in 2,843 habitations have middle school facility at a distance of more than four kms. while 412 habitations under the population slab below 500 (population 1,45,938) have the middle school facility within the habitations itself. 16,498 habitations with a population of 40,15,589 have the facility within a distance of 3 kms. 8,508 habitations with a population of 18,81,649 have middle school facility only at a distance of greater than 4 km. Among the districts Tirunelveli has the largest number of habitations with the facility in the habitations itself while it is least in Salem District. It is in Nilgiris District that maximum number of habitations have middle school facility at a distance of greater than 5 kms.

All the eight habitations predominantly populated (having a population of 51,330 by SSCC out of the total of 5,747) have middle school facility in the habitation itself. Under the Population Slab 2000—4999, 69 habitations, populated predominantly by SSCC (population 1,93,793) have middle school facility in the habitation itself. This is nearly 60 per cent of the whole population under the slab. 55 habitations (population 1,36,349) have middle school facility within a distance of 3 kms. only 3 habitations under this slab have to go a distance of more than 5 kms. (population 7,207).

In the population slab 1,000—1,999, 169 habitations (population 2,42,759) i.e. 28.4 per cent have middle school facility in the habitation itself while 368 habitations having a population of 4,77,478 have the facility within a distance of 3 kms. It is seen that 105 habitations with a population of 1,33,099 have the facility only at a distance greater than five kms.

88 habitations under the population slab 500—999 (population 65,244, i.e. 6.6 per cent) have middle school facility in the habitation itself. 987 habitations with population 6,94,637 have the facility within a distance of 3 kms. 321 habitations with population 2,26,881 have to go more than 5 kms. to get middle school education.

36 habitations with population below 500 each (population 13,270, i.e. 1.6 per cent) have middle school educational facility in the habitations itself, while 2,578 habitations with population 6,11,337 have the facility within a distance of 3 kms. 960 habitations with population 2,13,653 have to go beyond 5 kms. to get middle school education.

While North Arcot has the maximum per cent (31.9 per cent) of population to enjoy the facility of having middle school education in the habitations itself, Ramanathapuram District has the minimum percentage of population (11.8 per cent) to have this facility. Again while Nilgiris district has the maximum percentage of population (24.3 per cent) to go further than 5 kms for middle school education, Salem district has the least percentage of population (3.1 per cent) to go more than 5 kms. to reach a middle school. It is seen that Kanyakumari district has all its middle schools at a distance of not greater than five kms. even though there is no such facility within any of the habitations in the district.

There is no habitation with a population of more than 5,000 predominantly occupied by S.T. There is only one habitation in the population slab 2,000—4,999, predominantly populated by S.T. and this habitation having a population of 3,218 has to go beyond 5 kms. to get middle school education.

7 habitations of S.T. under the population slab 1,000—1,999, (population 10,295, i.e. 4.43 per cent) have middle school facility within the habitation itself while 4 habitations with population 4,742 have the facility within a distance of 3 kilometres. 7 habitations (population 8,859) have the facility only at a distance greater than 5 kms.

Under the population slab 500—999 in habitations predominantly occupied by S.T., 5 habitations having a population of 3,821 have middle school educational facility in the habitations itself while another 19 habitations comprising a population of 12,363 have the facility within a distance of 3 kilometres. 63 habitations with a population of 41,747 have to go beyond five kms. to get middle school education.

There are no habitations in the districts of Kanyakumari, North Arcot and Thanjavur predominantly occupied by S.T. Coimbatore, Dharmapuri, Salem, South Arcot, Pudukkottai, The Nilgiris and Tirunelveli are the districts in which middle school facilities are available in the habitations itself which are predominantly populated by S.T. In other districts the facility is available at a distance upto 5 kilometres still there are 699 habitations in the State population 1,32,466—62.4 per cent) for whom the facility is available only at a distance of greater than 5 kilometres.

Of the 19,770 habitations in the State with a population of 500 or more, 4,854 habitations (24.6 per cent) have middle school facility in the habitations itself while 10,746 habitations, i.e. 54.4 per cent have the same facility within a distance of 3 kilometres. The rest of the habitations, i.e. 4,170 habitations have to go beyond 3 kilometres to have middle school education.

Regarding habitations predominantly occupied by S.C. 242 habitations out of 2,173 i.e. 11.1 per cent have middle school education facility in the habitations itself while 1,312 habitations, i.e. 60.4 per cent have it within a distance of 3 kilometres. People belonging to the remaining 619 habitations have to go a distance beyond 3 kilometres for middle school education.

Only 12 habitations out of 106 habitations predominantly occupied by S.T. have middle school facility in the habitation itself. 23 habitations, i.e. 21.75 per cent have the facility within a distance of 3 kilometres. The rest, i.e. 71 habitations, have to go a distance greater than 3 kilometres to get middle school education.

SECONDARY EDUCATION.

63 habitations with population 3,83,287 have secondary school facility in the habitations itself under the population slab 5,000 and above. The rest of the habitations i.e, 38 with a population 2,29,275 have secondary education facility within a distance of 8 kilometres.

In the population slab 2,000—4,999, 580 habitations (population 17,57,950) have secondary education facility in the habitations itself while 1,329 habitations with population 35,86,098 have the facility within 3 kilometres. Only 89 habitations with population 2,41,454 have to go a distance greater than 8 kilometres for secondary education.

Taking the population slab 1,000—1,999 it is seen that 546 habitations inhabiting a population of 803,769 have secondary school facility in the habitations itself. 5,376 habitations with population 73,04,594 have secondary education facility within a distance of 8 km., A population of 7,49,472 residing in 562 habitations have to go a distance greater than 8 Km. to get secondary education.

234 habitations (population 1,79,022 in the population slab 500—999) have secondary school education facility in the habitation itself. 9,715 habitations with population 68,87,740 have secondary school education facility within a distance of 8 Km., Only 8,63,358 people habitating in 1,238 habitations have to go a distance greater than 8 Km., to get secondary education.

Of the 25,418 habitations having population below 500, 56 habitations only have secondary education facility in the habitation itself.

21,171 habitations with population 51,26,373 have secondary education facility within 8 Kms. while 4,191 habitation with a population of 8,97,371 have the facility only at a distance greater than 8 Kms.

It is seen that 1,479 out of the total 45,188 habitations have secondary school facilities in the habitation itself while 37,629 habitations have secondary school within a distance of a 8 Kms only 6,080 (population 27,51,655) have to go a distance greater than 8 Kms. for secondary education. While Kanyakumari District has the least percentage of habitations to go farther than 8 Kms., for secondary education, The Nilgiris and Dharmapuri Districts have the maximum percentage of habitations to go farther than 8 Kms. to go to a secondary school.

Only three habitations predominantly occupied by SC with a population of 19,969 under the slab 5000 and above, have secondary school educational facility. The remaining five habitations have secondary education facility within a distance of 8 Kms. In the population slab 2000—4,999 while 17 habitations (population 51,287) have secondary education facility in the habitation itself 101 habitations with population 2,62,777 have the facility within a distance of 8 Kms., A population of 28,195 living in 9 habitations have to go beyond a distance of 8 Kms. for secondary education.

In the population slab 1,000—1,99,932 habitations predominantly occupied by S.C. have facilities for secondary education in the habitations itself (population 47,530) 556 habitations with population 7,34,391 have secondary school education facility within a distance of 8 Kms. While 54 habitations with 71,955 population prove to traverse a distance more than 8 kms., to get the same facility.

In 13 habitations predominantly populated by S.C. under the population slab 500—999, secondary school education facility within the habitations itself 155 habitations (population 1,08,731) have to seek secondary education facility with a distance greater than 8 Kms., while the rest of the habitations 1,228 (population 8,68,278) have already secondary education facility within a distance of 8 Kms.

Under the population slab below 500, in 8 habitations predominantly populated by S.C. (2,072) there is secondary education facility in the habitations itself. 422 habitations with a population of 93,560 have to seek secondary education facility only at a distance greater than 8 Kms. In 3,144 habitations the facility is available within a distance of 8 Kms.

There is only one habitation predominantly occupied by ST under the population slab 2,000—4999 (population 3,218) and this habitation has secondary education facility only at a distance of greater than 8 Kms.

Under the population slab 1,000—1,999, two habitations predominantly occupied by ST (population 2,725) have secondary school facility in the habitation itself, while 6 habitations (population 8,009) have to go further than 8 Kms. 10 habitations with population 13,202 have the facility within a distance of 8 Kms.

Taking the population slab 500-999 two habitations (population 1699) have the facility within it while 46 habitations (population 29,991) have it at a distance of more than 8 kms. 39 habitations (population 26,242) have the facility within 8 kms.

One habitation (population 166) under the slab below 500 have the facility within it while children in 597 habitations have to go more than 8 kms. to get secondary education. 249 habitations with population 37,665 have the facility within a distance of 8 kms.

While Kanyakumari, Pudukkottai and Thanjavur Districts have no habitations predominantly occupied by S.T. Salem, Dharmapuri and North Arcot Districts have the distinction of having facility for secondary education in the habitation itself. While Tirunelveli District has the facility in all the habitation within a distance of 6 km. Ramanathapuram District has only one habitation and this only habitation has the facility at a distance of more than 8 kilometres.

HIGHER SECONDARY EDUCATION.

17 habitations under the population slab 5000 and above (population 1,07,560) have the facility for Higher Secondary Education in the habitation itself while 29 habitations (population 1,71,488) have it at a distance of more than 8 kilometres. 55 habitations with population 3,33,446 have the facility within a distance of 8 kilometres.

Under the population slab 2000-4999, 89 habitations (population 2,77,080) have the facility within the habitation itself while 813 habitations (population 22,62,904) have the facility at a distance more than 8 kilometres. 1,096 habitations with population 30,45,518 have the facility within a distance of 8 kilometres.

In the population slab 1000-1999, 41 habitations (population 60,322) have the facility within the habitation itself while 2,990 habitations (population 40,53,296) have the facility at a distance more than 8 kilometres. 3,453 habitations with population 47,44,217 have the facility between 1 kilometre and 8 kilometres.

18 habitations of population 13,618 have the Higher Secondary School facility in the habitations itself while 5,714 habitations (population 40,37,358) have the facility only at a distance more than 8 kilometres. 5,458 habitations with population 38,79,144 have the facility a distance between 1 kilometre and 8 kilometres.

In the population slab below 500, 10 habitations only have facility within them, while 14,4468 habitations have the facility at a distance of more than 8 kilometres. 10,940 habitations have the facility between 1 kilometre and 8 kilometres (population 27,01,597).

While Thanjavur district has the least percentage of population to have the facility of Higher Secondary Education in the habitations itself, the Nilgiris has the maximum percentage of population to have this facility within the habitation. Pudukkottai and South Arcot districts have the largest of population to have the facility of Higher Secondary School education at distance more than 8 kilometres.

Only one habitation predominantly occupied by S.C. (population 63,10) the Higher Secondary education facility is available in the habitation itself while another habitation (population 6,468) has the same facility at a distance more than 8 kilometres. Six habitations of population 38,552 have the facility at distance between 1 kilometre and 8 kilometres.

Under the population slab 2000-4999, 2 habitations with population 6,178 have the facility within the habitations itself while 58 habitations with population 1,52,347 have the facility at more than 8 kilometres distance. 67 habitations with population 1,78,734 have the facility at distance varying from 1 kilometre to 8 kilometres.

In the slab of population 1000-1999, only one habitation (population 1717) has the Higher Secondary Education facility at the habitation while 308 habitations have the facility at a distance more than 8 kilometres. 333 habitations with population 4,46,975 have the facility at distance varying between 1 kilometre and 8 kilometres.

In the population slab 500-999 there is no habitation which has facility or Higher Secondary education in the habitation itself. While 631 habitations with population 4,82,145 have the facility between distances from 1 kilometre and 8 kilometres. 715 habitations have the same facility at distance more than 8 kilometres. 1,774 habitations with population 4,19,417 and under the slab below 500, have Higher Secondary Schooling facilities at distance varying from 1 kilometre to 8 kilometres. 1,800 habitations have it only at distances more than 8 kilometres.

While Chengalpattu, Salem and Tirunelveli Districts have each one habitation predominantly occupied by SC which have facility for Higher Secondary Education in the habitation itself, Kanyakumari District has the least percentage of population (4.6 per cent) who have to go more than eight kilo metres to seek Higher Secondary Education. It is in South Arcot District where the largest percentage of population have to go more than eight kilo-metres to get Higher Secondary Education among habitations predominantly occupied by SC.

There is no habitation in the population slab above 5,000 which has predominantly ST population. The only habitation in the population slab 2,000-4,999 has the Higher Secondary Education facility at a distance more than eight kilo-metres. Under the population slab 1,000-1,999 seven habitations have the facility at distances between one kilometre and eight kilometres while eleven habitations have it at distances more than eight kilometres.

In the population slab 500-999, ten habitations have the facility at distances ranging from one kilometre to eight kilometres while 77 habitations have it at distances more than eight kilometres.

In the slab of population below 500, 95 habitations have the facility at distances below 8 kilometres while 752 habitations have it only at a distance more than eight kilometres.

Pudukkottai, Kanyakumari and Thanjavur Districts do not have any habitation predominantly populated by ST. Coimbatore and South Arcot districts have higher secondary education facility in all its habitations populated predominantly by ST only at distances more than 8 kilometres. Tirunelveli is the only district which has facility for Higher Secondary education at distances less than 6 km for all its habitations predominantly populated by S. T.

The number of schools category-wise and management wise for the rural and urban areas in the State are as follows :-

Rural—	Primary.	Middle.	Secondary.	Higher Secondary.
Government	1,127	173	1,170	128
Local Body	18,224	2,813
Private aided	3,263	1,003	173	46
Private unaided	7	..	2	..
Urban—				
Government	311	78	397	290
Local Body	2,982	660	74	53

Thus it is seen that a large number of Higher Secondary schools are available in rural areas in which all the eligible pupils can seek admission and prosecute their studies.

There are 435 villages with more than 75 per cent SC population in the State of which 295 villages have facility for Primary stage, 35 villages have facility for the Middle stage, and only seven villages have facility for secondary stage and no village has facility for Higher Secondary.

Of the 1,154 villages with 51.75 per cent SC population 915 villages have facility for primary education, 176 villages have facility for middle stage education, 45 villages have facility for secondary education and only 4 villages have facility for Higher Secondary education.

Regarding ST there are 123 villages (under the various population slabs with more than 75 per cent of ST population. Of these 88, 7, 4 and 2 villages have facility for Primary, Middle, Secondary and Higher Secondary stage education respectively.

Of the 26 villages with 51.75 per cent of the population of ST 21, 31 villages have facility for Primary, Middle and Secondary stage education respectively. In no village facility is available for Higher Secondary Education.

PRIMARY EDUCATION.

While the total number of independent primary schools in the state is 27,588, primary sections numbering 5,814 are available in other types of schools in the state thus making a total of 33,402 primary sections. Of these 26,590 sections are located in rural areas and the remainder 6,812 are in urban areas of the State. There is no difference in the qualification of teachers working in rural or urban areas. The classwise enrolment figures for boys and girls in the rural and urban areas in primary sections under various management are as follows :—

Rural :

Cf. Table 128

Urban :

The enrolment of SC and ST children in the various classes are as follows :—

Scheduled Caste :

	I	II	III	IV	V
Rural	--	--	--		
Urban		

Cf table 129.

Scheduled Tribe :

Rural		
Urban		

Cf table 130.

The percentage of girls enrolled to the total enrolment is 44.8 while SC and ST students constitute 42.3 per cent and 40.4 per cent respectively to the total enrolment.

Of the total—33,402 primary sections 12,256 sections have pupil-teacher ratio above 40. Thus nearly one-third of the total primary sections are over-crowded and it is essential for better results the pupil-teacher ratio is brought down to 30. About 935 sections have pupil-teacher ratio below 14. The strength in these sections need to be increased considerably while most of the primary schools in all the districts have pucca buildings for housing primary schools yet there are 84 schools which are being conducted in open spaces, the largest number being in Chengalpattu District. Nearly 3,000 primary schools in the State are housed in thatched sheds which need pucca buildings. 22,743 primary schools have their own buildings. Rent free buildings are available for 2,666 schools and 1,979 primary schools in the State are being run in rented buildings, while there are 2,510 schools which require additional accommodation of more than five rooms in the rural sector, there are 263 schools in the urban area which require more than 5 rooms each. The number of schools requiring additional accommodation is much greater in rural areas than in urban areas. It is seen that 10,518 primary schools requiring additional accommodation have necessary space also for expansion, while there are 8,844 such schools in the rural area and there are 1,674 schools in the urban area. The number of schools running in shifts is only 39 in the whole State while most of the schools in the rural areas are not used for any purpose other than schooling 1,390 primary schools are used for other purposes like running another schools, conducting Panchayat meeting, conducting part-time courses etc. In the urban sector also 4,249 schools out of 4,474 schools are not used for any purpose other than schooling. Only 493 schools are used for other purposes. Of the 27,588, primary schools, 21,555 schools have playground of their own, 17,809 being in rural area and rest being in urban sector. While 3,153 schools do not have any mats or furniture in the school, 282 schools have insufficient furniture and the rest have sufficient materials furniture.

While 13,449 schools in rural area have 81-100 per cent of classes with chairs for the teachers the rest of the schools need chairs badly. Also 12,974 schools in rural area have 81-100 per cent classes with tables for the teachers. The position is better in urban area, nearly 3,500 schools possess chairs and tables in 81-100 per cent of the class rooms. It is note worthy that 20,798 primary schools in the rural area and 4,626 primary schools in the urban area are having text book bank. 18,260 primary schools rural parts and 4,297 schools in urban area are having libraries. While 19,469 primary schools have blackboard facility in the rural sector, 4,578 schools have it in the urban sector. A large number of primary schools in the Rural area and urban area require games and sports material. Drinking water facility needs to be improved both in rural and urban primary schools. Clean pure drinking water should be a must in every school. Also the provision of urinals and lavatories should be attended to in all primary schools. This facility is available only in about 6,500 primary schools in the whole State. More than 95 per cent of the primary schools have the incentive scheme of midday meals and free text books while free uniforms are given in 6,357 primary schools. 1,12,002 teachers are working in primary schools (74,484 in rural area and 37,518 in urban area) and all the teachers are fully qualified. There are 16,611 SC. teachers in primary schools (11,910 in rural area and 4,701 in urban area). The number of ST teachers working in primary schools are 120 in the rural area and 25 in the urban area. 1,01,272 out of 1,12,002 teachers are permanent. Out of 1,44,972 teachers working in primary stage, 1,44,658 are trained and 314 are untrained. Out of 1,44,972 teachers 84,185 are males and the rest are females.

MIDDLE STAGE EDUCATION.

The total number of independent middle schools in the State is 5,700 and 3,072 middle sections are available in other types of schools thus making a total of 8,772 middle sections available in the State. While 5,489 middle sections are available in rural area 3,283 middle sections are located in urban areas. The qualifications of teachers working in rural and urban area are the same.

Of the 66,999 teachers working in middle stage education, 36,295 are working in rural area while 30,704 are doing work in urban schools. The classwise enrolment figures for boys and girls in rural and urban areas in middle sections under various managements are as follows:—

Rural : Cf. Table 128.

Urban : Cf. Table 128.

The enrolment of SC and ST. children in the various classes are as follows :—

Scheduled Tribes :

Rural } Cf. Table 130.
 Urban : }

The percentage of girls enrolled to the total enrolment is 37.6 while SC and ST. girl students constitute 33.7 per cent and 27.1 per cent respectively. The percentage of girls enrolled to the total enrolment is highest in Thanjavur District, 48 per cent while it is lowest in Pudukkottai District, 29.7 per cent while the enrolment of SC. girls is highest in the urban area of Madras it is lowest in Pudukkottai district (21.4 per cent). The enrolment of S.T. girls is highest in Madras urban area 66.4 per cent and is lowest in South Arcot 17.2 per cent. There is no enrolment of ST. girls in Pudukkottai district.

Of the total 8,772 sections in the middle stage education 2,136 sections have pupil-teacher ratio above 40. 2,799 sections have pupil-teacher ratio between 30 and 40. 2,511 sections have pupil-teacher ratio between 20 and 30. while the rest 1,296 section have pupil-ratio below 20.79 per cent of the total habitations with population 500 or more in the State are served with middle stage education within 3 km. In this category North Arcot has the maximum number of habitations (1872) while the Nilgiris has the least number of habitations 69 only. Of the 2,173 habitation predominantly populated by SC. and with population of 500 and more 1,744 are served with middle stage education within a distance of 3 km. (71.5 per cent) South Arcot district has the maximum number of such habitations (360) which The Nilgiris district has the least number of such habitations (5 only). Among the 102 habitations predominantly populated by ST and with population 500 and more only 35 i.e. 32 per cent are served with the middle stage education. It is essential that the remaining habitations are provided with middle stage education at an early date. Tirunelveli District has the maximum number of middle schools in the rural sector (451) and Madras has the largest number of middle schools in the urban sector (246). Nilgiris District has the least number of middle schools both in the rural and urban sectors.

Roads passing through 1-1, 2 km., of middle schools are of various type. While 46 schools have no roads at all, 813 schools are served with non-metalled roads and 829 schools can be reached by metalled roads. 1,248 middle schools have both metalled and non-metalled roads. 5,573 middle schools are situated in plain areas while the remaining 127 are situated in hilly areas.. 1,994 middle schools are more than 12 kms. away from the office of the inspecting officers while 1,475 schools are within a distance of 4 km. from the office of the inspecting officer. The rest of the middle schools 2,281 are between a distance of 5 km. and 12 km from the office of the inspecting officer.

Three middle schools (2 in rural and one in urban area) are being conducted in open spaces and seven middle schools are housed in tents (3 in rural area and 4 in urban area). 284 middle schools are being run in thatched sheds (180 in rural and 104 in urban) 1,162 middle schools are conducted in kuchha or partly pucca buildings. Only 4,244 middle schools possess pucca building for its use. Chengalpattu, Salem and Madras are the districts conducting middle schools in open spaces and it is essential that these schools are provided with suitable covered accommodation at the earliest. Chengalpattu, Madurai and Madras Districts are conducting schools in tents which should be changed in to pucca building soon.

It is seen that 4,896 middle schools possess their own buildings. 612 are conducted in rented buildings while the rest 192 have rent-free buildings.

22 schools have covered area less than 25 sq. metre, while 359 schools are more than 1000 sq. metre covered area. 733 schools have covered area between 500 sq. metre and 1,000 km. metres. The rest of the schools have covered area less than 500 sq. metre.

While 214 middle schools with enrolment more than 500 possess a covered area more than 1,000 sq. metre each. There are 76 such middle schools each having covered space less than 200 sq. m. It is imperative that such schools are provided with more accommodation. The rest of the schools are in varying needs regarding accommodation. While 2,236 middle schools do not require additional rooms, there are as many as 57 schools which require more than 16 class rooms each. 3,288 schools require upto ten class rooms each to accommodate their present strength. 3,912 middle schools are having space for expansion. 2,735 middle schools requiring additional accommodation have the necessary space also and so there should be no difficulty in providing with additional accommodation. 729 schools require additional accommodation but there is no space for expansion. Suitable accommodation nearby should be found to prevent congestion in the classrooms.

Four thousand nine hundred and twenty-eight middle schools are not used for any purpose other than schooling. The rest of 772 schools are used for other purposes also like running another school conducting Panchayat meeting or religious discourse or part-time course, etc.

Three thousand two hundred and forty two middle schools in the rural area and 1,305 middle schools in the urban area possess playground facility. The rest of the schools both in rural and urban areas are to be provided with playground facilities. While 464 middle schools do not have mats/furniture, 345 schools have inadequate mats/furniture. While 2,890 middle schools in rural areas and 1,265 middle schools in urban areas have 81-100 percentage of classes with chairs for the teacher, the rest of the schools in both the areas are to be provided with chairs. Also 2,291 middle schools in rural area and 1,193 schools in urban area have 81-100 per cent of classes with tables for teachers and the rest have to be provided with tables. It is commendable that 3,761 schools in rural area and 1,610 schools in urban area possess text book banks and the number of books available in these banks are 3,716 and 1,607 respectively. Only 626 middle schools are to be provided with black boards (523 in the rural and 103 in the urban area). Only 5,347 middle schools have continuous supply of chalks for their daily routine, and 1,351 middle schools have provision for contingency fund. The rest do not have any. 2,865 schools in rural area and 1,505 schools in urban area have drinking water facilities within the premises of the schools, 5,277 middle schools provide midday meals for children and 1,503 schools supply free uniforms also. Free text books are given in 512 schools. Only 1,771 middle schools have games and sports material. 1,628 schools in rural area and 1,397 schools in urban area have sanitary facilities. The rest of the school should provide that at the earliest. 36,295 teachers are working in rural area and 30,704 teachers are working in urban area and all the teachers are fully qualified. There are 7,892 Scheduled Caste Teachers (4,787 in rural area and 3,105 in urban area) working besides 53 S.T. Teachers (21 rural and 32 urban area). Out of 66,999 teachers working in middle schools 61,162 are permanent and 5,837 are temporary. 61,509 teachers are working in middle stage education of which 60,293 are trained and 1,216 are untrained teachers. 37,192 teachers are males and the rest are females.

SECONDARY EDUCATION.

The total number of independent secondary schools in the state is 2,172 (1,345 in rural and 827 in urban area) and 933 sections are available (174 in rural and 759 in urban) in Higher Secondary Schools. Thus making a total of 3,105 sections available in the entire state. The classwise enrolment figures in rural and urban areas under various managements are as follows :—

Rural } IX	X
Urban } Cf. Table 128	

The enrolment of SC and ST pupils in the various classes are as follows :—

Scheduled Caste

Rural } IX	X
Urban } Cf. Tab. 129	

Scheduled Tribe :

Rural	IX	X
Urban	Cf. Tab. 130	

The percentage of girls enrolled to the school enrolment is 33.6 per cent while SC and ST pupils constituted 35.5 per cent and 37.5 per cent respectively to the total enrolment.

Of the 2,172 secondary schools 132 are for boys, 332 for girls and the 1,708 are co-educational. While government is managing 1,567 schools, local bodies run only 74 schools. Private management run 581 schools of which 28 do not get any aid from Government or State funds. North Arcot District has the largest number of co-educational schools 171 (154 in rural area and 17 in urban area). Girls Secondary Schools are largest in Coimbatore District 40 of which 39 are in urban area and one in rural area as also the total number of secondary schools.

Of the 1,345 secondary schools in rural area 4 schools do not have any road passing within 1-1/2 kilometre. Of them 829 schools have metalled roads, 136 have non-metalled roads and the rest 2,097 secondary schools are located in plain areas, while 75 of them are located in hilly areas. 1,429 secondary schools are at a distance of more than 12 kilometres from the office of the inspecting officer. 321 of them are within a distance of 4 kilometres from the office of the inspecting officer. The rest 422 are between a distance of 5 and 12 kilometres from the office of the inspecting officer.

Two secondary schools are being run in open spaces and 108 in thatched sheds. 1,325 schools have pucca building while the rest 737 have either katcha building or partly pucca building. South Arcot and Madurai Districts have one secondary school each located in open space. These schools should be provided with suitable buildings immediately. 1,878 secondary schools have their own buildings while 238 are housed in rent free buildings. 56 schools pay rent for their buildings. 545 secondary schools have more than 100 sq.m. covered area while 1,082 secondary schools have each less than 500 sq.m. covered area. 89 secondary schools require 10 to 18 classrooms each as their present accommodation is not sufficient. 1,597 secondary schools have space for expansion of which 927 require additional accommodation. There is no space for expansion in 221 secondary schools 2103 secondary schools are not used for any purpose other than schooling while 69 schools are used for conducting part-time courses, running other schools or conducting religious discourses or Panchayat meetings, etc.

Playground facility is available only in 1,836 schools (1,161 in rural area and 675 in urban area). Playground facilities are to be provided in the rest of the schools.

143 secondary schools do not have furniture while 149 schools have inadequate furniture and the rest have furniture.

828 schools in rural areas and 563 schools in urban areas have 81-100 percent of their classes chairs and so 522 schools in rural areas and 264 schools in urban areas have to be provided with chairs for teachers in all their classrooms. Also 780 schools in rural areas and 532 schools in urban area have 80-100 percent of their class tables for use by the teacher. The rest have to be provided 2,003 secondary schools have libraries and 691 of them have more than 2,000 books each in their libraries. 427 schools are having libraries with less than 500 books. These schools should add more books to their libraries.

1,967 secondary schools (1,224 in rural area and 743 in urban area) have black boards for use in their class rooms by teachers and 2,060 secondary schools have continuous supply of chalks in their classrooms. 1,932 schools (of which 1,197 are in rural areas) have games and sports materials for use by pupil. The rest of the schools should equip their schools with sports materials. Only 1,615 secondary schools have provision for contingency fund. 1,681 secondary schools have made provision for medical check up. It is essential that the balance 491 school provided for this essential item in a school. Drinking water facility is provided only in 1,746 schools and 1,546 have sanitary facilities for boys and girls.

153 secondary schools provide midday meals for their pupils and free uniform is given in 181 schools. Free Text Books are given in 1,324 schools.

19,641 teachers are working in secondary schools of rural areas and 18,672 teachers are working in urban areas. Of these 2,637 are scheduled caste teachers (1,642 rural and 995 urban) and 18 are Scheduled Tribe teachers (10 rural and 8 urban). 5,443 teachers are working temporarily while the rest 32,870 are permanent 368 sections have pupil teachers ratio 40 and above while 1,897 sections have pupil teacher ratio less than 25.

HIGHER SECONDARY EDUCATION.

The total number of Higher Secondary Schools in the State is 933 including schools run by Central Government. 174 schools are situated in rural areas while 759 are in urban areas. Barring Madras which has 114 Higher Secondary Schools Coimbatore District has the maximum number of Higher Secondary Schools. Of the 90 Schools in the districts 78 are in the urban areas and 12 in the rural area. Of the 933 schools, 280 are for boys, 174 for girls and the rest 529 are co-educational. Of the 174 schools located in rural areas 5 are served by non-metalled roads, 108 by metalled roads and the rest 61 by both the types of roads which pass within 1-1/2 km., of the schools concerned. 907 Higher Secondary Schools are situated in plains and the rest 26 are located in hill areas. 432 Higher Secondary Schools are located more than 12 km., away from the office of the inspecting officer while 362 of them are within a distance of 4 km. from the office of the inspecting officer. The remaining 139 Higher Secondary Schools are situated within a distance of 5 to 12 km., from the office of the inspecting officer.

There is one Higher Secondary School functioning in open space (in Ramanathapuram district) and 9 of them are housed in thatched huts. 744 Higher Secondary Schools have pucca buildings while the remaining 179 have either kutchha building or partly pucca building. 878 Higher Secondary Schools have buildings of their own and 35 are having rent free buildings. 418 Government schools and 426 private aided schools have covered area more than 1,000 sq. m. 661 Higher Secondary schools have space for expansion of which 524 require expansion 90 schools which require additional accommodation have no space for expansion. 17 urban higher secondary schools and two rural higher secondary schools are working in shifts. 859 Higher Secondary Schools are not used for any purpose other than schooling while the rest are used for such purposes as running another school or conducting Panchayat meeting or having religious discourses, etc. Only 863 Higher Secondary Schools are having playground facility and the rest have to be provided at the earliest. While 551 Higher Secondary Schools have adequate furniture, 111 are having inadequate and the rest have to be provided with furniture. 636 of the Higher Secondary Schools have 81—100 per cent of their classes provided with chairs and tables for teachers.

867 Higher Secondary Schools have text book bank and 924 have libraries. 731 schools have more than 2,000 books each in their libraries. Most of the Higher Secondary Schools have black boards and continuous supply of chalks for their regular functioning. 905 Higher Secondary Schools have games and sports material. Almost all the Higher Secondary Schools provide for medical check up of pupils in the schools. Only 864 Higher Secondary Schools have sanitary facilities and 877 of them have drinking water-supply for pupils and teachers. 112 Higher Secondary Schools provide midday meals for pupils and 136 schools have free uniforms. Free text books supply is given in 592 schools.

37,334 teachers are working in Higher Secondary Schools (4,846 in rural and 32,488 in urban areas) 1,808 SC teachers and 16 ST teachers are working in Higher Secondary Schools. While 33,814 teachers are working in permanent vacancies 3,520 have to be provided permanent footing. 1,811 teachers are working in Higher Secondary School stages and of them 1,793 are trained and the rest 18 are to be trained yet.

While 173 schools have pupil-teacher ratio 40 and above and 443 schools have pupil teacher ratio less than 25.

The classwise enrolment of pupils of Higher Secondary Schools under various managements are as follows :—

XI				XII			
B	G	Total.		B	G	Total.	
Rural :	}	Cf. Table 128.					
Urban :							

The enrolment of SC and ST pupils in Higher Secondary Schools are as follows :—

XI				XII

The percentage of girls enrolled to the total enrolment is 33.6 while SC and ST constitute 31.5 and 31.6 per cent respectively to the total enrolment.

NON-FORMAL EDUCATION.

1,081 villages have facility for non-formal education for the age group 6—14. Of these 1,036 villages have one centre each while 36 villages have two centres each and 9 villages have more than two centres each. 693 villages having population 2,000 and above have non-formal education centres. In the population slab 1000—1999, 294 villages have non-formal education centres of which 6 villages have two centres each. 81 centres function in as many villages under the population slab 500—999. Below 500 slab population only 15 villages enjoy a non-formal education centres.

For the age group 14 to 35, 450 villages have centres as follows ;—

Population 2,000 and above—239 centres.

Population 1,000—1,999—142 centres.

Population 500—999—55 centres.

Population below 500—14 centres.

Of these 12 villages have two centres each and 3 villages have more than two centres each.

For the age group above 35, there are 29 centres distributed as follows ;—

Population 2,000 and above—15 centres.

Population 1,000—1,999—6 centres.

Population 500—999—7 centres.

Population below 500—1 centre.

Thanjavur district has the maximum number of centres (218) followed by Coimbatore district which has 169 centres. The Nilgiris district has only two centres. For the age group 14 to 35 Ramanathapuram district has 97 centres followed by Dharmapuri district which has 91 centres. Madurai, Kanyakumari, South Arcot Thanjavur and the Nilgiris districts do not have any centres under this age group. For the age group above 35 years, North Arcot district has 18 centres. Tiruvelveli, Tiruchirappalli and Ramanathapuram districts have 7, 3 and 1 centre respectively. Other districts do not have any centre under this age group.

For the age-group 6 to 14, 282 centres have participant above 40, while 759 centres have participants ranging from 21 to 40. 40 centres have participants less than 20 each.

Under the age-group 14 to 35, 115 centres have participants above 40, while 317 centres have participants ranging between 21 to 40. 18 centres under this age group have participants less than 20 each.

In the age-group above 35, 3 centres have participants above 40, and the rest 26 centres have participants ranging between 21 to 40.

The total number of participants in non-formal education under the age group 6 to 14 is 42,481, comprising of 27,368 males and 15,113 females. Thanjavur district has the maximum number of participants 8,621 (5,736 males and 2,885 females) followed by Coimbatore district 7,462 participants (4,096 males and 2,566 females).

In the age-group 14 to 35, the total participants are 17,090 (15,334 males and 1,756 females). Dharmapuri district has the highest number of participants 3,990 (3,876 males and 114 females) followed by Ramanathapuram district, 3,912 participants (3,645 males and 267 females).

A total of 1,185 participants (1,152 males and 33 females) are to be found in the age group above 35 years the largest being North Arcot district 702 all males. Ramanathapuram district has 36 participants, comprising of 21 males and 15 females. Other districts do not have any participants.
