PREFACE

An effective system for collection, processing and dissemination of socio-economic indicators is a prerequisite for development planning and formulation of social policy. It is equally important to evaluate the impact of these interventions. The Central Statistical Organisation (CSO) in the Ministry of Statistics & PI as the nodal agency for official statistics in India, has endeavored to bring out at regular intervals various indicators and relevant statistics for the use of planners, policy makers, academicians, researchers and the general public. The present publication is an annual offering that has acquired a discerning readership.

2. In the current issue, an effort has been made to provide the latest available information on a number of indicators encompassing various socio-economic aspects such as population, environment, health & family welfare, housing, education, employment, income & prices, mass communication and public order and safety. The coverage, content and presentation of the publication have been improved to make the issue more user friendly.

3. I take this opportunity to thank all the data source agencies for their cooperation and willing support, without which it would have not been possible for the CSO to bring out this publication in its present form.

4. The publication has been prepared in the Social Statistics Division of the CSO under the overall supervision and guidance of Dr. Vaskar Saha, Additional Director General. Shri S. K. Nath, Deputy Director General and Dr. Ravendra Singh, Director have taken keen interest in enlarging the scope and quality of the publication and improving its presentation. Shri Sher Singh, Joint Director, Shri Suraj Bhan, Deputy Director and Shri Rajesh Bhatia, Assistant Director, have helped in data collection and presentation, as well as overall preparation of the final manuscript. Shri Ajay Rawat and Shri Rajesh Panwar, Junior Investigators, Smt. Chandertara and Shri Gurdip Singh, Computer (Sr. Scale) have put in hard work in the collection of the required data and preparation of the manuscript. All of them deserve our sincere thanks and appreciation.

5. I hope the publication would go a long way in meeting the need of planners, administrators and researchers engaged in policy making and analysis and in understanding the changes taking place in the socio-economic situation of the country. Any suggestion from the esteemed users for its further improvement will be highly appreciated.

प्रस्तावना

सामाजिक-आर्थिक संकेतकों का संग्रहण, प्रसंस्करण और प्रचार-प्रसार करने के लिए एक प्रभावी प्रक्रिया सामाजिक नीति के विकास आयोजना और संरचना के लिए नितांत आवश्यक है। इन हस्तक्षेपों के प्रभाव का मूल्यांकन करने के लिए भी यह उतना ही महत्त्वपूर्ण है। सांख्यिकी और कार्यक्रम कार्यान्वयन मंत्रालय का केन्द्रीय सांख्यिकीय संगठन (सीएसओ), जो भारत में सरकारी सांख्यिकी के लिए नोडल अभिकरण है, योजनाकारों, नीति-निर्माताओं, शिक्षाविदों, अनुसंधानकर्ताओं और आम जनता के उपयोगार्थ नियमित अंतरालों पर विभिन्न संकेतकों तथा संगत सांख्यिकी को प्रकाशित करता रहा है। वर्तमान प्रकाशन एक वार्षिक प्रस्तुति है, जिसका एक विवेकी पाठकवर्ग बन गया है।

2. वर्तमान अंक में जनसंख्या, पर्यावरण, स्वास्थ्य और परिवार कल्याण, आवास, शिक्षा, रोजगार, आय और मूल्य, जन संचार और सार्वजनिक व्यवस्था तथा सुरक्षा जैसे विभिन्न सामाजिक-आर्थिक पहलुओं को सम्मिलित करने वाले अनेकों संकेतकों के संबंध में नवीनतम उपलब्ध जानकारी मुहैया करवाने का प्रयास किया गया है। इस अंक को उपयोगकर्ताओं के लिए और भी अनुकूल बनाने के लिए इस प्रकाशन के आयाम, विषयवस्तु और प्रस्तुतिकरण में सुधार किया गया है।

3. मैं उन सभी अभिकरणों को धन्यवाद देता हूँ जिन्होंने स्वेच्छा से हमें आंकड़े उपलब्ध कराए हैं। उनके सहयोग के बिना इस प्रकाशन को वर्तमान रूप में प्रकाशित करना केन्द्रीय सांख्यिकीय संगठन के लिए संभव नहीं हो पाता।

4. यह प्रकाशन डा० वास्कर साहा, अपर महानिदेशक के संपूर्ण पर्यवेक्षण और मार्गनिर्देशन में केन्द्रीय सांख्यिकीय संगठन के सामाजिक सांख्यिकी प्रभाग में तैयार किया गया है। श्री एस.के.नाथ, उप महानिदेशक और डॉ० रवेन्द्र सिंह, निदेशक ने इस प्रकाशन के विषय और गुणवत्ता को बढ़ाने तथा इसके प्रस्तुतिकरण में सुधार लाने में अत्यधिक अभिरुचि दिखाई है। श्री शेर सिंह, संयुक्त निदेशक, श्री सूरज भान, उपनिदेशक और श्री राजेश भाटिया, सहायक निदेशक ने आंकड़ा संग्रहण और प्रस्तुतिकरण तथा अंतिम (फाइनल) पाण्डुलिपि की संपूर्ण तैयारी में सहायता प्रदान की। श्री अजय रावत और श्री राजेश पंवार, कनिष्ठ अन्वेषक, श्रीमती चन्द्रतारा और श्री गुरदीप सिंह, कम्प्यूटर (वरिष्ठ वेतन मान) ने अपेक्षित आकड़ों के संग्रहण और पाण्डुलिपि की तैयारी में कठिन परिश्रम किया है। ये सभी हमारे हार्दिक धन्यवाद और प्रशंसा के पात्र हैं।

5. मैं आशा करता हूँ कि यह प्रकाशन नीति निर्धारण और विश्लेषण में लगे योजनाकारों, प्रशासकों और अनुसंधानकर्ताओं की आवश्यकताओं को पूरा करने तथा देश की सामाजिक-आर्थिक स्थिति में हो रहे परिवर्तनों को समझने में काफी मदद्गार साबित होगा। इसमें और सुधार करने के लिए यदि उपयोगकर्ताओं की ओर से हमें कोई सुझाव मिले, तो हमें आभारी होंगे।

CONTENTS

TABLES	PAGE
I. POPULATION	
1(a). Population over the years, for States, Union Territories and India	3-6
1(b). Mid year (as on 1st October) estimates of population for States, Union Territories and India	8-9
2. Important administrative and key population statistics for India, States and Union Territories	10-11
3. Percentage distribution of population by educational level for each sex and sector during 1991 for India	12
4. Growth of population in India over the years	13
5. Growth of rural and urban population in India over the years	14
6. Percentage distribution of population by age - group for each sex	15
7(a). Percentage of urban population in India over the years	16
7(b). Percentage of urban population over the years for States, Union Territories and India	17
8. Percentage distribution of rural population according to village size categories States, Union Territories and India during 1991	18
9(a). Percent distribution of rural population by size of village over the years, for India	19
9(b). Percent distribution of urban population by size of town over the years, for India	20
10(a). Percentage of scheduled castes and scheduled tribes in the total population in India	20
10(b). Percentage of Scheduled caste and Scheduled tribe population for States, Union Territories and India during 1991	21
11. Density of population over the years, in States, Union Territories and India	22
12. Sex Ratio in India by sector over the years	23
13. Percentage distribution of migrants in different migration streams for each sex over the years, in India	24
14(a). Percentage distribution of migrants by place of last residence for each sex over the years, in India	25
14(b). Percentage distribution of migrant by reasons for each sex in India	25
15. Percentage of currently married females to all females for different age-groups over the years, in India	26
16(a). Vital rates over the years based on Sample Registration System by sector in India	27
16(b). Vital rates based on Sample Registration System by sector for States, Union Territories and India during 2000	29
17(a). Age specific mortality rates over the years, in rural India	31
17(b). Age specific mortality rates over the years, in urban India	32
17(c). Age specific mortality rates over the years, in India	33
18(a). Age specific fertility rates over the years, by sector in India	34-35
18(b). Fertility rates by background characteristics for India	37
19(a). Infant mortality rate over the years, by sector in India	38

19(b).	Infant mortality rate by sector for States, Union Territories and India during 2000	39
20.	Infant mortality rate and child mortality rate by background characteristics for India during 1998-99	40
21(a).	Expectation of life at birth over the years, in India	41
21(b).	Expectation of life at birth over the years for States and India	43
22.	Percentage distribution of deaths in rural India by major causes of death over the years	44

II. ENVIRONMENT

23.	Availability of forest and agricultural land in India	47
24.	Percentage distribution of area by land use in India	48
25.	Per thousand distribution of rural households by size class of land cultivated in India during the agriculture year 1986-87, 1992-93 & 1998-99	49

III. HEALTH AND FAMILY WELFARE

26.	Percentage of couples currently protected due to family planning methods in India	53
27.	Effective Couple Protection Rate (CPR) due to all methods as on 31st March for States, Union Territories and India	54
28.	Immunisation of children against specified diseases in India	55
29.	Doctors and nursing personnel in India	56
30.	Availability of hospital beds in India	57
31.	Number of hospitals, dispensaries and public health centres in India	58
32.	Facilities under the Indian System of Medicine (ISM) & Homeopathy (H) as on 1.4.2001 in India	59
33.	Number of ISM & H doctors (IQ+NIQ registered practitioners) per lakh population as on 1.1.2001 in States, Union Territories and India	60
34.	Type of medical attention at birth in India	61
35.	Type of medical attention at death in India	62
36.	Expenditure (in rupees) incurred on education, health and social security & welfare services in India	63
37.	Number of disabled persons in India on the basis of NSS survey	64

IV. NUTRITION

38.	Average daily intake of proteins and calories in India	67
39.	Per capita availability of foodgrains and other selected commodities in India	68
40.	Per thousand distribution of households and population by MPCE class in India during 1999-2000	69

V. HOUSING AND TRANSPORT

41.	Housing amenities in India	73
42(a).	Households and housing stock in India	74
42(b).	Number of households, during 1991 States, Union Territories and India	75

43(a).	Average size of household and average number of persons per dwelling in India	76
43(b).	Number of households, population, number of living quarters, with rural-urban break-up in India	76
44.	Female headed households and their average size in India	77
45.	Percentage distribution of households by type of housing structure	77
46.	Number of households, population and living quarters with details of dwellings in India	78
47.	Occupied housing units by number of rooms per housing units and average number of persons per room with rural-urban break-up in India	79
48.	Number of homeless households and population by sex and rural urban break-up for India	80
49.	Identified / estimated slum population according to size class category of units / towns in India during 1991	80
50.	Identified / estimated percentage distribution of slum population according to size/ class categories of cities/towns in States, Union Territories and India during 1991	81
51.	Per capita annual consumption of electricity and petroleum products	82
52.	Road length and motor vehicles in India	83

VI. EDUCATION

53(a).	Literates per thousand population in India	87
53(b).	Literacy rate for States, Union Territories and India through census 2001	88
54(a).	Literacy rates as estimated through sample surveys for States, Union Territories and India	89
54(b).	Percentage of literates by age and sex for India	91
55.	Gross enrolment as percentage to the total population by age and sex for India	92
56.	Percentage of female students to total number of students at different levels of education in India	93
57.	Percentage of female teachers to male teachers at different levels of education in India	94
58.	Pupil - teacher ratio in schools in India	95
59.	Number of girls per 100 boys enrolled in schools and colleges in India	96
60.	Enrolment trend of females (per hundred males) in university education in major disciplines of education in India	97
61.	Number of educational institutions in India	98
62.	Progress of educational institutions for selected professional courses in India	99
63.	Percentage gross drop out in different stages of school education by sex in India	100
64.	Educational composition of population by number of years of schooling in India	101
65.	Percentage allocation of total (center+state) budget for education by sub-sector of education (revenue accounts) for India	102
66.	Educational expenditure as percentage of GDP (at current prices) for India	103

VII. SCIENTIFIC RESEARCH AND DEVELOPMENT

67.	Stock of scientific and technical personnel in India	107
68.	Scientific manpower in India	108

69(a).	Expenditure on scientific research and development over the years in India	109
69(b).	National expenditure on research and development in India by sectors	110

VIII. LABOUR AND EMPLOYMENT

70.	Workforce Participation Rate according to sex & by sector for States, Union Territories and India during 2001	113
71.	Percentage distribution of working children by educational level for each sex and sector in India during 1991	114
72.	Working children (Main and Marginal) for each sex and sector in India during 1991	114
73.	Age specific labour force participation rates ¹ for each sex and sector in India	115
74.	Labour force participation rates by sex and sector for States, Union Territories and India	118
75.	Percentage distribution of labour force by educational status by sex and sector in India	119
76.	Labour Force Participation Rates (LFPR) for educated persons by sex and sector in India	121
77.	Age specific unemployment rates by sex for India	122
78.	Percentage distribution of workers by industry	125
79.	Distribution of main workers by educational level for each occupation category in India	126
80.	Distribution of main workers by industry and occupation and sex during 1991 in India	127
81.	Per thousand distribution of households by number of usual status workers (ps+ss) of age 15 years and above in India during 1999-2000	128
82(a).	Employment In organised sector over the years in India	128
82(b).	Employment in organised sector in States, Union Territories and India	129
83.	Employment in central government over the years in India	130
84.	Percentage of employed person (15 years and above) who had changed the work status by each usual status, educational level and sex during 1999-2000 in India	131
85(a).	Job-seekers registered with employment exchanges over the years in India	132
85(b).	Job seekers registered with employment exchanges by States, Union Territories and India	134
86.	Number of enterprises and employment per enterprise therein for India	135
87.	Incidence rate and frequency rate of industrial injuries over the years in India	136
88.	Man-days lost per thousand workers employed in manufacturing units in the public and private sector over the years in India	137

IX. INCOME AND CONSUMPTION

89.	Per capita household consumption expenditure (in Rs.) over the years in India	141
90.	Average daily wage rates (in Rs.) for agricultural and non- agricultural occupations from October 2001 to December 2001 for rural areas in India	142

91(a).	Percent distribution of total consumption per person for a period of 30 days according to broad group of items of consumption by sector for India	143
91(b).	Per capita expenditure on education and health as percentage of the total per capita consumption expenditure by sector in India	143
92.	Gross National Product (GNP) and per capita national income at current and constant prices over the years in India	144
93(a).	Percentage of population below the poverty line in India	145
93(b).	Number and percentage of population below poverty line for States, Union Territories and India during 1999-2000	146

X. PRICES

94.	Price indices over the years for India	149
-----	--	-----

XI. MASS COMMUNICATION

95.	Circulation of newspapers and periodicals over the years in India	153
96.	Films and cinemas in India	154
97.	Radio and television in India	155
98.	Telephones and post offices in India	156
99.	Number of electors and percentage voting in various general elections in India	157
100.	Number of persons contesting and elected in various general elections in India	159

XII. PUBLIC ORDER AND SAFETY

101.	Disposal of crimes under the Indian Penal Code over the years in India	165
102.	Juvenile delinquency	166
103.	Suicide rate in India	167

XIII. INTERNATIONAL COMPARISON

104.	Human Development Index (HDI) for selected developed and SAARC countries	171
105.	Gender -related development index of selected developed and SAARC countries	173
106.	Demographic trends in selected countries	174
107.	Gender empowerment measure	175
108.	Child survival and development	176
109.	Health profile of selected countries	177

EXPLANTATORY NOTES	181-190

II. पर्यावरण

23.	भारत में वन और कृषीय भूमि की उपलब्धता.	47
24.	भारत में प्रयुक्त भूमि के अनुसार क्षेत्र का प्रतिशत वितरण.	48
25.	कृषि वर्ष 1986-87, 1992-93 और 1998-99 के दौरान भारत में जोत भूमि के आकार श्रेणी के अनुसार ग्रामीण परिवारों का प्रति हजार वितरण.	49

III. स्वास्थ्य और परिवार कल्याण

26.	भारत में वर्तमान में परिवार नियोजन पद्धति अपनाने वाले दम्पतियों का प्रतिशत.	53
27.	राज्यों और संघ शासित क्षेत्रों हेतु 31 मार्च की स्थिति के अनुसार सभी पद्धति के परिणामस्वरूप प्रभावी दम्पति संरक्षण दर.	54
28.	भारत में विशिष्ट बीमारियों की रोकथाम के लिए बाल टीकाकरण.	55
29.	भारत में डाक्टर और नर्सिंग कार्मिक.	56
30.	भारत में अस्पताल में बिस्तरों की उपलब्धता.	57
31.	भारत में अस्पतालों, औषधालयों और जन स्वास्थ्य केन्द्रों की संख्या	58
32.	भारत में 1.4.2001 की स्थिति के अनुसार भारतीय औषध पद्धति (आई एम एम) और होम्योपैथी (एच) के अंतर्गत सुविधाएं.	59
33.	राज्यों और संघ शासित क्षेत्रों में 1.1.2001 की स्थिति के अनुसार प्रति लाख जनसंख्या के लिए आई एस एस और एच डाक्टर (आई क्यू + एन आई क्यू (पंजीकृत डाक्टरों) की संख्या.	60
34.	भारत में जन्म के समय चिकित्सा संबंधी देखभाल का प्रकार.	61
35.	भारत में मृत्यु के समय चिकित्सा संबंधी देखभाल का प्रकार.	62
36.	भारत में शिक्षा, स्वास्थ्य और सामाजिक सुरक्षा और कल्याण सेवाओं पर किया गया व्यय.	63
37.	रा.प्र.सर्वे.सर्वेक्षण के आधार पर भारत में विकलांग व्यक्तियों की संख्या	64

IV पोषण

38.	भारत में प्रतिदिन ग्रहण की जाने वाली प्रोटीन और कैलोरी का औसत	67
39.	भारत में खाद्यान्न और अन्य चयनित वस्तुओं की प्रति व्यक्ति उपलब्धता	68

40.	भारत में 1999-2000 के दौरान मासिक प्रति व्यक्ति व्यय श्रेणी के अनुसार परिवार और जनसंख्या का प्रति हजार पर वितरण	69
-----	---	----

V आवास और परिवहन

41.	भारत में आवास सुविधाएं ।	73
42.(क)	भारत में परिवार और आवासों का स्टॉक ।	74
42.(ख)	1991 के दौरान राज्यों और संघ शासित क्षेत्रों में परिवारों की संख्या ।	75
43.(क)	भारत में प्रति निवास स्थान के परिवारों का औसत आकार और व्यक्तियों की औसत संख्या ।	76
43.(ख)	भारत में ग्रामीण-शहरी ब्योरों सहित परिवारों की संख्या, जनसंख्या और रहने के क्वार्टरों की संख्या ।	76
44.	भारत में महिला मुखिया वाले परिवार और उनका औसत आकार ।	77
45.	आवासीय संरचना के प्रकार के अनुसार परिवारों का वितरण प्रतिशत ।	77
46.	भारत में निवास के विवरण सहित परिवार, जनसंख्या और रहने के क्वार्टरों की संख्या	78
47.	भारत में ग्रामीण-शहरी ब्योरों सहित प्रति आवासीय यूनिट में कमरों की संख्या के अनुसार अधिग्रहीत आवासीय यूनिट और प्रति कमरा व्यक्तियों की औसत संख्या ।	79
48.	भारत में ग्रामीण शहरी ब्योरों और लिंगवार जनसंख्या और बेघर परिवारों की संख्या ।	80
49.	भारत में 1991 के दौरान यूनिटों की आकार वर्ग श्रेणी के अनुसार अभिनिर्धारित/अनुमानित स्लम जनसंख्या ।	80
50.	राज्यों और संघ शासित क्षेत्रों में 1991 के दौरान नगरों/कस्बों के श्रेणियों के आकार/वर्ग के अनुसार स्लम जनसंख्या का अभिनिर्धारण/अनुमानित प्रतिशत वितरण ।	81
51	बिजली और पेट्रोलियम उत्पादों की प्रति व्यक्ति वार्षिक खपत ।	82
52.	भारत में सड़क लम्बाई और मोटर वाहन ।	83

VI शिक्षा

53.(क)	भारत में प्रति हजार जनसंख्या साक्षरता ।	87
53.(ख)	2001 के दौरान राज्यों और संघ शासित क्षेत्रों में साक्षरता दर ।	88
54(ए)	राज्यों एवं संघशासी क्षेत्रों हेतु रा.प्र.सर्वे.सं. के विभिन्न दौरों के माध्यम से अनुमानित साक्षरता दर ।	89
54(बी)	भारत में आयु एवं लिंग के अनुसार साक्षरों का प्रतिशत ।	91
55	भारत में आयु एवं लिंग के अनुसार कुल जनसंख्या के प्रतिशत के अनुरूप सकल नामांकन ।	92
56	भारत में शिक्षा के विभिन्न स्तरों पर कुल छात्रों की संख्या में छात्राओं का प्रतिशत ।	93
57	भारत में शिक्षा के विभिन्न स्तरों पर पुरुष शिक्षकों की तुलना में महिला शिक्षकों का प्रतिशत ।	94
58	भारत में स्कूलों में शिष्य-शिक्षक अनुपात ।	95
59	भारत में स्कूलों एवं कालेजों में नामांकित प्रति 100 बालकों की तुलना में बालिकाओं का प्रतिशत ।	96
60	भारत में शिक्षा की प्रमुख शाखाओं में विश्वविद्यालय शिक्षा में महिलाओं की नामांकन प्रवृत्ति (प्रति सौ पुरुष) ।	97
61	भारत में शैक्षिक संस्थानों की संख्या ।	98
62	भारत में चयनित व्यावसायिक पाठ्यक्रमों के शैक्षिक संस्थानों की प्रगति ।	99

63	भारत में लिंग के अनुसार स्कूली शिक्षा के विभिन्न स्तरों पर पढ़ाई छोड़ने वालों का सकल प्रतिशत ।	100
64	भारत में स्कूली शिक्षा के वर्षों की संख्या के अनुसार जनसंख्या का शैक्षिक सम्मिश्रण ।	101
65	भारत में शिक्षा (राजस्व लेखे) के उप-क्षेत्रों के अनुसार शिक्षा हेतु कुल (केन्द्र + राज्य) बजट का आबंटन प्रतिशत ।	102
66	भारत में सकल घरेलू उत्पाद (प्रचलित मूल्यों पर) के अनुरूप शैक्षिक व्यय ।	103

VII वैज्ञानिक अनुसंधान एवं विकास

67	भारत में वैज्ञानिक और तकनीकी कार्मिकों का स्टॉक ।	107
68	भारत में वैज्ञानिक जनशक्ति ।	108
69(ए)	विभिन्न वर्षों के दौरान भारत में वैज्ञानिक अनुसंधान एवं विकास पर व्यय ।	109
69(बी)	भारत में क्षेत्रों के अनुसार अनुसंधान एवं विकास पर राष्ट्रीय व्यय	110

VIII श्रम और रोजगार

70	वर्ष 2001 के दौरान राज्यों/संघशासी राज्यों हेतु लिंग एवं क्षेत्र के अनुसार कार्यशक्ति भागीदारी की दर ।	113
71	भारत में 1991 के दौरान लिंग और क्षेत्र प्रत्येक के लिए शैक्षिक स्तर के अनुसार कार्यरत बच्चों का प्रतिशत वितरण ।	114
72	भारत में 1991 के दौरान लिंग और क्षेत्र प्रत्येक के लिए (मुख्य और सीमान्त)कार्यरत बच्चे ।	114
73	भारत में लिंग और क्षेत्र प्रत्येक हेतु आयु विशिष्ट श्रमशक्ति हिरसेदारी दरें ।	115
74	राज्यों तथा संघशासी राज्यों हेतु लिंग और क्षेत्र के अनुसार श्रमशक्ति हिरसेदारी दरें ।	118
75	भारत में लिंग और क्षेत्र के अनुसार श्रमशक्ति का शैक्षिक सम्मिश्रण ।	119
76	भारत में लिंग और क्षेत्र के अनुसार शिक्षित व्यक्तियों के लिए श्रमशक्ति हिरसेदारी दरें ।	121
77	भारत में लिंग के अनुसार आयु विशिष्ट बेरोजगारी दरें ।	122
78	उद्योग के अनुसार श्रमिकों का प्रतिशत वितरण ।	125
79	भारत में प्रत्येक व्यवसाय श्रेणी हेतु शैक्षिक स्तर के अनुसार मुख्य श्रमिकों का वितरण ।	126
80	भारत में लिंग 1991 के दौरान उद्योग और व्यवसाय तथा लिंग के अनुसार मुख्य श्रमिकों का वितरण ।	127
81	सामान्य स्तरीय श्रमिकों की संख्या के अनुसार परिवारों का वितरण ।	128
82(ए)	भारत में अनेक वर्षों के दौरान संगठित क्षेत्र में रोजगार ।	128
82(बी)	राज्यों और संघशासी राज्यों में संगठित क्षेत्र में रोजगार ।	129
83	विभिन्न वर्षों में भारत में केन्द्र सरकार में रोजगार ।	130
84	भारत में 1999-2000 के दौरान जो सामान्य स्तर, शैक्षिक स्तर और लिंग प्रत्येक के अनुसार कार्यस्तर बदल चुके रोजगाररत (15 वर्ष और इससे अधिक) व्यक्तियों का प्रतिशत ।	131
85(ए)	विभिन्न वर्षों में भारत में रोजगार कार्यालय में पंजीकृत नौकरी तलाशने वाले व्यक्ति ।	132
85(बी)	राज्यों/संघशासी राज्यों में 2000-2001 के दौरान रोजगार कार्यालय में पंजीकृत नौकरी तलाशने वाले व्यक्ति ।	134
86	भारत में प्रति उद्यम, उद्यमों और रोजगार की संख्या ।	135

87	वर्षों से भारत में औद्योगिक चोट की आपतन दर और बारम्बारता दर ।	136
88	वर्षों से भारत में सार्वजनिक और निजी क्षेत्र में विनिर्माण इकाईयों में रोजगाररत प्रति हजार मजदूरों पर गंवाए गए श्रम-दिन ।	137

IX आय और उपभोग

89	वर्षों से भारत में प्रति व्यक्ति परिवार उपभोग खर्च (रु. में) ।	141
90	भारत के ग्रामीण क्षेत्रों में कृषि गैर-कृषि व्यवसायो के लिये अक्टूबर 2001 से दिसम्बर 2001 तक की औसत दैनिक मजदूरी दर (रु०)	142
91(क)	भारत के लिए क्षेत्र द्वारा उपभोग की मदों के विस्तृत समूह के अनुसार 30 दिनों की अवधि के लिए प्रति व्यक्ति कुल उपभोग का प्रतिशत वितरण	143
91(ख)	भारत में क्षेत्र द्वारा कुल प्रति व्यक्ति उपभोग खर्च के प्रतिशत के रूप में शिक्षा और स्वास्थ्य पर प्रति व्यक्ति खर्च ।	143
92	भारत में वर्षों से चालू और स्थिर मूल्यों पर सकल राष्ट्रीय उत्पाद (जी एन पी) और प्रति व्यक्ति राष्ट्रीय आय ।	144
93(क)	भारत में गरीबी रेखा से नीचे की जनसंख्या का प्रतिशत ।	145
93(ख)	राज्यों और संघ शासित क्षेत्रों के लिए वर्ष 1999-2000 के दौरान गरीबी रेखा से नीचे की जनसंख्या की संख्या और प्रतिशत ।	146

X मूल्य

94	भारत के लिए वर्षों से मूल्य सूचकांक ।	149
----	---------------------------------------	-----

XI जन संचार

95	भारत में वर्षों से समाचार पत्रों और पत्रिकाओं का परिचालन ।	153
96	भारत में फिल्म और सिनेमा ।	154
97	भारत में रेडियो और टेलिविजन	155
98	भारत में डाकखाना और दूरभाष	156
99	भारत में विभिन्न आम चुनावों में मतदाताओं की संख्या और प्रतिशत मतदान ।	157
100	भारत में विभिन्न आम चुनावों में चुनाव लड़ने वाले और निर्वाचित व्यक्तियों की संख्या	159

XII सार्वजनिक व्यवस्था और सुरक्षा

101	भारत में वर्षों से भारतीय दंड संहिता के अंतर्गत अपराधों का निपटान	165
102	बाल अपराध	166
103	भारत में आत्महत्या दर	167

XIII अंतर्राष्ट्रीय तुलना

104	चयनित विकसित और सार्क देशों के लिए मानव विकास सूचकांक	171
105	चयनित विकसित और सार्क देशों के लिए लिंग संबंधित विकास सूचकांक	173

106	चयनित देशों में जनांकिकीय प्रवृत्तियाँ	174
107	लिंग अधिकारिता उपाय	175
108	बाल उत्तरजीविता और विकास	176
109	चयनित देशों की स्वास्थ्य रूपरेखा	177

व्याख्यात्मक नोट

191-200

चार्टों की सूची

1	भारतीय जनसंख्या की वृद्धि	7
2	भारतीय जनसंख्या की वृद्धि दर	13
3	भारतीय जनसंख्या की ग्रामीण-शहरी वृद्धि	14
4	कुल जनसंख्या पर शहरी जनसंख्या का प्रतिशत-भारत	16
5	भारतीय जनसंख्या में लिंग अनुपात	23
6(क)	कुल महिला प्रवसन में विभिन्न प्रवसन चरणों का अंश, 1991	24
6(ख)	कुल पुरुष प्रवसन में विभिन्न प्रवसन चरणों का अंश, 1991	24
7	भारत में वर्षों से प्रजनन उम्र (15-49) में वर्तमान में विवाहित महिलाओं का प्रतिशत	26
8	ग्रामीण और शहरी क्षेत्रों में जन्म दरें	28
9	ग्रामीण और शहरी क्षेत्रों में मृत्यु दरें	30
10	भारत में जननक्षमता की आयु पद्धति, 1998	36
11	भारत में शिशु मृत्यु दर	38
12	भारत में जन्म पर जीवन की प्रत्याशा	42
13	भारत में परिवार नियोजन का निस्पादन	53
14	भारत में स्वास्थ्य ढांचे की प्रगति	58
15	शारीरिक विकलांगता	64
16	भारत में साक्षरता की प्रगति	87
17	रा.प्र.सर्वे.सं. के विभिन्न दौरों के जरिए यथा अनुमानित साक्षरता दरें-भारत	90
18(क)	शहरी क्षेत्रों में आयु विशिष्ट श्रम बल भागीदारी दरें, 1999-2000	116
18(ख)	ग्रामीण क्षेत्रों में आयु विशिष्ट श्रम बल भागीदारी दरें, 1998-2000	117
19(क)	ग्रामीण पुरुष श्रम बल का शैक्षिक गठन	120
19(ख)	ग्रामीण महिला श्रम बल का शैक्षिक गठन	120
20(क)	वर्षों से ग्रामीण क्षेत्रों में बेरोजगारी की दरें	123
20(ख)	वर्षों से शहरी क्षेत्रों में बेरोजगारी की दरें	124
21	वर्षों से रोजगार केन्द्रों में पंजीवृत्त नौकरी चाहने वाले	133
22	गरीबी रेखा से नीचे की जनसंख्या का प्रतिशत	145
23	भारत में रेडियो और दूरदर्शन	155
24	आम चुनाव में भागीदारी	158
25	आम चुनाव लड़ने वाले उम्मीदवारों की संख्या	160
26	आम चुनाव जीतने वाले उम्मीदवारों का लिंगवार प्रतिशत	161
27	आत्महत्या की घटनाएं	168
28	विकसित देशों तथा भारत के लिए मानव विकास सूचकांक (एच डी आई) और लिंग संबंधित विकास सूचकांक(जी डी आई)	172

Source : Office of the Registrar General, India , Part II - A (i) 1991-Central Population table (A-I to A- 3).

Note : Reference period of various censuses is 1st March except during 1971 for which it is 1st April.

1. Includes Daman & Diu
2. The population of Jammu & Kashmir for 1951 has been taken to be the arithmetic mean of 1941 & 1961 population.
3. Due to creation of new states after 1991, the data for the years prior to 2001 for the states of Bihar, Madhya Pradesh and Uttar Pradesh include the data of newly created states namely Jharkhand, Chhatisgarh and Uttaranchal, respectively.

(Contd.)

Table 1(a) (Contd.): Population over the years, for States, Union Territories and India

State/Union Territory	1971			1981		
	Male	Female	Person	Male	Female	Person

- The reference date in 1971 census was 1st April 1971. In working out the decadal variations for 1961-71 and 1971-81, the change in reference date in 1971 census has been taken into account.
- In 1981 Census the reference date was 1st March 1981 in all states except Jammu and Kashmir where it was 6th May 1981. No census was conducted in Assam in 1981. However the interpolated population of Assam has been taken into account in calculating the growth rates.
- The 1991 Census in Jammu & Kashmir could not be conducted. However, the projected population has been taken into account for the state in calculating the growth rate of all India.

- a. Based on the projected population of Jammu & Kashmir by the Standing Committee of Experts on Population Projections (Oct, 89).
 - b. The 1981 Census could not be held in Assam. Population figures for 1981 for Assam have been worked out by interpolation.
1. The figures of total, rural and urban population of Gujarat state have been arrived at after including estimated total, rural and urban population of entire Kachchh district, Morvi, Maliya -Miyana and Wankaner taluka of Rajkot district, Jodiya taluka of Jamnagar district where population enumeration of the Census of India, 2001 could not be conducted due to natural calamity.
 2. The figures of total, rural and urban population of Himachal Pradesh state have been arrived at after including the estimated total and rural population of entire Kinnaur district where population enumeration of Census of India, 2001 could not be conducted due to natural calamity.
 3. Due to creation of new states after 1991, the data for the years prior to 2001 for the states of Bihar, Madhya Pradesh and Uttar Pradesh include the data of newly created states namely Jharkhand, Chattishgarh and Uttarachal, respectively.

Source : Office of the Registrar General, India

1. Density of population is the population per square kilometer of area.
2. Due to creation of new states after 1991, the data for the years prior to 2001 for the states of Bihar, Madhya Pradesh and Uttar Pradesh include the data of newly created states namely Jharkhand, Chhatisgarh and Uttaranchal, respectively.
 - a. While working out the density of India, Jammu & Kashmir has been excluded as comparable figures of area and population are not available for the state.
 - b. For working out the density of India and Jammu & Kashmir the entire area and population of those portions of Jammu & Kashmir which are under illegal occupation of Pakistan and China have not been taken into account.
 - c. The 1981 Census could not be held in Assam, therefore, for calculating the density of India & Assam, the population figures for 1981 for Assam as worked by interpolation have been taken.
 - d. The 1991 Census was not held in Jammu & Kashmir. For calculating density of India and Jammu & Kashmir, the population figures of 1991 for Jammu & Kashmir as projected by Standing Committee of Experts On Population Projections (Oct, 1989) have been taken.
 - e. Figures shown against Gujarat state have been arrived at after including estimated total, rural and urban population of entire Kachchh district, Morvi, Maliya -Miyana and Wankaner taluks of Rajkot district, Jodiya taluka of Jamnagar district where population enumeration of the Census of India, 2001 could not be conducted due to natural calamity.

Table 12 : Sex Ratio in India by sector over the years

Year	Sex -Ratio (No. of females per 1000 males)		
	Rural	Urban	Total
1901	979	910	972
1911	975	872	964
1921	970	846	955
1931	966	838	950
1941	965	831	945
1951	965	860	946
1961	963	845	941
1971	949	858	930
1981 ^a	951	879	934 ^d
1991 ^b	938	894	927
2001 ^c	946	901	933

a. Including Assam.

b. The 1991 Census was not held in Jammu & Kashmir. For working out Sex-Ratio for India the population figures for Jammu & Kashmir as projected by the Standing Committee on Population Projection (Oct-1989) have been taken.

c. The total, rural and urban population of India includes the estimated total, rural and urban population of entire Kachchh district, Morvi, Maliya-Miyana and Wankaner taluks of Rajkot district, Jodiya taluka of Jamnagar district of Gujarat state and estimated total and rural population of entire Kinnaur district of Himachal Pradesh where population enumeration of Census of India, 2001 could not be conducted due to natural calamities.

d. The 1981 Census could not be held in Assam. For working out sex-ratio for India & Assam, the population figures for 1981 for Assam worked out by interpolation have been taken.

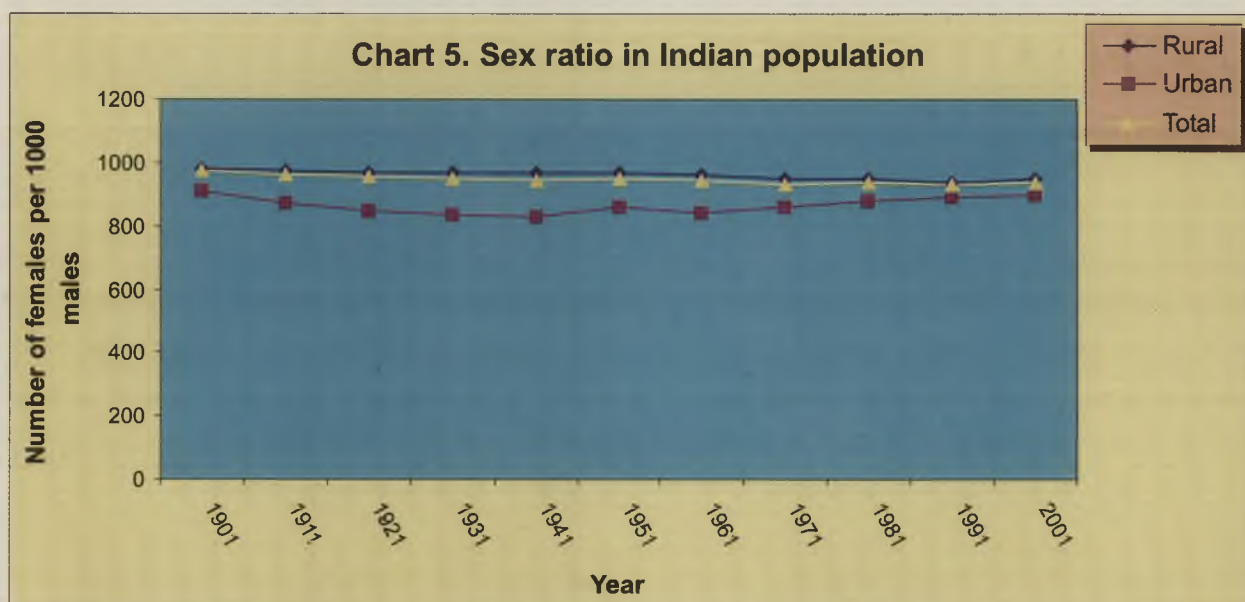

Table 13 : Percentage distribution of migrants in different migration streams for each sex over the years, in India

Sex	Year	Rural to Rural	Rural to Urban	Urban to Urban	Urban to Rural	Total Migrants
Male	1961	56.7	25.7	13.0	4.6	100.00
	1971	53.5	26.0	14.0	6.5	100.00
	1981	45.6	30.0	17.4	7.0	100.00
	1991	43.4	31.6	17.8	7.2	100.00
Female	1961	81.3	9.7	5.8	3.2	100.00
	1971	77.7	10.5	6.7	5.1	100.00
	1981	73.3	12.5	8.7	5.5	100.00
	1991	72.2	13.5	8.8	5.5	100.00
Person	1961	73.7	14.6	8.1	3.6	100.00
	1971	70.3	15.3	8.9	5.5	100.00
	1981	65.2	17.6	11.2	6.0	100.00
	1991	64.5	18.4	11.2	5.9	100.00

Source : Office of the Registrar General, India.

Note : 1. Table excludes persons who were born outside India.

2. 1981 figures exclude Assam State where 1981 Census could not be conducted due to disturbed conditions prevailing at that time.

3. 1961,1971,1981 and 1991 figures are based on place of birth and excludes the unclassifiable figures.

4. 1991 figures excludes Jammu & Kashmir as the Census was not held in the state.

(Figures are provisional)

Notes : - Nil information

a. Includes one Hospital of Amchi with 15 beds

b. Includes 34 Amchi Dispensaries.

c. These Colleges conduct 5 & 1/2 years BNYS Degree course.

1. Information as on 1.1. 2001

2. All these colleges are part of U.G. Colleges mentioned at Sl. No.5 except two colleges under Ayurveda, one each in Gujarat and West Bengal where only P.G. courses are conducted. As such, total number of colleges under Ayurveda comes to 198. However, total number of colleges under Unani, Siddha and Homeopathy remain 39, 2, and 166 respectively.

Source : Annual Reports of National Nutrition Monitoring Bureau (NNMB), Hyderabad.

Note : During 1981 and 1982, the NNMB surveys were incomplete and hence the results not reported.

- a. During 1983 the surveys were conducted on a sub-sample of NSSO 'Central' sample in only four states viz. Andhra Pradesh, Gujarat, Orissa and Tamil Nadu.
- b. Results are based on Repeat Surveys conducted earlier during 1975-79 to study changes in consumption and nutritional situation.
- c. Report of NNMB(1993) During the years 1991 & 1992, surveys were conducted on a sub-sample of NSSO Central' sample in the states of Kerala, Tamil Nadu, Karnataka, Andhra Pradesh, Maharashtra, Gujarat, Orissa and West Bengal.
- d. Report of NNMB (1996) represents the simple average at state level estimates of consumption for the State of Kerala, Tamil Nadu, Karnataka, Andhra Pradesh, Maharashtra, Gujarat, Madhya Pradesh, Orissa.
- e. During 1996-97 Second Repeat Surveys were conducted in the State of Kerala, Tamil Nadu, Karnataka, Andhra Pradesh, Maharashtra, Gujarat and Orissa (NNMB II Repeat Survey).
- f. Figures are based on NNMB survey on "Diet and Nutritional Status of Rural Population" carried out in the year 2000-2001.

Note : Figures relate to usual status of individuals. Labour force covers those involved in gainful activity regularly + those involved in gainful activity occasionally + those unemployed. The figures represent the size of labour force as percentage of population.

1. Due to creation of new states after 1991, the data for the years prior to 2001 for the states of Bihar, Madhya Pradesh and Uttar Pradesh include the data of newly created states namely Jharkhand, Chattishgarh and Uttarachal, respectively.

a. Included with Daman & Diu. Figures for 1993-94 are exclusive of Goa.
b. No survey
c. No urban area

Table 75 : Percentage distribution of labour force by educational status by sex and sector in India

Source : National Sample Survey Organisation												
Note : Figures relate to usual status of individuals. Figures for the year 1972-73 and 1977-78 relate to the population aged five years and above while figures for the year 1983 and 1987-88 relate to the population aged 15 years and above. Thus the figures relating to 1983, 1987-88, 1993-94 and 1999-2000 would be slightly reduced if the persons in the labour force in the age group of 5-14 are included in the estimation.												

Chart 19 (a). Educational composition of rural labour force by sex in India during 1999-2000

Chart 19 (b). Educational composition of urban labour force in India during 1999-2000

Table 76 : Labour Force Participation Rates (LFPR) for educated persons by sex and sector in India

Year	Educational level	Rural		Urban	
		Male	Female	Male	Female

Notes

CPI (IW) : Consumer Price Index (CPI) for Industrial Workers

CPI(UNME): Consumer Price Index for Urban Non-Manual Employee

CPI (AL) : Consumer Price Index for Agricultural Labourers

CPI (RL) : Consumer Price Index for Rural Labourers

WPI : Wholesale Price Index

a. Base year 1960=100 for indices from 1961 to 1988

b. Base year 1982=100 for indices from 1989 onward (new series started w.e.f. Oct., 1988); Linking factor from base 1982 to base 1960 is 4.93

c. Base year 1960=100 for indices from 1961 to 1987

d. Base year 1984-85=100 for indices from 1988 onward (new series started w.e.f. Nov., 1987); Linking factor base from 1984-85 to base 1960 is 5.32

e. Base year July 1960-June 1961=100 for indices from 1966 to 1995

f. Average based on 10 months i.e. from Jan. 1995-Oct.1995

g. Base year July 1986 - June 1987=100 for indices from 1996 onward (new series started w.e.f. Nov., 1995); Linking factor from base 1986 - 87 to base 1960- 61 is 5.89

h. New CPI (RL) series on base July 1986 -June 1987 =100 started releasing from Nov., 1995

i. Base year 1952-53=100

j. Base year 1961-62=100; Linking factor from base 1961-62 to base 1952-53 is 1.251

k. Base year 1970-71=100 for indices from 1971 to base 1989; Linking factor from base 1970-71 to base 1961 -62 is 1.811

l. Base year 1981-82=100 for indices from 1990 to 1998; Linking factor from base 1981-82 to base 1970-71 is 2.813

m. Base year 1993-94=100 for indices from 2000 onward (New series started releasing from April 2000). Linking factor from base 1993-94 to base 1981-82 is 2.478.

n. Based on monthly indices received from the labour bureau and Ministry of Industry.

1 The HDI rank is determined using HDI values to the sixth decimal point.

2 Figures of adult literacy rate correspond to persons aged 15 years & above.

3 Preliminary UNESCO estimates subject to further revision.

4 A positive figure indicates that the HDI rank is higher than the GDP per capita (Purchasing Power Parity (PPP)US\$) rank, a negative the opposite

a For purpose of calculating the HDI a value of 99.0% was applied.

b For purpose of calculating the HDI, a value of 100% was applied.

c UNICEF 2002

d Data refer to a year or period other than that specified, differ from the standard definition or refer to only part of a country.

e Human Development Report Office estimate based on national sources.

Source : UNDP Human Development Report, 2002.

1 : Figures of adult literacy rate correspond to person aged 15 years & above.

2 : Preliminary UNESCO estimates subject to further revision.

3 : The HDI ranks used in this column are those recalculated for the 146 countries with a GDI value. A positive figure indicates that the GDI rank is higher than the HDI rank, a negative the opposite.

a : Because of the lack of gender-disaggregated income data, female and male earned income are crudely estimated on the basis of data on the ratio of female non-agricultural wage to the male non-agricultural wage, the female and male shares of the economically active population, the total female and male population and GDP per capita (PPPUS\$). Unless otherwise specified, estimates are based on data for the latest year available during 1991-2000.

b : For purposes of calculating the GDI, a value of 99.0% was applied.

c : No wage data available. For purposes of calculating the estimated female and male earned income, an estimate of 75% was used for the ratio of the female non-agricultural wage to the male non-agricultural wage

d : For purpose of calculating the GDI, a value of 100.0% was applied.

NA : Figures not available

- 1 : Data are as of 8 March, 2002. Where there are lower and upper houses, data refer to the weighted average of women's share of seats in both houses.
- 2 : Data refer to the latest years available during the period 1991-2000. Those for countries that have implemented the recent International Standard Classification of Occupations (ISCO-88) are not strictly comparable with those for countries using the previous classification (ISCO-68).
- 3 : Estimates are based on data for the latest year available during the period 1991-2000.
- 4 : Figures for India in column number 1 and 5 are from the UNDP, Human Development Report, 2002 and for column number 3,4,,6,7& 8 the figures are from UNDP, Human Development Report, 1999. The figures for India in column number 6 & 7 are calculated on the basis of data from UN 1994 and ILO, Yearbook of Labour Statistics, 1993 and Yearbook of Labour Statistics, 1994. The figure in column 6 for India is the number of female administrators and managers as % of total. For figure in column 7 for India, an estimate of 75%, the mean of all countries with wage data available was used for the ratio of the female non-agricultural wage to the male non-agricultural wage.
- a : Data are based on the International Standard Classification of Occupations (ISCO-68) as defined in ILO (2001).
- b : Information for the most recent elections was not available in time for publication; data are based on previous elections.
- c : Parliament has been dissolved or suspended for an indefinite period.
- NA : Figures are not available

- 1 : Data refer to tuberculosis cases reported to the WHO and may represent only a fraction of the true number in a country because of incomplete coverage by health services, inaccurate diagnosis or deficient recording and reporting.
- 2 : Data refer to malaria cases reported to the WHO and may represent only a fraction of the true number in a country because of incomplete reporting systems or incomplete coverage by health services, or both. Because of the diversity of case detection and reporting systems, country comparisons should be made with caution.
- a : Data refer to the end of 2001. Aggregates are rounded estimates; regional totals may not sum to the world total.
- b : Data refer to estimates of apparent consumption based on data on cigarette production, imports and exports. Such estimates may under-or overstate true consumption in countries where tobacco products are illegally imported or exported, where there is significant stock piling of cigarettes or where there are large transient populations. Estimates of apparent consumption cannot provide insights into smoking patterns in a population. Data refer to the most recent three year moving average available during the period specified.
- c : Data refer to the most recent year available during the period specified.
- d : Data refer to 1999.
- T : Total
- NA : Figures not available

**EXPLANATORY
NOTES**

व्याख्यात्मक नोट

EXPLANATORY NOTES

POPULATION

Table 4 - The three types of growth rates have been calculated as follows:-

Annual arithmetic growth rate

$$(r_a) = \frac{P_{t+10} - P_t}{P_t} \times \frac{1}{10}$$

Annual geometric growth rate

$$(r_g) = \text{antilog} \left[\frac{1}{10} (\log P_{t+10} - \log P_t) \right] - 1$$

Annual exponential growth rate

$$(r_e) = \frac{[\log P_{t+10} - \log P_t]}{10}$$

where P_t = Initial population

P_{t+10} = Population after 10 years

Table 5- The average annual percentage growth rate is calculated using the following formula ;

$$\text{Growth rate} = \frac{1}{10} \left\{ \frac{(P_{t+10} - P_t)}{P_t} \times 100 \right\}$$

Table 6 - An urban area is defined as follows:

- (a) All statutory towns i.e. all places within a municipality, corporation, municipal board, cantonment board or notified town area committee etc.
- (b) All other places which satisfy the following criteria:
 - (i) a minimum population of 5,000
 - (ii) at least 75% of male working population engaged in non- agricultural pursuits; and
 - (iii) a density of population of atleast 400 persons per square kilometre (1000 per sq. mile)

The urban criterion of 1981 varies slightly from that of 1961 and 1971 censuses, in that the males working in activities such as fishing, logging etc. were treated as engaged in non-agricultural activities whereas in 1981 they were treated as on par with cultivators and agricultural labourers. The definition adopted in 1991 census was similar to that of 1981 census.

Table 10. - The statutory lists of Scheduled Castes (SC) and Scheduled Tribes (ST) are notified in pursuance of Articles 341 and 342 of the Constitution of India. These lists have been modified, amended or supplemented from time to time. From the 1951 census onwards the census questionnaire contains items of enquiry to ascertain whether the respondent belongs to SC or ST and if yes, the name of the caste/tribe to which he/she belongs.

Table 11- Density of population is defined as the number of persons per square kilometer.

Table 12.- Sex ratio is defined as the number of females per thousand males in the population.

Table 14.- A person is considered to be a migrant if his/her place of enumeration (village/town) is different from the last (previous) usual residence. The usual residence for the purpose of census is taken to be the person staying continuously for a period of six months or more. However, the visit of married women (staying sometimes more than six months) to their parents house for child birth or for any other reason are not considered as migratory movement. Again, movement from one locality to another within the same town or village is not considered as migration.

Table 16- The Sample Registration System of the Registrar General is a dual record system with the primary objective of providing reliable estimates of birth and death rates for rural and urban areas. The field operations consist of continuous enumeration by local part-time enumerators. Once in six months the supervisory staff, who are full timers, conduct a retrospective survey to arrive at an independent set of vital events which are then matched. The unmatched and partially matched events are re-verified in the field.

Crude Birth Rate(CBR) is defined as the number of live births per thousand population in a given year.

Crude Death Rate(CDR) is defined as the number of deaths per thousand population in any given year.

Natural Growth Rate = Crude Birth Rate- Crude Death Rate

Table 17- Age-specific mortality rate is defined as the number of deaths in specific age-group per thousand population in the same age-group in a given year.

Table 18- Age-specific fertility rate is defined as the number of live births in a specific age-group of women per thousand female population of that age-group.

Table 19- Infant mortality rate refers to the measurement of mortality in the first year of life and is computed by relating the number of deaths under one year of age to 1000 live births.

Table 22- The data given in this table are based on the survey conducted by the Office of the Registrar General continuously in selected sample villages having Primary Health Centre (PHC). It adopts the technique of lay diagnosis reporting employing paramedical personnel of the selected PHCs for the field work.

ENVIRONMENT

Table 23- Forest land available per person has been worked out by dividing the area under forest, as given by the Ministry of Agriculture by the population figures for the corresponding year. The figures given by the Ministry of Agriculture under permanent pasture and other grazing land, miscellaneous tree crops and groves not included in net sown area, cultivable waste land, fallow land and net area sown have been added to obtain the total agricultural land. This is divided by the rural population figure for average availability of agricultural land for each person in rural areas.

Table 24.- This table presents data regarding percentage distribution of the total reported area by land use. The different categories of land utilisation are as under:-

Forest: includes area actually under forest or land classified or administered as forests under any legal enactment.

Not available for cultivation:- is land which is absolutely barren for cultivation or uncultivable or covered by buildings, walls, roads, railways, mountains, deserts etc.

Permanent pasture and other grazing land:- cover all grazing land whether they are permanent pastures and meadows or not any village common grazing land.

Land under: tree crops and groves not included in net area sown includes all cultivable land not included under area sown but put to some agricultural use.

Cultivable waste land :- includes all land available for cultivation but not taken up for cultivation or taken up for cultivation once but not during the last five or more years.

Fallow land: all land which were taken up for cultivation but are temporarily out of cultivation for a period not less than one year and not more than five years.

Net area sown: for computing the net area sown area sown more than once has been counted only once.

HEALTH AND FAMILY WELFARE

Table 27 - Taking into account the attrition due to aging (going out of the reproductive age-group), mortality and in the case of IUD, additional factors of expulsions and removals, the number of couples currently protected by the different methods of family planning as a percentage of the estimated number of eligible couples in the country gives the percentage of couples currently protected.

Table 36- The figures used in this table are from National Accounts Statistics. Total expenditure on health, education, social security & welfare services includes both current and capital expenditure. Current expenditure includes consumption expenditure subsidies, current transfer to local authorities and other current transfer payments. Capital expenditure includes gross fixed capital formation, changes in stocks net investment in shares, capital transfer to local authorities, other capital transfer payments loans and advances to local authorities and domestic sector. The total expenditure excludes local authorities and consumption on fixed capital The expenditure under education, health etc. include expenditure on administration, regulation and research also. Per capita expenditure has been worked out by dividing the total expenditure by mid year (as on 1st Oct.) population.

HOUSING AND TRANSPORT

Table 42- A household is a group of persons who commonly live together and would take their meals from a common kitchen unless the exigencies of work prevented any of them from doing so. There may be a household of persons related by blood or a household of unrelated persons or having a mixed of both. Sample of unrelated households are boarding houses, messes, hotels, residential hotels, rescue homes, jails, asylums etc.. These are called institutional households.

Table 43(a)

- (1) Average size of households = Total population / No. of households
- (2) Average No. of household = No. of living quarters / No. of households residing per living quarter
- (3) Average No. of persons = Total population / Number of living quarters per living quarters

Table 48- Houseless persons are those who were found to live on the roadside pavements, in hume pipes, under the staircases, in the open temples, mandamus, platforms etc. These persons are generally counted on the last day of reference period of the census.

Table 49- Figures in this table are based on the report of the Task Force on Slums constituted by the Town & Country Planning Organization (TCPO). Briefly, following methodology has been followed for working out the slum population :-

In order to achieve a fairly good degree of accuracy the entire urban population in a State was distributed into different size classes of cities/towns on the basis of 1991 census population .

Table 52- Road length per thousand persons has been worked out by dividing the road length figures published by the Ministry of Surface Transport with the annual estimates of population worked out for various years by the office of the Registrar General of India. Similarly the number of registered motor vehicles per thousand has also been worked out in the same manner.

EDUCATION

Table 53- A person who can both read and write with understanding in any language is considered as literate and a person who can merely read but cannot write is taken to be as illiterate. It is not necessary that a person who is literate should have received any formal education or should have passed minimum educational standard. For calculating the literacy rate (literate per 1000 population) the denominator is the corresponding section of the total population. For all ages(both sexes) it is the total population.

Table 55- Gross enrolment ratio measures what percentage of the total population in the relevant age-group is being covered by the various educational programmes being run in the country, i.e.,

$$\text{Gross enrolment ratio at stage I} = \frac{\text{Enrolment at stage I}}{\text{Population in the age group corresponding to the I stage}} \times 100$$

Two stages are: primary (Classes I-V) and middle (Classes VI-VIII).

The corresponding age-group for these stages are 6-11 years and 11-14 years respectively. Therefore, gross enrolment ratio for primary stage (I-V) is

$$\frac{\text{Total Enrolment in Classes I-V}}{\text{Total population in the age group 6-11 years}} \times 100$$

While interpreting these figures it should be noted that there may be many students outside the age-group 6-11 enrolled in classes I-V. Therefore, enrolment ratios in some age groups can be more than 100.

Table 56- This table gives the status of female education at different levels.

Table 58- The pupil-teacher ratio is defined as the average number of students per teacher for a particular type of school, e.g.

$$\text{Pupil-teacher ratio for secondary school} = \frac{\text{Total enrolment in secondary school}}{\text{Total number of teachers in secondary school}}$$

Table 63- Dropout rate in different stages of school education

Dropout rate:

Dropout rate at primary stage during a given year is defined as the ratio of the difference of enrolment in class I in the fourth year preceding and the enrolment in class V during the year to the enrolment in the class I in the fourth year preceding. In mathematical terms, these rates for primary (I-V), middle (I-VIII) and secondary (I-X) stages are defined as:

$$\text{Drop out rates at primary stage (I-V) during year = t} = \frac{\text{Enrolment in class I preceding four years (i.e. year = t-4) minus Enrolment in class V during the year 't'}}{\text{Enrolment in class I preceding four years (i.e. year = t-4)}} \times 100$$

$$\text{Drop out Rates at middle stage(classes I-VIII) during year = t} = \frac{\text{Enrolment in class I preceding 7 years (i.e. year = t-7) minus Enrolment in class VIII during the year 't'}}{\text{Enrolment in class I preceding 7 years (i.e. year = t-7)}} \times 100$$

$$\begin{array}{l} \text{Drop out rates at} \\ \text{secondary stage(classes I-X)} \\ \text{during year = t} \end{array} = \frac{\begin{array}{l} \text{Enrolment in class I preceding} \\ \text{9 Year (i.e. year = t-9) minus} \\ \text{Enrolment in class X during the} \\ \text{year 't'} \end{array}}{\begin{array}{l} \text{Enrolment in class I preceding} \\ \text{9 years (i.e. year = t-9)} \end{array}} \times 100$$

LABOUR AND EMPLOYMENT

Table 77- NSSO surveys have adopted three different approaches to measure employment and unemployment. According to usual status approach, a person is considered as working or employed if he/she is engaged relatively for a longer time, during the reference period of last 365 days in any one or more of the work activities. He/she was considered as seeking or available for work or unemployed if he/she was not working but was either seeking or available for work for a relatively longer period of the specified reference period. According to current weekly status, a person is considered to be employed if he/she pursues any one or more of the gainful activity for atleast one hour on any day of the previous week. On the other hand, if a person does not pursue any gainful activity but has been seeking or available for work, the person is considered as unemployed. According to current daily status, a person is considered as employed for the entire day of the reference period of one week if he/she had worked four hours or more during the day. If he had worked for one hour but less than four hours, he is considered for working as half day and seeking/available for work for other half of the day. If a person is not engaged in any work, even for one hour on the day, but was seeking/available for work for four hours or more, he is considered as unemployed for the entire day. The aggregate of day units, either half or full under different activity categories during the reference week divided by seven provides the estimates of average number of persons days by activity category during an average week over the survey period of one year.

Table 82- The data used in this table are based on the Employment Market Information (EMI) programme of the Directorate General of Employment and Training. The EMI covers on a statutory basis, all establishment in the public sector and all non-agricultural establishments employing 25 persons or more in the private sector. From March 1966, the coverage was increased and establishments employing 10 persons or more in the private sector were added, though on a voluntary basis. The EMI programme does not cover employment in the unorganised sectors like agriculture, self-employed persons and establishments in the private sector employing less than 10 workers.

Table 83- Data given in this table is based on the census of government employees which is conducted every year by the Directorate General of Employment and Training (DGET). The census cover all persons actually holding on the date of census, civilian post in and under the Central Government, whose pay and allowances, honorarium, or any other remuneration etc are paid out of the consolidated fund of India.

1. Regular staff:
 - (i) Permanent employees : One who holds a Central or State Governments post substantively on the date of the census.
 - (ii) Temporary employees: The employees who have not been declared permanent in the post he is holding or in any other substantial post.
2. Non-Regular staff:

This category of employees includes state government employees on deputation to Central Govt., Honorary employees, besides regular work - charged employees, part time employees of the Central Govt. employees paid out of contingencies and whole time or part time employees in Indian embassies and missions abroad including locally recruited staff subject to discharge on not less than one month's notice and employees of ad hoc committees set up by the Central Government.

Indices:

The indices in the table have been worked out for all the years by taking 1971=100 as base both for total (regular & non-regular) and regular employees of the central government.

Table 85- The day to day registration at employment exchanges and notification of vacancies by the employers generate comprehensive information which facilitates the appraisal of the organised labour market. The statistical returns from employment exchanges relating to various characteristics of job seekers fresh or otherwise, and the demand pattern of employment in industry and service sector provide only a broad indication of the unemployment situation in the organised labour market. However, as registration is voluntary and they are located in urban areas, they cannot be deemed to cover all job seekers. Further, there are known deficiencies arising from the fact that not all the registrants would be really without a job. Moreover, the number of job seekers is not necessarily the unemployed persons.

Table 87- Under the Factories Act, information on injuries resulting from industrial accidents by reason of which persons affected are prevented from attending to work for a period of 48 hours or more immediately following the injury are required to be reported to the factory inspectors. For statistical purposes the number of injuries is given by the number of persons receiving injuries as a result of accidents and this number can be more than the actual number of accidents because one accident may result in injuries to more than one person. The data on injuries relate only to the factories submitting returns, as no estimates of injuries can be made for the defaulting factories.

The frequency rate of injuries is calculated by dividing the total number of injuries by the corresponding man-days worked. Incidence rate gives the injuries per thousand persons employed.

Table 88- An industrial dispute is taken to be a temporary stoppage of work by all employees or a group of employees of an establishment to express a grievance or to press a demand. Similarly, temporary withholding of work from a group of employees by an employer or a group of employers (lockout) in

a unit in connection with matters relating to employment or unemployment or terms and conditions of employment is also taken as an industrial dispute. Only those work stoppages which involve 10 or more workers whether directly and /or indirectly are included in these statistics. The figures of man-days lost are obtained by adding up the actual resultant vacancies caused directly and/or indirectly, during work stoppage in each shift of each potential working day (excluding weekly off and other scheduled holidays when the establishment would have remained closed even if no work stoppage had taken place).

INCOME AND CONSUMPTION

Table 89- Household consumption expenditure comprises of all expenditure incurred by the household, exclusively on domestic account, including consumption out of home-grown produce or transfer receipt like gifts, loan etc. The expenditure on household enterprises is excluded from consumer expenditure. While consumption out of transfer receipts is included, transfer payments of all kinds such as loans, gifts, charities in money or in kind like grain loan etc. are excluded. Expenditure on purchase and construction of residential houses are considered to be expenses on capital account and hence are excluded from the consumer expenditure; but the expenditure towards maintenance of residential building is included in the consumer expenditure of the household.

Table 92- Per capita income for a particular year is obtained by dividing the net national product at factor cost by the estimated mid-year population in that year. Since the national income is calculated for the financial year, the estimated population corresponds to mid-financial year i.e. 1st October. The estimates of per capita income corresponding to the new series had been calculated after comprehensive review of both the data base and the methodology employed in the erstwhile old series. Efforts have been made to make use of as much as possible of the current data available through various all-India surveys. Revised procedures and methodological improvements had been adopted to derive the intermediate items. The coverage of the new series had also been enlarged so as to include the state of Sikkim.

Table 93- Percentage of population below the poverty line is worked out by Planning Commission on the basis of quinquennial household consumption expenditure data released by the NSSO the latest being the 55th round (1999-2000). During this survey consumption data on non - durable goods were collected using two different recall reference periods 7 days / 30 days.

PRICES

Table 94 - A Consumer Price Index (CPI) measures changes over time in the general level of prices of goods and services that a population under reference, acquire, use or pay for consumption. In practice a CPI measures the cost of purchasing a representative market basket of goods and services. Four CPIs, namely ; CPI for Industrial Workers, CPI(IW); CPI for Urban Non-Manual Employees CPI(UNME); for Agricultural labours, CPI (AL) and CPI for Rural labourers, CPI (RL), are compiled and released on monthly basis at national level. The CSO releases CPI (UNME), whereas the other three CPIs are brought out by the Labour Bureau. The base year of the current series of CPI (IW) is 1982 and is

compiled for 70 centres and all- India. The base year of both CPI (AL) and CPI (RL) is 1986-87 and is compiled for 20 states and all -India. CPI (UNME), with current base year 1984-85 is released for 59 selected urban centers and all - India. A wholesale Price Index(WPI), with current base 1993-94, is released on a weekly basis by the office of the Economic Adviser, Ministry of Industry, since April 2000.

PUBLIC ORDER AND SAFETY

Table 101- Percentage of cases pending investigation means cases pending investigation at the end of the year to total cases for investigation. Percentage of cases pending trial relates to cases pending trial at the end of the year to total cases for trial. Conviction percentage refers to cases resulting in conviction to total cases for which trials were completed.

Table 102- Earlier Juvenile boys and girls were of the same age group (i.e. below 21 years). Since 1988 Juvenile boys and girls are of different age groups (i.e. boys below 16 years and girls below 18 years)

Table 103- Incidence of suicides per lakh of population has been worked out on the basis of sex-wise estimated annual population supplied by the office of the Registrar General, India.

International Comparisons

Table 104 & 107 - Human Development Index was released for the first time by the UNDP for 30 countries of the world in 1990. The UNDP has defined human development as the process of enlarging people's choices. Income is one of those choices but it does not cover the totality of human life. Health, education, a good physical environment and freedom of action and expression are just as important. The Human Development Index (HDI), therefore, combines indicators of national income, life expectancy and educational attainment to give a composite measure of human progress. To derive the measure mathematically, first a measure of deprivation (I_j) of each indicator

(X_j) relating to the country is defined as follows:-

$$I_j = \frac{(\max X_j - X_j)}{(\max X_j - \min X_j)}$$

Then an average deprivation indicator is estimated by simply taking the average of three deprivation indicators defined above, i.e.

$$I_j = \frac{\sum_{i=1}^3 I_{ij}}{3}$$

and finally, HDI is defined as one minus the average deprivation index,

$$(HDI)_j = (1 - I_j)$$

Gender Empowerment Measure (GEM)

The Gender related Development Index (GDI) measures achievements in the same dimensions and variables as the HDI, but captures inequalities in achievement between women and men. It is simply the HDI adjusted downward for gender inequality. The greater the gender disparity in basic human development, the lower a country's GDI compared with its HDI. The Gender Empowerment Measure (GEM) reveals whether women can take active part in economic and political life. It focuses on participation, measuring gender inequality in key areas of economic and political participation and decision making. It tracks the percentages of women in parliament, among administrators and managers and among professional and technical workers- and women's earned income as a percentage of men's. Differing from the GDI, it exposes inequality in opportunities in selected areas.

व्याख्यात्मक टिप्पणियां

जनसंख्या

तालिका 4- तीन प्रकार के वृद्धि दरों की गणना निम्नवत की गई है:-
वार्षिक अंकगणितीय वृद्धि दर

$$(r_a) = \frac{P_{t+10} - P_t}{P_t} \times \frac{1}{10}$$

वार्षिक ज्यामितीय वृद्धि दर

$$(r_g) = \text{antilog} \left[\frac{1}{10} (\log P_{t+10} - \log P_t) \right] - 1$$

वार्षिक घातीय वृद्धि दर

$$(r_e) = \frac{[\log P_{t+10} - \log P_t]}{10}$$

जहां पर P_t = आरंभिक जनसंख्या

P_{t+10} = 10 वर्षों के बाद की जनसंख्या

तालिका 5 -

$$\text{वृद्धि दर} = \frac{1}{10} \left\{ \frac{(P_{t+10} - P_t)}{P_t} \times 100 \right\}$$

तालिका 6- एक शहरी क्षेत्र को निम्नवत परिभाषित किया गया है:-

- (क) सभी वैधानिक नगर अर्थात् किसी नगरपालिका, निगम, नगर बोर्ड, छावनी बोर्ड अथवा अधिसूचित नगर क्षेत्र समिति आदि के अंतर्गत सभी स्थान ।
- (ख) अन्य सभी स्थान जो निम्नलिखित मानदण्ड को पूरा करते हैं
- (i) 5000 की न्यूनतम जनसंख्या
 - (ii) गैर-कृषि व्यवसाय में लगी हुई कम से कम 75% पुरुष कार्यरत जनसंख्या;
 - (iii) कम से कम 400 व्यक्ति प्रति वर्ग कि.मी (1000 प्रति वर्ग मील) की जनसंख्या का घनत्व

वर्ष 1981 का शहरी मानदण्ड वर्ष 1961 और 1971 की जनगणनाओं से थोड़ा भिन्न है, जिसमें मत्स्यन, लोगिंग आदि

जैसे कार्यकलापों में कार्यरत पुरुषों को गैर-कृषि कार्यकलापों में कार्यरत माना गया था, जबकि 1981 में उनको किसानों और कृषि श्रमिकों के बराबर माना गया था। वर्ष 1991 की जनगणना में अपनाई गई परिभाषा 1981 की जनगणना के समान थी।

तालिका 10- अनुसूचित जातियों (एससी) और अनुसूचित जनजातियों (एसटी) के वैधानिक सूचियों को भारतीय संविधान के अनुच्छेद 341 और 342 के अनुसरण में अधिसूचित किया गया है। इन सूचियों को समय-समय पर रूपान्तरित, संशोधित अथवा संपूरित किया गया है। वर्ष 1951 की जनगणना से आगे जनसंख्या प्रश्नावलियों में यह सुनिश्चित करने कि क्या प्रतिवादी अनु० जाति अथवा अनु० जन जाति से संबंधित है और यदि हाँ, तो उस जाति का नाम जिससे वह (पु०)/वह (स्त्री०) संबंधित है, के लिए जाति की मदें अन्तर्विष्ट हैं।

तालिका 11- जनसंख्या घनत्व को प्रति वर्ग कि.मी. व्यक्तियों की संख्या के रूप में परिभाषित किया गया है।

तालिका 12- लिंग अनुपात को जनसंख्या में प्रति हजार पुरुषों पर महिलाओं की संख्या के रूप में परिभाषित किया गया है।

तालिका 14- किसी व्यक्ति को प्रवासी तभी माना जाता है यदि उसकी गणना (गांव/नगर) पिछले (पूर्व) प्रायिक निवास से भिन्न है। जनसंख्या के उद्देश्य के लिए प्रायिक निवास उसको माना जाता है जिसमें व्यक्ति छः माह अथवा इससे अधिक अवधि से लगातार रह रहा हो। तथापि, विवाहित महिलाओं (छः माह से कुछ अधिक समय से रह रही) का बच्चे को जन्म देने अथवा किसी अन्य कारण से अपने माता-पिता के घर में जाना प्रवासीय गतिविधि नहीं मानी गई है। पुनः उसी नगर अथवा गांव के अंतर्गत एक स्थान से दूसरे स्थान पर जाने को भी प्रवास नहीं माना गया है।

तालिका 16- महापंजीयक की प्रतिदर्श पंजीकरण प्रणाली एक दोहरी अभिलेख प्रणाली है जिसका प्राथमिक उद्देश्य ग्रामीण और शहरी क्षेत्रों के लिए जन्म और मृत्यु दरों के विश्वसनीय अनुमान उपलब्ध करवाना है। क्षेत्र संकायों में स्थानीय अंश-कालिक गणनाकारों द्वारा लगातार गणना किया जाना शामिल है। पर्यवेक्षण स्टाफ, जो पूर्ण कालिक हैं, छः माह में एक बार उन अनिवार्य विषयों को एक स्वतंत्र सैट प्राप्त करने के लिए एक अनुदर्शी सर्वेक्षण आयोजित करते हैं जो तब सुमेलित किए गए। असुमेलित और अंशतः सुमेलित विषयों को क्षेत्र में पुनः सत्यापित किया जाता है।

अशोधित जन्म दर (सीबीआर) को किसी दिए गए वर्ष में प्रति हजार जनसंख्या पर जीवित जन्मों की संख्या के रूप में परिभाषित किया गया है।

अशोधित मृत्यु दर (सीडीआर) को किसी दिए गए वर्ष में प्रति हजार जनसंख्या पर मृत्यु की संख्या के रूप में परिभाषित किया गया है।

प्राकृतिक वृद्धि दर अशोधित जन्म दर- अशोधित मृत्यु दर।

तालिका 17- आयु विशिष्ट-मृत्युदर को किसी दिए गए वर्ष में उसी आयु-समूह में प्रति हजार जनसंख्या पर विशिष्ट आयु-समूह में मृत्यु की संख्या के रूप में परिभाषित किया गया है।

तालिका 18- आयु-विशिष्ट जननक्षमता (जन्म) दर को उसी आयु-समूह की प्रति हजार महिला जनसंख्या पर महिलाओं के किसी विशिष्ट आयु-समूह में जीवित जन्मों की संख्या के रूप में परिभाषित किया गया है।

तालिका 19- शिशु मृत्यु दर जीवन के पहले वर्ष में मृत्यु दर की माप से संबंधित है और यह आयु के एक वर्ष के अंतर्गत मृत्यु की संख्या को 1000 जीवित जन्मों की वार्षिक संख्या से सम्बद्ध करके परिकलित की जाती है।

तालिका 21- जन्म पर जीवन प्रत्याशा जन्म के समय जीवित रहने के संभावित वर्षों की औसत संख्या है यदि चालू मृत्यु दर प्रवृत्ति जारी रहे।

तालिका 22- इस तालिका में दिए गए आंकड़े प्राथमिक स्वास्थ्य केन्द्र (पीएचसी) वाले चयनित प्रतिदर्श (नमूना) गांवों में महा पंजीयक के कार्यालय द्वारा लगातार आयोजित सर्वेक्षण पर आधारित हैं। यह क्षेत्र कार्य के लिए चयनित प्राथमिक स्वास्थ्य केन्द्रों के पराचिकित्सा कार्मिकों को नियोजित करने की सूचना देते हुए ले डायग्नोसिस की तकनीकी अपनाता है। वर्ष 1993 के दौरान 1407 प्रा0स्वा0के0 गाँव कवर किए गए थे जिन्होंने 29597 मौतों की सूचना दी थी। यह सर्वेक्षण वर्तमान में अण्डमान और निकोबार, चण्डीगढ़, दमन व द्वीप, लक्षद्वीप, मिजोरम और सिक्किम में कार्यान्वित नहीं किया जा रहा है।

पर्यावरण

तालिका 23- प्रति व्यक्ति उपलब्ध वन भूमि को संबंधित वर्ष के लिए कृषि मंत्रालय द्वारा प्रदत्त वन भूमि क्षेत्र को जनसंख्या आंकड़ों द्वारा बाँटकर निकाली गई है। कृषि मंत्रालय द्वारा स्थायी चरागाह और अन्य चरागाह भूमि विविध पेड़ फसलों और उपवनों के अंतर्गत दिए गए आंकड़ों को निबल बोए गए क्षेत्र में शामिल नहीं किया गया है क्योंकि कृषि योग्य बंजर भूमि, परती भूमि और निबल बोए गए क्षेत्रों को कुल कृषि भूमि को प्राप्त करने के लिए जोड़ दिया गया है। इसे ग्रामीण क्षेत्रों में प्रत्येक व्यक्ति के लिए कृषि भूमि की औसत उपलब्धता के लिए ग्रामीण जनसंख्या आंकड़ों द्वारा विभाजित किया गया है।

तालिका 24- यह तालिका भूमि उपयोग द्वारा सूचित कुल क्षेत्र के प्रतिशत वितरण से संबंधित आंकड़े प्रस्तुत करती है। भूमि उपयोग की विभिन्न श्रेणियाँ निम्न प्रकार से है -

वन:- इसमें वस्तुतः वन के अंतर्गत आने वाले क्षेत्र अथवा वर्गीकृत भूमि अथवा किसी विधायी अध्यादेश द्वारा वन के रूप में दी गई भूमि शामिल है।

कृषि के लिए उपलब्ध नहीं- वह भूमि जो कृषि के लिए पूरी तरह से ऊसर है अथवा कृषि योग्य नहीं है अथवा इमारतों, दीवारों, सड़कों, रेलमार्गों, पर्वतों, मरुस्थलों आदि से घिरी हुई है।

स्थायी चरागाह अथवा अन्य चरागाह भूमि:- इसमें उन सभी चरागाह भूमियों को शामिल किया गया जो वे स्थायी, चरागाह और घास के मैदान हैं अथवा गांव को कोई भी आम चरागाह भूमि नहीं है।

निबल बुआई अधीन क्षेत्र में शामिल नहीं की गई वृक्ष फसलों और उपवनों के अधीन भूमि में बुआई अधीन क्षेत्र में शामिल नहीं की गई किन्तु किसी कृषि कार्य में उपयोग की गई भूमि शामिल है।

कृषि योग्य (कृष्य) बंजर भूमि:- इसमें कृषि के लिए उपलब्ध सभी प्रकार की भूमि किन्तु कृषि के लिए उपयोग नहीं की गई अथवा कृषि के लिए एक बार उपयोग की गई भूमि किन्तु पिछले पांच वर्षों अथवा इससे अधिक वर्षों से कृषि के लिए उपयोग नहीं की गई भूमि शामिल है।

परती भूमि:- सभी भूमि जो कृषि के लिए उपयोग की गई थी किन्तु एक वर्ष से कम और पांच वर्ष से ज्यादा अवधि के लिए जिस पर अस्थायी रूप से कृषि नहीं की जा रही है।

निबल बोया गया क्षेत्र:- निबल बोए गए क्षेत्र का परिकलन करने के लिए एक से अधिक बार बोए गए क्षेत्र की गणना केवल एक ही बार की जाती है ।

स्वास्थ्य और परिवार कल्याण

तालिका 27- वृद्धावस्था, (प्रजनक आयु समूह से बाहर आकर), मृत्यु दर के कारण जीर्णता (एट्रीशन) को ध्यान में रखते हुए और आईयूडी, निकासनों और बरखास्तगी के अतिरिक्त घटकों के मामले में देश में पात्र दम्पतियों की अनुमानित संख्या के प्रतिशत के रूप में वर्तमान में परिवार नियोजन के विभिन्न तरीकों द्वारा संरक्षित दम्पतियों की संख्या वर्तमान में संरक्षित दम्पतियों का प्रतिशत मुहैया करवाती है ।

तालिका 36- इस तालिका में उपयोग किया गए आंकड़े राष्ट्रीय लेखा सांख्यिकी से लिए गए हैं । स्वास्थ्य, शिक्षा, सामाजिक सुरक्षा और कल्याण सेवाओं के कुल खर्च में चालू और पूंजीगत खर्च दोनों ही शामिल हैं । चालू खर्च में उपभोग खर्च सब्सिडियां, स्थानीय प्राधिकरणों को चालू हस्तांतरण और अन्य चालू हस्तांतरण भुगतान शामिल हैं । पूंजीगत खर्च में सकल निर्धारित पूंजी निर्माण स्टॉकों में परिवर्तन, शेरों में निबल निवेश, स्थानीय प्राधिकरणों को पूंजीगत हस्तांतरण, अन्य पूंजीगत हस्तांतरण भुगतान, स्थानीय प्राधिकरणों और घरेलू क्षेत्र को ऋण और अग्रिम शामिल हैं । कुल खर्च में स्थानीय प्राधिकरण और निर्धारित पूंजीगत उपभोग शामिल नहीं है । शिक्षा, स्वास्थ्य आदि के खर्च में प्रशासन, नियंत्रण और अनुसंधान के खर्च भी शामिल हैं । प्रति व्यक्ति खर्च मध्य वर्ष (1 अक्टूबर को) जनसंख्या द्वारा कुल खर्च को विभाजित करके निकाला गया है ।

आवास और परिवहन

तालिका 42- एक परिवार उन व्यक्तियों का समूह है जो सामान्यतः साथ रहते हैं और जिन्हें एक ही रसोई से भोजन मिलता है जब तक कि कार्य की अत्यावश्यकताएं उनमें से किसी को भी ऐसा करने से न रोके । परिवार खून से संबंधित व्यक्तियों अथवा खून से संबंध नहीं रखने वाले व्यक्तियों अथवा दोनों से मिलकर बना हुआ हो सकता है । बोर्डिंग हाऊस, मेस, हॉटल, आवसीय हॉटल, रेस्क्यू होम, जेल, एसीलम आदि रिश्ता न रखने वाले परिवारों का नमूना है । ये सांस्थानिक परिवार कहलाते हैं ।

तालिका 43 (अ) -

- (1) Average size of households = Total population / No. of households
- (2) Average No. of households = No. of living quarters / No. of households residing per living quarter
- (3) Average No. of persons = Total population / Number of living quarters per living quarter

तालिका 48- आवसहीन व्यक्ति वे होते हैं जो सड़क किनारे पटरियों पर, हम्स पाईयों में, सीढ़ियों के नीचे, खुले मंदिरों में, मैणुमसों, प्लेटफार्मा आदि पर रहते हुए पाए जाते हैं । सामान्तया जनगणनाओं की संदर्भ अवधि के अंतिम दिन इन व्यक्तियों की गणना की जाती है ।

तालिका 49- इस तालिका में आंकड़े नगर और देश आयोजना संगठन (टीसीपीओ) द्वारा गठित झुग्गी-झोपड़ी संबंधी कार्य बल की रिपोर्ट पर आधारित हैं । संक्षेप में झुग्गी-झोपड़ी की जनसंख्या को निकालने के लिए निम्नलिखित पद्धति का अनुपालन किया गया है:-

पूर्णरूप से अच्छी यथार्थता की डिग्री प्राप्त करने के उद्देश्य से एक राज्य में समग्र शहरी जनसंख्या को 1991 की जनगणना की जनसंख्या के आधार पर शहरों/नगरों के विभिन्न साईज के वर्गों में विभाजित किया गया था ।

तालिका 52- प्रति हजार पुरुषों के लिए सड़क की लम्बाई, भूतल परिवहन मंत्रालय द्वारा प्रकाशित सड़क लम्बाई आंकड़ों को भारत के महापंजीयक कार्यालय द्वारा, विभिन्न वर्षों के लिए निकाली गए जनसंख्या के वार्षिक अनुमानों के साथ विभाजित करके निकाली गई है। इसी प्रकार प्रति हजार पंजीकृत मोटर वाहनों की संख्या भी इसी तरीके से निकाली गई है।

शिक्षा

तालिका 53- कोई ऐसा व्यक्ति, जो किसी भाषा समझबूझ के साथ पढ़ और लिख सकता हो तो उसे साक्षर माना जाता है और कोई ऐसा व्यक्ति जो सिर्फ पढ़ सकता है किन्तु लिख नहीं सकता हो तो उसे असाक्षर माना जाता है। यह आवश्यक नहीं है कि कोई ऐसा व्यक्ति, जो साक्षर है, ने कोई औपचारिक शिक्षा प्राप्त कर रखी है अथवा न्यूनतम शैक्षणिक स्तर उत्तीर्ण कर लिया है। साक्षरता दर (प्रति हजार जनसंख्या पर साक्षर) की गणना करने के लिए डिनोमीनेटर कुल जनसंख्या का सदृश हिस्सा है। सभी उम्रों (दोनों लिंग) के लिए यह कुल जनसंख्या है।

तालिका 55- सकल नामांकन अनुपात यह मूल्यांकन करता है कि देश में चलाए जा रहे विभिन्न शैक्षणिक कार्यक्रमों द्वारा संगत आयु-समूह में कुल जनसंख्या का कितना प्रतिशत कवर किया जा रहा है, अर्थात्

$$\text{चरण I में सकल नामांकन} = \frac{\text{चरण I में नामांकन}}{\text{चरण I से संबंधित समूह में जनसंख्या}} \times 100$$

दो चरण निम्नवत हैं:- प्राईमरी (कक्षा I-V) और मिडिल (कक्षा VI-VIII)

इन चरणों के लिए संगत आयु-समूह क्रमशः 6-11 वर्ष और 11-14 वर्ष हैं। इसलिए प्राईमरी चरण (I-V) के लिए सकल नामांकन अनुपात इस प्रकार है:-

$$\frac{\text{कक्षा I-V में कुल नामांकन}}{\text{6-11 वर्ष के आयु-समूह में कुल जनसंख्या}} \times 100$$

इन आंकड़ों की व्याख्या करते समय यह नोट किया जाए कि कक्षा I-V में नामांकित आयु-समूह 6-11 वर्ष के बाहर भी बहुत से विद्यार्थी हो सकते हैं। इसलिए कुछ आयु-समूहों में नामांकन अनुपात 100 से भी अधिक हो सकता है।

तालिका 56- यह तालिका विभिन्न स्तरों पर महिला शिक्षा की स्थिति को बताती है।

तालिका 58- शिष्य-गुरु अनुपात को किसी विशेष विद्यालय के लिए प्रति गुरु विद्यार्थियों की औसत संख्या के रूप में परिभाषित किया गया है, अर्थात्

$$\text{शिष्य-गुरु अनुपात} = \frac{\text{माध्यमिक विद्यालय में कुल नामांकन}}{\text{माध्यमिक विद्यालय में गुरुओं की कुल संख्या}}$$

ड्रॉप आऊट दर:

किसी दिए गए वर्ष के दौरान प्राथमिक स्टेज में ड्रॉप आऊट दर को चौथे वर्ष से पहले कक्षा ४ में नामांकन की तुलना में पूर्वगत चौथे वर्ष में कक्षा ४ में नामांकन तथा इस वर्ष के दौरान कक्षा V में नामांकन के अन्तर के अनुपात के रूप में परिभाषित किया गया है। गणितीय भाषा में प्राइमरी (I-V) मिडिल (I-VIII) और सैकण्ड्री (I-X) चरणों के लिए ये दरें निम्नवत परिभाषित की गयी हैं:-

$$\text{Drop out rates at primary stage (I-V) during year = t} = \frac{\text{Enrolment in class I preceding four years (i.e. year = t-4) minus Enrolment in class V during the year 't'}}{\text{Enrolment in class I preceding four years (i.e. year = t-4)}} \times 100$$

$$\text{Drop out Rates at middle stage(classes I-VIII) during year = t} = \frac{\text{Enrolment in class I preceding 7 years (i.e. year = t-7) minus Enrolment in class VIII during the year 't'}}{\text{Enrolment in class I preceding 7 years (i.e. year = t-7)}} \times 100$$

$$\text{Drop out rates at secondary stage(classes I-X) during year = t} = \frac{\text{Enrolment in class I preceding 9 Year (i.e. year = t-9) minus Enrolment in class X during the year 't'}}{\text{Enrolment in class I preceding 9 years (i.e. year = t-9)}} \times 100$$

श्रम और रोजगार

तालिका 77- रा.प्र.स.सं. के सर्वेक्षणों ने रोजगार और बेरोजगारी को मापने के लिए तीन अलग-अलग दृष्टिकोण अपनाए हैं। प्रारंभिक स्थिति के दृष्टिकोण के अनुसार किसी व्यक्ति को कार्यरत अथवा रोजगाररत तब माना जाता है यदि वह पु0/स्त्री0 विगत 365 दिनों की संदर्भ अवधि के दौरान किसी एक अथवा अधिक कार्य गतिविधियों में एक लम्बी अवधि के लिए अपेक्षाकृत रूप से कार्यरत रहा हो। वह (पु0)/ वह (स्त्री0) कार्य के लिए चाहा गया अथवा उपलब्ध अथवा बेरोजगार माना गया/गई/था/थी यदि वह (पु0)/ वह (स्त्री0) कार्यरत नहीं था किन्तु विनिर्दिष्ट संदर्भ अवधि की अपेक्षाकृत लम्बी अवधि के लिए या तो कार्य की चाहत में था अथवा कार्य के लिए उपलब्ध था। वर्तमान साप्ताहिक स्थिति के अनुसार, किसी व्यक्ति को रोजगार में कार्यरत तब माना जाता है यदि वह (पु0)/ वह (स्त्री0) पिछले सप्ताह के किसी दिन कम से कम एक घण्टे के लिए किसी एक अथवा अधिक लाभकारी कार्यकलाप की तलाश में रहा हो/रही हो। दूसरी ओर, यदि कोई व्यक्ति लाभकारी कार्यकलाप की तलाश में नहीं रहता है किन्तु कार्य करने का इच्छुक हो अथवा कार्य के लिए उपलब्ध हो तो उस व्यक्ति को बेरोजगार माना जाता है। वर्तमान दैनिक स्थिति के अनुसार किसी व्यक्ति को एक सप्ताह की संदर्भ अवधि के पूरे दिन के लिए रोजगाररत तब माना जाता है यदि उसने उस दिन चार घण्टे अथवा अधिक के लिए कार्य किया हो। यदि उसने एक घण्टे किन्तु चार घण्टे से कम के लिए कार्य किया तो उसे आधे दिन के लिए कार्यरत माना जाता है और

दूसरे दिन के भाग के लिए कार्य के लिए इच्छुक था, कार्य के लिए उपलब्ध माना जाता है। यदि कोई व्यक्ति उस दिन एक घण्टे के लिए भी किसी कार्य में नहीं लगा हुआ है किन्तु-चार घण्टे और अधिक के लिए कार्य करने का इच्छुक था, कार्य के लिए उपलब्ध था तो वह पूरे दिन के लिए बेरोजगार माना जाता है। सात से विभाजित संदर्भ सप्ताह के दौरान विभिन्न गतिविधि श्रेणियों के अंतर्गत या तो आधी अथवा पूरी दिन इकाइयों का पूर्णयोग एक वर्ष की सर्वेक्षण अवधि से अधिक किसी औसत सप्ताह के दौरान गतिविधि श्रेणी द्वारा व्यक्ति दिवसों की औसत संख्या के अनुमान उपलब्ध करवाता है।

तालिका 82- इस तालिका में उपयोग किए गए आंकड़े रोजगार और प्रशिक्षण महानिदेशालय के रोजगार बाजार सूचना (ईएमआई) कार्यक्रम पर आधारित हैं। ईएमआई वैधानिक आधार पर सार्वजनिक क्षेत्र की सभी स्थापनाओं और निजी क्षेत्र में 25 व्यक्तियों अथवा इससे अधिक को रोजगार में लगाए हुए सभी गैर-कृषि स्थापनाओं को कवर करता है। मार्च 1966 से कवरेज बढ़ गई थी और निजी क्षेत्र 10 व्यक्तियों अथवा अधिक को रोजगार में लगाने वाले स्थापनाओं को जोड़ा गया। यद्यपि ये स्वैच्छिक आधार पर जोड़ी गई थी। ईएमआई कार्यक्रम कृषि, स्व-रोजगाररत व्यक्तियों जैसे असंगठित क्षेत्रों और 10 श्रमिकों से कम को रोजगार में रखते हुए निजी क्षेत्र में स्थापनाओं को कवर नहीं करता है।

तालिका 83- इस तालिका में दिए गए आंकड़े रोजगार और प्रशिक्षण महा निदेशक (डीजीईटी) द्वारा प्रति वर्ष आयोजित सरकारी कर्मचारियों की परिगणना पर आधारित हैं। यह परिगणना उन सभी व्यक्तियों को कवर करती है जो परिगणना की तारीख को केन्द्र सरकार में और केन्द्र सरकार के अंतर्गत ऐसी सिविलियन पोस्ट वास्तव में धारित करते हों जिसका वेतन और भत्ते, मानदेय अथवा अन्य कोई पारिश्रमिक आदि भुगतान भारत की संचित निधि से किया जाता है।

1. नियमित स्टाफ:

- (i) स्थायी कर्मचारी:- वह व्यक्ति जो मूल रूप से परिगणना की तारीख को केन्द्र अथवा राज्य सरकार का स्थायी पद धारण करता हो।
- (ii) अस्थायी कर्मचारी:- वे कर्मचारी जिस पद पर वे कार्यरत हैं अथवा किसी अन्य मूल पद पर स्थायी घोषित नहीं किए गए हैं।

2. अनियमित स्टाफ:-

कर्मचारी की इस श्रेणी में केन्द्र सरकार में प्रतिनियुक्ति पर राज्य सरकार के कर्मचारी, अवैतनिक कर्मचारी नियमित वर्क-चाई कर्मचारियों के अलावा, केन्द्र सरकार के अंश कालिक कर्मचारी, आकस्मिक निधि से भुगतान किए जाने वाले कर्मचारी स्थानीय रूप से भर्ती किए जाने वाले कर्मचारी बशर्ते कि उनकी एक माह से कम की सूचना पर डिस्चार्ज किया जाए, सहित विदेशों में भारतीय दूतावासों और मिशनों में पूर्ण कालिक अथवा अंश कालिक कर्मचारी और केन्द्र सरकार द्वारा स्थापित तदर्थ समिति के कर्मचारी शामिल हैं।

सूचकांक:

तालिका में दिए गए सूचकांकों को केन्द्र सरकार के कुल (नियमित और अनियमित) तथा नियमित कर्मचारियों के लिए 1971उ100 को सभी वर्षों के लिए आधार के रूप में लेकर निकाला गया है।

तालिका 85- नियोक्ताओं द्वारा रोजगार केन्द्रों में दैनिक पंजीकरण और रिक्तियों की अधिसूचना व्यापक सूचना सृजित करती है जो संगठित श्रम बाजार के मूल्यांकन की सुविधा प्रदान करती है। नया अथवा अन्यथा रूप से रोजगार चाहने वालों की विभिन्न विशिष्टताओं से संबंधित रोजगार केन्द्रों से सांख्यिकीय विवरणियों, और उद्योग तथा सेवा क्षेत्र में रोजगार की मांग प्रणाली संगठित श्रम बाजार में बेरोजगारी की स्थिति का केवल मात्र विस्तृत संकेत देते हैं। तथापि, पंजीकरण

स्वैच्छिक हैं और वे शहरी क्षेत्रों में अवस्थित हैं अतः उनसे सभी रोजगार चाहने वालों को कवर करने की अपेक्षा नहीं की जा सकती है। इसके अलावा, इस तथ्य से उभरती हुई अभिज्ञात कमियां भी हैं कि वास्तव में सभी पंजीकृत उम्मीदवार रोजगार रहित नहीं होंगे। इसके अतिरिक्त रोजगार चाहने वालों की संख्या अवरूपेण बेरोजगार व्यक्तियों की संख्या नहीं है।

तालिका 87- फ़ैक्टरी अधिनियम के अंतर्गत औद्योगिक घटनाओं के परिणामस्वरूप लगी चोटों की जानकारी जिसके कारण प्रभावित व्यक्ति को घटना के तुरन्त बाद 48 घण्टे अथवा इससे अधिक की अवधि के लिए कार्य करने से रोका जाता है, की रिपोर्ट फ़ैक्टरी निरीक्षकों को दी जानी अपेक्षित है। सांख्यिकीय उद्देश्यों के लिए चोटों की संख्या दुर्घटनाओं के परिणामस्वरूप चोट खाए हुए व्यक्तियों की संख्या से दी जाती है और यह संख्या दुर्घटनाओं की वास्तविक संख्या से अधिक हो सकती है क्योंकि दुर्घटना में एक से अधिक व्यक्तियों को भी चोट लग सकती है। चोटों संबंधी आंकड़े विवरणियां प्रस्तुत करने वाली फ़ैक्टरियों से ही संबंधित होते हैं क्योंकि चोटों का कोई भी अनुमान चूककर्ता फ़ैक्टरियों के लिए नहीं लगाया जा सकता है।

चोटों की आवृत्ति दर की गणना कार्य किए गए संगत श्रम दिनों द्वारा चोटों की कुल संख्या को विभाजित करके निकाली जाती है। दुर्घटना-दर रोजगारस्त प्रति हजार व्यक्तियों की चोटों को दर्शाती है।

तालिका 88- किसी औद्योगिक विवाद को एक स्थापना के सभी कर्मचारियों अथवा कर्मचारियों के एक समूह द्वारा शिकायत का बखान करने अथवा मांग पर जोर देने के लिए कार्य का एक अस्थायी अवरोध होना माना जाता है। इसी प्रकार, रोजगार अथवा बेरोजगारी अथवा रोजगार की शर्तों से संबंधित किसी इकाई में किसी नियोक्ता अथवा नियोक्ताओं के समूह द्वारा कर्मचारियों के समूह द्वारा कार्य को अस्थायी रूप से रोक देने को भी औद्योगिक विवाद माना जाता है। केवल उन कार्य अवरोधों जिनमें या तो प्रत्यक्षतः और अथवा अप्रत्यक्षतः 10 अथवा इससे अधिक श्रमिक कार्यरत होते हैं, को इन आंकड़ों में शामिल किया जाता है। लुप्त श्रम-दिनों के आंकड़े, प्रत्येक पोर्टेशियल कार्य दिवस (साप्ताहिक पुष्टियों और अन्य अनुसूचित अवकाश दिवसों, जिनको प्रतिष्ठान बंद रहा हो चाहे कोई भी कार्य अवरोध नहीं हुआ हो, को छोड़ कर) की प्रत्येक शिफ्ट में कार्य अवरोध के दौरान प्रत्यक्षतः और/अथवा अप्रत्यक्षतः सृजित रिक्तियों को जोड़ कर प्राप्त किए जाते हैं।

आय और उपभोग

तालिका 89- परिवार उपभोग खर्च में परिवार द्वारा घर से तैयार उत्पाद अथवा उपहार, ऋण आदि जैसी हस्तांतरण प्राप्तियों में से उपभोग को मिलाकर पूरी तरह से घरेलू मामलों पर किए गए सभी खर्च शामिल हैं। परिवार उपक्रमों पर खर्च को उपभोक्ता खर्च से अलग रखा गया है। जबकि हस्तांतरण प्राप्तियों पर उपभोग को शामिल किया गया है, ऋण, उपहार, मुद्रा और वस्तु जैसे ग्रेन लोन आदि में चैरिटी जैसे सभी प्रकार के हस्तांतरण भुगतान को अलग रखा गया है। आवासीय मकानों की खरीद और निर्माण पर खर्च को पूंजी खाते पर हुआ खर्च माना जाना है। और इस प्रकार इसे उपभोक्ता खर्च से अलग रखा गया है। किन्तु आवासीय इमारतों के रख-रखाव पर हुए खर्च को परिवार के खर्च में शामिल किया गया है।

तालिका 92 - किसी विशेष वर्ष के लिए प्रति-व्यक्ति आय, कारक लागत पर निबल राष्ट्रीय उत्पाद को उसी वर्ष में अनुमानित मध्य-वर्ष जनसंख्या द्वारा विभाजित करके प्राप्त किया जाता है। चूंकि वित्तीय वर्ष के लिए राष्ट्रीय आय की गणना की जाती है अतः अनुमानित जनसंख्या, मध्य-वित्तीय वर्ष अर्थात् 1 अक्टूबर से संबंधित है। नई श्रृंखलाओं से संबंधित प्रति व्यक्ति आय के अनुमानों की गणना, तत्कालीन पुरानी श्रृंखला में अपनाई गई पद्धति और दोनों आंकड़ों आधारों की व्यापक समीक्षा के बाद की गई है। विभिन्न अखिल भारतीय सर्वेक्षणों के जरिए उपलब्ध वर्तमान आंकड़ों का यथासंभव उपयोग करने के प्रयास किए गए हैं। मध्यवर्ती मदों को प्राप्त करने के लिए संशोधित पद्धतियां और क्रमबद्ध संशोधनों को अपनाया गया। नई श्रृंखलाओं की कवरेज को भी बढ़ाया गया है ताकि सिक्किम राज्य को भी मिलाया जा सके।

तालिका 93- गरीबी रेखा से नीचे की जनसंख्या का प्रतिशत योजना अयोग द्वारा रा.प्र.स.सं. की स्विचिण्क्वेनियल सर्वे ऑन कन्ज्यूमर एक्सपेंडीचर, में जारी परिवार उपभोग खर्च आंकड़ों के आधार पर निकाला जाता है ।

मूल्य

तालिका 94- एक उपभोक्ता मूल्य सूचकांक (सीपीआई) वस्तुओं और उन सेवाओं जिनको कोई जनसंख्या संदर्भ के अंतर्गत अधिगृहीत, उपयोग अथवा उपभोग के लिए भुगतान करती है, के सामान्य स्तर में समय के बदलावों को मापता है । साधारणतया एक सीपीआई वस्तुओं और सेवाओं की एक रिप्रेजेंटेटिव मार्केट वास्केट खरीदने के लिए लागत को मापता है । औद्योगिक श्रमिकों के लिए उ०मू०सू०, उ०मू०सू० (औ० क्र०) शहरी गैर-श्रमिक कर्मचारियों उ०मू०सू०, (श० गैर श्र० क्र०) कृषि श्रमिकों के लिए (कृ० श्र०) और ग्रामीण श्रमिकों के लिए उ०मू०सू०, उ०मू०सू० (ग्रा० श्र०), नामक चार उ०मू०सू० राष्ट्रीय स्तर पर मासिक आधार पर संकलित और जारी की जाती हैं । के.सां.सं. उ०मू०सू० (श० गैर श्र०) को जारी करता है जबकि अन्य तीन सीपीआई श्रम ब्यूरो द्वारा प्रकाशित किए जाते हैं । उ०मू०सू० (औ० क्र०) के लिए वर्तमान श्रृंखला 1982 है और यह 70 केन्द्रों और अखिल भारत के लिए संकलित किया जाता है । उ०मू०सू० (कृ० श्र०) और उ०मू०सू० (ग्रा० श्र०) के लिए आधार वर्ष 1986-87 है और यह राज्यों और अखिल-भारत के लिए संकलित किया जाता है । उ०मू०सू० (श० गैर श्र० क्र०) का आधार वर्ष 1984-85 है और यह चयनित केन्द्रों और अखिल भारत के लिए जारी किया जाता है । वर्ष 1993-94 के आधार पर एक थोक मूल्य सूचकांक (थो०मू०सू०) भी आर्थिक सलाहकार, उद्योग मंत्रालय द्वारा अप्रैल, 2000 से दो सप्ताह के समय अन्तराल पर साप्ताहिक आधार पर जारी किया जाता है ।

सार्वजनिक आदेश एवं सुरक्षा

तालिका 101- लंबित जांचों के मामलों में प्रतिशत का मतलब है जांच के लिए कुल मामलों पर वर्ष के अंत में लंबित जांच मामले । लंबित मुकदमों में मामलों का प्रतिशत मुकदमों के लिए कुल मामलों पर वर्ष के अंत में लंबित मुकदमों के मामलों से संबंधित हैं । दोषसिद्धि प्रतिशत उन कुल मामलों जिनके लिए जांच पूर्ण कर ली गई है, पर दोषसिद्धि होने वाले मामलों से संबंधित हैं ।

तालिका 102- पूर्व में वयस्क लड़के और लड़कियां एक ही आयु समूह (अर्थात् 21 वर्ष से कम में) थे । चूंकि 1988 से वयस्क लड़के और लड़कियां विभिन्न आयु समूहों (अर्थात् लड़के 16 वर्ष से कम के और लड़कियां 18 वर्ष से कम की) के हैं ।

तालिका 103- प्रति लाख जनसंख्या पर आत्महत्या की घटनाओं के आधार को भारत के महापंजीयक का कार्यालय द्वारा भेजी गई लिंगवार अनुमानित वार्षिक जनसंख्या के आधार पर निकाला गया है ।

अंतर्राष्ट्रीय तुलनाएं

तालिका 104 और 107- मानव विकास सूचकांक पहली बार यूएनडीपी द्वारा 1990 में विश्व के 30 देशों के लिए जारी किया गया था । यूएनडीपी ने मानव विकास को लोगों की पसन्द को बढ़ाने वाली प्रक्रिया के रूप में परिभाषित किया है । आय उन पसंदों में से एक है लेकिन यह मानवजीवन की समग्रता को कवर नहीं करती है । स्वास्थ्य, शिक्षा, एक अच्छा शारीरिक वातावरण और कार्य करने तथा बोलने की स्वतंत्रता बहुत महत्त्वपूर्ण हैं । इसलिए मानव विकास सूचकांक (एचडीआई) मानव प्रगति का मिश्रित उपाय देने के लिए राष्ट्रीय आय, जीवन प्रत्याशा और शैक्षणिक योग्यता को संमिश्रित करता है । गणितीय रूप से उपाय प्राप्त करने के लिए प्रत्येक सूचक के वंचन का एक उपाय (I_j) है ।

देश से संबंधित (X_j) को निम्नवत-परिभाषित किया गया है:-

$$I_{ij} = \frac{(\max X_{ij} - X_{ij})}{(\max X_{ij} - \min X_{ij})}$$

तब किसी औसत वंचन सूचक का अनुमान उपर्युक्त परिभाषित तीन वंचन सूचकों का औसत निकाल कर लगाया जाता है, अर्थात्

$$I_j = \left(\sum_{i=1}^3 I_{ij} \right) / 3$$

और अंततः एचडीआई को एक-औसत वंचन सूचकांक के रूप में परिभाषित किया गया है।
 $(HDI)_j = (1 - I_j)$

लिंग अधिकारिता उपाय (जीईएम)

लिंग संबंधी विकास सूचकांक (जीडीआई) एचडीआई के समान उसी प्रकार के आयामों और अंतरालों में उपलब्धियों को मापता है किन्तु महिला और पुरुष के बीच उपलब्धियों की असमानता को पकड़ता है। यह सामान्यतया व्यवस्थित एचडीआई है जो लिंग असमानता के अधोगामी रूप में किया गया है। बुनियादी मानव विकास में जितनी अधिक लिंग असमानता होती है, देश के जीडीआई की उतनी ही कम तुलना इसके एचडीआई के साथ की जाती है। लिंग अधिकारिता उपाय (जीईएम) से पता चलता है कि क्या महिलाएं आर्थिक और राजनैतिक जीवन में सक्रिय भाग ले सकती हैं। यह भागीदारी, आर्थिक और राजनैतिक भागीदारी के मुख्य क्षेत्रों में लिंग असमानता को मापने और निर्णय लेने पर बल देता है। यह संसद में, प्रशासकों और प्रबंधकों के बीच तथा व्यावसायिकों और तकनीकी श्रमिकों के बीच महिलाओं के प्रतिशत और पुरुषों के प्रतिशत के रूप में महिलाओं द्वारा कमाई गई आय का पता लगाता है। जीडीआई से भिन्न होने के कारण यह चयनित क्षेत्रों में अवसरों की असमानता को अनावृत करता है।
