GOVERNMENT OF ASSAM

DRAFT ANNUAL PLAN

1970-71

HILL AREAS OF ASSAM

# Draft annual Plan for the Hill Areas of Assan, 1970-71.

The greatest handicap in the economic development of the hill areas in Assam is the lack of proper and adequate road transport and communication facilities. So the highest priority has been given to the transport and communication sector. A detailed Road Plan has been formulated keeping in view the immediate and urgent need of the different areas.

In order to make the hill areas self-sufficient in food, the next priority has been accorded to the Agriculture and Allied sector. Adequate importance has been actached to the minor and medium irrigation schemes and funds are being provided to complete the potential schemes as early as possible. A project report has been prepared by an expert team of the Govt. of India for integrated agricultural development of Mizo Hills district. In accordance with the suggestion of the Expert Team, a composite farm at Sairang, P.P.V. development unit and a programme for development of Animal Husbandry are being accommodated in the State Plan for Hill areas. Adequate provision for these schemes have been proposed in the next year's plan.

Under the Social Services sector, the highest priority has been given to the Educational programme. As scarcity in the supply of drinking water in the most part of the hill areas is acute, much importance has been attached to the programme for Water Supply. Extension of medical facilities has also been given due importance.

The table below indicates expenditure for 1968-69 outby and anticipated expenditure for 1969-70, and proposed outlay for 1970-71 under the Major Sectors of development.

#### 1.1. Agricultural Production

I. Improved Seed Programme: The programme consists of maintenance and improvement of the existing farms and nurseries and also for the purchase and supply of improved seeds and plants to the cultivators at subsidised rate varying from 25 to 50% with a view to replacing the inferior varieties with the improved ones.

An outlay of Rs. 13.27 lakhs has been made for 1970-71. It is proposed to establish one large size production farm in Khasi Hills during 1970-71.

II. Manures and Fertilizers: The programme aims at development of local manurial resources by means of distribution of green manuring seeds and by making compost from waste harbage and night soil. It also provides arrangement for distribution of fertilizers and for subsidizing the cost of transportation of the same to interior places @ Rs. 50.00 per tonnes with a view to bring down the cost of the fertilizers within the reach of the purchasing power of the cultivators.

An outlay of Rs. 5.70 lakhs has been provided for this programme during 1970-71.

III. Plant Protection: The programme consists of purchase of plant protection materials for making available to Blocks and Gram Sevak Circles for use in plant protection measures. It also provides sale of the articles to the cultivators on 5% subsidy.

An outlay of Rs. 3.23 lakhs has been made for 1970-71 to cover the requirement for epidemic control operation also.

IV. Agriculture Implements: - The scheme aims at purchase and distribution of improved agricultural implements and small machineries on subsidy basis varying from 25 to 50%.

An outlay of Rs. 1.57 lakhs has been made for 1970-71.

V. <u>Development of Commercial Crops</u>: The programme provides for development of important connercial crops, namely Jute, Sugarcane, Cotton, Potatoes, Vegetables and oilseeds by war of supplying seeds and seedlings to the cultivators at a moderate price. It also provides measure for

An outlay of Rs. 7.91 lakhs has been made under this programme for 1970-71.

VI. Horticultural Development and Applied Nutrition Programme: - The programme consists of the development of fruits and other cash crops like Arecanut, Beatleleaf, Spices, Ginger, Black Pepper etc. It also consists of procurement and supply of planting materials to the cultivators on 50% subsidy with an aim to intensify the cultivation of fruits as there is great potentiality in the Hill areas. The programme also provides for opening of progency orchards and nurseries and demonstration plots to demonstrate the improved practices.

An outlay of Rs. 5.66 lakhs has been made for 1970-71.

VII. agricultural Research: The programme includes Land Use Survey,

Research Centres and also for opening new local research and trial centres where research work will be undertaken on crops and soils to evolve suitable varieties for different areas. The programme also provides setting up separate Research Station and lavoratory for Horticulture. A total outlay of Rs. 14.17 lakks has been made under this programme for 1970-1971. Extension training and farmers Institute: An outlay of Rs. 4.05

lakhs, has been made for 1970-71 for the maintenance and improvement of the upgraded Gram Sevak Training Centre at Upper Shillong Farm as well as the three Farmers Institutes recently established. The programme also provides arrangement for taking out the progressive farmers and officials on tour to some developed areas within the outside the state.

IX. Agricultural Statistics:— The programme aims at setting up an agency

to deal with the collection of Agricultural Statistics and fer proper, maintenance of reports and returns so as to enable proper formulation of plan.

An outlay of Rs. 0.22 lakhs has been made for 1970-71.

K. Intensive Agricultural Area Programme including H.V.P.: An outlay of Rs. 2,01 lakhs as provided for 1970-71 for the maintenance of the existing Package Block in Khasi and Jaintia Hills. The programme also

provides for setting up 2 new Blocks, one in Mikir Hills and another in Garo Hills.

XI. Land Reclamation: For 1970-71 an outlay of Rs. 10.82 lakhs has been made to meet the expenditure for reclaiming suitable land for Agricultural purpose. It is proposed to subsidize the cost of reclamation to the tune of 80%, which means only 20% of the reclamation cost to be realised from the benericiaries. The Scheme also provides for the purchase of tractors and bull dozers.

XII. Others :- An outlay of Rs. 46.61 laths has been made for 1970-71

The programme consists of (1) maintenance of the continuing schemes, namely farmers training and Demonstration, multiple cropping, godown construction, programme for Agricultural Information, Agricultural Administration, Incentive to Farmers, Grants to District Councils for implementation of scheme for Land Reforms and Land Records, Fruit Processing, Workshop and Agricultural marketing, (2) taking up of new schemes, namely (a) Agricultural loan (b) Agricultural grants (c) purchase of power tillers for demonstration use to popularise mechanised cultivation in Khasi Hills. (2) Special Pilot Programme viz: - (a) Rock farming in Khasi Hills. (b) Agricultural Follow up programme in group of villages in Garo Hills (c) Mechanised cultivation in Garo Hills where power tillers will be purchased and distributed to the cultivators on 50% subsidy to popularise the possibility and advantages of mechanised cultivation.

#### 1.2(a) - Minor Irrigation(by Agri. Deptt.)

During 1970-71 an amount of Rs.28.51 lakhs has been been provided for taking up Irrigation scheme by the Agriculture Department. The current year's provision for the same programme is Rs.22.92 lakhs. Proportional increase has been made during next financial year as it is a very valuable programme for increasing food production. It is expected that the whole amount earmarked for current year will be fully spent to the benefit of the agriculturists.

The next year's programme consists of the following items of works -

- (a) Flow Irrigation.(b) Lift Irrigation.(c) Sinking and Shallow Tube Well.(d) Survey and Investigation of ground water.

#### 1.2(b) - Minor Irrigation (By F.C. & I. Deptt.)

The anticipated expenditure for the Minor Irrigation schemes to be implemented by the Flood Control and Irrigation Department during 1969-70 is Rs.13.54 lakhs. It is expected that a large number of schemes will be completed during 1969-70. The allocation proposed in the Draft Plan for 1970-71 for Minor Irrigation schemes under Flood Control and Irrigation Department is Rs. 15.20 lakhs. The most important continuing scheme during 1970-71 is the Harina Irrigation scheme besides other continuing small projects. A number of new projects will also be taken up during 1970-71. It is expected that an area of 2,600 acres of land will be benefited by implementing the Irrigation schemes proposed during 1970-71,

H.F.

#### 1.3 - Soil Conservation.

No significant deviation is proposed during the year 1970-71 in the types of schemes already under implementation. The coverage however will be more.

It is proposed to open a new range in Hill Areas during 1970-71.

In the Garo Hills more stress has been given for terracing on Hill slopes under land development.

Quite a few schemes undertaken by this Department in the previous year being of continuous nature, become an integral part of the annual plan for 1970-71. Maintenance of the casherop plantations raised both departmentally and by the villagers, the afforestation areas etc. have to be continued for a number of years under the plan as none of these works can be taken as completed after just one year. Fund necessary for these become committed expenditure. As in the year 1969-70. The main items of works for the year 1970-71 are as follows:

#### Item of works.

#### Land Development

- i) Terracing
- ii) Reclamation
- iii) Other works (land development by levelling, contour bunding and Maintenance & repairs to the existing terraces, minor dams, dones etc. land protection of stream bank from erosion.
  - iv) Irrigation (water distribution on developed lands).
  - v) Follow-up programme
  - II) Afforestation
- [II] Cash crop Development.
- IV) Agronomical Experiments
- V) Building and Approach Roads.
- VI) Tools, stores, plants and Contingencies.

In addition to the above schemes the Pilot Project heme in Mikir Hill for control of Shifting Cultivation to has been initiated during current year will also be attinued during 1970-71. For this scheme an amount of Rs.1.00 ths has been provided in the plan.

The Soil Conservation Research St tion is also a continuing scheme. The Research St tion is confined mainly in studying the problem of Shifting Cultivation. In doing so the Mesearch Station is to carry out field experiments to collect data on Soil and Water loss under jhummed condition, yield of field crops from jhum and comparison of such yield under scientific form of cultivation.

Against the sticipated expenditure of Rs. 41,00 lakhs durin current financial year, the department proposes on allocation of Rs. 64.30 lakhs during 1970-71, which is the absolute minimum requirement for the Soil Conservation programme during the year.

...,000....

#### 1.5. - FORESTS

The Forest Plan is divided into two sectors. One is State or Regional Sector programme and the other is District Council sector programme implemented by the District Council authorities. This is because of vast areas of Forests under the management of the District Councils and which are needed to be developed in a planned way which will ultimately help to develop the national economy. During 1969-70 the anticipated expenditure under the Forests programme both under State and District Councils Sectors is Rs.17.55 lakhs. Against this amount a provision of Rs.25.15 lakhs has been provided in the Draft Plan for 1970-71. Following is a brief note for the important schemes included in the Plan for 1970-71.

Teak Plantation: The gentle slopes of the Hills and the forests containing less valuable species, are being replaced by Teak, which is a valuable plantation and grows in Assam easily. The Teak plantation scheme has been included both in the Regional Sector and also in the District Council Sector. The total amount provided for this scheme is Rs.4.00 lakks in both the sectors.

Plywood Plantation: With the development of Plywood Industry the demand for plywood timber is increasing year by year. In order to meet this demand plywood plantation has been taken up to supplement the existing resources. This scheme is taken up under State sector. An amount of Rs.0.25 lakks provided for 1970-71.

Match-wood Plantation: To meet the great demand for matchwood timber for the Match Industry in Assam, this scheme has been taken up to grow quick growing trees suitable for Match Industry. An amount of Rs. 0.24 lakh has been provided in the next Year's Plan in both the sectors?

<u>Wattle Plantation</u>:- A provision of Rs.0.03 lakh has been nade in the next year's Plan for maintaining the existing plantation.

Rehabilitation of Degraded Forests: The scheme is to improve the growing stock of existing forests by Silvicultural means both natural and artificial and getregeneration of the valuable species like Sal, Pama, Titachapia, Hollock etc, which have a growing local demand for house building and other constructional purposes. In amount of Rs.2.34 lakhs has been provided for 1970-71.

Medicinal and Economic Plantation: For maintenance of the existing Ipecac plantation and also for creation of new acreage provision has been made in the next year's Plan both State and District Council sectors.

Communication: For proper maintenance and development of new plantations, good communication system in Forest areas is most. With this aim in view an amount of Rs.2.95 lakhs has been provided both under State Sector and the District Councils Sector luring 1970-71.

contd....

Consolidation of Forests: To carry on survey demarcation of and fixing the boundary pillars in the disputed bound ry areas and also to check the encroachment in the Reserve Forest areas, this scheme has been taken up in both the State and the District Council Sectors.

Acquisition of Green Block: The Green Block in the vicinity of Shillong Town is needed to be acquired and developed forests in a planned way. As it is an important area where the water sources for Shillong Town have been located. Hence necessary amount has been provided in the Plan for this purpose.

Forest Protection Squad :- The aim of the scheme is to check the wild elephant in places from destroying the forest produces and also the agricultural produces in forest areas. This scheme is included in the State sector.

#### 2.4. Fishery.

During 1969-70 the schemes under Fishery programme are anticipated to be implemented within an amount of Rs. 2.80 lakhs. During 1970-71 the programme under fisheries has been drawnup within an allocation of Rs. 5.90 lakhs. It is felt necessary to increase the activities under the Fishery programme in Hill areas gradually as there is cope to develop the fishery schemes in the Plain portion of the hilly region. Also research work will be done to develop fishery scheme in high altiture areas.

The following are the important schemes included in the programme for 1970-71.

- 1. Fish Secd Farming: There is great demand for fish seed in Hill Districts. To meet this demand the Fish Seed Farming Scheme is being implemented. Besides other areas a Fish Seed Farmis to be established near the Umiam Lake area in Khasi Hills.
- 2. Assistance to Disciculturists: The scheme aims at advancing financial assistance to the private parties to encourage them to develop fisheries in suitable areas.
- 3. Applied Nutrition Programme: This scheme aims at providing assistance to fish f rm in Block areas stated under A.N.P. Scheme under feeding programme.
- 4. Applied Research: The research work will be carried out to develop different type of fishery scheme in Hill areas. Specially the research will be carried on to culture fish development in high altitute areas
- 5. Training : Training Centre is being established in Hill Areas to impart training to the local candidates in Fishery development.
- 6. Supervision: It is necessary to appoint adequate staff to implement the Fisherv Scheme in Hill areas. Hence the Scheme.

M.S.N.

#### ST. COOPERATION.

The schematic pattern of the Googerative Societies in the Hill Areas of Assam is centred mound the Gooperative Marketing Societies as most of the crops produced in the Hill Areas are mostly cash crops.

Sub-Area Cooperative Marketing Societies: In the three Hill Districts of the State vize, the U.K.& J. Hills, the Garo Hills and the United Mikir & N.C. dills districts 5 Sub-Area Cooperative Marketing Societies will be organised during 1970-71, these are in addition to the 24 existing Sub-Area Cooperative Marketing Societies. Due to the economic backwardness of the people necessary financial assistance in the shape of (a) Share Capital Contribution (b) Working Capital Grant (c) Loan and Subsidy for construction of godown and (d) Manegerial Subsidy beside spill over Manegerial Subsidy for the Sub-Area Cooperative Marketing Societies organised upto 1969-70, is necessary. The total amount of financial assistance under this head is Rs. 6.01 lakhs.

Grant to Service Cooperatives and Credit Societies: There is a genuine need for augmenting the working capital of the Service Cooperative Societies in order to enable them to carry out their functions properly. Hence it is necessary to provide them with working capital grant and on this account an amount of Rs. 1:19 lakks is earmarked.

Other Cooperatives ~ Besides the Sub-Area Cooperative Marketing Societies and the Service Cooperatives, there are other types of Societies in the Hill Areas like Industrial Cooperatives dealing in Soap making, Cane & Barboo works are, deiry Cooperatives etc. These type of Cooperative Societies need financial assistance to augment their working capital, Hende an amount of Rs.0.52 lakhs have been provided as managerial subsidy and working capital grant to such types of Cooperative Societies.

Cooperatives in Mizo Hills :- The pattern of Cooperative Societies in Mizo Hills and Pown Lokher Region is different from the rest of the Hill areas of the State and this is due to the fact that in this particular area circumstances derived that supply of essential commodities to the population is of prime necessity. Hence in this area Service Cooperatives Societies with Wholesale Cooperative Consumers Stores have been organised for the purpose and the Societies have been financially assisted in the shape of (a) Subsidy for naine tenance of staff (b) Transport Subsidy (c) Loan and Subsidy for construction of Godowns (d) Yorking Capital Grant (e) Loan for purchase of trucks (f) Lean for purchase of Jeeps & Trailers. The total amount involved in this account is Garage CC lakks.

Common Optlay: - An amount of Rs.6.90 lakes has been proveded under "Common outlay" which consists of Training. Headquarter staff and assam Hills Cooperative Dev. Corporation. This amount is necessary in order that the programme for the Gevelopment of the Cooperative Societies in the Hill areas can be carried out proporty. In this connection it is pointed out that (1) the Headquarters staff has to be strengthened proporty. (2) The Assam Hills Cooperative Dev. Corporation has get to be firmable by assisted as this is absorbly organisation in the Hill areas which is to been after the development of the Cooperative movement. The Assam Hills Cooperative development of the Cooperative movement. The Assam Hills Cooperative and to other employees of the Cooperative Societies (b) to find out better market for the produces of the area in order to prevent the exploitation of the simple multivators by vested interest (c) has be provide necessary transport to all the Edb-Area Coope Marketing Societies (d) has to see to the simply and adequate stoply of chemical fertilizers and benevel to the contributors and last but not least has (e) to supply the daily assential commodities to the Cooperative H.F.

As is usual, in implementing the C.D. Programme, utmost importance will be given to Agriculture including irrigation and Reclamation, Rural Industries and Communication, A providion of Rs. 2.75 Lakhs has also been included for Water Supply in the Rural Areas.

In addition to outlay of Rs. 51.86 Lakhs, a further provision of Rs. 1.40 Lakhs has been made under Panchayats. This amount is proposed to be utilised for composite programme for Wemen and Children and for Training Reserve. The amount will be distributed as below:-

Composite Programme - 1.30 Lakhs.

Training Reserve - 1.0 Lakh
Total - 1.40 Lakhs.

The department will also implement some other Centrally assisted programmes besides the two indicated above and the amount earmarked for each of the schemes is as below:

Applied Nutrition Programme - 3,74 Lakhs

Pilot Project for viable ( - 2,45 Lakhs
Rural Areas. )

From the trend of expenditure during the current plan period upto September, 1969, it can be ensured that the full allocation of Rs. 51.87 Lakhs will be spent during plan period of 1970-71.

. . . . . .

#### 4.1 - MEDIUM IRRICATION

The anticipated expenditure for Medium Irrigation scheme during 1969-70 is Rs. 24.24 lakhs. The amount proposed during 1970-71 is Rs. 12.76 lakhs. No new scheme is proposed to be takenup during 1970-71, The continuing scheme of Patradisha snf Harguti Irrigation scheme are expected to be completed during 1970-71.

It is expected that on completion of these two scheme an area of 16,000 acres of land will bome under cultivation.

# 4.2. FLOOD CONTROL.

A new scheme of "Extension of South Kopili embankment from Namtoladubi to Kheroni" in Mikir Hills has been included in the Draft Plan for 1970-71. By this embankment about 10,000 acres of land will be saved from flood and cultivation will be done safely. The estimated cost of this project is Rs. 53.86 lakhs. But during 1970-71 an amount of Rs. 2.00 lakh has provided in the Plan. This amount is quite insufficient and a higher allocation if agreed to will be of much help.

#### 3.3. - POWER.

Against the anticipated expenditure of Rs.83.67 lakhs during 1969-70 an amount of Rs.99.00 lakhs has been proposed in the Draft Plan for 1970-71 for implementing Power schemes in Hill Areas. Following is a brief note indicating the programme to be implemented in the different Hill Districts during 1970-71 and also the achievement during 1969-70.

#### Mizc Hills District

The work of Survey of 66 KV line to Aijal has already been taken up on priority basis and certain important items, viz., structures have already been ordered and tenders for insulators, etc have been issued, Land for the diesel stations at Serchhip and Hnahthial have now been finalised and the work of installation of diesel sets is likely to be completed during the current financial year.

During 1970-71 a provision of Es.51 lakes including Es.3 lakes for construction and operation of Small diesel stations in P.L. Region, has been made to continue the work of construction of 66 KV Dullavcherra Aijal line and construction of Small diesel station at isolated places including operation of Aijal, Lungleh and Kolasib and improvement works at Aijal.

#### Mikir Hills

During 1969-70 the work of 33 KV line from Nilbagan to Howraghat has been taken in hand. 30 number of Poles for the line have been granted till the end of the second quarter of the current year. The work is scheduled to be completed during 1970-71, for which a provision of Rs. 5 lakks has been earmarked for the next year.

#### North Cachar Hills

The work of 33 KV line from Badarpur to Haflong is progressing as scheduled. The work of electrification of Mahur and Jatinga have also been taken up during 1969-70. 15 numbers of Poles have been granted till the second quarter of the current year.

A token provision of Rs. 5 lakhs has been kept in the year 1970-71 to complete the construction work of 33 KV line and electrification of Mahur, Jatinga, Haflong, Hills, Haranga-jac and Damcherra.

#### Garo Hills

The work of installation of diesel station at Baghmara has been completed and electrification work is under progress.

contd .....

The work of 33 KV line to Simsanggiri has since bed taken up and is progressing satisfactorily.

The work of 33 KV line from Darugiri to Dainadubi has also been taken in hand,

#### Khasi Hills

The work of 132 KV line from Shillong to Cherra is going on as scheduled.

The following places have been electrified -

Laitjem, Sadew, Pomlum and the following are expected to be electrified during the current year - Mawryngkneng, Kreit, Mawmluh, Tyrna, Pammura, 5th mile, Bhoi, Nongthliew.

Work on the Mairang and Hawsynram 33 KV lines have also been taken up.

#### Jaintia Hills

The following places have since been electrified

Shangpung, Jalong, Martiang, Works at the following places are under progress and expected completion by March, 1970.

Raliang, Mawkaiew, Nongban, Sutnga, Rymbai.

................

#### 4,3,1 Cottage Industry.

- 1. Ginger Dehydration Plant: This is a continuing scheme situated at Nayabunglow, During the current Financial Year the machines have been installed and production is expected to start by the end of this year.
- 2. <u>Industrial Estate</u>: In the last Planning Board Meeting the location of the Industrial Estate was decided to be in Burnihat and now steps have been taken for final site selection. In the next year we hope entrepreneurs will come forward to occupy the sheds in the Industrial Estate.
- 3. Raw Materials-cum-Sales Depot: The scheme has been continued from last year for supply of improved tools, nachines and equipments to artisans and also other necessary raw materials for development of their small Industries.
- 4. Power Subsidy. Implant Training & Study Tours: These are new schemes started during the current Figureial Year. All three aim at helping the artisans and entreprenders by giving them subsidy for power consumption and enabling them to see and learn new methods of managing Small Scale Units.
- 5, Grants-in-aid: In order to help the poor and deserving people, cooperatives, engaged in small industries grants in aids are being given every year. The amount has been provided for 1970-71 also.
- 6. Clay Washing Plant: This scheme has been contemplated in the past year but due to resistance by the local people land for the site and also raw materials could not be made available, Negotiations are under way for obtaining the land in next year. Hence the provision.
- 7. Lime Making Plant: There is a continuing scheme in Jowai where the raw materials are available in plenty. A new scheme is contemplated in Mikir Hills in next year.
- 8. Tailoring, Knitting & Embroidery Training Centre: It is a continuing scheme which caters to the needs of the local people to obtain training in Tailoring, Knitting and Embroidery. There are two centres. One is at Jowai and the other is at Garo Hills.
- 9. Decorative Textile Production Centre :- This is a continuing scheme at Dilma employing local weavers to produce designed cloths.
- 10. Saw Willing and Mechanised Carpentry and Furniture making centre:
  One Saw Mill and Carpentry Jentre has been started in Mikir Hills.
  It is also proposed to start another carpentry and furniture making centre in Garo Hills in 1970-71.
- 11. Bobbin Factory: It is a continuing scheme started with view of utilising the birch wood available in the district. At present arrangement for land for the factory is being done.
- 12. T.C.P.C., Mechanised Carpentry, Handloon Fabric Production, Zamabawk:

  These two schemes are continuing schemes which will produce various goods need in the district, at present factor sheds are being constructed.
- 13. Assam Hills Small Industries Development Corporation: This corporation has been functioning for last two years. There is ample scope to develop various industries in Hill areas. The corporation has been entrusted to setup industries in different places.

#### 4.3.2 - Sericulture and Weaving.

During 1969-70, 9 schemes have been proposed in respect of Sericulture and Weaving within the estimated outlay of Rs. 6.00 laths. Sonction to the schemes in question are not yet received from Government so no progress can be shown.

On the implementation of the said schemes, the level of achievement in respect of Mulberry, Eri and Production of Handloom fabrics is anticipated as follows :-

- 1. Scheme for Expansion of Eri Silk Industry in Hill Areas
  - (a) Eri Cut Cocoon

1.80 lakhs Kg.

(b) Eri Disease Free Layings

10,00 lakhs Layings,

- 2. Scheme for Development of Mulberry Silk Industry in Hill Areas.
  - (a) Mulberry Raw Silk

0.05 lakhs Kg.

(b) Mulberry Disease Free Layings

2,70 lakhs Layings,

- 3. Scheme for Production of Handloom fabrics in Hill Areas.
  - (a) Handloom fabrics.

18.60 million metres.

### The Programme of Development for 1970-71.

During 1970-71, it is proposed to implement the following 9 schemes:-

- (1) Scheme for Expansion of Eri Silk Industry.
- (2) Scheme for Development of Mulberry Silk Industry.
- (3) Scheme for Training in Sericulture for officials & non-officials.
- (4) Scheme for Cocoon Marketing & Silk Cooperatives.(5) Scheme for Strengthening of Supervisory & Technical for Sericulture.
- (6) Scheme for Training in Handloom Weaving.
- (7) Scheme for Production of Handloom Fabrics,
- (8) Scheme for Strengthening of Technical & Supervisory staff for Handloom Weaving.
- (9) Scheme for Expansion of foreign Races Seed Station.

The Physical Targets in respect of Mulberry, Eri & Production of Fabrics is proposed as follows :-

- 1. Scheme for Expansion of Eri Silk Industry in Hill Areas.
  - (a) Eri Cut Cocoons.

... 1.20 lakhs Kg.

(b) Eri Disease Free Layings.

... 6.30 lakhs Layings.

- 2. Scheme for Development of Mulberry Silk Industry in Hill Areas.

... 0.018 lakh Kg.

(a) Mulberry Raw Silks.
(b) Mulberry Disease Free Layings.

.., 0.25 lakhs Layings.

- 3. Scheme for Production of Handloom Fabrics in Hill Areas,
  - (a) Handloom Fabrics

11.85 million metros.

### 4,3,5, - Cooperative Handloom,

- 1. Share Capital of Primary Weavers to be admitted into the Cooperative Fold: Since 1967-68, two weavers! societies in Mikir Hills, one in the M.C. Hills and one in the Mizo were revitalised, and were sanctioned Rs.2,000/- each by way of Share Capital Grant in order to enable to subsidise 20 Shares each. The physical target proposed for 1970-71 is one weavers! copperative society in the Mikir Hills having 20 shares for admission into cooperative fold.
- 2. Subsidy on cost of Transport of Yazn: The grant of %.0.0325 lakhs was issued to the 4 societies mentioned in the aforesaid para for the purpose of subsidising the cost of transport of yarn from the procuring to the consuming centres during 1967-68 to 1969-70. Physical target achieved 55 bales of yarn. The proposed physical target for 1970-71 is 19 bales of yarn.
- 3. Rebate on Sales of Handloom Cloth: An amount of Rs,950 was incurred by way of expenditure for grant of rebate on genuine sales of handloom cloth @ 05 paise per rupse in the aforecaid 3 districts during the period in question. The physical target achieved is 9,000 metres of cloth. The said target for 1970-71 is 10,000 metres of cloth.
- 4. Supply of Improved Looms and Accessories: An amount of is.0.06 lakks was incurred by way of expenditure for purchase and supply of 60 sets of improved looms and handloom accessories to the 3 districts during the last 3 years. It is proposed to supply 11 sets of looms and accessories more during the next year to these districts
- 5. Establishment of Sales Depots: During the year 1969-70 financial assistance to the tune of NaO.04 lakhs is proposed to be made available to one society of Mikir Hills for the purpose of setting up of a sales depot for sales of handloom cloth produced by the society. It is proposed to grant a further sum of NaO.04 lakhs to one society of Mizo Hills to set up a sales depot during 1970-71.
- 6. Deputation of Weavers! to Weaving Centres: An amount of &.2.250/was made available to the weavers society of the aforesaid 3 districts for deputing
  23 weavers members both outside and inside the States for acquiring knowledge of
  improved technique in weaving. 's.0.01 lakh is earmarked against 3 districts for
  1970-71 to depute 3 weavers.
- 7. Training of Weavers: A sum of E.O.O2 lakes is proposed to be undervailable to one weaver society of Mikir Hills for the purpose of imparting training to 5 of its members for a period of 6 months and to buy chemicals, dys-stuff, and raw materials for the purpose.
- 8. Sales Promotion Activities: The entire expenditure was incurred for the purpose of propaganda and publicity; exhibitions, purchase of sample cloths for distribution to prospective customer and for the purpose of award of prizes to the best weavers in these 3 districts. The physical target for the next year is 4 such schemes,
- 9. Formation of Cooperative Weaving Factory: Two weavers societies of Mikir Hills were financially assisted @ 1s.25 thousand each for the purpose of setting up of two weaving factories. One is already set up and the other on the process of construction, During 1969-70, it is proposed to make available a sum of 1s.0.17 lakhs to one society of Mizo Hills for formation of a weaving factory. During 1970-71, the committed expenditure of 1s.0.11 lakhs will have to be met in respect of the Mizo Hills society.

contd....

- 10. Managerial Staff Subsidy to Weavers! Cooperative Society So far two weavers cooperative societies in Mikir Hills, two in N.C. Hills and one in Mizo Hills had been financially assisted by way of managerial subsidy for maint tenance of office bearers such as managers, secretaries, etc. by these societies 6 societies are going to be financially assisted for the purpose during the next year.
- 11. Designing and Dyeing Centres: The entire amount of 18.0,0445 lakh was made available to the Assam apex Meavers Cooperative Society Ltd. Gauhati for producing Dye-taff such as chemical colours etc. for dyeing of grey yarn, and supply to the verver societies of these 3 districts free of dyeing cost. It is proposed to give a grant of 18.900/- to the Apex Society during 1970-71 for the purpose.
- 12. Loans to Primary Weavers! Gooderative Societies for Working Capital: Each of the above 4 weavers Societies was granted a working capital of R.O.05 lakes each. It is possible to feed 17 looms per society with this assistance @ Rs.300/- per each cotton loom. The target for 1970-71 is Rs.O.06 lakes. It will be possible to bring under cooperative fold 20 locas @ Rs.300/- each with these amounts in the Mikir Hills districts.
- 13. Organisational Schemes: This is a staff scheme for implementation of Handloom Development Schemes in the Hill areas of Assam.

#### 4.3.4 - Khadi

The aim of the Khadi schemes is to train the people mainly in rural areas and also in urban areas in small trades/industries which can easily be developed on the materials available locally. The programme under Khadi helps to a great extent in solving the unemployment problem in the rural areas. Specially it helps the same educated people to earn their livelihood by learning these trades. The aim of the Khadi organisation is to implement the Plan schemes in such a way so that it may help the people in greater areas.

During current financial year it is anticipated that an amount of Rs. 1.49 lakhs will be spent under the Khadi programme. During 1970-71 an amount of Rs. 2.00 lakhs has been provided in the Draft Plan. This amount of Rs. 2.00 lakhs is the minimum requirement for Khadi schemes during 1970-71. The schemes which are to be implemented during 1970-71 have been shown in the statement. Most of the schemes are of continuing nature.

#### 5.1 - R O A D S

As against the approved outlay of Rs. 300 lakhs, anticipated expenditure during 1969-70 may go upto Rs. 309.50 lakhs. Emphasis has been laid on completion of the spill-over projects as early as possible. Increased provision have also been made for earlier completion of works on the missing links. Funds have also been provieded to the maximum extent possible for the important link roads so that transport facilities can be extended as early as possible to the agricultural and industrial potential areas.

An allocation of Rs. 386.00 lakhs has been proposed for 1970-71. This outlay works to 19.3% of the Fourth Plan outlay on Road programme in the Hill Areas. The outlay of Rs. 386.00 lakhs proposed for 1970-71 is the barest minimum to maintain the tempo of works already taken up.

# 5.2 - ROAD TRA SPORT (a) State Transport

The provision of Rs. 6.00 lakhs for 1969-70 is for the following schemes.

i) Mationalisation of Diphu - Colaghat routes - Rs. 5.00

lakhs.

ii) Construction of buildings at Jowai, Khliehriat and Sonapur - Rs. 1.00 lakh.

In view of the impending reorganisation of Assam, it has not been possible to take up any new scheme of nationalisation of routes in the proposed Autonomous State.

A sum of Rs. 10.00 lakh's has been proposed for 1970-71 to take up the following schemes :-

- i) Mationalisation of Diphu Golaghat route Rs.5.00 lakhs.
- ii) Construction of Divisional Workshop, godown etc -Rs. 2,00 lakhs.
- iii) Purchase of trucks for carrying cement from Cherrapunjee to Gauhati - Rw. 2.00 Lakhs.
  - iv) Construction of composite maintenance centre and staff quarters at Jowai - Rs. 1.00 lakh.

### (b) Transport facilities - Financial assistance to District Councils/ Cooperatives.

Funds are being provided as usual to the District/Regional Councils in the Hill areas to strengthen the capacity of their existing fleets of vehicles for catering to the needs primarily of the areas where the State Transport Organisation has not yet extended its services.

As against current year's allocation of Rs. 10.00 lakhs, a provision of Rs. 14.50 lakhs has been proposed for 1970-71. The increased allocation is required for helping the District/Regional Councils to extend their services in new areas where roads. are in existence or will be constructed by 1970-71, This will minimise to a certain extent the possibility of exploiting the producers by the private traders in marketing their produces at a fairly reasonable price.

### 5.4 - INLAND WATER TRANSPORT

The allocation of Rs. 1.00 lakhs for 1969-70 is mainly for maintaining the establishment of the Inland Water Transport Organisation for Mizo Hills.

A sum of Rs. 2.00 lakhs has been proposed for 1970-71. As the situation in Mizo Hills is gradually improving, some preliminary works for the Kolodyne Navigational scheme will be taken up during 1970-71 and for this increased allocation has been proposed.

# 6.1. GENERAL E-UCATION INCLUDING GULTURAL PROGRAMME

l. Elementary Education: During 1969-70, 269 primary school teachers will be appointed; 12 Middle English schools will be provincialised. Besides, recurring grants will be provided to the District Councils for maintenance of L.P. Schools.Nonre curring grants will be sanctioned to Primary and M.E. Schools for improvement and construction of school buildings, purchase of furniture, school-aids etc according to needs. Enrolment in Classes I - V is likely to be stepped up to 6,600.

As against current year's anticipated expenditure of Rs.13.48 lakhs, an outlay of Rs.36.00 lakhs has been proposed for 1970-71. Under Elementary Education Programme. This outlay is only about 15.5% of the Fourth Plan outlay for Elementary Education. There are many pockets in hill areas where extension of facilities for Primary education is a basic need. The District Councils should be financially nelped in extending educational facilities in such areas, besides staffing the existing schools adequately. Delapidated school buildings also require urgent improvement and for this additional funds are required. To meet the additional costs involved in provincialisation of M.E. Schools increased allocation is necessary. This step is directed to improve the standard of education.

2. Secondary Education - Two Birls' High Schools will be provincialised during 1969-70. In order to bring the high schools in different areas in Hills to their proper stature, the existing rate of grant-in-aid will be increased at varying proportion according to need and some more schools will be provided with grants to the minimum extent possible. Non-recurring grants will also be provided to the deserving schools.

An allocation of Rs.35.42 lakes has been proposed for 1970-71. This works to about 20.5% of the Fourth Plan outlay for Secondary Education. There is the increasing demand for provincialisation of High Schools for improving their standard of education. Number of scholarships, free studentships and stipends will also have to be increased. More schools will have to be provided with recurring as well as non-recurring grants for their proper maintenance and improvement. Facilities for Science education in the High and Higher Secondary Schools also needs to be extended to schools where such facilities are not available or inadequate.

- College is being provincialised. Recurring and non-recurring grants are being provided to the Non-Covernment Colleges in the Fill areas for maintenance and improvement. As against current year's allocation of Rs.15.63 lakhs, a provision of Rs.16.83 lakhs has been proposed for 1970-71.
- 4. Teachers! Training As the number of trained teachers in the schools in Hill Districts is quite insufficient a scheme for sending teachers for Higher education and training with scholarship and stipend is being introduced besides the teachers who are being sent for training on deputation. Construction works for Basic Training Centres have been taken up and a Normal school is being started at Aijal during the current year

Next year's proposed outlay of Rs.10.95 lakhs includes Rs.4.00 lakhs for continuing the construction works.

- 5. Adult Education Land for a library at Haflong has been finalised and construction works are being started during the current year. Next year's allocation of Rs. 4.34 lakhs includes provision for continuing the construction works at Haflong.
- 6. Other Programme A scheme for carrying out aptitude test for the students in a scientific manner is being taken up during the current year with the help of expert advise. Extension of facilities for sports, games etc is required for channelising the activities of the students in the right direction. The newly created Inspectorates need to be adequately staffed. To meet the requirement of funds for all these items, a provision of Rs. 5.70 lakks has been proposed for 1970-71.

The proposed outlay of Rs.111.00 lakhs for the General Education including Cultural Programme for 1970-71 is about 15.3% of the Fourth Plan outlay of Rs.725.00 lakhs. The outlay proposed for 1970-71 is rather modest for embarking on a programme of break, through in the field of education in the Hill areas.

H.F. ....000....

#### 6.2 - Technical Education.

1. Polytechnics - Of the three Polytechnics to be set up in the Hill Areas, only the Shillong Polytechnic has been functioning. After the 1968 fire to the institute the students were transferred to other Polytechnics in Assam. The Polytechnic has started functioning in its permanent site. At present the admissions in different classes are as follow:

First Year - 4 Second: Year - 10

A provision of Rs.3.00 lakks has been proposed for the Shillong Polytechnic for 1970-71. Bulk of this outlay will be for continuing the essential construction works and for equipment.

The proposal for setting up a Girls Polytechnic at Shillong needs to be further examined whether it will not be more advantageous to have a common Polytechnic for boys and girls instead of starting a separate one for girls. The courses to be offered for the Girls should also be properly selected. No provision has been proposed for the Girls Polytechnic for 1970-71.

A provision of Rs.0.50 lakhs has been proposed for taking up preliminary works in 1970-71 for the establishment of the proposed Polytechnic at Aijal.

2. Junior Technical Schools - The land for Joyai I.T. Is is being acquired during the current year. An allocation of Rs.2.70 lakhs has been proposed for 1970-71 for taking up construction of the School building, hostel buildings, wokshop building etc. It is also proposed to start classes for the Jowai Junior Technical School at the Shilling Polytechnic from 1970-71.

A new site for the Haflong J.T.S. is being finalised. For 1970-71, a sum of Rs.O.50 lakks has been proposed.

3. Administration - A provision of Rs.0.50 lakas has been proposed for 1970-71 for expansion of the Directorate by appointing one accountant, one Planning assistant and one Lower division Assistant.

### 6.3. - Water Supply

Out of the allocation of Rs.51.00 lakhs for 1969-70 for Water Supply, a sum of Rs. 3.26 lakhs has been diverted to the power Sector for providing power for expeditious commissioning of the Aijal Water Supply scheme. The Mater Supply Schemes for Tura and Diphu are also progressing satisfactorily. To solve the problem of water scarcity in the greater Shillong area possible alternative schemes are being examined. A new scheme for Mawlai Water Supply is being finalised shortly. Besides, some small projects for providing drinking water to the selected rural areas have also been taken up. A new Division for Tura and a sub-division for Diphu have been created during the current year for effective supervision of works. For overall supervision of projects in the hill areas, a post of superintending Engineer is being created in the Headquarter.

A provision of Rs. 58.00 lakhs has been proposed for 1970-71. Bulk of this outlay will be required for continuing works for the incomplete projects and for survey and investigation. In taking up new schemes, priority will be given keeping in view the immediate needs of the scarcity areas for which schemes are ready.

......

#### 6.4. - HEALTH,

The revised allocation under the Health Sector(Hills) for 1969-70 is Rs.26.93 lakhs and this allocation is likely to be expended in full during the year. Anticipated achievement under Amportant programmes is indicated below :-

<u>Training Programme</u> :- Four training institutes for training of Nurses and three for training of Auxiliary Nurses, Midwives are being continued and it is expected that the annual outturn from these institutions will be 26 Nurses and 30 A.N.Ms, respectively. The training programme in the G.D. Hospital under the scheme "Integration of Public Health with basic course in Nursing" with the intake capacity of 12 trainees is also continued.

Hospitals and Dispensaries :- Construction of buildings for increase of beds strength in one Sub-divisional Hospital is in progress and it is expected that 50 beds are likely to be added, Six new dispensaries are expected to be opened by the end of the year. Usual subsidy to Non-Govt, hospitals and dispensaries will be paid. In order to extend the medical facilities in the far-flung/. areas where there is no immediate possiblity of starting dispensaries. saries or Primary Health Centres. mobile dispensaries are being put to services. rural

Primary Health Jentres :- Under this scheme the construction work in one place is in progress.

### PROPOSAL FOR 1970-71

The total allocation proposed for the year 1970-71 for all Health Schemes comes to Rs.34.56 lakes and the break-up of this Allocation (District/Regional Council-wise) is as follows :-

| Garo Hills         | 0 1 4 | $Rs_n$            | 4.06              | lakhs |
|--------------------|-------|-------------------|-------------------|-------|
| Khasi Hills        | 024   | Rs-               | 7,86              | 77    |
| Jaintia Hills      | * * 3 | Rs.               | 3,50              |       |
| Mikir Hills        | 000   | Rs.               | 4.25              | 11    |
| North Cachar Hills | - 9 F | Rs.               | 2,44              | •1    |

Fs: 34.56 lakhs

Training Programme :- In addition to the existing raining Institutions, one new school is proposed to be started with the intake capacity of 20 trainses.

Hospital and Dispensaries :- Some construction works in the Subdivisional hospitals will be continued and some new works ill also be taken up. It is also proposed to add 98 beds in three espitals. The dispensaries already opened will continue to funcion and some new works will be taken up during the year. Works hich are in progress will also be continued. Nocessary grants inded to non-Government Hospitals and Dispensaries will be given Primary Health Centres: The construction work in on place which is in progress will be continued. It is proposed to start construction works in 4 Main Centres and 5 sub-Centres for which required funds have been provided.

As long as there remains the problem of availability of doctors to serve in the rapal areas in the hill districts, it is not possible to make appreciable progress to start dispensaries and Primary Health Centres in the rural areas. On the top of it the people living in far away places from the existing dispensaries or Public Health Centres can no longer be denied of the medical facilities. To overcome these problems to a certain extent emphasis has been given to provide for the mobile dispensaries according to the need of the neglected areas in the hill districts. In order to attract the doctors to go for serving in the rural medical centres a proposal for providing additional remuneration to doctors is also being considered.

#### 6.6 - Urban Development

During 1969-70, funds are being provided to the District Councils and Town Committees etc in the Hill Districts for improvement of markets, widening of town roads, construction of drains, construction of public urinals in the towns and townships etc. The outlay of Rs. 11.00 lakhs is likely to be expanded in full during the current year.

For 1970-71, a sum of Rs.22.00 lakes has been proposed for the programme of Urban Development. Of this allocation, substantial amounts will be required for continuing the works for improvement of markets at Tura and Jowai. The next year's cutlay of Rs.22.00 lakes is worked out on the basis of requirement of funds indicated by the concerned authorities at the district level.

## 6.7 - Social Welfare

Current year's provision of Rs.2.00 lakhs is likely to be expanded in full. A provision of Rs.2.50 lakhs has been proposed for 1970-71, mostly for continuing schemes. Bulk of the allocation is meant for grant-in-aid to the Voluntary Social Melfare Organisations in the Hill Districts. Momen and Child Melfare programmes will be continued as usual. Probation services and other schemes under the social Defence programme will also be carried on.

### 6.8. (a) Employment Services.

The following schemes are being implemented during 1969-70.

- 1. Setting up of an Employment Information and Assistance Bureau in the Development Block in N.C. Hills.
- 2. Setting up of an E.M.I. Unit at the District Employment Exchange, Haflong.
- 3. Strengthening of the E?M.I. Unit at Diphu,
- 1. Setting up of an Employment Exchange at Jowai.

Activities taken up in 1969-70 will be carried on in 1970-71. Besides, an Employment Information and Assistance Bureau will be set up in the Development Block in Mikir Hills, an Employment Exchange at Lungleh, a vocational guidance Unit at Aijal, an E.M.I. Unit at Jowai will also be set up. The E.M.I Unit at Tura will be strengthened. A provision of Rs.c.30 lakhs has been proposed for 1970-71.

# 6.8. (b) Craftsman Training.

No expansion of the existing I.T.Is in the Hill Districts is being taken up during the current year. The revised allocation of Rs. 1.60 lakhs for 1969-70 is for maintenance of the institutes and for purchase of deficit equipment.

The Shillong guest I.T.I. at Gauhati and the Aijal guest I.T.I. at Srikera will have to be shifted to their permanent sites at Shillong and Aijal respectively without any further delay. For this purpose additional funds will be required during 1970-71 to start the required construction works. As the prespect of appreciable admission in the I.T.Is is not every bright it is desirable to go slow with the programme for expansion of the I.T.Is except in opening up of popular trades which may attract more trainees. A provision of Rs. 1.00 lakes has been proposed for 1970-71, of which Rs. 2.30 lakes will be utilised under works.

#### 7.1 - Information & Publicity

During 1969-70, about 70 Community Radio sets have been installed. Fixed Loud Speaker system has been extended to all the district and sub-divisional headquarters in the hill districts except Saiha. Hill bulletines have been published in five different local languages in the Hills. Exhibition and cultural shows depicting the development activities in the hill areas have also been lakhs organised. The cutlar of Rs. 4.00/for 1969-70 is likely to be expanded in full.

A prevision of Rs. 4.7± lakhs has been proposed for 1970-71. It is proposed to install 200 more Community Radio sets during 1970-71. An information centre will be opened at Saiha in the P.L. Region. Works for construction of office buildings etc at Diphu will be taken up during 1970-71. Other activities will be carried on as usual.

One of the important schemes under this head of development is "Grant-in-aid to District Councils for financing their own plan including Model Village scheme". The District/Regional Councils implement schemes like rural communication, rural water supply, etc out of the provision allotted to them. The "Model Village scheme" is primarily desired for settling the Thurmers in a compact area with the facilities for economic rehabilitation. The main idea behind the scheme is to encourage settled cultivation. But the existing situation in all the hill districts is not alike. In Garo Hills there are large number of small villages with only a few families. Such villages need to be regrouped and the families to be settled in the regrouped villages need to be provided with financial assistance for construction of houses, purchase of Plough Cattle etc. Requirement for surply of seeds, fertilizers etc will be taken care of under the relevant prograrme of agriculture and other departments concerned. The situation in the Mizo Hills is again different. Villagers there are being brought to the P.P.Vs, administrative centres and the security centres. They also require additional assistance for their proper rehabilitation. During 1969-70, a proposal is being considered to set up a model village in Mikir Hills to re-settle about 150 families of Jhummers. During 1970-71, regrouping of villages in Garo Wills will be taken up and the scheme to be started in Mikir Hills will also be continued. A substantial part of the proposed allocation of Rs.45.00 lakhs under this scheme will be required for accommodating "Model Village Scheme".

Additional funds are required by the Jowai District Council, Khasi Hill District Council and the P.L. Regional Council for construction and extension of their office buildings etc. For this purpose additional funds are necessary. A provision of Rs. 5 lakhs has been proposed for construction of buildings by the District/Regional Councils.

Other schemes will be implemented as usual. A total allocation of Rs. 60.00 lakhs has been proposed for different schemes under this head of development.
