<u>Chapter -I</u>

I) GEINTR AL SURVEY.

The Union Territory of Tripura, formerly a princely state, is a countrally Administered area. The total area of this Territory is 4036 sugr. miles and the total estimated population of this Territory is 14,34,700. It forms almost an isolated pocket having been cut off from rest of India and surrounded on three sides by East Pakistan with an international boundary of 528 miles. The **Take** Territory is connected with the main land by a 125 miles access-road only through the Hills to the boarder of Cachar District im Assam. The capital of the Territory is Agartala which lies at a distance of 197 miles from Calcutta by Air. The distance between Agartala and Calcutta by over land route is 1050 miles through the Assam link.

Tripura is predominently a land of dense forest covering about 30% of the total area.Villages in the hilly areas are thinly pupulated. The habitations in these areas are lying in a scattered way.There are marked concentrations of population in the neighbourhood of the Sub-Divisional headquarters, tehsil and growing markets.The Tribals cover approximately 31% of the total population of the Territory.The Tribals belong to various racial communities such as Tripuris, Reangs, Jamatias, Halams, Noyaties, Chakmas, Mags, Garos, Lushais, Kukis, Darlongs etc.

The Topography of the Territory is uneven and hilly comprising rich valleys lying between long ridges of hills. Tripura's economy mainly depends upon agriculture. Two distinct types of cultivation are prevelent-normal plough cultivation and "Jhum "or shifting cultivation.

With rough physical features, hill and hillocks on the surface, Tripura is a land of dense forest with heavy rainfall for about six months in the year.Rivers with innumerable streams and streamlets are sprayed through -out the Territory.Lack of proper communication facilities is a hinddrance to rapid progress, specially in remote rural areas.

Contd.....2.

: 2 :

After Historic partition of India, Tripura had a heavy influx (of refugees from East Pakistan resulting in establishment of many new (colonies and villages.

II). Legislation on Education.

The power of legislation regarding this Territory rested with the legislative Assembly set-up with the enforcement of Union Territories. Act, 1963.Some lews enacted by the former Princies are still in force.No legislation of Education has been enacted during the year under report.

III) <u>Institutions</u>

A large scale of activities in the various field of Education was witnessed during the year under report.Expansion of educational facilities at all levels was continued and some newman measures were adopted to accelerate the development and progress. During the year under report 38 Higher Secondary Schools came into being of which 17 were converted from High Schools.Similarly, middle schools and primary schools increased in number. Number of Sr.Basic schools increased by 4 during the year. There was a considerable increase in the number of primary schools. The total number of primary including Jr. Basic schools increased from 1333 to 1359 to meet the growing demand of educational facilities at the primary stage. The tendencies for expansion of # basic education at the elementary stage was continued in full swing and consequently 100 Jr.Basic schools were newly started during the year. Besides a good number of primary schools was converted into basic pattern. Progress was also maintained in the sphere of pre-primary education. In the field of professional Education as well as other education attention was paid to consolidation rather than to expansion. There was no institution for handicapped in this Territory during the year. Some handicapped children were sent to the institutions on Government stipend out-side the Territory.

In the phase of development at the University stage, a scheme for introduction of Post-Graduate classes in M.B.B.College in some streams was taken up and books, equippent etc. were purchased for the purpose as a preliminary measure. To meet the increasing demand for women education at this stage, a self Contained unit for the girls of existing Government Colleges was started. One B.T. (Secondary Teachers Training)College came into being at Agartala during the year. Institute buildings, hostels and staff quarters for said college were constructed.Constructional works of science laboratories etc. for the existing Government college were in progress. A sum of R.40,000/-was given to onemrix private aided College for its expansion and development. The private aided music College was taken over by the State Government. The constructional works of the institutions building for additional accomodation was taken up by the State P.W.D.An arts and sdience college under private management at Belonia came into being in addition to the existing two Arts & Science Colleges.

IV). <u>Students</u>.

The number of students under instruction in recognised institutions increased considerably during the year under report. In the primary schools the number of students rose from 1,10,055 to 1,20,304. In High/Higher Secondary Schools the enrolment incresed by 6686.Similar progress in enroling the students in Jr. High/Gr.Besic schools was also looked during the year.Primary/Jr.Besic schools claims the lion share in the total increase of students during the year. The number of girl students in primary/Jr.besic schools increased from 40004 to 44484. Due to giving special attention to Women education , increase in the number of girl students at different levels, also, was much satisfactory. To meet the growing demand of women education, a self contained girl's unit was started in the existing Government college. Number of girls students in the Arts & Science colleges rose from 441 to 593 and the rate of increase was 35%.

In other education, the trend of orogress was also maintained.

: 3 :

Contd.....4.

V). <u>Expenditure</u>.

During the year under report the total expenditure on Education in the Territory increased from Rs.1,94,39,336 to Rs.2,24,60,005 the rate of increase was 16% while it was 12% in previous year. The direct expenditure on educational institutions amounted to Rs.1,41,99,680/- as against Rs.1,25,83,305/- and the rate of increase was 12%. From the total direct expenditure 14% was spent on the girls institutions. From the following table it will be seen that except a meager portion all amount of direct expenditure was incurred from the Government fund.

VI) <u>Progress of Development Schemes during 1964-65</u>.

PRIMARY EDUCATION

Financial Achdevement (Rupees in lacs) 25'975

Physical Target Achieved

138 junior besic units were started during the year.Requisite number of teachers were appointed.Schools and Units started previously were continued.Stipends and other financial concessions were awarded to students on liboral basis.Financial consessions were given in the shape of book-grants,cash-grants,attendance scholarships etc.80 primary schools were converted into basic pattern.Un-trained teachers in more number were admitted in the existing Teachers-Training Colleges.The existing elementary teachers training colleges were equiped with essential appliances and equipments.Constructional works for expansion of college buildings were in progress.

SECONDARY FIDUCATION

321290

15 primery and junior basic schools were upga -aded to Se.Basic schools.Sr.Basic schools started previously were continued during the year. Requisite number of teachers were appointed for meeting the requirements of these schools.l(one) higher secondary school was newly started. Required lands were acquired for the higher secondary schools.37 high/Middle schools were converted into higher secondary schools. Fissential science equipments were purchased for the high/higher secondary schools.B.43,100/were given to higher secondary schools.

Contd.....6.

for acquisition and improvement of play fields and for purchase of sports goods.Stipends/scholarships and financial assistance etc were given liberally to students in the shape of cash-grants, book-grants etc.Books and other equipments were purchased for the high/higher secondary schools.One B.T. (Secondary Teachers' Training)College was newly started during the year under report.

University Education

21042

For expansion of girls education at University atage one self contained init for girls of M.B.B.College, Agertala was opend as a result of which girls' enrolment incresedd considerably. Some teaching appliances and scientific apparatus were purchased to equipt the colleges.For expansion of the College building revised expenditure sanction for constructional works was obtained from the Government of India and the works were in progress.Grant-in-aid was continued to R.K. Mahavidyalaya(Non-Govt.College), Kailashahar, Rs.40.000 were given to the College as grant during this year. There was a scheme for introduction of post graduate teaching in some Arts subjects.But due to unavoidable circumstances the Classes could not be started. Some books necessary for the said teaching were purchased.Scholarships and stipends and other Financial Assistance were awarded to students specially to girls on liberal basis.Besides, stipends/Scholarships were awarded to students for higher studies out-side the Territory.

Social Education

1'062

100 Adult Literacy centres started priviously were continued during the year. 4 literatures for new-literates were published. To equip the Contral as well as Sub-Divisional libraries books and journals were purchased. Staff appointed previously were continued. For strengthing of the Audio-Visual Unit new films and apparatus were added.

Miscellanecus

During the year under report several coaching camps in foot-ball, swimming, cricket, gymnastics, athletics etc were organised. For conducting camps and running the organisation one jeep was purchased. A good number of theachers were sent to colleges and training camps of Physical Education out side the Territory Grants were released to 23 cultural Clubs and sporting associations. Arrangements for construction of one stadium was made.Constructional works of Youth Welfare hostel taken by State P.W.D. were in progress.Swimming,tours etc.were also organised under Youth Welfare Programme. 2 junior Division N.C.C(Army Wing were raised.Guide Leaders Training Camp with 26 th girls was organised. Under the scheme for promotion of Hindi, Hindi Prachar S-amities were continued. Expansions of Hindi Teachers' Training College were continued. Grants were given to non-govt. Hindi Prachar S-amities. Some handicapped were sent to different schools meant for handicapped out side the Territory and were awarded stipends for journey expenses. Handicapped students reading within this Territory were also granted stipends.

<u>Chapter -II</u>

EDUCATIONAL PERSONNEL AND ORGANISATION

I) <u>Organization</u>

Tripura is a centrally Administered Territory. The Administration is carried on by an Administrator with the designation of Chie: Commissioner.He is the Head of the State.With the enforcement of the Union Territories Act, 1963 from 1st July, 1963, a Legislative Assembly has been set up for the Union Territory of Tripura. A council of Ministers was formed with effect from Ist July, 1963 to advise the administrator in excercise of his function in relation to matters with respect to which the Legislative Assembly of the Territory has power to im make laws.Ministers are assisted by the Chief Secretary, Development Commissioner, two secretaries and other deputy/Under Secretaries.The Director of Education acts as ex-officio Secretary of Funcation Department.

The controlling Officer of Education is the Director of Education. He was assisted by the Additional Director of Education,3 Deputy Directors',3 District Inspectors of Schools,1 Hindi Education Officer, 1 Social Welfare Officer, 1 Publication Officer, and some other Subordinate Officers in discharging his duties during the year. The power of appointment, dismissal and transfer of class III and Class IV employees as well as Inspection and Supervision of Educational Institutions under Education Department rests with the Director of Education.

The Managing Committees of the Private aided schools, approved by the Director of Education are responsible for management of the schools.According to revised grant-in-aid rules,appointment and dismissal of teachers in these schools are subject to approval of the Director of Education.The high /higher Secondary schools in this Territory were under dual Control-Board of Secondary Education, West Bengal controlled institutions through regulations of the courses of studies and examination and the State Covernment was responsible for Inspection, supervision and management of schools.

Contd....10.

The two existing Arts & Science Colleges as well as newly started one Arts & Science College and one B.T.(Secondary Teachers' Training) College were affiliated to the University of Calcutta.

The Basic Agricultural school, Nursing Training Centre and Industrial Training Institutions were under the control of respective Departments.

II) <u>State Educational Service</u>.

The Service of the Government personnel holding Class - I and Class -IIrosts of Gazetted cadre under Education Department of this Government are treated as State Education Service. The strength of the State Educational Service according to branches in this Territory during 1964-65 is given below.

							_		
Brench	Total ' <u>of po</u> 'Class-I	sts	<u>'No.of</u> <u>'Class</u> II 'Men 'W	-1 !	Class.	-II'	Lying	posts vacant 'Class-II

Totel		255			- 166₹	23		<u>-</u>	
Position of the rosts i 1963-64.		130	·		159	23	3	66	

The above table shows remarkable increment in all categories of posts in different branches during 1964-65, and the increase was due to creation and filling of the vacant posts. The remaining vacant posts could not be filled up due to non-avaiability of suitable candidates

The two Class-I posts shown against "Direction" were held by the Director of Education and the Addl. Director of Education 3 of the Class Class-I posts shown against "Collegiate" brach were held by the Principal of M.B.B.College, B.T.College and Polytechnic Institute. The branch Collegiate' includes all teaching staff of gazetted cadre of the Government Colleges. The posts shown against 'Others' branch includes the posts of Medical Officer and Head Librarians.

- 10 -

- 11 -

III) <u>Education Directorate and Inspectorate</u>.

There was one Directorate of Education to deal with public instruction for both men and women education in this Territory during the year under report.Director of Education is the controlling Officer of Education. During the year the Direction of the Department remained unchanged under the charge of Sri G.N.Chatterjee, MSC., M.A.L.T. He was assisted by following Officers at the Head Office. 1.Sri Indra Kumar Roy, Additional Director of Education. 2. Sri Anil Chendra Dasgupta, Dy. Director of Education. 3.Sri Mrinal Kanti Chakraborty, Dy. Director (Youth Programme) 4.Miss Sova Bose, Dy. Director (Women Programme) 5.Sri S.C.Jain, Hindi Education Officer. 6.Sri S.Banerjee, Officer-in-charge of Rducational Publication. 7.Sri S.C. Chekreborty, Administrative-cum-Accounts Officer. 8.Sri K.P.Dutta, Dy.Director of Education. 9.Sri H.C.Dutta Chowdhury, District Inspector of Schools. 10.Sri M.C. bhattacherjee, District Inspector of Schools. 11.Sri S.P. Chakraborty, District Inspector of Social Education.

Besides the above personnel, the Director of Education was assisted by one Guidance Officer and one Councillor In-Charge of the Guidance Bureau attached to Education Directorate. The posts of Statistical Officer remained vacant.

For the purpose of efficient administration of the middle and primary schools, the Territory was divided into 11 zones with an Inspectorate at each zone at the Sub-Divisional Headquarter except Amerpur and Sonamura. Schools under Amerpur and S-onamura Zones were supervised by Inspector of Schools Udaipur and Sadar'B'.

Each zone consisted of several circles according to quantum of schools with one Sub-Inspector of Schools for inspection and supervision of primery schools.Middle schools(Jr.High & Sr.Basic Schools) w ere inspected and supervised by the Zonal Inspector of Schools and they were assisted by Asst.Inspector of Schools.

During 1964-65 total expenditure on Direction and Inspection was Rs.11,55,399/-as against Rs.9,59,536/-in 1963-64,and the whole amount was incurred from the Govt.fund.The amount includes salaries of staff allowances and honoraria,other charges etc. An amount of Rs.47,113/-was spent for constructional works of Education Directorate.

Chapter -III

Primary Education

I. <u>Administration and Control</u>

The administration and control of Primary Schools in this Territory were vested to the State Government and Private Bodies. Education Department was responsible for recognition and inspection of the Primary School under Private Bodies.Director of Education is the controlling and appointing authority in respect of schools under Education Department.

School Managing Committee is the appointing and dismissal authority of the staff of schools under Private Bodies.

During the year under review, the works of organisation, supervision and inspection of schools under all Bodies were entrusted to the Inspector of Schools who were assisted by the Assistant Inspectors and Sub-Inspectors of Schools.For the expansion of Primary Education, the question of increasing the strength of the supervisory staff has been engaging the attention of the Government.

II. <u>Scheme of School Classes</u>.

In Tripure the duration of Primary Stage Education has been extended to 5 years(i.e. Class I-V).But due to influx of number of new students, Primary Education has been arranged in some of Jr.High and Sr. Basic Schools.

III. <u>Schools</u>.

A comparative statement of Primary/Junior Basic Schools for 1963-64 and 1964-65 is given below:-

<u>Year</u> 1963-64	:	G <u>ovt</u> ;	Total : Pr <u>ivate</u> :_	<u>Tot</u> el:_	<u>Gov</u> t.	Rural : _Private:	Totel

		• ••••	~ ~ ~ ~ ~ ~ ~ ~ ~ ~ ~ ~ ~ ~ ~ ~ ~ ~ ~ ~		and and and and and and any and

Increase in the total number of students in Primary school stage (I-V) during the year under report was due to new admission of Children.

Contd.....16.

V. It has been the earnest effort of the Department that children who join primary schools do not ordinarily leave the school before the completion of the primary course.For this purpose efforts had been made in Kamalpur Block during the erstwhile council period to make the school atmosphere more congenial to the tiny tots.The instructional work had been made more interesting and enjoyable by the introduction of various crafts and by the adoption of a number of other devices in the methods of teaching.

Economic fectors, however, still play an important part in the withdrawal of the students before the completion of the primary course.In many cases poor children are forced to do miscellaneous works and the earning desired from the sources go to contribute to the earning of the family.Thus under the circumstances they are forced to leave school.

It is expected that by the appointment of additional teachers wastage would be reduced to a great extent. When compulsion will be introduced it is expected that there will be practically no wastage.

The above statement includes pupils(studying in classes I-V) of all types of Educational Institutions. The above statement shows the progress of primary stage education. Because all new Junior Basic Schools were also started in the rural areas and most of the newly started schools are situated in hilly areas as the students are not in a position to attend such schools regularly in rainy season and in winter season respectively due to natural barriers.

But satisfactory progress could have been acquired if the students of rural areas were able to attend school regularly in rainy season and winter season respectively.

Contd.....17.

- 16 -

VI. There was no compulsion in the primary Education in any part of the Territory during the year under report.

VII. A Comparative statement of teachers for the year 1963-64 and 1964-65 is given below:-

Type of Schools & Year	:Traine	Men d:Un-Trained		Vomen ;Un-Trained		Fotel : Women	
<u> 1963–64</u>							
Jr.Basic Schools	567	845	160	431	14 2 2	591	
Primary Schools	324	975	21	98	1299	119	
Total	891	1820	181	5 29	2711	710	
<u>1964-65</u>							
Jr.Basic Schools	825	77 7	217	524	1602	741	
Primery Schools	380	775	24	96	1155	120	
Total	1205	1552	241	620	2757	861	
Increase(+ Decrease(- in 1963-64)	- 263	+60	+91	+ 46	+ 151	

The total pupil ratio in the Junior Basic and Primary schools were 1:33 and 1:32 respectively during the year under report. VIII. 10 sqr.ft. is desirable and 5 sqr.fit is the minumum for each student and 30 students in average are considered to make a class-room.

IX. Expenditure on Primary Education:

The total Direct Expenditure on primary Education including Junior Basic Schools rose from R.53,33,296 in 1963-64 to 53,91,878. The increase was due to salaries of trained teachers.

The source-wise distribution of the Direct Expenditure of the primary schools including Junior Besic schools are given below:-

(

Contd.....18.

Compo	n + i + n - i	Study
COMPE	raurve	Juuy

Sources :	1962 - 64	: 1964-65	: Increase(+) Decrease : (-) in 1963-64
Govt. fund	53,02,288	53,15,802	+ 13514
Fees	20,205	23,186	+ 2981
Findowments & other sources	10,803	52,890	+ 42037
Total	5 3,33, 296	53,91,878	+ 58582

The above table will show that 98'5% of the total expenditure was borne by the Government. The expenditure other than Govt.fund is negligible.Amount shown as incurred from fees do not include tuition fees, but include examination fees etc. Txpenditure incurred from ohter sources was made from sale proceeds of craft product of the \$ schools.

The management-wise expenditure on Primary Education is given below:-

Decrease of per capita cost in schools under Government schools was due to increase in enrolment.

Contd.....19.

X. <u>Single Teacher Schools:</u>-

The existence of single teacher school in Tripura is a special feature. There were 365 single teacher schools during the year under report. This Territory is a hilly region which comes to 3/4 of the total area as well as spersely situated and thinly populated villages in these areas.

XI. <u>School Building & Equipment.</u>

An amount of Rs.98,011/- was incurred for construction of Primary and Junior Basic Schools building during the year under report, out of which an amount of Rs.700/- was contributed by the public. The schools were equiped with furniture and equipments for which an amount of Rs.1,29,633/- was spent from the Government fund andRs.400/- was contributed by the public during the year under report.

XII. Methods and standard of teaching.

With the laying of greater stress on the two-fold development of child, i.e. his mental and physical growth a number of new schemes have been introduced in the syallabus of Primary Schools.Over and above the introduced of basic.crafts, the activity programme has been given an important place in the instructional work of the school.

Crafts like agriculture, spinning and weaving, clay modeling, toy making, etc. have been introduced in a number of schools. These devices have not only helped the teachers in the new methods of teaching but have also resulted in a rise in the standards of **teaching** nts. Most of the teachers who were appointed in non-basic schools have tried to introduce basic activities in those schools and have popularised new techniques and methods that they learnt during **these** the course of their Basic ¹raining. It is hope that the seed of ' Compulsory Primary Pducation ' will give forth a bumper crop during the Forth Five-Year Plan.

Contd.....20.

Most of the teachers in primary schools were given short course Basic Training and through them a large number of schools were oriented towards Basic pattern during the year under report.

XIII. <u>Re-organisation and New Development.</u>

Under the scheme for Expansion of Educational facilities at the primary stage, 26 new schools were started during the year under report. These schools were started in the hilly areas where there were no school: ing facilities of the children of the age-group 6-11 years. New teachers were also appointed.Furniture and equipments were also purchased for the afore-said new schools.

Further a remarkable progress has already been made with regard to enrolment of children of the age-group 6-11(i.e.primary Education) and it is expected that at the e end of the Third ^F ive Ye_er Plan more that 90% of the children of that age-group will be brought to school.

Model Primary Schools.

The following 8 model Primary schools were created to improve the teaching technique and co-curricular activities. These schools were started to serve as model for other schools to emulate. The following special programme which were to be undertaken by each of those schools, could be taken up to a certain extent only. They could not be implemented fully due to unavoidable circumstances.

List of Model Primary Schools:

- 1. No.3 junior Basic School in the premises of B.K.Girls Higher Secondary School, Agartala.
- 2. Junior Basic School sitting in the premises of Kamalpur Higher Secondary School.
- 3. Junior Basic School in the new building at the cost of the Mela-ground at Kailahsahar.
- 4. Junior Basic School at Sonamura.
- 5. Junior Basic School at Belonia.

- 20 -

6. Junior Basic School at Sabroom.

7. Hariganga Primary School, Agartala.

8. Primary School at Udsipur.

Special Programme:

1. Experiments on teaching technique. The schools may be under the direct control of Regional Inspector of Schools. The Inspecting Officers of the region shall undertake experiments on teaching techniques in these schools and shall give demonstration lessions. The teaching programme for an academic session shall be **xki** chalked out in advance by an Inspecting Officer.

2. <u>Intensification of Craft work</u>:

Craft training teachers shall be provided in those schools and a minimum output shall be insisted upon from each pupil to be taken into account for purposes of promotion to the next higher class .

3. <u>Physical Education:</u> Physical education classes including games, drill etc shall be not less than four hours per week.

4. <u>Excursions</u>:- There shall be regular excursions of students from these the schools at least once every year.

5. <u>Nature Study</u>: Nature study classes will be conducted by an I.Sc. teacher or a higher secondary (Science group passed) teacher.

6. <u>Requipments:</u> Adequate equiped library of Children's literature and at least 3 periods in a week should be ear-marked for library studies.

7. <u>Comulative Record Card</u>: A Cumulative record card is in press and will be sent as soon as printed for maintenance in respect of each pupil.

8. <u>Guidance</u>: Problem cases requiring guidance shall be dealt with by the Guidance Bureau.Cases may be referred to them whenever necessary.

CHAPTER- IV.

Basic Education.

The momentous step in the development of Basic Education was the decision of the Government of India to orient all Primary schools to the Basic Pattern at the earliest possible time.Orientation programme envisages the introduction of a minimum programme of Basic activities in all the Primary Schools. The Government of Tripura has been in the vanguard of this programme; it framed a common syllabus for Basic and Non-Basic Schööls. It has been introduced in all Basic and Non-Basic Schools.Three Basic Training Colleges were established upto the end of Second Five Year Plan with the canacity of 300 annual intake in these colleges; of these three Colleges two are under Graduate Training Colleges.

23 Junior Basic Schools and 4 Senior Basic Schools were newly started in this Territory during the year under review.

I) <u>Type of Schools</u>

There are two types of Basic Schools, namely Junior Basic Schools and Senior Basic Schools.Some of the Senior Basic Schools contain Middle stage(VI-VIII) classes only and the other contain Primary and Middle classes together (Classes I-VIII).

The special feature of B asic Rducation lies in its technique of teaching by which knowledge imparted is correlated to the life of the child, viz, practical work, Social and Natural environments. Practical work selected for the State is Agriculture or Spinning and Weaving.

Contd......24.

A comparative study (management-wise)number of Junior Basic Schools during the year 1963-64 and 1964-65 are give below:

Management	:Total no.		Total no.	4-65 : Total no.of
		:rural areas:		: schools in rural : <u>ereas.</u> : <u>5</u>
State Govt.	599	55 3	700	652
Private	1	1	-	-
Total	600	554	700	652

From the above statement it appears that 101 Junior Basic Schools were increased under State Govt.Out of which 23 Schools were newly started and the remaining 78 schools were converted into Junior Basic Schools from the existing Primary schools.

Decrease of one Junior Basic School under Private Boules was due to ungradation of Senior Basic Schools.

Management-wise number of Senior Basic Schools during the year 1963-64 and 1964-65 are given below for comparative study:

	Management	: Total no.of: : schools :	schools in :	Total no.c schools	964-65 of:Total no.of :schools in :rural areas
State Govt. 102 21 105 96	State Govt.	102	9 1	105	96
Private 1 1	Private	-	-	l	1
Total 102 91 106 97	Total	102	91	106	97.

From the above statement is appears that the increase of 4 Senior Basic Schools was due to upgradation of Senior Basic Schools from the existing Junior Basic Schools. All Senior Basic are co-educational, only one Senior Dasic School is specially meant for girls. - 25 -

IIIII). Students

A Comparative statement of students in Basic schools(sex-wise) during the year 1963-64 and 1964-65 are given below:

Junior Basic Schools.

	<u>vear</u> 1963-64'_ 2'		+ Increase - Decrease than 1963-64
Boyys	39357	48540 '	+ 9183
Girirls	245 20	30751	+6231
Totita1	63877	79291	+ 154 14
	<u>Ser</u>	nior Basic Scho	<u>ols</u>
$\frac{Se_{XX}}{11} = \frac{1}{1}$	<u>Year</u> 1963-64		+ Increase - Decrease than 1963-64
Boyys	6420	6261	-159
Girrls	2481	2493	+ 12
Tottal	8901	8754	-147

Increase in the total number of students in Junior Basic Schhools was remarkable.Decrease in total number of enrolment in Senior Bassic Schools was due to the upgradation of some Senior Basic Schools witth good number of students into Higher Secondary Schools.

Annual Examination results of Junior Basic and S-enior Basic Schhools during the year under report are given below:

		appeared	Num	ber passed	
Typpe_of Schools		$ Girls_3$	$\frac{1}{1} = \frac{Boys}{4}$	'_ <u>Girls</u>	
Junnior Basic	# _		14-		
Schhools	5074 (5074)	2662	3903	2135	
Sennior Basic	6.70	160	677	109	
Schhools.	679	163	511	102	

Class V and Class VIII of Junior Basic and Senior Basic Schhools respectively have been taken as final classes in the above stastement.

IV). <u>Teachers:</u>

Junior Basic Schools20032343+ 340Senior Basic Schools640716+ 76	Type of schools	1963-64	1964-65	Increase(+) Decrease(-) than 1963-64
Senior Basic Schools 640 716 + 76	Junior Basic Schools	2003	2343	+ 340
	Senior Basic Schools	640	716	+ 76

The total number of teachers have increased in both type of Basic schools due to filling up of the new posts created under plan schemes.

The teacher-pupil ration in 1964-65 were 1:33 and 1:12, in Junior Basic Schools and Senior Basic Schools respectively as gagainst 1:32 and 1:14 in 1963-64.

The scale of pay of teachers have been revised and came into force on the 1st day of April, 1961.

The following revised scale of pay are shown below:

Name of post _ _ _ Old_scale of pay _ _ Revised_scale of pay. _ _

Trained Graduate teachers.Graduate Hindi Classical teachers and Graduate physical Instructe -uctors, Matric or Rs. 100 R. 175-7-238-EB-7-245-Rs. 100-5-205-FB-5-215above Drawing teachers with at least 3 years 10-225/-8-325/diploma in training. VI). <u>Expenditure</u>

The total Direct Expenditure on Junior Basic and Senior Basic Schools during the year rose to Rs.34,32,443/- and Rs.13,49,550/respectively as against Rs.30,12,077/- and Rs.11,77,414/- in 1963-64. The increase in the amount of Direct Expenditure was due to increase in total number of schools and teachers during the year under report. An amount spent on teachers' salaries has increased from Rs.28,40,332/to Rs.32,50,832/- and Rs.9,98,964/-toRs.11,68,582/- respectively during the year under report.

A Comparative expenditure statement in Direct Charges on the both Junior and Senior Basic Schools by sources from the year 1963-64 and 1964-65 are shown below:

	Junior_Rasic_S	Schools	
Sources	1963-64	· 1964-65	' Increase (+) ' Decrease (-) _'_then 1963-64

Endowments &
other sources264,224+
4,199Totel_______11,77,414_____13,49,550_____172,136A look will show the increase in the Direct expenditure in
both types of Basic Schools. The average per capita costs of students
in Basic Schools was R.43'2 in Junior Basic Schools and R.154'1 in
Senior Basic Schools respectively during the year under report as
Compared to R.47'0 and R.132'2 in 1963-64.

VII). Basic Training College:

The success of any system of Education depends upon the role which the teachers play in it. Training of teachers is, therefore, an improtant aspect of the programme of educational development in a community.

Training Institutions have not only to meet the requirements of trained teachers, but also to provide educational leadership by carrying research in new techniques and giving trained personnel. Therefore during the First Five Year Plan one Post-Graduate Basic Training College was established in this Territory with an intake of 100.This College had two wings, Post-Graduate wing and Under-Graduate wing.There were 30 seats for accommodation of Post-Graduate teachers trainees and remaining 70 seats for Under-Graduate teachers trainees. Moreover two Under-Graduate Basic Training Colleges were established with annual intake of 200 during the Second Five Year Plan.Both the Under-Graduate Basic Training Colleges are sutuated in rural areas.

Number of 1	Basic Training Colleg	es with	enrolment	•	
Number of Colleges	Nature of Training	<u> Numbe</u>	r of Train Girls	nees.	
1. Agertela Basic Trg.College	(Basic (Post-Graduate)	83	43	126	
2.Kekraben Basic Trg.College	Basic (Under-Graduate)	106	-	106	
3. Panisagar Basic Trg.College	-do-	100	-	100	*5 ,
Total		289	43	332	

VIII). Method and standard of teaching:

The technique of correlated teaching occupies and important place in Basic Education. In this technique and effort is made to draw out knowledge related to daily life of the child. This technique has not been fully developed and, therefore, teachers at times cannot do full justice to it. Absence of suitable guide books and reference materials for the teachers and text books for children often stands in the way of proper development of this technique. However, it is howed that in the course of time this difficulty will disappear. Over and above, the introduction of basic crafts, the activity programme has given an important place in the instructional work of School.Crafts like agriculture, spinning and weaving, clay modelling, toymaking etc. have been introduced in a number of schools. These devices have not only helped the Teachers in the new methods of teaching but have also resulted in a rise of standards of achevements. Teachers who are appointed in Basic Schools have tried to introduce basic activities in these schools and have popularised new techiques and methods that they learnt during the course of their Basic Training.

IX) <u>Economic Aspects of Basic Education:</u>

Fiducation in Basic Schools has been made free. But the loss of fee income could not be made- up by the production of Craft goods made through minor children (i.e.sge-group 6-11).

X) <u>Re-organisation and new Development:</u>

55 men were sent for craft training in Craft Training Institute during the year under report and they were provided in the Basic Schools.Craft work has been effectively organised and each school has been directed to spend 75% of their Contingencies in Craft work.The special feature of Basic Education lies in its teachniques of teaching by which knowledge imparted is correlated to the life of the child,viz; practical work, social and natural environments.

Practical work selected for the State is Agriculture, spinning and weaving.Gardening and safai work have been encouraged and good effect has been node on the minds of the students. An amount of R.60,076/- was spent of construction of school buildings out of which public donation in kinds was worth Rs.1,626/-.These schools were equiped with furniture and equipments amounting to Rs.1,66,545/-

Chapter-V_

SECONDARY EDUCATION

I)

Administration and Control:

The internal administration and control of all Secondary Schools in this Territory is under the direct control of the Education Department, Government of Tripura. The Director of Education is the ex-officio Secretary of the Education Department and he is the Head of the Department. His is assisted by the Maitional Director of Education, Dy. Director of Education and Inspector of Schools in regard to policy of Secondary Education.

Non-Government Schools under Private Bodies are also functioning in Tribura and they got regular grant-in-aid from the Government. Appointment of teachers and maintenance of these schools are done by the respective Managing Committee with approval of the Education Department.

Some sort of control upon Government and Non-Government High and Higher Secondary Schools in this Territory are also exercised by the Aoard of Secondary Education, West Bengal, through prescription of the courses of studies and admission of students for School Final and Higher Secondary Exer Examination.

II) <u>System of School Classes:</u>

Secondary Education consists of two stages High and Middle. Middle stage consists of Classes from VI to VIII, while High stage conco consists of Classes from IX to XI.

In case of High Schools, the Middle and High stage consists classes from VI to VIII and IX to X respectively. In Higher Secondary Schools the Middle stage is same as in High Schools but High stage consists of classes from IX to XI.Some of the Senior Basic Schools consists of classes from VI to VIII istead of classes from I to VIII. Duration of course in High stage is 2 years in High Schools and 3 years in case of Higher Secondary Schools.

<u>Stages</u> .	Name of the classes.	Duration of stage.
Middle stage	VI to VIII in Jr.High/Sr. Besic,High and Higher Secondary Schools.	3 years
High stage.	a)IX to X in High Schools.	2 years
	b)IX to XI in Higher Secondery Schools.	3 years

- 32 -

III). During the 1st 4 years of the Third Five Year Plan, the number of Higher ⇒econdary Schools were increased by 53 of which 5 by newly starting and 48 by conversion/ upgredation of existing 27 High Schools and 12 Senior Basic Schools,9 Jr.High Schools into Higher Secondary while the number of Higher Secondary and High Schools were 8 and 26 respectively at the end of Second Five Year Plan period. The number of High/Higher Secondary Schools was 34 in 1960-61 i.e. last year of the Second Plan which rose to 70 during Ist 4 years of the Third Plan period.Moreover of the existing 26 High Schools in 1963-64,17 were upgraded into Higher Secondary and one was newly added by starting of a new such school and 20 more Higher Secondary Schools were also added by Upgradation of 10 Jr.High Schools and 10 Senior Basic Schools during the year 1964-65.

A remarkable progress was also observed in case of Senior Basic Schools during the 1st 4 years of the Third Five Year Plan. The number of Senior Basic Schools rose from 43 to 106 but the number of Junior High Schools came down from 40 to 24 upto the year 1964-65 in comparision with that of 1960-61, i.e.,lest year of the Second Five Year Plan.In the year 1964-65,16 Jr,Basic Schools were upgraded to Senior Basic and of the existing 102 Senior Basic Schools in 1963-64, 10 such schools were upgraded to Higher Secondary.Further of the existing 34 Jr. High Schools of 1963-64 10 such schools were upgraded to Higher Secondary during the year under report as a result, the number of Jr. High Schools was found to be decreased.

<u>Schools</u>.

Ma	enegemen	t wise numb	er of all	types of S	econdary Schools	in
1963-64 and	1964-65	are given	below for	comparativ	e study:

Unsided	Junior	High	l	1	-	
Total			27		+ 1	
Grand_Total			185	200	<u>+ 15</u>	

A look at the above tables will show increase and decrease in the number of Higher Secondary, High, Senior Basic and Junior High Schools respectively under all sorts of management during the year under report. Above all, increase in the total number of Secondary Schools is remarkable. First of all increase in the number of Secondary Schools under the management of Government is due to upgradation of Middle stage schools to Higher Secondary and Primary stage schools to Middle stage schools during the year under report.

Secondly, reasons for increase and decrease in the number of Higher Secondary, High, Senior Basic and Junior High Schools under the management of Government and Private Bodies as observed from the above table were as follows:

Contd......34.

- 33 -

- 34 -

i) Increase in the number of Higher Secondary Schools by 24 were due to starting of 1 such new school and upgradation of 7 high schools,10 Senior Basic Schools and 6 Junior High Schools into Higher Secondary during the year under the management of Government.

ii) Increase in the number of Senior Basic Schools by 3 under the management of Government were due to upgradation of 13 Junior Basic Schools into Senior Basic and of the existing 102 such schools of the previous year, 10 were upgraded to Higher Secondary during the year under report.

iii) Decrease in the number of Junior High Schools by 6 under the management of Government were due to upgradation of such schools into Higher Secondary during the year under report.

iv) Increase in the number of Higher Secondary Schools by 14 under the management of Private Bodies were due to ungradation of 10 High Schools and 4 Junior High Schools into Higher Secondary during the year under report.

v) Increase in the number of Senior Basic Schools by 1 under the management of Private Bodies was due to upgradation of 1 Junior Basic School into Senior Basic.

Of the Total Secondary Schools, 7 Higher Secondary,3 High, 1 Senior Basic and 2 Junior High Schools were exclusively meant for girls under the management of Government and Private Bodies during the year under report.

Further, of the existing 6 High Schools and 3 Junir High Schools of the previous year under the management of Government 3 High Schools and 1 Junior High Schools for girls respectively were upgraded to Higher Secondary during the year under report.

Besides, from one of the existing co-educational Senior Basic School of the previous year, co-education was disallowed and the school was exclusively meant for girls for which one new such school for girls was found to be increased.

IV) <u>Students:</u>

During the year under report, number of students under instructions in Secondary Schools considerably increased from 36,779 to 40,880 out of which 13,003 were girls and the rate of increase of enrolment was 11'1. The rate of increase of girls enrolment was 10'8. The average daily attendance, also, increased during the year. Distribution of students of various types of Secondary (a) Schools during 1963-64 and 1964-65 is given below: No. of students 1963-64 Type of 964-65 <u>Girls ' Total' Boys ' Girls ' Total</u> '_Boys_ ' <u>Schools _ _</u> Higher Secon -dary Schools.9229 3779 13008 18151 7421 15572 5590 3598 9188 1361 1949 3310 High.  8838

 ToTAL
 25049
 11730
 36779
 27877
 13003
 40880

From the above table it will be seen that the total enrolment in Secondary Schools increased to a great extent during the year under report.Increase of enrolment was observed only in Higher Secondary Schools and decrease of enrolment was observed in High,Senior Basic and Junior High Schools as because a good number of such schools were ungraded to Higher Secondary Schools during the year under report. Further, **xxrsime** enrolment in Senior Basic Schools remained static though the number of such schools increased by 4 than these of previous year.The cause of such static position of enrolment in Senior Basic *\$* Schools was due to ungradation of 10 Senior Basic Schools with major enrolment into Higher Secondary and implace of those 14 Junior Basic Schools were ungraded to Senior Basic Schools with less enrolment.

(ל) כ	istribution of s	tudents in S	ecóndary Sch	ools by managemen	nt:
		فلي محمد الأوريبيات. فحمد ويواد جانبه الكور جسود عبد الغالية	-	والتهويسيس ومرار تصوري ويربب كالنا فببرجمين معتقوبين حاب تقبلك التثري بتبال	-

Un-eided	194	0'5	197	0.16	
TOTAL	36779	100'0	40880	100'0	<u> </u>

From the above table it will be revealed that more than 67% of the total enrolment in all the schools were covered by the schools under the management of State Government during the year under report and the percentage of increase was 0'8% in Government Schools than that of previous year.

Co-Education:

Co-education was allowed in Secondary Schools where there were no senarate facilities for girls' education.Girl Students are admitted into boys' school, but the system was not **xix** vice-verse as no boys were allowed to be admitted into girls' schools.

Contd......37.

The table for the teachers will show that the number of teachers, men as well as women increased satisfactorily in all types of schools except in Junior High Schools. The cause of decrease in the number of teachers in Junior High Schools was observed, as because, 10 xxx such schools of the previous year were upgraded to Higher Secondary during the year under report. The cause of increase in the number of teachers in these schools was due to appointment of more teachers in ell the existing Higher Secondary, High and Senior Basic Schools. The

percentage of women teachers to total was 19'9 as against 20'9 in 1963-64.

The teacher pupil ratio was 1:18 during the year under report, and the break up was 1:20 in Higher Secondary/High Schools, 1:20 in Junior High Schools and 1:12 in Senior Basic Schools.

VI) <u>Size of classes</u>:

The square feet desirable and eight square feet minimum.

VII) <u>Expenditure</u>:

The total direct expenditure on recognised Secondary Schools for boys and girls rose from k.38,46,499 to k.47,33,669 and R.6,40,988 to k.7,62,581 respectively and the rate of increase in expenditure in schools for boys and girls was 23'0 and 18'9 respective ly during the year under report. The percentage of increase on direct expenditure in Secondary Schools both for boys and girls was 22'4 during the year as egainst 22'1 of the previous year.

Direct expenditure on Secondary Schools for boys and girls by management and type are given on next page.

- 37 -

		Government	Management		
Type of <u>Schools</u> _			_'Aided	_'_Un-aided	
Higher Secondary	B G	1616176 509737	_'3 <u>,</u> 1354589 x	-' ⁴ •	_' ⁵ ,
High	B	92894 171620	710 65 39 <i>2</i> 40	x x	163959 210860
Seínior Basic	<u>B</u> G	1339994 14 <i>2</i> 48	9556 . x	x x	1349550 14248
Junior High	B G	180604 27736	37191 x	31600 x	249395 27736
Totel	<u>B</u> G	3229668 723341	1472401 39240	31600 x	4733669 762581

From the above table it will be clear that the lion share was spent on Government Schools in comparison with the schools managed by the private Bodies, as in this Territory most of the Schools are under the management of State Government. The above table, also, reveals that larger amount was spent on Higher Secondary Schools during the year under report for both boys and garls as compared to other types of Secondary Schools.

Comparative study of source wise direct expenditure of Secondary Education (both boys and girls schools).

	1196	3-64	<u> </u>	65	
<u>Sources</u> 1.	Amount	Percentage	<u> </u>	Percentage	
Govt.Fund	41,01,399	91'3	49,76,889	90 '6	
Fees	2,47,121	5 '6	2,92,508	5 13	
Rndowments Other Sourc		1'8	2,26,853	4'1	
Total	44,87,487	100'0	54,96,250	100'0	

A look at the above table will show that the percentage of expenditure from endowments & Other Sources increased but expenditure from Government Fund and Fees decreased in percentage where as the amount of expenditure from all sources increased considerably during the year under report. The tables also reveals that the expenditure from Government Fund claimed more than 90% of the total direct expenditure during the year under report as because education upto Class VIII is free of tution fees for both boys and girls and girls education is free upto Class XI. Moreover, the students belonging to Sch.Castes and Sch.Tribes are also free of tution fees and as a result, income from tution fees is negligible in this Territory.

Besides, the percentage of expenditure from Non-Govt. Fund was negligible due to introduction of revised grant-in-aid rules, in which provision was made for bearing 90% of the total approved expenditure of private aided schools by the State Govt.

According to revised Grant-in-aid Rules rates of tution fees in Private aided schools are also fixed as per fee rates which are prevailling in Government Schools.

Salaries of teachers in Schools for Secondary Education.

، هنه منه هم منه منه و	T <u>1</u> 96:	3-64	7 <u>196</u> 4-6	5
Type of School	Amount srent' 'on teachers'' <u>selaries</u> '		'on teachers'	yearly salari- es_of_Teachers
Higher Secon- dary & High Schools	23,29,300	2050 '4	30,21,814	21 50 '7
Senior Basic Schools	9,98,964	1560 '8	11,78,647	1646 '1
Jr.High Schools	3,35,888	1282'0	2,47,365	1595 '9

In the above table salaries of teachers in schools for boys and girls together have been given. T-he table shows that considerable increase on teachers' salaries was made during the year under report. The increase on teachers' salaries was observed due to increase in the number of teachers in Higher Secondary/ High Schools and Senior Basic Schools and giving higher scale of pay to the newly trained teachers and inclusion of increased D.A. during the year with the existing pay scales. In case of Junior High Schools though the number of teachers was found to be decreased but the average salaries of the existing teachers increased.

Contd.....40.

to be found due to giving of higher scale of pay to the newly trained teachers and inclusion of increased D.A. with the existing pay scales.

Per capita cost of pupils(boys and girls) in Secondary Schools in 1964-65.

_i		Management		
Type of <u>School</u> '_	Government	Priva Aided		Totel
Higher Secondary	148 '6	12012	x	136 '1
High	122 '0	9 6 1 5	x	113 '2
Sr.Basic	156 '4	5217	x	154 '3
Junior High	8019	95 16	160'4	87 16

The above table throws light from different angles upon the per capita cost of students in schools for Secondary education:

Type of School	'Nu	holars mber joyed	hips and stipend; Total value 'per annum	' <u>Concessic</u> 'Number	
Higher Secondary	BG	30 4 267	38732 19284	2734 804	201253 31343
High	B G	11 63	1248 4080	99 202	2830 7764
Senior Basic	B G	39 120	278 3 4337	637 241	12155 5 <i>2</i> 60
Junior High	BG	5 12	630 600	284 116	6439 2764

VIII) <u>Scholarships, Stipends and other Financial Concession:</u>

Out of the total boys girls enjoyed Scholarships, Stipends and Other Financial Concessions in Secondary Schools as shown in the above table 2152 boys and 531 girls belonged to Scheduled Castes, Scheduled Tribes and Other Backward Communities and Rs.1,83,598 and Rs.25,052 were spent for boys and girls respectively. The break up of those students with total value per annum spent for them is given below:-

Contd.....41.

Type_of School_		enjoyed Girls		velue per ennum
Higher Secondary	1542	290	170327	17553
High	61	47	173 5	3319
Senior Basic	350	116	7377	2836
Junior High	199	7 8	4159	1344
TOTAL	2152	531	183598	25052

No.of students enjoying free-studentships in High stage classes(i.e. from Class IX upwards) in Secondary Schools during the year under report is given below:-

Type of this sector is a sector in the sector is a sector is a sector in the sector is a s	Number Boys	enjoyed ' 'Girls ' '	<u>Yearly</u> Boys	amount	foregone Girls	
High/Higher Secondary Schools.	1413	x	41272	usang ganta agun		

Foucation is free to tution fees upto class - VIII in schools for General Education for all sexes, Mucation of girls and women is free upto the completion of Secondary stage in General Foucation.

IX) <u>Method and Standard of Teaching:</u>

Although there is a dearth of preferably qualified and trained teachers particularly in high and higher secondary schools, the standard of teaching may be said to have been raised up to the mark. In teaching languages the structure method is generally followed up to elass VIII. Weekly demonstration classes are also organised by which the Junior members of the teaching staff are benefitted. In teaching Science subjects practical demonstration classes are taken in addition to theoretical classes.

X) <u>Medium of Instruction:</u> Bengali.

XI) <u>Teaching of Hindi</u>:

Teaching of Hindi is compulsory in classes Vi & VII and optional in classes VII to X in all schools for general education.

XII).	<u>Mxamination</u>	Results:

Examination results during the year under report were more fair than in the previous year; and this result is due to improve standard of teaching in secondary schools during the year. Examination results of students belonging to scheduled castes, scheduled tribes and other backward communities only are given below:

Tyne of school		appeard 	No Boys	<u>pass</u> ed ' <u>Girls</u>	· ···· ··· ··· ···
Higheer Secondary	992	202	684	142	
High	127	82	67	58	
Senior Basic	333	65	249	47	
Jun io r High	220	43	160	27	

In the above table combined results of final class of each stage have been given. In casse of High and Higher Secondary Schools results of the School Final & Higher Scondary Examinations have been included.

XIII). School Buildings, Furniture and Equipments:

Detailed break-up of expenditure incurred on buildings, furniture and equipments for Secondary Schools for both boys and girls are given below for the year under report.

Type of Schools	ר – ו 	Buildings	ure incurred in Rs. Furniture & Equipmen	ts' Total
Higher Secondary	B	11,50,219	4,19,007	15,69,226
	G	x	74,579	74,579
High	B	5,000	20,243	25,243
	G	1,15,622	11,969	1,27,591
Senior Basic	B	12,459	41,166	53,625
	G	x	x	x
Jun ior High	B	5,812	6,984	12,796
	G	x	x	x
Totel	BG	11,73, 4 90 1,15,622	4,87,400 86,648	16,60,890 2,02,170
Grand Total		12,89,112	5,73,948	

A look at the above table will clearly show that keen attention has already been given for all round development of the secondary schools both in urban and rural areas. The general condition of all the Higher Secondary/High Schools buildings are satisfactory. Senior Basic School buildings in rural areas are also going to be constructed permanently year after year. Further, the Managing Committee of the Higher Secondary/High Schools and Senior Basic/Junior High "choolsv w are also given grants for the development of their school buildings year after year. Moreover, the Managing Committee of the Secondary Schools snent R.97,408 towards constructional works of the schools buildings from their own resources during the year under report.

XIV) <u>Re-organisation and New Developments</u>:

During the year under report the following development were observed in the field of Secondary Fducation:-

 Three High Schools for girls and four high schools for boys under the management of Government in urban area were upgraded to Higher Secondary.

ii) One Junior High School for girls and five Junior High Schools and ten Senior Basic Schools for boys in urban and rural areas respectivity ively under the management of Government were upgraded to Higher Secondary.
iii) One new Higher Secondary School for boys in rural area was started newly under the management of Government.

Contd.....44.

iv) Ten High Schools and four Junior High Schools for boys under the management of Private Bodies in urban and rural areas respectively were upgraded to Higher Secondary.

v) Thirteen Junior Basic/Primery Schools under the management of Govt.and one Junior Basic School under the management of Private Bodies respectively were upgraded to Senior Basic Schools.

vi) R.12,89,112'00 was spent for the development of existing school building and new constructional works both in urban and rural areas.R.5,73,948'00 was spent on Secondary Schools(both Government and Non-Government) for purchasing of furniture and equipments.

vii) To develop the standard of Science teaching in Non-Govt.High/ Higher Secondary Schools,Government of India,Ministry of Education have been moved of giving grants of Rs.1,17,300'00 for strengthening of Science equipments.

viii) Rs.43,100'00 was spent for acquisition of land/improvement of existing play fields, purchasing of sports equipments, organising of seminars and coaching camps etc. on Secondary Education.

ix) Rs.1,900'00 was given as grants to 10 Non-Government High/ Higher Secondary Schools for purchasing of reference books.

For the development of standard of teaching method in Secondary Education, one Secondary B.T. Teachers: Training College was started newly in urban area and teachers (from both the Government and Non-Government Schools) were deputed to different training colleges in State and outside the State during the year under report.

CHAPTER VI

UNIVERSITY FOUCATION.

I. Institutions.

During the year under report, a College for General Education came into being under private management making the total number of 3 of such Colleges.Besides, to meet the increasing demand at the University stage, a separate Girls Unit was opened at M.B.B.College, Agertals.Of the 3 Colleges for general education in 1964-65, one was managed by the State Government and the rest were managed by private bodies.The Grant-in-aid was continued to one of the privately managed College-R.K.Mahavidyalaya,Kailashahar.All the Colleges are affiliated to the University of Calcutta.

A scheme for introduction of Post-Graduate teaching in some Arts subjects in the M.B.B.College was under-taken in the 3rd Five Vear Plan.During the year under report some equipments, books, funiture etc were purchased for the purpose. In the M.B.B.College, a good number of vacant posts was filled up and requisition for filling up the remaining vacant posts was sent to the Union Public Service Commission.Grants were released for development and improvement of the privately managed colleges.

Subjects of study in the Colleges.

(a)<u>M.B.B.College(Government)</u>.

Pre-University - Arts and Science.

English (compulsory), Elective English, Bengali, Elective Bengali, Sanskrit, Elements of Economics and Civics, Logic, History, Commercial Geography, Commercial Arithmetic and Book-Keeping, Mathematics, Chemistry, Physics, Biology, Botany and Zoology.

B.A.

Finglish (General) Bengeli(Comrulsory), Finglish. (Pass & Hons).

Contd.....48.

Tonomics(Pass & Hons.), History(Pass & Hons.), Sanskrit (Pass & Hons.), Tlective Bangali(Pass & Hons.), Philosophy(Pass & Hons.), Education (Pass & Hons.), Mathematics (Pass & Hons.), Political Seience (Pass & Hons.) and Psychology (Pass & Hons.).

B.Sc. (Pass & Hons.)

Physics, Chemistry, Mathemetics, Zoology, Botany, Statistics, Physiology, Psychology.

B.Com.

English and Bengeli in the Language Group, Economics (Compulsory), Commercial Geography (Compulsory), Commercial and Industrial Law (Compulsory), Commercial Arithmetic (Compulsory), Auditing (Compulsory), Business Organisation (Compulsory), Accountancy (Compulsory), (Pass & Hons) and Advance Accountancy, Banking & Currency.

(b) <u>R.K.Mehavidyaleya (Private aided)</u>

Pre-University Arts and Secience.

English (Compulsory), Bengali, Mective Bengali, Mements of Monomics and Civics, Logics, History, Mathematics, Commercial Aritmetic & Book-Keeping, Sanskrit, Physics, Chemistry, Biology, Botany and Zoology.

B. A. (Pass)

English, Bengali, History, Economics and Sanskrit.

(c) <u>Belonia College (Private aided)</u> <u>Pre-University Arts and Science</u>.

English (Compulsory), Bengali, Elective Bengali, Elements of Economics and Civics, History, Commercial Geography and Logic.

B.A. (Pass)

English, Bengali, Economics, Polotical Science, History and Philosophy.

II) <u>Students.</u> Enrolment, specially of girls, in the Colleges for general education increased considerably during the year under report. In 1963-64, the total enrolment in the Colleges was 1777 which rose to 2386 in 1964-65 and the rate of increase was 34'2%, where as it was 7% in 1963-64.

Statement of position and progress of enrolment at the collegiate stage.

Menegement	<u>'Boys'</u>	<u>enrolmen</u> <u>G-irls</u> 3.	rural

Increase(+) or Decrease(-) in 1964-65.	+457	+152	+130	+11	

From the above table it is clear that increase in girls enrolment also was remarkable.

Out of total enrolment in the Colleges,454 boys and 47 girls belonged to backward classes and the breakup was Sch.Caste boys 142 and girls 9 ,Sch.Tribes boys 97 and girls 20, other backward Communities boys 215 and girls 18.

There are 5 hostels including 1 for girls attached to Colleges for general education with 200 hostders in them.Of the total hostels 3 were attached to Government College.

III) <u>Reachers.</u>

Due to appointment to vacant posts of the Government Arts and Science Colleges and starting of private College, number of teachers in such Colleges increased to a considerable extent. Moveover, requisition was sent to the Union Public Service Commision for selection of suitable persons to the remaining vacant posts.

Post	tion_c	t teachers	in the C	olleseq

IV)Ernenditure.

During the year under report, total expenditure of the Govt. as well as of the Non-Govt.College had considerable increased.The total expenditure in 1963-64 was k.18,67,118 which rose to k.20,30,030 and the rate of increase was 8 7%.The total expenditure includes k. 9,32,395 as direct charges.The same was k.7,25,976 in 1963-64.Except in the case of Endowment and other sources the position of expenditure from dirr different sources remained almost unchanged during the year under report.

The source s-wise distribution of Direct expenditure is given below:

1904-05.								
College	Govt fund	Fees	'Endowments & & '_ other sources _'_	Total				
Govt.College	591889	187072	516	779477				
Non-Govt. College.	743 86	69050	9482	15 29 18				
Total :	666276	256122		932 395				
Total direct in 1963-64,	536877	173609	15490	725976				
Increase(+) or - Decrease(-)	+129398	+ 82513	• 5492 +	206419				

From the above table it appears that expenditure from all sources except that from other sources had considerable increase and that 71'4% of the total direct expenditure was spent from the Government fund.Expenditure met from collection of fees as well as other sources are much mearge in comparison with that of Govt.fund.The per capita cost of students in Government and NoneGovernment Colleges were B. 426'0 and B. 275'3 during this year.

1964-65.

Indicate expenditure of both Government and Non-Government Colleges is given below by sources and items.

	ı - ·		Sources	
Item	Govt fund		Badowments & '	Total
l.Building including furniture & equipments.	762818	1920	38677	803415
2. Scholar ships, Stipends & other financial concessions.	260862	•	688]	261550
3.Hostels.	74 80	192	16356	24028
4.Miscellaneous.	7133	•	1509	8642
Total :	L038 29 3	2112	57230	1097635

In the case of indirect expenditure also the lion share is claimed by the Govt. fund. Expenditure on building construction and purchase of furniture equipments covered 91%% of the total indirect expenditure.

V) Scholerships. Stipends and other sources.

In the colleges for general education total 437 boys and 288 girls enjoyed scholarships and stipends for which E.1,08,009 and E.93,962 were spent for the purpose respectively. An amount of E.59,579 was given to students as financial assistance at this stage in the form of book-grants, hostels stipends, lump assistance etc. Of the total students 220 boys and 26 girls belonging to backward class enjoyed stipend and financial assistance. Total 335 boys and 183 girls and enjoyed free-ship and an amount of E.61,775/-was foregone for the purpose during the year under report.

VI)Method and Standard of Teaching.

The method of teaching remained the same as it was in the previous year.

Due to strengthening of staff, provision of well equipped Science Laborratory, purchase of books for library etc., teaching standard in the Colleges improved considerably. In variebly tutorial classes were arranged in all subjects. In the Gowernment College Honours in all Arts & Science Subjects were offered.

VII) Medium of Instruction.

Lecture were generally delivered in English, Bengali is also allowed as medium of instruction,

VIII) Examination Results.

The colleges for general education of this Territory are affiliated to the University of Calcutta, Examination results of the students appeared from the recognized colleges are given below. The results of the private students appeared in the centres of Tripura have not yet been received from the University of Calcutta.

From Recognised Institutions.

IX) Building and Bouipment.

Every College for general Education has its own building. The building of the Government College is fairly good.For accommodation heavy rush of students at this stage, the College building was extended.During the year under report an amount of B.4,59,837/- was spent by the State P.W.D.for constructional works of the extension of College building, staff quarters,Science laboratory etc.In Non-Government College the same expenditure was B.82,294/-. Grants were released by State Government to R.K. Mahavidyalays for construction of College building.

X) <u>Research in the Universities.</u>

There was no University in this Territory during the year under report. No research work was conducted in the Colleges.

XI) <u>Re-Organisation and New Development.</u>

For offering more education facilities to girls students, a self contained unit for girls was opened in the NE.M.B.B.College during the year.For improvement of Science teaching laboratory facilities were expanded.A good many posts of staff in the Government College were filled up and also requisitions were placed to the Union Public Service Commission for selection suitably qualified g candidates for the remaining vacant posts.With a view to meeting the shortage of female teachers in this Territory, stipends and scholarships were awarded on liberal basis to girls students. During the year, 138 boys and 25 girls were given stipends to continue their studies in different universities out-side this Territory.In addition to existing private aided College, one College for general education started functioning under private menagement during the year.

Chapter -VII

Training of Teachers.

I) Normal and Training Schools.

In this Territory, there was no normal and Training School during the year under report. II). Teachers' Training Colleges.

To meet the increasing demand of trained teachers in the Secondary Schools as well as for expansion of training facilities in the Territory one B.T. (Secondary teachers training)College started functioning in the state headquarter under the Government management. Hence including the aforesaid B.T.College, the total number of teachers training Colleges came to 6 during the year. Of the total number of training Colleges 3 were basic training Colleges and the rest were non-basic. The Non-Basic Colleges were: 1) B.T. (Secondary Teachers' Training)College, 2) Hindi Teachers' Training College and 3) Craft Teachers' Training Institute Recept 2 Basic Training Colleges all the Teachers' Training Colleges were situated in the State headquarter. All the Colleges were run by the State Government. Except Hindi Teachers' Training Colleges, duration of courses in the Training Colleges was 1 year. Duration of courses in the Hindi Teachers' Training College was of 1 year for the trained teachers and 2 years for Under-Graduate un-trained teachers. There was also arrangement for Training in Sr. Course in this College with one year for trained Graduates and 2 years for untrained Graduates.

Except Hindi Teachersi Training College, trainees for these training Colleges are generally selected from the untrained teachers of this Territory.

(b)Under-Graduate Course	260	41	222	32 1			
Total :	459	83	368	63	80	5	

Most of the trainees of these training Colleges came from the Schools in rural areas. Number of trainees in these Colleges depends on as many as untrained teachers are sparable for under-going training during the year.

EXPENDITURE.

During the year under review, k.54,6225 and k.785027 were spent as direct and indirect charges on the training Colleges and whole amount was incurred from the Government fund. A meagre portion of expenditure amounting k.14,116 was met from sale proceeds which was deposited to the Government Treasury as revenue. Each of the trainees was granted k.50/~ p.m. as stipends.

III) Re-Organisation and New Development.

Establishment of one B.T. (Secondary Teachers' Training) College during the year was an important step towards expansion of teachers' training facilities in this Territory.

During the year annual intake capacity of the B.T.College Hostel was 60. The College had its own building and extension and construction of building were continued. The teaching staff of the Training Colleges was strengthened by filling up the vacant posts. For expansion of annual intake capacity. Extension of buildings were taken up by the P.W.D. of the State Government, Consequently Hostel facilities were also expanded, During the year 18 teachers of Secondary School teachers were sent to the different Colleges out side the Territory for B.T. and B.Ed. Training.

Chapter - VIII.

Professional and Technical Education:

I(A) Schoolse

The Polytechnic Institute was returned as Professional and Technical School in the previous year was shown as Under Graduate Professional Colleges during the year under report and the information of this College has been given seperately in item No.II. The Professional & Technical Schools in this Territory were run by the different Departments of the Government of Tripura during the year under report. The number, type and management of the schools are given below:

Number of professional and technical schools decreased by one as the Polytechnic Institute was of school standard upto the year 1963-64, During the year under report the said school was returned as Under Graduate Professional College.

(B) <u>Students</u>

Type of Institutions		Students belonging to S.T.,S.C. &	Others		Studentsfrom rural areas
Agriculturel School	Ē	15 x	 48 X	63 x	63 x
Nursing Trg. Centre	E	x 13	x 58	x 71	x 47
Industrial Trg. Institute(Arts & Crefts)	E	119 21	296 62	415 83	264 69
	E		344 120	478 154	327 116
Total number of students in the se schools in 1963-6			5 3 3 110	643 155	383 63

From the above table it will be seen that the number

of the students in this schools increased considerably during the year than that of privious year.Number of students from the rural areas also increased **Guring** the year as because the students seeking admission from rural areas were given the first preference and it was the intension of the Government to give facilities to the rural people.

(C). <u>Teachers</u>:

	-	1	Number of	teachers	
Type of Schools		'Possessing 'Degree	'Possessing 'Diploma/	Possessing no	Total

					-

The Exemination of the Nursing Training Centre is conducted by the Assam Nursing Centre, Shillong, Examinations of the Agricultural Trg. School and Industrial Training Institute are conducted by the parent Department.

- 62-(E) <u>Direct Expenditure by sources</u>.

"Expenditure Fees 'Other ' 1 Type of Govt. Total 'on salaries of teachers Institutions. Fund Sources - 7 1 -3. 1. 2. 4. 5. 6. 1,55,562 Industrial Training 1,55,552 1,03,145 Institute Nursing Training 9,877 9,877 9,877 Centre 40,452 40,462 Agricultural 17,300 <u>Training Centre</u> 2,05,881 Total 2,05,881 1,30,322

The above table shows that the total expenditure met from the Govt. Fund, as Education is free in all the above schools.

The total direct expenditure of these schools decreased from Rs.4,74,966 to 2,05,881 and expenditure on teachers salaries decreased from Rs.1,87,177 to 1,30,322 as one Engineering (Polytechnic) school was returned as Under Graduate Professional Colleges during the year for which such abnormal decrease was observed.

II). Colleges for Professional and Technical Education.

There were two Colleges for Professional Education in this Territory during the year under report except the Teachers' Training Colleges of which details have been given in <u>Chapter-VII</u>.

Further, all efforts were made to start one Engineering College (Degree Course) in this Territory during the following year under report.

Type-wise number of Colleges under the management of Govt, with enrolment and teachers in them are given below:-

II(A)

Type of College		Girls	nt 'Total		Teacher Women		
Engineering (Polytechnic)	257	•	257	22		22	
Music College	8+(4)	9+(65)	17+ (69	9) 19	4	23

Total students in 1963-64	275+(29	<u>)38+(18</u>	3 <u>)</u> 3 <u>1</u> 3+(212)32	3_	35	
Increase (+) or Decrease (-) than 1963-64	-10+(25)=29+(1	18)-39+	(143) +	9 + 1	+ 10	

A look at the above table shows that the number of Students

both boys and girls decreased furing the year and this decrease was found only in music College as at the time of first admission of students in Music College strictness was observed.During the year under report one Music College was statted newly by the Education Department and as a result of which the Private Aided Music College coased functioning and most of the qualified Teachers of the Private Aided Music College max were given appointment in the Govt. Music College.

II(B) Direct Expenditure on Professional Colleges By sources are given below:

III). <u>All Indie Institutions:</u>

There was no such institution in this Territory during the year under report.

IV). <u>Remorganisation and New Developments</u>

Rapid development of Industry and Agriculture has resulted in increasing demand for technically trained persons for the purpose. To met the demand, the Engineering Institute was started furing the Second Plan with 3 years Diploma Course in Civil, Mechanical and Electrical Engineering. In view of the satisfactory resoponse from the local students the total intake capacity of the Institute has been **xxided** raised to 480 during the year under report. The Nursing Training Centre attached to the V.M. Hospital, Agartala, under Medical Department continued to function during this year. This centre offers training in certificate course to the trainees. The Certificate are awarded by the Assam Nursing Council, **xxiii**-Shillong to those candidates who have completed 2 years training course of Health VIsitors, Senior Nurse and Auniliery Nurse-cum-Midwifery. - 64 -

CHAPTER -IX

Social Education.

I. Centres and Literacy classes including Post-Literacy Classes etc.

Social education Centres and Adult Literacy Centres in this Territory are mainly run by the Education.Only a few Centres are run by the private bodies and Tripura State Social Welfare Advisory Board. In the Block areas social education centres and adult literacy centres run by the Education Department are directly supervised by the Block Development Officers.Social Education Centres under private bodies received grants from the Education Department and T.S.S.W.A.Board. There were 9 centres under private bodies and 8 centres were under management and control of Tripura State Social Welfare Advisory Board respectively.

Social Education Centres are of co-ordinating parttern. Different kinds of Social activities along with driving out of illitaracy are done in the centres.

During the year under report, activities in the field of Social Education were concentrated to consolidation rather than to expansion. In this field gas qualitative improvement was maintained. There were total 504 Social Education Centres and adult literacy centres during the year of which 318 were for men and the rest were for women only. Of the total 504 social education and adult literacy centres includes 68 and 26 adult literacy centres for men and women respectively which are run by adult literacy teachers on allowance basis. There was no post-Literacy class in this Territory during the year under report. Total number of Social Education Workers and adult literacy teachers engaged in these centre were 609 of ehich 398 were mele. Of the total Social education workers 398 male and 194 female were working in centres under Government management.

II) Enrolment.

10945 male and 4556 female adults were enrolled in these centres during 1964-65 of which 5414 male and 2075 females were made literate. The total enrolment includes 231 females in the centres under private bodies and T.S.S.W.A.Board. Up-to the year under report, 97309 male and 27670 female adults were made literate in this Territory.

III) Duration of Sessions.

Duration of Session in all the Social Education Centres and adult literacy centres was of six months during the year. IV) Expenditure.

An amount of k.10,20,599 was spent for salary of the Social Education Workers and adult literacy teachers. The total direct expenditure incurred for these centres was k.11,12,702. The corresponding

figure was k.9,37,580 in 1963-64. The direct expenditure for the Government EX centres was k.11,12,702 and the total amount was spent from the Government fund. An amount of k.4,24,971 was spent for all the Social Education Centres as indirect expenditure during the year under report. This expenditure includes the expenditure on construction of building, purchase of equipments & furniture, library services and other miscellaneous items in Social Education including production literature for new-literates.

V) Production of Literatures and Audio-Visual Mit Alds.

For the new -literates the following books were pursuant published by the Education Department of this Territory during the year.l Saranjanhim Sadharan Khela-Bengali(Language).

For printing and publication of the above mentioned books an amount of E.12,400 was spent. A monthly magazine under the Title of "Sakshar" continued to be published for the neo-literates. Publication of the "Granthalok" from the Birchandra Library was also continued. The existing Audio-Visual Unit was strengthened by appointment of staff and supply of necessary equipments. A good number of films and powerful projector were purchased for Mobile Cinema Unit. 300 cinema shows were arranged which were attended by 95,000 people approximately. Majority of the shows were arranged in the rural areas. Suitable films regarding civil defence organisation were procured.

VI) <u>Re-Organisation and New Development</u>.

During the year under report, no new schemes for social Education was introduced.Schemes of the 3rd Plan started previously continued this year. No new centre was started.But some centres were shifted to new places from the old places according to necessity. Libraries were equipped with more books and journels.Some rural Libraries were established by Youth Clubs and Organisations.Audiovisual Unit was supplied with necessary spare parts, necessary films etc.

1. Nursing Training Centre		1	1		
Schools for Social Education:					
1. Social Education Centre (Schools for adults)		192	186		
	Total	206	201		

The detailed information of these institutions have been given in the previous respective chapters. The above mentioned institutions were specially meant for Girls and Women. Besides, girls students were allowed to read in the institutions for boys where there was no separate arrangement for girls' education. Further, the girl students are also allowed in boys' schools i where the girls cannot be accommodated in girls' schools. During the year under report 3 High Schools and one Junior High Schools for girls' were converted to Higher Secondary Schools.

II) <u>Scholars</u>:

The number of girl students under girls' Institutions as well as_under_boys '_institutions are given below:___ Total number of girl <u> 1964–65</u> Type of Institution ۲ No.of girls in ⁷ students in 1963-64 Total _enrolment 'total_enrolment_' 441 1. Total	198 265 +(2063)	71688 +(631)	65497(602)		

A look at the above statement will show that the number of girls under instructions in girls' and boys' schools considerably increased from 65497(602) to 71688(631) during the year under report. The increase in the number of girls students observed as various steps were taken for promotion of women's education in this Territory.

III) <u>Co-Educations</u>

Co-education was allowed in all institutions for General education upto the middle stage schools and in many of the Higher Secondary/High Schools. The Arts and Science Colleges are also co-educational and also most of the professional.Colleges and institutions except the Agricultural Training Centre, Engineering School, Nursing Training Centre and Some adult education centres.

IV). <u>Teachers</u>:

Type of Institutions	No. of female teachers in institutions for							
	1963-64	1964 - 65	Increase (+) Decrease (+)					
	2							
Arts & Science College	9	16	+ 6

Nursery Schools/ Balawadi Centres	37	4 6	+ 9					
Schools for professional/ special/vacational & other educational centres		203	+ 8					
Total	<u>1385</u> ;							

The above table shows that the number of female teachers increased considerably in schools for general education and professional education during the year under report. The percentage of female teachers to total was 22'9 during the year as compared to 27'6 in the previous year.

V). Examination Results:

Examination results of the girl students have been given in the previous relevant chapters.

VI). Scholarships, Stipends & Other Financial Concessions:

Girl students enjoyed scholarships, stipends & other financial concessions in the following institutions:

Type of Institutions		ar ships Stipends 'Total Emount 'spent	' Other F ' <u>Concess</u> 'Number 'enjoyed	Total amount
Arts & Science College	288	93,962	289	42,412

Senior Basic School	•	14248	-	10065
Nursing Trg.Centre	5565	987 7	5415	9727
Schools for adults (Social Education centre)	315838	380153	29172 5	38559 6

Contd.....73.

From the above comparative statement it will show the increase and decrease in the total Direct Expenditure for girls only. The causes of increase in expenditure in these schools were as follows:~

1) 3 High Schools and one Junior High School with good number of teachers in them were converted into Higher Secondary Schools for which more expenditure was incurred on SE salaries/allowances etc. of the teachers of Higher Secondary Schools.

2) Pay scale of the Teachers in Nursing Training Centre was raised with retrospective effect during the year for which more expenditure was incurred on salaries/allowances etc.

The causes of decrease in Direct Expenditure in High and Junior High Schools were as follows:

1) Decrease in expenditure on teachers' salaries in High and Junior High Schools for girls was due to decrease in the number of teachers during the year under report as stated above.

VIII). Special steps taken for promotion of Education for girls and woemn:

The number of girl students increased from 65497(602) to 71688(631) during the year under report in institutions for all types due to taking of various measures for girls education. Almost all the girl students of the Arts & Science Colleges were awarded stipends & ther financial assistance to cover up some portions of their educational expanses. Girls education has been made free up to class XI in this Territory in schools for general education. A separte girls hostel is also attached to the College for the facility of girls' higher education. In all 205 females teachers were also appointed in all types of institutions during the year under report.

IX). Female Suppervisory staff:

There were no separate Directorate or Inspectorate for female education in this Territory during the year under report. In the Education Directorate there is one Dy.Director (Women's Programme) to assists the Director of Education in matters of women's education and Child Welfare.

The following executive and supervisory staff worked during the year in Tripura under Education Directorate.

Designation:

No.of Posts:

1. Deputy Director(Women's Programme), (Government of Tripura)	1
2. Chief Social Education Organiser, (G-overnment of Tripura)	1
3.Mukshya Sevika(Government of Tripura)	13

CHAPTER -XI

I) <u>Pre-primery Education</u>:

During in the year under report, there were 367 Balwadi centres including onw Nursery school of which 35 were under the management of private Bodies. The total number of such institutions rose from 358 to 367 in comparison with that of previous year. Education is free in the Nursery School/Balwadi Centres. Except the teachers in one Nursery school at Agartale, these teachers of the adjacent adult literacy centres had to run these balwadi centres in addition to their normal duties, as there no teachers specially ment for balwadi centres.

Out of the 16723 students of balwadi centres, 8504 were girls. T-he progress in the number of students during the year was reaily remarkable. The total direct expenditure in Government managed Nursery School including Balwadi centres rose from Bs.49,311 to 50,965 during the year under report and a remarkable amount was spent for purchasing of Balwadi equipments to equip the existing such centres.

In the Private Aided Balwadi centres the total direct expenditure decreased from 18.59,504 to 50,965 during the year under report. This decrease was observed during the year due to payment of arrear salaries in the year 1963-64.

II). There was one College of Music under the management of Government during the year instead of 2 Music schools and one College for Music under the management of Private Bodies in the previous year. Due to starting of Music college by the Education Deptt.Government of Tripura during the year, the Private Aided Music College and 2 Music Schools ceased functioning. The total number of students in the Government Music College was 17+(69) including 9+(65) girls during the year. The total direct expenditure in the said college was b.48,143'00 .

- 77 -

III. <u>Schools for Oriental Studies(Tols and Madrasas</u>)

The total number of Tols and Madrasas was 24 and out of thes 2 Sanskrit Tols were under the management of Government.

The total number of students in schools for oriental studies were 131+(486) including 16+(145) girls.

The total number of teachers in these schools were 40+(3) during the year.

IV). Education of the Handicapped.

There was no institution for handicapped in this Territory during the year under report and no such scheme was taken for educational and vocational training **fs** of the handicapped upto the 2nd Plan period. But during the Third Five Year Plan, provision has been made for giving financial assistance and stipends to different categories of handicapped children under going vocational training and receiving general education.

During the year under report k.23,610 and k9,840 were given as stipends to 62 boys and 25 girls handicapped students studying inside the state in schools for general education.

Further an amount of k. 9,000/- and k.1,800/- were also sanctioned to 15 boys and 3 girls handicapped students studying out-side the state.

V. Education of Deliguent children:

There was no such institution in this Territory during the year under report.

VI. Education of the Scheduled Caste/Tribes and Other Backward Communities:

Previously there was one Senior Basic School specially meant for Scheduled Tribes in which only scheduled tribe students were taken in. Now the school caters education to all irrespective of caste and creed, but priority is given to Sch. Tribe students. Out of the total 120 boys and 5 girls , there were 96 boys and 2 girls students belonging to scheduled tribes.

Apart from the above facility there were many ** Junior Basic and Senior Basic Schools opened in the areas predomina inhabited by the tribal people. Arrangements for free hostel facilities were made for scheduled Tribes/Scheduled Caste students in all stages of education.

A detailed break up of the number of pupils belonging to Scheduled Castes/Tribes in Colleges and Schools for General Education and hostel residents-of those communities residing in the Hostels for Sch.Castes/Tribes and other hostels attached to Institutions are shown in the Statement below:*

CHAPTER - XII

A CRITICAL REVIEW OF EDUCATIONAL TENDENCIES AND DEVELOPMENTS:

- 86 -

Chapter- XII.

CRITICAL REVIEW OF EDUCATIONAL TENDENCIES AND DEVELOPMENT FOR THE YEAR 1964-65

Primary and Junior Basic Education:

Creation of facilities for the education of all children in the age group 6-11 was laid down as 'One of the central aims of the Third Five Year Plan'. To give effect to this objective and render educational facilities to all children of the above age group the scheme for expansion of education at the Primary Stage was Launched.

A remarkable progress was made in regard to enrolment of children of age group 6-11 and it has been expected that at the end of Third Five Year Plan more than 90% of the children of that age group be brought to school. There is no gainsaying the fact that not only a high momentum for quantitative expansion has been created but matching conditions in qualitative point of view have been provided to §ustain the momentum and those are the fallowing:

 Heads of the Institution have been advised to give special stress on craft work and spend major portion of school contingency in productive works.

2) Heads of Institutions have been further advised that the basis of teaching should be the organisation of the subject matter into units or progects which would create opportunities for selfactivity on the part of the students.

3) They have been further advised to make the teaching programme more interesting by importing correlated teachings with life situation and natural environments.

4) They have been advised that practical and creative activity should find a prominent and honoured place in the school programme.

5) Provision of attendance scholarship has given incentives to girl students to attend schools regularly.

Orientation Programme:

The programme of orientation towards: Basic pattern began during Second Five Year Plan. It continued during the Third Plan. A common syllabus for Basic and Non-Basic Schools has been framed and it has been introduced to all Basic and Non-Basic Schools.Crafts like agriculture, spinning and weaving, clay modelling, paper cutting,Book binding, toy making etc have been introduced in a good number of schools.

Special Feature:

Every school usually begins its work with 'Safai' work followed by daily prayer in which all teachers and students join together. The assembly offers a great opportunity for useful Educational work. Observation of silence is a special feature in all Schools. Co-Curricular activities, projects and creative works have been encouraged and a good MEMDER effect has been made on the minds of students. The technique of correlated teaching occupies a vital role in Basic Education. But unfortunately this technique has not fully developed due to various drawbacks. Absence of suitable guide books for teachers want of suitable books for children, want of long course Basic trained teachers, non-availability of well qualified teachers, accommodation difficulties of teachers nearly schools etc are some of the drawbacks worth to be mentioned.

Single Teacher Schools:

There were 365 single teacher schools during the year under review. These schools are serving the Education of more backward and sparsely populated areas. While in framing the syllabus of short orientation programme of Basic Education a special item of organisation of the single Teacher Schools was included, so that the single Teacher must make a wise and econimical use of the school day.

Model Primary Schools:

A programme of starting of 8 Model Primary Schools was undertaken in the year, 1964 to serve as centres of improved teaching technique and co-curricular activities.

Teachers! Training:

One Craft Training Institute and three Basic Training Colleges have met the requirements of trained teachers to a great extent. These Institutions also have provided educational leadership by by carrying research in new techniques.

- 87 -

Secondary Education:~

The plan viewed the conversion of High Schools into Higher Secondary Schools as essentially the programme of improving the quality and content of Secondary Education with a view to adaptation to the changing social and economic needs.

The number of High/Higher Secondary Schools was 34 in 1960 i.e.last year of the Second Plan which rose to 70 during last 4 years of the Third Plan. A remarkable progress was akso observed in case of Senior Basic Schools. The number of ^Senior **Basits** Bas-ic Schools rose from 43 to 106 during the 1st 4 year of the Third Plan.

During the year under review, number of students under instruction in Secondary Schools considerably increased from 36,779 to 40,880 out of which 13,003 were girls and the rate of increase of enrolment was most 11'1. The rate of increase of girls' enrolment w was 10'8. The average daily attendance, also increased during the year co-education was allowed in some Secondary Schools where there were no separate facilities for girls' Education.

The number of teachers, men as well as women increased satisfactorily in Senior Basic ,High and Higher Secondary Schools. The teacher pupil ratio was 1:18 during the year under review.

Education is free of tuition fees upto class -VIII in Schools for General Education for all sexes. Education of girls and women is free upto the completion of Secondary stage in General Education. Scholarships, stipends and other financial concessions were awarded on a libural basis.

The general condition of all the High/Higher Secondary Schools buildings are satisfactory.Senior Basic School buildings are also going to be constructed permanently year after year.

To rise the standard of teaching in Secondary Education. One Secondary B.T. Teachers "Training College was started newly in urban area and teachers were depuded to different training colleges in State and outside the state during the year unde-r review.

Collegiate Education:-

During the year under review, a College for General Education came into being under private management making the total number 3 of such colleges.Besides a separate girls unit was opened at M.B.B.college, Agartala.A scheme for introduction of post-Graduate Training in some Arts subjects in the M.B.B.college was undertaken in the 3rd Five Year Plan.During the year under review some equipments, books, furniture etc were purchased for the purpose.

There are five hostels including one for girls attached to colleges for genera-1 Education with 200 boarders in them.Of the total five hostels there were attached to Govt.colleges

At the stage of collegiate education financial assistance in the form of Book-grants, hostel stipends, lump assistance etc were awarded to the students on liberal basis.

Teaching standard in the colleges improved considerably due to strengthening of teaching staff, provision of well equipped Science Labomatory, purchase of books for Library etc. Lectures were generally delivered in English, Exe Bengali is also allowed as medium of instruction.

Professional and Technical Education:

Due to rapid development in industry and agriculture, demand for technically trained person has steadily increased. In view of the satisfactory response from the local students the total intake capacity of polytechnic under graduate college has been raised to 480 during the year. All efforts were made to start one Engineering college (Degree course) in this Territory during the following year under report. Moreover, one Music college was started newly by the Education Department.

Contd.....90.

Social Education:-

Until just before the First Plan, efforts in Social Education were mainly confined to literacy drives among the adults. This restricted interpretation of Social Education was, however, found inadequate to meet the requirments of post-independence years. The special committee which v was set up in 1948 by the Central Advisory Board of Education for this purpose stated that a comprehensive programme of Social Education should include education in citizenship, health, agriculture and handicrafts in order to bring it as close as possible to social reconstruction.

During the First and Second Plans measures were taken to translate into action this enlarged conception of Social Education. In the Third Plan emphasis was given to consolidation rather than on expansion, Schemes of the 3rd Plan started previously continued in the year under review. No new centre was started; but a few centres were shifted to new places according to necessity.

For the neo-literates "Saranjan-him Sadharan Khela" a Bengali Book was published and a monthly magazine under the title of "Sakshar" continued to be published, Publication of the "Granthalok "from the Birchandra Library was also contined. Some rural libraries were established by Youth Clubs and Organisations, Audio-Visual Unit was provided with suitable films regarding civil defence organisation. Pre-Primary Education:-

During the year under review, there were 367 Balwadi Centres and one Nursery School. Pre-Primary Education is free in this Territory. Teachers of the adjacent adult literacy centres were engaged to run the Balwadi Centres.

Previously there was one Senior Basic School specially meant for scheduled Tribes. Now the school are imparting education to all irrespective of caste and creed. However, priority in that school is gam given to scheduled tribe students. Education of Scheduled Tribes/Castes and Other Backward Communities is free in all schools and Colleges for general education.

Physical Education:-

For qualitative improvement in games and gymnastics several coaching camps were organised during the year under review, 75 teachers were deputed for long course Physical Training outside the Territory.Inter-school Competitions in games and sports were organised in all the schools.The school teams were sent to Jaipur and Patna to peparticipate in the Autumn and Winter Meets respectively.

Swimming competitions were organised in this Territory. Tripura boys also participated in two simming competitions out-side Tripura and showed great proficiency as sportsmen. Short course Training Centres were organised for teachers of Primary, Middle and High Schools.

National Physical Efficiency test was organised in 39 centres where 4503 students were tested and 2780 students were qualified in the test. One permanent testing centre was also opened at Agartala.

During the year 135 boys and girls organised Hiking and Cycling groups and undertook tour in different places of enterest.

One Scout Master Training Camp and one Guide Guiders training camp were organised in Tripura. Two social service camps were organised with 100 scouts and 13 guides.

Contd......92.

Natioanl Cadet Crops were organised in Tripura in three Wings -Naval Wing, Army Wing and Air Wing. During the year under review the N.C.C.Unit was raised in number. Expansion of A.C.C. unit has been stopped.
