- (39) Financial assistance to Colleges in Delhi sponsored by the Delhi Administration for repairs and minor additions and alterations of the buildings where the colleges are working.

The question of providing financial assistance to the colleges in Delhi sponsored by the Delhi Administration for repairs and minor additions and alterations of the School buildings in which the

colleges are at present functioning was considered by the Commission at the meeting held on the 3rd July, 1968 (vide Item No. 52). It was agreed that the views of the Government of India may be obtained in the first instance.

In pursuance of the above resolution of the Commission, the Government of India, Ministry of Education, was approached for their views in the matter. In the mean-time the Delhi Administration has agreed to undertake minor adjustments in the School Buildings occupied by the Delhi Colleges sponsored by them to suit the requirements of colleges located in these buildings. In view of the above agreement of the Delhi Administration, it has been decided not to pursue the matter further till such time as any difficulties are pointed out by the Delhi Colleges.

(40) Lady Irwin College - Teacher pupil ratio for B.Ed. Classes.

In August 1957, the University Grants Commission on the basis of the report submitted by a Committee appointed by it to review the working of the Diploma and Degree Courses at the Lady Irwin College had, inter-alia, decided that the teacher - pupil ratio in the college may be 1 : 115 for the purpose of grant-in-aid from the Commission. No distinction was made in the teacher-pupil ratio between the B.Ed. Course on the one hand and other courses offered by the College on the other.

In September 1968, the Lady Irwin College requested that it may be permitted to adopt the teacher-pupil ratio of 1:10 in the B.Ed. Courses. In justification of this proposal, it was stated that the Central Institute of Education which is one of the two colleges of the Delhi University, (the other being the Lady Irwin College) is following the above ratio of 1:10. It was also pointed out that the load of work involved in supervisory work in connection with the practice teaching is very heavy; moreover, in respect of students specialising in Home Science teaching, it is necessary to include comparatively a larger number of schools than the Central Institute of Education.

The proposal of the Lady Irwin College was recommended by the Delhi University. In these circumstances, the Lady Irwin College has been permitted to follow the teacher-pupil ratio of 1:10 for the B.Ed. course with effect from the academic year, 1965-66 i.e. the year from which the college actually employed teachers on the basis of this ratio.

(41) Construction of buildings for the P.G.D.A.V. College, New Delhi - Acceptance of plans and estimates of

The P.G.D.A.V. College, New Delhi came into existence in July, 1957 and has been functioning in a building of the D.A.V. Higher Secondary School, Chitragupta Road, New Delhi. The Government of India allotted a piece of land in Nehru Nagar to the P.G.D.A.V. College for the construction of its building.

In April, 1968, the University of Delhi forwarded to the Commission the plans and preliminary estimates for the construction of P.G.D.A.V. College buildings at the above site. The plans envisage construction of lecture halls, Teachers' rooms, library accommodation, Administration Block, Health Centre, a small Gymnasium, N.C.C. Room, and accommodation for the Evening Shift comprising of a total built up area of 41,752 sq. ft. The cost of the above project as estimated by the college is Rs. 10,78,950/-

The plans and preliminary estimates were sent to the C.P.W.D. for scrutiny and comments. The C.P.W.D. has approved the plans and estimates of the college buildings including provision for Evening classes with a total built up area of 40,630 sq.ft. at an estimated cost of Rs.8,86,700/- The total built up area of 40,630 sq.ft. includes an area of 2,110 sq. ft. provided for Evening classes.

Although no specific mention has been made for Evening Classes in the norms laid down by the U.G.C. for college buildings in Delhi, yet, in view of the fact that only an additional area of 2,110 sq.ft. has been provided in the plans of the P.G.D.A.V. College for Evening Classes, this small excess area has been allowed and accordingly the plans and estimates of the college for its buildings have been accepted with a total built up area of 40,630 sq.ft. at an estimated cost of Rs.8,86,700/-

(42) Delhi University Constituent Colleges -
Maintenance Grants - Payment of

Maintenance grant to the Constituent Colleges of Delhi University was payable during 1965-66 by the University Grants Commission on the basis of 90% of the net deficit (in the case of Evening Colleges and University maintained College it is on 100% basis of the net deficit) i.e. approved expenditure minus approved income. Accounts duly audited for the year 1965-66 in respect of the following colleges have been re-examined/finalised and admissible grants worked out and sanctioned as under:-

S.No.	Name	Admissible Grant	Remarks

(43) University of Jabalpur -Completion cost of the
Construction of 8 Lecturers' Quarters.

In February 1965, the University Grants Commission accepted inter-alia, the plans and estimates in respect of construction of 8 Lecturers' quarters at the Jabalpur University at an estimated cost of Rs.1,53,624/- The University has now intimated that these quarters have been completed at a total cost of Rs.1,69,728/- The increase of expenditure over the estimated cost (Rs.16,104) is

due to the following items for which provision had not been made in the original estimates, but were later found to be essential:

- (i) Shutters for cup-boards;
- (ii) Septic tank; and
- (iii) Some other items of minor nature.

The increase in expenditure is also partly due to certain mistakes in the calculation of quantities of building materials which had been taken into account in preparing the detailed estimate.

The completion cost of 8 lecturers' quarters at the Jabalpur University has been accepted at Rs.1,69,728/- taking into consideration the facts pointed out by the University and the necessary grant on a sharing basis of 50: 50 has been paid to the university.

- (4) Proposal of the University of Jabalpur to name the Post-graduate Hostel as "Pandit Kunjilal Dube Chhatrabas" not accepted.

In October, 1968, the University of Jabalpur sent a proposal that the University Postgraduate Hostel may be named as "Pandit Kunjilal Dube Chhatrabas". This hostel has been constructed with financial assistance from the University Grants Commission.

At the meeting of the Commission held on 7th April, 1965, it had, inter-alia been decided that "the library buildings, hostels and colleges could be named after persons of outstanding eminence in the field of teaching, research, scholarship and public service whose life and work would be a source of inspiration to the young generation, provided that no building shall be named after a living person".

Pandit Kunjilal is at present a member of the Legislative Assembly in Madhya Pradesh. The proposal of the Jabalpur University to name the hostel after Pandit Kunjilal Dube was, therefore, not accepted in terms of the Commission's decision referred to above.

- (45) University of Mysore - Completion cost of the construction of 30 Lecturers' Quarters.

In January, 1963, the U.G.C. accepted the proposal of the University of Mysore for the construction of 30 Lecturers' quarters at an estimated cost of Rs.5,34,060 (Rs.17,802 per quarter). In accordance with the usual procedure, the lowest tender in respect of civil cost of the work was accepted by the University at Rs.4,72,020 on the basis of Rs.15,734/- per quarter and was noted by the Commission.

The above project has now been completed by the University at a total cost of Rs.5,50,137.48, which includes the civil cost of work at Rs.4,87,732.19. The completion cost of the civil work has exceeded the tendered cost by Rs.15,712.19 (Rs.4,87,732.19 less Rs.4,72,020). The University has intimated that the increase of expenditure is due to the execution of the following items of work for which no provision had been made in the sanctioned estimates but were found to be essential:

1. Providing Weld mesh to windows	Rs. 8,524
2. Providing Copper Handles & Padlocks	Rs. 1,951
3. Earth work around the buildings to level the ground allround.	Rs. 2,297
4. Paving the front foot path; and	Rs. 2,423
5. Small excesses in quantities in some quarters.	Rs. 517
	<hr/>
	Rs.15,712

The completion cost of the work at Rs.5,50,137.48 has been accepted, taking into consideration the overall expenditure incurred on different items of work and the necessary grant on a sharing basis of 50: 50 paid to the University.

- (46) Proposal of the University of Ranchi to name the Men's Hostel as 'Marikham Chatrabas' - not accepted.

In December, 1968, the University of Ranchi sent a proposal that the University Postgraduate Men's hostel may be named as 'Markham Chatrabas' i.e. in the name of the present Vice-Chancellor. This hostel is being constructed with financial assistance from the University Grants Commission.

At the meeting of the Commission held on the 7th April, 1965, it had inter-alia been decided that "the library buildings, hostels, and colleges could be named after persons of outstanding eminence in the field of teaching, research, scholarship and public service whose life and work would be a source of inspiration to the younger generation, provided that no building shall be named after a living person".

The proposal of the Ranchi University to name the hostel after Shri Markham was therefore not accepted, in terms of the Commission's decision referred to above.

- (47) Sardar Patel University - Purchase of utensils for hostel building with financial assistance from the UGC.

Under the scheme for construction of hostels, the University Grants Commission inter-alia, provides financial assistance to universities for the purchase of living room furniture at the rate of Rs.150/- per student. At its meeting held on 3.7.1968, the Commission agreed to provide cent per cent grant to the Sardar Patel University towards the construction of hostel building for its 4-year integrated teacher training course, provided that the expenditure is met from within 70% of the allocation made to the University for the plan period ending 1970-71. This hostel is intended to provide residential accommodation for 198 students. According to the pattern of assistance for the purchase of living room furniture, the University is entitled to a grant of Rs.29,700/- on this account.

In October 1968, the Vice-Chancellor, Sardar Patel University intimated that it has already placed an order for incurring an expenditure of Rs.10,000/- in connection with the purchase of utensils for the University hostel. The University had entered into this commitment on the understanding that it will be treated as "approved expenditure" by the University Grants Commission, as regional colleges were getting assistance from the N.C.E.R.T. for purchase of utensils also. In view of the fact that it was not possible for the University to meet this expenditure from its normal budget, the Vice-Chancellor requested that permission may be accorded for the purchase of the utensils worth Rs.10,000/- within the over-all ceiling of the grant admissible to the University for the purchase of furniture for the hostel.

In view of the reasons given by the Vice-Chancellor, it has been decided to treat the expenditure of Rs.10,000/- incurred by the University on the purchase of utensils for the University hostel as approved expenditure, subject to the condition that the expenditure will be met from within the total grant admissible to the University for the purchase of living room furniture for

(48) Financial assistance to the U.P. Agricultural University for construction of Teachers Hostel

The proposal of the U.P. Agricultural University for the construction of a Teachers' Hostel consisting of 24 flats at an estimated cost of Rs. 3.20 lakhs was accepted by the University Grants Commission in May, 1964, subject to the condition that the Commission's assistance would be limited to Rs. 3 lakhs or actual expenditure, whichever was less. A sum of Rs. 50,000/- was also paid to the university towards the above project.

In July 1966, the University intimated that they had spent an amount of Rs. 37,684 on the purchase of cement and other building materials out of the grant of Rs. 50,000/- paid by the Commission and had not undertaken actual construction work on the project. As the mere purchase of building materials was not taken as implementation of the Third Plan Scheme by the University and in view of the fact that the U.G.C. was not giving any assistance to Agricultural Universities during the Fourth Plan, the U.P. Agricultural University was informed that the Teachers Hostel project sanctioned by the Commission during the Third Plan period may be treated as cancelled and that the amount of Rs. 50,000/- paid towards the project be refunded to the Commission. The University, however, did not refund the amount. The matter was, however, placed before the Commission at its meeting held on the 2nd August, 1967 (vide item No. 28). It was noted that the Chairman would discuss this with the Director General, I.C.A.R. Accordingly, the matter was discussed with the authorities of the I.C.A.R. on the basis of these discussions, the University was requested to approach the I.C.A.R. for financial assistance for the above project, as they had a scheme similar to that of the U.G.C. for grants to Agricultural Universities for construction of Teachers' Hostels. The University was also informed that it would not be possible for the Commission to pay any further grant towards the above project.

In March 1968, the I.C.A.R. informed the Vice-Chancellor, U.P. Agricultural University that since the U.G.C. had already released a grant of Rs. 50,000/- to the University they may be asked to release the balance of Rs. 1 lakh and that the matter may be settled between the University and the Commission without involving the I.C.A.R. at that stage. Accordingly, the Vice-Chancellor, U.P. Agricultural University requested the Commission to finance the above project. The matter was again taken up with the I.C.A.R. in terms of the decision of the Commission at its meeting held on 2.8.1967. The I.C.A.R. has now agreed to pay a balance grant of the approved limit to the U.P. Agricultural University on the basis of pattern of assistance for the above project and that the University is being requested by them to include the above project under their continuing terms of construction and claim the reimbursement of expenditure from the I.C.A.R. in their quarterly demand during 1968-69.

In view of the above decision of the I.C.A.R., it has been decided not to press the U.P. Agricultural University for refund of Rs. 50,000/- paid by the Commission for the construction of Teachers' Hostel.

(49) Upgradation of the U.G.C. (Departmental) Canteen from 'C' type to 'A' Type.

The Ministry of Home Affairs has laid down the following criteria for determining the classification of the departmental canteen:-

- i) Strength of the staff in the office; or
- ii) the monthly sale proceeds.

* * *

Based on the sale proceeds in the U.G.C. (Departmental) Canteen which exceed Rs. 3500/-- per month and according to which the departmental canteen may be classified as 'A' type, the U.G.C. (Departmental) canteen has been classified as 'A' type canteen raising the sanctioned strength of staff in the canteen from 13 to 15, and to pay subsidy accordingly.

- (51) Nagpur University - Approval of an additional expenditure of Rs.63,000/- for purchase of furniture at the Laxminarayan Institute of Technology, Nagpur.

The Commission at its meeting held on 3rd April, 1963 approved on the recommendation of the A.I.C.T.E. inter-alia an expenditure of Rs.20,000/- for the purchase of furniture under the scheme of Introduction of Five Year Integrated degree course and Increase in Intake in Chemical Engineering at the Laxminarayan Institute of Technology, Nagpur. The share of the University Grants Commission was Rs.10,000/- (50% of the approved expenditure).

The A.I.C.T.E. has recommended an additional expenditure of Rs.63,000/- for providing furniture to the Laxminarayan Institute of Technology at Nagpur under the above scheme. The recommendations have been accepted. The Commission's share will be limited to Rs.31,500/- i.e. 50% of the approved expenditure.

The Commission considered the proposal of the Gorakhpur University for the construction of an administrative block approved during the Third Plan period in lieu of the areas to be vacated by the university administration for use by the science departments. It was desired that an officer of the Commission may visit and examine the proposal and also the suitability of the accommodation to be made available for use by the Science Departments. I visited the Gorakhpur University on the 10th - 11th November, 1968 and had discussions with the Vice-Chancellor, Registrar, Dean of the Faculty of Science and the heads of the Departments regarding their space requirements and also the area proposed to be made available to the Science Departments consequent upon a new administrative block to be constructed by the University.

The present position is that the Departments of Chemistry Botany and Zoology in the Faculty of Science and Military Science, Psychology and Law in the Faculty of Humanities are at present housed in a building known as Pant Block constructed by the foundation society of the Gorakhpur University prior to the establishment of the Gorakhpur University. This building formed the main nucleus of the new university and until such time the separate buildings were constructed for the different departments, most of the university teaching departments were housed in this block. The University hopes to shift the Humanities Departments to the newly constructed Humanities Block in the near future. In view of the increasing demand for space by the Departments of Science particularly the Departments of Chemistry, Botany and Zoology, the University has considered it appropriate to vacate the rooms presently occupied by the university offices and make them available to the Science Departments so that they would have necessary accommodation in the same building continuously. The area proposed to be vacated consists of ten rooms on the ground floor and ten rooms on the first floor each approximately of the dimension of 20' x 20'. The total area proposed to be surrendered for the use by the Science laboratories is, therefore, much larger than what the University would be able to construct out of the money available for this purpose i.e. Rs. 78,000/- from the U.G.C. and an equal amount from the State Government. The Science Departments at present are hard pressed for lecture rooms and also additional laboratories because of the large intake both in the B.Sc. and the M.Sc. classes as a result of the U.P. Government scheme of doubling the intake which is also accepted by the Commission in the Third Plan period. The rooms to be vacated are suitable for use by the Science Departments but would need small alterations and necessary furniture and fittings to make them useful as lecture rooms as well as laboratories.

Actually the University propose to construct the new administrative block at a cost of about Rs. 4.5 lakhs but the amounts available under the doubling intake scheme from the UGC and the State Government is only of the order of Rs. 1,56,000/- The University proposes to find the balance of expenditure required from its reserve funds. The shifting of the administrative sections of the university from the Pant Block mainly meant for use by the Science Departments would help considerably the Science Departments and also will enable the university administration to be in one place in the proposed new building.

It is, therefore suggested that the proposal of the Gorakhpur University may be accepted and the Commission's share of Rs. 78,000/- payable towards this purpose may be permitted to be utilised for construction of the administrative buildings and the University be told that the balance of Rs. 26,000/- payable by the U.G.C. should be utilised for any alterations, furniture and fittings to be made in these rooms for use by the Science Departments along with the corresponding share available from the State Government.

BROAD OUTLINE OF THE SCHEME FOR VISITING STUDENTSHIPS

The broad purpose of the scheme is to help students "to know the country" by providing opportunities to visit places of outstanding interest in the field of national development, culture, history, education, etc.

The students in university (departments and colleges are eligible for participation in the scheme. About 500 students will be selected for participation in the scheme in 1969-70.

The duration of the programme will be about two weeks.

The visiting students will be paid third class (sleeper) railway/bus fare for travel from place of their study to the place of visit and back. Incidental charges at the rate of Rs.10/- each way and daily allowance of Rs.10/- per day will be paid to the students. The students should avail of the railway concession for the purpose.

The universities interested to participate in the scheme for the year 1969-70 would be requested to send proposals to the U.G.C. giving relevant details before March 31, 1969.

Because of the limited funds, the maximum number of student-places available to a university within the present scheme will be limited to 50 and the U.G.C. contribution would not exceed Rs. 5,000/-

Minutes of the discussions held in the room of Finance Secretary, U.P., on January 29, 1969.

.....

The following were present:

1. Shri R.K.Trivedi, Secretary, Finance.
2. Shri F.P.Bhatnagar, Secretary, Education.
3. Shri R.K.Chhabra, Joint Secretary, University Grants Commission, New Delhi.
4. Shri R.S.Chitkara, Deputy Educational Adviser, Government of India, Ministry of Education, New Delhi.
5. Shri G.S.Chaudhry, Deputy Secretary, Finance.
6. Dr.S.N.Mehrotra, Deputy Secretary, Education.

The following decisions were taken :

1. The State Government would be willing to meet the committed expenditure after 1973-74 on account of the posts sanctioned by the University Grants Commission during the Fourth Plan period to various State Universities subject to the following conditions:-
 - (i) Since the posts of Professors and Readers sanctioned by the University Grants Commission are primarily meant for post-graduate development of the universities, the Commission may meet the entire expenditure on these posts for the period ending 1973-74 as is done in the case of Universities in other States for post-graduate development.
 - (ii) With regard to the posts of Lecturers and other non-teaching posts sanctioned by the University Grants Commission the sharing basis will be as agreed to by the Commission.
 - (iii) The creation of posts sanctioned by the University Grants Commission may be suitably staggered in regard to Professors and Readers; the staggering may be done by the Universities in consultation with the University Grants Commission.
2. (a) The State Government agree to provide for the matching share for non-recurring items within the availability of Plan Provision.

(b) The University Grants Commission may consider the possibility of assisting the universities to the maximum for the schemes involving non-recurring expenditure for which assistance is given on cent per cent basis.

The meeting of the Committee appointed by the Commission to consider the question of scales of pay of teachers in Institutions deemed to be universities, where the bulk of the work is at the undergraduate level was held on 29th August 1968 and 3rd February 1969. The following were present:

1. Dr. (Miss) Kaumudi,
Deputy Financial Adviser,
Ministry of Finance.
2. Shri R.S. Chitkara,
Deputy Educational Adviser,
Ministry of Education.
3. Shri H.D. Gulati,
Assistant Educational Adviser,
Ministry of Education.
4. Shri R.K. Chhabra,
Joint Secretary,
University Grants Commission.
5. Shri L.R. Mal,
Education Officer,
University Grants Commission.

The Committee had before it a note prepared by the office of the Commission indicating the factual position with regard to the scales of pay in the Institutions deemed to be universities under consideration

It was agreed that the Committee might consider the question of scales of pay in regard to the following four Institutions deemed to be universities where the bulk of work was at the undergraduate level, though these institutions already have undertaken postgraduate work and would do more of this in the near future :

1. Kashi Vidyapith, Varanasi.
2. Jamia Millia Islamia, New Delhi.
3. Gujarat Vidyapith, Ahmedabad.
4. Gurukul Kangri Vishwavidyalaya, Hardwar.

The Committee noted the scales of pay of teachers in Kashi Vidyapith, Jamia Millia Islamia and Gujarat Vidyapith in the Third Plan period were indicated in the statement (Annexure). The Committee further noted that in Kashi Vidyapith, the scales of pay of the teachers during the Third Plan were the same as recommended by the U.G.C. In the case of Jamia Millia Islamia, except for the post of professor, the scales of pay of other teachers were those recommended by the U.G.C. The scales of pay of teachers in Gujarat Vidyapith were, however, different. The Committee also noted that Gurukul Kangri Vishwavidyalaya had approached the Commission, during the Third Plan for the revision of the scales of pay of teachers from Rs.250-500 to Rs.350-800 which had been agreed to by the Commission. The teaching posts sanctioned by the Commission for the Gurukul Kangri Vishwavidyalaya during the Third Plan carried this scale of pay.

The Committee observed that it would be difficult to demarcate the teachers in these institutions for undergraduate and postgraduate courses because by and large the teachers taught both the postgraduate and undergraduate classes. It would, therefore, be difficult to have two sets of scales for teachers in these Institutions for undergraduate and postgraduate courses. The Committee were of the view that since it had been decided that the scales of pay of the State Universities and

the Central Universities be the same and that efforts have to be made to narrow the gap between the scales of pay of the Colleges and the Universities, the scales of pay of the teachers of the Institutions deemed to be Universities be the same as in the State Universities unless an institution desired to have lower scales of pay.

The Committee also felt that there should be some relationship between the scales of pay in the institutions deemed to be Universities and the Universities in the same State otherwise the Institutions deemed to be Universities would not be able to attract qualified teachers. This would result in lowering the academic standards in these institutions and thus hampering their progress.

The Committee agreed to recommend that the three Institutions (Kashi Vidyapith, Gujarat Vidyapith and Jamia Millia Islamia) may have the same scale of pay for the teachers as recommended by the University Grants Commission for the Fourth Plan period:

Professor	-	Rs.1100-1600
Reader	-	Rs. 700-1250
Lecturer	-	Rs. 400-950
Jr. Lecturer	-	Rs. 300-600

(including Lecturers in Arts/Crafts at Jamia Millia)

The above scales may be adopted w.e.f. 1st April, 1968.

The Institution should lay down suitable qualifications for these posts (in the light of the qualifications laid down by neighbouring Universities) and the new appointments may be made in the revised grades.

With regard to Gurukul Kangri Vishwavidyalaya, the Committee observed that the Institution had at present only the post of lecturers and the following two scales were in force:

Principal/Head of the Department	Rs.350-800
Lecturer	Rs.250-500

The Gurukul Kangri Vishwavidyalaya had asked for the following scales for their teachers:

Principal	Rs.800-50-1250
Reader/Sr. Lecturer	Rs.700-40-1100
Lecturer (Sr.scale)	Rs.400-30-640-40-800
Lecturer (Jr. scale)	Rs.300-25-600
Tutor/Demonstrator	Rs.250-15-400

These scales, it was observed were identical to those recommended by the Commission for postgraduate colleges.

The Committee felt that the present nomenclature of the teaching posts in the Institution should not be changed, and the existing scales may be revised as under:

Principal/Head of the Department	Rs.400-950
Lecturer	Rs.300-600

However as and when the Vishvavidyalaya creates posts of Professors and readers, they may be in the scale recommended for these posts by the U.G.C. for the Fourth Plan period. The institution should lay down suitable qualifications for these posts in the light of those laid down in the neighbouring Universities.

The Committee also agreed that the scales proposed above, may be made applicable with effect from 1.4.68.

The Committee could not recommend the introduction of the scale of Sr. Professor of Rs.1600-1800 in the above Institutions.

Scales of pay during the Third Plan, at Kashi VidyapithJamia Millia Islamia and Gujarat Vidyapith

Name of the Institution	Professor/ Principal	Reader	Lecturer
Kashi Vidyapith	Rs.1000-50-1500	Rs.700-40-1100	Rs.400-30-640-40-800
Jamia Millia Islamia	Rs.800-50-1250	Rs.700-1100	1. Sr. Rs.400-800 2. Jr. Rs.300-600
Gujarat Vidyapith	Rs.800-50-1250	Rs.500-25-800	1. Sr. Rs.350-25-600 2. Jr. Rs.250-20-500
Gurukul Kangri Vishwavidyalaya	Rs.350-800 [*]	-	Rs.250-500

In this connection the Commission reiterated its earlier decision endorsing the recommendations of the National Integration Council in this regard. It was suggested that where assistance is given more or less on a 100 per cent basis to the universities for development programmes, a condition of the grant should be that admissions are made on an all-India basis. The Commission desired that the subject may be included in the Agenda for the forthcoming Conference of Vice-Chancellors.

This decision was communicated to the University on 18.7.1963. Subsequently, the University sent a proposal that the construction of a hostel for 132 students may be accepted as first phase against the above sanction for 540 students, which may be used, for the present, for students of the Medical College till the building for the Medical College hostel was available. Later in January 1965, the University came up with a further proposal for adding one more floor to the hostel for 132 students which was a two storeyed block, so as to provide accommodation for 180 students. This proposal was accepted by the Commission. It was also noted that the tendered cost of the hostel for 180 students (Civil work portion) was Rs. 7,85,150/-. In May 1965, the University intimated that it had made certain changes in the pattern of accommodation provided in the hostel so as to provide residential facilities for 198 students. The estimated cost for the Civil work for the construction of the hostel for 198 students was stated to be Rs. 7,885,500.

2. The University has now completed the above project at a total cost of Rs. 9,04,923.18 which has been accepted. The total expenditure involved is proposed to be met from within 70% of the allocation made to the Institute for plan schemes for the period ending 1970-71.

- (17) St. Stephen's College, Delhi - Construction of a Surface Well - Completion cost of
-

At its meeting held in August 1965, the University Grants Commission accepted the proposal of the St. Stephen's College for the construction of a Surface Well in the College campus at an estimated cost of Rs. 22,000/- and agreed to pay to the College a grant not exceeding Rs. 11,000/- on a 50:50 basis. The College has completed the above project at a cost of Rs. 27,061. The increase in the expenditure over the

estimated cost is due to the following reasons:

"In the area surrounding St. Stephen's College, the Water is invariably found to be blackish and in some cases unfit even for use in the garden. We had to do trial borings upto the depth of 170' in one area and having discovered that the quality of Water was very poor, we attempted a boring in another place and were able to find good water and plentiful in supply at a depth of 60'. The well was, therefore, constructed in this locality. This explains the increase of Rs. 2,800, in the cost of digging the well over the estimated cost of Rs. 13,000/-.

Fitting of a Motor: Because of the larger supply of water available and the increase in the depth we installed a Johnston deepwell turbine pumping set capable of delivering 1500 Imp.G.P.H. at 2900 R.P.M. at a total cost of Rs.6,440.50.. This heavier pump also involved fitting of strong iron girders to support the engine. A room with a roof, a door and two windows had also to be constructed for the pump and the engine room. For these reasons the fitting of the motor cost Rs.4,470/- more than the estimated cost Rs. 3,000/-.

Pipe line: Having spent more money on the two items mentioned above, every effort was made to reduce the cost of laying the pipe line and a saving of nearly Rs.2,200/- was achieved."

In view of the circumstances stated by the College, the completion cost for the construction of the surface well in the St. Stephen's College has been accepted on a cost of Rs. 27,061/- and Commission's share amounting to Rs. 13,530.50, being 50% of the actual completion cost has been paid to the College.

UNIVERSITY GRANTS COMMISSION

Annexure A to the Minutes of
the UGC meeting held on 2nd
April, 1969.

(The Minister attended the meeting from 12 noon to 1.30 P.M.)

The Chairman welcomed the Education Minister and expressed the gratitude of the Commission for his visit and agreeing to address the Commission. The Chairman referred to some of the important and pressing problems of higher education, such as the need for some kind of over-all consideration, assessment and coordination of development of different sectors of higher education (arts, science, technology, agriculture, medicine), student participation, and governance of universities and colleges. He referred briefly to the problems created by the very large increase in university enrolment in recent years. In this context some of the universities, particularly the University of Calcutta merited special attention.

The Education Minister in his address stressed the importance of collegiate education, since 85% of the student population in the country was in colleges. He said that larger resources should be made available to the colleges in the Fourth Plan to improve the essential facilities. It should be made possible to recruit and retain competent staff. Eminent teachers in colleges should have the same benefit and facilities as are available to university staff.

As regards university autonomy, it was necessary that autonomy was exercised in a fair and responsible way. Referring to student participation in university management, the Minister said that replies received from universities to the UGC's circular in this regard had revealed that there were differences of opinion among them. The Commission could discuss the matter with the universities and indicate the lines along which student participation should be encouraged. It was also necessary to consider whether this principle should be extended to membership of different university bodies. Eminent educationists should be asked to expound their views on this problem.

The Minister also stressed the importance of organising orientation courses for teachers concerning the welfare of students. It was necessary to set up day-homes and non-resident student centres for the benefit of students. In large cosmopolitan cities like Bombay, Delhi, Calcutta and Hyderabad we should have a number of day-homes with library, recreation and canteen facilities for the benefit of students who lived far away from the university campuses.

The Minister welcomed the setting up of the Centres of Advanced Study in universities. He said that we should find out in what ways they have contributed to the improvement of standards in the universities. The centres should assume greater responsibility for organising seminars and orientation courses for the benefit of teachers.

The Minister next referred to the importance of setting up strong departments of Education and Pedagogy in the universities. Four or five universities should be selected for development of strong departments of education which could give particular attention to the study of various educational problems facing the country.

The Minister also emphasised the importance of setting up a college in Delhi which will provide for an employment-orientated three-year degree course. It should be possible to attract students who are not particularly suited for general education in Arts or Science to such an institution and thereby also reduce the pressure of admissions to the existing colleges in Delhi. The programme should be tried out as a pilot project, and if found useful extended to other universities.

The Commission noted that Dr.D.S.Reddi on his retirement as Vice-Chancellor, Osmania University had ceased to be a member of the Commission. The Commission placed on record with a sense of gratefulness its appreciation of the valuable services rendered by Dr.D.S.Reddi as a member of the University Grants Commission.

Item No.1: To receive the minutes of the meeting of the Commission held on 2nd April,1969.

The Commission considered the recommendations made by the Committee regarding improvement of existing hostels in the universities and agreed that grants (depending on the merits of the proposal received)

The acceptance of the Commission has been communicated subject to the following:

- (a) The University would be able to find the necessary funds for these posts with effect from 1.4.1969 from within 70% of the total allocation and the State Government gives necessary assurance to continue to maintain these posts effectively entirely from its own sources when the assistance from the UGC ceases.
- (b) The posts should be filled through advertisement and constitution of proper selection committees according to the university statutes.
- (c) If any of the existing staff members in the departments are considered suitable for appointment against these posts, the resultant vacancies in the departments whether supported by the University Grants Commission or by the State Government should be immediately filled.
- (d) Since the University obtains 100% assistance in respect of the staff approved by the Commission on the understanding that these staff are mainly required for postgraduate teaching and research work, the persons appointed should therefore belong to the postgraduate sections and may assist to the extent possible in the undergraduate teaching work also until such time the university considers the suggestion of the Committee to vertically integrate each of these departments for academic purposes.
- (e) The university may make efforts to have the present injunction against appointment of Readers vacated early so that the department would have suitable senior staff to be able to carry on their academic work.
- (9) Correspondence Courses at the Secondary Stage for those who have passed the High School Examination.

(20) Gujarat Vidyapith, Ahmedabad - Construction of Men's Hostel - Finalisation of Completion Cost of -

In January 1965, the University Grants Commission accepted, in principle, the proposal of Gujarat Vidyapith for the construction of Men's Hostel for 80 students at an estimated cost of Rs.3,00,000 on a 50 : 50 basis. The tendered cost for the Civil Work relating to the above project, as accepted by the Vidyapith, in respect of the above project amounted to Rs.2,91,505.04.

The Vidyapith has now reported the completion cost of the above project of Rs.3,19,023.37 as detailed below:

1.	Civil Work	...	Rs.2,95,402.32
2.	Internal Water supply and sanitation	...	Rs. 9,591.53
3.	Internal Electrification	...	Rs. 6,318.20
4.	External Services	...	Rs. 2,996.67
			<hr/>
			Rs. 3,14,308.72
5.	Architect's fee including supervision charges		Rs. 4,714.65
			<hr/>
			Rs. 3,19,023.37
			<hr/>

The reasons for increase in the completion cost of the civil work over the tendered cost as intimated by the Vidyapith are given below:

The construction work of the Men's hostel was started in the year 1965-66, when only the ground floor of the East Wing and the whole of Central Wing was completed. Subsequently, the construction work was held up due to want of cement and non-availability of match funds from the State Government. The work was, however, resumed after more than a year and, in the meantime, the construction rates increased and the Architects had to negotiate the revised rates for the remaining construction work.

In view of the circumstances stated by the Gujarat Vidyapith the completion cost of the project relating to construction of men's hostel for 80 students has been accepted at Rs.3,19,023.37 and the U.G.C's share at the rate of 50% of the completion cost has been released to the Vidyapith.

(21) Delhi University - Fixation of the Strength of Superintendents in the Delhi University.

2. Dr. (Miss) Kaumudi
Deputy Financial Adviser (Edn.)
Ministry of Finance
3. Shri R.N. Saxena,
Finance Officer,
University of Delhi.
4. Shri Triyogi Narain,
Under Secretary,
Ministry of Education.

The Committee has submitted its report, a copy of which is attached (Appendix I). The recommendations made by the Committee have been accepted and communicated to the Delhi University.

- (22) Delhi University - Proposal for the construction of additional staff quarters for non-academic staff viz., 24 staff quarters for Class III employees and 48 staff quarters for Class IV employees.

At its meeting held on the 6th March, 1969 (Item No. 56(iii)), the University Grants Commission considered the proposal of the Delhi University for the construction of residential quarters for the non-academic staff (ministerial and Class IV employees). It was agreed that this may be referred to a committee.

Keeping in view the urgency of the matter, and in particular, taking into consideration the fact that during the last two Plans, the Commission has not sanctioned any staff quarters for Class III employees and have only sanctioned 50 quarters for Class IV employees, the matter has been reconsidered. It has been decided to accept in principle, the proposal of the University for the construction of additional staff quarters i.e. 24 quarters for Class III employees and 48 quarters for Class IV employees, subject to the condition that these quarters may be constructed in two stages - in the first phase, the University may provide for quarters for Class III employees and in the second phase for Class IV employees.

The above decision has been communicated to the University of Delhi with the request that the plans and estimates in respect of the staff quarters may be sent to the Commission for consideration.

- (23) Finalisation of Completion cost of the construction of Laboratory buildings of Hans Raj College consequent upon the transfer of subsidiary subjects (Physics and Chemistry) to Campus Colleges.

In June, 1968, the University Grants Commission conveyed its acceptance to the plans and estimates submitted by the Hans Raj College for the construction of laboratory buildings consequent upon the transfer of Subsidiary subjects (Physics and Chemistry) to Campus Colleges at an estimated cost of Rs. 2,40,600/- comprising a total built-up area of 11,582 sq.ft. The carpet area in respect of the approved plans, was 8879 sq.ft. The sanction was accorded on the usual basis i.e. after scrutiny by the C.P.W.D.

The Hans Raj College, during the course of construction, made certain changes in the plans and provided one additional laboratory for 20 students comprising an area of 792 sq.ft., 2 small rooms with an area of 300 sq.ft., a store with an area of 202 sq.ft., an Electric room with an area of 525 sq.ft. and Basement with an area

of 280 sq.ft. in addition to certain verandah and connecting passages. With these additions, the areas were revised as follows:

<u>Carpet Area</u>	<u>Built up area</u>
9,600 sq.ft.	14,197 sq.ft.

The additional areas have been provided by the College without the prior concurrence of the Commission.

The reasons for increase in the built up area given by the College is reproduced below:

" The passage has been provided as a link between the existing laboratory and the new laboratory so that the students could go from the old labs. to the new ones in sun and rain directly.

Separate - Electric room has been provided to instal the heavy meters of light power from the point of view of security and safety. This room has meters for the entire buildings - old and new.

Basement has been provided under the Lecture Theatre to give additional storage space.

Provision of 6 ft. wide verandah was earlier proposed by mistake. Actually the verandah width provided is 8'-9" to match the existing building.

The work shop verandah has been provided to conduct the workshop and the new lab. It was felt that this verandah could be as well used by students for setting up of various workshop projects.

The room has been provided for an additional Physics Lab. on the first floor as the labs. given on the sanctioned plans were considered inadequate.

The Extension of the verandah which has been done for a symmetrical view of the building was considered necessary from an architectural point of view.

Two small rooms have been provided for additional requirements of teachers.

Store has been provided for additional storage and to utilise the space left open. "

In view of the fact that the Hans Raj College has the largest number of students and that the students in the subsidiary classes have been increasing and that the ratio of the carpet area and the built up area is within the U.G.C. norms, the revised areas provided by the College for the construction of Science laboratories have been accepted.

The Hans Raj College has completed the above project at a total cost of Rs.3,98,430.62. The expenditure incurred by the College on these buildings has been examined and found to be reasonable. The completion cost of Rs.3,98,430.62 has, therefore, been accepted by the Commission for purposes of grant-in-aid and the amount paid to the College.

- (24) Construction of a Hostel Block for Married Teachers/ Research Fellows at the Indian Institute of Science, Bangalore.

The Indian Institute of Science, Bangalore, sent a proposal to the University Grants Commission for financial assistance for the construction of a Hostel Block for Married Teachers/Research Fellows at an estimated cost of Rs. 4,13,820. The proposal is on the basis of the construction of Teachers Hostels in the Universities. The Institute proposes to provide for the Research Fellows in this Hostel, as the Research Fellows have the same status as teaching staff in the Institute.

The plans and estimates sent by the Institute in respect of the above project were sent to the CPWD for scrutiny and comments. The CPWD has approved the Plans and estimates at a cost of Rs. 3,64,300 subject to certain comments. The plans and estimates duly approved by the CPWD have been accepted, subject to the condition that the comments made by the CPWD will be taken into consideration by the Institute in the execution of the construction work. The Commission's assistance towards the above project will be on a cent-per-cent basis and the expenditure will be met from within 70% of the allocation made to the Institute for plan schemes for the period ending 1970-71.

As this condition has been fulfilled, a research fellowship of the value of Rs. 400/-p.m. has been awarded to Shri Mahobia during 1968-69 for working in the Department of Electrical Engineering and Radio-Physica at Government Engineering College, Jabalpur.

- (27) Utilisation of Services of Retired Teachers - Extension of tenure of award - Dr. J.N. Chubb and Dr. (Km.) Olive Joseph

UNIVERSITY GRANTS COMMISSION

Proceedings of the 8th meeting of the Sub-Committee on Community Development, Cooperation and Panchayati Raj.

The 8th meeting of the Sub-Committee on Community Development, Cooperation and Panchayati Raj, was held on 10th and 22nd January 1969 at the UGC Office, New Delhi Shri J.N. Tewari, Director, Socio-Economic Research, Planning Commission, Shri M.N. Chaudhury, Joint Commissioner, Ministry of Food, Agriculture, Community Development and Cooperation; Dr. P.J. Philip, Secretary, University Grants Commission, Dr. J.N. Kaul, Development Officer, University Grants Commission and Dr. S.C. Goel, Education Officer, University Grants Commission, attended the meeting.

2. The Committee noted that out of the joint fund of Rs. 10 lakhs ear-marked for promoting studies and research in community development, cooperation and panchayati raj, in the universities and colleges, a sum of Rs. 8,24,095 had already been allocated for research projects, fellowships, books and journals, and seminars as detailed below:-

a) Research Projects (including survey research units)	-	Rs. 5,07,770
b) Research fellowships	-	Rs. 82,800
c) Books and Journals	-	Rs. 1,75,900
d) Seminars	-	Rs. 57,625
Total:		<u>Rs. 8,24,095</u>

3. The Sub-Committee considered the question arising out of the Commission's decision regarding the meeting of the expenditure on survey research programme at the universities of Panjab, Rajasthan and Lucknow from the joint fund of Rs. 10 lakhs. Shri M.N. Chaudhury explained the viewpoint of the Ministry in this regard which was that the expenditure on projects in question could not be a charge on the joint fund. It was pointed out in the course of discussion that the survey research programme would result in the development of research tools and methods which would be generally applicable to studies in all the social sciences including studies in community development, cooperation and panchayati raj. Further, research areas in the field of community development, cooperation and panchayati raj cut across various disciplines hence a broader view has to be taken for developing the basic tools of research. It was also pointed out that the survey research units had undertaken some studies directly relevant to the field of community development, cooperation and panchayati raj and that these units had also emphasised training programmes, which would help the universities to build up a core of trained workers for undertaking research in the social sciences including community development, cooperation and panchayati raj. It was agreed that an official communication may be sent to the Ministry explaining the views of the Commission in this matter.

4. As regards the suggestion of the Ministry of Food, Agriculture, Community Development and Cooperation that the Commission should provide 50% of the actual expenditure incurred so far, it was pointed out that the Commission was already committed to provide the matching contribution of Rs.5,00,000 to the fund of Rs. 5,00,000 made available by the Ministry of Food, Agriculture, Community Development and Cooperation and that Commission's share will be provided for meeting expenditure under the programme, as and when necessary. An amount of more than Rs. 8 lakhs had already been committed and the Commission will have to meet the expenditure

after the share provided by the Ministry is exhausted. There was no particular advantage in earmarking and blocking the funds of the Commission when money was available under the scheme for meeting current requirements. It was agreed that the views of the Commission in this regard may be communicated to the Ministry.

5. The Sub-Committee desired that a statement should be prepared indicating progress in the implementation of research projects approved by the Commission in the field of community development, cooperation and panchayati raj and circulated to the members of the Sub-Committee from time to time.

6. The Sub-Committee considered proposals received from the universities and colleges for undertaking research projects in community development, cooperation and panchayati raj and made the following observations and recommendations:

UNIVERSITY GRANTS COMMISSION

Report of the Committee appointed by the University Grants Commission to recommend the strength of Superintendents in the Delhi University.

.....

Consequent on the introduction of revised pay scales for the posts of Superintendent in Aligarh Muslim University, Banaras Hindu University and the University of Delhi, the University Grants Commission appointed in November 1968, a Committee consisting of the following members to consider the question of the determination of the strength of Superintendents in the Delhi University:-

- (1) Shri R.K. Chhabra,
Joint Secretary,
University Grants Commission.
- (2) Dr.(Miss) Kaumudi,
Deputy Financial Adviser(Edn)
Ministry of Finance.
- (3) Shri R.N. Saxena,
Finance Officer,
University of Delhi.
- (4) Shri Triyogi Narain,
Under Secretary,
Ministry of Education.

2. The Committee held three meetings on the 1st February, 1969, 7th February, 1969 and 1st March, 1969. Dr. Kaumudi could not attend the first and the third meetings of the Committee.

3. The Committee noted that the University of Delhi, while submitting its proposals for additional posts of Superintendents, had also included categories of employees other than Superintendents in the statements of its requirements. The Committee, while examining these requirements, excluded out of its purview the posts of Personal Assistant to Vice-Chancellor, Personal Assistant to Pro-Vice-Chancellor, Personal Assistant to Registrar, Assistant Public Relations Officer and Accountant in the Department of Botany, as these posts are not included in the cadre of Superintendents.

4. The Committee considered the existing strength of Superintendents in the Delhi University in relation to (a) sanctioned staff strength of the different Sections, (b) the volume of work-load of each Section, (c) the number of students enrolled and appearing at different University examinations and the number of teachers in the University during the last five years. The Committee also took into account the likely increase in the volume of work of different Sections in the near future. After considering the matter in all its aspects, the Committee made the following recommendations :-

- (i) There is need for additional posts of Superintendent in :-

(a)	Academic Section	-	1
(b)	Examination Section	-	1
(c)	Internal Audit Section	-	1

(ii) It is not necessary to continue the existing posts of Superintendents for (a) the Faculty of Music and Fine Arts (b) Deptt. of Anthropology, in view of the small size of the Faculty/ Deptt. These posts may, therefore, be abolished. It was, however, recommended that a post of a Senior Assistant may be provided in the Department of Anthropology.

(iii) The post of Superintendent for the purchase cell may continue temporarily for so long as the cell is required to handle the work relating to foreign assistance under the Ford Foundation Programme.

5. Based on the above recommendations, the Committee agreed that the total strength of Superintendents in the University may, for the present, be fixed at 29, as against existing 28 posts.

6. The Committee noted that the University has undertaken a review of the existing functioning of the Finance Branches and the Internal Audit Section with a view to avoiding duplication of checks, wherever existing. The Committee, therefore, desired that the question of strengthening the existing Finance Sections if necessary may be considered by the University in consultation with the University Grants Commission after the above review has been completed.

Item No. 12: To consider a reference from the Ministry of Education and Youth Services regarding establishment of a separate faculty of Pharmaceutical Education and Research in Universities.

Item No. 24 : To consider the question of releasing the balance 30% of the allocations made to the universities for the period ending 1970-71.

The Commission considered the recommendations on the subject of the Vice-Chancellors' Conference held in April, 1969. The Commission agreed that the '70% ceiling' on the allocations to the universities be waived. The allocations for development available to the universities would now be the (full) amounts approved by the Commission on the basis of the reports of the Visiting Committees - the relevant period will extend upto the end of 1973-74 (and not 1970-71). The first charge on the allocations will be the expenditure involved in continuing the development schemes already in operation. New schemes may be included, if resources permit, in consultation with the Commission.

This fund could perhaps be placed at the disposal of the Board of Research Studies or equivalent bodies. Assistance to the universities under this scheme should be raised to some reasonable level when more funds are made available to Commission.

This may be referred to the UGC Advisory Committee of Vice-Chancellors.

Item No. 33: To consider the question of migration of students and recognition of degree awarded by one university for purposes of working towards higher degrees in other universities.

The Commission reiterated its earlier view that it was generally not in favour of an university not 'recognising' (for 'formal' or 'technical' reasons) the degrees of another university, established by law, in the country. This has imposed undeserved hardships on some students. The 'recognition' of a degree does not confer a right to admission; but an otherwise fully qualified student should not be denied admission on the ground that his degree is from an Indian university whose degrees (irrespective of the merits of the candidate) are not recognised by the university concerned.

iii) The Commission agreed to the proposal, provided the University could accommodate the scheme within the total allocation provided to the University for the period ending 1973-74. (It was felt that there should be no restriction placed on the research scholars/assistants on the use by them, for submission for a research degree, of the work done by them under the scheme, if they so desired).

Item No. 38: To consider the report of the Committee of the University of Delhi regarding the reorganisation of the Honours teaching in Delhi Colleges.

The Commission generally accepted the recommendation regarding introduction of postgraduate courses by correspondence. The Commission was of the view that the staff for this purpose should be appointed in the university departments concerned, and wherever possible should participate in the teaching and research activities of the department. As regards financial assistance for the postgraduate courses by correspondence, it should be treated as a part of the total scheme including the undergraduate courses, and the quantum of assistance determined after taking into account the income and expenditure on the scheme.

The Commission could not accept, in its present form, the proposal of the Panjab University for the construction of a student centre at an estimated cost of Rs. 5 lakhs.

✓ Item No. 43: To consider the proposal of the Rajasthan University for extension of recurring assistance under the scheme of Development Programme of Area Studies upto 1973-74.

(iii) The Commission noted that the permissive provision for appointment of assistant lecturers/instructors, as an interim measure, in cases where, in the opinion of the Selection Committee, lecturers of the requisite qualifications were not available or where there were promising fresh postgraduate degree holders who (in the view of the Selection Committee) needed to be tried out (for a year or two) before they could be appointed lecturers, was a desirable provision in the general interest of maintenance of standards and recruitment of competent staff. It may be noted that in the university departments and colleges, as a normal practice, the provision agreed to by the U.G.C. is for the posts of lecturers. The appointment of an assistant lecturer against the post of a lecturer is an option which the University/College may exercise if it finds that it is in the interest of maintenance of standards.

The University has made a reference regarding the qualifications of a lecturer. This was a matter for the university to consider - the Commission so far has not prescribed qualifications for lecturerships.

The matter may be further discussed with the university, and brought up again, if necessary.

Summary of discussions held between the Chairman UGC and Mr. Duncan Ballantine, Director, Education Department, World Bank and Mr. William Van Vliet, Director of Education, UNESCO, Paris.

Mr. Duncan Ballantine, Director, Education Department, World Bank and Mr. William Van Vliet, Director of Education Financing Division, Unesco, Paris met the Chairman today and held discussions regarding the possibilities of World Bank assistance to selected higher education programmes in India. Mr. Ballantine, in his initial remarks mentioned that this was the first occasion when officially the World Bank was taking a look at the educational development in India. The World Bank in getting acquainted with this problem was closely associated with the Education Division of the Unesco. He mentioned that his discussions earlier in the day with the Planning Commission gave him an idea of the over-whelming breadth of the educational activity and also some indications of useful areas where World Bank assistance could be profitably used. He felt that the discussions with other organisations like the UGC which were directly involved in actual implementation of the educational programmes would help in exchange of views on the real problems and procedures involved to make education a effective tool towards economic development of the national. He hoped that the discussions would help to identify the main focal point of concentration to channelise the World Bank assistance may be small in relation to the overall needs, nevertheless external assistance should, in general, make a critical impact and produce a multiplier effect.

The Chairman, U.G.C. referred to the Education Commission's report which had made a broad survey of the educational scene projected over that next 20 years and had indicated the worthwhile lines of approach in order to link education to national development. Referring to the functions and role of the U.G.C. in higher education with particular reference to the universities, he stated that the projects could be broadly under two categories; (a) Normal development projects covering the entire higher educational system in the universities and the colleges and to bring them to a desirable optimum level and (b) Concentrated projects where the available resources could be effectively channelised in worthwhile areas to set the tone of educational standards to a desirable level. He mentioned that the general average obtaining in the Indian Universities system was not quite comparable with that in economically and therefore educationally advanced countries. This may be adequate in some way if one was to make mainly the averages and spread the available resources to maintain such averages. But where advanced study and research are concerned, there would be no national standards but they have to bear a definite relation to the international standards. It was with this view of preparing or developing peaks of excellence that a deliberately selective approach has been made in India to identify some university departments as centres of advanced study and to provide them substantial assistance, almost ten times to what obtains for an average department in order to provide facilities comparable international and to create the academic atmosphere which would breed excellence of an international standard. In this effort the Unesco and other foreign countries have provided substantial assistance in a critical way. The ~~and~~ assistance from the University Grants Commission itself to these centres of advanced study is of a long term nature since it is essential to match a higher level facility with high level assistance at the appropriate time. As regards the utilitarian aspect of this programme and immediate visible result of a productive nature, the chairman referred to two types of research. While one type of research could be ~~xxxx~~ geared to short term problems and measurable results which could be exploited economically, the other research lined with international standards contributes to the economic development by setting up the tone and instilling the confidence

required to bring to the high level the entire university system. Fundamental research is an imperative necessity for the universities if they have to be breeders of excellence and have multiplier effect. The product that comes out of such an effort of the university system is a better researcher who, in turn, will help the productivity in other fields. The competency of the researcher and the confidence in him to be able to take up both short and long term problems is the value derived out of inputs into the university system. The level of research in the country is reflected in the level of research ~~in the country is reflected in the level of research~~ in the universities which acts as the barometer for the purpose of international comparisons.

Mr. Ballantine desired to know the coordination between the National Council of Educational Research and Training and the University Grants Commission. The Chairman told that while the centres of advanced Study programme was an important contribution to higher education in developing peaks of excellence, the other important feature of the UGC's programme related to the Summer Institutes in collaboration with the NCERT where the university teachers and the school teachers work in close participation for training of school teachers and improvement of school education.

The Chairman mentioned that the experience so far has led to the conclusion that quality education costs ten times the average education in the universities. In this respect the only difference between the advanced countries and the developing countries would be the salaries paid to the staff but all other facilities by way of laboratories, equipment and books would be identical, save, big science attempted with plenty of resources by very few affluent countries. It is, therefore, necessary to strengthen in developing countries the high quality education because in the present day, as compared with what was about a 100 years ago, science has to be developed within the universities rather than outside the universities if science has to make a direct contribution to economic development. In this connection a reference was made to the Land Grant Colleges of U.S.A. developed a 100 years ago and which in the initial years tried to engage themselves with problems of a local nature, have in recent years become broad-based universities conforming to general higher educational pattern.

The Chairman mentioned that the specific areas and projects in higher education particularly in relation to selective programmes aiming at high quality could be worked out for consideration of the World Bank who may then endeavour to provide the right inputs at the right time and in right places. It would be of value if a Joint Survey could be undertaken to identify and work out details of such projects and the assistance which could be made available by the World Bank.

The Secretary and Chairman may kindly see the above record of discussion held with Mr. Ballantine and Mr. Vliet.

UNIVERSITY GRANTS COMMISSION

Annexure 'A' to the
Minutes of the UGC

(The Member (Science) Planning Commission attended
the meeting from 12 noon to 1.15 p.m.)

Dr. Nag Chaudhuri, the Member (Science), Planning Commission joined on invitation, the Commission's meeting at about 12 o' clock. The Chairman welcomed Dr. Nag Chaudhuri and thanked him for his keen interest in and support of development of higher education.

Dr. Nag Chaudhuri referred to some of the problems facing university education at the present time and, in particular, to the difficulties arising from the enormous expansion of the student population at the undergraduate level. He stressed the importance of regulating enrolment in the universities and the need to bring about a proper structuring of the system of university education in relation to undergraduate and postgraduate facilities and research.

Dr. Nag Chaudhuri also referred to the need to indicate suitable guidelines for the use of universities in regard to their programmes of development of teaching and research and to the necessity to evolve principles on the basis of which assistance could be channelled to them for this purpose. It was also necessary to formulate objective criteria to determine relative priorities in the context of availability of limited resources to meet national requirements.

Dr. Nag Chaudhuri next stressed the importance of inter-disciplinary research and, for this purpose, reorganising undergraduate and postgraduate education to suite requirements at higher levels in respect of inter-disciplinary study and research. He appreciated the work of the Commission in the field of centres of advanced study and suggested that the Commission may draw up a clear cut policy in regard to their future development.

Dr. Nag Chaudhuri also referred to the need to expand the work of the Information Unit in the University Grants Commission so that the Unit would not only produce statistical information pertaining to university education but also assist universities and colleges in regard to the planning of their programmes.

In the discussion that followed attention was drawn to the efforts made by the Commission to take into account some of the ideas referred to above. The need was stressed for substantially raising the funds with the U.G.C. It was pointed that the allocation to the U.G.C. for 1969-70 fell far short of what it should have been in relation to the total Plan amount of about Rs. 115 Crores which itself was not adequate to meet even the minimum needs. In this connection reference was made to the National Policy on Education accepted by Government wherein this need was fully recognised.

Chairman thanked Dr. Nag Chaudhuri for his valuable observations and suggestions.

On the recommendation of the Sub-Committee on Community Development, Cooperation & Panchayati Raj the Commission at its meeting held on 3rd March, 1967 approved the research project of the Andhra University entitled "An Enquiry into programmes of the Block in relation regional variations" at an estimated cost of Rs.19040/- for a period of 12 months under our scheme of Studies and Research in Community Development Cooperation & Panchayati Raj. As no additional expenditure is involved, the proposal of the Andhra University for extension of the period of the research project upto 31.8.1969 has been accepted.

(4) Kashi Vidyapith - Construction of Social Work College Building.

In April, 1965, the Commission approved plans and estimates for the construction of Social work College Building at Kashi Vidyapith at an estimated cost of Rs.2,48,073/- as recommended by the C.P.W.D. New Delhi. The Kashi Vidyapith invited tenders and the lowest tender of Rs.1,79,778/- for civil work of the building was accepted. On the basis of the approved norms of the Commission, as worked out on the tendered cost, the Vidyapith was informed in May, 1966 that the approved cost of the building will be Rs.2,36,200/-. The plan as approved by the Commission, included 6 class-rooms, 2 office rooms, 2 lavatories, 1 hall, and 1 stage with a total built-up area of 12,275 sq.ft. The Vidyapith changed the plans and instead of 6 class rooms provided 3 class rooms and small tutorial rooms, a Deans room and a lavatory. One lavatory block was converted into a girls common room with lavatory arrangement. A stage for an open air programme has also been shown in the plan, which would be taken up when funds are available. The built up area of the completed building has increased by 412 sq.ft. as a result of the changes. The Vidyapith did not consult the Commission before making changes in the plans. It has been intimated that the excess of built up area has been made necessary, as provision has been made for adding one more floor in future over class rooms and tutorials and the height of the plinth had to be increased as the ground was lower than the surrounding area and there was every possibility of water entering the floor.

The Kashi Vidyapith approached the Commission for the revision of the estimated cost of the Social Work College building to Rs.2,80,184/94 and agreed to meet the excess expenditure out of the provision of Rs.1,00,000 made for College building for Humanities subjects.

In view of the reasons given by the Vidyapith and the fact that the building is already nearing completion, the revised plans have been accepted and the Vidyapith has been informed that in future the plans once approved by the Commission may not be revised without the prior concurrence of the Commission. The revised estimates of the building amounting to Rs.2,80,185/- has also been approved. The share of the Commission on 50:50 basis would now be Rs.1,40,092/50 p. against Rs.1,18,100/- approved earlier on the basis of tendered cost.

(5) Period of assistance to the Universities for Centres of Advanced Study.

The University Grants Commission's assistance to the Universities in respect of Centres of Advanced Study was in the first instance for ten years. Most of the Centres were recognised during 1962-63 and started receiving assistance from 1963-64 onward, our assistance was expected to last till 1973-74. But while issuing sanctions in 1966-67 for continuation of grants during the Fourth Plan period, it was indicated that assistance would be available upto

1970-71. Subsequently the Commission decided to extend all plan assistance for recurring purposes for Universities/University Centres etc. upto 1973-74 to coincide with the National Fourth Plan. In view of this, it has been decided to extend the period of support in respect of Centres of Advanced Study also upto 1973-74.

-
- (6) Payment of contingent grant of Rs.1,000/- per annum to the Junior/Senior Research Fellows at the Centres of Advanced Study.
-

The rules governing the University Grants Commission's fellowships provide for the payment of contingent grants to the fellows doing research in the Universities. But no such provision had been made for the junior and senior research fellows approved for the Centres of Advanced Study as it was then felt that such expenditure of a contingent nature required by these fellows could be met out of the lump-sum contingent grant made available to the Centres. However in the past few years, where the Centres have started functioning in full strength, it has been found difficult to meet the requirements of the fellows out of lump-sum grants.

It has therefore, been decided to extend the benefit of a contingent grant of Rs.1,000/- per annum per fellow under the general scheme of UGC fellowships to the fellowships allocated to the Centres of Advanced Study as well from the financial year 1969-70 subject to the expenditure being governed as per rules for similar grants under the UGC fellowships scheme.

-
- (7) Panjab University, Chandigarh, Centre of Advanced Study in Mathematics - Sanction for additional Scholarships.
-

Bambah, Head of the Centre of Advanced Study in Mathematics, with the Chairman, University Grants Commission, Panjab University sent a proposal requesting for provision for four scholarships of the value of Rs.80/- per month to be given to B.Sc. (Hons) students admitted to the first year from 1969-70 onwards and four more national scholarships of the value of Rs.120/- per month for students in M.A./M.Sc. course plus book grant etc. at the Centre of Advanced Study in Mathematics. The Centre has already been allocated a total of six national scholarships to be given to the students admitted to the M.A./M.Sc. course in Mathematics subject, on the condition that at least 50% of these awards would be given to students coming to the Centre from outside Panjab University. The present request was for four more such scholarships to be specially earmarked for the M.Sc. Honours class. The existing six scholarships would be utilised by the Centre for the two-year M.A. course in Mathematics. The four scholarships of the value of Rs.80/- per month each are to be given to the students in each of the three years of the B.Sc. Honours School in Mathematics to which the students are admitted after first year B.Sc. or pre-engineering or Intermediate class.

In view of the need for improvement and developing mathematics talent and to bring such students to study at the Centres of Advanced Study in Mathematics, the proposal of the University has been accepted.

5.	Dr.J.N.Kaul	...	"

Apology for absence was received from Professor V.K.Gokak, Dr.P.B.Gajendragadkar and Shri P.Govindan Nair.

Item No.1: To receive the minutes of the meeting of the Commission held on 6th August, 1969.

The minutes of the 107th meeting of the Commission held on 6th August, 1969 already circulated were confirmed.

Item No.2: (a) To approve the action taken on certain matters.
(b) To receive items of information.

(a) The Commission approved the action taken on certain ~~mat~~ items listed in Appendix I*.

Arising out of Item No.2(a)(12) - (Allocation of un-assigned grant for the year 1969-70) - the Commission was of the view that it would be desirable to increase the allocation of unassigned grants to the universities in due course. It was agreed that a committee may be appointed to review the working of the scheme and the matter brought up before the Commission.

(b) This was noted.

Item No.3: To approve the statement of grants released after the last meeting of the Commission held on 6th August, 1969.

The Commission approved the grants released after the last meeting of the Commission (held on 6th August, 1969) as in Appendix II*.

* Not enclosed.

Item No.4: To receive a statement of expenditure incurred by the University Grants Commission during 1969-70 (Upto 31st July, 1969).

This was noted.

Item No.5: To receive a report on the implementation of the Cultural Exchange Programmes.

This was noted. The Commission desired that copies of reports properly indexed made by the participants under the Cultural Exchange Programmes may be kept in the UGC library for reference.

Item No.6: To consider a proposal from the Ministry of Education & Youth Services, that the Masters' Degree Course in Physical Education should be of two years' duration and that the minimum qualifications for admission should be either a post-graduate diploma in Physical Education or a Degree of Bachelor of Physical Education.

The Commission desired that the question of the duration and admission requirements for the post-graduate course in Physical Education may be referred to a committee. In this connection the Commission expressed the view that it would be of advantage if the universities obtained the services of outstanding professional sportsmen on a part-time basis for the development of sports, games and physical education.

Item No.7: To consider the recommendation of the Fellowship Selection Committee about introducing a system of interview for applicants for UGC Senior Research Fellowships in Humanities and Sciences.

The Commission desired that the present system of selection of students for award of junior and senior fellowships may continue.

Item No.8: To consider the views of the Universities on the recommendations made by the Public Accounts Committee regarding grants to colleges.

This was withdrawn as necessary material had not been received from the universities.

Item No.9: To consider a proposal of the Banaras Hindu University to give effect to the revised scale approved for the post of Executive Officer from 1st August, 1964.

The Commission desired that the matter be further examined and brought up again.

Item No.10: To consider the following proposals received from the Delhi University:-

- (i) Applicability of the Schemes of G.P.F.-cum-Pension-cum-Gratuity and C.P.F.-cum-Gratuity to the employees of the colleges affiliated to the Delhi University.
- (ii) Raising the percentage of placement of Superintendents in Grade I.
- (iii) Revision of pay scale of certain Laboratory staff in the University.

(i) The Commission agreed in principle that the Scheme of G.P.F.-cum-Pension-cum-Gratuity and C.P.F.-cum-Gratuity be made applicable to the employees (teaching and non-teaching) of the colleges affiliated to the Delhi University, and desired that a committee may be appointed to work out details for implementation of the scheme, including the likely expenditure to be incurred for the purpose. In this connection the Commission felt that a pension scheme would not have advantages unless introduced on a wide basis, as on a limited scale it would retard mobility of teachers and act against the best interests of higher education.

(ii) The Commission noted that the two scales of Superintendents in the Central Universities had only recently been introduced (with effect from 1.12.1968); and desired that information be obtained regarding the present numbers in the two scales in the Central Universities and the additional expenditure incurred on introduction of the two scales.

(iii) The Commission accepted the proposal of the Delhi University for revision of the pay scales of the laboratory staff of the Central Universities and of the colleges attached to the Delhi University as per Appendix III. It was noted that this revision would take effect from 1.4.1968 and that the universities would provide for additional funds required for the purpose within the existing resources.

Item No.11: To consider the request of the Bombay University for financial assistance for establishing bilateral contacts between the Universities of Bombay and Alexandria (UAR) under the Indo-UAR Cultural Exchange Programme.

The Commission supported the idea of cooperation between the two universities and desired that the University of Bombay may be requested to send a specific proposal for the years 1969-71 to serve as a pilot programme and the matter brought up before the Commission.

Item No.12: To consider a proposal of the Patna University for conversion of a loan sanctioned by the Government of India, Ministry of Education for the construction of hostel for the Bihar College of Engineering, Patna into an out-right grant.

The Commission desired that the views of the State Government be obtained and the matter placed before the Commission at a later meeting.

Item No.13: To consider the proposal of the University of Poona for establishment of a separate department of Commerce.

The Commission could not accept the proposal of the Poona University to establish a separate department of Commerce, at this stage. The Commission desired in this connection that the question of development of postgraduate studies in the university vis-a-vis development of similar facilities in the colleges be discussed with the University.

Item No.14: To consider the report of the Committee appointed to examine the proposals received from the K.N.Government College, Gyanpur (Varanasi), Agra University for the development of its postgraduate science departments during the Fourth Plan period.

The Commission accepted the recommendations of the expert committee which examined the proposals of the K.N.Government College, Gyanpur (Varanasi), Agra University for the development of post-graduate science departments during the Fourth Plan period and agreed to provide necessary grant as indicated in Appendix IV. In this connection the Commission stressed the importance of special attention being given to having a good workshop and staffing it suitably.

Item No.15: To consider the request of the R.B.G.R.College, Maharajaganj for enhancing the Commission's grant for the construction of its library building.

The Commission agreed to provide a grant of Rs.63,653/- to the R.B.G.R.College, Maharajaganj towards construction of a library building against the revised estimated cost of Rs.95,480/- for the purpose.

Item No.16: To consider the proposal of the S.D.College, Muzaffarnagar for sharing the additional cost in respect of ~~its~~ hostel building.

The Commission desired that additional information be obtained from the S.D.College, Muzaffarnagar and the matter brought up again.

The Commission generally accepted the recommendations made by the UGC Advisory Committee of Vice-Chancellors. In this connection the Commission desired that increasing attention should be given by the universities to linking education and the development requirements of the country and also making education more employment oriented. (10) Proposal of the Ramjas College, Delhi for the construction of a wing of the hostel.

The University of Delhi had sometime back forwarded a proposal from the Ramjas College, Delhi for financial assistance for the construction of an upper-storey on one of the three wings of the hostel at an estimated cost of Rs.72,000/-. The proposal was placed before the Commission at its meeting held on the 1st May, 1968 along with a similar proposal received from the Janki Devi Mahavidyalaya, (Items 22 & 23). The Commission desired that a Committee may be appointed to look into the hostel requirements of the Colleges affiliated to the Delhi University for the next two or three years and that the proposal of the two colleges referred to above may be examined in the light of the report of the Committee. Accordingly, a Committee has been constituted for the purpose.

In the meantime, the Ramjas College had stated that they were facing difficulty about accommodation in the hostel and due to want of sufficient accommodation in the hostel they had to refuse many applicants admission to various courses in the College. They attracted students from all parts of the Country besides having to accommodate some foreign students coming to India under various

schemes of Scholarships of the Ministry of Education and Youth Services. The Ramjas College had therefore requested that their proposal for construction of an additional wing to provide 18 seats in the hostel costing about Rs.72,000/- be accepted.

The Colleges in Delhi, particularly the current year, have been finding considerable difficulty in accommodating students particularly those coming from outside Delhi and foreign students.

As a decision on the general question of providing hostel accommodation in the Delhi Colleges may take some time, the proposal of Ramjas College to complete the existing hostel by providing 18 seats in the first floor of the hostel has been accepted in principle on the usual sharing basis of 50 : 50 and the college has been requested to send the plans and preliminary estimates for the consideration of the commission.

(11) Revision of salary scales of Library staff of Marathwada University.

The Commission at its meeting held on 2nd April 1969 considered the proposal of the Marathwada University for the revision of salary scales of its Library Staff under the Third Five Year Plan and desired that the reasons for delay in extending the benefit to certain members of the Library Staff be ascertained (Item No.41).

The Marathwada University implemented the scheme of Third Plan salary revision for its teaching staff w.e.f. 1.4.1961. The University could not introduce the salary revision for its Library staff as the Maharashtra Government's approval for providing 20% matching share was not available. The Commission was approached in the matter in 1963 but owing to the non availability of 20% matching share from the State Government, the Commission did not release its share. The Maharashtra Government vide its letter dated 16.9.1968 agreed to the adoption of the Third Plan scales for the library staff w.e.f. 1.4.1961 and to pay its matching share.

Delay in extending the benefit of Third Plan salary revision to eight members of the library staff has been due to the State Government's late approval for meeting the matching share. The University has been keen to introduce the Third Plan revision to its library staff and has been pursuing the matter since March 1963 with the State Government for making available its matching share.

The Marathwada University approached the Commission in May 1969 with the request that the Commission may agree to extend the benefit of Third Plan salary revision to the eight members of its library staff for a period of five years w.e.f. 1.4.1961 involving a total expenditure of Rs.32,969.91, the Commission's share at 80% being Rs.26,375.93 in view of the fact that the State Government has now agreed to meet its 20% matching share.

The request of the University has been accepted.

- (12) Allocation of un-assigned grant for the year 1969-70.

The Commission has allocated un-assigned grants amounting to Rs.17,00,000/- to 71 Universities for the year 1969-70 as at Appendix.

The recommendation of the Committee has been accepted and the two universities informed accordingly.

UNIVERSITY GRANTS COMMISSION.

Meeting:
5th November, 1969.

Item No. 2(a) Contd.

- (20) Indian Institute of Science, Bangalore
Construction of one Block of Hostel for
120 students.

The Commission at its meeting held on the 5th October, 1968 (vide item No.25) accepted the proposal of the Indian Institute of Science, Bangalore for the construction of One Block of Hostel for 120 Post-Graduate Students. In the Plan sent by the Institute for the above project, no provision was made by them for Dining Hall, Kitchen and Common Room etc; as a separate Block for these amenities was proposed to be constructed by the Institute. The total built up area provided in the plan for the above project was 28715 sq.ft. According to the norms laid down by the Commission for general guidance, the total built up area for the above project excluding the space for kitchen, Dining, Pantry and Common Rooms should not exceed 27,500 sq.ft. Since the excess area of 1215 sq.ft. over an admissible area of 27,500 sq.ft. in respect of the above project of the Indian Institute of Science, Bangalore was considered to be minor, the same was accepted.

- (21) Construction of Dining Hall Block at Indian
Institute of Science, Bangalore - Power wiring of -

The University Grants Commission had some time back accepted the plans and estimates of the Indian Institute of Science, Bangalore for the construction of a Dining Hall Block for its new Hostel complex with a built-up area of 8694 sq.ft. at an estimated cost of Rs.2,76,156 on a cent-percent basis.

Subsequently, the Institute sent an estimate amounting to Rs.13,891 for power-wiring work for the Dining Hall and Kitchen Block of the new Hostel complex. Since the Commission allows 10% of the building cost for internal electrification in respect of Hostel project; the Institute was requested to intimate whether it would be possible for them to meet the expenditure on Power-wiring out of the above provision of 10%. The Institute in reply stated that the above expenditure could not be met out of the provision of 10% allowed for internal electrification.

The estimates of the Institute for power-wiring of the Dining Hall and Kitchen Block were therefore accepted at a cost of Rs.13,891 subject to the condition that the amount may be met within the Fourth Plan allocation for the period ending 1973-74.

Revised
Appendix IV to UGC Minutes
(Item No.54) dated 5.11.1969

Recommendations of the Standing Committee on Establishment matters of the Central Universities and the University Grants Commission which met on 4th November, 1969.

Item No.1 : To consider a proposal of the Delhi University for relaxation of qualifications for various positions etc., in the University library.

The Committee recommended that as in the case of Professional (Senior), persons holding the post of Professional (Junior), who have already been placed in the scale of pay recommended by the UGC during the Third Plan period, may be placed in the revised scale of pay of Rs.400-950, irrespective of the prescribed educational qualifications and experience. The Committee was also of the view that it was not necessary to screen them before placing them in the revised scale. It was noted that the revised qualifications prescribed for the different posts would be made applicable to all future promotions/appointments in the revised scales of pay.

Item No.2 : To consider the question of fixation of pay of Dr.J.N.Kaul, on his appointment as Development Officer in the University Grants Commission through an open competition.

The Committee endorsed the recommendation made earlier by the Establishment Committee that the formula adopted by the Commission for fixing the salary of the Education Officer/Assistant Secretary on promotion as Development Officer/Deputy Secretary be not made applicable to departmental officers who are appointed as Development Officer/Deputy Secretary and that, in fact, it should not remain operative even in the case of promoted officers in future.

The Committee, however, agreed that in the case of officers of the Commission who have been appointed as Development Officers on the basis of open selection, the question of giving ad hoc advance increments may be considered and decided by the Chairman.

Item No.3 : To consider the question of rationalisation of designation and salary scales of the staff, channel of promotion, procedure of re-employment in the University Grants Commission.

The Committee made the following recommendations:

- (i) The scale of pay of the Education Officer may be revised to Rs.900-50-1250, as in the case of the Assistant Secretary.
- (ii) The scale of pay of the Publication Officer also may be Rs.900-50-1250.
- (iii) The scale of pay of the Accounts Officer may be revised to Rs.700-40-1100.
- (iv) Out of the 12 posts of Education Officers and 3 posts of Assistant Secretary, 8 posts may be designated as posts of Assistant Secretary on the basis of work/duties attached to them. Keeping this in view, the posts of Branch Officer (Education Officer) in the General, College, Scholarship & Fellowship, and Coordination Sections may be designated as

- (v) The scale of pay of the Assistant Education Officer may be revised to Rs.620-30-800-EB-30-830-35-900.

UNIVERSITY GRANTS COMMISSION

Meeting:

Dated: 3rd December, 1969.

Item No.2(a) (Contd.)

(26) Appointment of Legal Consultant

Recently a few cases have come to the notice of the Commission wherein the grants paid to the colleges have not been utilised for the purposes for which these were sanctioned and in accordance with the terms and conditions of the grants. Therefore it became necessary to resort to legal proceedings against the defaulting colleges for the recovery of the grants. The Commission does not have a legal adviser of its own and have been referring such cases in the past to the Ministry of Law, through the Ministry of Education and Youth Services, for advice. The Ministry of Law has suggested that the Commission as an autonomous organisation, may obtain legal advice independently. In view of this, it has been decided to refer all cases where legal assistance is to be obtained to the Solicitor General of India, who has consented to advise the Commission on payment of his normal fees.
