ANDAMAN AND NICOBAR ADMINISTRATION

## FOURTH FIVE YEAR PLAN

ANDAMAN AND NICOBAR ISLANDS

(1969-74)

### INTRODUCTION.

The Planning Commission has approved an outlay of Rs.14 crores for the territory's Fourth Five Year Plan. The sectorwise outlays are as follows:-

<u>Head of development</u>	<u>Outlays</u>
1. Agricultural Programmes	125.440 Lakhs.
2. Co-operation & Community Development	32.900 "
3. Power	55.000 "
4. Industries	5.110 "
5. Transport and Communications	779.203 "
6. Social services	384.247 "
Miscellaneous	18.100 "
Total	1400.000 "

The programmes included in the Fourth Plan relates only to the normal development programmes to be implemented by this Administration and do not include the programmes under the Accelerated Development Programme of the Ministry of Labour, Employment and Rehabilitation (Department of Rehabilitation), nor the construction of jetties by the Ministry of Transport and Shipping.

The improvement of transport and communications and the need to accelerate the tempo of development in the Agriculture sector are given high priority in the Plan. As the islands are far away from the mainland, there is an urgent need for improving the communications with the mainland, between the islands and on the islands. Some of the ships plying between the islands and the mainland are too old and slow and the Administration has been in touch with the Shipping Corporation for replacing those

-:ii:-

ships by faster and smaller ships capable of making more frequent runs to the mainland. Provision has been made in the Plan for more ferry boats required for short coastal trips and improvement of harbour facilities. High priority is also being given to development of road communication particularly the Grand Trunk Road which is to link up the three main islands of the Andaman group. Port Blair and Mayabunder is likely to be linked up by the end of the Plan period.

Most of the islands suffer from acute shortage of drinking water during the dry season and Port Blair is the worst affected. Apart from the normal arrangements for meeting the requirements of water, a crash programme for Port Blair is being undertaken by the M.E.S.

Some additional schemes have been included under 'Agriculture' and 'Animal Husbandry' on the advice of the Study Teams of the Ministry of Food & Agriculture which visited these islands last year. The new scheme include introduction of tractors, establishment of an Agriculture Marketing Organisation and development of poultry and livestock by inducting superior stock from the mainland at subsidised rates. The existing subsidies on fertiliser, high yielding seed, plant protection equipment and chemicals, pump sets etc. will need to be continued during the Plan period as most of the cultivators are still hesitant to take up improved farm practices on any large scale. More emphasis is also to be given to soil conservation. The fisheries scheme in the plan is a modest one as large scale fishing operations are to be taken up in the Accelerated

-:iii:-

### Development Programme of the Ministry of Rehabilitation.

There has been very considerable physical expansion in Education during the first three plans. While further expansion is necessary to cater for the new settlers, emphasis will be in consolidating and improving the existing institutions during the Fourth Plan.

Science Agriculture and Commerce subjects are being introduced in selected schools as would make education more work oriented. At the University level science and commerce facilities will be provided in the Government Arts Degree College, Port Blair. The intake in the Teachers' Training School is to be increased.

Scheme No.1

1. Name of scheme. Grant of Financial Assistance to cultivators for raising coconut, arecanut, fruits and other horticultural crops.

2. Objectives for the Fourth Plan.

The scheme envisages advancing long term loans to farmers at the rate of Rs.350/- per acre for bringing more areas under coconut, arecanut, fruit and other horticultural crops. The loan is admissible in two instalments of Rs.250/- and Rs.100/- each for clearing the land and developing it respectively. The entire cost of transporting the planting materials from the mainland is proposed to be subsidised. As regards the actual costs subsidy of 50% is proposed in the case of fruit plants and other planting materials. A further concession proposed is the conversion of 25% of the loan into a subsidy in the fourth year from the date of disbursement of the second instalment of the loan if the plantation had been raised and maintained properly. About 500 hecs. under coconut, 250 hecs. under arecanut and 250 hecs. under fruit crops has been targeted for.

3. Fourth Plan outlay: Rs. 4.605 lakhs.

4. Details of estimated expenditure.

..  
Scheme No.2

1. Name of scheme. Supply of seeds, manures, Implements etc. to cultivators.

2. Objectives for the Fourth Plan.

This scheme envisages distribution of improved seeds, implements, fertilisers at subsidised rates. The subsidy proposed is 50% of the cost in the case of improved seeds and implements. The subsidy proposed for fertilisers is 115% of the cost in the case of nitrogenous fertiliser and 25% of the cost in the case of phosphatic fertilisers. For all those items the cost of transport on the mainland is proposed to be fully subsidised. Short term loans for purchasing fertiliser, seeds, agricultural implements and medium term loan for purchasing barbed wire has also been included in the scheme. The targets of distribution proposed below have been recommended by the Central Team of Agricultural Experts.

1. Fertilisers	-	975 tonnes.
2. HYV paddy seeds	-	220 "
3. Other improved seeds	-	68 "
4. Improved agricultural implements	-	305 Nos.
5. Barbed wire.	-	100 tonnes.

The expenditure involved is:

Rs.11.797 lakhs as against Rs.7.475 lakhs approved by the Planning Commission. Efforts will be made to make up the difference from savings from other sectors which are likely to arise from time to time.

3. Fourth Plan outlay. Rs. 7.475 lakhs.

Scheme No.4

1. Name of scheme : Plant protection in Andaman and Nicobar Islands.

2. Objectives for the Fourth Plan.

Paddy blast, bacterial blight, stem borers and leaf rollers are the main diseases and pests attacking the paddy crops. The Giant African snails is another serious menace. In order to check pests and diseases, plant protection chemicals and equipment are proposed to be supplied to the cultivators on the following terms (a) a subsidy of 75% of the actual cost on chemicals (b) subsidy of 25% on power sprayers and (c) subsidy of 50% on hand operated sprayers. Cost of transport of chemicals and equipment from the mainland is proposed to be fully subsidised.

In order to switch over to mechanisation in plant protection work, 5 Nos power sprayers are proposed to be procured every year and spraying work will also be taken up departmentally on cultivators fields on no loss no profit basis. About 6500 hectares of crop area is proposed to be covered.

3. Fourth plan outlay. Rs. 4.290 lakhs.

4. Details of estimated expenditure.

Scheme No.7

1. Name of scheme : Scheme for hiring-out tractors.

2. Objectives for the Fourth Plan.

Being short of agricultural labourers it is proposed to encourage mechanised cultivation. It was originally proposed to purchase 4 tractors during the Fourth Plan period for hiring out to cultivators. The Agricultural Team of the Ministry of Food and Agriculture which visited these Islands in November, 1969 recommended for the purchase of 7 tractors with equipment. The cost of the scheme as recommended by the Expert Team works out to Rs. 5.114 lakhs. However, the planning Commission have approved an outlay of Rs. 2.500 lakhs under this scheme which is sufficient for the purchase of 4 tractors with equipment only. This scheme therefore envisages purchase of 4 tractors with equipment for summer ploughing land-shaping etc. The tractors will be hired out to the cultivators for agricultural operation. Only propulsion charges will be recovered from the cultivators as recommended by the Expert Team.

3. Fourth plan outlay. Rs. 2.500 lakhs .

Scheme No.1

1. Name of scheme. IMPLEMENTATION OF MINOR IRRIGATION WORKS

2. Objectives for the Fourth Plan.

An Investigation Division is proposed to be set up by the Central Water and Power Commission in these Islands to undertake surveys and investigations of possible water sources for hydro-electric power generation, water supply and irrigation. The survey and investigations will be completed within a period of three years. The scheme envisages execution of such of the minor irrigation projects as may be recommended by the Investigation Division. Meanwhile it is proposed to take up minor irrigation works, wherever feasible.

3. Fourth Plan outlay. Rs. 1.000 lakh.

AGRICULTURAL DEPARTMENT  
ANDAMAN AND NICOBAR ISLANDS.

.....  
Scheme No.1

1. Name of Scheme: SOIL CONSERVATION SCHEME  
FOR SETTLEMENT AREAS ON WATER  
SHED BASIS.

2. Objectives for the Fourth Plan.

The scheme envisages bringing 400 Hectres of cropland in South, Middle and North Andaman under Soil Conservation Measures during the Fourth Plan period. This will involve field terracing, contour trenching on slopes that need to be broken up providing safe disposal areas for run off water, planting of trees or grass on land not suitable for cultivation following improved agronomic practices managing grass land growing cover crops, stabilisation of water courses by mechanical, vegetative means etc. The scheme will function within the ambit of the Andaman and Nicobar Islands Land Improvement schemes regulation, 1963. Financial Assistance in the shape of long term loans to the extent of Rs.375/- per hect. for paddy land and Rs.125/- per hect. for hilly lands will be provided to the cultivators. 50% of the loan or 50% of the actual cost of work (in case of the work undertaken through the Govt. agency) will be treated as subsidy in the fifth year if proper follow up programme has been taken up by the cultivator. The remaining 50% of the cost will be treated as long term loan.

As per decision taken on the recommendation of the Central Team of Agricultural Expert an outlay of Rs.12,000 lakhs will be required for implementation of soil conservation scheme during the fourth plan. However this scheme has been formulated on the basis of the outlay of Rs.5.697 lakhs approved by the Planning Commission for this scheme. Additional funds will be found from within the overall outlay of Rs. 1400.000 lakhs approved by the Planning Commission for the fourth plan.

Livestock Department  
Andaman and Nicobar Islands      Scheme No.6.  
\*\*\*\*\*

1. Name of scheme. STRENGTHENING OF THE LIVESTOCK DEPARTMENT.

2. Objectives for the Fourth Plan.

The Animal Husbandry Commissioner with the Govt. of India who visited these Islands recently has observed in his tour report that the administrative machinery consisting of a Livestock Officer in the scale of Rs.350-900 to control the entire development programme in isolation and under very difficult conditions obtaining in these Islands is very poor and ineffective and is one of the main reasons for the slow progress off the animal husbandry activities. He has further stated that it is absolutely essential to upgrade this post to the rank of Director of Animal Husbandry on Rs.700-1250 at par with his counterpart in Agriculture. He has also recommended that the Director of Animal Husbandry will be supported by a Poultry Development Officer to guide the entire poultry development programme in this territory and a Livestock Officer to take special care of the cattle development programme including artificial insemination. He has also recommended that there should be a Goat Development Officer of Class II rank who shall be incharge of goat farm and overall goat development works in these Islands.

It is accordingly proposed to strengthen the Livestock department by appointing a Director of Animal Husbandry in the scale of Rs.700-1250 for the present. The question of appointment of Poultry Development Officer and a Goat Development Officer will be taken up in 1971-72. The existing post of Livestock Officer will be retained as such and he will be responsible, for cattle development programme including artificial insemination as recommended by the Animal Husbandry Commissioner, requisite subordinate staff will also be appointed.

3. Fourth Plan outlay 3.587.lakhs.

(New Scheme)

Scheme No. 7

1. Name of scheme. GOAT BREEDING SCHEME.

2. Objectives for the Fourth Plan:

Goat rearing has got great potentialities in Andaman and Nicobar group of Islands. However, it is necessary to propagate a variety of goats which is short legged and is of grazing rather than browsing type. During the Fourth Five Year Plan period, it is proposed to distribute 240 goats to progressive farmers at half cost. The transport cost and other incidental charges from the place of purchase to the port on the mainland and from the port on the mainland to Port Blair will be fully subsidised.

3. Fourth Plan outlay Rs. 0.490 lakh

4. Details of estimated expenditure.

I. Non-Recurring.

	1969-70 Rs.	70-71 Rs.	71-72 Rs.	72-73 Rs.	73-74 Rs.	Total Rs.

Scheme No.7

- Name of scheme: TIMBER OPERATION.

- Objectives for the Fourth Plan.

This scheme has been included on the recommendations of the working group for the Fourth Five Year Plan.

There is considerable scope for augmenting timber exploitation operations, now that the North Andaman Division has become available to the Government for working. This division was under the lease to Messrs. P.C.Roy and Co. The lease having been revoked and the High Court at Calcutta having given clearance to the Govt. for the revocation of the licence in October, 1969 a phased programme for augmenting extraction in this region has been drawn up. The scheme envisages purchasing additional equipment for extracting about 25200 cm. of timber over and above the present annual output of about 77000 to 79500 cm. With the augmentation of timber production certain additional machinery in the Govt. Saw Mill will also be required for processing of a part of this extra timber. The Department will thus required the following equipment during the Fourth plan.

1. Bharat Model D-80 A-S Crawler Tractors - 2 Nos

	*****					

1. Name of Scheme: Forest Resources Survey and statistics.

## 2. Objectives for the Fourth Plan:

The scheme envisages setting up of a Forest Resources Survey Unit for assessing the timber availability in the Forest during the plan period i.e. from 1970-71 to 1973-74, it is proposed to carryout 10% partial enumeration and stock mapping all over the Forest of North Andaman Division which have not been stockmapped and enumerated earlier ( total area 800 sq. miles approximately). At present there is no statistical Unit in the Forest Department and much difficulty is being experienced in obtaining accurate and correct statistical data relating to various forest activities of the Department. The work relating to forest statistics will also be carried out by the proposed Forest Resources Survey and Statistics Unit in order to have a complete statistical background in respect of forestry and forest product for all future operations and development.

3. Fourth Plan Outlay Rs. 2,900 lakhs.

Scheme No.6

1. Name of scheme. COOPERATIVE BANKING.

2. Objectives for the Fourth Plan.

The Andaman and Nicobar State Cooperative Bank having the status of an apex institution was started on 31st March, 1966. It is the main source of finance for the Cooperative institutions having provided as on 30th November, '69, a sum of Rs.3.30 lakhs as loans to various Societies. The Banks working capital consists of Governments share capital Rs.1.60 lakhs, share capital of Rs.1.04 lakhs collected from affiliated societies, Deposits etc., amounting to Rs.2.50 lakhs. To meet a portion of the managerial expenses the bank was given Rs. 500/- and Rs.10,000/- during 1966-67 and 1967-68 respectively as managerial subsidy. No subsidy was given during 1968-69. As this is still an infant institution and the cooperative movement has yet to take a firm hold the Government would need to provide liberal financial assistance. The programme for the Fourth Plan envisaged government share capital contribution on a matching basis, contribution towards the Agricultural credit ~~stabilisation~~ stabilisation fund and managerial subsidy to the bank.

3. Fourth Plan outlay Rs. 2.160 lakhs.

4. Details of estimated expenditure.

Public Works Department  
Andaman and Nicobar Islands  
Scheme No.1

1. Name of the scheme : Construction of Andaman Trunk Road.

2. Objectives for the Fourth Plan

The Andaman Trunk Road involving a distance of 287 Kms is the major road link connecting Port Blair with the northern islands. It was started during the second Five Year Plan and by the end of 1963-69, 136 Km were completed. It is proposed to complete a further 103 Kms upto Mayabunder during the Fourth Plan and the remaining distance of 48 Kms from Mayabunder to Diglipur during the Fifth Plan.

The yearwise physical targets are given below:

1969-70	1970-71	1971-72	1972-73	1973-74
---------	---------	---------	---------	---------

Scheme No.2

1. Name of Scheme : Construction of Distt. Roads.

2. Objectives for the Fourth Plan

Against the need of 192 Kms. of District roads 77 Kms were completed and work was at different stages of progress on 42 Kms. of Distt. Roads at the end of 1968-69. For the incomplete portion including bridges an outlay of Rs.53 lakhs is required. However with the outlay of Rs.22.00 lakhs approved by the Planning Commission for this scheme it will be possible to take up 14 Kms. of earthwork, 22 Kms. of soling, 20 Kms of metalling and 15 Kms. of painting only.

The yearwise physical targets are given below:

	<u>1969-70</u>	<u>1970-71</u>	<u>1971-72</u>	<u>1972-73</u>	<u>1973-74</u>

GRC

EDUCATION DEPARTMENT  
Andaman and Nicobar Islands.  
\*\*\*

Scheme No.1.

1. Name of Scheme. PRIMARY EDUCATION

2. Objectives for the Fourth Plan.

There were 118 schools at the end of 1968-69. For the Fourth Plan 25 new primary schools, are proposed to be opened, besides strengthening the existing primary schools, providing residential accommodation/primary school teachers and publication of text books for the primary school stage. A total provision of Rs.33.250 lakhs was required in order to meet the entire requirement of primary schools. However as the Planning Commission have approved an outlay of Rs.25.250 lakhs only the number of new primary school buildings and residential quarters to be constructed, additional staff to be appointed etc., has been reduced proportionately and improvement to play grounds has been dropped altogether. Efforts will be made to find additional funds from savings under other sectors in the years ahead for more residential quarters, new school buildings and playgrounds.

3. Fourth Plan Outlay. Rs.25.250 lakhs.

EDUCATION DEPARTMENT  
Andaman and Nicobar Islands.  
\*\*\*\*

Scheme No.4.

1. Name of scheme. UNIVERSITY EDUCATION.

2. Objectives for the Plan.

The Govt. College, Port Blair was started in October, 1967. Five subjects viz. English, Hindi, History, Political Science and Economics are being taught in the College. It was planned to introduce Music and Geography in the college from 1970-71 and to add commerce and science subjects during subsequent years of the Fourth Plan period besides providing scholarships to the local students for prosecuting post Matric/Higher Secondary studies in courses for which facilities do not exist here and to extend college building etc. for which total outlay of Rs. 14.270 lakhs was required. However as a provision of Rs. 3.470 lakhs only has been allocated for this scheme, it will not be possible to achieve the targets fixed above. Accordingly the physical target has been lowered which provides for the maintenance of the college in its present form during the Fourth Plan period and grant of scholarship to local students for prosecuting post matric/Higher Secondary studies. Efforts will however be made to find additional funds to the extent of Rs. 5.30 lakhs in the years ahead for achieving the minimum targets aimed above.

3. Fourth Plan outlay. Rs. 8.470 lakhs.

4. Details of estimated expenditure. (Rs. in lakhs).

GRC

Scheme No.6

Education Department,  
Andaman and Nicobar Islands.

....

1. Name of Scheme : General programe.

2. Objectives for the Fourth Plan:

The scheme envisages (i) expansion of the District Library (ii) organisation of students tour, (iii) book grants to poor students, (iv) promotion of sports, games, scouting and Red Cross activities, (v) supply of free mid-day meals to cover the additional enrolment during the Fourth Plan period, (vii) grant-in-aid to private schools, (viii) free travel concession to Middle, Higher Secondary and College students from rural areas (ix) establishment of a Hero Memorial to Netaji and (x) development of Hindi.

Although we have been asked by the Govt. of India that committed expenditure relating to enrolment already reached up to the beginning of the Fourth Plan in respect of free Mid-day meals should also be included in the plan, it has not been possible to do so as additional outlay of about Rs.20.000 lakhs will be required for this purpose which it is not possible to find from savings under other sectors. Accordingly provision for midday meals has been made for additional enrolment only.

3. Fourth Plan outlay: Rs. 21.72 lakhs

Public Works Department  
Andaman and Nicobar Islands.

Scheme No.I

1. Name of Scheme: Improvement of water supply at Port Blair.

2. Objectives for the Fourth Plan :

A major scheme of building a reservoir across the Dhanikari stream is being undertaken by the M.T.S. to tide over the acute water problem at Port Blair. It will generate about 15 lakh gallons of water per day, of which 10 lakhs gallons of water per day is for the civilian population and 5 lakhs gallons per day for the defence services located at Port Blair. As the estimated cost is Rs.2.64 crores, the Administration's share of the expenditure on a pro-rata basis works out to Rs.1.76 crores against which the planning Commission have allotted Rs.1.65 crores. Since the project will not be completed before December, 1972, this scheme should also provide for the construction of 3 additional impounding reservoirs of 24 million gallons storage capacity with filter beds.

3. Plan Outlay. Rs. 215.000 lakhs

4. Details of estimated expenditure (Rs. lakhs)

	1969-70	1970-71	1971-72	1972-73	Total
