DES-51973

The Statistical Hand Book, Meghalaya, 1973, which is the second publication of the series, seeks to present in a handy form a factual account of some of the Social and Economic trends in the State. The data presented are based upon the statistical data as currently available, drawn from various sources and collected from different Departments and from various reports. The sources of the data have been indicated in the tables.

The Directorate of Economics, Statistics and Evaluation acknowledge with gratitude, the co-operation of various offices, in making available the statistical data presented in this publication. Any suggestion for improvement of the quality and coverage in future publications of this reference Book would be most welcome.
