## *Foreword*

Government of India decided to conduct Seventh All India Educational Survey in 2002 All India Educational Survey provides detailed educational statistics which are an important source of information for educational planning. The present survey is seventh in the series, which is a joint endeavor of the National Council of Educational Research and Training (NCERT), the National Informatics Centre (NIC) and the State Departments of Education. It aims to build up database on school education at District/State headquarters to facilitate annual updating of essential information.

Corresponding to the decision of Government of India, Govt. of Maharashtra constituted team at the State level and District level vide order dated 1<sup>st</sup> October, 2002 to conduct Seventh State level survey.

I am happy that the first publication of this survey entitled 'Provisional Statistics – Maharashtra' is being brought out. In this survey the significant information about secondary and higher secondary schools is incorporated which was only collected on sample basis in last survey. It intends to provide an advance information on some important educational parameters like the number of rural habitations having different levels of schooling facilities in them, the number of schools of different types and their enrolment and teachers. This information has been computerised and can be accessed by general public on the NICNET (<http://gov.ua.nic.in/aises>) and can be obtained on magnetic media. The users of the data at Central and State/UT level can access the data from respective NIC installations.

The NCERT Project Team headed by Dr Satvir Singh, Professor & Head, Department of Educational Survey and Data Processing designed and executed the survey right from project formulation to reporting. This team has provided academic guidance to the survey staff of the States so far as conduct of the survey was concerned.

A comprehensive Management Information System (MIS) on the basis of the survey data has been developed which can be periodically updated, the NIC extended its

help and made its resources at the Center and in the States available for this purpose. I am sure, with close cooperation between the two organizations, this stupendous task can be brought to fruitful culmination.

I would take this opportunity to record deep appreciation of the teamwork and spirit of cooperation that the teams in the NCERT and the NIC have given in this monumental task of national importance. I also take this opportunity of thanking Smt.Kumud Bansal, Secretary, Elementary Education & Literacy, Ministry of Human Resource Development, Government of India, for her keenness and direction to give a new orientation to the work of the 10th All India Educational Survey. I wish to express my gratefulness to Dr.D.P.Bobde, Deputy Director General, National Informatics Centre, Pune and Smt.P.V. Kamat Sr. Technical Director with whose support we could create a Management Information System and incorporate new technologies in the conduct of this survey.

The cooperation and help from Dr.V.A. Kalpande, Director of Survey & Director of Education (Primary Education), District Education Officers, Block Education Officers and school teachers in this venture deserves a special mention in executing the survey operations in the field.

I am confident that the survey data will create a new orientation to educational planning with the introduction of new technologies for storage of entire data on magnetic media for retrieval and later use.

## Instructions

### Introduction

The present educational survey, seventh in the series, is being conducted throughout the country. In this survey, data are being collected from each and every village, city/town and school to assess the status of educational facilities and their utilisation. The quality of the results of this survey depends on the accuracy and completeness of the information to be furnished by you. **After completion of the data collection activity, trained enumerators will collect data on sample basis for determining the accuracy of data.** Therefore, please answer each item carefully and accurately.

### Village Information Form (VIF)

This Form seeks information relating to population, schooling and other educational facilities in the **revenue village** as on **30<sup>th</sup> September 2002**. This form is to be filled by the **Headmaster of the recognised school** of the village with the help of **village level officer (Patwari/Village Level Worker)**.

A **detachable sheet** is attached with this form for supplying the information on certain items for **Flash Statistics**, which is to be released quickly. **Please give information in this sheet after completing the Form.** Also ensure that location codes on the detachable sheet are correctly copied from this form.

### How to Answer

- (a) Please use **international numerals** while supplying the information in numbers.
- (b) Please write names in **English Capital Letters** to facilitate computerisation.
- (c) The information collected from you will be computerised. Take extra care to read the instructions for supplying the information which are printed in *italics* along with the items.
- (d) In certain columns the information is to be provided after converting it into numeric codes. Please write code only.
- (e) **Item 3 (b):** If the schooling facility for a particular stage as per Cols. 5, 6 and 7 of the item is available within the habitation, then write '**0.0**' in the corresponding distance column against that habitation, otherwise in that column give distance ( up to one decimal place of a km) at which this facility is available.

**Example:** If a habitation as per Cols. 5, 6 and 7 has one school with classes I to X and another school with classes VI to X then the habitation has the schooling facility for primary, upper primary and secondary stages but not for the higher secondary stage. It is available at a distance of 6 km. Accordingly, against this habitation '**0.0**' is to be written in Cols. 9, 11 and 13 allotted for primary, upper primary and secondary stages, respectively. The distance of 6.0 km. at which higher secondary stage facility is available, is to be given in Col. 15.

- (f) In the detachable sheet, attached with this form, number of habitations having primary stage facility within them ( at Sl. No. 2) will be equal to the number of times '**0.0**' is written in Col.9 of item 3 (b), while the number of habitations at Sl. No. 3 and 4 will be decided by the distance given in that column. Similarly, number of habitations at Sl. No. 5, 6 and 7 are to be written from Col.11 of item 3 (b).

**THANK YOU FOR YOUR COOPERATION**

### **Definition and Explanation**

#### **1. Rural Habitation:**

(a) A habitation is a distinct cluster of houses existing in a compact and contiguous manner; with a local name; and its population should not be less than 25 in plain areas and not less than 10 in hilly/desert/sparsely populated areas. In case there exists more than one such cluster of houses in a village, they will not be treated as separate habitations unless the convenient walking distance between them is more than 200 metres.

(b) Any habitation with population less than 25 in plain areas or with population less than 10 in hilly/desert/sparsely populated areas may not be given a separate status of a 'habitation' and its population be included in the nearest habitation of the same village. **But this condition will not apply to a village with one habitation only.**

(c) A village may have one or more than one habitation, except when it is a deserted/Bechirag village

**2. Distance:** The distance between a habitation and a school is the convenient walking distance between the central point of the habitation and the school. Give distance up to **one decimal place of Kilometre.**

**3. Recognised School:** A recognised school is that in which the course(s) of study followed is/are prescribed or recognised by the Government (Central/State) or a University or a Board constituted by law or by any other agency authorised in this behalf by the Central or State Government and which satisfies one or more of the authorities e.g. Directorate of Education, Municipal Corporation/Committee, Board, etc., with regard to its standard of efficiency. It runs regular classes and sends candidates for public examination, if any

**4. School Stage:** Combinations of classes for different school stages differ from State to State. Various combinations of classes of the school system constitute primary, upper primary, secondary and higher secondary stages. In most of the States classes I-IV/V constitute primary stage; classes V-VII/VI-VII/VI-VIII constitute upper primary stage; classes VIII-X/IX-X constitute secondary stage; and classes XI-XII as higher secondary stage. Some of the States and Union Territories have provision for junior colleges, independent Pre-University Classes (PUC), intermediate colleges and degree colleges having the higher secondary classes. In this survey, these classes/colleges will be considered along with the higher secondary stage

**5. Unrecognised School:** An unrecognised school is that which is not recognised but running regular classes on the pattern of recognised school. This does not include coaching centers.

**6. Alternative Schools (AS):** Schools set up in unserved habitations (with no schooling facilities within one km) under the Education Guarantee Scheme (EGS) component of the EGS&AIE Scheme to provide education to out of school children are termed as **Alternative Schools**. EGS schools in the States of Madhya Pradesh Orissa, Uttar Pradesh; Maavadi in Andhra Pradesh; Multi-grade learning centers in Kerala; Shishu Shiksha Karamsuchi Kendras in West Bengal; Contract schools in Maharashtra; Rajiv Gandhi Swarna Jayanti Pathshalas in Rajasthan are some of the examples of Alternative Schools.

**Alternative & Innovative Education (AIE) Centres:** The centres set up for very specific, difficult groups of 'out of school' children for mainstreaming or otherwise, under the AIE component of the EGS&AIE scheme, are termed as **Alternative & Innovative Education Centers**. Some of the examples of AIE Centres are seasonal hostels for migrating children, condensed/ bridge courses/ back to school camps for mainstreaming out of school children and to achieve competencies appropriate for their age in a short period, residential camps/drop-in centers for street and slum children.

**8. Education Volunteers:** The persons appointed for teaching in Alternative Schools/ AIE Centres on a fixed remuneration are called **Education Volunteers (EVs)**.

## Instructions

### Introduction

The present educational survey, seventh in the series, is being conducted throughout the country. In this survey, data are being collected from each and every village, city/town and school to assess the status of educational facilities and their utilisation. The quality of results of this survey depends on the **accuracy and completeness** of the information to be furnished by you. **After completion of the data collection activity, trained enumerators will collect data on sample basis for determining the accuracy of data.** Therefore, please answer each item carefully and accurately.

### School Information Form-1 (SIF-1)

This form seeks information about class-wise enrolment, teachers and other facilities as on **30<sup>th</sup> September 2002** from recognised primary and upper primary schools. This form will be filled by the **Headmaster** of the school.

A **detachable sheet** is attached with this form for supplying the information on certain items for **Flash Statistics**, which is to be released quickly. **Please give information in this sheet after completing the Form.** Also ensure that location codes on the detachable sheet are correctly copied from this form.

### How to Answer

- Please use the **international numerals** while supplying the information in numbers.
- The information collected from you will be computerised. Take extra care to read the instructions of supplying the information which is printed in italics along with the items.
- Most of the items have been provided with two or more alternative responses. Each alternative has been provided with a code. The number within brackets is the code for that response. In addition, a blank box is provided in the right margin for writing the response code. **Writing of response code in the box is essential.** In such items, only one alternative is applicable to your school situation. **Please put a tick mark in brackets of the applicable response and write its code in the box provided in the right margin.**
