STRENGTHENING OF DIET

1. OBJECTIVES :

As envisaged in NPE and POA, DIETs were ~~not~~ set up to bring about qualitative improvement in elementary education and thus help in achieving the goal of UEE.

In the context of the DPEP, strengthening of the DIET has become necessary to achieve the following additional objectives:

1. To bring about qualitative improvement in methodology and evaluation.
2. To increase its access to the target area by moving to Blocks & Clusters of villagers.
3. To sharpen its focus on primary education to enable it to effectively perform its role in DPEP.

2. PRESENT STATUS :

No doubt DIET was set up primarily to help in UEE but, owing to various reasons, it is not in a position to take up the challenge of DPEP. Present constraints in many DIETs are scarcity of accommodation, staff, furniture and equipment.

3. WHY STRENGTHENING:

At present, DIET has to cater to primary as well as upper primary levels of education besides Non-formal education and Adult education. It is also

(65)

running a 2 year pre-service training programme besides year-around inservice training programmes. The position of teacher training in the district is as follows :

1.	Number of teachers	(a) Primary	- 3871
		(b) <u>Upper Primary</u>	- 1619
		Total -	5490
2.	Number of trained teachers.	(a) Primary	- 2259
		(b) <u>Upper primary</u>	1218
		Total.	-3477
3.	Backlog of untrained teachers.	(a) Primary	1612
		(b) <u>Upper primary</u>	- 401
		Total	2013

As is clear from the above description, DPEP is an additional responsibility upon the DIET and, to enable it to shoulder this responsibility, it is necessary to strengthen it by augmenting the infrastructure and manpower.

4. PROGRAMMES AND ACTIVITIES TO BE CONDUCTED:

The following programmes/activities will have to be taken up by the DIET from the very first year of the DPEP:

1. Carrying out surveys and studies.

(66)

2. Taking up micro-projects.
3. Conceptualizing and identifying innovations and disseminating them.
4. Training of :
 - (a) Master trainers
 - (b) NFE supervision.
 - (c) BEOs, ADISs and other supervisory staff
 - (d) Resource personnel.
 - (e) Heads of TRCs
 - (e) Members of NGOs
5. Publication of bulletin, teacher's guides, supplementary reading material and other district specific materials.
6. Monitoring of training programmes.
7. Environment building.
8. Mobilizing voluntary agencies and teacher's organisation..
9. Developing Educational Management information services.

5. **BASIC FACILITIES:**

As the present infrastructure of the DIET is not sufficient to meet the needs of DPEP, additional infrastructure in the form of books (5.0 lacs), furniture (2.0 lacs), equipment (5.0 lacs) and vehicles (4.73 lacs) has been provided for.

(67)

6. **PROFESSIONAL ASSISTANCE:**

The DIET faculty does not include experts in all the areas/skills required for the programmes and activities of DPEP, the services of other professionals will be needed for specific purposes, e.g. to impart training in Art Education, work experience, physical education, computer software development, educational technology conducting studies, orient trainers, etc. For this, a provision of Rs. 1.0 lacs per year has been made for the entire plan period.

7. **EDUCATIONAL MATERIAL:**

The outlay for development of educational material like teachers guides, supplementary reading material for children, bulleting etc. is Rs. 20,000 per annum for 7 years.

8. **MICRO PROJECTS, STUDIES, INNOVATIONS :**

A provision of Rs. 30,000/- p.a. for 7 years has been made for this purpose.

9. **TRAINING PROGRAMMES:**

The annual outlay for training programmes is Rs. 2.15 lacs for the entire plan period. This is to be used for conducting about 16 courses each year.

1. Objectives

Keeping in view the need for decentralisation and increasing the involvement of Teachers in various education related processes, it has been decided to set up Resource Centres at Block and Cluster levels.

'Block' means a development block which is the present unit for the administrative and developmental machinery of the state government. 'Cluster' means the group of all primary schools situated approximately within 8 km. of a selected cluster centre school.

The following objectives have been set for the BRCs and CRCs :

- 1- To be close to the real life situation of the teachers and to monitor their felt needs.
- 2- To provide easier access to the teachers to academic resources.
- 3- To increase the participation of teachers and thus, their motivation.
- 4- To function as links of a district level system of monitoring and feedback.

2. Strategy

At cluster level, a primary school situated at a suitable place and having a spare room will be selected for establishing a CRC. Teachers from all the schools in a particular cluster will meet at the CRC once in 2 months to discuss their academic problems. The head of the school selected as a CRC will be paid a monthly honorarium of Rs.200/-.

A BRC will be established at each block head quarter. The BRC will have its own building and a full time coordinator who will be selected from amongst the teacher's of the district, preferably from the same block. The BRC has mainly been envisaged as a training-cum-resource centre.

3. Functions

(a) Functions of CRC :

- 1- To function as Resource Centre for teachers and NFE instructors.
- 2- To provide assistance in environment building.
- 3- To give general support to VECs.

(b) Functions of BRC :

Other Components

1. School Contingency and Teaching Material :

Every teacher will be provided Rs. 500 p.a. each for developing the low cost teaching materials and aids so as to improve the teaching-learning process. There is no prescriptive list of materials to be developed and it is left to the imagination of the teacher to develop aids of his choice from locally available materials. The added advantage could be that any repairing of the aids could be done locally. Ideas on how to develop aids would be taken from the Shikshak Samakhya experiment.

Each primary school has two teachers on average and therefore each school is being provided Rs. 1000 p.a. uniformly.

An additional amount of Rs. 1000 p.a. is being provided as contingency to each school to be spent on consumables like chalk, any minor equipment like floor mats and dusters, registers, etc and also to provide some drinking water facility.

This amount would be provided by the TRCs to the schools on the basis of demonstrated need as and when required.

2. New Schools

Each new schools includes the following in its cost:-

a/ Two teachers	
b/ Furniture	Rs. 1,000/-
c/ Teaching materials	Rs. 10,000/-
(for blackboards, books, etc.)	

3. Additional room

Each additional classroom built also provides for one additional teacher.

4. NFE Project

It includes the cost of 100 MFE Centres.

DISTRICT PRIMARY EDUCATION PROGRAMME

Early Childhood Care And Education

(ECCE)

DISTRICT COMPONENT

1. OBJECTIVE

ECCE facility as a felt need. It is evident from the facts that in many rural areas younger siblings are brought to primary schools by their school going brothers and sisters and made to sit in the school room keeping in view the responsibility of the learner to look after younger sister/brother.

It may be cruel towards the young child who has to sit idle for hours, instead of spending the time playing or in any other enjoyable way a child of that age would ordinarily do.

This serves to underline the importance of ECCE centres as a critical input for improving quality of primary education. ECCE scheme help primary education in the following ways :-

1. It acclimatizes children to school environment and leads to higher enrolment and retention in primary schools.
2. Early pscho-motor stimulation and learning during ECCE helps in adjustment to and higher achievement in the primary school.

95

3. It releases mothers/elder sisters (some times even brothers) from the responsibility of looking after their sibling enabling them to participate in primary education.

2. STRATEGY

In non-ICDS blocks of the district ECCE project has been proposed. Presuming 200 primary schools in a block on an average an ECCE project will include 200 ECCE centres. Therefore one ECCE centre will be attached to every primary school of the block. To make use of this facility, the following measures will be taken by the district unit of the mission.

1. The timings of the ECCE centre will be decided to coincide with the primary school.
2. A systematic and regular monitoring will be ensured through Village Education Committee.

2.1 AT SCHOOL LEVEL

A room in the primary school building or very near to it will be made available for running the child care and education centre for about 40 children of 3-6 age group. A mother and one female helper will be appointed for each centre on fixed monthly salary. The mother/helper may be an educated housewife or wife of the school teacher or some female educated member of the

96

VEC/gram panchayat. The persons selected will be properly trained and refreshed by the Block resource centre/DIET. Some amount will be given to the block units for furnishing the centre and purchasing play materials and also some amount for contingencies.

2.2 AT BLOCK LEVEL

Infrastructure will be developed at the Block resource centre for giving necessary support for the ECCE scheme in the block. One person from DIET or some suitable and experienced trained primary school teacher will look after the training and refreshes courses to be conducted for ECCE mothers, helpers of anganwadis and class one teachers. Some amount will be given to the block units for furnishing the BRC and purchasing play materials and also some amount for contingencies.

2.3 SUPPORT FROM DIET

The services of ECCE specialist of the DIET will be utilised for making BRC operational and functional. The DIET will impart training to mothers of the ECCE centres of the district. Since ECCE is new from the point of view of experience and achievement for UPE, DIET will evaluate the suitability for wider adoption.

2.4 Training

The ECCE is not seen as a formal education centre. It is seen primarily a child care centre. All

(97)

learning will take place in informal way and by playway method and in a joyful manner. The faulty approach of nutrition will not be adopted in the ECCE centres and also the burden with learning of 3 RS will be discouraged and therefore will not be adopted in ECCE centres. At this stage of development, mishandling of the child adversely affects the future of the child.

Therefore the training programme will have the following components -

- a. Child psychology
- b. Playway methods
- c. Organisation of childcare facilities
