ADMINISTRATIVE STRUCTURE **CHANDIGARH ADMINISTRATION**

The Union Territory Administration is headed by the Administrator who is appointed by the President of India under Article 239(2) of the Constitution of India. The Administrator is assisted by the Adviser to the Administrator, who is an IAS officer of the AGMU cadre. He is assisted by three Administrative Secretaries and a number of IAS, IPS, PCS and HCS officers. The Adviser oversees the day-to-day administration. The powers to legislate vest with Parliament. The nodal Ministry for the Union Territory, Chandigarh is the Ministry of Home Affairs. Being a Union Territory without a legislature, the entire plan and non-plan expenditure is met directly from the Consolidated Fund of India. All its income goes directly to the Consolidated Fund of India. Therefore, a single demand covering all functions of the Administration is presented to Parliament as a part of Demands for Grants of the Ministry of Home Affairs.

The Union Territory, Chandigarh comprises of one Parliamentary Constituency and one District. The Municipal Corporation in Chandigarh came into existence in May, 1994 under the Punjab Municipal Corporation Act, 1976 (as extended to Chandigarh) by an Amendment Act of 1994. An elected Mayor heads the Corporation. The Commissioner, Municipal Corporation looks after the general administration of the Corporation.

There are a number of Boards and Corporations under various departments in Union Territory, Chandigarh. However, two of the more important Corporation/Boards are the Chandigarh Industrial & Tourism Development Corporation (CITCO) and Chandigarh Housing Board (CHB) to look after the promotion of industries, tourism and housing respectively.

CHAPTER-I

INTRODUCTION

1.1 BACKGROUND HISTORY OF CHANDIGARH

Chandigarh, the dream city of India's first Prime Minister, Sh. Jawahar Lal Nehru, was planned by the famous French architect Le Corbusier. Picturesquely located at the foothills of Shivaliks, it is known as one of the best experiments in urban planning and modern architecture in the twentieth century in India.

Historical Background

“Chandigarh derives its name from the temple of “Chandi Mandir” located in the vicinity of the site selected for the city. The deity ‘Chandi’, the goddess of power and a fort or ‘garh’ laying beyond the temple gave the city its name” (Chandigarh-The City Beautiful).

The city has a pre-historic past. The gently sloping plains on which modern Chandigarh exists, was in the ancient past, a wide lake ringed by a marsh. The fossil remains found at the site indicate a large variety of aquatic and amphibian life which was supported by that environment. About 8000 years ago the area was also known to be a home to the Harappans. (Source: www.citco.nic.in)

Since the medieval thru' modern era, the area was part of the large and prosperous Punjab Province which was divided into East & West Punjab during partition of the country in 1947. The city was conceived not only to serve as the capital of East Punjab, but also to resettle thousands of refugees who had been uprooted from West Punjab.

In March, 1948, the Government of Punjab, in consultation with the Government of India, approved a 114.59 sq. kms. tract of land at the foothills of the Shivaliks as the site for the new capital. The location of the city site was a part of the erstwhile Ambala district as per the 1892-93 gazetteer of District Ambala. The site was selected by Dr. M.S. Randhawa, the then Deputy Commissioner of Ambala. Before the new city came up, the original site had about 59 villages (Singh *et.al.*, 1998). The foundation stone of the city was laid in 1952. Subsequently, at the time of reorganization of the state in 1966 (01.11.1966) into Punjab, Haryana and Himachal Pradesh, the city assumed the unique distinction of being the capital city of both, Punjab and Haryana while it itself was declared as a Union Territory and under the direct control of the Central Government.

Geology

The Union Territory of Chandigarh is located in the foothills of the Shivalik hill ranges in the north, which form a part of the fragile Himalayan ecosystem. It is occupied by Kandi (Bhabhar) in the north east and Sirowal (Tarai) and alluvial plains in the remaining part. The subsurface formation comprises of beds of boulders, pebbles, gravel, sand, silt, clays and some kankar. The area is drained by two seasonal rivulets viz. Sukhna Choe in the east and Patiala-Ki-Rao Choe in the west. The central part forms a surface water divide and has two minor streams. The stream passing through the central part is called N-Choe and the other is Choe Nala which initiates at Sector 29.

Climate

Chandigarh falls under Koeppen's Cwg category i.e. it has cold dry winter, hot summer and sub tropical monsoon. Evaporation usually exceeds precipitation and the weather is generally dry.

The area experiences four seasons: (i) Summer or hot season (Mid-March to Mid-June) (ii) Rainy season (late-June to mid-September); (iii) Post monsoon autumn/transition season (mid September to mid-November); (iv) Winter (mid November to mid-March). The dry spell of summer is long but with occasional drizzles or thunder storms. May and June are the hottest months of the year with mean daily maximum & minimum temperatures being about 37°C & 25°C, respectively. Maximum temperatures can rise up to 44°C. Southwest monsoons with high intensity showers commence in late June. The weather at this time is hot and humid. The variation in annual rainfall on year to year basis is appreciable i.e. 700 mm to 1200 mm. The 20 year average rainfall for Chandigarh is 1100.7 mm. January is the coldest month with mean maximum and minimum temperatures being around 23°C and 3.6°C respectively. Winds are generally light and blow from northwest to southeast direction with exception of easterly to southeasterly winds that blow on some days during the summer season.

The Master Plan of Chandigarh

Le Corbusier conceived the master plan of Chandigarh as analogous to human body, with a clearly defined head (the Capitol Complex, Sector 1), heart (the City Centre, Sector 17), lungs (the leisure valley, innumerable open spaces and sector greens), the intellect (the cultural and educational institutions), the circulatory system (the network of roads, the 7 Vs) and the viscera (the Industrial Area). The concept of the city is based on four major functions : living, working, care of the body mind and spirit and circulation. Residential sectors constitute the living part whereas the Capitol Complex, City Centre, Educational Zone (Post Graduate Institute, Punjab Engineering College, Panjab University) and the Industrial Area constitute the working arms of this living organism. The Leisure Valley, Gardens, Sector Greens and Open Courtyards etc. are for the care of body and spirit. The circulation system comprises of 7 different types of roads known as 7Vs. Later on a pathways for cyclists called V8 were added to this circulation system.

The Capitol complex comprises four architectural masterpieces: out of which the "Secretariat", the "High Court" and the "Legislative Assembly", are realized while the Museum of Knowledge earlier planned as Governor's Palace is likely to be realised. In the heart of the Capitol Complex stands the giant metallic sculpture of 'The Open Hand', the official emblem of Chandigarh, signifying the city's credo of "open to give, open to receive".

The city centre (Sector 17) is the central business district and is located in the heart of Chandigarh. It comprises the Inter-State Bus Terminus, Parade Ground, District Courts, Police Village etc. on one hand, vast business and shopping center on the main pedestrian piazza and the bank square at another end. The 4-storey concrete buildings house banks and offices above and showrooms/shops at the ground level with wide pedestrian piazzas. The Neelam piazza in the center has fountains with light and water features.

LAND USE:

Tentative Land use details of Chandigarh (U.T.) as per Urban Complex Plan.

Sl. No.	Land Use	Area in Sq. Kms. (Approx.)
1	2	3
1	Sectors (1 to 56) Part of Sector 61 & 63	70
2	Industrial	5.75
3	Institutional	5.56
4	Defence	5.15
5	Railway Land	1.28
6	Manimajra	3.90
7	Reserved Forest/Forest	11.00
8	Rural Zones/Peripheral area	11.36
	Total	114 Sq. Kms.

In the Urban Complex Plan approx. 8 sq. kms. Area comprising of Sectors 48 to 56 and part of Sector-61 and 63 was earmarked for developing the third phase sectors. Now, it is felt that a stage has been reached where no amount of stringent regulations and legislation can check this phenomenon of unplanned urbanization of the periphery, given the quality of life and opportunity of employment that the Chandigarh Urban Complex offers. It would, therefore, be necessary to recognize these ground realities and accordingly undertake a planned low-density development of the periphery in U.T. Chandigarh and the neighbouring States. Consequently, it is being realized that there is need to prepare Perspective Plan for 11.36 sq. kms. of area (which was earmarked as rural zone in the urban complex plan) as low density development.

One unique feature in the layout of Chandigarh is its roads, classified in accordance with their functions. An integrated system of seven roads was designed to ensure efficient traffic circulation. Corbusier referred to these as the 7'Vs. The city's vertical roads run northeast/southwest. The horizontal roads run northwest/southeast. They intersect at right angles, forming a grid or network for movement of fast moving traffic.

This arrangement of road-use leads to a remarkable hierarchy of movement, which also ensures that the residential areas are segregated from the noise and pollution of traffic.

Type of Roads	Functions/Names
V-1	Roads connecting Chandigarh with other cities like Ambala, Kharar and Shimla. They have dual carriage way, good tree plantation and distinctive central verge lighting. The Madhya Marg and Dakshin Marg are two roads which merge into V-1s leading to Kalka and Ambala, respectively.
V-2	They are the major avenues of Chandigarh, with important institutional and commercial functions running alongside. In Chandigarh they are identifiable as 'Margs'. Madhya Marg, Dakshin Marg, Jan Marg, Himalaya Marg, Uttar Marg and Purv Marg are important examples.
V-3	They are the corridor-streets for fast moving vehicular traffic. All Sectors are surrounded either by V-2 or V-3 roads.
V-4	Roads bisecting the Sectors with shopping complexes located along their southern edge.
V-5	Roads meandering through the Sector giving access to its inner lands.
V-6	Roads coming of the V-5s and leading to the residential houses.
V-7	They are intended for pedestrian movement and run through the middle of the sectors in the green areas. A few examples are along the Jan Marg, in the Punjab University & Sector 15.
V-8	They are intended to run parallel with <u>V-7s for the bicycles</u> . Not properly developed, as yet.

Each 'Sector', or the neighbourhood unit, is quite similar to the traditional Indian 'mohalla'. Typically, each sector measures 800 metres by 1200 metres, covering 250 acres of area. Each

Sector is surrounded by V-2 or V-3 roads, with no buildings opening on to them. Access from the surrounding roads is available only at 4 controlled points which roughly mark the middle of each side. Typically a sector is divided in four parts by a V-4 road running from east to west and a V-5 road running from north to south. These four parts are easily identifiable as A, B, C and D corresponding to North, East, South and West sides. However, sectors 1,2,3,4,5 and 6 have no Sub Sectors and sectors 7 and 8 have only three parts A, B and C (This is because they are developed according to the concept proposed by the first planner of the City, Albert Mayer to give his concept some recognition). In case of Quardipartite Sectors, the houses from 1 to 1000, 1001 to 2000 to 2001 to 3000 and 3001 to 4000 are located in Sub Sectors A, B, C and D in clockwise direction. Though all the sectors are structured more or less similarly, but they have their own characteristics and individuality. Each Sector is meant to be self-sufficient, with shopping and community facilities within reasonable walking distance. The sectors of the city are numbered commencing from the northern most edge of the city with the highest numbers located at the southern edge. There is no sector 13 in Chandigarh, but the addition or subtraction of the number of any two consecutive sectors in phase I sectors vertically amounts to 13 or its multiple (eg. Sec. 2 + Sec. 11 = 13, Sec.11 + Sec. 15=26, etc.) Though it is generally believed that No. 13 was left out due to superstition but records indicate that Sector 12 and 13 were demarcated initially as a cultural zone in the lower halves of Sector 10 and 11 but later removed to avoid confusion . However, later No. 12 was assigned to residual area at the edge of Sector 11 but No. 13 was left out in absence of an appropriate area for its location. The location of Sectors 26, 27, 28, 29 and 30 is also somewhat anomalous. As per records, the phase-I of the master plan was up to Sector 25. Later the city was extended in the space available east of Sector 7, 19 and 20 and numbered 26,27, 28, 29 and 30.

Though educational, cultural and medical facilities are spread all over the city, however, major institutions are located in Sectors 10, 11, 12, 14, 26 and 32.

The industrial area comprises 2.35 sq kms, set-aside in the Master Plan for non-polluting, light industry on the extreme southeastern side of the city near the railway line, as far away from the Educational Sectors and Capitol Complex as possible. Of this, 136 hectares was developed in the first phase. In the event of expansion, creation of an additional industrial area in the southern part of the city was envisaged. While the Industrial area is directly connected to the civic centre by a V-3 road, a wide buffer of fruit trees was planted to screen off this area from the rest of the city. Architectural controls have been established regarding site coverage and materials of construction, ultimately requiring all plans to be formed in consultation with the Capital Project Office. In Sector 30, which is sufficiently close to the Industrial Sector, suitable tenements for the workers have been developed. Besides Industrial housing is also provided in sectors 28 and 29.

Tree plantation and landscaping has been an integral part of the city's Master Plan. Twenty six different types of flowering and 22 species of evergreen trees (Singh *et. al.*, 1998) have been planted along the roads, in parking areas, shopping complexes, residential areas

and in the city parks, to ameliorate the harsh climate of the region, especially the hot and scorching summers.

Population Growth in the City

Chandigarh was planned for a finite population of half-a-million. In Phase I, 36 sq km of land was acquired by the city administration for construction of 30 sectors. Land for seventeen additional sectors (Sector 31 to 47) was acquired and developed during the second phase to cater for a population of 350,000. The predominance of 3/4 storey apartments in the second phase provide for higher population dimension. However, Chandigarh has now grown beyond its planned capacity. Hence, development in the third phase has started in sectors 48 and beyond. Demographic data indicate that between 1961 and 1971, the population increased by 114.59 percent, one of the highest for urban areas in India. According to 1981 census, it grew by another 75.55 percent, followed by 42.16 percent in 1991, 40.28 per cent in 2001 and by 17.10 percent in 2011 (Provisional Population).

Population trend in Chandigarh from 1961 to 2011.

Villages & Slum areas

At present there are 13 villages namely Kaimbwala, Khuda Alisher, Khuda Jassu, Khuda Lahora, Sarangpur, Dhanas, Behlana, Raipur Khurd, Raipur Kalan, Makhan Majra, Daria, Mauli Jagran and Kishangarh. Nine villages i.e. Badheri, Butrela, Burail, Attawa, Hallomajra, Kajheri, Palsora, Maloya and Dadumajra are now under the Municipal limits of Chandigarh (in 2006) and are under the control of the Municipal Corporation. In addition, according to a Biometric survey conducted by the field staff of the office of Estate Office, U.T. Chandigarh there are 18 colonies namely, (1) Madrasi colony (2) Labour colony-5 (3) Labour colony-4 (4) SBS Mauli Jagran (5) Ambedkar Colony (6) Sanjay Labour Colony (7) Kabari Colony (8) Kumhar Colony (9) Janta Colony (10) Rajiv Colony (11) Shahpur Colony (12) LBS Colony (13) Kalyan Colony (14) Nehru Colony (15) Majdoor Colony (16) Pandit Colony (17) Kuldeep Colony (18) Gursagar Bhattal Colony with 23346 families identified under this Biometric survey.

Areas of Interest

Chandigarh is famous for its architecture and landscaping world over. It combines elegant architectural forms with wide tree-lined avenues, green belts and gardens and is hence referred to as the 'City Beautiful'. Green open space comprise about 8 sq kms. out of 114 square kilometers of the capital project area. Major open areas include the Leisure Valley, Sukhna Lake, Rock Garden and many theme gardens like, Rose Garden, Botanical Garden, Terrace Garden, Fragrance Garden, etc. In addition, the sectors are vertically integrated by a green belt oriented in the direction of the mountains. Various structures such as the Government Museum and Art Gallery, Museum of Evolution of Life and Fine Arts College have come up in the leisure valley forming the cultural zone of the city.

Sukhna Lake, a major tourist attraction, was constructed in 1958 across Sukna choe and was planned as an integral part of master plan of the city. The lake spreads on the foothills of the Shivalik mountain range. The reservoir of the lake is in the shape of a bean seed bounded by a 12.8 m high rock fill earthen dam. The total catchment area of the lake is 42.07 sq kms, of which 34.42 sq kms. falls in the Union Territory of Chandigarh (including 25.42 sq km newly acquired area) and 7.7 sq km which falls in the state of Haryana. This additional area is prone to erosion.

Rock Garden, another tourist attraction, is the creation of Nek Chand and is built with municipal waste. It expresses the fragility of the environment, the need for conservation of the earth's natural resources, the importance of balancing industrial development and sound environmental practices.

1.2 CONCEPT NOTE ON RAJIV GANDHI CHANDIGARH TECHNOLOGY PARK

(RGCTP)

Rajiv Gandhi Chandigarh Technology Park (RGCTP) is a visionary project of Chandigarh Administration in order to integrate this modern city with the world, which not only enhance the economic profile of the city but also provide employment opportunities for its human resource. To retain this upgraded human capital, RGCTP provides world class integrated infrastructure necessary for the setting up of facilities/campuses by leading Technology Companies and other IT/ITES/BPO companies for the first time in this region.

Ever since its conceptualization, Chandigarh has traditionally been a city where not many multi-national companies had earlier set up their facilities and therefore a large number of professionals had left Chandigarh in the past for other cities, in search of high level employment. The level of educational facilities here had been much higher than the level of employment. Opportunities are available, especially in the knowledge sector. North India, as a whole had lagged behind the southern States, and RGCTP is a major step in the direction of redressing that imbalance.

The development of RGCTP has been anchored by Infosys Technologies, which has completed its state of the art campus with an investment of Rs. 300 crores (approx.). Presently, more than 5200 software professionals are working from their campus. DLF is also offering ready to use built up space and is already housing 50 IT Companies and is already providing directly employment to more than 8500 professionals. IT majors like Bharti Airtel & Tech Mahindra has already been operating from RGCTP alongwith some BTS sites viz. FCS Softwares, RT Global, NetSmartz, Aeren Outsourcing, Start-up Farms, Amadeus; while 13 other companies are in the process of developing their respective sites allotted to them. Many BTS sites are expected to be operational in 2012-13. A state of the art

Entrepreneurs Development Centre is being established by the Administration for providing incubation space to young entrepreneurs, which will also be operational shortly. A hotel-cum-convention centre (for 1200 persons) of international standard is coming up on 4 acres plot, which is anchored by DLF and Lalit Group and is near completion. A Tech Habitat Centre is also under development on a 123 acre plot under PPP model. This project has been planned taking into consideration the logistic needs relating to the residential accommodation for the IT professionals who would be working in RGCTP.

This visionary project of the Administration was lauded by the Hon'ble Prime Minister of India, Dr. Manmohan Singh, when he visited Chandigarh for the inauguration of the Rajiv Gandhi Chandigarh Technology Park on 24 September 2005.

Expansion of RGCTP-Phase III

Keeping in view the needs of the IT Industry and also in view of the interest shown by major IT companies, the tentative plan has been earmarked for the development of Phase III of the Rajiv Gandhi Chandigarh Technology Park. Unlike the Phase I and Phase II, there will be no sites for any Hotel, Mall or residential use in Phase III. The Administration has decided that the whole of Phase-III of the RGCTP covering 270 acres will be used for IT Industry area and there will be no space for any ancillary/adjunct activities. Presently the land for this Phase is under acquisition. Out of the total area of 270 acres, it is estimated that 110 acres (40 % of the total area) would have to earmarked for roads, green spaces, parking etc. leaving 160 acres for the IT Industry. Taking into consideration that high end quality companies have been approaching the Administration, 2 sites of 30 acres each, 2 sites of 20 acres each and 3 sites of 10 acres each will be earmarked for IT Companies which are eligible for Main Campus Sites as per the Chandigarh Technology Park Rules, 2006. Similarly, 6 sites of 3.5-6.5 acres have been earmarked for Small Campus Sites and the remaining area has been

earmarked for BTS sites. It is estimated that there would be around 30 BTS sites for 1-1.5 acre.

Socio-Economic Benefits from RGCTP

The RGCTP has been planned keeping in view the aspirations for the citizens of the whole Region for getting integrated with the world community, Chandigarh has been promoted as a knowledge hub, which also includes the setting up of a world class IT Park. The main focus of the establishment of RGCTP is to create employment for the youth of the Region apart from bring in investment, which would thereafter lead to software exports.

The setting up of IT Park has opened Chandigarh to national and multinational IT companies, which are bringing investment and employment opportunities to the Region. The development of the RGCTP has thus been planned in a holistic manner. Already more than 16000 professionals are working in RGCTP and an investment of more than Rs. 1100 Cr. has poured in. Similarly it is estimated that once completed, Phase I and Phase II would provide direct employment to more than 30,000 professionals, and an equivalent number would be directly employed in Phase III taking the figure of direct employment for RGCTP will cross 60000 and it is further estimated that the software exports from RGCTP will cross Rs. 1500 Cr by the end of 2013.

The above numbers of more than 60000 direct employment will be further augmented by 3 times this number, as every single IT job created further creates 3 indirect jobs, and wherever the IT Industry has been establishment, the indirect employment has benefited all cross sections of the society, as the direct employment has to be technically skilled.

CHAPTER 4

AGRICULTURE

Area according to Village Papers: It is according to village papers and is based on returns of area prepared by village staff for revenue purposes in the Chandigarh whereas area by professional survey is worked out by the Surveyor General of India. There is some difference in the two sets of figures because of different methods adopted by them.

Area under Forests: This includes actually forested area on the lands, classed or administered as forests under any legal enactment dealing with forest whether State-owned or Private except in area not cadastrally surveyed. Area under forests given in this section does not tally with that of the Forest Department shown in the section on forest statistics owing to the fact that certain lands though no wooded, are taken as forest by the Forest Department while these are not treated as such by the Director Land Records, Chandigarh Administration.

Land not available for Cultivation: This includes absolutely barren and unculturable land like mountains deserts etc., which cannot be brought under plough except at exorbitant cost or land cover by buildings, roads and railways and water or otherwise appropriated for non-agricultural purposes.

Other Uncultivated Land excluding Fallow Lands: This denotes land available for cultivation either not taken up for cultivation or abandoned later on for one reason or the other and includes culturable waste, permanent pastures and other grazing land and lands under miscellaneous tree crops and groves.

Fallow Land: It denotes cultivable land which after abandonment remains uncultivated over long period called "old fallow", those kept uncultivated during the current year called "Current Fallows".

Net Area sown: It is the net area sown under crops, the area sown more than once during the year being counted once only.

Total Cropped Area: It includes total area covered with crops during the year. In case different crops are raised on the same land during the year, the same area is counted more than once.

- (5) Scholarships for meritorious students from minority communities
- (6) Improving educational infrastructure through the Maulana Azad Education Foundation.

(B) Equitable Share in Economic Activities and Employment

- (7) Self-Employment and Wage Employment for the poor
- (8) Upgradation of skill through technical training
- (9) Enhanced credit support for economic activities
- (10) Recruitment to State and Central Services

(C) Improving the conditions of living of minorities.

- (11) Equitable share in rural housing scheme
- (12) Improvement in condition of slums inhabited by minority communities.

(D) Prevention & Control of Communal Riots

- (13) Prevention of communal incidents
- (14) Prosecution for communal offences
- (15) Rehabilitation of victims of communal riots.

(A) Enhancing opportunities for Education.

(1) Equitable availability of ICDS Services

The integrated Child Development Services (ICDS) Scheme is aimed at holistic development of children and pregnant/lactating mothers from disadvantaged section, by providing services through Anganwadi Centres such as supplementary nutrition, immunization, health check-up, referral services, pre-school and non-formal education. A certain percentage of the ICDS projects and Anganwadi Centres will be located in blocks/villages with a substantial population of minority communities to ensure that the benefits of the scheme are equitably available to such communities also.

(2) Improving access to School Education

Under the Sarva Shiksha Abhiyan, the Kasturba Gandhi Balika Vidyalaya Scheme, and other similar Government schemes, it will be ensured that a certain percentage of such schools are located in villages/localities having a substantial population of minority communities.

(3) Greater resources for teaching Urdu

Central assistance will be provided for recruitment and posting of Urdu language teachers in primary and upper primary schools that serve a population in which at least one-fourth belong to that language group.

(4) Modernizing Madarsa Education

The Central Plan Scheme of Area Intensive and Madarsa Modernization Programme provides basic educational infrastructure in areas of concentration of educationally backward minorities and resources for the modernization of Madarsa education. Keeping in view of importance of addressing this need, this programme will be substantially strengthened and implemented effectively.

(5) Scholarships for meritorious students from minority communities

Schemes for pre-matric and post-matric scholarships for students from minority communities will be formulated and implemented.

(6) Improving educational infrastructure through the Maulana Azad Education Foundation.

The Government shall provide all possible assistance to Maulana Azad Education Foundation (MAEF) to strengthen and enable it to expand its activities more effectively.

(B) Equitable Share in Economic Activities and Employment

(7) Self-Employment and Wage Employment for the poor

The Swarnjayanti Gram Swarajgar Yojna(SGSY), the primary self-employment programme for rural areas, has the objective of bringing assisted poor rural families above the poverty line by providing them income generating assets through a mix of bank credit and Governmental subsidy. A certain percentage of the physical and financial targets under the SGSY will be earmarked for beneficiaries belonging to the minority communities living below the poverty line in rural areas.

The Swarnjayanti Shahary Rohgar Yojna(SSRY) consists of two major components namely, the Urban Self-Employment Programme (USEP) and the Urban Wage Employment Programme(UWEP). A certain percentage of the physical and financial targets under USEP and UWEP will be earmarked to benefit people below the poverty line from the minority communities.

The Sampurna Grameen Rozgar Yojna(SGRY) is aimed at providing additional wage employment in rural areas alongside the creation of durable community, social and economic infrastructure. Since the National Rural Employment Guarantee Programm(NREGP) has been launched in 200 districts, and SGRY has been merged with NREGP in these districts, in the remaining districts, a certain percentage of the allocation under SGRY will be earmarked for beneficiaries belonging to the minority communities living below the poverty line till these districts are taken up under NREGP. Simultaneously, a certain percentage of the allocation will be earmarked for the creation of infrastructure in such villages, which have a substantial population of minorities.

(8) Upgradation of skill through technical training

A very large proportion of the population of minority communities is engaged in low-level technical work or earns its living as handicraftsmen. Provision of technical training to such people would upgrade their skills and earning capability. Therefore, a certain proportion of all new ITIs will be located in areas predominantly inhabited by minority communities and a proportion of existing it is to be upgraded to 'Centres of Excellence' will be selected on the same basis.

(9) Enhanced credit support for economic activities

The National Minorities Development & Finance Corporation (NMDFC) was set up in 1994 with the objective of promoting economic development activities among the minority communities. The Government is committed to strengthen the NMDFC by providing it greater equity support to enable it to fully achieve its objective.

Bank credit is essential for creation and sustenance of self-employment initiative. A target of 40% of net bank credit for priority sector lending has been fixed for domestic banks. The priority sector includes, inter alia, agricultural loans, loan to small-scale industries & small business, loans to retail trade, professional and self-employed persons, education loans, housing loans and micro-credit. It will be ensured that an appropriate percentage of the priority sector lending in all categories is targeted for the minority communities.

(10) Recruitment to State and Central Services

In the recruitment of police personnel, State Governments will be advised to give special consideration to minorities. For this purpose, the composition of selection committees should be representative.

The Central Government will take similar action in the recruitment of personnel to the Central police forces.

Large scale employment opportunities are provided by the Railways, nationalized banks and public sector enterprises. In these cases also, the concerned departments will ensure that special consideration is given to recruitment from minority communities.

An exclusive scheme will be launched for candidates belonging to minority communities to provide coaching in Government institutions as well as private coaching institutes with credibility.

(C) Improving the conditions of living of minorities.

(11) Equitable share in rural housing scheme

The Indira Awaas Yojna(IAY) provides financial assistance for shelter to the rural poor living below the poverty line. A certain percentage of the physical and financial targets under IAY will be earmarked for poor beneficiaries from minority communities living in rural areas.

(12) Improvement in condition of slums inhabited by minority communities.

Under the schemes of Integrated Housing & Slum Development Programme(IHSDP) and Jawaharlal Nahru Urban Renewal Mission(JNURM), the Central Government provides assistance to States/UTs for development of urban slums through provision of physical amenities and basic services. It would be ensured that the benefits of these programmes flow equitable to members of the minority communities and to cities/slums, predominantly inhabited by minority communities.

(D) Prevention & Control of Communal Riots

(13) Prevention of communal incidents

In the areas, which have been identified as communally sensitive and riot prone districts and police officials of the highest known efficiency, impartiality and secular record must be posted. In such areas and even elsewhere, the prevention of communal tension should be one of the primary duties of the district magistrate and superintendent of police. Their performance in this regard should be an important factor in determining their promotion prospects.

(14) Prosecution for communal offences

Severe action should be taken against all those who incite communal tension or take part in violence. Special court or courts specifically earmarked to try communal offences should be set up so that offenders are brought to book speedily.

(15) Rehabilitation of victims of communal riots.

Victims of communal riots should be given immediate relief and provided prompt and adequate financial assistance for their rehabilitation.
