**(EAST, WEST, SOUTH WEST AND CENTRAL DISTRICTS)**

## ACKNOWLEDGEMENTS

I tender my acknowledgements to the Delhi Minorities Commission's Chairman Shri Safdar H. Khan, members Shri Pushpinder Singh and Shri A. C. Michael, Secretary to the DMC Smt. Rinku Dhugga, Office Superintendent Shri Ashok Kumar, Accounts Officer Shri N. K. Mangal and Senior Head Clerk Shri Digvijay Singh, for providing us an opportunity to work for survey studies of Madarsas in Delhi under Madarsa Modernization Programme. My thanks are also due to the Urdu Officer Shri Zeshan Ahmed and Advisor to the Chairman Shri Usman Ahmed for their efficient communication and Kind Cooperation.

I am thankful to all Madarsas and Masjid Committee members for providing data and documents pertaining to Madarsa education and their cooperation in conducting survey study in the districts of Delhi.

I also thanks to the Madarsas principals for their suggestions, providing data and information, and cooperation at various stages of the survey study.

My sincere thanks to the Project team for their diligent and sincere efforts in completing this survey study, specially to Shri Gopi Nath Senior Research Officer of ORDS for Coordinating the survey team and his association towards data processing and report writing.

  
(Dr. Asad Ali)

Executive Director

## **1. FRAMEWORK OF THE SURVEY STUDY**

### **1.1. Madarsa Education- An Overview:**

Madarsa is an Arabic word which means school. They are generally minority institutes where religious education is provided. The students of Madarsa are generally called Talibans. Madarasas all over the subcontinent are functioning almost the same way, so discovery about Delhi Madarasas will present a broad picture of these particular minority institutes spread all over the country, but we have focused in all nine districts of NCT of Delhi. In Indian context it's really interesting to know that Delhi was the first place where a Madarsa took place first time in Sultanate dynasty.

In India there are three common schools of thought about these institutes, one is totally against of these institutes, and says there is no use of these Madarasas in the modern society, the other group says no, they are useful but need to be reformed but the last group of Ulama and Maulana's consider any kind of intervention in Madarasas unnecessary and reject any kind of modernizations of Madarasas.

All over the Delhi Muslims are very much influenced by the Madarsa culture, whether consciously or unconsciously, but most of them are also actually unaware of the whole Madarsa business.

Now there are so many things have been found out by our Survey team like, What are the teaching methods of Madarsa education? Who are the students? What do they gain from Madarasas? Highlights of their particular culture? How do they live and what are the restrictions imposed on the students? How are these students?

How do they function? What is the purpose of these institutes? Whether they contribute anything to the modern culture and life? There is growing concern among the Maulana and Muslim community and they feel afraid of these day today developments regarding their religious institutes.

To accomplish our survey study we have been visited the 446 Madarsas again and again and have talked widely to the students, teachers and the principal of the various Madarsas situated all over the NCT of Delhi.

In this regard we have covered all 9 districts of NCT of small and large Madarsas of Delhi for detailed survey study and have gathered lots of information which has its DMC dimensions.

### **1.2. Objectives of the Survey:**

- (i) To provide quality education of madarsas in Delhi
- (ii) To provide the financial assistance to Madarsas for encourage the introduction of modern subjects such as Mathematics, Science, Social Studies, English, Hindi and Computer etc.

### **1.3. Scope of the Survey:**

There is a need to asses and examine the madarsas in different parts of Delhi running under the various names. The survey study have been broadly covered two main components,

Firstly, the issues related to the working capabilities and utilization of funds received by various sources for the purpose of imparting education to the students and secondly, the quantitative and qualitative impact of madarsa education in the society.

Since the madarsas education has been operational since Sultanate dynasty in Delhi and its scope enhance from time to time in its own way, the Delhi Minorities Commission, Government of Delhi is desires to obtain feedback about the functioning pattern of madarsas under private heads that have been imparting religious education to students belonging from particular Minority communities and to find out whether the madarsas education is benefits for society or not. With this aim, it is necessary to

review the madarsa education system and required any type of financial assistance from Government to them.

The outcome of the survey study will help the Delhi Minorities Commission to suggest whether to introduce the modern education in madarsas or not for the betterment of students and their teachers in particular and society as in general.

#### **1.4. Survey Questions during the Study**

- Name and address of madarsa
- Year of the establishment/foundation of madarsa
- Whether registered, if so with whom (specify the legal entity i.e society/trust etc.
- Status of building in which madarsa is functioning, whether owned/rented/leased/residential etc.
- Name of head/principal and other functionaries and their level of qualification (Sarprast, Muhtamim, Nazim and Sadar Mudarris etc.)
- Total strength of student's class wise and their socio-economic status.
- Total number of staff and teachers.
- Subjects taught in madarsa
- Specify the New Subjects proposed to be introduced in the madarsa, if any.
- Number of teachers required subject wise
- Sources of fund
- Whether getting any financial aid from any agency, specify with address.
- Total annual expenditures of madarsa
- Whether interested in government financial aid or not
- Linkage of madarsa with any other educational/professional agency, if any
- Specify the infrastructure of building/premises such as area, class rooms, electricity, drinking water and sewage.
- Whether hostel facility avail
- Total number of students availing the boarding facility.
- What is the strength of the madarsas, teaching and non teaching staff and their educational background?

- Whether the course curriculum has provided suitable employment oriented for madaras students?
- What are the problems/obstacles the madarsa has faced during the study?
- What are the perceptions of teachers and students towards modernization of madarsa and its merits and demerits?

## **1.5. Approach and Methodology**

### Area of Survey Study:

The area of survey study comprises of aided and non aided madaras in the State of Delhi. All the Madaras from each district have been selected for the detailed study. The selected madarsa have been covered 100% in each district.

### Data Collection:

The data and information have been collected in fulfillment of objectives of the survey study is based on following sources:

- (1) Official records and registered maintained by madarsa authority
- (2) Discussion with functionaries at madarsa
- (3) Interview with teachers through administering pre-structured questionnaire.

For the purpose of data collection, ORDS have employed qualified and experienced staff, well versed in research methodology used in Social Science Research and provided training on data collection with regard to objectives of the survey study.

The field staff comprised Field Investigators, Research Associates and the Project Director. The Field Investigators have been assigned the task of collecting data by interviewing the beneficiaries through the questionnaire. The task of data collection has been done under the supervision of Research Associates. The Research Associates have checked and verified the data collected by the Field Investigator daily thereby

ensuring systematic and authentic data collection and field operations, and was also be responsible for interviewed the teachers and management. All the field staff has been extensive traveling in inter district and intra districts in the states of Delhi.

#### Tools for Data Collection:

Information has been collected with the help of following interview schedules:

- Interview Schedules for the Students and Teachers levels
- Checklist for discussions with functionaries of madarasas

#### **Data Processing and Analysis:**

Keeping in view of the objectives of the study, the data and basic information collected at Madarasas level as well as management level have been scrutinized and processed on computer through statistical packages like Microsoft Excel wherein simple statistical techniques applied in Social Science Research used for cross tabulation and analyzed. The responses so obtained from the Madarasas and their functionaries have been coded, wherever necessary, and then feed into computer for cross tabulation.

## 2. AN OVERVIEW OF NCT OF DELHI

The NCT of Delhi covers a total area of 1483 square kilometers with a population that stood at 13.8 million in 2001. This made the Delhi the third most populous metropolitan city after Mumbai and Kolkata in India. The City's predominantly urban population nearly 93% is spread over 9 districts. The North West district spread over 440 sq.kms is the largest and New Delhi covering a mere 35sq.kms with around 179.000 residents is the smallest. The North East district is the most densely populated (29,468 persons per sq.kms) and South West the least (4179 persons per sq.km). District wise population is given below:

S.No.	District	Population 2001	Total literacy Rate	Rural	Urban
1	North West	2860869	80.57	78.62	80.77
2	South	2267023	81.96	78.05	82.25
3	West	2128908	83.39	76.19	83.68
4	North East	1768061	77.53	75.58	77.70
5	South West	1755041	83.61	79.61	84.20
6	East	1463583	84.91	81.94	84.94
7	North	781525	80.10	76.48	80.31
8	Central	646385	79.69	-	79.69
9	New Delhi	179112	83.24	-	83.24
	Total	13850507	81.67	78.05	82.25

**Source: Economic Survey of Delhi-2005-06**

Literacy rate that emerged from the Survey was nearly 73%, much lower than the State's average Literacy rate (81.67%) as well as the district's average computed in the census exercise of 2001. Notably, Minority concentrated areas of the district reported alarming high proportion of the illiterate population. According to the Census 2001, the universal primary education was a far cry. Nearly 6.5% of children are denied from formal schooling. The schooling status showed a heavy leaning towards Government

schools among Minorities with nearly 86% of them in the age group 5-25 years attending or having attended them in the past. Contrary to prevalent belief, the option of Madarsa for schooling and education has not received much favour from the Muslims of North East district of Delhi. Only 4.35% of 5-25 population in Category III areas had attended or was attending a madarsa. This was consistent with the earlier findings of national level survey conducted by NCEAR. This also has implication for policy initiatives that have banked on madarasas and their modernization to address educational backwardness among Muslims. The requirement for Government schools was therefore strongly felt by the Minority residents. Inclination towards higher education was found to be dismal especially amongst the minorities.

In terms of religious distribution, an overwhelming majority of the City's population of Hindu constituting 82% followed by Muslims (11.7%), Sikhs (4%) and Christians (0.9%). Taken together Minorities comprises nearly 16.5% of the total population of NCT of Delhi. While the Sikhs and the Christians record literacy rates higher than the States's average, literacy among Muslims is a good 15% lower.

### **Infrastructure and Amenities:**

Despite being part of the NCT of North East district, it does not even the most basic amenities that are considered to be essential for any town. For example, 31.3% of households reported that they do not have tap water facility in their houses. The electrification was not universal. Even the electrified households were not satisfied with the nature of supply. Of the total 600 households, only 533 households were having toilets facility at home. The percentage of such households in Category I was the highest at 59.1%. There were no sewage lines on the streets of almost half of the total households samples. The sewage conditions was extremely poor for the households drawn from minority concentrated areas. Even where sewage line was present, its functioning was reported to be unsatisfactory. The proper drainage systems, too was missing in most of the districts. During rainy season, while the survey was going on, the

roads and streets were constantly blocked with water and could not be navigated. The incidence of these is much higher in the minority concentrated areas specially in Seelampur and Seemapuri also were not sufficiently aware of the importance of hygiene because of lack of proper education.

### 3. MADARSAS FAVOURING NEW COURSES:

Off late, it has been felt by the Madarsas that due to drastic changes in educational system which is directly linked to the job market, there is an urgent need to revamp the educational system of Madarsas. As can be seen from the **Table No.1** about 70% percent of the Madarsas have strongly advocated that there is necessity of changing the curriculum and also introduced new courses. This is an indication that Madarsas have adopted to the changing that are taking place in the society with regards to the advanced curriculum.

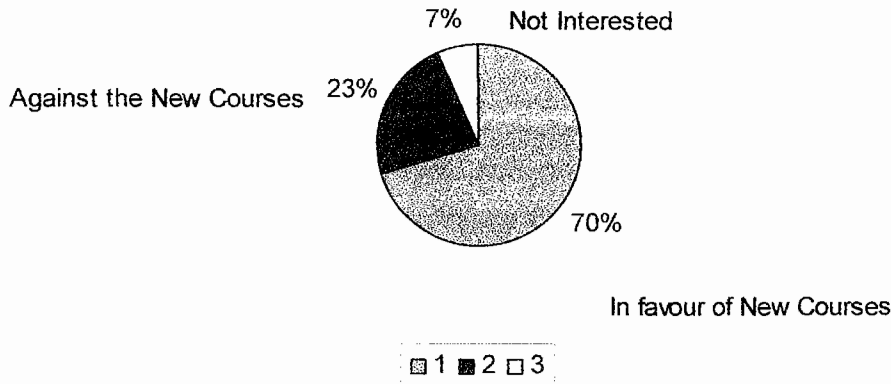

Name of district	Total Number of Madarsa						
	Total Madarsa	Yes	%	No	%	Refused	%
North East District	114	79	69.30	17	14.91	18	15.79
North District	59	38	64.41	17	28.81	4	6.78
south east district	42	33	78.57	6	14.29	3	7.14
east district	31	20	64.52	11	35.48		
north west district	61	52	85.25	9	14.75		
south district	79	52	65.82	24	30.38	3	3.80
west district	19	14	73.68	5	26.32		
central district	23	14	60.87	8	34.78	1	4.35
South west district	18	12	66.67	6	33.33		
<b>Total</b>	<b>446</b>	<b>314</b>	<b>70.40</b>	<b>103</b>	<b>23.09</b>	<b>29</b>	<b>6.50</b>

The Percentage of Madarsas which is not in favour of introducing new courses is only 23 percent which is not much when compared with those who favored in introducing new courses. Of course, there is small percentage of Madarsas which have totally refused the idea of introducing new courses in the curriculum.

District-wise analysis shows that North-West district Madarsa have highly favored introduction of new courses (85.25% percent) whereas the lowest response has come from central district (only 60.87 percent). The details interest of madarsas in favour of New Courses introduced see in **Chart No.1**

Chart-1

**Distribution of New Courses Introduced by Madarsas**

#### **4. MANAGEMENT OF MADARSAS**

Madarsas is a body which is managed by a society, Trust or a Committee. This depends on the members of the Madarsas and also on the location. In most of the places it is run by a Society or a Trust but the most preferred method is running by a full-fledged committee which is elected body and each individual has say in the matters of the Madarsas. Enquiry into this was made during the investigation and following result have been obtained from all the districts of the survey area.

##### **4.1: OWNERSHIP OF THE MADARSAS**

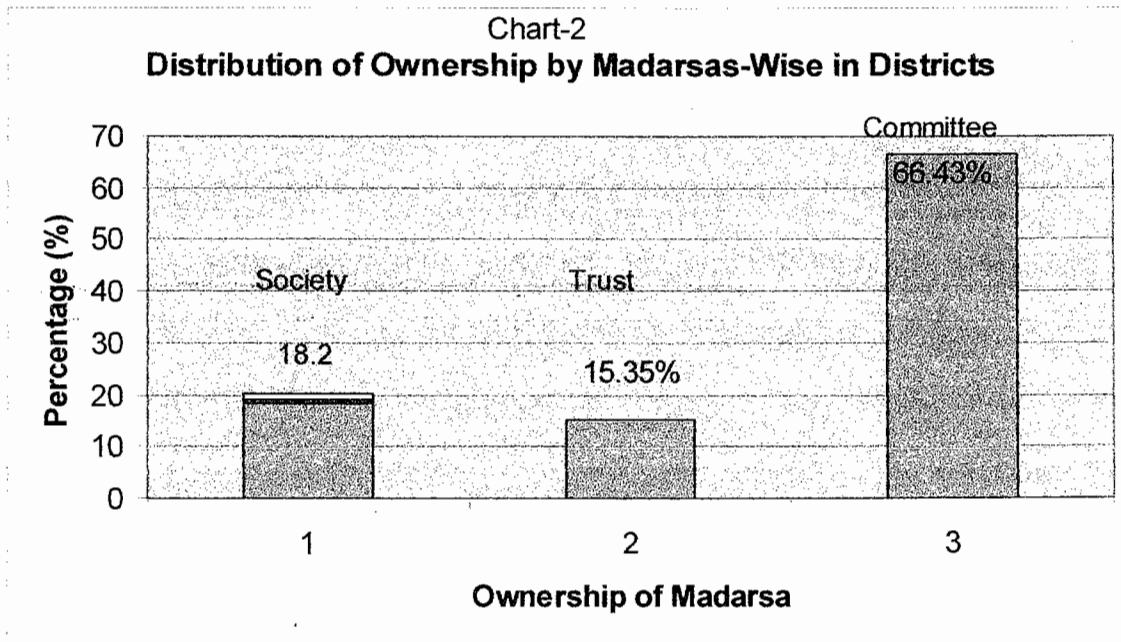

As can be seen about 66 percent of the Madarsas are run by Committee members in the area under survey. This is an indication that the all the members are representative of the Society and they put forth the ideas expressed by the people in various matters of concern and welfare of Madarsas. As far as percentages are concerned about 66

percent of the Madarsas are run by the Committee which is followed by Society (18%) and about (15%) percent by a Trust. (See Table.No.2).

Table-No.2 Distribution of Ownership by Madarsa-Wise in Districts							
District	Society	%	Trust	%	Committee	%	Total Madarsa
North East District	18	18.8	12	12.50	66	68.75	96
North District	7	12.7	7	12.73	41	74.55	55
South east district	12	30.8	9	23.08	18	46.15	39
East district	5	16.1			26	83.87	31
North west district	13	21.3	3	4.92	45	73.77	61
South district	12	15.8	19	25.00	45	59.21	76
West district	5	26.3	5	26.32	9	47.37	19
Central district			7	31.82	15	68.18	22
South west district	4	22.2	2	11.11	12	66.67	18
<b>Total</b>	<b>76</b>	<b>18.2</b>	<b>64</b>	<b>15.35</b>	<b>277</b>	<b>66.43</b>	<b>417</b>

District-wise analysis shows that highest percentage comes from East district of Delhi where about 83 percent of the Madarsas are directly under a Committee and lowest percentage (4.92) is from North-west district of Delhi which is under a Trust. (See the Chart No.2).

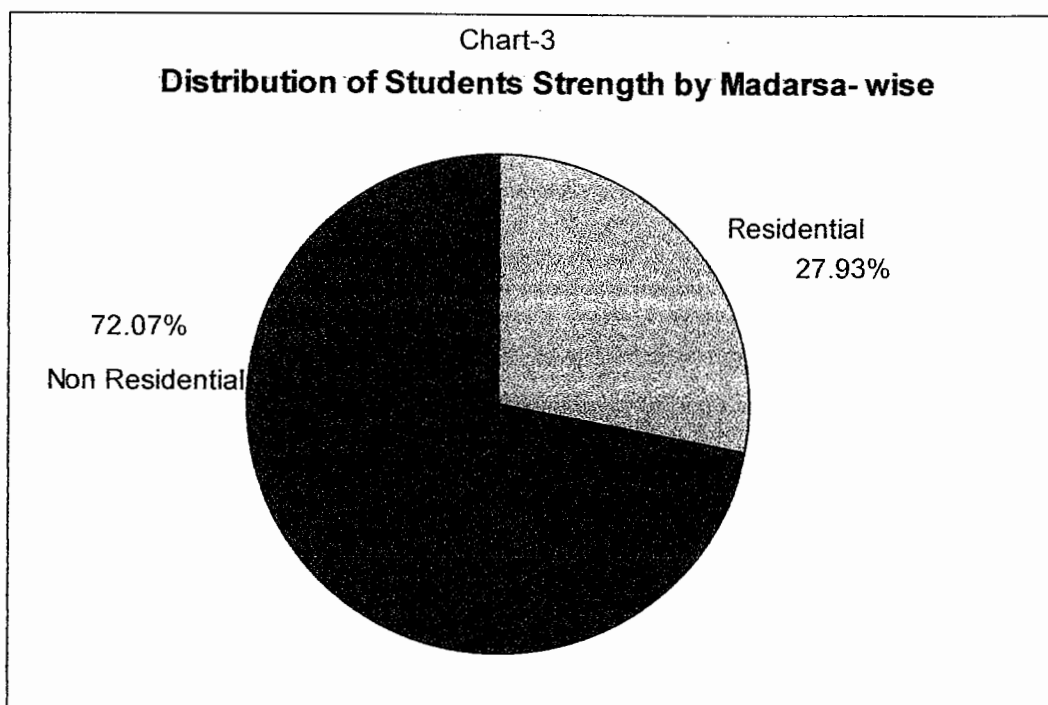

It is important that management of Madarsas is to be considered at top priority as they are the best sources for initiating learning process and students. A proper management process if initiated at appropriate time would definitely improve the services of Madarsas.

## 5. AREA WISE STUDENT'S STRENGTH

It is a general tendency among the ethnic groups to stay at one place to maintain cohesiveness as well as to exchange their views on various issues pertaining to their betterment. Due to paucity of funds and also space crunch, most of the Madarsas have started to operate as non-residential outfits and do not encourage students to stay back. The following **Table No.3** shows the student's strength in the Madarsas of Delhi district.

<b>Table-No.3</b>			
<b>Distribution of Students Strength by Madars-wise</b>			
<b>District</b>	<b>Total Madarsa</b>	<b>Residential</b>	<b>Non Residential</b>
North East District	96	2805	11648
North District	55	1914	3965
South East District	39	1131	4128
East District	31	1266	2823
North West District	61	1390	5990
South District	76	4318	3862
West District	19	356	1550
Central District	22	819	945
South West District	18	115	1515
Total -50540	417	14114	36426
100	417	27.93	72.07

Of the total 417 Madarsas only 27.93% percent have Residential Facilities for the students. Highest percentage of residential facilities can be seen in South District whereas the lowest was recorded at South-West District. Correspondingly 72.07% percent of the Madarsas do not have the facilities for Residential due to space crunch as well as shortage of funds. These factors have led the Parents to send their children in the day schooling. See the details in **Chart No.3**.

## 6. COURSES OFFERED AT MADARSAS

Madarsa offers various courses to students in Islamic studies. Most prominent courses which includes basic as well as advanced are Qaeda, Nazra, Hifz, Alim, Fazil, Iftai etc. The below given table gives details of the enrollment of students in various courses which Madarsas offer.

The highest percentage of enrollment is in the basic course that is Qaeda where the percentage is about 70 percent. Almost all the students take up the basic course as this is the stepping stone for rest of the advanced courses. It is not necessary that a student has to necessarily undertake the advanced courses. He/She may either quit or join other schools for higher learning.

Course-wise percentages indicate that lowest enrollment is in Fazil and Iftai (0.97) and Alim (2.63). The following **Table-No.4** shows the area-wise details show that South and North-east districts have high enrollment in almost all the courses which Madarsas Offer In rest of the districts the percentages are dwindling.

**Table-No.4**  
**Distribution of Course-wise Students Strenght by Madarsas**

District	Qaeda	Nazra	Hifz	Alim/Maulvi	Fazil	Iftai
North East District	9174	1839	2702	844	219	339
North District	4080	483	1176	85	21	45
South East District	3357	611	851	228	71	131
East District	2380	550	939	110	20	20
North West District	4828	962	1222		112	
South District	12115	488	2144	234	116	25
West District	1421	70	455	20		
Central District	1494	60	210			
South West District	1335	20	310			
Total- 57916	40184	5083	10009	1521	559	560
<b>100</b>	<b>69.38</b>	<b>8.78</b>	<b>17.28</b>	<b>2.63</b>	<b>0.97</b>	<b>0.97</b>

## 7. QUALIFICATION OF TEACHERS

Maulvis at Madarsas are qualified and have adapted to the modern teaching methods so that their students remain in competition with others.

**Table-No.5**  
**Distribution of Teachers By Madarsa-wise**

District	Alim/Maulvi	Fazil	Haafiz	1to 5 class	6 to 8 class	Iftae
North East District	95	30	199	51	17	
North District	54	59	69	9	5	3
South East District	61	22	61	40	20	4
East District	41	18	62	2	4	
North West District	65	23	122			4
South District	83	35	151	25	4	9
West District	32	8	18	1		
Central District	28	26	46			
South West District	30	1	20		1	
Total- 1617	448	222	748	128	51	20
100	27.71	13.73	46.26	7.92	3.15	1.24

However, it needs to be mentioned here that the medium of language in the Madarsas is Urdu but is not a deterrent cause for higher learning. The above **Table-No.5** gives the qualification of the Teachers.

Two categories of Teachers i.e. Fazil and Hafiz play an important role in schools. Literally translated they are TGT and PGT's who take up the entire syllabus of academic session of the school and prepare the students for entering the new class. Maulvi or Alim also play an important role as religious teacher and impart knowledge on various aspects of religion and train the students to adopt this profession, depending on their interest. Percentage-wise distribution of the teachers shows that 46, 27 and 13 are Proficiency as Haafiz, Maulvi and Fazil respectively. There is also a category of teacher known as Iftae (Researcher) who is part of the entire system as he/she undertakes the responsibility of studying the recent trends in the educational system and suggest the Committee members for changes in the curriculum of the Madarsas. The percentage trends of teachers in various categories, if taken by each district are varying. The percentage of Hafiz and almost consistent in all the districts Surveyed.

## **8. LAND OWNERSHIP RIGHTS OF MADARSAS**

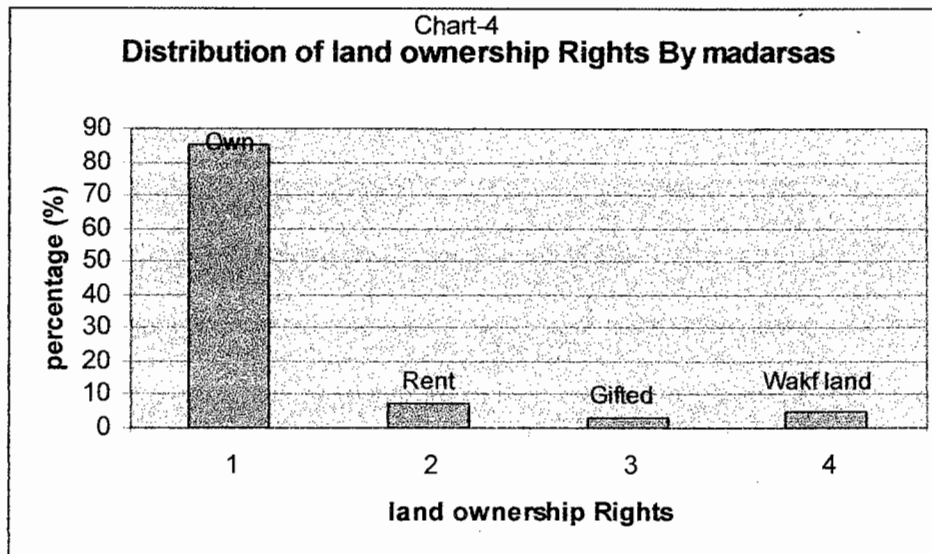

Most of the Madarsas have their own building on their private lands but there are also some which operate from rented premises or from gifted land. It has been found that in most of the cases where the concentration of Muslim population is higher than it is very easy to have their own premises for running the Madarsas. The below **Table-No.6** gives the detail of the land ownership status of Madarsas.

The above table supports the fact that ownership of Madarsas on private land is about 84% percent which is quite high and surprising it is 100% percent in West District of Delhi followed by Madarsas in South-west district and North district. It is surprising to note that the percentage ownership rights on the land are less in south District where there is high concentration of Muslim population.

**Table-No.6  
Distribution of Land Ownership Rights By Madarsas**

District	T- Madarsa	Own	%	Rent	%	Gifted	%	W-Land	%
North East District	96	82	85.42	9	9.38	5	5.21		
North District	55	51	92.73	2	3.64	1	1.82	1	1.82
South East District	39	30	76.92	5	12.82	3	7.69	1	2.56
East District	31	26	83.87	4	12.90			1	3.23
North West District	61	52	85.25	3	4.92	3	4.92	3	4.92
South District	76	60	78.95	4	5.26	1	1.32	11	14.47
West District	19	19	100.00						
Central District	22	17	77.27	2	9.09			3	13.64
South West District	18	17	94.44	1	5.56				
<b>Total</b>	<b>417</b>	<b>354</b>	<b>84.89</b>	<b>30</b>	<b>7.19</b>	<b>13</b>	<b>3.12</b>	<b>20</b>	<b>4.80</b>

Due to escalated land prices it has been found that the percentage of ownership of land rights is less in the categories of gifted and on establishing Madarsas on WAKF land. About 7% percent Madarsas function from rented premises. **(See the Chart-No.4)**

## 9. RECEIPT OF FUNDS FOR MADARSAS

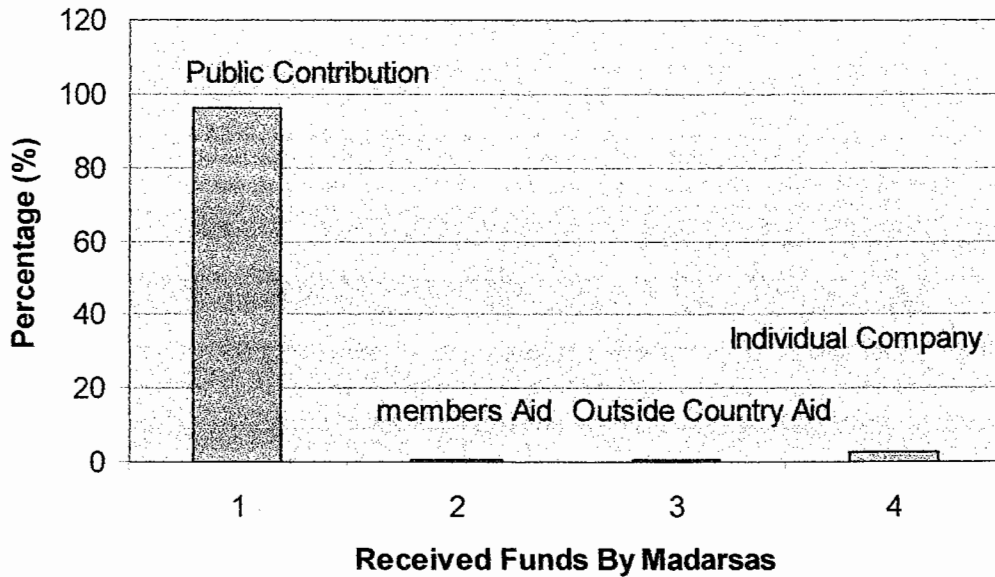

Madarsas are private bodies and depend on outside funding to ensure smooth functioning of administrative as well as academic activities. Most of the funding is generated through private sources and companies. A glance at the following **Table-No.7** reveals the actual funding sources for Madarsas:

District	Pub.cont.	%	Member aid	%	Outside aid	%	indi.com	%	T-Madarsa
North East District	95	98.96	2	2.08	1	1.04	3	3.13	96
North District	49	89.09	1	1.82	1	1.82	3	5.45	55
South East District	38	97.44							39
East District	31	100.00							31
North West District	60	98.36							61
South District	72	94.74					2	2.63	76
West District	18	94.74			1	5.26	1	5.26	19
Central District	19	86.36					2	9.09	22
South West District	18	100.00							18
<b>Total</b>	<b>400</b>	<b>95.92</b>	<b>3</b>	<b>0.72</b>	<b>3</b>	<b>0.72</b>	<b>11</b>	<b>2.64</b>	<b>417</b>

The major sources of funding of the Madarsas is from public contribution (95.9% percent), individual companies (2.6% percent), Member Aid and Outside Aid (0.72% percent). It has been found that a huge percentage of contribution of funds is through public contribution. It is mostly Muslims who contribute for the functioning of the Madarsas as well as to give quality education and instill values among boys and girls towards their religion. Also, it needs to be noted here that Muslims as a cohesive group are in favour of establishing Madarsas make their children aware about their culture and values. In case of East and South-west district the public contribution for this cause is 100 percent. In rest of the districts there is variation in the percentages. (**See the following Chart-No.5)**

It needs to mention here that Madarsas are only learning institutions and do not as such support and advocate other activities which are beyond the limitation of the academics.

Chart-5  
**Distribution of Recieved Funds By Madarsa-Wise**

## 10. CURRICULUM AT MADARSAS

As mentioned earlier, there has been a drastic change in the views of the committee members and Maulivis with regards to the course content of the education being imparted at Madarsas. Madarsas have introduced various courses which would help the students in long-run in getting suitable jobs and also to up-date their knowledge on various new improvements in curriculum. The below **Table-No.8** gives details of courses taught in Madarsas.

As can be seen there is a lot of emphasis on teaching and making students proficient in various languages. Thus, Arabic is one of main language (100% percent) which is being taught in all the Madarsas. The reason for making the students proficient in Arabic because Holy Quran is written in this language and each and every students have to recite it 5 times a day and also as and as when required. Other languages where proficiency is gained by students is Urdu (97.12% percent), Hindi (41.25%

percent) and English (40.05% percent). Persian language is also taught at Madarsas but the percentage is only 22.06 in comparisons to other languages. Among other subjects Mathematics is most popular and is taught in all the Madarsas.

**Table-No.8**  
**Distribution of Course Curriculum By Madarsa-Wise**

District	T-Madarsa	Arabic	Urdu	Hindi	Persian	English	SST	Math	Scien	Comp
North East District	96	96	96	38	24	30	10	27	11	11
North District	55	55	48	19	5	21	6	13	7	7
South East District	39	39	39	22	13	23	10	20	9	7
East District	31	31	30	10	5	10		5	3	3
North West District	61	61	60	11	13	10		9	1	
South District	76	76	75	42	16	44	5	31	10	17
West District	19	19	19	10	8	9	3	3	2	3
Central District	22	22	20	17	5	17		7	1	1
South West District	18	18	18	3	3	3		3	1	
total	417	417	405	172	92	167	34	118	45	49
<b>Total</b>	<b>417</b>	<b>100</b>	<b>97.12</b>	<b>41.25</b>	<b>22.06</b>	<b>40.05</b>	<b>8.153</b>	<b>28.30</b>	<b>10.79</b>	<b>11.75</b>

Others subjects like Science, Computers, and Social Studies etc. are not given high value. District-wise statistics reveal that North East District has consistent figures as far as languages and other subjects are concerned. In rest of the districts, there are variations in the percentages in languages and other subjects. It is important that Madarsas should adopt holistic approach and adapt to the modern educational system for betterment of the students.

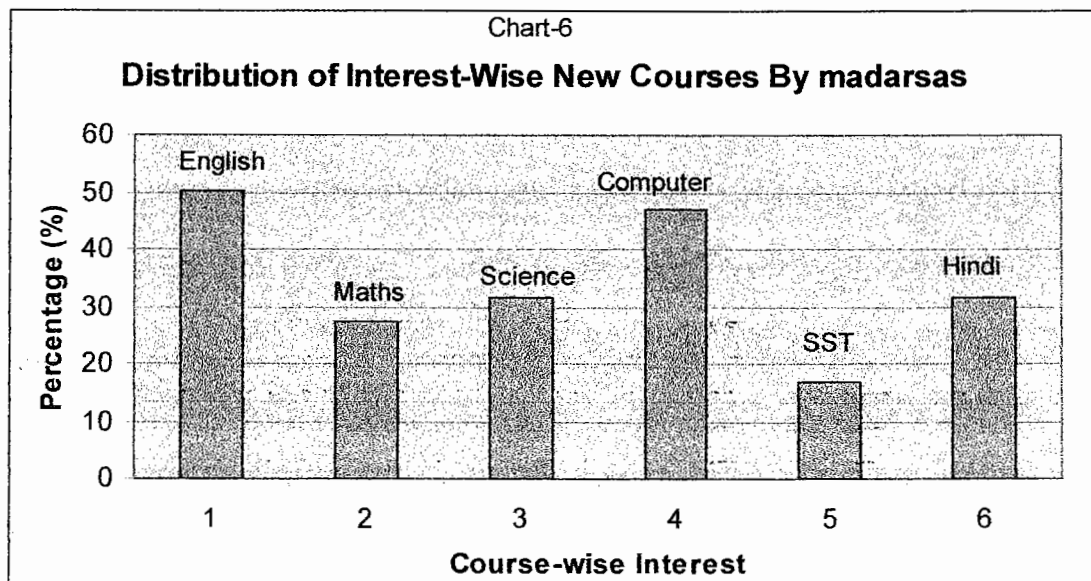

#### **11. INTERESTED FOR INTRODUCING NEW COURSES IN MADARSAS**

There is constant demand from the society and family members for introducing new courses in Madarsas. Such repeated requests have resulted in Madarsas taking interest in revamping present educational system and also by introducing new courses. The details of it are shown in the following **Table-No.9.**

**Table-No.9**  
**Distribution of Interest-Wise New Courses By Madarsas**

District	T- Madarsa	English	Math	Science	Computer	SST	Hindi
North East District	96	47	24	25	50	11	37
North District	55	22	10	7	16		12
South East District	39	27	21	18	25	9	12
East District	31	14	6	2	8		14
North West District	61	49	15	47	44	30	32
South District	76	28	22	23	31	12	11
West District	19	11	7	3	7	4	6
Central District	22	9	3	7	11	4	5
South West District	18	2	6		4		2
	417	209	114	132	196	70	131
<b>Total</b>	<b>417</b>	<b>50.12</b>	<b>27.34</b>	<b>31.65</b>	<b>47.00</b>	<b>16.79</b>	<b>31.41</b>

English and Computer Sciences have been listed as most important courses in the present day as they open-up new job opportunities and help the students to remain in the competitive world. (**See the Chart-No.6**)

Percentage-wise statistics reveal that English (50.12%) and Computer Sciences (47.0%) have been thought as most sought after courses and Madarsas have also been

thinking on those lines for introducing them for the benefits of the students. Other subjects like science and Mathematics have also caught the attention of the Madarasas. Area-wise analysis indicate that Madarasas located in North-east and North-west districts have expressed their interest in introducing new courses and their percentages are much higher than rest of the districts. However, there may be variations in the percentages but it needs to be emphasized that the basic idea is to promote and introduce new courses for the betterment of the students.

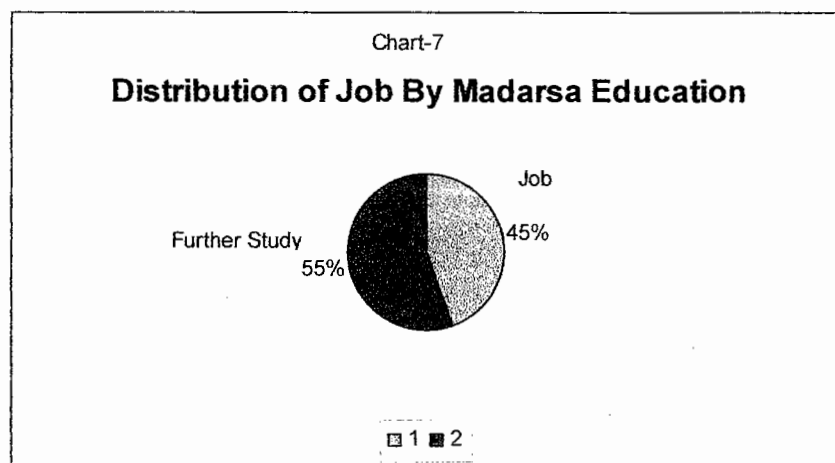

## 12. OUTCOMES FROM MADARSAS EDUCATION

The aim of the education system is to provide a stable and decent job to fulfill the family responsibilities. The below **Table-No.10** gives the outcomes of the courses pursued from Madarasas with respect to getting job or for getting admission to higher courses.

<b>District</b>	<b>Total Madarsa</b>	<b>Job</b>	<b>%</b>	<b>Further study</b>	<b>%</b>
North East District	96	35	36.46	61	63.54
North District	55	36	65.45	19	34.55
South East District	39	10	25.64	29	74.36
East District	31	22	70.97	9	29.03
North West District	61	20	32.79	41	67.21
South District	76	32	42.11	44	57.89
West District	19	13	68.42	6	31.58
Central District	22	13	59.09	9	40.91
South West District	18	6	33.33	12	66.67
<b>Total</b>	<b>417</b>	<b>187</b>	<b>44.84</b>	<b>230</b>	<b>55.16</b>

About 55% percent of the students have opted for pursuing higher studies in correspond to those who joined some job, which is 44% percent. The highest percentage of those who opted for pursuing higher studies is from the districts of South-east district, followed by South-west district and North-east district. In case of students who have joined jobs

account for about 70% percent, 68% percent and 65% percent from the district of east, west and north respectively. (See the Chart-7)

This table is an indication that Muslims are in favour of elevating their social position by pursuing higher education and look for a better job rather than sticking to a small job. Those who have already joined job is solved family problem.

### 13. PROBLEMS FACED IN RUNNING MADARSAS

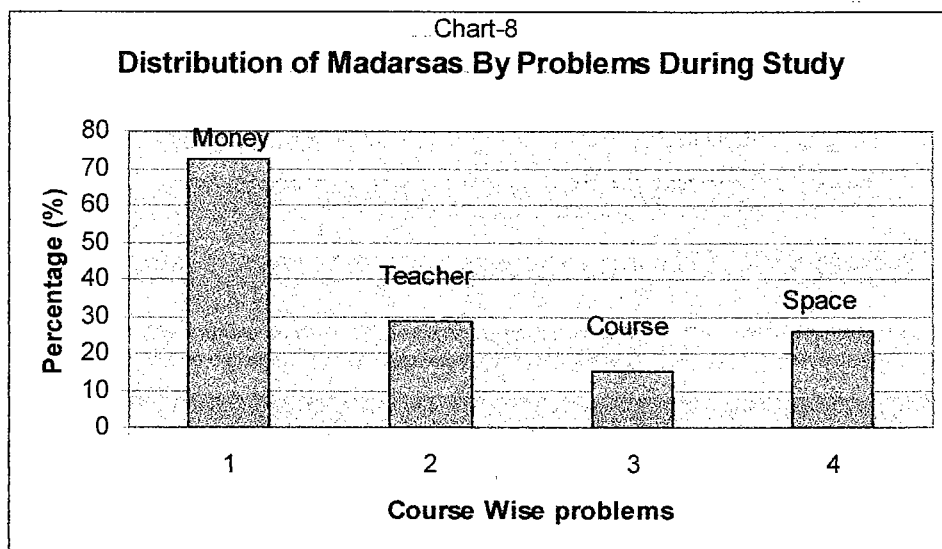

Most of the educational institutions which run on charities have immense problem like financial, space, teachers and other support staff and finally course content. These problems either occur separately or may collectively descend on the functioning of Madarsas. The break-up of the Problems faced by Madarsas are given below in **Table-No.11.**

Of the myriad problems faced in running Madarsas, prominent among them is shortage of funds which has been reported by 72.4% percent respondents. Other major problems faced by Madarsas are absence of qualified teachers to impart education (28.5% percent) and followed by 25.9% percent, madarsas have problems of space to accommodate the growing number of students. The problems of space has been felt severely by the Madarsas as they the best learning centres and can be easily afforded

by all sections of economic groups. Also, these Madarsas are have switched from the traditional educational pattern to new system which is not only job-oriented but also helps the students to up-date their knowledge bank.

<b>Table-No.11</b>					
<b>Distribution of Madarsas By Problems During Study</b>					
<b>District</b>	<b>Total Madarsa</b>	<b>Money</b>	<b>Teachers</b>	<b>Course</b>	<b>Space</b>
North East District	96	73	24	9	30
North District	55	42	6	4	3
South East District	39	35	16	5	17
East District	31	19	11	2	2
North West District	61	50	20	18	25
South District	76	42	24	12	18
West District	19	16	3	4	2
Central District	22	14	2	6	7
South West District	18	11	13	3	4
<b>Total</b>	<b>417</b>	<b>302</b>	<b>119</b>	<b>63</b>	<b>108</b>
<b>Toal %</b>	<b>417</b>	<b>72.42</b>	<b>28.54</b>	<b>15.11</b>	<b>25.90</b>

District-wise analysis shows that North East district (73% percent) followed by North West district face financial problems and also problems of shortage of trained teachers again is perpetual problem faced in almost all the Madarsas. Space to accommodate students is a big problem as Madarsas are easily affordable by all the parents and also the quality of teaching has tremendously improved over the years. **(See the Chart-8).**

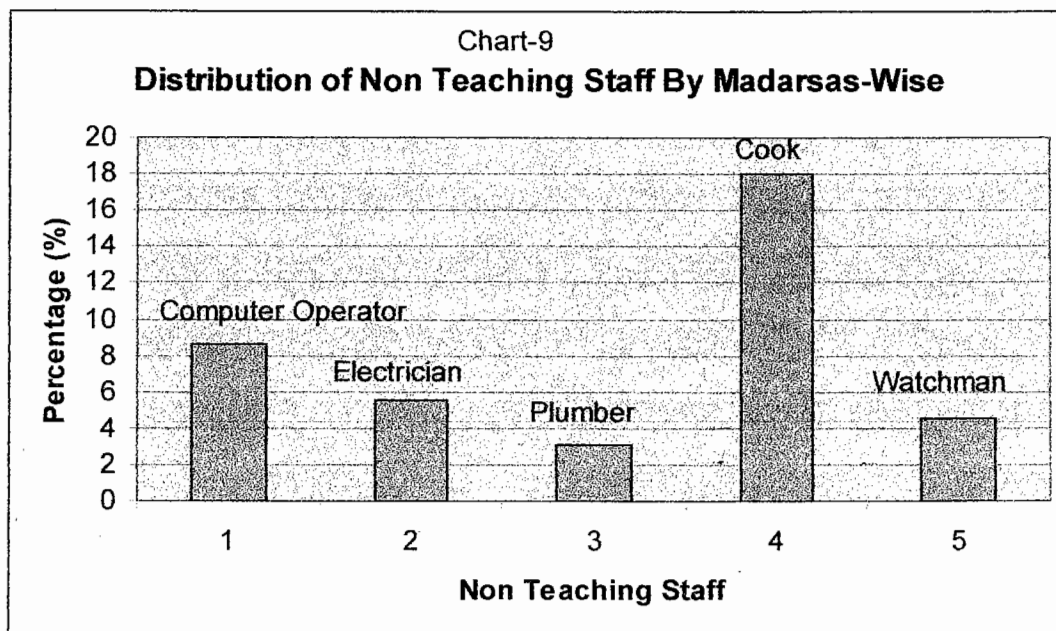

#### 14. SUPPORT STAFF AT MADARSAS

Every institution requires supporting staff to smoothly run the operations. For this a bare minimum staff is appointed to look after smooth functioning of the institution. This staff basically comprises of a Computer Operator, Electrician, Plumber, cook and a Watchman. These people are paid on regular basis as the Madarsas despite the fact that these Madarsas are facing financial crunch but cannot function without them. The percentage availability of such staff is given in the following **Table-No.12**.

District	T-Madarsa	Comp. Operator	Electrician	Plumber	Cook	watchman
North East District	96	11	4		3	1
North District	55	3		2	2	
South East District	39	9	7	2	10	6
East District	31			1	13	1
North West District	61		1	1	24	3
South District	76	12	8	6	12	8
West District	19		3	1	3	2
Central District	22	1			6	
South West District	18				2	
<b>Total</b>	<b>417</b>	<b>36</b>	<b>23</b>	<b>13</b>	<b>75</b>	<b>19</b>
<b>Toal %</b>	<b>417</b>	<b>8.63</b>	<b>5.52</b>	<b>3.12</b>	<b>17.99</b>	<b>4.56</b>

As can be seen the overall percentage of Plumbers and Electrician is 3.12% and 5.52% percent respectively. These workers are hired as and when required in the Madarsas due to the factors like most of the Madarsas are residential and have limited number of toilets and electrical connection and also there is no emergency to get it repaired in the evenings and night. In Madarsas having residential facilities, staff working in the kitchen is in position. These include, cook, Helper and dishwasher etc. The percentage of such staff members is about 18% percent.

Looking at the percentages of support staff at Madarsas, it is very surprising to note that only about 4.5% percent of them having facility of watchman. It is important that in Madarsas where boys and girls are studying, it is essential that safety factor is accorded top priority. The Masjid and Madarsas Committee or any body that is looking after the welfare of the Madarsas should look into this matter and do the needful at the earliest to avoid any untoward incident. Other staff that is available in Madarsas is Computer Operator. The percentage of computer operators is only 8.7% percent which is low when there is introduction of the new courses are on anvil. (See the below Chart-No.9)

District-wise percentages shown in the above table are highly skewed and there is no consistency at all.

## 15. DAILY EXPENSES INCURRED IN RUNNING MADARSAS

As mentioned earlier, the funding for running Madarsas come from various sources. The funders have their limitations and their contribution is almost negligible when looked from the angle of Maintenance, power, water, salaries, rent, mid-day meals (if arranged), books and note books and at times transportation etc. keeping in view huge expenses, Madarsas have adopted austerity measures and do not exceed their budget frame.

An enquiry into daily expenses of Madarsas from various districts have also been undertaken to assess the overall spending per day. The trend of responses indicates that the Madarsas are surviving on meager funding and it is necessary that other sources both Government as well as non Government sources have to be tapped. District-wise daily expenses of Madarsas is given below.

### 15.1 EXPENSES OF MADARSAS IN NORTH EAST DISTRICT

This district has 96 Madarsas which is highest in comparison to rest of district but expenditure-wise the overall amount spent upto Rs. 1000/- is 54.1% percent.

Per Day Expenditure(Rs.)	No. of Madarsas	%
Rs.250-1000	52	54.17
Rs.1001-3000	33	34.38
Rs.3001-5000	5	5.21
Rs.5001-7000	3	3.13
Rs.7001-10000	3	3.13
<b>Total</b>	<b>96</b>	<b>100</b>

The rest of the details are given in Table. As can be seen the daily expenses have been curtailed by the Madarsa and Masjid Management Committee as they are facing lots of financial crunch. As these Madarsas are specific to Muslim boys and girls the source of funding is not only restricted but highly personalized. These add to meager donations and Madarsas have to restrict to maximum expenditure of Rs.3000/- per day. The percentage of Madarsas spending more than Rs.5000/- are very few which can be seen from the above **Table No.13**.

## 15.2 EXPENSES OF MADARSAS IN NORTH DISTRICT:

In North district of Delhi the total number of Madarsas is 55 and expenditure-wise this district appears to be slightly better than the earlier presented district. **See the below Table-No.14**

<b>Table-14</b>		
<b>Distribution of Madarsas by Per Day Expenditure in North District</b>		
<b>Per Day Expenditure (Rs.)</b>	<b>No. of Madarsas</b>	<b>%</b>
Rs.250-1000	38	69.09
Rs.1001-3000	12	21.82
Rs.3001-5000	1	1.82
Rs.5001-7000	1	1.82
Rs.7001-10000	3	5.45
<b>Total</b>	<b>55</b>	<b>100</b>

This district appears to be rich and have ample funding from various sources and these funds are properly utilized for the benefit of the students and also of support staff and other expenses involved in the maintenance of the Madarsas. The highest amount of upto Rs.10,000/- has been reported by 3 Madarsas whereas in the categories of upto Rs.1000/- and Rs.3000/- it is 69% and 21% percent respectively.

It needs to be reiterated here that some decent funding as daily expenses have to approved by the Masjid and Madarsas Committee so that these Madarsas remain in competition with rest of the so called modern learning centres or modern education centres. Exemption from taxes may be a solution to resolve the crisis.

### 15.3 EXPENSES OF MADARSAS IN SOUTH EAST DISTRICT:

Of the 39 Madarsas in the South East district the expenditure plan on daily basis shows that financial crunch is being faced by them severely and their daily expenses are being shown in the following Table No.15. Similar picture emerges as far as daily expenses are concerned. It needs to be pointed here that despite the fact that there is heavy or low inflow of funds, Madarsas have tried to restrict themselves upto an expense of up to Rs.3000/- per day. In case of this district it is 3% percent in the category of expenses upto Rs.5000/- per day. (See the below Table.No.15).

<b>Table-No.15</b>		
<b>Distribution of Madarsas by Per Day Expenditure in South East District</b>		
<b>Per Day Expenditure(Rs.)</b>	<b>No. of Madarsas</b>	<b>%</b>
Rs.250-1000	21	53.846
Rs.1001-3000	15	38.462
Rs.3001-5000	3	7.692
Rs.5001-7000		
Rs.7001-10000		
<b>Total</b>	<b>39</b>	<b>100</b>

It is essential here to assess the bare minimum expenses for running the Madarsas. For this a Masjid and Madarsas Committee needs to be constituted and also opinion of the staff as well as students and their parents need to be taken into consideration. Based on the results, these Madarsas must look for alternative funding for smooth functioning.

#### 15.4 EXPENSES OF MADARSAS IN EAST DISTRICT:

East district of Delhi has 31 Madarsas and their pattern of daily expenses is given in the following **Table No.16**. As can be seen the expenses of Madarsas in East District of Delhi is almost similar to what has been presented in earlier tables. There is, however, a small variation in the percentages of daily expenses upto Rs.3000/- which comes to less than 50% percent which is almost equivalent to rest of the district which have been described above. In rest of the categories the percentages are uniformly distributed at 3.23% percent.

<b>Per Day Expenditure (Rs.)</b>	<b>No. of Madarsas</b>	<b>%</b>
Rs.250-1000	15	48.39
Rs.1001-3000	13	41.94
Rs.3001-5000	1	3.23
Rs.5001-7000	1	3.23
Rs.7001-10000	1	3.23
<b>Total</b>	<b>31</b>	<b>100</b>

#### 15.5 EXPENSES OF MADARSAS IN CENTRAL DISTRICT:

This district has 22 Madarsas and here also the daily expenses (40.9%) are uniformly placed in the categories up to Rs.1000/- and Rs.3000/- respectively. The below given **Table-No.17** shows much clear picture.

**Table-17**  
**Distribution of Madarsas by Per Day Expenditure in Central District**

Per Day Expenditure (Rs.)	No. of Madarsas	%
Rs.250-1000	9	40.91
Rs.1001-3000	9	40.91
Rs.3001-5000	3	13.64
Rs.5001-7000		
Rs.7001-10000	1	4.55
<b>Total</b>	<b>22</b>	<b>100</b>

About 14% percent of the Madarsas have a daily expenditure of Rs.5000/- which has been reported by 13 Madarsas and it shows that these Madarsas take care of their students and maintain certain level of status than rest of the Madarsas.

#### **15.6 EXPENSES OF MADARSAS IN SOUTH DISTRICT:**

After North East district, South district of Delhi boast of having 76 Madarsas which is quite high looking at the location. Here also these Madarsas are facing shortage of funds and are unable to meet their daily expenses. The below given Table shows the daily expenses of Madarsas of South district. The following **Table-No.18** shows

**Table-No.18**  
**Distribution of Madarsas by Per Day Expenditure in South District**

Per Day Expenditure (Rs.)	No. of Madarsas	%
Rs.250-1000	41	53.95
Rs.1001-3000	29	38.16
Rs.3001-5000	2	2.63
Rs.5001-7000	2	2.63
Rs.7001-10000	2	2.63
<b>Total</b>	<b>76</b>	<b>100</b>

A high percentage (about 54) of Madarsas are spending a meager amount of Rs. 1000/- to meet their daily expenses followed by those spending Rs. 3000/- per day is 38% percent which is relatively high as compared to other districts where investigation have been conducted. About 2.6% percent of Madarsas have spent in the categories of up to Rs. 5000/, Rs. 7000/- and Rs. 10,000/- for daily expenses.

#### 15.7 EXPENSES OF MADARSAS IN SOUTH WEST DISTRICT:

The total number of Madarsas in South-west district is only 18 and also the fund situation is not very bright. The following Table-No.19 is self-explanatory.

Per Day Expenditure(Rs.)	No. of Madarsas	%
Rs.250-1000	14	77.78
Rs.1001-3000	3	16.67
Rs.3001-5000	1	5.56
Rs.5001-7000		
Rs.7001-10000		
<b>Total</b>	<b>18</b>	<b>100</b>

In South West district, about 77% percent of the Madarsas spend an amount of about Rs. 1000 or less to meet daily expenses which is quite high as far as rest of the districts are concerned. In the category of daily spending up to Rs. 3000/- is concerned, it is 16% percent followed by 6% percent in the daily expense category of about Rs.5000/-. There is no uniform pattern in the daily expenses of Madarsas and it is essential that a regulation be brought in to monitor the fund flow and also uniformity in daily expenses.

#### 15.8 EXPENSES OF MADARSAS IN NORTH WEST DISTRICT:

The total number of Madarasas in West District is 61 and their daily expenses are also very modest. The details are presented in below **Table-No.20**.

<b>Table-No.20</b>		
<b>Distribution of Madarasas by Per Day Expenditure in North West District</b>		
<b>Per Day Expenditure (Rs.)</b>	<b>No. of Madarasas</b>	<b>%</b>
Rs.250-1000	29	47.54
Rs.1001-3000	27	44.26
Rs.3001-5000	5	8.20
Rs.5001-7000		
Rs.7001-10000		
<b>Total</b>	<b>61</b>	<b>100</b>

Daily expenses of Madarasas in North West district falls within a range of 44% to 47% percent in the categories of expenses incurred up to Rs. 3000/- and Rs.1000/- respectively. These expenses take care of maintenance and other expenses to run Madarasas. The Madarasas due to financial crunch have to manage judiciously so that some amount is left to meet unforeseen expenses. In case of Madarasas of North-West district about 8.2% percent of Madarasas have spending amount of Rs. 5000/-.

#### **15.9 EXPENSES OF MADARSAS IN WEST DISTRICT:**

West districts have 19 Madarasas and all of them are doing well as far as finances are concerned. The following **Table-No.21** shows that the detailed expense on day to day basis.

<b>Table-No.21</b>		
<b>Distribution of Madarasas by Per Day Expenditure in West District</b>		
<b>Per Day Expenditure (Rs.)</b>	<b>No. of Madarasas</b>	<b>%</b>
Rs.250-1000	7	36.842
Rs.1001-3000	8	42.105
Rs.3001-5000	4	21.053
Rs.5001-7000		
Rs.7001-10000		
<b>Total</b>	<b>19</b>	<b>100</b>

West district Madarsas have shown slight improvement as far as daily expenses are concerned. In the category of daily expenses up to Rs. 5000/- it is 21% percent which is quite high as compared to the rest of districts. Also, there is increased percentage of Madarsas in the expense category of up to Rs. 3000/-. However, there is slight shortfall in the category of expense up to Rs. 1000/- per day which comes to only 36.8% percent looking at the overall picture of districts already mentioned in earlier sections.

## 16. MADARSAS HAVING BASIC AMENITIES

Of the 417 Madarsas, all of them have basic amenities to make comfortable living to the students. Some of the basic amenities like power, water, washroom etc are there in almost all the Madarsas. The details are given below **Table-No.22**.

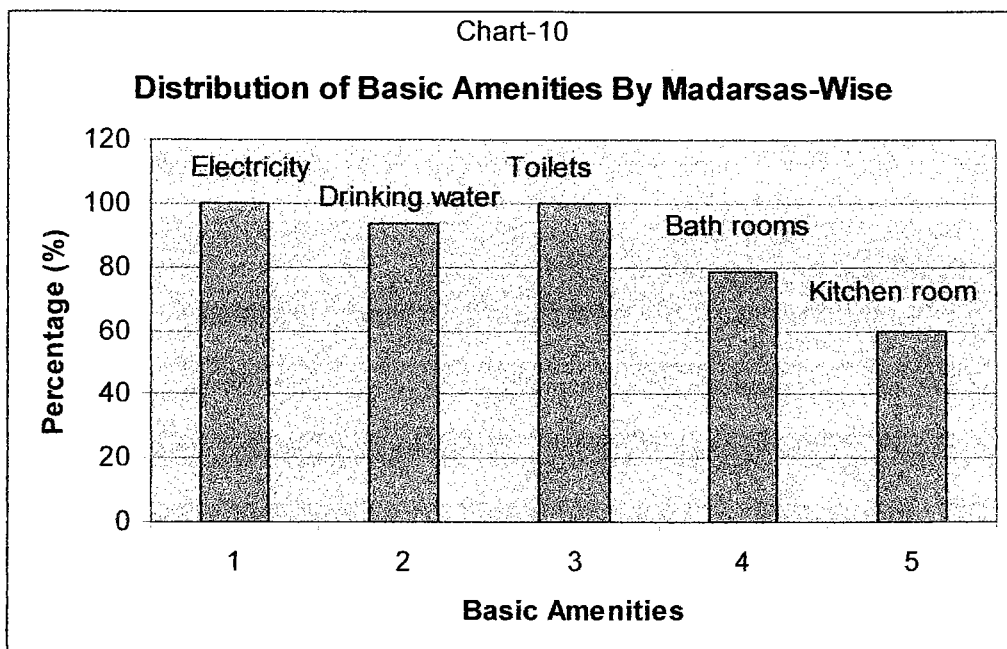

**Table-No.22**  
**Distribution of Basic Amenities by Madarsa-Wise**

District	T- Madarsas	Electricity	Drin.Water	Toilets	Bath rooms	Kitchen Room
North East District	96	96	90	96	76	60
North District	55	55	50	55	48	40
South East District	39	39	37	39	25	20
East District	31	31	28	31	20	10
North West District	61	61	58	61	50	30
South District	76	76	74	76	70	60
West District	19	19	17	19	13	9
Central District	22	22	20	22	12	11
South West District	18	18	17	18	14	8
Total	417	417	391	417	328	248
<b>Total%</b>	<b>417</b>	<b>100%</b>	<b>93.76</b>	<b>100.00</b>	<b>78.66</b>	<b>59.472</b>

In terms of electricity and toilets all the 417 Madarsas have regular connection and the toilets are properly functional. Drain water facilities are available in 94% percent Madarsas and about 78% percent have bath room facilities, which is mostly in the residential campuses. Only 59% percent of Madarsas have the facility of kitchen which

is an indication that these Madarsas have the facility of hostel and cooking is essential component of the system.

It needs to be appreciated here that all the 417 Madarsas in Delhi with limited funding have been able to make their students comfortable and are providing decent education for meeting the competitions. (See the Chart-No.10).

### 17. SOCIAL STATUS OF STUDENT’S PURSUING STUDIES IN MADARSAS

Madarsas are learning centres and have been opened with the purpose of providing education and basic values of life in very simple manner. Madarasas are open to all sections of Muslims Communities and these children are provided free education, books, note books, uniforms and at times meals. The social status of students pursuing education at Madarsas is given below Table No.23.

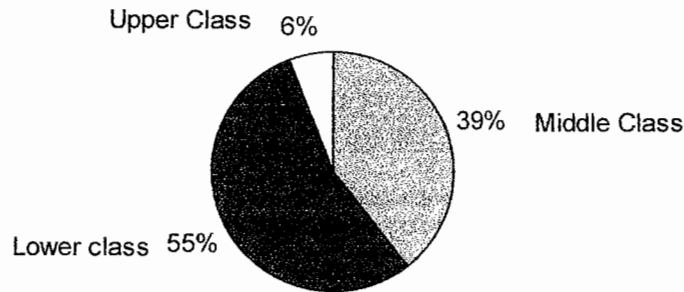

As can be seen about the social status of the students belonging to middle class is 76% percent and this is followed by 55% percent students who belong to socially lower strata of the society. The trend of status of students is almost similar in all the 3 categories. Students belonging to higher or upper class of society do not seek admission in Madarsas but opt for regular schools which are progressive and do not teach religious education.

Overall result points out to the fact that Madarsas provide high quality education keeping in purview the modern adoption of education but have failed in delivery system

<b>Table-No.23</b>				
<b>Distribution of Social Status of Students by Madarsa-Wise</b>				
<b>District</b>	<b>Total Madarsas</b>	<b>Lower</b>	<b>Middle</b>	<b>Upper</b>
North East District	96	41	87	6
North District	55	14	45	
South East District	39	27	18	2
East District	31	20	31	20
North West District	61	51	49	
South District	76	57	44	6

	417	230	318	35
<b>Total</b>	<b>417</b>	<b>55.16</b>	<b>76.26</b>	<b>8.393</b>

due to religious approach. If this attitude is changed than there is scope for lot of improvement and also in fund flow for running the institutions. (See the below Chart-11).

Chart-11

**Distribution of Social Status of Students By Madarsa-wise**

1 2 3

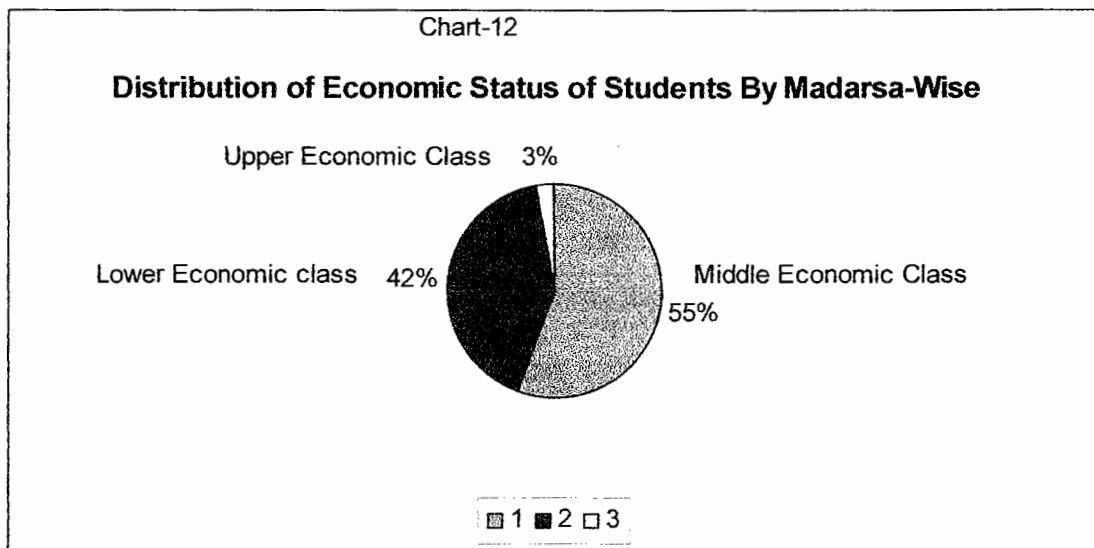

**18. ECONOMIC STATUS OF STUDENTS IN MADARSAS**

This is an important aspect which highlights the fact that economy plays an important role in educating the children. It has been found that most of the Madarsas are located in the fringes of the town and cater to the needs of the children and their guardians. They depend on teachers of Madarsas for advice and various other issues related to their society and their families. The **Table-No.24** gives the details of the economic status of the students in Madarsas of Delhi.

**Table-No.24**  
**Distribution of Economic Status of Students by Madarsa-Wise**

District	Total Madarsas	Lower	Middle	Upper
North East District	96	68	73	3
North District	55	51	39	1
South East District	39	37	16	3
East District	31	30	23	5
North West District	61	60	45	
South District	76	71	45	6
West District	19	19	11	
Central District	22	21	10	1
South West District	18	13	14	
Total	417	370	276	19
<b>Total</b>	<b>417</b>	<b>88.73</b>	<b>66.67</b>	<b>4.556</b>

About 88% percent of the students studying in Madarsas belong to economically lower class and 66% percent belong to middle class. Madarsas as an institution attempts to provide education to all the students irrespective of economic and social status. However, economically stable children do not take admission in Madarsas and study in various private educational institutions.

Also, most of the upper class Muslims reside outside the Muslim dominated areas and have maintained certain level of social status due to their being economically well-being. (See the above Chart-12).

## 19. ISSUES AND RECOMMENDATIONS

Based on first hand information from the Madarsa's Teachers, Principales, students and Madarsas and masjid Committee members the following issues and recommendations have emerged. Views expressed by the Teachers and students may be contradictory to each other but at some point of time it is found that the Modernisation of madarsa education Schemes under Prime Ministers's 15 Point programme initiated by Delhi Government have not been successful due to various reasons. The success of any madarsa education under madarsa Modernisation programme is measured in terms of changes in the madarsa course curriculum. In all 9 district now become 11 districts where the survey was undertaken it has found that majority of the Madarsas in Delhi are in favour of introduction of new courses in madarsas i.e English, Science, Mathematics, Computer Education, Social Sciences etc.

The following major issues have emerged from the discussions held with the Teachers, Principales and members of Masjid and Madarsas Committee also views expressed by the students from various Madarsas in Delhi.

### **Appointment of Qualified Academic and Non-Academic Staff**

- It is the responsibility of the government and other associated agencies to ensure that the requisite staff is in position to run the Madarsas smoothly.
- Both academic as well as non-academic staff should be paid salary on regular basis.
- The staff must also get increment and other permissible benefits as per the norms.
- Provision for retirement plan/pension should also be considered.
- Guest speakers from various other institutions should be invited to Madarsas for giving lectures on various topics which are latest and help the students to lean about the happenings in the world. Such guest speaker should be invited on regular basis.

## **Introduction of New Courses**

- A formal and regulated course structure should be implemented in Madarsas. The courses should be circulated among scholars, educationist etc. for amendments, if necessary.
- Education is fundamental right and modern education should be introduced in all Madarsas so that the students of Madarsas can complete with rest of the students in higher learning as well as in job-oriented courses.
- Due to increase in competition, Madarsas have felt that there is need to revamp the entire educational system. This help the students of Madarsas to learn various new courses which shall make them to adapt the new generation of students who are passing out from other institutions. Also, the tag of being student from Madarsas would gradually be removed.
- All the Madarsas have strongly recommended that computer education should be part of the course-curriculum.
- Madarsas also felt that along with modern educational system, there is also need to revive value-based education and religious education.
- The committee members of Madarsas have felt that new courses need to be introduced but they feel that government intervention would be highly useful in this matter.
- Madarsas should follow certain pattern of education system like, CBSE, AISSE or any board for making the students secure about job as well as for getting admission for higher education.

## **Support from Government and other National and International Agencies**

- Most of the Madarsas are functioning from a small set-up and there is lot of scope for physical development. Government and other agencies can come forward and improve the infrastructural facilities.
- Government must consider Muslims as minorities and should liberally fund Madarsas.

- Madarsas are interested to introduce new courses up due to space crunch and funding is unable to do so. Government should provide land on gratis or give concession in the rent of hiring the premises or may give government building on long-lease for this cause.
- Girl's education is given top priority in India and efforts are being made by various organizations, state government's in this direction. Madarsas have requested that sufficient funds needs to be earmarked for girls education. In turn, Madarsas showing exemplary work towards girl's education should be suitably rewarded.
- Madarsas should function on the lines of MCD schools so that the salary part of the teachers is taken care by the government.
- The students pursuing education must be provided incentives like uniforms, mid-day meal, note books and text books etc. this will be a motivating factor in improved enrollment and attendance of the students.

### **Recognition and Registration of Madarsas**

- This is very important as the Madarsas after registering with the societies Act or educational institutions Act will be getting recognition in the society and also the fund flow would increase.
- A few of Maulivis and Committee Members have strongly urged that all Madarsas should be registered under Madarsa Board and a uniform pattern of functioning and funding. There could be slight variations in the funding as it mostly depends on number of students, staff, location etc.
- Government's recognition in this matter would be highly useful as the students passing out from Madarsas get jobs at par with other students passing out from other institutions.

### **Motivation to Parents**

- Parents should be motivated so that they send their children to Madarasas for learning religious as well as modern education. Some incentives like snacks etc are provided to the students.
- Parents should be called for regular intervals and they must be told the importance of both value-based education as well modern educations for overall development of the personality of the students.
- Madarasas also help the parents as well as students in solving personal problems and also guide them to positive thinking. Regular parent-teacher meetings should be organized for developing inter-personal relationships.

### **Sarva Shiksha Abhiyan**

- Most of the schools and Madarasas have adopted Sarva Shiksha Abhiyan as modern education pattern which have long-lasting benefits and also incentives for students, teachers and the Madarasas. Sarva shiksha abhiyan is one of the most popular schemes adopted by the Madarasas as well as other educational system. This scheme offers mid-day meals, uniforms, note books and text books, school bags, a small amount of scholarship, teacher's salary and rent for the premises.

## Survey Study Sponsored by Delhi Minorities Commission

### I. Project Title : Survey of Madarsas in Delhi under Madarsas Modernization Programme

प्र० 1 :- मदरसे का नाम .....

प्र० 2 :- पता .....

फोन न० ..... मोबाइल न० .....

E-mail ID : ..... Website .....

प्र० 3:- क्या मदरसा रजिस्टर्ड है अगर है तो किसके तहत :-

- |     |   |     |     |      |    |
|-----|---|-----|-----|------|----|
| (a) | Societies Registration Act 1860.          | (i) | Yes | (ii) | No |
| (b) | Registered under Delhi Trust Act          | (i) | Yes | (ii) | No |
| (c) | Registration no. and Date of Registration | (i) |     | (ii) |    |
| (d) | No registration under any Act             | (i) |     |      |    |

अगर नहीं तो किसके तहत चल रहा है .....

प्र० 4:- मदरसा कितने क्षेत्रफल में है

(i) बना हुआ क्षेत्रफल .....

(ii) खाली क्षेत्रफल .....

अगर बना हुआ है तो :- (i) कितने क्लास रूम .....

(ii) कितने बाथरूम .....

(iii) कितने टॉयलेट .....

प्र० 5:- मदरसा कितने क्षेत्रफल में बना हुआ है

जैसे क्लास रूम, बिजली, पीने तथा नहाने का पानी और पानी निकलने के नाले की सुविधा

(i) बिलडिंग कितने क्षेत्रफल में है .....

(ii) सबजेक्ट के हिसाब से क्लास रूम कितने है .....

(iii) बिजली की सुविधा (a) हाँ (b) नहीं

प्र० 11:- मरदसे में रहने वाले टीचर की योग्यता (टीचर स्टाफ)

- (i) कक्षा 1 से 5 तक (इबतदा) .....
- (ii) कक्षा 6 से 8 तक (शानयी) .....
- (iii) आलमीमत के या मोलबीमत .....
- (iv) फजीलत (फाजील) .....
- (v) इफताये (रिसर्च) .....
- (vi) हीफज .....

टेकनीकल स्टाफ

- (i) बी.एड
- (ii) एम. एड

अन्य टीचिंग कर्मचारी (वे कहा तक पढ़े है)

- (i) 1 से 8 तक
- (ii) 9 से 12 तक
- (iii) बी.ए. तक
- (iv) एम.ए. तक

तकनीकी योग्यता

- (i) कम्प्यूटर हार्डवेयर / सॉफ्टवेयर
- (ii) बिजली मेन
- (iii) पलम्बर

प्र० 12:- मरदसे में क्या-क्या विषय पढ़ाया जाता है।

- (i) अरबी
- (ii) उर्दू
- (iii) हिन्दी
- (iv) फरसी
- (v) अंग्रेजी
- (vi) समाजशात्र
- (vii) गणित
- (viii) साईंस
- (ix) कम्प्यूटर
