## F O R W A R D

This is the first Educational Atlas of Jammu and Kashmir being brought out by the Education Department. The Atlas forms a part of the 4th All India Educational Survey conducted in the J&K State. The need for such an Atlas was felt over a long period but could not be published earlier due to various reasons.

The maps indicate population, Schooling Facilities etc. at Village level. One of the most interesting phenomena of this publication is that information regarding the Educational trends in Jammu and Kashmir State is available at a glance.
