This brochure entitled 'Selected Educational Statistics' which is ninth in the Series of this publication contains data on selected items for the years 1969-70 and 1970-71 in the various States and Union Territories. The reference date for the year 1969-70 is 30.9.1969 and that for 1970-71 is 30.9.1970.

2. Uptill 1968-69, data for the single-year was being published in the Series of publication. From 1968-69 onwards, this publication was discontinued as it was decided to publish the data collected on the proforma pertaining to selected physical targets by the Planning Commission, a copy of which was endorsed to the Ministry of Education by the States Governments and Union Territory Administration. However, since the data contained in this proforma was not received in time and also appeared to be inaccurate in certain respects, it was, therefore, decided to start the collection on our own proforma, and to cover the gap, the data for 1969-70 and 1970-71 was collected simultaneously. From 1971-72 onwards, the data will be published for the single-year.

3. The items covered in this publication relate to (i) educational institutions of certain selected categories, (ii) the enrolment by stages in respect of general collegiate education, professional/vocational education of both collegiate & school standard, for certain selected categories, and school general education classes, and (iii) the number of teachers in schools for general education.

4. The statistics given in this brochure have been compiled from the returns received from the States Governments and Union Territory Administrations and other material already available with Statistics & Information Division for the Ministry of Education and Social Welfare. The gaps in the data which were observed, have been filled in by estimating or giving the figures of the previous years, wherever it were found necessary to do so. With a view to making these statistics available early, data has been compiled without subjecting it to any elaborate scrutiny. However, where the variations were found to be large, these were referred to the State Governments and the necessary clarification or the revised figures obtained. The final data which will be received in the main Form collection (Form A) after due verification, will be issued later in the publication "Education in India".

5. The Ministry of Education & Social Welfare warmly appreciates the assistance of the Directorate of Education/Public Instructions of all the States and Union Territory Governments who supplied the basic data and made it possible for the Ministry to bring out this brochure.

6. I would like to place on record the good work done under the guidance of Shri G.C. Kwatra, Deputy Director, and the supporting Staff: Sarvashri S.C. Ohri, Statistical Assistant, and S. Chandrashekhar, Computer of the Statistics & Information Division in the compilation of material and preparation of this brochure.
