Foreword

For successful implementation of any educational programme, effective monitoring, coupled with an efficient information system is essential. While a monitoring framework under SSA is developed separately, concerted efforts have been made towards strengthening of Educational Management Information System (EMIS) in India.

Collection of data in the field of education often turns into an end in itself. Very often such data is collected simply to be sent to a higher administrative authority which means that the information collected does not get interpreted and applied at the level at which it can be used to make useful interventions for improvement in education.

DISE (District Information System for Education) is a process of collection of school level information as on 30th September every year. Accordingly, software has been developed by NUEPA, New Delhi on behalf of Ministry of Human Resource Development, Govt. of India to generate the computerized reports from School level to National level.

The process of data collection had started during District Primary Education Programme (DPEP) and the same has been extended to all the districts of the Country under Sarva Shiksha Abhiyan (SSA).

As a part of the process of data collection, the heads of the institutions fill up the format, sign and submit it to the Cluster Resource Centres. The filled up formats are verified by the Cluster Resource Centre Co-ordinator at cluster level and submitted to the blocks. The verified formats are re-verified at concerned Block Mission Offices and thereafter, data entry is done at the Block Mission Offices. The database is again checked at district level and submitted to the State Mission Office. The database is re-checked at State level and the same is sent to the concerned districts again for necessary correction/modification, if required. The same is being used for further analysis both at State and National level for planning future strategies in terms of educational planning and management.

DISE is a regular source of information on all aspects of elementary education. Through collection of DISE, information is made available and shared at school, cluster, block, district, state and national levels.

The booklet titled "Educational Statistics at a Glance" has been published on the basis of data gathered through DISE survey every year. The copies of the booklet are distributed amongst educational functionaries, NGOs, other departments, research institutions etc. The booklet serves as handy document for ready reference and the positive feedback has encouraged SSA, Assam to publish a similar booklet pooling together the data collected through DISE survey 2013-14.
