M I Z O R A M DRAFT ANNUAL PLAN 1995-96

The size of Mizoram Annual Plan 1995-96 has been fixed at Rs.227.77 crores in the meeting between the Deputy Chairman, Planning Commission and the Chief Minister, Pizoram on 9.1.195 and sectoral allocation has also been decided by the Adviser(SP), Planning Commission.

As the current year 1994-95, more than 70% of the approved Annual Plan outlay of Rs.192.41 crores will be utilised for implementing important schemes/projects allocated in rural areas.

The strategy suggested by the Planning Commission has been followed by Govt. of Mizoram and the identified major trust areas are:-

- (a) Agriculture with emphasis on elimination of jhuming, self-sufficiency in foodgrain and promotion of horticulture.
- (b) New Land Use Policy (NLUP) which aims at complete eradication of shifting cultivation and provide alternative permanent settlement to jhumia families.
- (c) Generation of Power for meeting the huge gap between production and demand through internal generation.
- (d) Eradication of illiteracy;
- (e) Provision of drinking water and communication in rural areas; employment generation through agro-Forest based Industries.

Annual Plan 1995-96 is considered very inadequate in view of a huge backloads that has to be made up and the present very low level of economy. Moreover, the fact that the project cost in Mizoram is about 30% more than that in any other developed States. In the line with Planning Commission's suggestion, the draft Annual Plan includes certain critical ongoing schemes, some committed liabilities in regard to some schemes.

The Govt.of Mizoram is very much grateful to Planning Commission for the approval of the construction of new Airport at Lengoui from the current year 1994-95.

Dated Aizawl, The 25th January, 1995. (J.K.SANGLURA)
Development Commissioner,
Government of Mizoram.

MIZORAM DRAFT ANNUAL PLAN 1995-96

INTRODUCTION :

Mizoram is situated between 20° 20° and 24°27' North, 92°20' and 93°29' East, and covers an area of 21,081 sq Kms. It is hounded on the North by the District of Cachar of Assam and the State of Manipur, on the east and South by Chin Hills of Myanmar, on the West by the Chittagong Hill Tracts of Bangladesh and the State of Tripura. The Tropic of Cancer runs through the State of Mizoram. Mizoram, therefore, occupies a very strategic position in the North Eastern corner of India.

Mizoram is divided into three Districts namely, Aizawl, Lunglei and Chhimtuipui Districts for administrative purpose. Aizawl Distrct is divided into four Sub-Divisions whereas Lunglei and Chhimtuipui Districts are divided into three and two Sub-Divisions respectively. Each District is under administrative control of Deputy Commissioner while each Sub-Division is administered by Sub-Divisional Officer. Chhimtuipui District has been given special attention by Govt. of Mizoram because of its comparatively backwardness and some additional subjects have been given to the three Districts Councils from 1994-95.

The share of Mizoram State in the success-Sive Five Year Plan and Annual Plans are shown below:-

HIGHLIGHT OF SOME IMPORTANT PRIGRITY SECTORS ARE GIVEN BELOW:

I. AGRICULTURE :

Mizoram is deficit in foodgrain production especially of rice which is the staple food. Therefore, rice occupies the most important place in regard to daily food. It is, therefore, necessary to be self-sufficient in rice as early as possible.

To become self-sufficient within 1997-98 in production of rice, it is proposed to take up the following steps:-

- 1. The requirement of rice at the rate of 150 kg. per head per annum is 1.2 lakhs tonnes.
 - 2. It is presumed that the area under Jhuming should have come down to 25,000 Ha.
 with the total production of 20,000 tonnes.
 - To achieve self-sufficiency, total 29,888 ha. land out of the available potential flat land will be fully developed and put under cultivation by 1997-98 with the total production of 1,17,250 MT. sufficient for about 8 (eighth) lakks people.

The total available flat land is 50,000 Ha. out of which only 21,500% Ha. have been put under permanent cultivation, the remaining 7,500% ha. will have to be fully developed to bring additional production of rice of 82,248 tonnes per year.

2. MINOR IRRIGATION : . . .

. 11:

The Draft Annual Plan of Mizoram Irrigation highlighted the construction of 60 nos of individual water tanks, lift irrigation project to supply water to 60 Ha. of land; to purchase 120 nos. of pumpsets to be sold on subsidy; to complete 17 nos of on-going surface water diversion schemes during the year, 7 pro-

ject will be spill-over and 18 nos new projects will be taken up. In the command Area Development Programme the physical targets on Survey, Investigation and Planning "on Farm Programme" is 500 Ha; on construction of field channels and field drain is 500 Ha; on Demonstration and adaptive trail is 10 nos, on sarabandi is 500 Ha. and on crop compensation is 500 Ha. Flow Irrigation Project envisaged a) Irrigation Potential to be created 440 Ha and b) Potential to be utilised 435 Ha.

3. HORTICULTURE :

expansion on fruit crops, vegetables, spices and floriculture; production of quality planting materials, supply of improved planting materials to the needy farmers on subsidy basis; utilisation of maximum land resources; appropriate use of suitable production techniques; full utilisation of man power; augmentation of productivity level and generation of higher income to the growers by extending support on inpurts supply at reasonable price. The Department will go in for area specific approach after identifying the specific area for cultivation of particular crops, so that the production and marketing of the produces can be closely co-related.

4. FISHERIES :

The Draft Plan highlighted the proposed setting up of Cold Chain, a Central and State Govt. matching share on 50:50 basis; establishment of Fish seed farm at Zawlnuam; production of 30 lakhs fish seeds from departmental farms; procurement of 15 lakhs fish seeds for distribution to farmers at 50% subsidised rate and 200 qtls. of fish feed to be distributed at subsidised rate.

5. RURAL DEVELOPMENT :

Rural Housing: This is a family oriented scheme initiated from the year 1988-89. The object of this scheme is to provide GCI sheets, free of cost to

the rural families who are below the poverty line. The total amount spent upto 1994-95 for this scheme comes to Rs 940.00 lakes covering 14,739 families. According to the survey conducted in 1991 by the 20 R.D. Blocks there are as amny as 19,470 families in Mizoram who are eligible to receive assistance under this scheme. For the annual Plan 1995-96 the proposed outlay for this scheme is Rs 100.00 lakes to cover another 1656 families.

New Land Use Policy (NLUP)

This scheme aims at complete gradication of wasteful traditional shifting cultivation and providing an alternative permanent settlement to jhumia familise. The scheme was started in 1990-91. The total amount spent on this scheme since 1990-91 to 1994-'95 amounts to Rs 11,090.00 lakks covering 42,514 families.

The proposed outlay for the annual plan 1995-96 is Rs 27.00 lakhs. During 1995-96 it is envisaged to take up Nisapui Village as Model Village which will be administered directly from commissionerate Office. The fund requirement for this will be Rs 18.54 lakhs. Also, it is proposed to take up NLUP schemes to cover the remaining part of Khawzawl and part of Tlang-nuak R.D. Blocks covering around 10,000 nos of families.

5. ROADS AND BRIDGES :

Road cons-

truction in Mizoram under PWD Mizoram was started during the 5th Five Year Plan. Most of the road projects are on-going which were spilled over from the 7th five Year Plan. The main strategy for the 8th Five Year Plan. were to complete the on-going schemes of the 7th Five Year Plan. The total road length in Mizoram at the end of the third year of the 9th Five Year Plan will be 5847 Kms. The road density will be 27.73 Km per 100 Sq. Km. The main strategy for 1995-96 will be completion of on-going works as far as possible in respect of State Highway, Rural Roads as well as Town Roads.

7. PUBLIC HEALTH ENGINEERING (PHE):

The approved outlay of the 8th Five Year Plan 1992-97 for Water Supply and Sanitation is Rs 5715 mkhs only. Out of which Rs 2600.00 lakhs for Urban Water Supply, Rs 2340.00 lakhs for Rural Water Supply, 3s 375.00 lakhs for sewarage and Rs 400.00 lakhs for Building, Sanitation, Direction and Administration, etc. The outlay for 1994-95 is Rs 1270.00 lakhs which will be utilised fully.

There are 701 inhabited villages and 23 towns in Mizoram as per 1991 census. Aizawl Greater Water Supply Scheme Phase-I for a population of 80,000 had been completed during the 7th Plan period. Due certain reasons the population of Aizawl increased doubly in 1991 censes. To cope up with the increase of population in Aizawl town Greater Aizawl Water Supply Scheme Phase-II was projected at the estimated cost of Rs. 37.00 drores to be financed from Externally Aidided Programme (EAP). Greater Lunglei Water Supply Scheme with the original estimated cost of Rs 14.27 crores had been launded during 1989-90. The original estimate had oben revised to Rs 22.54 crores due to price escalation This project will be completed by the end of March, 1995.

During 1995–96 the on-going Greater Water Supply Schemes of Serchhip and Kolasib Towns will be continued with a proposed outlay of Rs 800.00 lakhs. Also, Greater Saiha Water Supply Scheme costing Rs 398 lakhs and Augmentation of Hnahthial Water Supply Scheme costing Rs 44.24 lakhs will also be taken up during 1995–96. The scheme of Urnan Sewerage for Aizawl Town with a proposed outlay or Rs 200.00 lakhs is also to be taken up during 1995–96.

Rural Water Supply :

All the 690 habitated villages in Mizoram have been provided with some sorts of drinking water

supply by March 1991. But the water supply provided to most of these villages were much below the Central normand need be augmented. A sum of Rs 450.00 lakhs is proposed to cover 40 more villages during 1995-96.

8. SCHOOL EDUCATION :

The main objective of the 8th Five Year Plan in Education is to develop human resources and thereby improve the quality of life. The main strategigs, are universalisation of elementary aducation, eradication of illiteracy and to bring about a uniform and high standard of need-based education including vocational Education. Universalisation of Elamentary Education will continue to receive the priority it deserves and the main thrust are s will be improving the academic standard and retention of children_enrolled in Schools. To bring about quality educations efforts would be made to take advantage of the Central Schemes like Operation Black Board, Science Education, Teachers Training, Integrated Education of Disabled Children and vocational Education. Another important programme would be introduction of + 2 stage of education in Higher Secondary Schools

9. HEALTH SERVICES :

The target for 1995-96 in respect of Health and Medical Department are: To establish Community Health Centre - 2nos. Primary Health Centre -4 nos, Re-construction of Primary Health Centre/Sub-Health Centre building 12 Nos. Improvement/expansion of Hospital 4 nos, Re-construction of Hospital building 2 nos., construction of Maternity Hospital 2 nos., establishment of Mental Hospital 1 no. and construction of Directorate building, DCM & HO Office, CMS building, Public Health Laboratory building, SDM & HO Quarter 1 No. each.

10. POWER :

The present requirement of Power in Mizoram is 56 MW. The total power available for Mizoram at present is 42 MW, 20MW from Grid, 19MW from Diesel Ennine and 3 MW from Micro Hyddel Project leaving a deficit of 14MW.For the Annual Plan 1995-96 the important schemes to be taken up with the proposed outlay are :
1) Renovation and Modernisation of Power Stations with an outlay of Rs 175.00 lakhs; 2) Augmentation of Diesel Generating Capacity of Luarnigmual Power Station by 5MW with an outlay of Rs 526.00) lakhs; 3) Hydel Projects
10 nos, with an outlay of Rs 1567.00 lakhs. 4) 8th Plan Transmission schemes with 4 mos. of Sub-Stations with an outlay of Rs 424.00 lakhs;; 5) Survey and Investigation with an outlay of Rs 1177.00 lakhs; 6) Construction of building with an outlay of Rs 40.00 lakhs.

Rural Electriffication:

Out of the 6988 inhabited villages as per 1991 census, 528 villages were electrified upto March, 94. At the end of March 1995,, the total number of electrified villages will be 5922,, leaving only 106 villages to be electrified from 1995--996 onwards.

11. STATE CAPITAL PROJECTS :

The main secretariat of the State of Micoram and most other government offices are still housed
in the old erstwhile Districtt Council buildings. The number of government residentiall buildings is also for from
adequate due to the rapid grounth of population and extension of the Capital Town. Improvement of Town Roads is
very essential. There is an urreant need to expand Aizaul
Town and to accommodate Government Offices in Government
buildings. The proposed cutlæsy for the Annual Plan 199596 in respect of State Capitall Project is Rs 1209.00 lakhs.

12. ROAD TRANSPORT:

The total outlary for the Annual Plan 1995-96 on Road Transport is Rs 195-010 lakhs. For replacement of

overaged Buses it is proposed! to purchase 10 Buses for which a provision of Rs 770).00 lakhs is proposed. For the repairing and maintendance of existing Busus a provision of Rs 31.00 lakhs is proposed. Two Bus Stations will be constructed.

13. <u>SERICULTURE</u>:

Regarding Sericuliture Development during 1995-96, priority will be given to assist the private Sericulturist and Sericultural Cooperative/Association with supply of DFL's, countings, rearing equipments, diinfectants, reeling machines, etc. to enable them to establish their own Sericultural Units easily. A provision will be made to restablish two technical service centres, 10 Chowki rearing centres and onemulbery seed farm in 1995-996; and to cover 500 additional acreages with high yielding and disease-remistant varieties of mulberry..

14. CIVIL AVIATION ::

The existing airport in Mizoram is not capable of handling bigger as recrefts like Boeing 737. Therefore, a suitable site at Langpui had been surveyed and a project report had also been prepared. The total estimate of the post of construction of the proposed Langpui Airport has the worked out at Rs 57.50 crores by the local PWD as against the earlier estimate of Rs 69.80 crores wearked out by the Border Road Organisation.

A sum of Rs 101.00 crores has been provided outside the Plan outlay diwring the year 1994-95 for undertaking the initial works and another Rs 10.00 crores has been set aside in the annual plan 1995-96 for continuing the construction works during the year.

| Villages with Water Supply | 31.3.94 | Nos. | 691 (98.57%) |

. , . .

AGRICC ULTURE

DIRECTION & ADMINISTRATION::

In the administration sufficient amount has to be provided to meet requisirement for salary of officers and staff to compensate thee shortage in Non-Plan & additional requirement for new sub-divisions such as Kawrtethawveng & Darlawn.

Residential complex construction of which is being started during 1994-9955 with Rs. 10.00 lakhs.

FOODGRAIM. DEVELOPMENT:

Mechanization of fearming is given priority including extension of existing Paddy Field.

AGRICULTURE FARMS:

For production of equality seeds 2 plots of Paddy Field have been purchaseed in 1993-94, one more in 1994-95 and another 2 plots in 1995-95 so as to encompass an area of 18.25 hectaires is compact area at Chemphai (Bilkhawthlir) which its under assured inrigation.

MANURES AND FERTILIZERS:

A new scheme of Ferrttilizers Testing Laboratory is included as one of the immstruments to implement Fertilizer Control Act.

PLANT PROTECTION:

The Plan is prepareed in the parsuit of the country to revert back from cheemmical pesticides/Insecticides to organic ones so as to avvoid hazzard to human beings.

COMMERCIAL CROP DEVELOPMENT:

Sugarcane and Taprica cultivation has got a good scope following installation of Sugar Factory at Saitual and Taprica Processing Unit at Thingdawl.

EXTENSION & FARMER TRA-INING:

Within the limited amount exchange of farmers and study tour are given importance for the farmers to expose themselves outside the State.

CROP INSURANCE:

This is introduced to install in the minds of the farmers the advantages of easy crop lean to restore their losses due to natural calamity.

AGRICULTURAL MACHINERIES & IMPLEMENT:

Indian Council of Agricultural Research Complex, Shillong has development some improved small tools and implements but not available adequately. It is therefore proposed to procure various items of improved Small Tools and Implements to meet the requirement of cultivators during the next five years.

DEVELOPMENT OF OILSEEDS & PULSES:

While there is vast scope cultivation of this crop a bare amount its kept as the balance requirements is expected to be meet from C:E.S.

ASSISTANCE TO SMALL & MARGINAL FARMER:

Since the subsidy under this scheme is cent percent the three components of assistance are maintained.

I (A) - III

STATE SOIL SURVEY ORGANISATION:

Out of the 20 rural development blocks reconsaisance Soil Survey has been completed in 10 Blocks but of which report in printed books have been brought out in 2 Blocks namely Thingdawl & Zawlnuam and the report on the remaining 8 Blocks are ready for completion:

AGRICULTURE RESEARCH & EDUCATION:

With the advent of demand for Socio-economic Life a tangible research works particularly related with Jhumming has gained momenturn with the latest technologies for which a little more provision is kept.

AGRICULTURAL MARKETING:

Out of the total proposed amount of Rs. 125.00 lakhs it is proposed to transfer Rs. 90.00 lakhs to MANGO and the remaining amount of which Rs. 35.00 lakhs will be utilised for maintenance of the assets already created by this Department like Agricultural Marketing, Agricultural Godown etc,.

FRAFT ANNUAL PLAN 19955-1996

HOMTICULTURE INTRODUCTION

The Mizoram is endowed with varied agro-climatic conditions prevailing in the high hills to the foot hills and offers an excellent escape to grow all types of Horticultural crops including tropical, sub-tropical and temperate fruits, vegetables, spices, plantation crops and floriculture. In the meantime, the potential area for horticultural activities fin the state is about 4.40 lakhs hectare. Of this potential area, the existing area under horticulture is only about 0.26 lakhs hectare. i.e.

5 percent. Therefore, thee scope and potential for expanding the activities of Morticulture is enormous.

The Department will therefore, give thrust on area expansion on fruit corops, vegetables, Spices and floriculture; production; of quality planting materials, supply of improved planting material to the needy farmers on subsidy basis; utilization of maximum land resources; appropriate use of suitable production techniques; full utilisation of man power; augmentation of productivity level and generation of thrigher income to the growers by extending support on inputts supply at reasonable price. As already done last years, the Department again will also go in for area specific approach after identifying the specific area for cuiltivation of particular crops, so that, the production cand marketing of the produces can be closely co-related.

In view of the abrowe objectives, the Annual Plan for 1995-1996 for thee Department of Horticulture is formulated.

I. CROP HUSBANDRY

A. HORTICULTURE AND VEGETABILE DEVELOPMENT

1. ESTABLISHMENT :

The new Department of Hortticulture created 4(four) Divisions and 26 (twenty six) Circles at Field level during 1994-95 to expand itts developmental activities in rural areas. A research centre was also established at Kolasib.

2. FRUIT DEVELOPANT :

of areas under fruit crops so as to uplift the economic condition of rural farmers. Under area expansion scheme financial assistance of 50 percent subsidy will be provided to the selected cultivatorss. To increase fruit production and its quality rejuvimation of old orchard trees will be taken up during them year. The Department will also make available to farmers planting materials of improved varieties of various fruit crops suitable to different local climatic conditions and marketting facilities, at subsidised rate.

3. VAGETABLE DEVELOPMENT ::

The Department will give imajor thrust to growing of various vegetable gross so as to meet the requirement for local consumption and also improve nutritional requirement of the people. To encourage growing of vegetables in kitchen gorden, roof toops, put culture and on small areas available around houses in towns seeds of vegetable will be distributed at subsidised rate to public on special occasions like Chapchar Kut, Y.M.A. Day, MHIP Day, Independence Day etc. Farmers will be encouraged to grow vegetables during offf season also. Horticulature expansion scheme on vegetable crops for settlement of Jhumia families will also be ttaken up during the year.

4. SPICES DEVICE DP CHIT :

To increase aircea under improved varieties of Spices crops like Gilnager, Gurmeric, Onion, Garlid etc the Department will pourchase and supply improved planting materials to farmerss. Migh economic value spices like Cardamom, Pepper, Garrella one will be popularised under Horticulture Expansition Scheme for settlement of Jhumia families in which filmancial assistance of 50 percent subsidy will be givenn to selected cultivators.

5. FLORICULTUIRRE AND LANDSCAPING :

To encourage (and popularise cultivation of flowers at commerciall level distribution of seeds, bulbs, and other planting manterials at subsidy will be taken up during the year. Horstciculture expansion scheme on floriculture will also been taken up during the year by providing financial assistcance of 50 percent subsidy to the selected cultivators. Emphasis will be made on cultivation of high economical value like house plants, gl.diolus, Roses, Chrysanthemuma, etc. so that cultivators get, maximum return from offilower cultivation.

6. AUSHRO II DDETVELOPARHT:

Mushroom, beining a good flood supplement havirg high nutrition values, its cultivation will be encouraged by supplying spawns that subsidised rate to cultivators. Training of Mushrooma (growers will be taken up at the Laboratories and alsoop at villages. Spawn production at Mushroom Laboratory, Aizawl and Lunglei will be increased so that cultivators (can obtain the speds/spawn at all time.

7. PLANTATIONI (CROPS :

The Departmentt will arrange supply of seeds/
planting materials off some plantation crops like coconut,
Arecanut. Tung. etc.. of improved varieties, Selection
of crops will be donned to suit the local climatic condition and soils of three particular etc.

8. HORTICULTULE PRASEARCH COEFFICE:

At Horticulture Research Ceantre, Kolasib work on research and experiment will bea started during the year. Works on the following will be taken up -

- 1) Rootstock trial for furiitt crops
- 2) Trial on vegetative propagation of fruit crops
- 3) Establishment of high deennsity orchard
- 4) Orchard management programme
- 5) Eco-mixed cropping progreatmme
- 6) Surveilance of posts and diseases and effective control measures.
- 7) Fertilizers/Nutrition trriials for different horticulture crops. ...

9. DIRECTION AND ADMINISTRATTION :

The new Department of Horttiiculture started functioning at Directorate level Whith officers and staff transferred from Agriculture Department. Four Horticulture Divisions were created during 1994-95.

10. HORTICULTURE FARMS AND COUALITY SEED PRODUCTION

To encourage cultivation off improved varieties of different crops and ensure avaiillability of seeds/ seedlings/planting materials, thessee will be multiplied in Departmental Farms. The Department propose to undertake vegetable seeds and seedlings production,

10. POWER :

The present requirement of Power in Mizoram is 56 MW. The total power available for Mizoram at present is 42 MW, 20MW from Grid, 19MW from Diesel Engine and 3 MW from Micro Hydel Project leaving a deficit of 14MW.For the Annual Plan 1995-96 the important schemes to be taken up with the proposed outlay are :
1) Renovation and Modernisation of Power Stations with an outlay of Rs 175.00 lakhs; 2) Augmentation of Diesel Generating Capacity of Luangmual Power Station by 5MW with an outlay of Rs 526.00 lakhs; 3) Hydel Projects
10 nos, with an outlay of Rs 1567.00 lakhs. 4) 8th Plan Transmission schemes with 4 nos. of Sub-Stations with an outlay of Rs 424.00 lakhs; 5) Survey and Investigation with an outlay of Rs 117.00 lakhs; 6) Construction of building with an outlay of Rs 40.00 lakhs.

Rural Electrification:

Out of the 698 inhabited villages as per 1991 census, 528 villages were electrified upto March, 94. At the end of March 1995, the total number of electrified villages will be 592, leaving only 106 villages to be electrified from 1995-96 onwards.

11. STATE CAPITAL PROJECTS :

The main secretariat of the State of Micoram and most other government offices are still housed
in the old erstwhile District Council buildings. The numbar of government residential buildings is also far from
adequate due to the rapid growth of population and extension of the Capital Town. Improvement of Town Roads is
very essential. There is an urgent need to expand Aizawl
Town and to accommodate Government Offices in Government
buildings. The proposed cutlay for the Annual Plan 1995—
96 in respect of State Capital Project is Rs 1209:00 lakhs.

12. ROAD TRANSPORT :

The total outlay for the Annual Plan 1995-96 on Road Transport is Rs 195-00 lakhs. For replacement of

overaged Buses it is proposed to purchase 10 Buses for which a provision of Rs 70.00 lakhs is proposed. For the repairing and maintenance of existing Busus a provision of Rs 31.00 lakhs is proposed. Two Bus `Stations will be constructed.

13. <u>SERICULTURE</u>:

Regarding Sericulture Development during 1995-96, priority will be given to assist the private Sericulturist and Sericultural Cooperative/Association with supply of DFL's, cuttings, rearing equipments, diinfectants, reeling machines, etc. to enable them to establish their own Sericultural Units easily. A provision will be made to establish two technical service centres, 10 Chowki rearing centres and one-mulbery seed farm in 1995-96 and to cover 500 additational acreages with high yielding and disease-resistant varieties of mulberry.

14. <u>CIVIL AVIATION</u>:

The existing airport in Mizoram is not capable of handling bigger aircrafts like Boeing 737. Therefore, a suitable site at Langpui had been surveyed and a project report had also been prepared. The total estimate of the lost of construction of the proposed Langpui Airport has been worked out at Rs 57.50 crores by the local PWD as against the earlier estimate of Rs 69.80 crores worked out by the Border Road Organisation.

A sum of Rs 10.00 crores has been provided outside the Plan outlay during the year 1994-95 for undertaking the initial works and another Rs 10.00 crores has been set aside in the annual plan 1995-96 for continuing the construction works during the year.

SOIL AND WATER CONSERVATION DEPARTMENT MIZORAM

INTRODUCTION: Mizeomam is a hilly territory, receives very high rainfall in a short spell of the year and the highest percent of its lands has suffered from shifting agriculture and this system is yet it practice under - socio economic compullation. Also the state is under developed for road communications and urbanisation.

- 2.1: Subject to absove, the Soil and Water Conservation in Mizoram has become imperative to ensure Socio-Economic security of the Statee. The task is vast and invites a special attention. Heavy expenditure involving projects for protections, restoration and preservation of Agricultural and other culturable Alands are in sight and needs special attention.
- 2.2: Mizoram has a very high intensity of drainage network. More than 990% of 2.5 meter of annual average rainfall gets lost as surface runoff. The nearby streams of cultura-ble lands a few of which are perenial in nature, drifted water level in the loan season causing difficulty in irrigattion by gravity flow. Such critical situation preludes for taking up of projects for Water Harvesting structuress, Flow level raising by paralled dams in potential streams, River training works, Flood control measures, Sillt retention structures and so on.
- 2.3: During the last few years it is experienced that heavy Soil erosion occours during the short spell of Monsoon storms. This causes huge lose the life, property and standing agricultural crops all over the State.

 During the last Monsoon the State recorded drafting and sinking of quite a good number of habitation areas besides so may major land slides. It caused disturbances to life line surface communications for accountable durations. Such effected and erodion prone areas require Soil Conservation Enggineering measures like retaining wall, Head and cross water drains, culverts etc, for safe disposal of excess water and quick growing tree plantate. tions that present non-perishable produces of high Domestic as well as intermational market demands like Coffee, Rubber, Tea, Passion Fruit, Betel Vines, Arecanuts, cloves

Tung and so on. These crops can grow well in the soil and climatic conditions of the Statte.

- 3.00: The sclope to find larger area in a compact blocked for agricultural land devellopment is hard due to the fact of terrain characteristicss. The potential flat lands are some narrow strips at foot high -backs and river banks, sporadically located. The moderate sloped hill-backs are, therefore, essentially to be brought under terrace lands for profitable cultiwation.
- 3:10: Further, these terrace lambd needs provision with irrigation facilities for higher emops production. This is possible by linking the perennall springs available even from 3-4 Km. distances to small eluster of terrace farms. Minor Traigation does not over this. So, Micro approaches are essential to provide Mini-Irrigation projects.
- 3.20: The terrace constructed in the earlier year required repairs and updating with some uncovered items of works like provision of perifericals like excess water disposal drains, water cushions, smoodding of berms, rises and too drains. Thus a component scheme is prodided as maintenance of terraces.
- 4.00: The experts from Planning (Commission recognised that North Eastern Region under per humid condition has Acid Land problems. So at regular iter also treatments of land under use is necessary. Thus, a provision is made for this area.
- 5.00: The Soil & Water Conservation Department became full fledged Department since late 11986. For emancipating an expected level of service need, iit demands expandions of its organisation and Infrastructures. In the A.P.19-95-96, it is: proposed to Open Darlawn and Tlabung Soil & Water Conservation Divisions with 4 Ranges, Viz-Kakawrdai Bukpui, Mamit and Lungsen.
- 5.10: The existing and the approved Divisions and Ranges are to function with the existing straff.
- 5.20: The existing vehicles are over red and subjected to highly expendive maintenance. This is essential for field inspections, frequent supervisions, Monitoring and evaluations.
- 5.30: The Directorate Office and two existing Divisional Offices in the Aizawl Capital is an similate need.

Procurement of Land conscruction of buildings is included in this Plan. Besidies provision is made to meet minimum requirement of buildings for proposed divisions and ranges.

- 6.00: The Scheme implementation is water shed based. A provision has been made for extension of 3 pilot projects of micro-watershed.
- 6.10: All the projects for 1994-95 are annual and are being completed. No continuing or carried over scheme is included in this plan of 1995-96.
- 6.20: As stated everlier the age long jhum practive has made all the river basins degraded. These require effective treatment by various Soil & Water Conservation measures. Thus, various treatment measures are proposed with conservation tree plantations, coupled with engineering practives like Gully Contrôl works, checkdams, silt detention, stream bank erosion control works etc.
- 7.00: Cash srops live Colfee, Rubber, Tea, Tung etc, are found sucessfully growing in this area. These receives an encouraging response from Jhumia cultivators as an alternative for their sustained asset. So, a proposal is made to take up cash crop schemes at 50% GIA substidy whereby a cultivator will be assisted in kind as well as cash to establish such plantation asset.
- 7.10: To provide competative quality of improved planting materials for such plantation, a nursery development programme is envisaged in this Plan.
- 7.20: A scope for necessary and sufficient inputs for these crops has also been provided here.
- 8.00: The establishment staff inducted during 7th Plan and maintenance of all works created during 7th Plan are committed items in this Plan.
- 9.00: The 1994-95 approved plan outlay is Rs. 370.00 lakes.
- 9.10: Here 12 (twolve) schemes are proposed. Prioritisarion is made on ungency and need based. No new scheme has been put in. The schemes patterns are as per 7th Five Year Plan. So ffar as practicable, the scheme implementation will be om compact watershed basis.

BRIEF DESCRIFTION-OF SCHEMES:

- I. RUNOFF RETARDING SCHEME: By this scheme, land is shaped, developed and reclaimed by way of Terracing and contour bunding to impede the speed and amount of surface flow of watter thereby minimizing soil loss.
- * It is proposed to develop 970 that under this scheme.

II. WATER RESCUEDE CONSTITUTE & DEVELOPEMENT:

Eventhough excess remainall is received during Monsoon season very few streams remain perenial and wide spread scarcity of water prevails in the country during the dry period. This situation necessitates intensive rain water harvesting as a supplemental irrigation to field crops. There-fore, it is proposed to construct 300 Nos. of water harvesting dams stofage tanks to benefit 760 HA during 19950-1960 to benefit 750 Nos.

- III. SOIL CONSERVATION ENGINEERING WORKS: Cultivated lands are subjected to serve erosilon during the Monsoon period. Such areas require intensive protection measures. Under this shheme, various mechanical measures like Gully Control, Check Dams, Gabionic spums, earthen embankment etc, will be taken up to tackee such situation with the benefiting 1250 phases are such situation with the
- IV. SOIL & MOISTURE CONTENTATION: This scheme covers cash crop plantation for analy settlement, Developement of Village Grazing grounds and soil conservation plantation. For soil conservation plantation, economically viable tree saps like Tung will be popularised. By this scheme 500 Ha Cash Crop Plantations, 700 lbg Grazing ground and 500 ha Soil Conservation Plantation will be covered.
- V. ORGANISATION: This comprises of Directions & Administrations. Direction wowers Directiorate with different cells including Engineering Section. With the expansion of the Department and increased work by at Headquarters as well as in the Far Flung Areas, it is extremely difficult to monitor, supervise and survey the project areas with the present capacity. Hence Ind(dl.) posts under Monitoring & Evaluation Cell and I post under Engineering Cell is proposed to be created during 1995-96.

- 14 - I ((CC) - 5

lakhs.

VI.RESEARCH EDUCATION AND TRAINING:

TRAINING: Thee training project started since 1989 for S.C. Field Workser/Field man and Demanstrators, but the teaching staff arre quite insufficient. Training to impart upto date knowledge in the field of Soil & Water Conservation is imperative to very field staff and Officer of the Department. Provission for inservice candidated particularly officers outsidde the state is also imperative.

RESEARCH: This wing iss in operation since 93-94 with a skeletal staff orly, and it is highly essential to induct at least essertial poosts of Officers and staff to run this Wing. This wings is mainly for generating reliable data of Hydro-matterprology, Soil erodibility, sedimentation and so on in the State under different slopes and land use pattern.

Only highly essential posts of 2 Officers and 3 Supporting staff are proposed to be created during 1995-96. These were approved in 1994-95 plan but could not be inducted due to proceedered delay.

for the Tomes of the same someone in as. Ph. Nalakhs.

VII. <u>INFRASTRUCTURE</u> This scheme covers Buildings, Roads and Machinery and Ecquipment.

Opening of new Divisions and Ranges has necessitated provision of accommodation to Officers and staff, Office building and so one. The department also requires Office building in the cappital. The proposed outlay is Rs. 25.00 lakhs for construmction of 12 buildings including compound and headquarter beavy vehicle garrage development and maintenance of existing ones.

Link roads and appproach road of 19 km. has also been proposed for transportation of inputs and products from the main road to culltivated fields with a proposed Θ

and Artifaction

outlay of Rs. 5.00 labbs. To support the scheme implementation, a provision for farm machinery has been included with the proposed outlayy of Rs. 5.00 lakhs.

Total proposed outlay, for this scheme is Rs.-35.00 lakhs.

VII. INPUTS:

Purchase of Fencing maaterials, tools & Implements, fertilizers, pesticides, herbiccides, etc, has been proposed to support various schemee implementation.

IX. ADAPTIVE DEMONSTRATION AND EDUCATION SCHEME: In order to educate cultivators and import awaremess on proper way of terrace cultivation and to test adaptability of different cash crop like rubber, Roffee, Tung, Zozoba and so on, demonstrations on midel terrace and cash crop plantation under various agro-climatic zones of the state has been proposed to improve 580 Harof, 25.00 land.

X. QUALITY & IMPROVED PLANTING | MIATERIAL DEVELOPMENT:

Under this scheme, 15 Ha, Mursery is proposed to be created and maintained for fraising various cash crops for Demonstration Plantations and Private Cultivators.

XI. CONSERVATION AND DEVELOPMENT OF DENUDED AREA:

Roadsides, town avenuess, lard slides etc, are highly denuded area that heeds sattention. It is proposed to sed to solver arriars of 70. HA. under this scheme. It is a constant to the sed to solver arriars of 70. HA. under this scheme.

XII. MICRO-WATER SHED PILOT PROJJECT:

To demonstrate feasibillity & acceptability to public 3 (three) micro-watershedd as a pilot project had been selected and scheme implemeented since 1993-94. It is proposed to developed 500) HA of hand durings to human Plan 1995 - 96.

ANITAL HUSBANDA AND VETERINARY

The Annual Plan for 1905-96 under the Department is drawn mainly for strongthening and improvement of the existing infrastructure as well as addition of few number of new scheme with an objective of achieving the higher targets.

- A. DIRECTION: The scheme under this minor head of development is drawn for strengthening of on going project like construction of Directorate building at Khatla and improvement of subordinate Office building at Khatla.
- B. ADMINISTRATION: Under this minor head of development, a scheme is drawn for strengthening of existing set up like Joint Director Office Lunglei, District Offices at Aizawl, Lunglei, Saiha, Champhai and Kolasib Sub-Divisional Office at Mamit, Lawngtlai, Tuipang, Tlabung and Chawngto. The scheme also includes strengthening of District Office at Serchhip which is being established.
- C. VETY SERVICES & ANI. AL HEALTH: The scheme is drawn to strengthen and improve the existing veterinary hospitals, Dispensaries, Rural Animal Health Centres as well as Central Medicines and vaccine depot. The scheme also envisage improvement of the existing Disease diagnostic laboratory at Aizawl.
- D. CATTLE DEVELOPMENT: Under this minor head of development, a scheme is drawn for strengthening of existing infrastructural set up in order to achieve higher farget.

Contd...

I(D) - 2

- E. POULTRY DEVELOPMENT: The scheme drawn under this minor head of development envisage improvement and strengthening of existing poultry farms in order to achieve higher targets.
- F. PIGGERY DEVELOREMET: In order to strengthen the on going set up and to give incentive to the farmers in big rearing.
- G. OTHER LIVESFOCK to be MENC: Under this minor head of development, a scheme is drawn for strengthening of existing rabbit form for wool producing variety at Champhai and establishment of rabbit form for meat variety at Kolasib.
- H. FEED & FODDER DEVELOPMENT: The scheme drawn under this minor head of development is to strengthen the existing feed and fodder development set up. The scheme also envisage and incentive for agricultural farmers who produced fodder crops and cereals for livestock and poultry.

I. VETY EXTENSION, EDUCATION

TRAINING AND RESEARCH: The scheme drawn under this minor head of development is mainly for improvement of existing school of Vety. Science, Vety. extension wing as well as Training and research work.

J. ADMINISTRATIVÉ I VETTIGADION :

IMPORMATION & STATISTICS: The scheme is drawn to strengthen the existing Vety information wing.

Contd...

K. OTHER EXPUNDITURE

The scheme drawn under this minor head of development is to studigthen the existing hiogas development with. The first the scale of the school
- L. CENTRALLY SPONSORED SCHEMES: Under this, various minor schemes are drawn up as a 50% state matching share basis for improvement of prevention work, livestock production and professional efficiency development etc.
- A. DAIRY DEVELOPMENT: Under this major head of development, schemes are drawn up to improve the existing town milk supply system as well as to extend the dairy town milk supply system for Lawngtlai. The scheme also envisage increase in milk production within the state.

15 24

F 10 4 F

. . . .

FISHERIES

1. DIRECTION AND ADMINISTRATION:

- A- <u>DIRECTION</u>: The Department of Fisheries is separated recently from the Department of Agriculture etc.
- B- <u>ADMINISTRATION</u>: Some new posts which are really essential for the smooth functioning of the district are proposed in the Plan for 1995-96. The scheme also provide construction of staff quarters.

INLAND FISHERIES

2. Fish Seed Froduction-cum-Farming:

The Department of Fisheries, Mizoram has 4(four) Nos. of Fish Seed Farms. The seed production from the seed farms is estimated at 30 lakhs per annum if all farms give maximum production.

The present water area under Fish culture is 1650 ha. and it is expected that during 8th Plan period an additional 350 ha. of water area may be brought under Fish culture and with this target in view, the total fish seed requirement will be 150 hakhs nos. of fish seed. It is therefore, proposed to establish one more fish seed farm at Tamdil.

The existing farms have been silted up and outlets damaged in Zobawk, Tawipui, Darlak and Ngengpui Farms. Hence, improvement of ponds and repairs of outlets required.

3. Fresh Water Aquaculture:

Under Fresh Water Aquaculture construction and development of Fish Pond is taken up in Fish Farmers pond with necessary financial assistance to create water bodies for fish culture. Fisheries Department of the state with its meagre plan provision cannot make much progress for development works. However, the Govt. of India launched Fish Farmers Development Agency (FFDA)

programme for construction and development of fish bonds. Under FFDA(CCS) programme, the Govt. of India sanctioned 5(five) units of FFDA for Aizawl West. Aizawl East, Kolasib, Lungled and Chhimtuipui Districts. Financial assistance for these FFDA units are being received every year from the Govt. of India for Fish Fond Development and other relevant works as duly approved by the Govt. of India. The State Govt. has to contribute 50% state matching fund for FFDA under CSS programme and these funds are to be released to the FFDA units for implementation.

A provision is also made for procurement of fish seeds for sale at 50% subsidy and for supply of fish seeds for sale at 50% subsidy to fish farmers.

4. Development of Riverine Fisheries:

The riverine fisheries in the State is one of the main fishery resources having total areas of about 6,000 ha. with total length of 1,750 kms. The level of production from this resources is rather low due to deterioration of aquatic resources and considerable damage done over the years by killing of fishes irfespective of its size. In order to revive the fisheries in the river, the conservation and improvement of the existing resources of capture sector in the State is of paramount importants.

5. EXTENSION AND TRAINING:

Information, Extension & Training :-

Information and Extension services is the basic means for transfer of technology to the farmers in order to raise the fish production. The present productivity of fish flesh and seedling is not at par with the latest technology of fish farming.

The scheme envisages publication of half yearly magazine, booklets etc. A provision for tech-

nical studies and training fisheries science is also
made in the plan.

It is also proposed to maintain 4 nos. of existing Demonstration farms.

6. FISH MARKETING:

poor in respect of infrastructural facilities for storage and preservation of fish and transportation. This shheme envisages development of infrastructural facilities like setting up of Ice Plant at Bilkhawthlir.

The scheme also envisages 50% state matching contribution for establishment of Cold Chain Scheme (CSS). The Govt. of India had already sanctioned Rs. 28.00 lakhs being 50% Central Share for the scheme during the year 1993-94. The State Govt. has agreed to contribute 50% of State matching fund vide No.B.30020/1/92-AGRT dt. 30.8.94.

I(F) - I

ENVIRONMENT AND FORESTS MIZORAM

BRIEF DESCRIPTIONS OF SCHEMES:

1. DIRECTION & ADMINISTRATION:

A.DIRECTION: This is on-going scheme, no new post is proposed to be created.

B. ADMINISTRATION: This is on-going scheme.

II. STATISTICS & FORESTRY RESEARCH:

A.STATISTICS: This includes collection, compilation and publication of statistical data. This also included monitoring and evaluation of on-going Plan and Centrally Sponsored Scheme

B. FORESTRY RESEARCH: Development of Silvicultural practices of various indegerous species in different eco-climate conditions is primary objective of the Scheme in addition to other research work in various Forestry subjects.

III, SURVEY AND UTILISATION OF FOREST RESOURCES (WORKING PLAN):

Working Plan of Kolasib Forest Division will be completed on during 1995-96.

IV. COMTUNICATION AND BUILDING:

- A. COMMUNICATION: Under the scheme, it is proposed to construct approach road, to various field offices in remote areas. Forests Rest House, important plantation centres and extraction centres for important forest produces like sand, stone, timber etc.. In addition maintenance of existing roads will also be taken up. This is very necessary as most of roads are effected by frequent landslides.
- B. BUILDING: Followings are the important works to be taken up under this scheme during 1995-96.
- 1) Part construction of C.F. Office complex at Lunglei.
 - 2) Part construction of Thenzawl Forest Complex.
- 3) Dismentling of PCCF's Residence and construction residential complex for PCCF and two CF's stationed at Aizar......2/-

- 4) PCCF's Office comples furnishing (balance).
- 5) Field structures at various location.
- 6) Maintenance of existing building.

Proposed financial outlay for this scheme for 1995-96 is Rs. 65.00 lakhs.

V. FOREST CONSERVATION AND DEVELOPMENT:

A.FOREST PROTECTION: This includes various protection measures like patrolling, checking of illegal exploitation of forests encroachments, seizing illegally felled/collected forest produce and transporting in to safe custody, protection of forest from fire, grazing and other types of biotic interferences. Development of appropriate infrastructure is also necessary for successful implementation of this scheme. This includes proper communication system, mobility of field staff, fencing of impotatant forest areas, watch towers, fire fighting equipment etc.

3. FOREST CONSOLIDATION: To protect reserve forests from various types of encroachments it is necessary to demain the reserved forest areas proper ly. Approximately 1500 Km of boundary of reserved forest was demarcated during last three years. It is proposed to permanently demark reserved forest in Mizoram during 1995—96 by way of erecting permanent concrete pillars.

VI. FOREST PRODUCE (UTILISATION):

This scheme includes marking of trees for thinning operations, felling of tress in the areas to be submerged under Hydel Projects, establishment of a saw mill in Aizawl for Departmental felling to control market price and illegal feeling.

VII. AFFORESTATION: Followings are the major items.

A. FUELWOOD FODDER PLANTATION PROJECT: This has 50% plan component and 50% Central Share 8,000 ha of area is to be afforested under this scheme.

B. SOCIAL FORESTRY: Under this scheme it is proposed to provide at least 1 no. permanent nursery under each divisions for 1995-96

VIII. EXTENSION AND TRAINING:

A. EXTENSION: Objectives of this scheme are created public awareness about the importance of Environment Forests and Wildlife and to motivate them to protect the Environment & Forest Plants more trees, preserve Wildlife etc, this is done through Audio-Visual media by Fublication of posters, pamphlets, etc and celebration of Vanamahotsava, world forestry day, Warld Environment Day, Wildlife Week etc,.

B. TRAINING: Training of Field Staff at Forest Education and Research Institute, Bethlehem, Training of Rangers, Assistant Conservator of Forests, Surveyors, etc, outside the state are important aspect of the scheme. Important items of expenditure development of training and sport facilities, hostels etc, at FE & RI and Stipend for trainees going out of Mizoram for Training.

IX. WILDLIFE PRESERVATION: This scheme includes development of infrastructures in the existing National Parks (Murlen & Phawngpui) and Wildlife sanctuaries (Dampa, Ngengpui, Khawnglung) and development of Mini ? Zoo at Aizawl, and Thenzawl Deer Park with the involvement of YMA in the preservation of wildlife, the scheme has assumed a moreimportant dimension and public awareness is being created through YMA with the assistance of YMA. With the declaration of Dampa Wildlife Sanctuary as Project Tiger, it is proposed to created the office of Project Tiger which will include creation of post of Director, Project Tiger in the pay scale of Rs. 4500-5700/- alongwith othem establishment staff. 50% of salary on wstablishment will be borme by Cehtral Government. It is proposed that post of Chief Wildlife Warden in the pay scale of Rs. 4500-5700/- created during 1994-95 will be redesignated as Director, Project Tiger.

I (F) - 4

Because of the increasing importance of Wildlife and works thereof, it is proposed to create office of Chief. Wildlife Warden in the pay scale of Rs. 5900 - 6700/- along with the establishment staff.

- X. OTHER EXPENDITURE: This includes various aminities to staff like drinking water facility. Electrification, pit lattines, labour sheds, sport facilities, etc..

 Those facilities are very important keeping in view the fact that forest staff work in remote places far away from modern facilities.
- XI. RECREATIONAL FORESTRY: Creation of recreational forestry awareness centres at various places and improvement of existing centres are includes in the scheme. Creation of Park at Thenzawl is another important item of works on which government is emphasizing.

I(G) -1

COOPERATION

INTRODUCTION :

The 8th Plan strategy is to strengthen and restructure the Co-operative Movement broadly aiming at Socio-Economic Development of the Weaker Sections of the people. Particular stress is laid to supplement the developmental programmes taken up by the Government under "New Land Use Policy" through schemes involving people active participation in the Plan process. A new direction is sought to be given in the Co-operative Movement by building up an integrated structure characterised by increased production/productivity, credit flow, availing of funds from National Agencies, storage and marketing.

The Annual Flan for 1995-96 is drawn with a view to implementing successfully the major thrust of the 8th Plan. Emphasis is given to achieve better result in the following .areas:-

In order to achieve the above objectives, stress is also given this year to building proper infrastructure and assets of the Department.

TRAINING: Training is an essential inpur for strengthening the Cooperative Movement and for achieving an efficient management. Training is necessary to be imparted to the Cooperative Officers as the Cooperative Management required a specific knowledge which must be acquired. The training courses that the Cooperative Officers and staffs normally undergone are; Higher Diploma in Cooperative, Cooperative Banking Courses, Audit and Accounting Course, Cooperative Industry, Handloom Cooperative Courses etc. The required training were taken from the Cooperative Training Colleges outside Mizoram. Training also includes Seminars, Workshops, Study Tours and other types of trainings such as organised at A.T.I, Aizawl. It is intended to detail the Cooperative Officers and staff to undertake these trainings this year.

AUDIT OF COOPERATION

Under the establishment of the Chief Audit Officer, Statutory Audit. Liquidation of Cooperative Societies and Statistical information are undertaken. This establishment maintain Accountant, UDC, LAC and Driver including Chief Audit Officer himself.

MULTI-FURPOSE AND RURAL COOPERATIVE :

Under this category, Cooperative Societies such as Service Cooperative, Multi-purpose Cooperative Cantten Cooperatives and Consumer Cooperatives are included.

CREDIT AND BANKING COOPERATIVE

- LAND DEVELOPMENT BANK: Stress is laid to initiate flow of credit for agriculture and allied activities. Major steps have been flow taken up to improve the economic donditions of the rural poor for this. Role to be played by the Banks are important and vital. The introduction of ICDP, Special Schemes, MSFDC etc. required to have good functioning banks to chanelise all these schemes. As a result to be strengthened, to cater to the need of the farmers in issuing loans as working capital for looking after their farms, a separate Land Development Bank is intended to be opened during the year 1995-96.
- Apex Bank was established in the year 1982. The State Cooperative Bank is functioning with two tier Cooperative Credit Structure in the State with the PACS and LAMPS operating at the base level. The Mizoram Cooperative Apex Bank Ltd. is functioning through a network of 9 branches which covers all the 3 Districts of Mizoram. Besides these branches, the Bank is also operating with one Evening Branch at Dawrpui, Aizawl. The main branch of MCAP is located in a rented four stories building. The monthly rate of rent is Rs. 45,000/= and Rs. 5.40 lakhs is spent every year. This amount easts away the major chunk of the Bank's income.

- Bank has been taking up activities to providing credit to urban poor for non-farm activities. MUCO Bank has also been appointed as an amelising agency by the National Scheduled Caste and Scheduled Tribe Finance and Development Corporation(NSFDC) and the service rendered by MUCO Bank in this regard is commendable.
- 4. LAMPS: Large Sixed Agricultural Multipurpose Cooperative Society(LAMPS) is a Credit Cooperative functioning in the Block Development Level. In Mizoram the flow of Rural Credit is still poor for absence of proper land tenure system and primitive mode of Jhum Cultivation. However efforts are under-way to overcome these constraints by planned switch over from Jhum to permanent cultivation (Wet rice cultivation) by the Government. It is intended to strengthen the LAMPS and propel it to play important role on this.

Secondly, with the reduction of subsidy in different fields by the Government of India, the fertilizers that can be distributed by Government of Mizoram cannot now meet the requirement of cultivators of Mizoram. As is practised in other States of the country, LAMPS have to take up procurement and distribution of fertilizers to the cultivators. It is therefore proposed that LAMPS may be provided financial help.

5. ASSISTANCE TO OTHER COOPERATIVE: Under this scheme, there are two types of socieities namely, Cooperative Oil Processing and Extraction and Cooperative Storage.

a) Cooperative Oil Processing and Extraction:

Mizoram produce quite a large quantities of oilseeds. The oilseeds were sold normally to outside the State. However, Growers are facing problems and times as the prices outside the State are fluctuating as prices determined by demands and supply position in the terminal market, Growers of Mizoram Oildeeds have to resort to distress sale on some occasions. Nor only this, while the oilseeds are exported to neighbouring

ates in large quantities gr

States in large quantities, graded edible oils are imported for consumption from outside the State. To remove this contrasting position and aiming at progressively attaining self-sufficiency in edible oil production, the Cooperative oil processing and Extracting Societies have been organised and functioned. Another oil expeller with 9 MT per day capacity at Zuangtui has been installed and commissioned by MIZOFED. At present this oil-extracting unit cannot achieve result as expected due mainly to lack of working capital required.

b) Cooperative Storage: To help the poor growers of Mizoram in getting renumerative prices in their surplus agricultura produces like ginger, chillies, oranges etc. the syt. of Mizofam usually arranged procurement of these items through Cooperative Institutions like MIFCO, MAHCO etc. by setting up of produrement centres in the rural areas. The problem faced in this undertaking are lack of storages. To meet and remove these drawbacks, storage programme has been taken up under the schematic pattern of NGDC assistance.

6. AGRICULTURE CREDIT STABILISATION FUND:

Rs. 5.00 lakhs provision is made to be given to Apex Bank for its agriculture Cradit Stabilisation fund during the 8th Plan period. So far Rs. 1.50 lakhs has been provided to Apex Bank.

7. ASSISTANCE TO PUBLIC SECTOR & OTHER UNDER-TAKING:

Under this Category, MIZOFED, District Marketting, Consumer Cooperative Societies, Cooperative Training and Education are included. Out of these, two State Level Societies namely MIZOFED and Mizoram State Cooperative Union are taken out for providing Additional Financial Assistance.

DRAFT ANNUAL PLAN 1995-96 COMMISSIONERATE OF RURAL DEVELOPMENT

INTRODUCTION: There are at present 20 Rural Development Blocks covering the entire State. The Depart. ment of Rural Development at the State level executes its schemes and programmes for the upliftment of the rural people through these 20 Rural Development Blocks. The development activities in the Blocks are restricted to the most essential and pressing needs of the rural community that can be implemented through Public participation and initiative without technical hands.

The total ourlay approved for 1994-95 is Rs. 3,059.00 lakhs. Out of which, Rs. 229.00 lakhs is for normal Rural Development Programme and Rs. 2,830.00 lakhs is for implementation of New Land Use Policy. Besides, the normal plan programme, this Department is also the Nodal Department for Centrally Sponsored Schemes like IRDP etc. and a new programme called Border Area Development Programme (BADP).

ITEMWISE DESCRIPTION

DIRECTION & ADMINISTRATION: From the fag end of the Seventh Five Year Plan, the NLUP which was hitherto implemented by the seven Development Departments have been placed under Rural Development Department. As a result of this and with a view to effectively speed up the implementation of the various programmes, the Directorate of Rural Development has been upgraded to a Commissionerate and a number of new posts from the

Block to the Commissionerate have been created and manned.

Since the existing manpower still cannot cope with the resultant increased volume of works, it is proposed to further strengthen the Department during 1995-96.

- 2. <u>SOCIAL EDUCATION</u>: The actual expenditure incurred under this scheme during 1994-95 is Rs. 75.00 lakhs for construction/completion of 182 Community Halls. With a view to create durable assets, the Department envisages to complete construction of Community Halls-cum-Indoor Stadium at: 1) Lunglei called 'Saikuti Hall' at an estimated cost of Rs. 145.23 lakhs; 2) Kawnpui Hall at an estimated cost of Rs. 28.00 lakhs and; 3) Vanhnuailiana Run at Champhai estimated at Rs. 75.00 lakhs during 1995-96.
- RURAL COMMUNICATION: Mizoram has the most variegated hilly terrain in the eastern part of India. The peculiar topography of the State and the age old babits of the people to locate their villages on the hilly terrain makes it imperative to construct vehicular roads to link all villages for the all-round development of the rural populace. It is also considered essential to construct and maintain internal roads and culverts in the blocks which are rendered unuseable due to frequent wash outs in the monsoon. The provision of Rs. 17.00 lakhs during the current year is fully utilised for the construction of 24.29 Kms of jeep road. During 1995-96, it is therefore proposed to construct jeep roads and culverts.
- 4. HOUSING FOR PROJECT STAFF: The main object of this scheme is provision of quarters to the staff

1 /

posted at various Block Headquarters and construction/extension of Block office building.

Due to the implementation of NLUP and upgradation of the Department, a number of new staff have been appointed and most of them are now without any quarters facing great difficulties as private buildings for hire are not readily available. Moreover, most of the quarters and offices were constructed during 7th Plan period and all of them need repair and re-construction. Hence, reconstruction of old and dilapidated quarters and offices is extremely necessary.

The actual expenditure incurred during 1994-95 under this scheme was Rs. 22.00 lakhs for construction/renovation of 25 nos. of Block buildings.

- The Community of th

5. RURAL HOUSING: This is a family oriented scheme initiated from the year 1988-89. The object of this scheme is to provide GCI Sheets, free of cost to the rural families who are below the poverty line. The total amount utilised under this scheme up to 1993-94 is Rs. 840.00 lakhs and a total of 13083 families have benefitted. During 1994-95, Rs. 100.00 lakhs is being spent for purchase of 6524 bundles of GCI Sheets which is to be distributed to 1655 rural poor families.

According to the survey conducted by all the 20 Blocks during the year 1991, there were 19,470 rural families who are eligible to receive assistance under this scheme. Due to the growth of population, it is felt necessary to conduct re-survey for selection of eligible persons for which all 20 BDO's are being instructed to carry out survey within their respective Blocks.

During 1995-96, it is therefore proposed to purchase 6624 bundles of GCI Sheets to cover 1656 rural

poor families

11. C

6. NATIONAL PROGRAMME ON IMPROVED CHULHAS: The Department is the nodal department for this Centrally Sponsored Scheme which the at accomplishing: 1) Energy/Fuel-wood/Forest Conservation: 2) Employment generation 3) Elimination/reduction and smoke, drudgery and health hazards particular to some and children and 4) Ecological/taking Science & Technology to the hearth of the house-holds.

This programme has been implemented through 100% Central assistance. However, from 1993-94 onwards, the Govt. of India has decided that the cost of implementation of the programme be shared between the State and the Govt. of India. As such, for an overall tentative target of 4000 chulhas during 1994-95, the cutlay approved as the State's share is Rs. 3.00 lakhs.

During 1995-96, the Department therefore proposed to procure 4000 chulhas

7. N.L.U.P.: N.L.U.P. which aims at complete eradication of wasteful traditional shifting cultivation and providing alternative permanent settlement of jhumia families was implemented on the pattern of Aibawk Jhum Control Project from the year 1990-91.

Implementation of NLUF Programme which was first started within Thingsul, Reiek, W.Phaileng and Lungsen from 1990-91, covering 17,159 families was completed in its fourth year. Likewise, Thingdawl and Zawlnuam R.D. Blocks which adopt the programme from 1991-92, covering 16,527 was completed in its fourth year. Though designed to be completed within three years, it would not be done due to financial constraint.

During the year 1994-95, two new blocks viz; Lunglei, Khawzawl, Lungdar Part-II and Marpara 'S'

- 34 -II(1) - 5

villages were covered by the programme, alongwith the empletion of Serchhip and Lungdar Part-I taken up during 1993-94. Blocks taken up during 1994-95 are framed to be completed within a span of 5 years.

During the year 1995-96, it is enwisaged to take up Nisapui Village as Model Village, which will be manned from Commissionerate directly. For this, a separate schemes is also prepared, covering about 125 nos. of families.

STATE LEVEL MONITORING CELL

DRAFT ANNUAL PLAN 1995-96 FOR SPECIAL PROGRAMME FOR RURAL DEVELOPMENT AND RURAL EMPLOY-MENT UNDER STATE MATCHING SHARE OF CSS.

Introduction:

There are various poverty alleviation and employment generation programmes jointly sponsored by the Rural Development Department. Those programmes are: Integrated Rural Development Programme(IRDP) and Allied Programme: Rural Employment such as Jawahar Rozgar Yojana(JRY); Employment Assurance Scheme(EAS) and Centrally Sponsored Rural Sanitation Programme(CRSP).

The Plan:

The Centrally Sponsored poverty alleviation programmes may be categorised broadly as (1) Special Programme for Rural Development and (2) National Programme for Rural Employment.

The Special Frogramme for Rural Development comprises of the following sub-programmes viz (a) IRDP, (b) TRYSEM(including training for youth and infrastructural assistance to Training Institutions); (c) DWCRA (d) Strengthening of Block Level Administration (e) SLMC & IAC.

The National Programmes for Rural Employment called The Jawahar Rozgar Yojana(JRY) includes such other sub-programmes and Million Wells Scheme, Indira Awaas Yojana.

Govt. of India has introduced a new scheme known as Employment Assurance Scheme (EAS) from 2.10.93.

Centrally Sponsored Rural Sanitation Programme (CRSP) has re-introduced by Govt. of India from 1993-94.

The State Level Monitoring Cell formulated the plans and monitoring and evaluation of the imple-

LIBRARY & DDCUMENTATION CERTIC National Institute of Educational Planning and Administration. -36 - 11(B) - 2

mentation of these programmes and conducts internal audit in respect of the accounts of the DRDAs and the Blocks.

the main work of the Cell is field visit for conducting field monitoring and evaluation of the various works taken up by the department,

1) Subsidy to DRDAs (IRDP): The Annual Plan privileges lifting of the 2200 rural Scheduled Tribes amilies in 20 Blocks from below to above the poverty line by giving to them productive assets to the extent of Rs 5,000/- per family.

br.

tr. no de to i

2) Strengthening of Block Level Administration:

This is a continueing arrangement under which the pay and allowances of the additional Block level staff required for effective implementation of IRD and Allied Programmes, and approved by the Govt. of India, is shared at 50:50 ratio by the Govt.of India and the State.

Development of Women and Children in Rural Areas (DWCRA): Mizawl District, one of the three Districts in the State was covered under this scheme during 7th Plan, Lunglei District during 1991-92 and Chhimtuipui District during 1992-93. The salary of the func-

tioneries in Aizawi District thenceforth have to be borne entirely by the State and by the UNICEF in Lunglei and Chhimtuipui District. The grants-in-aid to the targetted 135 groups in all the Districts are to be borne equally by UNICEF, the Centre and the State.

4) Training of Rural Youth for Self-Employment:

RURAL EMPLOYMENT FROGRAMME :

- 1. Jawahar Rozgar Yojana (JRY): The primary objection of JRY is generation of additional gainful employment for the unemployed and underemployed persons, both man and women, in the rural areas. The secondary objectives are:
- i) Creation of sustained employment by strengthening rural economic infrastructure and also assets in favour of rural poor for their direct and continuing benefits.
- ii) Improvement in the overall quality of life in the rural areas.

During the annual Plan 1994-95, Rs. 80.00 lakhs was provided as the State Matching Share whereas

- 368; --II (IB)) - 44

the actual qurement of fiund ffcor the State Matching Share is Rs.1075 lakhs aimed! thee balance amount was diverted fortte Matchingg numcheerr EAS with the permission of Planne Department. Thhee pattern of sharing between the inte and the !Sitates is on 80:20 basis. ... cr 00 1-

Emoyent Assurance Saccheme (EAS):

Go. of India hass iinterroduced a new scheme known as Empyrnt Assurancee Sichheme (EAS) from 2nd October, 199 Expenditure com thhhis account is to be shared equal of the same lbasis; as that of JRY. The primary object of the EMSS is ttto provide gainful emplohment din the lean taggricuulture seasons in manual worksn ural areass too thhoose who are in need of and who a seking emplicommentate. The secondary objective is caton of ecomcomic infrastructure and community astsfor sustaiirned emmplohment and development. The term of the Adams of . .

Ceraly Sponsored Runral Sanitation Programme(CRSP)

Eaie, the programme wwas implemented by both the FHE ndR.D. Departtmeent.. It has been decided now that thiprgramme is too be iimplemented by R.DDepartment on. As in the clase cof IRDP and allied programmes, t attern of samarinng between central and the State is0:0 basis.

IEIE (C) - 1 LL AND REFORMS

INTRODUCTION :

In Mizcorram Land TenuraSyem conferring proprietory or stattcu.torryy rights tothindividual on the land for agricuull turres and non-ariltural purposes (House sites) has bbosem iimtroduced rothe District Council period. Jhuummimgg satill remansha pradominant agricultural practiics ouff the peoplea there had been no significant channage iin the patter land management then prevailing in spire-imid pendencepied. With implementation of JJthum -Constrol measur in the form of New Land Use Policyy, there a sumis fails have started permanent cultivations and beair land lieu of jhuming, particularly in them R.D. Wilocks saled for implementation of NLUP and fframillings who do whave lands are also allotted landss 'ffor ppermanent olvation. A number of these families bheaver noow abandone uming and the NLUP is gaining mommeemtuum. Besides, noe towns House Sites are planned iis avvacilable fre hds or acquired lands for allotmentt to the poor andndy families.

The whoolla eccttrivities ofth Department of Land Revenue & Setttlemeint in Mizoro a, therefore, closely linked up whith of the programs for Land Reforms. As a result of the ffest cothenges takinglace in the pattern of land mannaage meernt, the Deprent has to be correspondingly streamy the erned and equal to carry out its programmes on ability transmit of land stlement, survey and preparation of claimed insecords.

CONSTRABILNITS

Lack off abcomes of relibland proper Land Records based on Claadesttrel Survey she of the main constraints in the LDDapttt. Only 900 qk of agriculture potential area (WRC)) has so far bearcared under Cadastral Survey whichho was coarried on ba handful of Tachn. staff availabbale iim the Departs since 1986-87.

The ministriculative infrastoucture is now too inadequate toop with the pressures and changes taking place in a particularly in the real ameasess.

A Maer Plann n was, therefore, formulated by an expert enged by tilthe Govt.of Mizoram in 1990 for strengtheninof the: [Deptt. and for preparation of land records sed on: [Cadastral Survey. As per the Master Plan the nimum rrerequirement of fund for covering the entire ate of ' [Mizoram within the next (10) ten years is Rs: OU/- lealakhs. The Estimated requirement for the fir year ii is Rs: 97 lakhs and Rs: 101 lakhs in the second ye and soo o on.

--41 - 1

MEDIUM IRRRRIGATIO

INTRODUCTION:

In Mizoram, mainly sightful cultivation is practice for production of fffood gras and other agriculture products. This methonoid caus deforestation and erosion of soil in the hilllly areast a very fact rate and adversely effects the Monorest le.

Exploration of available pential for permanent cultivation is very importanent. Recand other crops cultivation in flat lend wirith irration facilities will not only increase food improducton, but will also help reduced of shifting cultilativation. Abolition of shifting cultivation would reduce erosin and forest revenue will increase.

is compared to other state isss very imited due to the hilly terrains. Most of the librington schemes come under minor irrigation projected which is located near Sorthhip Chamdur Valley and PPPalak Le Valley in the southern part of the state. TTTiau Valey in the eastern part and border areas with Calaachar at the only likely areas which may come under membedium ligation project. The survey and investigation and for Matalley had been undertaken by Central Water C CCommission and was completed and project report finalised I during 993-94. The investigation work was done for at a multi-pose project i.e. for Irrigation, Micro-Hydel approject and Water Supply Schemes.

The Chamdur Villey Promoject survey and investigation approved outlay of Mass. 5.00akhs during 1994-95 will be fully utilised.

- 42 -IV (B) - 1 MINOR IRRIGATION

I.DIRECTION & ADMINISTRATION: ()

It is expected that a new Minor Irrigation Division at Saiha with 2 (two) other Sub-Divisions at Lawng-tlai and Chawngte would have taken its shape including opening of a Sub-Division at Zawlnuam

II. WATER TANK PROJECT:

So fer 580 Nos, and individual water tank have been consturcted which have been found very useful for production of Seasonal Crops, This will be continued.

III. RIVER LIFT IRRIGATION:

The on-going Lift Irrigation Project at Saikhumpui for years will be completed and Water Pump Sets to farmers of individual holdings will be issued.

IV. DIMERSION SCHEME:

It is proposed to complete 17 (seventeen) on-going Projects during the year, 07(seven) Projects will be spill over, 18 (eithteen) New Projects will be taken up.

V. OTHER EXPENDITURE(SPRINKLER, HYDRAM, ETC.,):

 $\ensuremath{\text{O}_{n}}$ demonstration $\ensuremath{\text{\textbf{S}}} prinkler, \ensuremath{\text{D}_{r}} ip$ System will be tried.

VI. GROUND WATER DEVELOPMENT:

In Co-ordination with the Industries Department boring is planned to be done in some flew selected areas particularly to feed Winter Crops.

VII. COMMAND AREA DEVELO: MAT PROGRAMME:

This scheme has been started in a small waynat Chemphai (Bilkhawthlir) which required a very detailed contour survey of 5 Cm. intervals. This will be continued to improve the technologies of Land Preparation is Command Area Development.

POWER

Itemwise Description of Schemes:

- 1) Renovation & Modernisation of Power Stations:

 The various schemes may be briefly described as below:
- a) R & M of Aizawl, Kolasib & Luangmual Diesel Power Stations: This scheme was started in 1991-92 at an estimated cost of Rs. 214.00 lakhs. With Rs.34.00 Lakhs expenditure during 1994-95, scheme will be partially completed by 3/95. Total expenditure anticipated by 3/95 is Rs. 193.89 lakhs leaving a balance of about Rs. 20.00 lakhs when compared with the estimated cost. While works at Aizawl and Kolasib have since been completed putting back 1070 KW diesel generating capacity into operation, works of Luangmual Power Station could not be even taken up due to very high tendered cost for overhauling of 28800 KW'YANMAR' DG Sets. As per the current indications it would oost about Rs.150.00 lakhs. Therefore, it has been decided to close the present scheme and frame a new scheme only for Luangmual diesel Power Station.
 - b) R & M of Luangmual Diesel Power Station:
 The new scheme is under preparation.
- c) Rehabilitation of 11 Diesel Power Stations in Rural Areas: The estimated cost of this scheme is Rs. 171.00 lakhs for major overhauling of 16 DG Units, at 11 Diesel Power Stations. Rs. 120.00 lakhs is being provided by the Power Finance Corporation and an expenditure of Rs. 50.00 lakhs is expected under State Plan during 1994-95. Works have been taken up and out of total 16 Units in the scheme, overhauling of 6 units (6 X 250 KW) has been completed and same put into operation.

d) R.& M of Mini-H'del Power Stations:

Works have been taken up at 3 Power Stations during 1994-95 with an anticipated expenditure of Rs. 15.00 lakhs. It would continue in 1995-96.

2. **GENERATION:**

a) Diesel:

Augmentation of Niesel Generating Capacity of Luangmual Power Station by 5 MV:

The estimated cost of the scheme is Rs.730.00 lakhs. Freliminaries have been taken up during 1994-95 and expenditure expected is Rs. 35.00 lakhs. Tenders are under finalisation and it is targetted to complete the works by end of 1995-96 so as to reduce the gap between demand and availability of power at Aizawl.

b) Hydel: The following project will be taken unduring 1995-96:-

| Name of the Project | upto 3/94 | Outlay 1 9 94995 | Remarksl |
|-----------------------------------|--------------|----------------------------|---|

- J) Transmission and Distribution
- A) Transmission
- a) 7th Plan Transmission Scheme

Implementation of 7th Plan Transmission Siname which includes old 132 KV Lines totaling 369 Kms with 3 Nos 66 KV and 4 ຕວສ 33 KV Substations is in progress. One line Zemabawk - Rhawzawl (87 Kms) is already completed and the other line Zemabawk - W.Phaileng (60 Kms) is also completed except for 9 locations for which there is land disputed being sorted out. Works on remaining 4 lines i.e. Serchhip - E.Lungdar (45 Kms), Lunglei - Lawngtlai (57 Kms) being financed by NEC Serchhip - Marpara (85 Kms) and Lunglei - Lungsen (35 Kms) with associated 66 KV swbstations at W.Phaileng, Saitual, Khawzawl and 33 KV Substations at E,Lungdar, Marpara, Lawngtlai and Lungsen are in progress. All these works except Serchhip - Marpara line with 33 KV Substation at Marpara are expected to be completed by 3/95. Revised target for Marpara line with S/S is now fixed during 1995-96.

$V - \Delta$

The estimated cost of the scheme along—with expenditures incurred may be given as below:—
Rs. lakhs

Estimated Cost - Rs 2463.36 (Orgl)

- Rs 4033.84 (Rev)

Loan agreement from PCF- Rs 2456.00

Expenditure upto 3/94 - Rs 2335.69 (State Plan)

- Rs 1567.01 (P.F.C)

Total- Rs 3902.70

Anticipated Expenditure Rs 150.00 (State Plan) during 1994-95 - Rs 256.00 (PFC)

Outlay proposed for

1995-96

- NIL

As may be case, revised cost is also likely to be exceeded which is mainly because of delay in completion of works. And reasons for delay is problem with contractases. However, all efforts are being made to complete the works during 1995-96. No outlay has been proposed for 1995-96 as the remaining expenditures are proposed to be met from the PFC loan.

b) 8th Plan Transmission Scheme:

The scheme was approved in Jan'94 at an astimated cost of Rs 5868.00 lakhs which includes Rs 1149.00 lakhs interest during construction. Survey works were taken up during 1993-94 in respect of some lines proposed in the scheme and has since been completed. Efforts are on to obtain PFC loan for this scheme too. Anticipating the PFC loan, the following Lines will be taken up during 1995-96.

- 1) Saitual Derlaun (50 Km)
- 2) Khawzawl Lungdar 'E' (50 Km)
- 3) Khawzawl Mgopa (60 Km)
- 4) LILO of Luanmual (PG) Zemabawk(Mizoram) at Luanqmual (New) Sub-Station.

. . .

Sub-Stations:

- 1) 1 x 12.5 MVA, 132/33 KV Luangmual S/S
- 2) 2 x 2.5 MVA, 33/11KV Darlawn S/S
- 3) 2 x 2.5 MVA, 33/11KV Ngopa 5/S
- 4) 132 KV Bairabi S/S

B. Distribution:

The following schemes will be taken up during 1995-96.

- 1) 33KV Lines
- a) Saitual Thingsulthliah 25 Kms

 @ Rs 1.84 lakhs per Km Rs 46.00
- b) Zamuang Kawrtethawveng 30 Km

 @ Rs 1.84 lakhs per Km Rs 55.20 lakhs
- 2) 11 KV Lines 46 Km @ Rs 1.33 lakhs per km.
- 3) LT Lines 69 Km @ Rs 1.08 lakhs per Km
- 4) 33 KV Sub-Station:

Allocation shall cover 3 nos 33 KV substations in progress under REC and 33 KV S/Stn. at N.Vanlaiphai and 33 KV portion of on-going Saitual S/5.

- 5) Distribution Sub-Stations (11/0,4 KV)
 - 250KVA 15 Nos @ Rs 1.16 lakhs 100 KVA -18 Nos @ Rs 0.84 lakhs 63 KVA- 10 Nos @ Rs 0.71 lakhs 25 KVA- 2 nos @ Rs 0.51 lakhs
- 6) Street lights 600 nos Rs Rs 1361/-each
- 7) Service connections -2000 nos @ Rs 664/-

C. Master Plan for system Improvement in Aizawl Town:

Phase-I scheme was approved in 6/86 at an estimated cost of Rs 357.19 lakhs. Most of the work of Phase-I were completed by 90-91 and simultaneously Phase-II works were also taken up. A composite scheme including the work of Phase-I & II was prepared at Rs 1194.00 lakhs.

By the end of 1994-95 scheme is proposed to be closed though some of the works mainly underground Distribution lines will remain uncompleted. The scheme is under implementation from 1986-87 and it is felt that a new scheme needs to be framed after fresh studies of the system at Aizawl. The exercise is being taken up shortly and it would take quits sometime before the project report is ready. Therefore, no outlay is proposed for 1995-96. Financial aspects may be summerised as below:-

Estimated cost 357.19 lakhs
Expenditure upto 3/94
Expenditure upto 3/94 963.00
Outlay for 1994-95 100.00
Outlay proposed for 95-96 N I L

4) GENERAL:

a) Surv**sy** & Investigation of Hydel Project

An outlay of Rs 150.00 lakhs is approved during 1994-95 out of which Rs 125.00 lakhs is for investigation of Kolodyne being done by the Central Water Commission and remaining Rs 25.00 lakhs for investigation of Mini/Micro Hydels by the department.

. Field investigations of Kolodyne Phase-I have been completed and DPR is being prepared. Estimated cost of investigation of Kolodyne is Rs 498.00 lakhs. Upto 3/94 Rs 155.93 lakks was spent.

b) Construction of buildings:

Works for construction of a four floored RCC building to accommodate one Circle Office, two Divisional Offices and two Sub-Divisional Offices is in progress. The work was taken up in 1991-92 at an estimated cost of Rs 128.54 lakhs. Expanditure incurred upto 3/94 was Rs 76.81 lakhs. An outlay of Rs 60.00 lakhs is approved in 1994-95.

S) Rural Electrification:

Out of 698 inhabited villages as per 1991 census 538 villages were electrified upto 3/94 giving

about 75.6% rural electrification. Of the 528 villages electrified, 35 are through non-conventional method. And 57 villages are such which stand electrified both by conventional and non-conventional method.

With the electrification of 50 villages by conventional method and 14 villages by non-conventional method anticipated during 1994-95, total number of electrified villages by 3/95 is expected to be 592 (about 85%) leaving 405 villages to be electrified from 1995-96 onwards.

Meanwhile, it is comtemplated to achieve cent percent electrification for which a proposal is with the Govt. which embunts to Rs 15.09 crores. As a result cannot be accommodated in the State Plan due to total financial limit imposed by the State Govt. no outley is proposed for 1995-96. However, as soon as proposal for cent percent electrification is cleared, action will be taken to obtain loan from REC but outside the Annual Plan.

6) Direction & Administration:

Some of the establishments under Plan during 6th Pland 7th Plan were to go under Non-Plan but it did not happen. Consequently, they are to be maintained under Plan though not connected with Plan works.

Administration Charges under Plan used to be taken from the outlays approved for various schemes. But this practice is causing lots of confusing and many other complecations while computing expanditure of a particulars scheme. For example —

a) In Project Reports, establishment charges of 7 to 8% are generally included whereas requirement has risen to about 20%. As a result more funds need to be taken from the outlays leaving lesser fund for actual works and ultimately escalating the cost of the Project.

b) Funds taken proportionately out of every scheme cannot be separately indicated in the budget thus causing lots of confusion.

There are many other problems too. In view of these it has been decided to have a separate item of Direction and Administration charges in our proposal for 1995-96 which is required to maintain the existing establishments under Plan and meet the requirement of new posts proposed for creatiom.

7) Non-Convention Sources of Energy & Integrated Kurol Energy Programme:

An outlay of Rs 40.00 lakhs and Rs 10.00 lakhs respectively is approved during 1994–95 for Non-Conventional Sources of Energy & Integrated Rural Energy Programma.

.

- 51 -VII (A) - 1 INDUSTRIES

Development of Food and Allied Industries: Mizoram Food & Allied Industries Corposation, Ltd. (MIFCO):

As the Mizoram Food & Allied Industries Corporation Ltd. (MIFCO) attains the sixth year of its corporation in 1995-96, its activities are expected to increase or expand tremendously in the promotion of Food Processing Industry in Mizoram. Hitherto MIFCO endeavours in the pegining to show encouraging results. While there has been quantum jump in production, marketing of MIFCO productions been showing a steady trend of sales both within and outside Mizoram.

MIFCO expects to generate some sales revenue which will be ploughed back for investment to carry on their bussiness. The Department proposed to contribute funds for investment in their new projects and towards matching contribution to the funds received by the Corporation from the Ministry of Food Processing Industry, Govt. of India. To provide the contribution of India.

Mark was a significant of the second of the

Z

B. VILLAGE & SMALL INDUSTRIES:

Common Facility Eentre:

This is an a-going scheme and under which multi-disciplinary workshop to serve as Training-cum-Common Facility Centre is being established at Lunglei and Saina.

Promotion of Cottage, Village & Tiny Industries:

This is an on-going scheme and under which grants-in-aids are provided to the rural artisans for setting up of village and cottage Industries.

Entrepreneural Development & Training:

This is on-going scheme designed for man power development in industrial sector.

M.

- ii

During 1995-96, it is so osed to conduct training for PMRY beneficiaries, other industrial entrepreneurs, conduct study tours, staff training etc.

Industrial Information:

 π ($\S(eta)$) $\S(eta)$. Since $\Sigma(eta)$ is $\Sigma(eta)$

This as an on-going scheme under which the Department participates in National and International Trade Fair and also donducts exhibitions in the State and districts. Publicity, advertisement, publication of brochures etc, are also done.

Research, Design and Development:

This is a continuing scheme from the 7th Five Year Plan. Under this scheme possibilities are explored in the potential but intapped areas of industrial development in the State.

B. Development of Tea Troustry:

Tea Development has been identified as the most potential area of development and that deforts are on for the last two years to develop this sector comprehensively. The works so far undertaken are identification and survey of potential area for tea cultivation, raising of tea nursery at various places, upgradation of existing garden and setting up tea processing factories in the existing garden areas.

Incestives/Subsidies to Industries:

Under this on-going scheme, incentives/subsidies are provided to the Small Scale Industries of Mizoram as announced in the industrial policy of Mizoram State, 1989. Equity participation by the Government in the assisted Sector is also entertained. Various subsidies are given under this scheme.

Zoram Industrial DevelopemtrCorporation:

This is basically financial institution for providing loan assistance to the industrial units of Mizoram under the remaining scheme of IDBI/SIDBI. The Department has been contributing share capital since its inception during 1978-79.

VII(A) - III

An amount of Rs. 60.00 lakhs is being paid to ZIDCO towards contribution of Chare Capital during 1994-95.

Development of Electronics:

Two Sub-Schemes are being operated under this on-going scheme which are as follows:

A. Zoram Electronics Development Corporation Lta(ZENICS)

ZENICS was incorporated in March, 1991 with an authorised share capital of Rs. 5.00 crores. The company has started its commercial developmental and promotional activities by setting up of Cable TV Network, test and Repairing Centre, Component Banks and Computer learning Academy etc. During 1994-95, an amount of Rs. 34.00 lakhs is being paid to ZENICS towads Share Capital Contribution. T towards

Br Electronic Cell in the Directorate:

The Electronic Cell with was opened in the Directorate during 1991—Go has been engaged in promotional activities and speading Electronics culture in the State. A new post of one IV Grade is required to assist Sr.Technician at District Industries Centre, Lunglei. The cell is working on human resource development in the Electronics by arranging training in Electronics for generation of skilled manpower, conducting awareness programmes on various places in Mizoram, working an computerisation of Directorate and also trying to offer, Grant-in-aid, Common facilities centre to SSI Units by setting up testing facilities etc. Already set up BIS approved laboratory also to be maintained.

MKVIB

The Board is an agancy for the promotion and development of Village Industries in Mizoram. The Board takes steps on the following points:-

1. Assisting entrepreneurs and village industries units by giving grants and loans as reweived from the KVIC.

2. Providing Technical Assistance in the form of artisan training by giving to the Gal guidance to Village Industries Units.

$V_{\perp\perp}(x) - I$

3. The Board is also running production Centre for demonstration purposes so as to guide prospective entrepreneurs.

Strengthening of Administrations:

This is an ongoing scheme under which most of the liabilities of posts and establishment created during the 7th Five Year Plan are maintained. In addition, construction of staff etc are also done to strengthen the infrastructure. During the year 1994-95, seven Sub-divisional Industrial Offices will be opened in the peven places.

District Industries Centre:

5.3

11242

Three District Industries Centre of Mizoram was functioning und the Centrally Sponsored Scheme of the Govt. of Industries Central funds requirements for maintaining these district Industries Centres over and obove the central assistance used to be made from the State Plan. However, as per the decision of the Govt. of India, this scheme stands transferred to the State Plan and hence all the liabilities are to be met from the state Plan funds now and onward.

Development of Industrial Infrastructure:

Under this ongoing scheme, the Department takes up establishments of (A) Industrial Estates (B) Vertical Industrial Estate and (C) Industrial Growth Cetnre.

;

Commence of the Commence of th

Handloom & Handicrafts Industries

Under this ongoing scheme, three sub scheme namely (a) Handloom Tulustry (b) Handloraft Industry (c) Mizoram Handloom andicraft Development Corporation Ltd. (ZOHARDOO) and diperated.

VI(B) - I MINES & MINERALS

INTRODUCTION :

During the Eighth Five Year Plan, this scheme envisages.

- A. Detailed Geological, Geophysical Investigation, Monitoring and Management of Ground Water in Mizoram.
- B. Detailed in and Investigation and its management.
- C. Geotechnical investigation (Such as land slides, sub-sidence investigation and investigation for Micro Hydel Project) in the interior parts of Mizoram.

ITEM-WISE DESCRIPTION

- 1. <u>Direction and Administration</u>: This scheme gives necessary administrative support to the entire Mizoram Mineral Scheme. The existing Staft under Directorate will be maintained during 1995-96.
- 2. Ground Water Investigation & Management: Government of Mizoram has declared Geology & Mining Wing as a Nodel Agency for Ground Water Investigation & Management. The details of physical target for the period of 1995-96 are mentioned below:

Physical Targets:

- (1) Investigation, collection of ground water data from the tube wells, spring, dug wells, drilling of the tube wells for investigable and monitoring purposed, construction of recharge dam is necessary. The Geological investigation will be done in 60 villages.
- (2) Ground Water data will be collected from the tube wells, springs from the ground water developed areas. This will be corelated with the rain water precipitation in the respective areas.

- (3) Geophisical investigation will be conducted in 30 places in Mizoram.
- (4) Chemical analysis 200 camples (Approximate).
- (5) Purchasing of truck for mounting of Compressor.
- 3. Mineral Investigati Management: Efforts have been made in order to a true mineral based industries during the 8th Five Year Plan. The Department is concentrating manufacturing shell limestone slabs/tiles, Mineral water and producing good quality 'Balu' from sandstone. To gear up the entire mineral development in Mizoram, Govt.of Mizoram is examining the approval of draft minor mineral concession rule. We are intending to intensify the mineral investigation during 1995-96 Annual Plan and the details of physical target, re mentioned below:

Physical Target :

- (1) Investigation in 60 Villages and assessment for setting up of mineral based industries.
- (2) Implementation of Mizoram Minor Mineral Concession Rule: This rule is under active consideration of the Government.
- (3) Manufacture Shell Limin no Slabs/Tiles: Our Department has found shell limination deposit near Muthi near Tuirial Air Field, mear Tuirial Bridge, near Sesawng which can be cut and polished in order to manufacture shell limistone slab/tiles in Mizoram. This project has been approved during 1994-95 Annual Plan. During 1994-95 Annual Plan, Government has provided only 13.75 lakhs NECON has prepared project report for implementing this project and projected the total requirement of fund is Rs. 96,30,000/-

jeca:

4. <u>Geotechnical Investigation: Physical Target:</u> Investigation will be carried out in certain specific areas in the interior parts of Mizoram.

Draft Annual Plan (1995-96) embodies the following productive schame:-

| 1. | Direction in the gthening of | | | | |
|----|------------------------------|----------|--|-----|----|
| | Directorate) | - | | | |
| 2. | Administration (Strengthe- | | | | |
| | ning of Administration) | ** . v { | s 5° | | ~, |
| 3. | Training (Training & Study | | | † | |
| | Tour) | ···· | | | : |
| 4. | Promotion (Promotion of | | | ٠ | |
| | silk industry) | | ā, 15. | .92 | ** |
| ō. | Marketing (Marketing of silk | < | | | |
| | product) | *** | į | • | .2 |
| 6. | Silk-processing (Production | | | ٠, | |
| | of silk & Silk product) | | ······································ | | |
| | | | • | * . | |

These six schemes aim at production of cocoons, raw silk and silk product, generation of rural employment, improvement of rural economy and educating people to adopt sericulture profitably.

Importance has, therefore, been given in maximum utilisation of available resources and adopting integrated approach with other bevelopment departments and organisations like Agriculture, A.H & Vety Fishery, Horticulture, Industry, Forestry, Soil conservation, Rural Development, Central Silk Board and the North Eastern Council. Steps had also been proposed to be taken to make joint effort to organise and back-up Sericultural co-operatives/Societies/individual enterpreneurs in cooperation with Cooperative Department and financing banks of the State so that the benefits go directly to the aconomically weaker section of the people of Mizoram.

Provisions had been made to establish 2 technical Service centres, 10 chowki rearing centres and 1 mulberry seed farm in 1995-96 and to cover 500 additional acreages with high xielding and disease-resistant

variaties of mulberry. Provisions had also been made for extension and development of the existing Sericultural Training Institute for imparting trainings to the farmers in a fruitful manner.

Priority will be given to assist the private Sericulturists and Sericultural Cooperatives/Associations with supply of DFLs., cuttings, rearing equipments, disinsctants, realing machines etc. to anable them to astablish their own Sericultural units easily.

Following are the schematic details of the above six schemes:-

DIRECTION

SCHEME NO. 1

1. OBJECTIVES :

- a) Supervision and overall control over the administrative and the carmical staff of the whole department. Planning, programming and monitoring of the activities of the department with the common aim to enhance production of cocoons, raw silk, finished silk goods and silk handicrafts in the state for earning revenue, developing marketing activities and maintaining quality control over silk products.
- b) Establishing of 1 Planning Cell, 1 Disease monitoring cell, 1 Statistical cell and 1 Visitors' Library in the Directorate and strengthening of Accounts, Stores and purchase, Training and Marketting wings of the Directorate.
- c) Production of Video cassettes on Sericultures, publication of Magazines, Pamphlets and participation in Fairs, Shows, Talks, Seminars, Exhibitions atc., for attracting trada enquiries.
- d) Maximum utilisation of available departmental personnels to organise Sericultural cooperatives/ Associations/Individual readnisations in the private sector and rendering educational facilities to them to

-59 - VI(C) - 3 - 3

adopt Sericulture with the aim to increase rural employment and improve rural aconomy.

SCHEME ND. 2

ADMINISTRATION:

1. <u>CBJECTIVE</u>:

- a) District administration.
- b) Production of Diseasafree Sidk worm eggs.
- c) Extension services in the rural sector.
- d) Motivation accivities in the rural sector.
- e) Distribution of DELs, Mulberry cuttings and sablings including other food plants, field demonstrations, choki rearings, supply of subsidy items to the rearers/restablers/spanners and silk weavers, procurement of silk cocoons from the prime producers & payment of cocoons bills.
- f) Supervision of 32 Sericultural farms and centres in the state and their extension and developments.

TRAINING :

SCHEME NO.3

1. OBJECTIVE :

- a) Maintenance and further development of the existing Sericultural Training Institute situated at Zamabawk. Mizoram.
- b) Conduction of in-service and farmers' Trainings, in 4 batches each per year at the S.T.I Zemabawk.
- c) Japutation of Actriculates & B.Scs for Training in Sericulture in institutions outside Mizbram.
- d) Deputation of Sericulturists and inservice Personnels for refresher/short-term trainings and study tours outside Mizoram.

PROMOTION:

SCHEME NO.4

1 • OBJECTIVE :

a) Maintenance & extension of the existing mulberry seed Farm, Thenzawl(Establishad in 1992–93)

- 60 -VI (C) - 4

- b) Establishment of 1 Mulberry Seed Farm,
 2 Technical Service Centres and 10 Chowki rearing
 Centres.
- c) Plantation of 500 acres of mulberry with high yielding and disease-resistant variety of mulberry.
- d) Assistant to rearers, mulberry farmers silk realers/spinners/weavers.

MARKETING

SCHEME NO. 5

1. <u>OBJECTIVE</u>:

- a) Purchasing of cocoons, silk, silkmade goods and sale to consumers at a better price.
- b) Maintenance of existing Sales Emporium at Aizawl and the Sericulture Stall at New Delhi.

SILK PROCESSING :

SCHEME NO. 6

1. OBJECTIVE :

- a) Maintenance and further development of the existing 3 Nos. of silk processing Centres situated at Kolasib, Zemabawk and Zobawk.
- b) Maintenance of silk Waaving Centre at Chaltlang.
- c) Maintenance and further development of the existing multi-and power-driven silk realing and Twisting factory at Zemabawk and Silk Quit making Factory at Zemabawk.
- d) Production of raw and twisted silk, silk goods, Quilts/carpets/blankets.
- a) Training to private individuals in silk Reeling/Spinning/Weaving/Quilt making.
 - f) Quality control on Silk nroducts.

ROADS AND BRIDGES

INTRODUCTION :

Road construction in Mizoram under P.W.D. Mizoram was started during the 5th Five Year Plan. Nost of the road projects are ongoing which were spilled over from the 7th Five Year Plan. The main strategy for the 8th five year plan were to complete the ongoing schemes of the 7th five year plan. The total road length in Mizoram at the and of the third year of the 8th five year plan will be 5847 Kms. The road density per 100 Sq.Km. will be completion of ongoing works as far as possible in respect of State Highway, Rural Roads as well as Town Roads.

DIRECTION AND ADMINISTRATION

Provision will be made for - F call the stablishment such as Machanical Circle, Mechanical Division-II, Mechanical Division-III, Hmuifang Division, Strengthening of Chief Engineer's Office and Road Division-II.

The total work load of Chief Engineer, PWD, Mizoram is approximately 38 crores during 1994-95 which is exclusive of works undertaken for other various departments in Mizoram and which is quite heavy for one Chief Engineer. To cope up with the work load, it is proposed to create the post of Chief Engineer, Roads & Bridges, with a skeleton staff. The other Staffs required for the new establishment will be pulled from the existing establishment of Chief Engineer's Office.

MACHINERY AND E JEPHENT

parts, Provision will be made during 1995-96.

PLANNING AND RESEARCH

For maintenance of existing staffs establishment in P.W.D. laboratory; for purchase of new testing equipments and spare parts and for conducting different trainings, Provision will be made during 1995-96.

SURVEY

of various roads, Provision will be made - during 1995-96 for survey of the offoresaid works.

1. STATE HIGHWAY

(a) KOLASIB-BAIRABI-ZAMUANG ROAD (72 Km.):
The only fail head in Mizoram is at
Bairabi. A sum of Rs. 20. Lakhs is approved during
1994-95 and fully utilises.

(b) ATZAWL-THENZAWL-LUNGLEI ROAD(17 Km.):

Rs. 232.00 lakhs is approved during

1994-95 which will be fully utilised for continuation

of this project Provision will be made - during

1995-96.

2. MAJOR DISTRICT ROADS

(a) SELING-TIPAIMUK ROAD (140 km.): This road is inter state connecting from Mizoram to Manipur state. A sum of Rs. 48.00 lakes is approved during 1994-95 which will be fully utilised for continuation of the project provision will be made - during 1995-96.

- 63 -VII(A) - 3

- (b) LUNGSEN-CHAINGTE ROAD: A sum of Rs.100.00 lakhs during 1994-95 which will be fully utilised for continuation of the project provision will be made -during 1995-96.
- (c) TUIPUIBARI-W.KAWNPUI ROAD (18 km.):
 Rs. 12.00 lakhs is approved during 1994-95 which will
 be fully utilised and for continuation of project
 provision will be made during 1995-96.
- (d) HWHTHIAL-S.VANLAIPHAI ROAD (60 Km.):
 An amount of Rs. 58.00 lakhs is approved during 1994-95
 which will be fully utilised for continuation of the
 project provision will be made during 1995-96.
- (e) SAIHA-BUALPUI-SANGAU ROAD (80 Km.)
 Rs. 45.00 lakhs is approved during 1994-95 is fully
 utilised for continuation of the project provision will
 be made during 1995-90.
- (f) ZELABAWK-SELESIH ROAD (14 km.): A sum of Rs. 10.00 lakhs is approved during 1994-95, which is fully utilised as for continuation of the project provision will be made during 1995-96.
- (g) KOLASIB-BUHCHANGPHAI (to Saihapui samd quarry 17 km.): An amount of Rs.15.00 lakhs is approved during 1994-95 which will be fully utilised as for continuation of the project provision will be made during 1995-9.

3. OTHER DISTRICT ROADS (MNP) :

- (a) SAITUAL-PHULLEN-PHUAIBUANG-KHAVLIAN(70Km.) An amount of Rs. 39.00 lakhs is approved which is fully utilised and for continuation of the project provision will be made during 1995-96.
- (b) LUNGLEI-BURGUT ROAD (80 Km.) An amount of Rs. 40.00 lakes in approved during 1994-95 which will be fully util a and for continuation of the project provision will be made during 1995-96.

- (c) KHAMZANL-E.LUMGDAR ROAD (73 km.): An amount of Rs. 80.00 lakhs is approved during 1994-95 which is fully utilised and for continuation of the project provision will be made during 1995-96.
- (d) KEITUM-N.VANLAIP AT ROAD (48 km.):
 A sum of Rs. 60.00 lakhs is approved during 1994-95
 which will be fully utilised and for continuation of
 the project provision will be made during 1995-96.
- (e) BILKHAWTHLIR-PHAISEN VIA BUHCHANGPHAI

 ROAD (20 Km.): An amount of Rs.20.00
 lakhs is approved during 1994-95 which is fully utilised and for continuation of the project provision will be made during 1995-95.
- (f) N.VALLIFAL FILIGAL ROAD (43 KM): For further improvement of these 1.1 As. 25.00 lakhs is approved during 1994-95 vilia. 15 fully utilised and for continuation of the excised provision will be made during 1995-96.
- (g) RAWPUICH(IP-BUARPUI ROAD (100 km.): For continuation of the project and permanent works Rs.58.00 lakhs is approved during 1994-95 which is fully utilised and for continuation of the works **provision** will be made during 1995-96.

4. VILLAGE ROAD (OTHER THAN MNP):

- (a) MAMIT-BAIRABI ROAD (80 km.): This road connects Mamit to Bairabi rail head a sum of Rs. 35.00 lakhs is approved during 1994-95 which is fully utilised and for continuation of the project provision will be made Juring 1995-95.
- (b) DILTLANG-CHANGTE ROAD (31 km.): For improvement of the project is. 25.00 lakhs is approved during 1994-95 which is fully utilised and or continuation of the project provision will be made during 1995-96.

5. OTHER DISTRICT ROLD (MMP):

Construction of ongoing works of the following 12 other District Road (MET) will be taken up during 1995-96:-

- 1) Aizawl-Tlawng- sick Road (30 Km.)
- 2) Hlimen-Tlangsam-Lunglang Road (10 Km.)
- 3) E. Phaileng-Suang puilawn Road (46 Km.)
- 4) Bilkhawthlir-Chembhai-Saiha Road (20 Km.)
- 5) Sakawrdai-Zohmun, Road (14 Km.)
- 6) Champhai-Tiau Road (20.Km.)
- 7) Vair ngte-Saiphai Road (16 Km.)
- 8 Kawlchaw-Serkawn-Tuipang Road (20 Km.)
- 9) Chawngte-Borapansuri Road 33 (km.)
- 10) Tlabung-Borapansuri Road (38 Km.)

X(C) - 1

ECONOMICS AND STATISTICS DEPARTMENT

The Department of Economics and Statistics is yet to be well-equiped with infrastructure. In the mean time, the scope and activities of the department has considerably been increasing due to formation of Statistical Common Cadre which automatically entail the need for effective co-ordination of all Statistical Cell in various Departments. The Department of Economics and Statistic being a Madel Agancy for all Statistical activities has responsible to only to co-ordinate department statistical acti / les to render technical guidance to all Statistical Cell especially in formulation of Major Schemes and ensuring availability of reliable Statistical data required by the Government for Economic Planning and other purposes, Mark thel ా క్రామంలో కాండ్ర్స్ కో 🔒 🚅 😯 ప్రామెట్లు కార్మ ఉండేకా కాట్ ఉండు JA . 4 1000-95.

ITEM-WISE DESCRIPTION OF SCHEME:

1. STRENGTHENING OF STATISTICAL SET UP:

- (a) <u>Direction</u>: With the implementation of Economics and Statistics Service Common Cadre and for co-ordination of all Statistical activities of various departments in Mizoram, it is absolutely necessary to strengthen the Directorate Office particularly supervising level.
- (b) Rainguage: Collect of rainfall data is done within the state for which Rs.0.10 lakhs for replacement of old one is envisaged during 1995-96.

Contd...

- (c) Price and Market Intelligence: Market price of essential commodities are collected weekly from District Headquarters and Monthly from town like Kolasib, Champhai and Serchhip and Monthly prive Bulletin is publised.
- (d) State Income Estimation, Capital Formulation and Aublic Pinappears the Primary object of this Scheme is to estimate a Gross and Net Domestic Product of Mizoram. Data collection of capital formation and public finance is required to be collected under the Scheme. The existing posts are to be maintained under the Scheme.
- (e) <u>Socio-Economic Survey:</u> Socio-Economic Survey is of absolute necessity in Mizoram in view of the Non-availability of primary data almosts in all fields.

, ,

- 2. ADMINISTRATION: The District Officers have been entrusted with different survey which were previously taken up by the Directorate of Economics and Statistics. The District Officers have been assigned with the task of building up data based for Planning.
- 3. (a) Registration of Direct A Deaths: Under this Scheme, data of vital events lake births and deaths have been collected through local Registrars appointed for each and every village. For supervision of works in the interior village and compilation of collected data, the existing posts are to be maintained.

- (b) Computerisation: This Department purchased a Micro Computer during 1986-87 as recomended by the 6th All India Statistical Conference held at New Delhi. For maintenance of existing posts and machinery a sum of Rs. 0.90 lakhs is provided for the year 1995-96.
- (c) Small Unit of Press: The Department had purchased small unit of Press since the Department is to publish Quarterly Progress Report of all Papartments, Statistical Hand Book, various forms of RBD and Survey Report regularly. A provision of Rs. 2.20 lakhs is proposed during 1995-96 for maintenance of existing staffs and machines, etc.

- 821-X (D) - I FOOD AND CIVIL SUPPLIES DEPARTMENT

The proposal for the Annual Plan 1995-96 in respect of Food & Civil Supplies Department is mainly envisaged construction of Godowns and Residential quarters, besides, maintnance of the existing staff under Plan Schame etc.

DIRECTION & ADMINISTRATION:

The existing 26 Nos. of different category of posts under Plan Schemes and 11 Nos. of different category of posts under Scheme Commission/District Forums will continue to be a classical during 1995-96.

CONSTRUCTION OF OFFICE BUILDINGS/RESIDENTIAL QUARTER ETC.

As already explained in the previous years, the Officers and staff posted in the centres have not yet provided Office Buildingsand quarters fully. Hence, the scheme is taken up in Phase manner, During 1995-96, the some office building/residential quarters/staff quarters etc. are proposed to be constructed under Plan schemes.

CONSTRUCTION OF GODOWNS:

Due to non-availability of budget provision under Major Works (Non-Plan) since 1993-94, construction of Godowns could not be taken up since 1993-94 other than Godhwns incorporated in the Annual Plans. The only alternative to construct Godowns in some important centres and in the newly opened Supply Centres is under Plan Scheme. Hence, it is proposed to construct/re-construct some godowns during 1995-95.

X (D) - II

MAINTENANCE / REPAIR OF SUILDING ETC, .:

Most of the buildings like Godowns/Staff quarters/Chowkidar's quarters etc, belonging to Food & Civil Supplies Department in rural areas badly require to maintain/repair. Hence, it is proposed to be maintained in phase manner depending on its importance and priority so that minimum facility can be provided to the staff posted in rural areas to endure their efficiencies.

The solve

CENTRALLY SPONSORED SCHEMES (CSS):

The Department has taken up with Govt. of India, Ministry of Civil Supplies to revamp public Distribution System in the State and accordingly Govt. of India has approved for the following schemes:-

- 1. Construction of Godowns.
- 2. Door Delivery of Sential Commodities through Mobile Vans.

These Schemes cover 50% Loan. and 50% Subsidy. The Schemes will be operated during 1993-94 under State Plan Budgetory provisions and 1st instalment of repayment of loans have been made during 1994-95 by Finance Department. Similar Schemes have been taken up for additional 10 (ten) Godowns, during 1995-96.

The Department may be allowed to include these Schemes in the State Plan during 1995-96 for repayment of lean components in addition to normal outlay in respect of Food & Vivil Supplies Department.

 - 5) Maintenance of School-Buildings
 - 6) Travelling expenses
 - 7) Office expenses.
- (b) 1) Maintenance of Non-Government Middle Schools
 Teachers and IV Gradus.
- (c) 1) Adult Education.

- 93 -X (F) - 5

Though the need to increase fund under Plan is involtable in view of transfer of certain subjects to the Mara Autonomous District Council, There is no increase in Plan size in the Draft stage. This is done in consultation with Planning Department of Mizoram.

CHAKMA AUTONOMOUS DISTRICT COUNCIL

INTRODUCTION: The Chakma Autonomous District Council has come into being on 28th day of April 1972. It is situated in the extreme South West of Mizoram with an area of 1500 sq.Km. (approx.) and is inhabited by 30000 people living in 68 village Councils.

The People of this region are tragically poor an illiterate and Agriculture is their main stay. Road communication is almost nil in this region for which developmental process is very slow.

In the 8th Five Year Plan, 1992-97, Rs. 875.00 lakhs was approved for the Chakma Autonomous District Council. During 1993 the Government of Mizoram has entrusted more powers to the three District Councils of Mizoram.

SCHEMETIC DESCRIPTION:

Agriculture & Hosticulture: Priority has been given on this sector for development of flat arable land to became self sufficiency in food-grain and horticultural products. The main schemes under this sector are construction and improvements of agri-link road, land reclemation, minor irrigation, horticulture and vegetable development, distribution of power tiller, tractor, water pumping machineries on subsidy, etc.

<u>II. Fisheries</u>: This sector is completely new to the Chakma District Council and provision for financial assistance, fish-seeds supply etc, are kept to distribute to the individual fishpond holders and for fish-pond reclamation.

III. Public Health Engineering: This is also a new sector entrusted to the District Councils comprising of existing sanitation and water supply. The main schemes are public latrines & Utinals, sanitary latrines, etc. under sanitation and constn. of intake and supply reserviors, purchase and installation of pipes, etc.

$X(G) - \Omega$

under spring source development of Water Supply are provided. Besides, existing sollemes like extension and maintenance of pipelines at Kamalanagar are proposed in cluding maintenance of existing water treatment plant and water points, etc.

IV. Industry: Under Industry, establishment of Hand-loom & Handicraft Centre is proposed including constn. of building, trainees stipend, raw materials, etc. And financial assistance to individuals, etc. are also proposed. Besides, the raintenance of existing tailoring & Knitting Training centre is also provided minder this sector.

<u>W. Sericulture:</u> This sector is also newly entrusted to the District Councils and provision for financial assistance, to individual farmers, marketing and selling of cocoon, rearing house, creation of mulberry groovemetc. are proposed.

VI. Animal Husbandry & Veterinary: Under this Sector, provisions for subsidy school like-cattle, piggery, poultry are proposed. Besides purchase & distribution of madicine also provided under this Sector.

VII. Arts & Culture: Under Arts & Culture schemes for promotion of Arts & Culture are proposed. Other main schemes in this sector are constn. of District Councils Library and District Council Museum are proposed.

VII. Social Welfare: In this sector provision for old aged pensions, nutrition and teaching aid supply under Pre-School has been proposed. Further, for the welfare of handicap, financial assistance and purchase and distribution of utensils are also proposed.

IX. Soil Conservation: The main schemes are financial assistance for terracing, supply of implements & tools like- Jamper, Kodali, etc. village grazing ground are proposed to execute.

- X. Local Administration Deptt.: This is also newly entrusted to the District Councils and for it, under urban development provision for construction of market-sheds, minor works like constn. of step, retaining wall etc. are proposed.
- XI. Forest: Under Forest Department provision of collection of seeds, nursery farms, creation and maintenance of Forest Plantation and social forestry is kept. Besides, construction of lake-cum-picnic spot, children park, approach road, etc. are kept in the provision.
- XII. Road Transport: Though the Transport Department of Govt. of Mizoran agreed to give one bys each to the three District Councils, provision for other facilities has been kept in the Droft Annual Plan like Constn. of Bus Stations, workshops-facilities etc. for this sector.
- XIII. Sports & Youth Services: The scheme sector envisages schemes like N.C.C., Scouts & Guides for Studensts and for Youth Welfafre Programme of non-student like-constn. of Youth Adventure Centre-2 Nos. and micellaneous items which includes Sports & Games, etc.
- XIV. Co-operation Department: Under Co-operation, Scheme of financial assistance to various co-operative societies like- purchase of shares, subsidy on raw materials, marketings, transportation, etc. are proposed.
- XV. Public Morks Deptt: Under District Councils, P.W.D. Provision for widening and improvement of major DC PWD Roads 30 Kms. other Dc PWD Roads 49 Kms. are proposed including formation cutting. Besides, constn, of Inter Village Approach (IVA) roads 11 Kms. widening and bouldering of town road, constn, of sawn timber briges 30 nos. repairing of sawn timber briges etc. and buildings like constn. of CDC Rest House at Aizawl and Lunglei are also proposed including extension of existing rest houses.

XVI. Education: Since education is the backbone for alround development and further since the literacy rate in the Chakma District Council is lowest among the three District Councils, more emphasise is given an education.

XVII. Rural Development: The Rural Development Sector contains the following main schemes, like, construction of rural jeeproad, construction of Community Hall-cum-village council court, purchase & Distribution of 280 bundles of G.C.I Sheet and financial assistance for rural housing, constn. of building for Judicial Court, construction of Guardwall, fencing maint. Of CDC Rest Houses, etc are proposed.

XVIII. Water Ways (Inland Water Transport):

The Inland Vater Transport Sector is one of the most important sectors for the Chakma District Council. The District Council Headquarters Kamalanagar is connected only by two fair weather roads with the Mizoram. So, during tainy season, it remains completely cut off from the rest of Mizoram. Hence, for immediate navigation, fewsihility survey of Thega and Tuichawng river is proposed.

LEGAL METROLOGY (WEIGHTS & MEASURES)

INTRODUCTION:

The total approved outlay of the Annual Plan for 1994-95 is Rs. 10.00 Jakhs..

ITEM-WISE DESCRIPTION OF SCHEME FOR 1995-96

- 1. Administration: Existing staff will be maintained during 1995-96.
- 2. Material & Supply: Some amount is proposed for purchase of statutory equipments, viz-verification date stamps and pluga which are being supplied by the Government of India Mint, Bombay.
- 3. Minor Works: Some amount is proposed for repair and maintenance of the departmental buildings which were constructed 5 years or more ago.

LAW AND JUDICIAL ANNUL PLAN 1995-1996

INTRODUCTION:

Law and Judicial Department entered into the Plan Scheme during the second year of the Eighth Five Year Flah, i.e. 1993-94 as per guidelines given by the Central Government for upgradation of Judicial administration with an outlay of Rs. 18.00 lakhs as the State share on the basis of 50:50 to be shared with the Central Government and the Central Government has released its share of Rs. 20.00 lakhs for 1993-94 the amount of which has been transferred to P.W.D. for execution of the scheme i.e. construction of District Court Building at Aizawl D.C. Office complex and Additional District Court Building at Champhai and Lunglei,

As detailed estimated for construction of the said court buildings have not been finalised, the PWD have been requested to expedite finalisation of the detailed estimates for obtaining administrative approval and in the meanwhile PWD has been requested to book materials for construction of the said cputy buildings at Aizawl with an amount of Rs. 18.00 lakhs which the PWD has done so (cppy enclosed). The amount of Rs. 20.00 lakhs released by the Central Government for 1993-94 will be utilised for the said scheme as soon as detailed estimates are completed and A/A obtained.

For the year 1994-95 also the State Govt. has sanctioned an amount of Rs. 18.00 lakhs and the Central Government has intimated that its share of Rs. 34.00 lakhs has been earmarked for the said scheme. The State share of Rs. 18.00 lakhs has been transferred to PWD for execution of the scheme.

The project will be continued during 1995 - 96.

SCHOOL EDUCTION

INTRODUCTION: The State from the prepared its own Programme of Action (POA) for implementation of the National Policy on Education. This State Programme of Action (SPOA) gives direction for initiating a series of strategies to achieve the goal of educational development with the limited resources available. Unitersalisation of Elementary Education will continue to receive the priority it deserves and the main thrust areas will be improving the academic standards and retention of children enhalled in Schools. The State Programme of Action has also given importance to Secondary Education. As many as 30 High Schools will be upgraded to Higher Secondary Schools. This will involve a substantial investment of financial and human resource.

BLIEF REVIEW OF 1904-95 ANNUAL PLAN

The Eight Plan out by is Rs. 3,550.00 lakhs out of this total outley, the sponoved outley of the School Education Department at 1994-95 is Rs. 806.00 lakhs. This amount is being a filiped for building up infrastructure, for opening new sub-Educational divisions and for quality improvement of the system.

ROAD OBJECTIVES AND STRATEGIES OF THE ANNUAL PLAN 1905-96

Since this will be the courth year of the plan period, sustained efforts will be made to improve the academic standards. The main objective of the light Five Year Plan in Education is to deviled human resource and thereby improve the quality of life. The main strategies are universalisation of elementary education, eradication of illiteracy and to bring about a uniform and high standard of need-based education including. Vocational Education. To bring about quality education effort would be made to take advantage of the Central Schemes like Operation Blackboard, Science Education, Teachers' Training, Integrated Education of Disabled

Children and Vocational Education. Under the operation Blackboard scheme, construction of the third classroom and appointment of third teacher will be taken up as part of State Government consistment. Another important programme would be introduction of 2-stage of education in Higher Secondary Schools.

THE PROPOSED OUTLAY OR 1905-96

I. ELEMENTARY EDUCATION (MNP)

<u>Direction & Administration</u>: Existing Staff will be maintained.

GOVERNMENT PRINCRY SCHOOLS (MNP)

- (a) The scheme for provision of an additional room (third classroom) in existing Schools will be continued as part of Operation Blackboard Schemes. As many as 100 School buildings will be constructed.
- (b) There are 360 teachers engaged on fixed salary since the disturbance period. This group of teachers have to be absorbed on regular basis during the Eight Plan sprind. During 1995-96 40 teachers will be absorbed.
 - (c) Supply of free text books to poor students will continue to be one of the incentive schemes.

 OTHER EXPENDITURE

1) GOVERNMENT MIDDLE SCHOOLS

- a) Work Education will continue to be an important subject of study. In order to implement the scheme, it is found necessary to provide work education teacher to those Go t. Middle Schools which do not have Mork Education Teacher.
- b) Upgradation off Private Mildle Schools into Dificit Grant-in-aid Status:

 It is proposed to upgrade at least 20 Private unaided Middle Schools into the Deficit Grants-in-aid status.

c) Construction/renovation/repair of school buildings;

Renovation, repair and construction of school Buildings will have to be continued during the year 1995-96.

d) Supply of Free Text Books to poor students:

Supply of free Textbooks to poor students is one incentive scheme being implemented as a part of implementing strategy for achievement of Education for All.

II. AIDED MIDDLE SCHOOLS :

Existing Aided Middle School will be maintained 20 unaided Middle School will be ungraded.

MIZORAM BOARD OF SCHOOL _ NCARION

On-going construction work of Hizoram Board of School Education building will be continued.

SECONDARY EDUCATION

- (a) S.C.E.R.T.: SCERT was established in 1980. It has been functioning as an academic wing of the Directorate of School Education. It is proposed to upgrade it to the status of Directorate. A project proposal was made for strongthening the SCERT under the Centrally Sponsored Schieme and the project proposal is prepared the basis of the scheme outline the expenditure proposed is Rs. 1.00 lakh to 50.00 lakhs for State Fund and another As. 50.00 lakhs is expected from Central Government.
- (b) SCIENCE PROMOTION: Schence Promotion Wing was established back in 1973. The main objective of this is to promote Science and indimatics. The Wing has organised various activities, such as training of

- 103 -XI (.) - 4

teachers, Science cominar a students etc. when SCERT becomes a separate Directorate, the wing will become a part of it.

(c) TEACHER EDUCATION AND TRAINING: There are two Elementary Teachers Training Institutes, one at Aizawl and another one at Lunglei. These two Teachers' Training Institutes named J.I.E.T., are organising In-service and Pre-service Teachers' Training for Middle School Teachers, Primary School Teachers and Work Education Teachers.

Construction of Institute building at Aizawl is to be completed during the year 1995-96.

tion of DIST building at Lunglei, particularly, Boys' Hostel and Girls' Hostel central assistance is sought for. A project proposed for this has been submitted to Givt. of India.

(d) GOVT. SECONDARY NIGH SCHOOL:

As per draft State Programme of Action (SPOA) as many as 30 High Schools are to be upgraded into Higher Secondary Schools in a phase manner. During the year 1995-96, 4 High Schools will be upgraded. For this, some new posts will have to be created.

ADULT EDUCATION

puring the Eight Plan period i.e. 1992-97 the projected population of illiterate adults of the age-group 15-35 and above 35 years is about 66000. Out of which 33,000 had been made literate by the end of 1993-94 and it is also expected that the number will come up to 38,000 by the end of 1994-95. Target for 1995-96 is 5000 learners.

Mere literacy is not the goal of Adult Education, there must be a systematic programme for Post Literacy and Continuing Education. Total literacy has been achieved in 349 Village Adult Education Centre areas so far but only 150 Post Literacy Centres have been run now. Hence it is felt absolutely necessary to open 50 more Post Literacy Centres during 1995-96. Desides it may be mentioned that honorarium to Helpers who have been entrusted to look after the Centres could not be given due to paucity of fund during 1994-95, hence it is imperative to provide more fund for running and maintenance of the existing Centres and opening of new 50 centres and also for payment of honorarium to the Helpers with arrear for 1994-95.

International literacy day is observed every year and it is decided that the day be observed in 3 places.

The Wing has been maintaining 21 Circle Centres in which Centres Buildings are constructed.

Incentive awards have been given to Village Adult Education Centres achieving total literacy in kind

LANGUAGE DEVELOPMENT

Promotion of MIL: The Scheme will be continued during 1955-96.

GENERAL

<u>Direction & Administration</u>: Existing Officers & Staff will be maintained Chowkider shed with Carrage will be constructed.

RESEARCH : Existing Staff will be maintained.

105

XI (B) - 1

HIGHER & TECHNICAL EDUCATION

The Directorate of Higher & Technical Education started functioning from April 1989. In 5 3 1 5 1995-18 10 100 1 18. In this Annual Plan priority is given to the programme for technical and asccellerated promotion of Science Education, upgradation of Colleges as per UGC Norms and development of Hindi Language in Mizoram. The plan also includes proposals for giving a recurring and non-recurring Grant-in-Aid to the Deficit and Recognised Private Colleges as measures for establishing and maintaining uniformity of standard in the higher education so as to follow the prescribed UGC Norms and to get the affilication in the University.

1. GENERAL EDUCATION:

A. DIRECTION & ADMINISTRATION:

The work load of this Directorate is rapidly increasing in the provincialisation of Deficit Colleges, upgradation of more private colleges, improvement of existing colleges as per UGC Norms and decentralisation of leans and advances.

B. UNIVERSITY EDUCATION:

1. ESTABLISHMENT OF CENTRAL UNIVERSITY:

. 2. GOVT.COLLEGES:

There are 7 (seven) Govt. Colleges in Mizoram namely - Govt. Kolasib, Alzawl, Zirtiri Women's College Champhai, Serchhip, Lunglei and Saina Colleges. The prescribed Norms of the UGC in respect of the required number of lecturers for each subject are to be followed strictly in Govt. Colleges to get the affiliation in the Univer sity.

3. ASSISTANCE TO NON.GOVT. COLLEGES:

It is essential to follow the prescribed Norms of UGC and NEHU in respect of the required number of Lecturers for each subject to get the affiliation inthe University.

4. ESTABLISHMENT OF COLLEGIATE HOSTELS:

The Department is maintaining the following Collegiate Hostels to accommodate College going students at various places.

- a) Girls Hostel Shillong
- b) Boys Hostel No-I, Shillong.
- c) Boys Hostel No-II, Shillong.
- d) Girls Hostel, Mission Veng, Aizawl.
- e) Boys Hostel, Republic Veng, Aizawl.

The 5 (five) existing Collegiate Hostels Will continue to maintain during Annual Plan 1995 - 1996.

5. COLLEGE OF TEACHERS' EDUCATION:

This institution previously known as Mizoram Institute of Education was established in 1975 for studying B.Ed. Course. Till now it has no Institutional building of its own or none of the staff has any quarters

C. RESIDENTIAL SCIENCE COLLEGE:

A nominal provision of $R_{\rm S}$. 0.50 lakh is provided for 1995-96 for conducting preliminary survey, purchase of land and site levelling etc.

D. MIZORAM SCHOLARSHIP BOARD:

To cope up with the increasing work load, 7 Nos. of new posts is proposed to be created during 1995-96.

E. HINDI EDUCATION:

- (1) DIRECTION: It is essential to establish the Hindi Wing in the Directorate to promote the Hindi Language in Mizoram by creating Addl. new posts during 1995-96.
- (2) MIZORAM HINDI TRAINING INSTITUTE: Programmes and activities for Mizoram Hindi Training Institute for 1995-96 will be continued during 1995-96.
- (3) MIZORAM SPECIAL HINDI SCHOOL: It is the Hindi promotional school.—It is designed to impart + 2 standard of teaching with a comprehensive type from class—I to XII.

F. (1) TECHNICAL EDUCATION:

(1) DIRECTION: The administration Unit for Mizoram State Council for Technical Education attached to Directorate of Higher and Technical Education is looking after the development and improvement of Technical Education in Mizoram.

... 3/-

(2) MIZORAM POLYTECHNIC, LUNGLEI:

The Mizoram Polytechnic Institute, Lunglei is now conducting three years Diploma Course in Civil, Electrical and Mechanical Engineering. The programme for 1995-96 will be the development of the now site and construction of Hostel huilding to facilitate early shifting of the Polytechnic to the now site.

(3) WOMEN'S POLUTECHNIC:

As already approved by Mizoram State Council for Technical Education in its third meeting held in Feb'93 establishment of Women's Polytechnic with two courses (a) Office Management (b) Electronic Diploma will be taken up during 1995-96.

$XI(C) \cdot I$

SPORTS & YOUTH SERVICES

INTRODUCTION:

The Sport & Youth Services Department has been created during the last part of 1986.

Despite Financial constraint coupled with shortage of staff, department achieves tremendous progress towards the promotion of different diciplines at State as well as National Level Competition, Physical Education Wing with a total strength of 2 Officers, 16 Staff was transferred to Education Department in 1992 which adversely effect the performance of the Department as amresult of field as well as Ministerial Staff. This fact necessitate proposal for creation of new posts to alleviate the staff position.

Purchase of Budl-dozer and Tipper Truck are proposed in order to enhance the Department capability towards provision of playfields at different locations.

1. DIRECTION:

The Scheme envisages entertainment of existing staff, creation of new posts, participation and purchase of Bull-dozer, Tipper Truck etc., and the staff, sta

2. DISTRICT ADMINISTRATION:

During the 8th Plan, three (3) District Offices are proposed to be set up in each administrative District, New Office of the District Sports & Mouth Offices Only was pened at Lunglei since 1989. To develop Sports event in the interior southern part of the State it is necessary to strengthen present staff position of District Office at Lunglei.

3% YOUTH WELFARE PROGRAMME (FOR STUDENT):

- b) Scouts & Guides: For premotion of Scouts & Guides activities in the State, The scheme like participation at intermediate and mational level seminar will be argunised.

- c) Youth Adventure Centre: In order to promote and increase the number and level of participation/training in Youth Adventure activities, the existing staff is insufficient and creation of new posts is requested in addition to present strength.
- d) National Service Scheme: To match centrally sponsored scheme of organisation campt etc. some amount is proposed.

4. YOUTH WELFARE PROGRAMME (FOR NON STUDENT):

The Scheme envisages development of Mouth Activities like YHAI, YMA and other voluntary youth organisation in the State. •

5. SPORTS & GAMES:

To cater the different requirement in organisation of coaching camp, participation, there is a hasic need for creation of new posts during 1995-96.

6. SPORTS COUNCIL:

The Mizoram State Sports Council under take all construction works of Sports infrastructurad facilities in the State. The programmes of all affiliated Sports Association are under the purview of the Mizoram State Sports Council.

* * * *

- 110 -XI (D) - I

The Government of Mizoram has constituted a separate Department of culture during 7th Five Year Plan to undertake various activities in the field of culture.

The Directorate of Art & Culture has been runctioning since 1989 and now, Mizoram Publication Board Bill of 1993 was passed by the Mizoram State Assembly. Though the Board is to have an Autonomous Body in course of time, it is contemplated that it will be functioning under this Directorate at the initial stage.

ADMENISTRATION AND MULTIPURPOSE CULTURAL COMPLEX

In order to take up effective measure towards promotion and development of Art & Culture, Setting up of Multipurpose Cultural Complex with Typical Village is proposed for preservation of cultural heritage of the Mizos. This will also be of Tourist attraction.

INSTITUTE OF MUSIC AND FINE ARTS

The Institute of Music and Fine Arts conducts training in Cultural Dances and Modern Music. It is proposed to be strengthened by appointment of Technical Staff.

CULTURAL PREGRAMME

Mizoram now has involved herself more and more in National Level Cultural activities. The Interstate Cultural Exchange Programme is an annual feature.

IMPROVEMENT OF VANAPA HALL

The only standard Auditorium Vanapa Hall is equipment with costly sophisticated sound and light systems for general public utility as well as for the Government. It is very necessary that it is manned efficiently and properly maintained.

ARCHBELOGY :

Proper survey of Archeological Wealth of Mizoram is being carried out in colaboration with Archeological Survey of India during the Annual Plan period of 1994-55.

ARCHEOLOGICAL SURVEY

It is felt imperative to undertake the survey and decumentation of the archeological wealth of Mizo.

STATE ARCHIVES

The main function of State Archives is to concentrate in a single repository all the non.current records. All these records should be preserved in a scientific manner.

STATE LIBRARY

Since the Mizoram Public Libraries Act,1993 has been passed by the Mizoram Legislative Assembly, Gradual implementation of the act under the head, State Library is proposed. Accordingly, token provision for the new posts is given for the year 1995-96. Incase # additional fund is available the Department desired that this scheme be given priority.

DISTRICT LIBRARIES :

Under the supervision of State Library, the District Library at Lunglei is functioning.

SUB-DIVISIONAL LIBRARIES

Three Sub-Divisional Libraries are functioning at Aizawl, Kolasib and Champhai which are also proposed to be improved and enlarged during 1995-96.

STATE -MUSEUM

The Mizoram State Museum started functioning in 1977. The main function is preservation, up keep of Museum records, collection of Museum objects and display. The fund during the Annual Plan 1995–96 is concentrated for collection of Museum objects and for installation of internal equipments.

DISTRICT MUSEUM

The National Policy is to extend Museum facility in the rural areas and as Rural Development has been given priority, it is imperative to set up District Museum in each the Southern District of Lunglei and Chhimtuipui.

ANTHROPOLOGICAL SURVEY

The Anthropological Survey has been part and percel of this Department. The extrame south and southeastern belt of Mizoram have to be surveyed where there are various ethnic groups or tribal clans.

DISTRICT GAZETTEER

The main assignment of District Gazetteer is to prepare Mizoram District Gazetteer. With Mizoram becoming a State, more districts are likely to be created in the near future and weaks is also to be enlarged.

XI(E) - 1

HEALTH DEPARTMENT

1.: I . t

Due to limited sources of Fund Under such situation, a wider coverage of Health-care Services in rumal areas in particular for establishment of more CHC, PHC,SC and extension of existing Hospitals with improvement of other health programmes, as well as the administrative set up could not be taken it no condideration during 1995-96.

XI (E) - 3

iii) Maternity Hospital Kulikawn:

Fund will be provided for continuation of the works which was started during 1994-95 for 40 beded maspital.

iv) Maternity Hospital Chawlhmun:

The Scheme was included in the Annual Plan 1994-95, but it could not be implemented due to non-final-isation of the site. Only as a token provision, fund will be provided for continutation of the scheme during 1995-96.

v) Serchhip Hospital:

Re-construction and expansion of the Hospital into 50 beded capacity was started during 1994-95 and for continuation, fund will be provided.

2. Staff:

Fund will be provided for entertainment of posts already created in the earlier years.

C. MEDICAL EDUCATION RESEARCH AND TRAINING:

Fund will be provided as a coppus fund for establishment of Regional Para Medical Training Institute at Aizawl, Mizoram.

.

- 116 - XI (F) - 1

PUBLIC HEALTH ENGINEERING DEPARTMENT INTRODUCTION: WATER SUPPLY & SANITATION

During 7th Five Year Plan, Aizawl ang Lunglai towns were considered as Urban areas in respect of Water Supply and Sanitation. Greater Aizawl Water Supply Schame Phase-I feeding 80,000 souls was completed during 7th Plan. Greater Lunglei Water Supply Scheme feeding 66,000 souls at an estimated cost of Rs 1427.00 lakhs ravised to Rs 2254.00 lakhs was taken up from 1∯89-90 1989-90 and continued during 8th Plan. The Scheme likely to be completed during 1994-95. During 8th Five Year Plan 1992-97 Greater Aizawl Water Supply Scheme Phase-Il, Greater Kolosib, Greater Sarchhip Water Supply Schemes are proposed in addition to ongoing Greater Lunglei Water Supply Schime. Some small towns are also proposed to be taken up under Accelerated Urban Water Supply Programme, a newly introduced programme by Ministry of Urban Development where financing pattern is 50% by Govt. of India and 50% as State share.

Almost all the habitated villages as per 1981 census have been provided with some sort of Water Supply Scheme during 7th Plan period. But the level of Water supply in the villages is much below the norms as perscribed by Govt.of India. In addition new villages/habitations have come up as a result of New Land Use Policy which are having no source of drinking water supply. 259 new habitations have already been identified as N.C habitations. During 8th Five Year Plan it is proposed to cover those NC habitations as well as to augment water supply schemes in already covered villages to raise level of water supply,

Sanitation Programme is also proposed to be continued during 8th Plan to improve hygienic standards of the public. For improving hygienic conditions in Aizawl town, it is proposed to take up sewerage scheme along with water supply scheme as an integrated project in the core area of the town with low cost sanitation for fringe area with water quality monitoring

-117 - XI(F) - 2

solid wasta management and health _education components.

There is no adequate drainage system resulting inclandshides, collapse of buildings and loss of life. This also leads to pollution of water sources resulting in communicable diseases. During 1995-96, it is proposed to take up drainage system in the core area of Aizawl town under externally aided programme.

Infrastructure of the Department though expanded but still inadequate to cope up with the increasing work load. It is proposed to expand/strengthen the Department. The posts created during the Plan period could not be transferred to Non-Plan and as such substantial provision is made under Plan as supervi÷sion charges to meet expanditure on Direction and Administration.

RURAL SECICE:

RURAL WATER SUPPLY: All the 690 habitated villages have been provided with some system of drinking water supply by March, 1991. Most of these villages are partially covered having level of water supply much below the norms i.e 40 litres per capita per day as prescribed by Govt. of India. In addition new villages/habitations have also come up as a result of New Land Use Policy which are having no source of drinking water supply. 259 such habitations have already been identified. It is proposed to cover these NG Habitations as well to augment water supply in partially covered villages to raise per capita water supply rate.

ver 40 NC/partially covered habitations for mainten- 'ance for completed Rural Tater Supply Schemes during 1995-96.

2. RURAL SANITATION :

During 7th Plan much headway could not be made in respect of rural sanitation. To improve the

nygianic standards of rural population by providing low cost latrines as per UNDP design.

It is proposed — for construction of 400 units of vantilated improved pit latrines during 1995-96.

URBANSSOIRE:

- 1. URBAN WATER SUPPLY: During 7th Plan, much headway could not be made due to financial constraint in Urban Water Supply Sector under State Plan. As such institutional finances are applied ffom L.I.C as loan and external assistance is also being sought under externally aided programme as per racommendations of Ministery of Urban Development and Planning Commission to give major thrust to Urban Water Supply Sector and accordingly it is proposed to take up/continue drinking water supply schames/integrated schemas in the following towns during 1995-96:-
- a) AIZAWL: Greater Aizawl Water Supply Scheme Phase-I completed during 7th Plan caters for 80,000 souls in the core area of the town. New Government colonies at Luangmual capital complex, Bungtlang Jail, NEHU Campus at Tanhril, New Police complex at Mualpui, Doordershan Complex at Durtlang, Army, CRPF, BRTF areas at Zemobawk and Ar F Coloney at Maumual and other sub-urban areas like Zemabawk, Zuangtui, Durtlang, Sihphir are yet to be covered.

These are proposed to be covered by implamentation of Greater Aizawl Water Supply Scheme Phase—II covering another 80,000 souls at an estimated cost of \$37.00 crores already approved by State Government. Due to fund constraint Ministry of Urban Davalopment and Planning Commission advised to avail external Assistance under Externally Aided Programme. They advised to prepare an integrated project including sewerage in the core area of the town with low cost sanitation for fringe area including water quality monitoring, solid

XI(F) -

waste management and health education. The project is likely to cost around Rs. 150.00 crores or so.

It is proposed to take up Greater Aizawl Wa-ter Supply Scheme Phase - II during 1995-96 including 100.00 lakhs for maintenance of completed Phase-I Scheme. The expenditure on works will be recooped from External Assistance when received in due course of time.

b) SERCHHIP AND KOLASIB: These two towns have been partially covered under rural water supply programme during 7th Plan. The towns have expanded and people suffer acutely during dry period. The schemes costing Rs. 720.00 lakhs and 850.00 lakhs for Greater Serchhip and Greater Kolasib Water Supply Schemes respectively have been approved and works taken up from 1993-94. Works could not progress due to fund constraint and upto date expenditure is Rs. 4.00 lakhs and Rs. 35.00 lakhs respectively upto 1993-94. L.I.C. Laon has been sanctioned to the tune of Rs. 615.84 lakhs for t the two schemes during March 1993 for financing the two schemes and Ist installment amounting to Rs. 167.00 lakhs a; ready released. The second instalment is also being pursued for speeding up the works-

It is proposed to continue these two schemes during 1995 - 96.

- c) <u>S A I H A</u>: The scheme costing Rs.398.00 lakhs for Greater Saiha Water Supply Scheme has been taken up from 1993-94 with the proposed to finance under Accelerated Urban Water Supply Programme on sharing basis 50:50 by Govt. of India and State Government respectively. Since clearance is stall awaited, nomial provision is made as State share during 1995-96.
- d) HNAHTHIAL: Rough estimate for augmentation of Hnahthial Jater Scoply Scheme has been approved by Govt. of India amounting to Rs. 54.24 lakhs for which DPR is being prepared. It is proposed to take up this scheme during 1995-96 as matching grant from the State schare.

-120- XI(F) -5

e) LUNGLEI: Greater Lunglei Water Supply Scheme was taken up during 1989-90. The estimate has been revised to Rs 2254.00 lokhs and expanditure upto March'94 is Rs 1957.00 lokhs. Annual Plan outlay for 1994-95 is Rs 110.00 lokhs. Water has been supplied and scheme is expected to be completed by March, 1995.

Some amount — is proposed during 1995-96 for clearance of liabilities.

2. URBAN SEWARAGE :

Sawarage Schama is proposed for Greater Aizawl. Faasibility study conducted for the town indicated the schame will cost over Rs 3000.00 lakhs. The project report is being prepared as an integrated project for sawarage in the core area of the town with low cost sanitation for fringe area and solid waste management. The project is proposed to be financed under externally Aided Programme as advised by Ministry of Urban Development, Govt.of India.

It is rolocate to the up this scheme during 1995 - 95.

3. URBAN DRAINAGE :

There is no adequate drainage system in the State. This result in lot of natural calamities.

It is proposed to conduct Survey & Investigation including formulation of the Project during 1995-96.

The project is also proposed to be funded under externally Aided Programme.

OTHER SECTOR

on Direction and Administration is on establishment created during 7th Plan as the same could not be transferred to Non-Plan till date. Also more units have been created during 8th Plan for expansion and strengthening of the Department to cope up with the increased work load.

__ 121 -

XI(F) - 6

During 1995-96, some amount is proposed for meeting expenditure on Direction and Administration including new posts for strengthening of the Department.

2. TRAINING:

Training is essential for Officers/Staff of every catagory in the Department to further improve in their working. In-service training does not increase only sphere of knowledge but also enables the trainess to up-dates themselves with the latest development/technology for better service to the department. For this purpose, a training institute is also required to be established especially for lower technical staff, voluntary organisation and awareness. Stipend is also required to be paid to the sponsored students of Engineering/Diploma.

During 1995-96, It is proposed to established fraining Institute and to continue the existing routine of Training, etc.
3. RESEARCH: Water borne diseases are quito common in Mizoram. Water quality survellance is very important. There is one public Health Laboratory and one Mobile Laboratory. For water quality surveillance of spring sources, streams and ground water, procurement of media and equipments are necessary.

During 1995-96, it is roposed to give hajor thrust on Water quality control.

4. <u>SURVEY AND INVESTIGATION</u>: It is one of the important component for providing dependable and sustainable water supply system. The use of modern scientific techniques by using remote sensing and sattelite pictures is very important for the finding/locating the water source.

During 1995-96, '' is proposed for the detailed survey including scientific source finding.

MACHINERY AND EQUIPMENT :

For implementation of Water Supply and Sewerage schemes, different types of machineries and Equipments are required like Air Compressor, Weighing machines, Bulldozer, Generator, Concrete Mixtures, Welding Machines Pulling and lefting machines atc. i/c wireless sets for quick communication.

1995-96 to procurer One Disesel Engine and one Transformer Oil Filteration machine.

6. BUILDINGS:

Department is having very few buildings of its own at Aizawl and in the interior places. With the coming up new units, office and residential builadings are required. It is proposed to construct 5 Office buildings and 10 quarters for officers and staff during 1995-96.

- 123 - XI (G) - 1 100 03

DRAFT ANNUAL PLAN 1.995 - 96 HOUSING (LAD)

- 1. LOW INCOME GROUF HOUSING: The scheme is to provide Housing Loans to 300 Households at the rate of Rs. 30,000/= each, 195 households in Aizawl District, 60 house-holds in Lunglei District and 45 house-holds in Chhimtuipui District,
- 2. MIDDLE INCOME GROUP HOUSING: The scheme is to provide Housing Loans to 414 house—holds at the rate of Rs. 50,000/= each, 280 house—holds in Aizawl District, 84 house—holds in Lunglei District and 50 house—holds in Chhimtuipui District, 8
- 3. <u>SITE AND SERVICE</u>: This new item is proposed to be introduced on the decision of the National Workshop on Twenty Point Programme held on 17.6.1994 at Vigyan Bhavan, New Delhi. Rs. 12.00 lakhs is proposed for 1995-96 for the purpose of house site plans for the Urban Poor, and the target is to benefit 1200 families of Urban Poor at the nominal rate of Rs. 1,000/= per house site.
- 4. MATCHING SHARE OF NRY: Since 1990-91, NRY scheme has been introduced in Mizoram. The funding system is 60:40 (Central, State). For 1995-96, Rs. 10.00 lakhs is proposed for the matching share of one NRY scheme of Housing & Shelter Upgradation (SHASU) to match the expected Central grant of Rs. 15.00 lakhs. Matching contribution for other NRY scheme like SUME and SUME are provided under Urban Development Plan.
- 5. LAND ACQUISITION & DEVELOTMENT: With rapid expansion of the Towns as a result of the mass migration of the people from villages, it becomes imperative to develop lands for human settlement, in the sub-towns to attract persons to acttle in sub-towns with a view to checking mass migration to Aizawl town. The programme of Land Development if mainly to make plans for house-

sites, roads, steps, schools, workshop palaces and other public places. The scheme of 1995-96 is to develop 15 hectares of land in the sub-towns in Aizawl District,

6. PROVISION OF HOUSE-SITES TO RURAL POOR (MNP) :

In Mizofam, house-sites are provided to the Rural Poor mainly free of costs, and the burden of developing the house-sites is put on the shoulder of the allottees, and no expenditure was incurred in the Seventh Plan for this. For the Eighth Plan it is considered necessary to develop land for house-sites in the rural areas before allotment is made to the rural poor. The programme is to make house-site plan, roads, paths etc. at a nominal rate of Rs, 1,000/= per house-site. This nominal rate shall not be released in cash but shall be utilised for developing lands for human settlement for the common benefit of the rural poor, to be executed by the rural poor for wage employment.

For 1995-96, the target is to utilise Rs. 44.00 lakhs for providing 4400 house-sites to the rural poor, 3200 in Aizawl District, 800 in Lunglei District and 400 in Chhimtuipui District.

- 7. PROVISION OF CONSTRUCTION ASSISTANCE TO RURAL POOR (MNP): Dropped on the decision of the National Workshop on Twenty Point Programme held on 17.6.1994 at Vigyan Bhavan, New Delhi.
- 8. RESETTLEMENT OF VILLAGES: The schmeme is very important for the upliftment of rural poor, especially the minority community. This is to be taken up in the like nature of MNP. Many villages in the rural areas are small, consisting of 30 houses or even less and are located at scattered places. The fact that there are more than 700 villages, big or small, are in need of basic facilities like schools, water supply, electricity, play-field, community hall, etc. it is not possible for the Govt. to meet the demand of each and every village.

- 125 -XI (G) - 3

The resettlement programme mostly is to group together small villages into a bigger village at a more suitable place where developmental facilities can be provided to them. Attempts made during the 7th Plan to resettle 16 small villages into 7 villages were very successful.

The resettlement works will be mainly for preparing the village sites for human settlement, construction of house-site alignments, internal foot-path, steps, provision of drinking water from natural sources till such time as permanent water supply scheme can be taken up by PHE etc.

XI (H) - I

GOVERNMENT HOUSING (PWD)

INTRODUCTION

Works fall under this Head of Accounts are Govt. Residential Quarters within Mizoram.

A.DIRECTION & ADMINISTRATION:

Existing posts will be maintained during 1995-96.

B. WORKS:

- 1. Construction of Single Officer Quarter at Babutlang: There is no budget provision during 1995-96.
- 2. Construction of Senior Officer's Quarter at Aizawl : The works will be continued during 1995-96,
- 3. Construction of Govt. Residential Quarter at Various places (within Aizawl Dist.)

Ongoing and new works will be taken up during 1995-96.

- 4. <u>Construction of Govt. Residential Quarter</u> at various places within <u>Lunglei District</u>: On going and new works will be taken up during 1995-96.
- 5. Construction of Govt. Residential Quarter at various places within Chhimtuipui District:

On going works and new ones will be taken up during 1995-96,

XI(I) - 1

POLICE HOUSING
Police Housing was earlier placed under Plan Scheme which has since been stopped from the year 1991-92. Since then the annual badget allotment of Rs.1 crore and Rs. 75 lakhs during 1994-95 from the State Non Plan fund only was made available to meet the huge accomodation requirements of the police forces. Therefore, substantial achievement could not be made during the 1 last 4 years thereby widening the gap between the availability and the need for accomodation.

The total strength of Mizoram Police Force is now 6860 including the I.R. Bn. recently enrolled and the accomodation acailable is 1074 only. The present level of satisfaction is 15.65%. The minimum desireable level as per 8th Finance Commission Report 1984 is 60% for the subordinate Police Officers.

In view of the vey low present level of housing satisfaction beside the deteriorating law and order situation in large part of the country, the demand for efficient services of Police personnel is daily increased To keep up the morale and efficiency of the Police personnel, provision of housing facilities is one of the foremost pre-requisites. Though the Planning Commission decided to treat the Police Housing under Plan scheme from 1993-94, Police Housing is not treated under Plan scheme till date in Mizoram.

Target aim for achievement during the 8th Five Year Plan is 40% level of satisfaction with a physical Target of 1222 Nos. of accomodation and a financial Target of Rs. 1912 lakhs. But due to non-inclusion of Police Housing in the Plan Scheme we would not be able to achieve out target.

Annual Plan 1995-96 consists of Physical Target of 406 Nos. of accompdation rad light midel in the

- 128 -XI (J) - 1 STATE CAPITAL PROJECT

INTRODUCTION:

The main Secretariat of the state of Mizoram, the assembly and most other Government Offices are still housed in the old erstwhile District council buildings. The number of Govt. residential buildings is also far from adequate due to the rapid growth of population, extension of Capital Town and improvement of the Town roads is very essential. Hence there is an urgent next to expand Aizawl Town and to accommodate Govt. Offices i Govt. Buildings. Hence Aizawl capital expansion project was formulated. This has been approved by the Govt. of India.

During 1994-95, Rs. 209.00 lakhs is approved with additional allocation of Rs. 10.00 crores.

SCHEAR-VISE DESCRIPTION

A. Direction & Administration:

It was approved to create Additional Chief Engineer post and Design Cell headed by Executive Engineer (Design) in Chief Engineer Office. The proposal has been submitted for creation of Building Circle and Building Project Division-II headed by Superintending Engineer and Executive Engineer respectively to look after the increasing work load of buildings. These will be supplemented by requisite technical posts.

XI (J) - 2

B. Machinery and Equipment:

Necessary machinery and Juipment will be purchased during 1995 = 96.

C. Construction:

- 1. Consturction of road No.I from junction of road No. II to Ch. Chhunga High School will be continued during 1995 - 96.
- 2. M & BT of Vaivakawn to Ropaiabawk: The works will be continued during 1995 - 96.
 - 3. Construction of road from Zihnghalkawn to NH-54: It will be taken up during 1995 - 96.
- 4. Drainage Scheme at Aizawl Town: The scheme will be continued during 1995 - 96.
- 5. Construction of Additional Secretariat Building at Aizawl: This work was taken up during 1991 - 92 and is expected to complete upto 90% during 1994-95. It is proposed to complete upto 100% during 1995 - 96.
- 6. Construction of Fire Scrvice Building at Aizawl: 50% of the work is expected to be completed during 1994 - 95. It will be compained during 1995 - 96.
- 7. Construction of Chief Engineer PHE Office ata It is proposed to complete during 1995 -Aizawl: 96.
- 8. Reconstruction/Removation of Legislative Assembly House at Aizawl: The re-construction work is started during 1992 - 93. It will be continued during 1995 - 96.

- 9. State Guest House: For completion of the work upto 100% some amount is proposed during 1995 1996.
- 10. Construction of Ministers Bungalow (3-Units) at Tuikhuahtlang and Pabutlang: This is ongoing works. To complete the work some amount is proposed during 1995 - 96.
- 11. Construction of Architecture Cell at Tuikhuahtlang: 90% of the work is expected to be completed during 1994 95. For completion some amount is proposed during 1995 96.
- 12. Construction of Aechanical Circle Offiee at Laipuitlang: (Aizawl): It is expected to complete 40% of the work with an approved outlay of Rs. 5.00 laking It is projected to complete during 1995 96.
- 13. Construction of MPSC: This is new scheme of eight Plan. To start the work upto 5% Rs. 10. 00 lakes is approved during 1994- 95. For continuation of the same amount some is proposed during 1995-96.
- 14. Construction of Secretariat Complex at Khatla: The scheme will be taken up during 1995-96
- 15. Construction of Planning Department

 PH = II: Some amount is proposed during 1995-96 for for completion of this Building.
- 26. Construction of Raj Bhavan: For completion upto 80% some amount is proposed during 1995-96.
- 17. <u>Auditorium at Upper Bazar:</u> To complete the Building upto 33% some amount is proposed during 1995 96.

XI (J-) - 4

- 18. Construction of D.C. Quarter at Tuikhunhtlang: It will be completed during 1995-96.
- 19. Construction of Chief Minister Bungat Low: It is proposed to complete 95% during 1994– 95. Some amount is proposed for completion during 1995-96.
 - 20. Construction of Gkvt. Quarter at Khatla: The work will be continued during 1995-96.
- 21. Construction of Central Circle Office
 Building: It is expected to complete 80% of work
 with an amount of Rs. 40.00 lakhs during 1994-95. The
 work will be continued during 1995-96.
- 22. Construction of High Court Office Building: (At Aignwl): It will be continued during 1995-96.
- 23. Special repair of Govt. Quarter at Luangmual Complex: It will be taken up during 1995-96.
- <u>24. Construction of Additional Secretariat</u> (Western Block): To start this new work upto 75% some amount is proposed during 1995-96.
- 25. Construction of Superintending Engineer (Western) Office at Luangmual: To start this new work upto 95% some amount is proposed during 1995-96.
- 26. Construction of Superintending Engineer (Eastern) Office at Luangmual: To start this new building work upto 95% some amount is proposed during 1995-96.

- 132 XI (K) - 1 DRAFT ANNUAL PLAN 1995-96 URBAN DEVELOPMENT (LAD)

050-LAND

- 1) CONSTRUCTION OF MINOR ROADS: The scheme is to build up initial link road to connect new residential areas in the expanded portions of the towns, and also to construct roads for approach to Garbage Dumping Ground.
- lives in the congested towns, lity are in need of some recreational places where people could enjoy their time. Without such places, lives in Towns and City could be frustrated and vain. In Aizawl, a public recreational place at Lawibual consisting of a Beginners' Swimming Dool has been constructed. Some important works like side pools, foot bridges, diversion of drain etc. require completion. Another one spot viz District Park at Zobawk in Lunglei Town will also be taken up.
- situated on spur of hills which steep down to the gorges or streams below/between the spurs. Roads and residential link go on the spurs in horizontal lines. The only vertical link between the adjacent rows are steps just like staircases in multi-storied buildings. Due to the steep and irregular topography, each and every spur in the towns requires a number of stres. The scheme of the 8th Plan is to construct masonry reps at various places in the towns and the target for 1995-96 is to construct 6,250 Rm. of steps of 1.80 m width

051 - CONSTRUCTION :

- 1) CONSTRUCTION OF R.C.C. FOOTPATHS: The scheme is to construct R.C.C. footpath along the main road in the towns. With rapid increase of vehicular traffic it becomes necessary to construct foot-path along the road for the pedestrians, and the only possible way of doing this is by R.C.C. works mostly cantiliver. The estimated of the project according to the prevailing P.W.D. schedule of rates cost Rs. 3,500/= per Rm. The scheme for 1995-96 is to continue R.C.C.
- 2) INSTALLATION OF LESV/HESV LUMINAIRES: The scheme is to replace the existing street light and florescent tubes by LPSV Luminaires in Aizawl town. The existing light bulbs and tubes are invariably out of order and not long lasting and frequent repairs or replacements are necessary. LPSV or HPSV Luminaires are completed with single-point control and can be taken up with underground cabling system and are considered to be more economical in the long run. For 1995-96, it is proposed to fit 200 points in replacement of existing street lights.
- and Lunglei are narrow and vehicular traffic is heavy. It is difficult and dangerous for pedestrians to cross the roads and traffic jams at certain junctions have become daily phenomenon. It is important to construct overhead bridges(fly-over) for the safety and convenience of the pedestrians as well as for solving out traffic problems. The 1995-96 scheme is to continue construction of fly-over bridges at Sikulpuikawn in Aizawl town.
- 4) EXTENSION OF DIRECTORATE BUILDING: A ready built house having six floors was purchased for the office of the Directorate of L.A.D. in Aizawl town.

This was found to be highly beneficial and more economical than taking up of new construction. Another ready-build house near the office of the Deputy Commissioner, Aizawl is proposed to be purchased for the office of the District Local administration Office, Aizawl, which till date has been run in a rented house. The total cost will be Rs. 35.00 lakhs or so.

052- MACHINERY AND EQUIPMENT:

SANITATION: The problems of garbages in the towns, clearance of disposal thereof with all the required devises such as manpowers, vehicles and other implements, construction and maintenance of Dumping ground, latrines, urinals, drainage etc. and many other Urban problems of the like nature have become very serious. They are more so during the last 10(ten) years as a result of mass migration of villages into the towns. For 1995-96, it is approved to purchase three more Trucks at the cost of Rs. 3.92 lakhs per one. This is purely for public rervice for daily disposal of town wastes and garbages. It is also proposed to procure necessary working tools for the Sanitation Branch.

190-INVESTMENT :

1) SHOPS & MARKET CENTRES: With rapid expansion of Aizawl city as a result of mass migration of the people from villages it becomes necessary to open shopping centres at various wards. In 1994-95, one Shopping Centre at Khatla Street was constructed at the cost of Rs. 6.00 lakhs. The total project cost of Rs. 22.00 lakhs,

800-OTHER EXPENDITURE :

1) MATCHING SHARE OF U.B.S.P: The scheme is to provide social services and also physical amenities to

 $\overline{\rm XI}$ (K) - 4 the people living in the slum pockets of Aizawl Town and the schemes cover assistance to old-aged and handicapped persons, pre-school learning opportunity, development of slum areas and administrative charges. Rs. 15.00 lakhs is proposed for 1995-96 to match the expected grants of Rs. 22.50 lakhs from the Govt. of India and the target is to benefit 3,000 urban poor living below poverty line.

- MATCHING SHARE OF N.R.Y: This is a part of prorammes for urban poor, entirely for people living under poverty line. The schemes are for SUME, SUME and training For 1995-96, Rs. 20.00 lakhs is provided to match the expected grant of Rs. 30.00 lakhs from the Govt. of India, and the target is to benefit 400 poor families under poverty line.
- PROGRAMME FOR URBAN POOR : Although any part or portion of the towns in Mizoram has not been identified as slum area, yet the lower portions of the twwns are obviously in the conditions of slum. In the 7th Plan, Rs. 15.00 lakhs was spont towards the improvement of urbam slum and the provisions were utilised for construction of footpath, steps, footbridges, urinal, water points at natural sources, community baths etc. The scheme of the 8th Plan is to continue such works to benefit urban poor in the slum pockets. The target of =995-96 is to construct 100 items of such works lakhs for the benefits of 2,000 population, rate of per capita expenditure being Rs. 500/=-

POWER TO THE PEOPLE: This new item is proposed to be introduced on the recommendation of the National Workshop on Twenty Point Programme held on 17.6.94 at Vigyan Bhavan, N.Dolhi. The purpose is to give Urban Local Bodies a lar- $\operatorname{\mathsf{ger}}\ \operatorname{\mathsf{sa}}_V$ in the programmes for Urban Poor inclusive of UBSF and NRY, right from the schemes, beneficiaries, actual implementation.

DEVELOPMENT OF SMALL AND MEDIUM TOWNS STATE FOWN & COUNTRY PLANNING (LAD)

INTRODUCTION: Mizoram is one of the most urbanised State in the Country. Urban population is shooting up due to large scale migration from rural areas couple with expansion of existing towns, creation of additional new towns etc. At present in 22 Census towns the percentage of urban population to total population is 46.20% which is almost double to the National Urbanisation level of 25.72% as per the 1991 Census. While Urbanisation is an expression of economic changes and growth that take place as the State develops. However, such high increase in urban coulation seriously threats on urban eco-system, infrast facture and the life and properties of the people. Mizoram towns had been threatened by heavy landslides, deficiencées of infrastructure and epidemic of various diseases during recent years. Moreover, Mizoram is falls within the Barthquake Prone Area of Zone V as per National Building Code of India.

The State Govt. is aware of the problems pose by the Urbanisation forces on Urban environment, Infrastructure and the life of the people and constituted "Mizoram Urban Planning and Development Advisory Committee" under the Chairmanship of Chief Minister, Mizoram by enforcing the Mizoram Urban and Regional Development Act, 1990 so as to advice, guide, promote and to arrest haphazard growth and to play Co-ordinate role on developmental schemes in urbam areas to avoid Natural and Man-made disaster. The Department operates Integrated Development of Small & Medium Towns which is one of the Sub-heads of Urban Development.

DETAIL SCHEME WILL DESCRIPTION

- A. 2217 03 INTEGRATED DEVELOPMENT OF SMALL AND MEDIUM TOWNS (REVENUE SEC)
- 1. (050) LAND: As instructed by the Ministry of Urban Development and Planning Commission, Govt. of India, State Urbanisation Strategy was formulated and adopted. A number of priority town long term Structure Plan and

short term (immediate) Action Plan were prepared Integrating Spatial and Economic Flanning to guide and point out where future investment for urban infrastructure development should take place to promote the "Wheels" of urban economic activities thereby minimising infrastructure development cost on the one hand and also to advise, guide and regulate the upplanned and unscientific building construction on hill slope, landslides due to careless slope cutting, upplanned storm water drainage, city Garbage disposal to maintain balance eco-system within the City and its environment.

2. (051) - CONSTRUCTION/IMPROVEMENT WORK:

The infrastructure of Aizawl city where more than 22.62% of Mizoram population lived is far below standard and demand immediate improvement. As identified in the City Structure Plan infrastructure of certain mareas which have economic potentiality is intended to be improved upgraded in respect of market, urban transport network & public conveniences with modernise durable structure to create healthy built environments, which in fact, was created during the past few years under the Centrally Sponsored Scheme of Integrated Development of Small and Medium towns.

3. (052) - MACHINERY & EQUIPMENT :

A sum of Rs. 1.00 lakh is earmarked during 1995-96 for purchase of technical equipments and maintenance of existing machineries procured during the previous years.

4. (001) - DIRECTION & ADMINISTRATION :

1. Entertainment of staff (Salary/TE):

The entire Mizoram is falls within Natural Disaster/Earthquake Frone Area of Zone V as per National Building Code of India. Hence it requires skillful urban planning and Systematic development approach to minimise risk. Moreover, the present pattern of urban development is totally uncontrolled and demand immediate intervention to take up urban planning, regulate and control of deve-

lopmental activities for disaster mitigation. The habhazard growth of the towns have already created many problems relating to unscientific building construction, storm water drainage, solid waste disposal, traffic nazard and road accident, unhygenic urban environment and pollution, frequent accurence of landslides, epideate of diseases etc and deficiences of urban infrastructure. The chronic problems of Aizawi city was remarked by the Building Material & Technology Fromotion Council, Planning Commission, Govt. of India, "as one of the most dangerous city in the country." Inspite of this, there is acute shortage of technical manpower to guide and promote various builders and developers as precautionery of measures to safeguard the life, thousand soul.

In view of this, multi-prong approach is required to tackle the problems, that is, regulatory measures and pupported by the additional technical manpower and mass public participation in development pro-The State Govt. had enforced the Mizoram Urban and Regional Development Act, 1990 and constituted State Level Urban Planning & Development Advisory Committee under the chairmanship of Chief Minister, Mizofam so as to advise, guide, assist the State Govt. as well as Department to take up all possible precaution measures and to coordinate various developmental schemes in a systematic way. Secondly, it is reaquired to re-organise nd strengthen the existing skeleton staff of the Depart-...nt including Branch Office building was already conscructed and whose function will cover the entire Southern region. For this purpose, it is proposed to create the following minimum requirement of post during 1995-96 and for which a sum of Rs. 11.00 lakhs for salary as well as for entertainment of existing staff and also a sum of Rs. 0.50 lakhs for T.E. during 1995-96 is earmarked.

2. WAGES: A token provision of Rs. 0.50 lakhs is earmarked during 1995-96 for payment of Muster Roll for Spewific purpose like Building and its Usage Survey, locio-econômic Survey, Utility & Services Survey, physical/ground survey, Trace path construction etc.

- Due to rapid urbanisation, the present Town & Country Planning operation is necessitated expansion. Consequent upon this, the Government had resolved for opening of Town & Country Planning Branch Office at Lunglei to arrest urban problems in the southern region.
- 4. RENT FOR PRIVATE SUILDING: As the Department does not have building of its own, a sum of Rs. 0.30 lakh is earmarked for payment of House Rent during 1995-96.
- 5. TRAINNING/STIPEND & WORKSHOP/SEMINAR: Town & Country Planning is specialised job which requires specialise training. To send local talented persons for training on Town Planning, Remote sensing, Computer application and other related technical field for Town Planning and development management and also to conduct workshop Seminar to consult public and make awareness among the mass a xum of Rs. 0.20 lakh is earmarked during 1995 96.
- B. 4217 03: INTEGRATED DEVELOPMENT OF SMALL & MEDIUM TOWNS (CAPITAL SEC/C.S.S. Matching Share):
- 1. <u>(050) LAND:</u> Most of the Small & Medium Towns of Mizoram are extremely deficient on various urban infrastructure and facilities due to large scale migration from rural areas which threats on infrastructure. Therefore, the urgency of improvement of the existing infrastructure, for instance, Market Centres, Storm—Water Drains, Link Roads, Bus waiting shed, Park and recreational places, garbage disposal, natural hazard etc, is badly felt at all level.

XI (L) - 5

Therefore to counteract and to promote Urban Infrastructure, Action Plan was prepared for the first 3 priority towns under the State Urbanisation Strategy for 8th Flan and approved by the Ministry of Urban Development, Govt. of India. Such Township against the cost of schemes and required State contribution during 1995-96 are as below:-

| | £ | <u> </u> | | |
|----|------------|---------------------------------|-------------|--|
| | Name of To | ovn incroved st. And vin India. | for 1995-96 | Remarks. |

DRAFT ANNUAL PLAN 1995-1996 INFORMATION AND PUBLIC RELATIONS

· INTRODUCTION : .

The Department is now concentrating its activities to support developmental activities of various Departments and also to bring the people of Mizoram closer to the mainstream of National Life through the use of Modern techniques of Communications such as Television, Radio and through Cultural and Social Exchange. To achieve these goals we propose to modernise our equipments, mode of functioning by using all available electronic media. It is also proposed to train the existing staff in the modern techniques so that they may be at par with the Office in the rest of the Country.

Besides, the on going scheme, the following items are proposed to be taken up during 1995-96

1. DIRECTION & ADMINISTRATION:

The scheme for construction of Conference Hall cum-Auditorium at Treasury Square, Aizawl was approved and the work is being taken up by the Public Works Department and will be carried on during the Annual Plan 1995-96.

2. PRODUCTION OF FILMS

Since it has not been possible for Doordarshan to make sufficient coverage, it has become necessary for the Government to produce some documentary to project a true image of Mizoram and its people so that the Mizo will be known to the rest of the country in a correct perspective and thereby removing misinformation about Mizoram. The Department produces

Mizoram Today, a Video monthly news capsule for inclusion in the Local Programmes of Cable T.V. To intensify production and improve standard and quality better equipment are required.

3. PUBLIC EXHIBITION OF FILMS:

As in the past, it is necessary to procure and purchase films/Video Cassettes on National Integration, Family Planning/Drugs Abuse and such other films for promotion of communal harmony etc.

4. OTHERS :

- (a) Training in Mass Communication: With the introduction of new techniques in Mass Communication, it will be necessary for the Officers of this Department to keep up to modern days.
- (b) Research & Manager : Research and Reference Wing will have to be strengthened at the Directorate as also in the Districts. It is also proposed to purchase computer and laser printer for storing information and important data etc.

5. ADVERTISING & VISUAL PUBLICITY:

During Annual Plan 1995-96, it is hoped that intensive efforts will be continued to support developmental activities. Hence Rs. 2.00 lakks is provided for publication of leaflets etc. and Rs. 1.80 for advertisement

ar. a set in its omit.

6. INFORMATION CENTRES:

14 Information Centres at Rural Areas presently in operational are housed in rented buildings and are inadequately staffed with minimum Audio Visual Equipments To improve the conditions of these Information Centres schemes are accessed to be taken up during 1995-96

7. PRESS INFORMATION SERVICES :

It is necessary to keep Mizoram in Newsmen in the country. It is, therefore, proposed to continue subscription of UNI Services and to install PTI Services in Districts headquarters to keep the public informed of what happen in the rest of the country. It is also proposed to continue subscription of Tele Fax in the districts headquarters for better communication.

8. FIELD PUBLICITY:

With the Government emphasis on rural development and bringing democracy at the grass root level, it is necessary that the field publicity is strengthened and modernised. In order to have a wider publicity/coverage in the remote rural args where electricity is not easily available, it is proposed to purchase Video Projector/Generator for the excisting 3 districts

9. SONGS AND DRAMA SERVICES :

To promote a National Integration the Department has been sending and receiving Cultural Troupe from various States and to various state. It is also decided to organise National Integration Campaign in the boarder areas is a white the first terms of the state of th

Contd....

10. PHOTO SERVICES:

To record various developmental activities for publication as well as for release to the National papers, it has become necessary to enlarge our Photo Services section. As already mentioned earlier with the establishment of local T.V. Transmission-cum-Production Centre at Aizawl, it will be necessary for us to continue to give support to this Centre.

11. PUBLICATION :

Publication of developmental activities and facts about Mizoram will be intensified for both National as well as local consumption. For this part of the consumption
12. COMMUNITY, DIO CELEVISION:

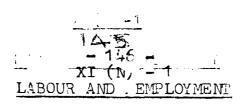

As in the past, the Tep stments proposes to continue installation of Community Listening Sets as well as Community Viewing Sets in the rural areas.

13. OTHER EXPENDITURE :

. 7.0 100 300 300 0000.

<u>Cultural and Social Activities:</u> The Department is organising Team for performance both in Nizoram and

outside, it has been the responsibility of this Department to receive visiting Cultural Troupe from outside Mizoram. The block of the Assumption &.

INTRODUCTION :

Labour and Employment included Craftsmen Training and the programmes are divided into three, such as 1) Labour 2) Employment and 3) Training.

The approved Plan outlay for 1994-95 was Rs 30.00 lakhs only and out of which Rs 4.50 lakhs only was surrendered to Govt. In per direction of Govt. of Mizoram leaving a balance of Rs 25.50 lakhs only.

SOCIAL WELFARE DEPARTMENT

INTRODUCTION :

The Social Telfare Department which came into existence in 1973 as a small Wing of Education Department consolidated the gains already made and achieved concrete programmes during the 5th-6th Plan with considerable expansion of the area of converage and the elsewhere Social Welfare Wing became separate Directorate in 1980.

The scope of activities extended to formulation and endorsement of Social Legislations, service to Welfare of disabled, widow, aged and destitute, social nutrition programmes. In addition, Social Welfare Department is entrusted to implementation of ICDS Scheme.

J.

DIRECTION AND ADMINISTRATION:

Construction: (a) Construction of Child Develooment Project Officers office and Nutrition Godowns at the following four projects headquarters located along the main highway of North to South of Mizoram is proposed. A METERS

- 1) Thingdawl
- 2) Serchhip
- 3) Hnahthial
- 4) Lawngtlai.

These four projects are found to be depicting the image of ICDS in Mizoram in view of their easy accessibility for the general public and for the visitors from outside the State.

Besides, the Department has spent hugh amount for accommodation in the form of rent, and the problem

More acute every year. Hence, construction of C.D.P.O's Office and quarters are considered absolutely necessary.

(b) CONSTRUCTION OF DE-ADDICTION CENTRE AT AIZAWL:

The Department does not have its own building for De-Addiction Centre. Now it is accommodated in the Old building of Jail at Armed Veng. The Jail authority instructed many times to vacafe the Jail building. In view of this, priority is given by the Department to build up permanent assets for De-addiction Centre.

Rs. 5.00 lakhs is proposed for the above buildings as token provision during 1995-96.

- II. <u>WOMEN WELFARE</u>: The following scheme is intended to be continued during 1904 of:
- a) Women Welfare Centre: It is proposed to provide Rs. 0.76 lakhs only as house rent for conducting Anganwadi and helper training under ICDS Scheme.

b) Socio-Economic Programme for Poor & Destitute:

With the outbreak of political disturbance in Mizoram many women have become destitute and unable to earn their living not to speak of supporting their dependents. Those women are desperately in need of care, protention and economic uplift. In most cases, these poor and destitute women have no relative to depend upon. Tance, Rs. 4.00 larges is proposed that this id.

III. WELFARE OF HANDICAPPED:

a) Extension of hostel for handicapped persons at Aizawl: Hostel for handicapped person was opened at Aizawl during 6th Plan with a capacity of 30 inmates, 15 males and 15 females handicapped persons and it is approved to create 1 post of Warrel in the scale of Rs. 1400-2600/= during 1994-95.

It is proposed to fill up during 1995-96 for which Rs. 0.10 lakhs is provided for salary during 1995-96.

XI(0) - 3

V. CORRECTIONAL SERVICES:

A. Prevention of Immoral Traffic, 1986 (as amended in 1986).

The prevention of Immoral Traffic Act, 1986 has envisaged establishment of two kinds of Institutions viz- the Reception Centre where women arrested under the Act are remanded at the Protective Home where persons convicted by the court are Institutionalised and care for. Accordingly, training on different trades are imparted to the inmates in the Institution to ensure their complete and speedy economic and moral rehabilitation. The Reception Centre-cum-Protective Home has been started since 1 35-86.

B. JUVENILE JUSTICE ACT :

This Act primarily aims at prevention of crime committed by and against children upto the age of 16 years in the case of boys and 18 years in the case of girls as also to provide care and protection to those vulnarable to crime or subjected to abuse and exploitation.

Under the Act, a well rounded Juvenile Justice system had been incorporated in confirmity with the United Nations standard Minimum Rules for the administrations of the Juvenile Justice. With a view to fullfilling the statutory responsibility of the State as laid down under this Law, the scheme has been implemented during the 7th Flan with a skeleton strength of staff which is to be continued during 1995-96.

VI. PROHIBITION :

a) De-addiction Centre-cam-Rehabilitation Centre:

It has been roughly estimated that there are about 4000 to 5000 drug addicts in Mizoram, with a very high percentage in Aizawl town alone. Drug abuse is also reading in smaller towns and villages of the State. The abuse has cut across all Social status and effect from the rich to the poor.

XI (0) - 2

It is proposed to continue and maintain the De-Addiction-cum-Rehabilitation Centre for drugs addicts during the year 1995-96.

real day

VII. WELFARE OF FOOR & DESTITUTE :

a) Old Age Pension: Under this scheme, Old Age Pension were given to 1291 members of Old Age persons who have no good supporter and near relative Rs. 100/= per month per head. It is proposed to continue during 1995-96.

NUTRITION

1. SUPLEMENTARY NUTRITION EXOGRAPHE: Supplementary Mutrition Programme was implemented in a nominal manner prior to the 5th Plan period. This was expended during the 5th Plan. The whole of the Union Territory was then covered in a scattered manner covering selected areas.

During the 7th Alin period the programme was further expanded to larger treas. Due to the introduction and expansion of Intergrated Child Development Services in Mizoram, and in view of the fact that Supplementary Nutrition is one of the vital components of ICDS for which Social Welfare Department is the Nodal Department, the Speckal Nutrition Programme Wing of the C.D. Development was transferred to the Social Welfare Department in 1982-83 alongwith the Officers and Staffs, assets and the provision available under the programme of the time.

The Special Nutrition Programme is implemented in 21 Projects of ICDS in Mizoram are as stated below:-

- 1) Centrally Sponsored ICDS Projects 19 Nos.
- 2) State Sector ICDS Project 2 Nos.

Total -21 Nos

With the expansion of the ICDS Schome, various categories of beneficiare is as follows, based on the survey report of the projects during 1994-95.

- 1) Pregnant & Lactating mothers 24138
- 2) Children(6-72 months) 76811
- 3) Severely Malnourished children 1830
- 4) Adolescent Girls 213

<u> Total - 102779</u>

= 152 =

$XI_{P} = I_{P}$

is 300 days. As against the norm the Department could provide only 154 days feeding days during 1995-96.

For the year 1995-96 beneficiaries for mothers, children and the Nos.of Severaly Malnourished Children and Adolescent Girls remain the same. Thereby the expented Nos of beneficiaries will be the same.

1) Pregnant & Lactating Women - 24138

2) Children (6-72 months) - 76811

3) Severely Malnourished Children - 1830

4) Adolescent Girls ______ 213

Total -102779

Govt.of India letter No.F.1-1/91BT dt.21.2.91 revised the cost pattern of Special Nutrition Programme para 4 of the said letter has stated that while providing supplementary nutrition to the beneficiaries does not exceed Rs. 1/- per beneficiaries in the ICDS Projects at the revised rate, it had to be insure that the average expenditure incurred on all beneficial rises per day. Hence, the daily calling for the different categories of beneficiaries for the ICDS Project in Mizoram may be revised as follows:-

- 1) Mother (Pregnant Lactating) Rs. 1.05 per mother per day.
- 2) Children (6-72 months) Rs. 0.85 per child per day.
- 3) Severely Malnourished Children Rs.1.10p per child per day.

With this revised daily rate the average expenditure incurred on beneficiaries does not exceed Rs. 1.00 per beneficiaries per day.

Besides the on going beneficiaries, i.e. Nother, Children and Severely/Malnurished Children special Mutrition Programme for 1993-94 owing to letter

:::

received from the Ministry of Human Resource Development Govt.of India vide No.20-35/90-NBP dt 10.9.91 Girls in the crucial needs. It is, therefore, proposed that the adolescent girl should be occuught into the focus of the women and Child Devel ement package.

These girls will be provided Supplementary Nutrition in the same manner as that of the pregnant Women and nursing mother, viz. 500 colaries and about 20 gms. of protein, while each week, each of them will get Supplementary Nutrition for all working days of the Week. Daily ceiling for the adolescent girls is Rs.1.05 per girl per day.

In Mizoram, this scheme is implemented at Lungdar'E' ICDS Project on an experimental basis.

The Nos. of adolescent girls as per surely report the CDPI is 213 Nos.

The cost Supplementary Nutrition for 213 girls for 300 days = Rs. 67,095/- (Rs.1.05x300) = Rs. 67,095/- per annum.

2. MIDDAY MEAL PROCRA E: Total number of beneficiaries covered under this programme in only 20,000/- per annum and the group of people are Primary Children 6-11 years age group. The programme is intended to be expended graded-up to keep space with the National Norm such Primary Health Programme which has been implemented in Hizoram.

3. COMPUNITY FOOD AND NUTRITION EXTENSION CENTRE.

As per Government of India's letter D.O.NO. 6(5)/83 ENB-D-III dt 11.8.89 addressed to the Chief Secretary, Govt.of Mizoram requested to set up Community Food and Nutrition Extension Centre in Mizoram under Centrally Sponsored Schomes on the pattern that the Department of Food will meet the full cost

154 - 1 XI (P) - 4

of non-recurring expenditure such as equipments etc. required for the Centre Tot two years with 50% share of recurring expenditure such as staff salary etc. for the first year and 25% share of the same during the second year and thereafter the State Government should be on its own. The Govt.of India's Ministry of Pood and Civil Supply have further insisted that Mizoram being the only state where the centre has started but has not provided staff should take stop to start at least one such Centre.

Therefore, as the model Schimes furnished by the Ministry concerned the following posts which were already been included ouring the Annual Plan 1989-90 but which are not created due to band of creation on post were included during the Annual Plan 1992-93.

- 155 --XII-(A) - 1

PRINTING & STATIONERY DEPARTMENT

During the plan period of 1992-95 the initial phase of development activities as projected in the 8th Plan period have been launched. The works have been pregaessing as per schedule. The year of 1995-96 would represent the completion of additional Godown at Luangmual, mizawl, acquisition of land at Chawnpui Veng, Aizawl and RCC Staff Quarter at Lunglei.

Apart from completing the on going schemes/ projects new schem like setting up of a new Stationary Depot at Lawngtlai and repair and renovation of existing building at Aizawl, Lunglei and Saiha are proposed to be taken up during the plan period 1995-96.

It is further proposed to procure a few vital machineries during the target permod.

It is also proposed to sponsore one Traines to undergo training of Printing Technology in Pune, Maharastra State. One post of Manager will be filled up during 1995–96 and creation of one post of Assistant Manager (Tech) Lunglai is proposed during 1995–96 for which Rs 3.25 lakhs is earmarked for the purpose.

ITEM-WISE DESCRIPTION :

1. CONSTRUCTION OF ADDITIONAL GODGWN AT LUANGMUAL, FOR STATIONERY DEPOT

This item of werk has been taken up during the plan period 1992-93, 1993-94 and 1994-95 with Rs 3.00 lakhs, Rs 9.00 lakhs and Rs 4.00 lakhs respectively against the total original estimated cost of Rs 14.98 lakhs. However, there is a suppliementary estimate of Rs 8.62 lakhs for construction of link drain and construction of two Nos. of Chowkidar Sheds. The total estimated cost come to Rs 23.60 lakhs. The total expenditure so far incurred for construction of additional Godown at Luangmual comes to Rs 13.00 lakhs only.

de lo qvisabtisa

2. CONSTRUCTION OF STAFF QUARTER AT LUNGIE I

The Govt. Press Lunglei is located in the outskirt of Lunglei Town and the Govt. Press Staff face difficulties in attending the Office. It is imperative for the Department to provide living quarters within the Govt. Press Complex. A sum of Rs 5.50 lakhs and Rs 5.00 lakhs had been provided during 1993-94 and 1994-95 respectively against the total estimated cost of Rs 18.38 lakhs. and amount fine 1.00 and 1995-06.

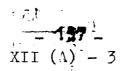

3. SETTING UP OF NEW STATIONERY DEPOT AT AIZAWL

The existing Stationary Depot at Saiha which is meant to serve the need of all the Govt, Offices within Chhimtuipui District is felt not sufficient as a number of Govt. Offices located at Lawngtlai and the surrounding areas can not produre their requirements from Saiha Depot during rainy season as it is cometime impossible to cross the Chhimtuipui river as there is no bridge over Kolodyne river. It is, therefore, felt necessary to set up a new Stationery Depot at Lawngtlai with supporting Staff under the supervision of Assistant Controller, Saiha. It is, expected that land will be made available by District Council authority Lawngtlai.

Applications of the second seco

4. REPAIR AND RENOVATION OF BUILDING AT ALZAWL LUNGLEI AND SAIHA:

The existing departments buildings at Aizawl, Lunglai and Saiha had never been rapaired since its completion. The buklding are in a bad shape particularly because the plastering of and buildings get spoilt on several spots of the buildings. For which Rs 1.00 lakhs is earmarked for rapair and renovation of the Printing and Stationery buildings at Lunglei and Saiha. Besides this, the drainage between the Govt. Prass building and Information and Public Relation Directorate building/ Superintendent of Police Office building need immediate repair to prevent the water from coming inside the building. For the our of the water from coming inside the building. For the our of the late of the coming inside the building.

PURCHASE OF LAND AT CHAWNPUL FOR GOVT. PRESS COMPLEX:

The land belonging to Pu Rinzawna, Mission Veng is proposed for purchase for Govt. Press building —s and Staff Quarters for which Cabinet decision has been conveyed to the department Rs 10.00 lakks has been provided during 1994–95 as first instalment out of which Rs 4.50 lakks is earmanted for surrender to Govt. as the process will take some more time one expenditure has yet been incurred

6. MACHINERIES AND EQUIPMENTS :

Rs 8.00 lakhs have been earmarked for purchase of Minor Machines and purchase of equipments for machineries.

7. MAINTENANCE:

For the maintenance of the existing machine at Aizawl, and Lunglai Press an amount of Rs 4.00 lakhs is earmarked during 1995-96.

-162---YII (7) - 1 PRISONS () ARIMENT

The Department is growing up steadily and these volumn of works as well as the number of Jails are also increasing. New incentive programmes on production units alongwith reformative steps on the line of the modern concepts of prisons have been included in the Annual Plan.

ITEM VISE DESCRIPTION:

1. The Department is having a separate junior Engineer and Store Keeper to look afger all the departmental buildings and a departmental store. In the current year's budget Rs. 5.00 lakes was provided for the same which could not meet for completion of the construction works.

ζ

2. 101 District Jules

To meet the growing demand of staff quarters construction of 10 nos of staff quarters are included There is no office building for Superintendent at Sub-Jail, Kolasib for which some provision is made. The present Jail buildings at Central Jail, Aizawl is far from adequate and constant over croding of prisoners always prevails round the year due to increase of crime/offence. To miniwise to constant crisis one more barrack for prisoners is intended to construct. It is also intedned to construct

- 163 - XII 9c0 - 2

jeepable approach road towards lower part of staff quarters at Central Jail, Aizawl. For repair and renovation of existing jail buildings and construction of retaining wall etc some provision is provided.

- in a few trades like handloom carpentry, shoe making, knitting and tailoring have traded at Central Jail, Aizawl for training of unvict prisoners. For utilising the increasing manpower of prison population, different works connected with gardening, silkworm rearing and piggery are also introduced. It is also necessary to make essential wages for the working prisoners.
 - 4. <u>E00 Other Expenditure</u>: The Government of India has intimated to release Rs 3.00 lakhs as Central share during 1992-97. The scheme is very essential for development of Prisons system Rs 4.00 lakhs is provided as state share on 50% matching contribution.

XII(D) - 1

ADMINISTRATIVE TRAINING INSTITUTE

INTRODUCTION:

1.1 Training is essential for improvement of administration and it is a corner stone for upgradation of the standard of administration. In Mizoram, proposer Training Institute is yet to be build up. This small Institute started in 1983, is making tangible improvement. The stambling block for expansion of this Institute is Non-availability of land for construction of its building. This is the only Institute making efforts to impart trainings to the different levels of employees of the State Government.

THE PLAN 1995 - 1996 :

2.1 During 1994-95 the Plan outlay is Rs 24.00 lakhs. The important physical and financial targets proposed in the Annual Plan 1995-96 are as below:-

1. Expansion of the existing Training Institute:

The Institute is making vigorous efforts to meet the Training needs of various categories of Govt. employees by organising various training courses. Since, it was set up in a very small scale, the need for expansion is imposing/pressing. A total number of 31 (thirty one) post of various categories have been created under this Institute since its inception. The expenditure for maintenance of these posts, excluding 12 posts already converted under Non-Plan, will be supported from Plan outlay.

2. State Training Institute:

Setting up of new State Training Institute at Aizawl was approved in principle during 1992—93. But this Institute has no plot of land. A plot of land earmarked for the Institute is waiting for clearance. It is expected that clearance will be available during 1995—96 and works started.

_ 165 _ XII (D) + 2

As a measure for mobilisation of resources, the Institute collects a nominal training fee of Rs 500/per trainee per programme from Departments sponsoring their employees to attend training programmes in this Institute. The rate of fee is being reviewed by the Department.

'C' CENTRALLY DOWN TO SCHEMES

The nominal File Itlay of this Institute is supplemented by CSS under Decentralised Plan Training Scheme. The expected outlay under this Scheme for the Annual Plan 1995-96 is Rs 5.00 lakhs.

.

CIVIL AVIATION

The only existing communication for the State of Mizoram with other parts of the country is Road Communication. Because of the peculiar location, topography and hilly terrain, surface communication system is unreliable and far from satisfaction. The lone surface communication linking with neighbouring States is the National Highway-54 which is subject to frequent serious disruptions due to various reasons such as land slides, communal disturbances, road blocks etc. This often resulted in complete cutting off Mizcram from the outside world. Under the circumstances, the need for construction of an Airport within Mizoram capable of handling medium and heavy passengers aircraft such as Boeing-737, Airbus-320 has been seriously and urgently felt. This proposed \ir link will not only serve as communication system with other parts of the country, but will also provide the Life Line for the people of Mizoram.

DIRECTION AND ADMINISTRATION:

There is no provision for this during 1994-95 Rs. 60.00 lakhs is proposed during 1995-96 for creation of Air Port Division who will look after this project.

MACHINERIES AND EQUIPMENTS :

Rs. 120.00 lakhs will be fully utilised during 1994-95 for purchase of Machineries. Rs. 100.00 lakhs is proposed during 1995-96.

WORKS:

CONSTRUCTION OF AIRPORT AT LENGPUI:

Rs. 880.00 lakhs is approved during 1994-95 for starting the work. Rs. 840.00 lakhs is proposed during 1995-96 for continuation of the project.

• • • •

SINLUNG HILLS DEVELOPMENT COUNCIL

In pursuance of the Memorandum of settlement between the Government of Mizoram and the Hmar People's Convention (HPC) which had been made on the 27th July, 1994, a separate Plan fund amounting to Rs. 200.00 lakhs has been earmarked for implementation of various developmental schemes within the Sinlung Hills Development Council area during 1995-96. The developmental plans of the Sinlung Hills Development Council will be implementated by the Departments concerned.

The main objective of the Memorandum of Settlement is to give adequate autonomy to the Sinlung Hills Development Council for Social, economic, cultural and educational advancement of the people under the jurisdiction of the council.

The headquarters of the Council shall during the interim period of 2 years be Sakawrdai and it shall have a separate office with supporting staff.

SCHEMEWISE DESCRIPTION

The following schemes have been proposed to be taken up during 1995-96.

- 1. OFFICE ESTABLISHMENT: For maintenance of the Chairman and mambers of the Council, entertainment of office staff and for office expenses a sum of Rs. 30.00 lakhs has been provided for 1995-96.
- 2. INFRASTRUCTURE: For construction of the following infrastructure buildings, a sum of Rs. 70.00 lakes has been earmarked.
 - (a) Office Building with Council Hall.
- Rs. 25.00 lakhs
- (b) Quarters for Chairman etc.
- Rs. 25.00 lakhs

(c) Rest House

- Rs. 20.00 lakhs

TOTAL - Rs. 70.00 lakhs.

3. TRVELOPMENT WORKS: For execution of developmental schemes on priority basis under various departments like Rural Development, Agriculture & Horticulture, Soil and Water Conservation, A.H. & Vety, Industry, Fisheries, PHE., Local Administration, Sericulture, Road Transport Sports & Youth Services, Co-operation, Public Works, Education & Human Resources, Art & Culture etc. a sum of Rs. 100.00 lakhs has been set aside.
