## PREFACE

In India, Employment Exchanges are the only network organization at all India level, which provide assistance to jobseekers by helping them in finding suitable employment, provide vocational guidance to shape their careers and present Labour Market Information for policy planning and research purposes. The details of educational, vocational and other qualifications of jobseekers registered with the Employment Exchanges provide a useful source of data at national as well as local levels. While the State Governments compile this data at the district/ State level, DGE&T compiles and publishes the data at national level.

2. The present publication, 17<sup>th</sup> in series, contains annual and time series data on various fields of activities of the Employment Exchanges such as registration, placement, live register, submission, etc. Efforts have been made to make the publication as up-to-date as possible. I hope this will meet the growing need of manpower planners, jobseekers, employers and other users.

3. The publication has been possible only with the active support and co-operation of the State Governments/Union Territory Administrations. I am grateful to the Directors of Employment of various States/Union Territories and their officials in the Employment Exchanges for furnishing the information in the prescribed format.

4. I must also place on record my sincere appreciation of the work done by Smt. Veena Raina Dhar, Deputy Director (Employment), Sh. Bachchoo Sharma, Research Officer & staff of statistical section under the overall guidance and supervision of Sh. Pravin Srivatava, Deputy Director General (Employment) in systematic data collection, compilation, analysis and presenting in an analytical manner in the publication.

5. We are in continuous process of improving the publication in all respects and, therefore, request the users for their valuable comments/suggestions.

## FRAME WORK FOR DATA COLLECTION

### 1.1 Introduction

National Employment Service in the country functions through a network of Employment Exchanges located in various parts of the country. The services rendered by the Employment Exchanges include registration & placement, vocational guidance and career counseling and collection of Employment Market Information, etc. National Employment Service covers all the States and Union Territories with a network of 966 Employment Exchanges as on 31-12-2011. Administrative and financial control of Employment Exchanges lies with the respective State/U.T Governments. As part of their administrative functioning, Employment Exchanges collect data on various aspects of employment and unemployment and submit it to the respective State Directors of Employment and to the Directorate General of Employment and Training (D.G.E&T). While the State Governments compile this data at the State level, D.G.E&T. compiles and releases this data at all India level.

Employment Directorate in the DGE&T is responsible for laying down the policies, standards, norms and guidelines for coordination of the National Employment Service at all India level. In addition, it also evaluates and monitors employment and unemployment situation at all India level using various sources of employment data such as Census, Labour Force Surveys conducted by National Sample Survey Organisation and Employment Market Information Programme, etc. **In this publication, data on jobseekers registered with the Employment Exchanges has been analyzed to evaluate incidence of unemployment in the country.**

### 1.3 Concepts and Definitions

For the sake of clarity, some of the important terms, relevant to the administrative records generated in the Employment Exchanges are explained below:-

Applicant: - A person who voluntarily registers at an Employment Exchange and is eligible for employment and other assistance in accordance with the prescribed procedure.

Apprentice: - A person who is undergoing apprenticeship training in a trade in pursuance of a contract of apprenticeship.

Apprentices Act: - The Apprentices Act, 1961, provides for the regulation and control of training of apprentices in trades and matters connected therewith.

Dead Register: - Systematic arrangement of Index Cards of applicants who for various reasons are not entitled to placement assistance.

Displaced Person: - A person who, on account of the setting up of India and Pakistan or on account of civil disturbances or fear of such disturbances in any area which formed part of the erstwhile Pakistan had been displaced from or left his place of residence in such an area after **1st day of March, 1947**, and who has subsequently been residing in India (Government of India Ordinance No. XX of 1948). Where, however, State Government has evolved a system of registration of Displaced Persons only those persons who are in possession of evidence if such registration should be regarded as "Displaced Persons" by Employment Exchanges for purposes of employment under that State.

## 1.4 Limitations of Data

Data flowing from the Employment Exchanges suffers from action limitations. These limitations arise out of the fact that the Employment Exchanges are mostly located in urban areas. The job seekers from the rural areas may find it difficult to register their names with the Employment Exchanges. Further, the registration of applicants with the Employment Exchanges is voluntary in nature. As such, the following limitations of the data may be kept in view while using the information contained in the publication: -

- All the job seekers, all of whom may not necessarily be unemployed, registered with the Employment Exchanges.
- All the job seekers who are unemployed do not necessarily register themselves with the Employment Exchanges.
- In some exceptional cases, there is a chance of duplication of registration.
- The job-seekers, after finding employment through agencies other than Employment Exchanges, do not intimate the Employment Exchanges for deletion of their names from the Live Register.
- Employers do not always intimate the Employment Exchanges about the selection of candidates even when selection is made from the list supplied by Employment Exchanges.
- There can be cases when job seekers could not renew their cards within the stipulated period and by virtue of their non-renewal, their names get deleted from the live register.
- A number of registrants do have some employment or the other, but are registered for better jobs, particularly, in the Public Sector.
